Maintenance and Operations  
1302 Service Road  
Tustin, California 92780

Attention: Mr. Tom Rizzuti

SUBJECT: **Results of AHERA 3 Year Re-Inspection of Asbestos-Containing Materials – Summer 2021**

Dear Mr. Rizzuti:

During July 2021 Cardinal conducted the three-year re-inspection of Asbestos-Containing Materials, as required by the Asbestos Hazard Emergency Response Act (AHERA).

Cardinal staff visually inspected all of the asbestos containing materials throughout the District, and assessed the materials for damage. No significant damage has been noted in any of the site(s) inspected. Routine operations and maintenance should continue as scheduled, no potential for asbestos fiber release was witnessed during our inspections. As required six-month surveillance activities will continue.

As you know, copies of individual school reports must be kept at each school site, which in turn must make them available to staff and parents upon request.

As agreed, we have included a “thumb drive” with the AHERA documents.

Sincerely yours,

**CARDINAL ENVIRONMENTAL CONSULTANTS INC.,  
A California Corporation**
