Rank In Class

The academic environment in Princeton High School is very challenging. The majority of our students meet the challenge by earning exemplary grades. The comparisons among students inherent in rank-in-class calculations unnecessarily increase competition within the school. Further, we believe that our students' levels of achievement are not equitably or fully communicated by this single-figure transcript statistic.

Therefore, Princeton High School does not report class rank.

GRADE POINT AVERAGE/CLASS RANK

Both weighted and unweighted grade point averages (GPA's) are calculated. Weighted grade point average is based on an open-ended scale beginning with 0.00 and having no ceiling. Only the final grade achieved in each course is issued to compute GPA and WGPA. All graded courses are used in the calculation of GPA and WGPA. A student's cumulative GPA and WGPA are tabulated and posted on the permanent record at the conclusion of each school year. Princeton High School does not rank.
