CTE Pathways Newsletter

September 2021

Welcome Back!

We are excited to have our CTE Pathway students back in the classroom. Virtual learning can be challenging for our CTE students because our CTE Pathways offer project-based, hands-on learning, which can be difficult to replicate in the virtual classroom. With the challenges of distance learning behind us, our CTE teachers are back in the classroom with their students and the skills-based, industry specific, and project-based training has intensified.

The LBHS CTE Pathways Newsletter will be a monthly tool to share with our students, parents, and community about some of the amazing learning happening in our CTE Pathways.

**Laguna Beach High School
Career Pathway Completer Transcript
Designation**

A CTE Pathway is a series of courses, aligned to one of the 58 Industry Sectors, which provides instruction in career and technical education, leading to college and career readiness for students.

CTE Pathway Completion
Students must complete all courses in a pathway, in sequence, to become a pathway completer. A pathway can consist of either 2 or 3 courses, but must contain at least a concentrator & a capstone course.

Students completing a CTE Pathway earn a Career Pathway Completer Transcript Designation. This designation will show college admissions or prospective employers that an intensive study of a career field was completed by the student. **Click on picture for link to the document.**

Check out our LBHS CTE Pathways video to learn more about some of the Career Pathways that students can participate in during high school.. We offer 7 exciting career pathways on campus & additional pathways after-school at Capistrano High Schools. **Click on picture above to view the video.**

What happened in September?

Dance-Choreography Pathway

Our Dance Pathway is gearing up for their Fall Dance Concert, taking place on Friday, November 19 & Saturday, November 20, at 7:00pm, in the LBHS Artists Theatre.

The students pictured below are members of the Dance 3 course, which is the capstone course for our Dance-Choreography Pathway.

Lila Goldstein, a junior in Dance 3, is learning how to choreograph a contemporary dance routine for her classmates. The dance will premiere at the Fall Dance Concert; we hope you will attend to see the amazing work of our Dance Pathway students.

Other Dance 3 students, in these photos, learning this new dance for the Fall Dance Concert are Giselle Basto, Avalon Bencz, Miranda Hartley, Hannah Le, Leina Slocum, Kate Trevino, and Scarlett Wheaton.

Patient Care Pathway

Our Patient Care Pathway allows students to explore careers in the healthcare fields. Students in both Medical Core Honors and Medical/Hospital Careers courses have been busy receiving instruction and training on HIPAA (Health Insurance Portability Accountability Act) and Bloodborne Pathogens. We are happy to report that all students passed their exams and have received industry certifications for both. These industry certs are valuable documents demonstrating industry skills mastered.

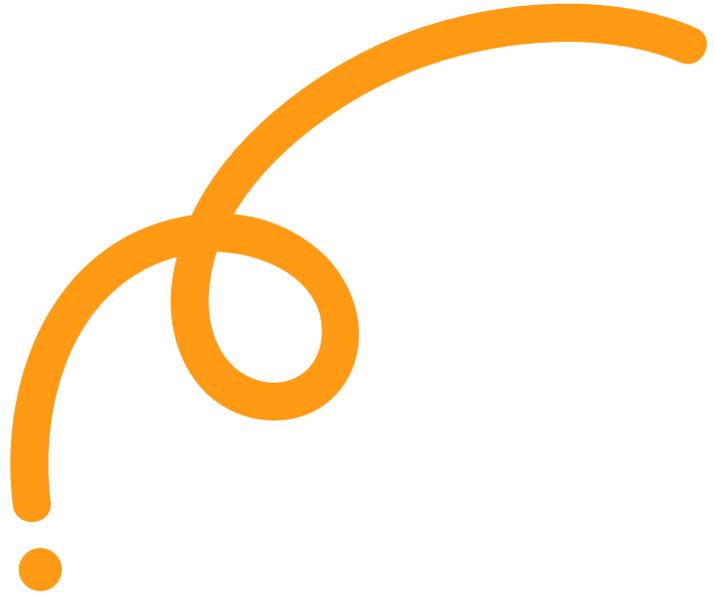

Click on icons above to learn more about the certifications

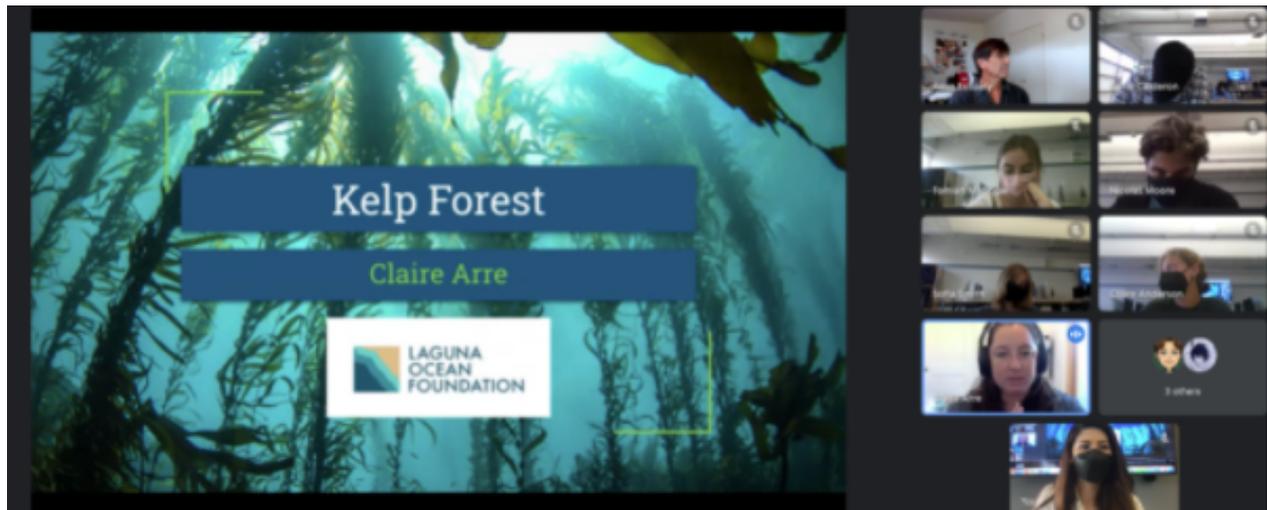

Visual/Commercial Arts Pathway

Our Art Production II class participated in a virtual lesson from an industry expert. Ed Almanza, the vice chair of the Laguna Ocean Foundation, was one of the presenters.

The other presenter was Claire, Arre, a marine biologist. The focus of the lesson was learning about the kelp forest ecosystem. Students will use the knowledge gained from the industry experts to create a group animation project that will be worked on throughout the year.

The Art Production II course is the concentrator course (the 1st course) in the Visual/Commercial Arts Pathway.
