Printing Grade Reports For Driving Insurance
If your child is of driving age, many insurance companies will give you a break on insurance rates for your student driver if they have good grades. They will ask you to provide a grade report. Through Skyward, you can get the grade report you need for your insurance company by following the tips below.

You can access the report by logging into Skyward Qmlativ Family Access online.
- Visit https://skyward.iscorp.com/MidlothianISDTXStuSTS/Session/Signin?area=Home&contro
- Log in with your Skyward credentials. If you need help with your login, please email skyward.student@misd.gs.
- For your student, choose the "Portfolio" tile.
- Find the reporting period needed, click the download button to the left of the date and time. This will allow you to download a pdf version of your student's report card to be printed or emailed.

You can access grades by logging into the Skyward Family Access App.
- Login to the App.
- Choose the grading tile.
- Screenshot the grading report.
- Now you are ready to share this with your insurance company (printing a pdf from the app is not an option).

Need Skyward Support?
MISD provides support for Skyward Family Access on the Web. For the app, MISD can provide support when it comes to logins and passwords. Additional support for the app is available through Skyward. If you need support from Midlothian ISD, please email skyward.student@misd.gs.
