POSITION VACANCY
IT Network Server Engineer

POSTED: October 8, 2021   *STARTING DATE:* Immediately   *APPLICATION DEADLINE:* October 15, 2021 (or until filled)

The successful applicant will provide technical expertise and manual skill in the installation, servicing, and repair of the district's network equipment and servers. This job description is subject to change in response to funding variables, emerging technologies, improved operating procedures, productivity factors, and unforeseen events.

The following duties are representative of performance expectations (but are not limited to):
- Maintain a thorough understanding of Internet protocols (DNS, DHCP, IPv4 and IPv6, HTTP, VPN, etc.)
- Configure and setup switches, firewalls, and security appliances for access to vital business applications
- Design, setup, configure, and monitor multi-VLAN HP/Cisco switching environments.
- Design, setup, configure, and monitor multi-VLAN Ruckus wireless network for support of data, voice and video applications.
- Maintain a thorough understanding of IPv4 NAT as it pertains to LAN, DMZ and WAN.
- Assist in the design of separate client environments including subnets, DHCP, DNS, ACLs, etc.
- Configuring and installing client and server network software for upgrading and maintaining network and telecommunication systems.
- Responding to inquiries from staff, administrators, service providers, site personnel and outside vendors etc. to provide technical assistance and support
- Troubleshooting malfunctions of network hardware and software applications, telephones, and security systems to resolve operational issues and restore services.
- Upholds board policies and follows administrative procedures.
- Performs other specific job-related duties as directed.

Qualifications:
- Strong technical skills as evidenced by an associate degree and/or equivalent combination of computer training/work experience.
- CCNA and/or CCDA certification, and or bachelor's degree is desirable.
- Experience with Windows Server 2016, SCCM 2016, Hyper-V, SQL, Docker Containers and Linux Servers.
- Knowledge of network security through proper configuration of ACL and Firewalls
- Ability to communicate in an understandable, polite and friendly manner, both written and verbal
- A record free of criminal violations that would prohibit public school employment.
- Meets all mandated health requirements (e.g., a negative tuberculosis test, etc.).
