

# Community Council

Agenda October 27, 2021 5:00pm

Room 30

1. Welcome: Mrs. Lundell welcomed the committee. Introductions were made of those present: Mrs. Lundell, Jen Merrill, Alesha Chatterton, Becca Dastrup, Maree Pope, and Lori James. Stacey Rohwer and Tarrin Philpott were unable to attend this meeting.
2. Review of Minutes: By Mrs. Merrill-- Approved by Mrs. Pope and seconded by Mrs. Chatterton
3. School Improvement Plan: In review of the plan, we discussed how we've spent about \$2000 on personalized and adaptive technology for reading and math to purchase licenses needed in addition to what was granted to us. Also, one of our goals focuses on behaviors and reducing office referrals with SEL strategies. We reviewed our expectations along with the token rewards for positive incentives and how that is affecting behavior referrals, as well.
4. School Business—We reviewed our start of year data for Acadience Math in grades K-3. This is a new assessment tool that is provided by the state. This is the first year we have given this test so we don't have reference points yet, but will be looking at growth moving forward. We also reviewed the 5<sup>th</sup> and 6<sup>th</sup> grade beginning of year data on the MAPS Growth assessment that is being given in association with the Summit Learning program.

5. Community Business— An introduction to Community Council training video from the state was viewed. The question was asked of how parents can access their student's data on the Acadience math since it has been input already. Mrs. James will check into this as we are unsure.

**\*\*Our next meeting is planned for January 20<sup>th</sup> at 5:00pm.\*\***
