Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Job Placement Rate	<p>The job placement rate is self-reported on the exit survey by students at the time of graduation. The in-field rate is calculated by dividing the number of reported respondents who have found a job in their field by the number of total respondents. The total employed rate is computed by dividing the number of respondents who have found a job by the number of total respondents.</p> <p>Response rates for the exit surveys include: AS in Business = 100%, Business = 100%, Sport and Event Management = 100%</p>
