COMMENTS REGARDING PUBLIC HEARING:

Two oral comments were presented.

A speaker, from Sun World, commended the Board for taking the leadership step regarding solar energy and requested an opportunity to show the local business community the same consideration as any other vendor for this potential project, and asked to be considered on equal footing to bid for the solar project.

A speaker, from Sun World, stated he opposed giving the solar energy contract to SunPower without first giving a fair opportunity to the local industry. He asked the Board to reconsider their decision and give Sun World and other companies in the county to present an offer for the solar project.

Mr. Winton provided background information on how the bonds were secured through Qualified Energy Conservation Bonds. He stated the district has always had an open door policy. He said Solar World partners with Chevron and when he spoke to Chevron, they were not financially viable at that time. He said everything that we have done has been perfectly legal. He stated SunPower will work with local companies and community, to work on the project.

Trustee López Hanson said she requested that Mr. Winton put the project out on an RFP and believes we need local jobs for our community. She has advocated that the district put this out there and keep these dollars in the local community. She had requested that SunPower be paid as consultants and does not believe they deserve the whole project.

Mr. Winton stated the district should consider keeping the agreement that was made and passed at the Board Meeting of June 3, 2010.

Trustee Stocks stated he did not want the district in a position to jeopardize \$20,000,000 and should not stand in Mr. Winton's way, but stand behind him. He said he was in favor of voting and going ahead with the corporation that has done all the work.

Trustee Jáquez asked if Sun World could work together with SunPower with the left over money. Mr. Winton stated he did not have the answer to the question.

Trustee López Hanson reiterated that the district should put out an RFP, advertise in newspapers and allow a two-week turnaround.

Hearing no further comments, President Valles declared the public hearing closed.

Sufficiency of Instructional Materials in accordance with Education Code Section 60119

Mr. Dabbs, Assistant Superintendent-Educational Services stated the Oxnard Union High School District acting through its Governing Board is holding a public hearing at its meeting of September 8, 2010, for the purpose of adopting a resolution stating the district would provide textbooks and instructional materials in accordance with Education Code Section 60119. Notice has been published as required.

President Valles declared the public hearing opened and asked if there were any oral or written comments received. Hearing no comments, the public hearing was closed.

AUDIENCE TO ADDRESS THE BOARD OF TRUSTEES:

Trustee Jáquez read from a prepared statement "OUHS District Needs to Change the Way We Do Business." He stated the need for school board governing board members to make decisions that are based on honesty and without hidden agenda; he stated the district has been the subject of scrutiny by various agencies and community groups; he said he has requested documents and has yet to receive them; he stated employees are not required to give donations to board candidates; and he said district policy is not being followed, i.e., established procedures for fair bidding processes are not being followed, he stated the superintendent's salary was adjusted without a public meeting, and he stated board members are compensated for missed meetings and one board member resides out of state. In closing, he stated it was his sworn duty to be compliant and transparent during his tenure as trustee, and the district needs to change how it does business.

A public speaker thanked Mr. Jáquez for his statement and expressed concerns with the district's use of funds under Proposition 39.

A parent and volunteer of the Naval Base of Ventura County, spoke about The Interstate Compact on Educational Opportunity for Military Children, and what plans the district has to accommodate the needs of military children.

A representative from LULAC thanked Mr. Jáquez for his statements and requested a copy of the food services investigation report conducted by Linda Saddlemire.

A speaker from Sun-World reiterated that the Board consider other vendors for the solar power project.

A representative from LULAC recommended that board meetings be simulcast in Spanish.

A board candidate expressed concerns with one section of Mr. Jáquez's statement.

A speaker asked the Board to be more transparent, how the bond money is allocated, and to address the needs of the students.

SUPERINTENDENT'S REPORTS:

Student Representative to the
Board Report:

Superintendent Carter introduced Student Representative to the Board of Trustees and Adolfo Camarillo ASB President, Kristina Cervi. Kristina reported on campus events such as ACHS's big increase in API scores, the recent ODC meeting, upcoming homecoming events, the improvements to RMHS's quad, and reported students are pleased with the increase in the number of food carts at the sites.

Opening of School Year:

Superintendent Carter reported district office administrators were assigned to campuses to help out on first day of school; due to the preparatory work by principals, opening day went smoothly. Enrollment is down by 4% and 15,901 students were counted on the first day of school. Dr. Carter stated he is very impressed with new administrators; they are full of vigor and he is pleased with their work.

SUPERINTENDENT'S REPORTS:

Introduction of New Hires: Administrative Staff

Dr. Valles was pleased to introduce employees new to the district: Jairo Arellano, assistant principal, Hueneme; Kalli Miglis, dean, Rio Mesa; Raul Ramirez, assistant principal, Hueneme; Eric Riegert, principal, Oxnard; Norman Sauce, assistant principal, Channel Islands; Richard Urias, assistant principal, Oxnard; and Corina Cherry, reclassified to Transportation Supervisor, District Office.

German American Partnership Program (GAPP):

Ms. Heidi Graves, GAPP Coordinator presented information on the German American Partnership Program (GAPP). She stated each year a group of students from Adolfo Camarillo participate in the reciprocal language and cultural exchange program in Detmold, Germany. During the trip, students are able to improve their language skills in German, experience a new culture and broaden their worldview. Students shared their experiences with the Board and thanked them for the opportunity to travel to Germany.

Review of Solar Projects:

Mr. Winton said representatives from SunPower and Muni Bond would give a brief presentation on the solar projects up for consideration by the Board. He introduced Nathan Griset, Bill Kelly, and Bruce Ledesma, from SunPower, and Bill Kelly, from Muni Bond Solar.

Via a PowerPoint presentation, Mr. Nielsen provided a brief description of the path taken to attain the project. The Board approved the Solar Development/Financing Plan at the June 3, 2010 Board Meeting, which enabled SunPower to develop a multi-site project and a solar financing plan. The Board's action was critical in securing \$25 million in QECCBs and \$8 million in utility rebate reservations. He reported the total benefit to the general fund would be \$21.2 million.

Mr. Griset spoke about the technical aspects of the solar project. He stated SunPower focused on two key criteria: what systems would generate the highest savings for the district and focused on maximizing the CSI benefit. In addition, the campus designs were analyzed for proper tracking systems. He presented photo renderings of the projects. He stated one of the key elements in the proposal is that SunPower will hire local subcontractors in all major trades.

Mr. Kelly provided background information and qualifications which will enable SunPower to deliver the proposal. SunPower manufactures the highest efficiency solar cells in the world, has completed over 50 school site solar projects, and has a 25-year history in California with over 800 California employees.

Mr. Ledesma presented the academic features of the project. He stated he participated in a session with district staff, who are leading the Green Technology Academy, to discuss the needs of the program. SunPower developed a platform for the Academy which involves four key elements: 1) renewable energy curriculum, 2) lab equipment and tools, 3) "Train the Teachers at SP University, and 4) student internships (paid) by SunPower.
