

## **Student Responsible Use Guidelines for Technology**

### **Introduction**

Clear Creek Independent School District makes a variety of communications and information technologies available to students through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, harming the District, its students and its employees. These Responsible Use Guidelines are intended to minimize the likelihood of such harm by educating District students and setting standards which will serve to protect the District. The District firmly believes that the benefits of digital resources, information, and interaction available on the computer/network/Internet far outweigh any disadvantages.

### **Mandatory Review**

To educate students on proper computer/network/Internet use and conduct, students are required to review these guidelines at the beginning of each school year. All District students shall be required to acknowledge receipt and understanding of all guidelines governing use of the system and shall agree in writing to allow monitoring of their use and to comply with such guidelines. The parent or legal guardian of a student user is required to acknowledge receipt and understanding of the District's Student Responsible Use Guidelines for Technology (hereinafter referred to as the Responsible Use Guidelines as part of their review of the Student/Parent Handbook and the Student Code of Conduct. Employees supervising students who use the District's system must provide training emphasizing its appropriate use.

### **Definition of District Technology System**

The District's computer systems and networks (system) or any configuration of hardware and software. The system includes but is not limited to the following:

- Telephones, cellular telephones, and voicemail technologies;
- Email accounts;
- Servers;
- Computer hardware and peripherals;
- Software including operating system software and application software;
- Digitized information including stored text, data files, email, digital images, and video and audio files;
- Internally or externally accessed databases, applications, or tools (Internet- or District- server based);
- District-provided Internet access;
- Cloud-based instructional services (e.g. Office 365, itsLearning, Skyward); and
- New technologies as they become available.

### **Acceptable Use**

Computer/Network/Internet access will be used to enhance learning consistent with the District's educational goals. The District requires legal, ethical and appropriate computer/network/Internet use as per these Responsible Use Guidelines and the Student/Parent Handbook for Student 1:1 Devices.

### **Access to Computer/Network/Internet**

Access to the District's electronic communications system, including the Internet, shall be made available to students for instructional purposes. District computers block access to most visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act (CIPA). Filtered Internet access is provided to students as defined by CIPA. Computer/Network/Internet access is provided to all students unless parents or guardians request in writing to the campus principal that access be denied.

### **Students 13 or younger**

For students under the age of 13, the Children's Online Privacy Protection Act (COPPA) requires additional parental permission for educational software tools. Parents wishing to deny access to these educational tools must do so in writing to the campus principal indicating their child should be denied access to these tools.

### **Use of District Issued and Personal Technology Devices**

The District believes technology is a powerful tool that enhances learning and enables students to access a vast amount of academic resources. The District's goal is to increase student access to digital tools and facilitate immediate access to technology-based information, much the way that students utilize pen and paper. To this end, the District will open a filtered, wireless network through which students in specific age groups will be able to connect technology devices.

Students using district owned or personally-owned technology devices must follow the guidelines stated in this document while on school property, attending any school-sponsored activity, or using the Clear Creek ISD network.

### **Expectations for Use of School District Technological Resources**

Responsible use of school district technological resources is use that is ethical, respectful, academically honest, and supportive of student learning. Each user has the responsibility to respect others in the school community and on the Internet. Users are expected to abide by the generally accepted rules of network etiquette. General student and employee behavior standards, including those prescribed in applicable board policies, the Student Code of Conduct and other regulations and school rules, apply to use of the Internet and other school technological resources.

When utilizing district technological resources, students are expected to adhere to the following:

- The district is not responsible for the content accessed by users who connect to the Internet via their personal mobile telephone technology (e.g., LTE/4G).
- Users must back up data and other important files regularly.
- Those who use district owned and maintained technologies to access the Internet at home are responsible for the set-up and cost of home internet service.

Students who are issued district owned and maintained laptops should also follow these guidelines to minimize the likelihood of damage to devices:

- Keep the-laptop secure and damage free.
- Use the provided protective case at all times.
- Laptops should be charged each night.
- Avoid loaning out the laptop, charger or cords.
- Avoid leaving the laptop in your vehicle.
- Avoid leaving the laptop unattended.
- Avoid eating or drinking while using the laptop or have food or drinks in close proximity.
- Avoid allowing pets near the laptop.

- Avoid placing the laptop on the floor or on a sitting area such as a chair or couch.
- Avoid leaving the laptop near table or desk edges.
- Avoid stacking objects on top of the tablet.
- When carried outside, the laptop must be protected from the environment in such a way to prevent rain, snow, ice, excessive heat, and/or cold from causing damage.
- Avoid using the laptop near water, household chemicals, or other liquids that could damage its electronic components.

### **Care of Property**

Users may be held responsible for any loss or damage caused by intentional or negligent acts in caring for laptops while under their control. The school district is responsible for any routine maintenance or standard repairs to school system laptops.

### **Security**

A student who gains access to any inappropriate or harmful material is expected to discontinue the access and to report the incident to a teacher or staff member. Any student identified as a security risk or as having violated the Responsible Use Guidelines may be denied access to the District's system; other consequences may also be assigned. A student who knowingly brings prohibited materials into the school's electronic environment will be subject to suspension of access and/or revocation of privileges on the District's system and will be subject to disciplinary action in accordance with the Board-approved Student Code of Conduct.

### **Content/Third-Party Supplied Information**

Students and parents of students with access to the District's system should be aware that use of the system may provide access to other electronic communication systems in the global electronic network that may contain inaccurate and/or objectionable material.

### **Subject to Monitoring**

All District computer/network/Internet usage shall not be considered confidential and is subject to monitoring by designated staff at any time to ensure appropriate use. Students should not use the computer system to send, receive or store any information, including email messages, that they consider personal or confidential and wish to keep private. All electronic files, including email messages, transmitted through or stored in the computer system will be treated no differently than any other electronic file. The District reserves the right to access, review, and copy, modify, delete or disclose such files for any lawful purpose. Students should treat the computer system like a shared or common file system with the expectation that electronic files, sent, received or stored anywhere in the computer system, will be available for review by any authorized representative of the District for any lawful purpose. Both District issued and personal technology devices are subject to examination in accordance with disciplinary guidelines if there is reason to believe that the Responsible Use Guidelines have been violated.

### **Student Computer/Network/Internet Responsibilities**

District students are bound by all portions of the Responsible Use Guidelines. A student who knowingly violates any portion of the Responsible Use Guidelines will be subject to suspension of access and/or revocation of privileges on the District's system and will be subject to disciplinary action in accordance with the Board-approved Student Code of Conduct.

### **Use of Social Networking/Digital Tools**

Students may participate in District-approved social media learning environments related to curricular projects or school activities and use digital tools, such as, but not limited to, mobile

devices, blogs, discussion forums, RSS feeds, podcasts, wikis, and on-line meeting sessions. The use of blogs, wikis, podcasts, and other digital tools are considered an extension of the classroom. Verbal or written language that is considered inappropriate in the classroom is also inappropriate in all uses of blogs, wikis, podcasts, and other District-approved digital tools.

### **Password Confidentiality**

Students are required to maintain password confidentiality by not sharing their password with others. Students may not use another person's system account.

### **Reporting Security Problem**

If knowledge of inappropriate material or a security problem on the computer/network/Internet is identified, the student shall immediately notify a teacher or staff member. The security problem should not be shared with others.

### **The following guidelines must be adhered to by students using a personally-owned technology device at school:**

- Internet access is filtered by the District on personal technology devices in the same manner as District-owned equipment. If network access is needed, connection to the filtered, wireless network provided by the District is required.
- These devices are the sole responsibility of the student user. The campus or District assumes no responsibility for personal technology devices if they are lost, loaned, damaged or stolen and only limited time or resources will be spent trying to locate stolen or lost items.
- Students are prohibited from trading or selling these items to other students on District property, including school buses.
- Each student is responsible for his/her own device: set-up, maintenance, charging, and security. Staff members will not store student devices at any time, nor will any District staff diagnose, repair, or work on a student's personal technology device.
- Technology devices are only to be used for educational purposes at the direction of a classroom teacher or as stated for specific age groups.
- Campus administrators and staff members have the right to prohibit use of devices at certain times, during designated activities (i.e. campus presentations, theatrical performances, or guest speakers) or designated locations (restrooms and locker rooms) while students are on campus.
- An administrator may examine a student's personal technology device and search its contents, in accordance with disciplinary guidelines.

### **Inappropriate Use**

Inappropriate use includes, but is not limited to, those uses that violate the law, that are specifically named as violations in this document, that violate the rules of network etiquette, or that hamper the integrity or security of this computer/network/Internet system or any components that are connected to it. The following actions are considered inappropriate uses, are prohibited, and will result in revocation of the student's access to the computer/network/Internet:

#### **Violations of Law**

Transmission of any material in violation of any federal or state law is prohibited. This includes, but is not limited to:

- threatening, harassing, defamatory or obscene material;
- copyrighted material;
- plagiarized material;

- material protected by trade secret; or
- blog posts, Web posts, or discussion forum/replies posted to the Internet which violate federal or state law.

Tampering with or theft of components from District systems may be regarded as criminal activity under applicable state and federal laws. Any attempt to break the law through the use of a District computer/network/Internet account may result in prosecution against the offender by the proper authorities. If such an event should occur, the District will fully comply with the authorities to provide any information necessary for legal action.

### **Modification of Computer Settings**

Modifying or changing computer settings and/or internal or external configurations without permission from District personnel is prohibited.

### **Transmitting Confidential Information**

Students may not redistribute or forward confidential information without proper authorization. Confidential information should never be transmitted, redistributed or forwarded to outside individuals who are not expressly authorized to receive the information. Revealing personal information about oneself such as, but not limited to, home address, phone number, email address, and birthdate is prohibited.

### **Commercial Use**

Use of the system for any type of income-generating activity is prohibited. Advertising the sale of products, whether commercial or personal is prohibited.

### **Marketing by Non-CCISD Organizations**

Use of the system for promoting activities or events for individuals or organizations not directly affiliated with or sanctioned by the District is prohibited.

### **Vandalism/Mischief**

Any malicious attempt to harm or destroy District equipment, materials or data, or the malicious attempt to harm or destroy data of another user of the District's system, or any of the agencies or other networks to which the District has access is prohibited. Deliberate attempts to degrade or disrupt system performance are violations of District policy and administrative regulations and may constitute criminal activity under applicable state and federal laws. Such prohibited activity includes, but is not limited to, the uploading or creating of computer viruses.

Vandalism as defined above is prohibited and will result in the cancellation of system use privileges. Students committing vandalism will be required to provide restitution for costs associated with system restoration and may be subject to other appropriate consequences. [See the Board-approved Student Code of Conduct.]

### **Intellectual Property**

Students must always respect copyrights and trademarks of third-parties and their ownership claims in images, text, video and audio material, software, information and inventions. The copy, use, or transfer of others' materials without appropriate authorization is not allowed.

### **Copyright Violations**

Downloading or using copyrighted information without following approved District procedures is

prohibited.

### **Plagiarism**

Fraudulently altering or copying documents or files authored by another individual is prohibited.

### **Impersonation**

Attempts to log on to the computer/network/Internet impersonating a system administrator or District employee, student, or individual other than oneself, will result in revocation of the student's access to computer/network/Internet.

### **Illegally Accessing or Hacking Violations**

Unauthorized or inappropriate access of any portion of the District's computer systems, networks, or private databases to view, obtain, manipulate, or transmit information, programs, or codes is prohibited.

### **File/Data Violations**

Deleting, examining, copying, or modifying files and/or data belonging to other users, without their permission is prohibited.

### **System Interference/Alteration**

Deliberate attempts to exceed, evade or change resource quotas are prohibited. Deliberately causing network congestion through mass consumption of system resources is prohibited.

### **Email and Communication Tools**

Email and other digital tools such as, but not limited to blogs and wikis, are tools used to communicate within the District. The use of these communication tools should be limited to instructional, school-related activities, or administrative needs. All students in grades K-12 will be issued email accounts. Student email accounts may be provided directly by the District, through the content management system of an approved online course, or through a District- approved provider. Students should check email frequently and delete unwanted messages promptly.

### **Internet/Email/Network Security**

Student users are responsible for his/her own actions while accessing technology resources. Users are responsible for ensuring system integrity by not acting on any emails or phone calls requesting information about user accounts or any other personally identifiable information. Users should also refrain from clicking on any unexpected hyperlinks or email attachments and sharing internet protocol (IP) addresses.

CCISD Technology will not contact students requesting that a form be filled out to maintain access to any services, nor will CCISD Technology contact users via phone or email to allow unsolicited remote access to any CCISD owned device. Users should contact the CCISD Technology Helpdesk at [helpdesk@ccisd.net](mailto:helpdesk@ccisd.net) or 281.284.4357 if these situations occur.

### **Students should keep the following points mind: Perceived Representation**

Using school-related email addresses, blogs, wikis, and other communication tools might cause some recipients or other readers of the email to assume that the student's comments represent the District or school, whether or not that was the student's intention.

### **Privacy**

Email, blogs, wikis, and other communication within these tools should not be considered a

private, personal form of communication. Private information, such as home addresses, phone numbers, last names, pictures, or email addresses, should not be divulged. To avoid disclosing email addresses that are protected, all email communications to multiple recipients should be sent using the blind carbon copy (bcc) feature.

### **Inappropriate Language**

Using obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language in emails blogs, wikis, or other communication tools is prohibited. Sending messages that could cause danger or disruption, personal attacks, including prejudicial or discriminatory attacks are prohibited.

### **Political Lobbying**

Consistent with State ethics laws, District resources and equipment, including, but not limited to, emails, blogs, wikis, or other communication tools must not be used to conduct any political activities, including political advertising or lobbying. This includes using District email, blogs, wikis, or other communication tools to create, distribute, forward, or reply to messages, from either internal or external sources, which expressly or implicitly support or oppose a candidate for nomination or election to either a public office or an office of a political party or support or oppose an officeholder, a political party, or a measure (a ballot proposition). These guidelines prohibit direct communications as well as the transmission or forwarding of emails, hyperlinks, or other external references within emails, blogs, or wikis regarding any political advertising.

### **Forgery**

Forgery or attempted forgery of email messages is prohibited. Attempts to read, delete, copy or modify the email of other system users, deliberate interference with the ability of other system users to send/receive email, or the use of another person's user ID and/or password is prohibited.

### **Junk Mail/Chain Letters**

Students should refrain from forwarding emails which do not relate to the educational purposes of the District. Creating, distributing, or forwarding chain letters/emails is prohibited. Creating, distributing, or forwarding messages/emails to a large number of people (spamming) is also prohibited.

### **Consequences of Agreement Violation**

Any attempt to violate the provisions of this agreement may result in revocation of the student's access to the computer/network/Internet, regardless of the success or failure of the attempt. In addition, school disciplinary and/or appropriate legal action may be taken.

### **Denial, Revocation, or Suspension of Access Privileges**

With just cause, the System Administrator and/or building principal, may deny, revoke, or suspend computer/network/Internet access as required, pending an investigation.

### **Disclaimer**

The District's system is provided on an "as is, as available" basis. The District does not make any warranties, whether expressed or implied, including, without limitation, those of merchantability and fitness for a particular purpose with respect to any services provided by the system and any information or software contained therein. The District does not guarantee that the functions or services performed by, or that the information or software contained on the system will meet the system user's requirements, or that the system will be uninterrupted or error free.

Sites accessible via the computer/network/Internet may contain material that is illegal, defamatory, inaccurate or controversial. Each District computer with Internet access has filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act. The District makes every effort to limit access to objectionable material; however, controlling all such materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that students may access material that may not be of educational value in the school setting.

Opinions, advice, services, and all other information expressed by system users, information providers, service providers, or other third-party individuals in the system are those of the providers and not the District. The District will cooperate fully with local, state, or federal officials in any investigation concerning or relating to misuse of the District's electronic communications system.
