

CHARLES COUNTY PUBLIC SCHOOLS COMPREHENSIVE MIDDLE SCHOOL REDISTRICTING SCHOOL YEAR 2022-2023

BENJAMIN STODDERT MIDDLE SCHOOL

- **\$48,171,000 renovation and addition**
- **Square footage increases from 105,800 to 148,317 square feet**
- **State Rated Capacity (SRC) increases from 711 to 975**
- **Phased occupied construction to be completed in the Fall of 2022**

Superintendent's Charge

The committee is charged with creating two alternatives that will establish new middle school boundaries. This is a comprehensive middle school redistricting with a focus on redrawing an expanded attendance zone for Benjamin Stoddert which is receiving a complete renovation and expansion scheduled for completion for the start of SY 22/23.

Board Policy 1900 establishes procedures for redistricting. Our goal is to move some students among all middle schools with due consideration of State Rated Capacities (SRCs) and anticipated growth using target enrollments provided by school and county government staffs.

General Guidelines

- All neighborhoods are eligible for redistricting except for those currently designated as non-transport (walking) zones
- Whenever possible, neighborhoods should not be divided between different schools
- Account for current and future residential development when meeting enrollment targets
- Consult with transportation representatives regarding the possible effects to existing bus routes when moving students
- When proposing changes to existing school zones, move students farthest from their current school to another school whose current attendance boundaries borders the existing school

Redistricting Committee

The Board at its Oct. 13, 2020 meeting selected 11 parents through a random drawing to serve on the committee – two elementary, one high school and eight from the middle schools. Additionally, the Board of Education selected three community members at large for the committee and four school principals.

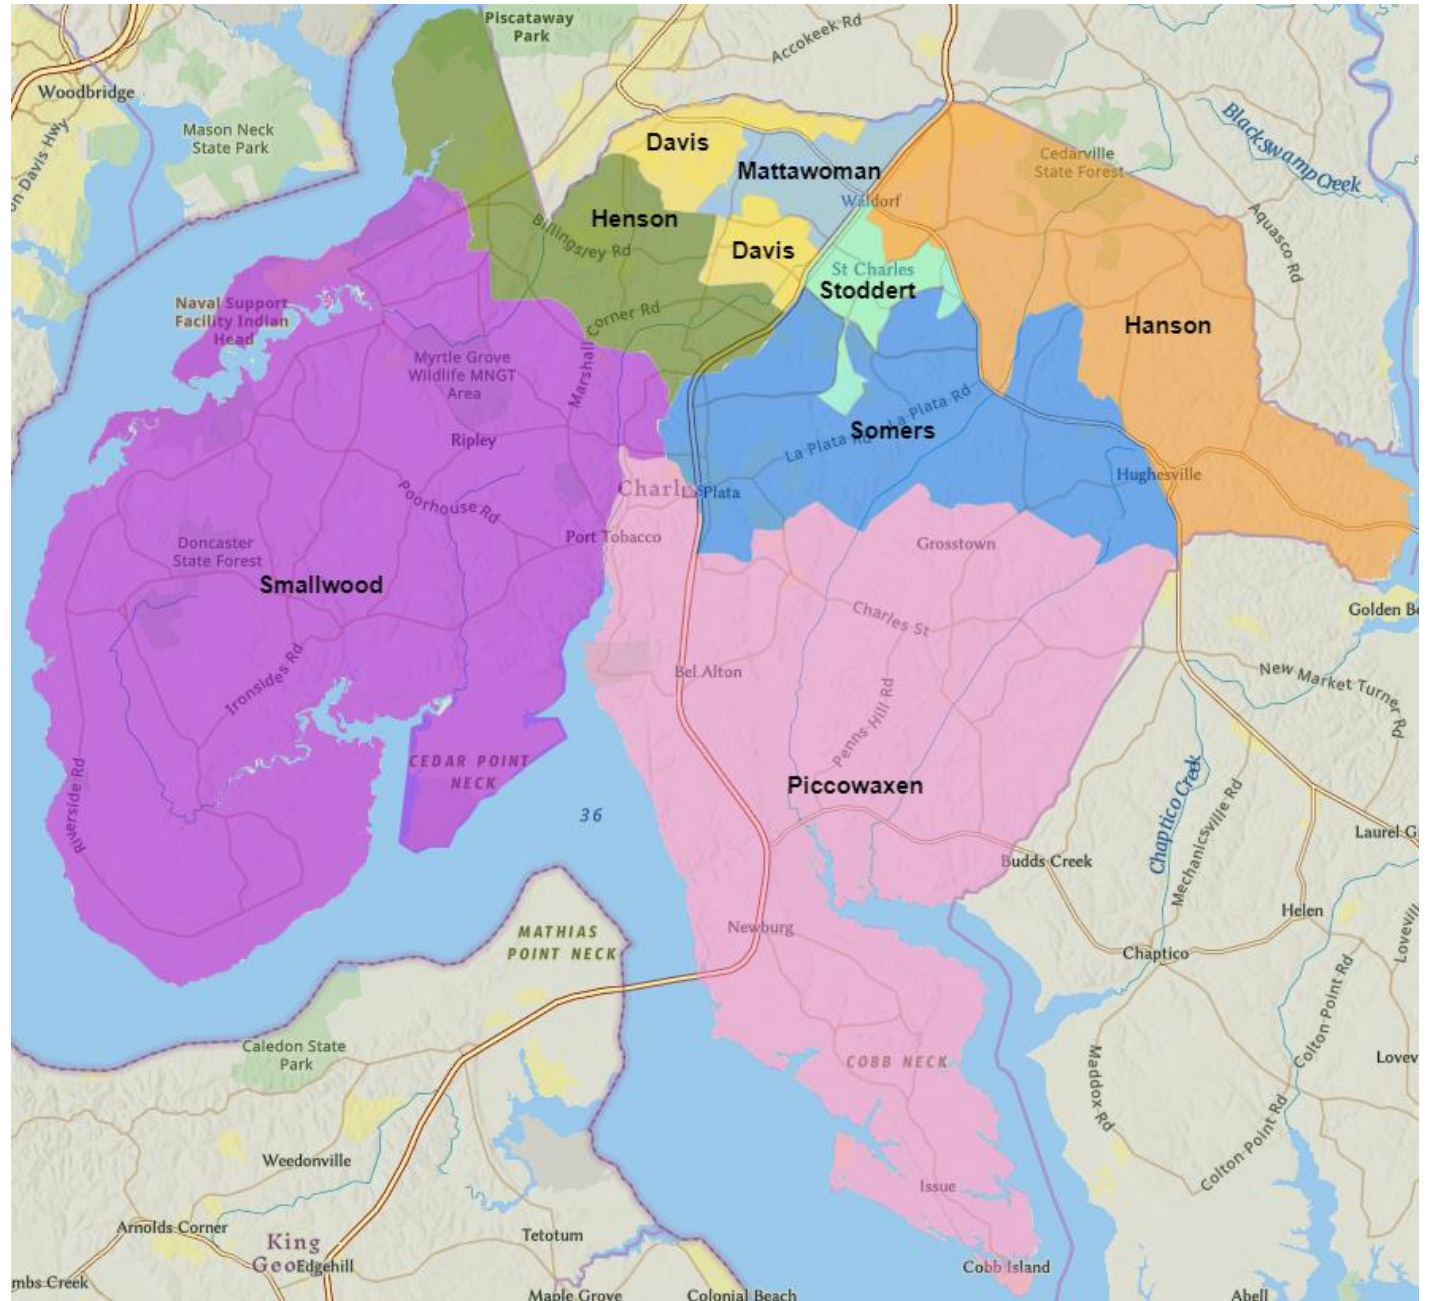

Three local government planners and CCPS staff support the committee.
