

THE MEADOWS SCHOOL

# The Meadows School STEM Expansion

Capital Campaign

# A Letter From Your Head of School

Over the last 37 years, the Meadows has grown from a school housed in trailers on a donated car lot behind the Meadows Mall to the sprawling 40-acre campus we occupy today. The buildings and grounds we enjoy now are due to the generosity of founders, parents, alumni, alumni parents, and community partners.

While we have been fortunate not to have needed significant capital enhancements over the course of the last decade, in order for us to continue to be the preeminent independent school in the region and one of the best in the nation, the time has come for a new expansion. I am proud to present to you the plans for an expansion to the Sarah D. Barder Hall Upper School building. This project will allow us to:

- Provide vital support for our increasing Upper School enrollment with the addition of five classrooms, along with additional locker bays, and restroom facilities.
- Create a state-of-the-art workshop classroom as a home for our growing Middle and Upper School programs in robotics, engineering, and drone construction.
- Double the space our Lower School science classroom currently occupies, allowing K-5 students the opportunity to engage in more hands-on exploration of science, technology, and engineering.
- Allow opportunities for community members to enjoy a meeting space in the heart of campus with a new outdoor classroom for students and faculty.
- Move on-campus storage out of the current temporary administration buildings and provide a permanent home for facilities offices and custodial staff.

Throughout our history, every community member has had a role to play in the success of The Meadows. As such, we look forward to your support of this project that will positively support the educational experiences of hundreds of students on our campus each and every day.

Thank you for your support of The Meadows School and our ongoing pursuit of excellence.

Jeremy Gregersen  
Head of School

# Fundraising Information

Capital campaigns exist to renovate or build new educational facilities, make improvements to the campus infrastructure, and strengthen the school's general and financial aid endowment. As a community, we benefit from the generosity of those who came before us and it is our obligation to give for the benefit of future generations. When these special projects arise, we ask all members of the school community to contribute to these essential long-term needs.

In 2020, The Meadows School Board of Trustees approved an expansion of the Sarah D. Barder Upper School building—our first capital campaign in 15 years. The total cost of this project is \$6.8 million.

This new space will help the Meadows meet the needs of our growing, soon-to-be enrollment of 300 students in the Upper School. It will also allow us to have state of the art science facilities for all of our students.

In order to make this expansion a reality for our families, our faculty, our alumni, and friends, we need your support. Pledges can be made as one-time donations or be made on a multi-year basis—meaning you can make a pledge and pay for it over time.

We greatly look forward to meeting with as many of you as possible to discuss this campaign and welcome your questions. Again, we cannot do this without you and we hope that your Meadows experience will inspire you to pay it forward for the next generation of students and alumni.

# STEM Expansion Naming Opportunities

Entire Expansion Naming	\$1,000,000	SOLD
Lower School STEM Space	\$250,000	SOLD
Robotics & Engineering Lab	\$250,000	AVAILABLE
Outdoor Classroom	\$150,000	SOLD
Classroom 1	\$100,000	SOLD
Classroom 2	\$100,000	SOLD
Classroom 3	\$100,000	SOLD
Classroom 4	\$100,000	SOLD
Classroom 5	\$100,000	AVAILABLE
Facilities Office Space	\$50,000	SOLD
Storage Bay 1	\$25,000	SOLD
Storage Bay 2	\$25,000	SOLD
Storage Bay 3	\$25,000	AVAILABLE

Additional opportunities to support the STEM Expansion are available.  
The donor recognition wall levels will start at \$10,000.

If you are interested in supporting this important project, please contact Heidi Lee,  
Director of Advancement, at [hlee@themeadowsschool.org](mailto:hlee@themeadowsschool.org) or 702-797-5934.

Lower School STEM Space

This ambitious project is the beginning of a multi-year effort to ensure that our students continue to have access to facilities that allow them to explore, discover, and grow in accordance with our mission and core values. Not only will this project add necessary space for an expanding student body—it also sets the stage for exciting developments moving forward. First, the project will provide flexibility in envisioning the future use of the Fertitta-Sturm Middle School building by freeing space currently occupied by Upper School programming. Second, this expansion will showcase the incredible work our faculty and students are doing in the realm of technological innovation. Finally, the space sets the stage for the phased addition of future administrative space and science and arts facilities to replace the current, temporary structures.

Again, thank you for your support of this project, both now and for the future enhancements it provides!
