Medlin MS – Fine Arts Addition

Berkshire Elementary

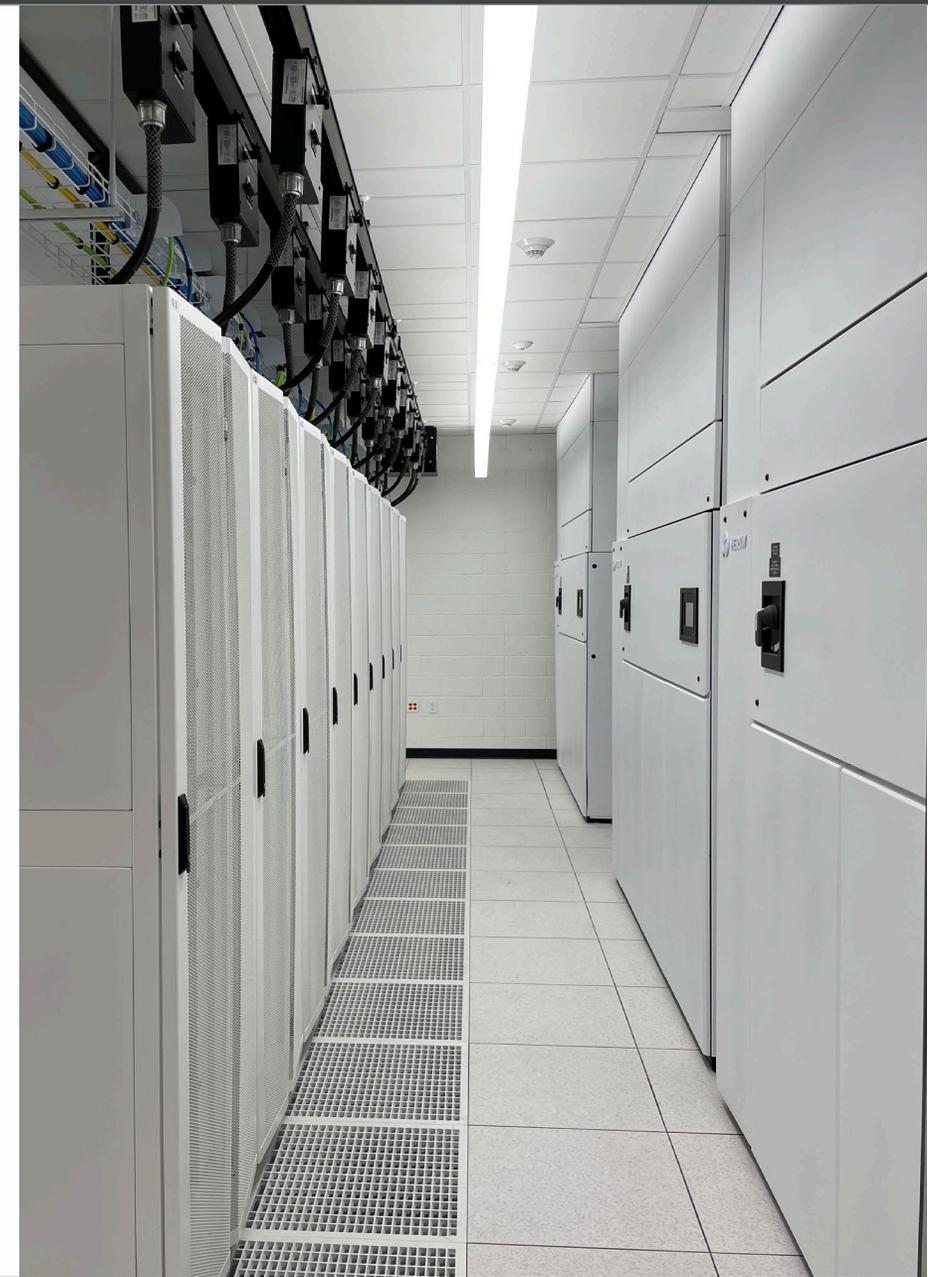

Network Operation Centers

Renovations to former Haslet ES – Phase 1

A large-scale construction site featuring a tall, grey concrete structure on the left and a lower, reddish-brown building on the right. A prominent red crane is positioned on the roof of the grey structure, lifting a long, dark metal beam. The ground is uneven and covered in dirt, with a white pickup truck and a yellow trailer parked nearby. Several workers in safety gear are visible on the roof of the grey structure. A tall, thin tower stands in the background. A white banner with red text is overlaid across the center of the image.
