

~~~~~ **FLU VACCINE SEASON** ~~~~~

~ Flu Vaccines are recommended to protect you, your family and your work community.

~ Unfortunately, we will not be having flu vaccines through Mt Ascutney at ABS this year. I want to share a few other options with you and will let you know as I hear more.

~ FLU VACCINES are available thru pharmacies, community clinics and providers (if you are at a scheduled appointment).

~ In case you were wondering: If someone is eligible for a Pfizer covid booster there is not a scheduling concern with receiving the flu Vaccine. (see below from CDC\*)

~ The following link is an example of a handy resource for Rite Aid. Put in a zip code and you will be given locations with multiple available appointments. You can also walk in but may have a longer wait:

\* Can the COVID-19 vaccine and other vaccines be given simultaneously?

COVID-19 vaccines may be administered without regard to timing of other vaccines. This includes simultaneous administration of COVID-19 vaccine and other vaccines on the same day.
