

Online Learning Grade Scale

Actual Grade	Points	Proficiency Level	Description
95-100	4.0	Advanced	Student consistently exceeds grade level expectations/standards and is able to apply them almost faultlessly in a wide variety of situations. The student demonstrates originality and insight and regularly produces work of high quality.
90-94	3.5	Advanced	Student consistently meets and exceeds grade level expectations/standards and is able to apply learned information and skills to new and unfamiliar situations with original insights beyond what is covered in the classroom.
85-89	3.0	Proficient	Independently, student consistently meets and sometimes exceeds grade level expectations/standards and is able to apply learned information and skills to complex ideas and processes in familiar situations. <i>(This is the level being "taught")</i>
80-84	2.5	Proficient	With minimal adult support, student consistently meets grade level expectations/standards and is able to apply learned information and skills to complex ideas and processes in familiar situations. <i>(The student is showing proficient level of work but not as consistently)</i>
70-79	2.0	Progressing	The student meets or exceeds proficiency of foundational details and processes or prerequisite skills, but is still working toward proficiency of the complex ideas and processes of the grade level.
60-69	1.5	Partially Proficient	With assistance, the student displays knowledge of foundational details and processes or prerequisite skills.
55-59	1.0	Unsatisfactory	The student is rarely able to display knowledge of foundational details and process, even with help.
50-54	.5	Unsatisfactory	The student has not met essential course requirements. <ul style="list-style-type: none"> • Missing assessment(s) • Students can still receive a grade for the course if made up.
No Grade	IE	Insufficient Evidence	Student has not provided evidence of learning or engagement throughout the course <ul style="list-style-type: none"> • Course should be made up through an entire credit recovery on Edgenuity or re-taking the course
