Lower Merion School District

R137 DISTRICT-ISSUED LAPTOPS: STUDENTS USE, RIGHTS AND RESPONSIBILITIES

I. Approved Forms

An approved written notification will be sent to District parents and guardians whose child is eligible to be issued a Laptop before the beginning of the school year containing information relating to the One-to-One Laptop Initiative and how it works. This document will be prepared annually by the High School Building Principals for approval by the Superintendent or designee.

• Attachments A and B - Agreement for Laptop Use

An Agreement for Laptop Use must be signed by the student and student’s parent or guardian and returned to the District prior to the student being issued a District Laptop. An Agreement for Laptop Use must only be signed once in a high school student’s career and also if there is a change in use from on-campus only to off-campus or from on and off-campus to just on-campus. Issuance of this Agreement for Laptop Use obviates the need for a separate Acknowledgment of Receipt of Policy 134: District Provided Technology Resources to be issued. There are two forms of the Agreement for Laptop Use:

- Attachment A is the form permitting Laptops to be used off-campus.
- Attachment B is the form permitting Laptops to be used on campus only.

• Attachment C – Best Practice Guidelines for Use of Student Laptops

Attachment C constitutes the “Best Practice Guidelines for Use of Student Laptops” required by Policy 137 to provide information to students and parents/guardians to encourage and facilitate responsible use of District-issued Laptops. This document shall be posted on the District’s website.

• Attachment D – Information for Parents/Guardians and Students Opting Out of Laptop Initiative

Attachment D is the approved notification to be issued to parents, guardians and students who refuse to sign Agreement for Laptop Use. This document shall be posted on the District’s website.

II. Procedure for Reporting Laptops Missing or Stolen

If a Laptop is missing or suspected stolen, the student must report this immediately to the Assistant Principal in their building. To report a Laptop missing or stolen on campus during the school day, the student must contact the Assistant Principal by phone, electronic mail or by visiting that office. To report a Laptop missing or stolen after school hours, the student must...
III. **Notice Regarding Blocking Software**

Website filtering as referenced in Policy 134 is a function of the LMSD network. The District is limited in its ability to filter material when a student accesses the Internet from a source other than the LMSD-Net and disclaims any responsibility for material accessed in that manner. Parents and guardians are advised to monitor web usage when the Laptop is used at home as appropriate. The LMSD “Best Practice Guidelines for Use of Student Laptops” (Attachment C) is a good reference for this.

Any student who claims that they have been denied access to Internet material needed for bona fide research that is not obscene material, child pornography or other visual depictions deemed harmful to minors shall be afforded expedited review and resolution of this claim by making a written request to the teacher. The teacher shall forward the request via helpdesk ticket system to the appropriate curriculum supervisor who shall respond to the request within a reasonable time under the circumstances not to exceed five (5) days. Only the Superintendent or Director of Information Systems may authorize the disabling of the technology protection measure to permit the access.

IV. **Accommodations for Parents, Guardians and Students Who Refuse to Sign Agreement for Laptop Use**

In the event that the parent/guardian or student refuses to sign either form Agreement for Laptop Use (Attachments A and B), the building principal shall be responsible for ensuring that Attachment E is sent to the parent/guardian and that the District uses its best efforts to make necessary accommodations for the student to ensure that the student’s education is not adversely affected.

V. **Insurance Information**

Payment for insurance is required prior to the issuance of the Laptop for off-campus use. Students of parents and guardians who decline to pay for insurance will not be permitted to take their Laptop off-campus. Parents, guardians and students may be held financially responsible for all uninsured damage, loss or theft of the Laptop while the Laptop is in the possession, custody or control of student, including the applicable deductible charge for each claim covered by the District insurance policy (“covered claim”).

Families who participate in the Free and Reduced lunch program will have the option to forgo the insurance cost yet still have their child’s laptop covered under this insurance agreement. However, families in the Free and Reduced lunch program will be required to pay the applicable deductible charge for each covered claim.

When a Laptop is issued to a student as the result of an IEP team determining, through the SETT
process, that a Laptop is a necessary component of the student’s IEP, then the parent/guardian of the student is not required to pay the laptop insurance premium. However, parents/guardians may be required to pay the applicable insurance deductible charge for each theft, loss, or damage claim.

Parents and guardians may not substitute homeowners or other personal insurance for District-procured laptop insurance. If a student without laptop insurance takes the laptop off site and it is stolen or damaged, the District reserves the right to hold the parent/guardian responsible for full replacement or repair cost.

VI. Modification or Customization of Laptops

Laptops will only be modified or customized with District owned and approved software or hardware in accordance with 504 plans, Individualized Education Programs (IEP), or EL accommodations.

Students or parent/guardians requesting that a laptop have its operating system reinstalled will be requested to explain the basis for their request. If the reason is system failure or other performance issue, a technician will try to replicate the issue before reinstalling the operating system.

Administrative permission to 1 to 1 laptops will be maintained by designated Information Systems Department personnel.

VII. Providing Laptops to Students whose Laptops have been Seized

Students who have had their computer seized based upon reasonable suspicion that the student violated the law, school rules or District policies shall be permitted to use a loaner Laptop in school, but shall not be permitted to take the loaner off campus, unless required by laws pertaining to students with disabilities.

This Administrative Regulation shall be reviewed periodically to ensure that District practices remain current with technology then in place in the District.

Information for Parents/Guardians and Students Opting Out of One-to-One Laptop Initiative

The One-to-One Laptop Initiative is designed to provide students with 21st Century learning environments both at home and in school, and to give all students access to technology resources. Lower Merion School District seeks to create a learning environment that fosters deeper cognitive development through inquiry, real and relevant project-based learning, and differentiated instruction – all supported by continuous access to digital technologies. The One-to-One Laptop Initiative provides students with the ability to work on projects and research both at school and at home by providing 24/7 access to the software that they use in school. We believe that the Laptop is an essential tool to assist students in thinking critically, analyzing data, solving real world problems and publishing their work.

In the event that the parent/guardian of a student, or the student themselves if the student is over 18, decline to participate in the One-to-One Laptop Initiative by refusing to sign an Agreement for Laptop Use, the building principal shall be responsible for making necessary accommodations for the student to ensure that the student’s education is not adversely affected. Such accommodations may include access to printed resources and access to building based computers in areas such as Libraries and Help Centers.

All accommodations will be made on an individualized basis. The District does not guarantee that all accommodations will be provided to all students who do not participate in the One-to-One Laptop Initiative.

Please contact your building principal with any questions:
