

Mrs. Cefalu

Welcome, parents!

Welcome

About Me

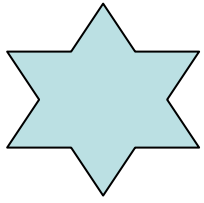

About Me

My background

- **Masters Degree in Education**
- **12 years teaching 5th grade Math and Science**

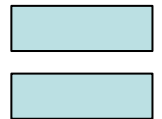

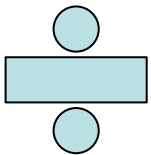

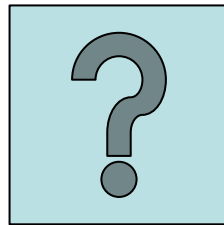

My Goals

- To give your children the academic and social skills they need:
 - to build confidence and succeed
 - to progress to __5th__ grade
 - to become life-long learners.
- To provide a supportive and enjoyable classroom environment.

Class Subjects

- In Math this year we will be working with a lot of decimals and fractions.
- We will multiply multi digit numbers and learn the steps of division.
- For Science this year we will learn all about matter, the water cycle, the solar system, and many other exciting topics!

Online Platforms For Your Class

- If your child misses a day of school they can always get onto Oncourse and find their lessons for the day.

Preferred Method Of Communication

You can email me at

marianna.cefalu@tangischools.org to ask a
question or set up a conference.

Wish List

- We can always use paper products, pencils, and dry erase markers since your child uses their white boards daily for math problems.
- Thank you for taking part in our virtual open house!
