***PEQUANNOCK TOWNSHIP
PUBLIC SCHOOLS***

Dear Parents and guardians of preschool and kindergarten students,

It is our intent to promote oral health care which can affect student learning. We are requesting that the oral health assessment form be completed and returned with the medical registration packet. Tooth decay (or cavities) is the number one chronic childhood disease in America. Tooth decay is preventable with good oral hygiene and dental visits. One alarming statistic is that 51 million school hours are lost each year to untreated cavities. Young children who suffer from oral disease can have decreased appetite, inattentiveness, and distractibility caused by pain or infection.

Please have your child visit a dentist to ensure preventable disease. The NJ Dental Association offers an online find-a-dentist resource at www.njda.org.

Thank you for your support in keeping our students healthy to optimize learning.

Sincerely,

Pequannock Township Elementary School nurses
