

RISK ASSESSMENT FORM

Workplace	The Hastings Academy
Department	
Risk Assessor	Hilary Morawska, Anne Stanley, Luke Sadler
Room/Area	The Hastings Academy
Activity/Task	Managing Covid-19 in a school setting
Date	1 st September 2021
Benefit of activity	

This model document was updated on **28 July 2021**.

It is being kept under review as updated guidance is published by the Government and reviews of the impact of COVID-19 by Public Health England.

Schools should share the results of their risk assessment with their workforce (including local union representatives). If possible, they should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (HSE would expect all employers with over 50 staff to do so).

The [DfE latest documents and guidance webpage](#) is being updated regularly

	What are the significant, foreseeable, hazards? (<i>the dangers that can cause harm</i>)	Who is at Risk?	Control measures	What additional control measures can be put in place to reduce the risk further?
1.	<p>Potential transmission to clinically vulnerable staff and pupils</p> <p>Guidance is available in the Actions for schools during the Coronavirus Outbreak</p>	All members of school community	<p>Communicate with parents of clinically vulnerable pupils to inform them:</p> <p>All CEV pupils should attend their school unless they are one of the very small number of pupils under paediatric or other specialist care and have been advised by their GP or clinician not to attend. Pupils who live with someone who is CEV should continue to attend school as normal.</p> <p>Clinically extremely vulnerable (CEV) people are advised, as a minimum, to follow the same guidance as everyone else. It is important that everyone adheres to this guidance, but CEV people may wish to think particularly carefully about the additional precautions they can continue to take. Further information can be found in the guidance on protecting people who are CEV from COVID-19.</p> <p>Conduct an Individual Risk Assessment to help identify any additional action that needs to be taken to mitigate risks for any CEV members of staff</p>	<p>Unless they are CEV, encourage parents/carers and staff to follow the guidance that applies to everyone.</p> <p>While members of these groups are no longer required to shield, the school should appreciate arrangements being made for them to reduce their face-to-face contact during periods of high viral prevalence.</p>

			<p>Work in partnership with local BAME and/or faith communities to reinforce individual and household risk reduction strategies relevant to the school community PHE review of the impact of Covid-19 on BAME groups</p> <p>The school will continue to assess the health and safety risks to staff and meet their equality duties as per their local procedures.</p> <p>Governors and leaders should pay regard to the wellbeing of all staff including the headteacher.</p> <p>Schools should ensure they have explained to all staff the measures they are proposing putting in place and involve all staff in that process</p>	<p>Health and safety advice for schools</p>
2.	<p>Risk of ongoing contamination from pupils and staff</p>	<p>All members of the school community</p>	<p>It is no longer necessary to keep pupils in consistent groups. Assemblies can resume and there is no longer a need to make alternative arrangements to avoid mixing at lunch. Music and PE lessons can continue as normal. However, schools should ensure that control measures are in place and well communicated:</p> <p>Hand hygiene:</p>	<p>Positive cases and symptoms Communicate to parents that children under the age of 18 will no longer be required to self-isolate if they are contacted by NHS Test and Trace as a close contact of a positive COVID-19 case. Instead, children will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test.</p>

			<p>Frequent and thorough hand cleaning is regular practice. The school ensures that pupils clean their hands regularly with soap and water or hand sanitiser.</p> <p>Ensure sufficient and proportionate handwashing supplies and cleaning materials are available. Where a sink is not nearby, provide hand sanitiser in classrooms and other learning environments.</p> <p>Respiratory hygiene: The 'catch it, bin it, kill it' approach continues to be adhered to in school.</p> <p>Cleaning: Areas and equipment are cleaned regularly with a particular focus on frequently touched surfaces</p> <p>The school follows the government guidance on cleaning of non-healthcare settings.</p> <p>Ventilation: The school will be well ventilated with windows and doors opened to create air flow.</p> <p>Any poorly ventilated spaces will be identified in the risk assessment and steps taken to improve fresh air flow in these</p>	
--	--	--	---	--

		<p>areas, giving particular consideration to when holding events where visitors such as parents are on site.</p> <p>Adjust any mechanical ventilation systems to increase the ventilation rate where possible.</p> <p>The Health and Safety Executive guidance on air conditioning and ventilation during the COVID-19 pandemic and CIBSE COVID-19 advice provides more information.</p> <p>Contingency plans are in place outlining how the school would operate if there were an outbreak within school or local area.</p> <p>The school will call the dedicated advice service who will escalate the issue to the local health protection team, where necessary and advise if any additional action is required, such as implementing elements of your contingency plan.</p> <p>Communicate to parents that pupils should not come into school if they have symptoms or have had a positive test result.</p> <p>Anyone who develops COVID-19 symptoms, will be sent home and told to follow public health advice.</p>	<p>All secondary pupils will receive two on-site lateral flow device test, 3 to 5 days apart, on their return in the autumn term.</p>
--	--	--	---

		<p>If a pupil is awaiting collection, they should be left in a room on their own if possible and safe to do so. A window should be opened for fresh air ventilation if possible.</p> <p>Appropriate PPE should also be used if close contact is necessary.</p> <p>Further information on this can be found in the use of PPE in education, childcare and children's social care settings guidance.</p> <p>Testing</p> <p>Once two tests have been completed on site, pupils will then continue to test twice weekly at home until the end of September, when this will be reviewed.</p> <p>Staff should undertake twice weekly home tests whenever they are on site until the end of September, when this will also be reviewed.</p> <p>Secondary schools should also retain a small asymptomatic testing site (ATS) on-site until further notice so they can offer testing to pupils who are unable to test themselves at home.</p>	
--	--	---	--

		<p>Communicate to parents that staff and pupils with a positive LFD test result should self-isolate in line with the stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection. They will also need to get a free PCR test to check if they have COVID-19.</p> <p>Whilst awaiting the PCR result, the individual should continue to self-isolate. Additional information on PCR test kits for schools and further education providers is available.</p> <p>The school will maintain its capacity to deliver high-quality remote education for the next academic year, including for pupils who are abroad, and facing challenges to return due to COVID-19 travel restrictions, for the period they are abroad.</p> <p>Some pupils may be experiencing a variety of emotions in response to the COVID-19 pandemic, such as anxiety, stress or low mood. The school will access useful links and sources of support on promoting and supporting mental health and wellbeing in schools.</p>	<p>The government recommend schools do not go on any international visits before the start of the autumn term. From the start of the new school term, you can go on international visits that have previously been deferred or postponed and organise new international visits for the future.</p> <p>Bubbles in wraparound provision are not required but the measures around cleaning, hand washing, and ventilation should be in place.</p> <p>Face Coverings</p> <p>Although face coverings are no longer required in classrooms or communal areas in schools for pupils, staff and visitors, the contingency plan will acknowledge that, if there is an outbreak a director of public health might advise the school that face coverings should temporarily be worn in communal areas or classrooms</p>
--	--	---	---

			<p>Educational visits can resume with risk assessments in place which include systems of controls at the destination. Check the provider has assessed the risk and implemented appropriate control measures</p> <p>You MUST ensure there is adequate financial protection in place in the event of a COVID-19 cancellation. You MUST consult with your insurers to find out if there are any COVID-19 exceptions.</p> <p>Schools should continue to offer wraparound provision, such as breakfast and after-school clubs, for those children eligible to attend school to help support the children of critical workers.</p> <p>Face Coverings</p> <p>Schools should have a small contingency supply of face masks available</p> <p>Schools should have a process for managing face coverings in school that is clearly communicated.</p>	
--	--	--	--	--

			<p>Safe wearing of face coverings requires cleaning of hands before and after touching – including to remove or put them on – and the safe storage of them in individual, sealable plastic bags between use</p> <p>Leaders MUST ensure that school has enough tissues and bins available to support pupils and staff to follow the catch it, kill it bin it approach. Reinforce routines of using a tissue to cough or sneeze and bins for tissue waste.</p> <p>Ensure all the usual building checks are undertaken to make the school safe.</p> <p>Health and Safety, and safeguarding policies and practices kept up to date in line with current DfE guidance.</p> <p>Keep risk assessments under regular review in line with government guidance</p>	
3.	<p>Site Safety risks</p> <ul style="list-style-type: none"> ● Fire procedures ● Lockdown ● Movement for lunch / transitions ● Toilets ● Security including risk of theft ● Data breaches 	All members of the school community	<p>SLT lead identified</p> <p>Continue taking the attendance register and following up any absences in line with statutory guidance.</p> <p>School to follow risk assessments for premises and accessing outside equipment and areas.</p>	

			<p>Toilets to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet.</p> <p>Share any updated fire evacuation information with all staff during daily briefing and with children.</p> <p>High expectations of how children move around school upheld by all members of staff</p> <p>Any incidents are logged, and the risk assessment is evaluated, and changes made as a result of lessons learned.</p> <p>Reconsider e-safety policies and procedures in light of lessons learned during home learning</p>	<p>Arrange emergency drills as normal upon the return to school to ensure pupils are familiar with any changes</p>
4.	<p>Risk of transmission between parents and pupils during school drop-off and collection times</p>	<p>All members of the school community</p>	<p>Any parents who have had a positive test or who are displaying symptoms of COVID-19 should not be attending the school</p>	<p>Schools might consider issuing their own guidelines for Covid-safe behaviour on the premises. Any such guidance should be written up in consultation and collaboration with parents and pupils.</p>
5.	<p>Risks of possible transmission to pupils who travel to school by dedicated school transport (including statutory provision) or wider public transport</p> <p>The Actions for schools during the Coronavirus Outbreak details the framework for</p>	<p>Pupils</p>	<p>Recommend to parents and carers that face masks are worn in enclosed and crowded spaces where pupils may come into contact with people they don't normally meet. This includes public transport and dedicated transport to school or college.</p> <p>Dedicated school transport (including statutory provision)</p>	

	transporting pupils to and from schools		Liaise with the transport hub and check that they are fully aware of the health and safety procedures. mainstream-transport.cts@eastsussex.gov.uk	
6.	Risk of ongoing contamination from people (staff, parents/carers, visitors, contractors and/or deliveries) coming into school	All members of the school community	<p>Face coverings are no longer advised for pupils, staff and visitors either in classrooms or in communal areas.</p> <p>Ensure contractors, school meal providers, milk providers and fruit providers can fulfil all risk assessment requirements</p> <p>Communicate clearly that anyone displaying symptoms of COVID-19 should not attend school and arrange to take a PCR test as soon as possible</p> <p>Make arrangements for strict handwashing/sanitising procedures in place as soon as pupils/staff/visitors/contractors arrive in school</p>	<p>Volunteers and visitors are welcome to visit schools but should be made aware of the control measures.</p> <p>Before visitors attend performances or sporting events, the school will encourage them to self-assess for symptoms of coronavirus (COVID-19). These are:</p> <ul style="list-style-type: none"> • a high temperature • a new, continuous cough • a loss of, or change to, your sense of smell or taste
7.	Risk that contamination exists within the school environment due to ineffective hygiene measures.	All members of the school community	<p>Regular cleaning should take place of equipment and areas.</p> <p>Risk assessment to identify any areas where cleaning should be more frequent.</p> <p>Enhanced cleaning schedule in place to ensure effective hygiene standards comply with latest</p>	

			<p>guidance - cleaning of non-healthcare settings.</p> <p>All handwashing sinks, soap dispensers, hand gel etc are checked 3 times a day to ensure stock levels are adequate</p> <p>School leaders to inspect daily to ensure good/effective hygiene levels</p>	
8.	<p>Risk of transmission from pupils and staff who have been in contact with the virus and/or are showing signs of having the virus (a new, continuous cough or a high temperature)</p>	<p>All members of the school community</p>	<p>The PCR test kits sent to schools can be used in the exceptional circumstance that an individual becomes symptomatic and schools believe they may have barriers to accessing testing elsewhere. It is for schools to determine how to prioritise the distribution of their test kits in order to minimise the impact of the virus on the education of their pupils.</p> <p>These kits can be given directly to staff or parents and carers collecting a child who has developed symptoms at school.</p> <p>If anyone in the school becomes unwell with a new and persistent cough or a high temperature, or has a loss of or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow guidance for households with possible or confirmed</p>	<p>Settings only needed to do contact tracing up to and including 18 July. Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.</p> <p>From 16 August 2021, children under the age of 18 years old will no longer be required to self-isolate if they are contacted by NHS Test and Trace as a close contact of a positive COVID-19 case.</p> <p>Instead, children will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. Schools to encourage all individuals to take a PCR test if advised to do so.</p> <p>If the school has several confirmed cases within 14 days, there may be an outbreak. In this case, a director of public health might advise you</p>

			<p>coronavirus (COVID-19) infection,</p> <p>If a pupil is awaiting collection, they should be left in a room on their own if possible and safe to do so. A window should be opened for fresh air ventilation if possible.</p> <p>Appropriate PPE should also be used if close contact is necessary. Further information on this can be found in the use of PPE in education, childcare and children’s social care settings guidance. Any rooms they use should be cleaned after they have left.</p> <p>The household (including any siblings) should follow the PHE stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection.</p> <p>Headteachers should communicate to staff that if they are displaying symptoms they should be tested ‘as soon as practicably possible.’</p>	<p>that face coverings should temporarily be worn in communal areas or classrooms (by pupils staff and visitors, unless exempt). Check the contingency plans cover this possibility.</p>
9.	Contingency planning	All pupils and staff	Contingency plans are in place and reviewed regularly. See LA model contingency plan	

			(available via the Message Board).
