Letter of Transmittal from the

TOWN MANAGER

To the Town Council and Citizens of Scarborough:

I wish I could summarize the year's activities and key opportunities going into the future, into a couple of paragraphs but that would not do justice to the various departments and the myriad issues they deal with every day. Instead let me take this opportunity to highlight in general what I consider to be some of the key issues that government has confronted over the past year and that will continue to challenge us in the future.

The past year can best be described as a year of celebration, a year of major economic development and a year of investing in some of our older neighborhoods.

- In July we celebrated the Town's 350th anniversary featuring a fantastic parade and a weekend highlighted with fun activities, music and even hot air balloon rides. The work to make all of this possible was performed by hundreds of volunteers supported by every town department. In the three months leading up to the event, weekly coordinating sessions were held with all of the departments to address the issues of parking, transportation, trash removal, equipment setup and emergency situations that may arise. The cooperation was flawless which, in my opinion, shows citizens the kind of dedicated and quality employees that work for the town. I also extend a special thanks to all of the volunteers that participated and the members of the 350th Coordinating Committee.

- During the year, work began on the development of Phase I of the Haigis Parkway's Scarborough Gateway, an envisioned high end business park and in the spring we saw the opening of Cabelas. Cabelas is important not only because it brings new jobs and investment to the community but because it creates a visibility for gateway to the Haigis Parkway from the Turnpike's Exit 42. The other substantial benefit generated by the development of the Parkway are the new tax dollars that assist the Town Council in keeping our tax rate low, one of the lowest in the Greater Portland area. The success and quality of this venture results from the hard work and dedication of the Planning Board and the Planning Staff headed by Dan Bacon, Director of Planning.

- Several major public works projects were begun during the fall 2007 and the spring of 2008. All of these projects were managed by the Department of Public Works coordinating the bidding with the Town's Purchasing Agent resulting in very favorable contracts for the Town.

- The Higgins Beach neighborhood saw a major revamp of their storm water drainage system which had been cobbled together over the years in the transition from a summer colony to a regular neighborhood. Periodic flooding of the streets and properties has been dramatically reduced and the addition of sidewalks along Ocean View provide safe pedestrian access along the major entry way.

- The second phase of the Green Arcs Drainage Improvement project was begun along the Maple Avenue area. This project addressed the problems of poor storm water drainage, pedestrian safety by the addition of sidewalks along Maple Avenue and the issue of traffic flow and speed by reducing the width of the travel lanes and the installation of curbing.

*Ronald W. Owens
Town Manager*

- During the summer and fall of 2007, a series of meetings were held in the Dunstan area to discuss the proposed improvements to the sidewalks along Route 1. The proposed improvements would relocate the sidewalks further from the edge of the roadway leaving an esplanade between the street and the sidewalks for pedestrian safety. After receiving comments from citizens and making appropriate changes, the Council approved the project for the summer of 2008.

These are just a few of the highlights of the many improvements and activities found in every department and agency's reports contained within. I encourage you to take a few moments to review the contents of the annual report. You will find other interesting information about the Town's solid financial condition and the awards recognizing our Finance Department's excellence in financial reporting; our very successful curbside recycling program; the Planning Department and the Comprehensive Update Committee's implementation of the Comprehensive Plan; and our growing senior citizens programs and especially their "WOW" programs and website.

The events of fiscal 2008 and the programs initiated will have a significant impact on the year ahead but these actions are all part of plan that balances services with financial responsibility. Reading through this annual report will hopefully give the reader a sense that we remain a financially strong, stable and viable community with employees committed to the highest standards of public service. But there is always room for improvement and all the department managers welcome your comments and suggestions on improving both the delivery of services and the reporting them in this annual report.

*Respectfully submitted,
Ronald W. Owens, Town Manager*

Report from the

TOWN CLERK

To the Town Manager, Town Council, and Citizens of Scarborough:

Yolande P. Justice
Town Clerk

It is with pleasure that I submit my report from the Town Clerk's Office for fiscal year July 1, 2007, through June 30, 2008.

The following Elections were held:

- Tuesday, November 6, 2007, the Municipal Elections were held to elect members to the Town Council, Board of Education, and Trustees to the Sanitary District as well as one bond referendum question. There was a State Referendum Election and a Cumberland County Referendum Election. Our voter turnout was 4,647 [35% of our registered voters].
- Thursday, May 29, 2008, the School Budget Validation Referendum – For the first time, Scarborough voters were asked to approve the Scarborough School System's Budget in a townwide referendum pursuant to the Maine's School Administrative Reorganization Law.
- June 10, 2008, Primary/Referendum Elections were held to elect members to each party to run in the November 4, 2008, General (Presidential) Election.

The Town Council holds two regularly scheduled meetings a month, except for July and August when the Council holds one meeting, totaling 22 over the course of a year. In addition, there were 8 Special Council meetings held. During this period a total of 98 public hearings were held by the Town Council.

Vital statistics include records of marriages, births, and deaths and are part of the records in the Clerk's Office. The births and deaths are recorded in three locations within the state: 1) Place of residency, 2) Place of occurrence, and 3)

the State Office of Vital Statistics in Augusta. The marriages are recorded in the municipality in which the license was obtained and the State Office of Vital Statistics in Augusta.

During the past fiscal year a total of 100 marriages, 449 deaths, and 135 births were filed by the Clerk's Office

The following items were issued by the Clerk's Office during the Fiscal Year - July 1, 2007, to June 30, 2008:

Items Issued by the Town Clerk's Office:

2,098	Approximately Certified Copies

GENEALOGY

Genealogy is fast becoming the number one hobby in America today. As a result, municipal clerk's offices receive numerous requests for information. Requests are received in person, or in the mail. Municipalities have different policies regarding genealogy research - some

charge by the hour, some charge per search. Scarborough's fee for genealogy is as follows: \$3.00 per name – whether or not a record is found, this includes a photo copy and if the record is attested there is a fee of \$10.00 per record. All genealogy requests must be in writing and accompanied by the appropriate fee.

Make check payable to "Town of Scarborough". Include all known information with the written request - name, dates, location, etc.

Fees must be paid in advance. Mon - Fri, 8:00 a.m. - 4:00 p.m. Town Clerk's Office, 259 US Route One (P.O. Box 360), Scarborough, ME 04070 - (207) 730-4020.

Due to the volume of requests, phone and email request searches can not be honored. In addition, due to consideration for other customers and office work load requirements, genealogy search requests submitted in person can be left with the office staff and will be processed within thirty days.

The Scarborough Historical Society also handles genealogy requests. Their contact information is as follows:

Scarborough Historical Society*

649a U.S. Route One
P.O. Box 156
Scarborough 04070-0156
(next to Dunstan Fire Station)

Message machine: 207-885-9997

Report from the

HUMAN RESOURCES & GENERAL ASSISTANCE OFFICE

To the Town Manager, Town Council, and Citizens of
Scarborough:

Brian Smith
Human Resources /
General Assistance Office

In keeping with the 2009 theme of “The Future of Scarborough”, the Human Resources Department will be a strategic partner by working with other departments and with the community as the town’s needs and directions change.

The Human Resources Department is responsible for a variety of key personnel functions that relate to the employees who work for the town.

• One of the key responsibilities of the Human Resources Department is the implementation, application, communication and on-going custodian of the Town’s personnel policies and practices. Our policies are documented in the Town’s Personnel Ordinance and via supporting documents providing more detailed information. The Personnel Ordinance is the guiding document for the Town’s personnel policies and practices. Future amendments will be made to the Ordinance as circumstances change.

- For employees in the Police, Dispatch, and Paramedic Associations, many of the agreed upon policies affecting the employees in these units are documented in their respective Collective Bargaining Agreements (CBA’s). In 2008, the Human Resources Director successfully negotiated three year contracts with the Police and Dispatch unions. The Paramedic contract expires on June 30, 2009, and the Human Resources Director will be the chief negotiator for the Town during those negotiations.
- The Human Resource Department is responsible for assisting department heads to meet their employment needs. In the short-term, it is anticipated that staffing levels will remain similar to current levels. The only foreseen exception to full-time staffing level changes is with our Fire Department. The transition to building a full-time staff is a long-term plan spanning over 10 years. Human Resources will partner with the Fire Department throughout this process.
- It is our objective to maintain competitive exceptional compensation rates and benefits to attract and retain an

workforce. The Human Resource Department is responsible for assuring that our compensation program meets the needs of the town within the confines of the annual budget. The same holds true for employee benefits. As an on-going strategy, the Human Resource Department is committed to providing excellent health benefits for its employees at a reasonable cost. Maintaining this commitment is anticipated to be an on-going challenge in future years.

- Human Resources will continue to maintain a mutual working relationship with the Risk Management group at the Maine Municipal Association. Risk Management focuses on our Workers’ Compensation experience and training initiatives to maintain a safe workplace for our employees. The Human Resources Director attends and participates in monthly Safety Committee meetings conducted at Public Works and Community Services.
- Retirement plan options are extremely important aspects of our overall benefits program. The Human Resource Department administers the defined benefit plan offered through the Maine Public Employees Retirement System (MainePERS) and the 401 Money Purchase Plan through ICMA-RC. Retirement planning seminars and workshops offered through ICMA-RC will be made available to our employees commencing in 2009. This will be a continuing educational process each year to assist our employees as they plan and prepare for retirement. In addition, the Human Resources Department administers the 457 Deferred Compensation Plan and Retirement Health Savings Plans.
- The Director of Human Resources will continue to be the town’s liaison to the Housing Alliance. The town’s first affordable housing projects are on the horizon, and the Housing Alliance will continue to be involved with this evolutionary process.
- With changing and more complex needs affecting our Department Heads, staff members and others affiliated with the town, the Human Resources Department will play a proactive and consultative role with all involved.
- The Human Resources Director will continue to work with the ADA Advisory Board on an as-needed basis to address future matters requiring the committee’s attention.
- The Human Resources Director coordinates, facilitates and chairs a group of Human Resource professionals

(Continued on page 11)

(Continued from page 10)

from Southern and Central Maine communities and Cumberland County. In 2008, the group increased in size from approximately ten to over twenty members. The group meets bi-monthly to discuss matters of mutual importance and relevance. Most meetings include guest presenters who discuss contemporary issues related to human resources.

- The policies and changes in Federal and State statutes contained in the Town's Personnel Ordinance were updated. With the changes anticipated in the upcoming years, ordinance updates are expected to be done annually.
- Incorporated within the Human Resources Department is the General Assistance Office. The General Assistance program is administered locally by the Human Resources Assistant, Brenda Clark. The program is administered in accordance with State law and the Town's General Assistance Ordinance. General Assistance allows us to provide aid, under strict guidelines, to individuals and families in financial crisis within the Scarborough community. We work closely with various units of the Maine Department of Health and Human Services (DHHS) and with social service agencies such as Southern Maine Agency on Aging, Catholic Charities, Project Grace, and People's Regional Opportunity Program (PROP). Looking

forward to the future, it is anticipated the need for assistance of many people within our community will increase. These future challenges will be managed cooperatively by the Town, local service agencies, and the businesses and citizens who graciously volunteer their time, and provide goods, services and financial support to others in need.

As the spectrum of Scarborough continues to broaden and change, the Human Resources Department will evolve with it. The future will be challenging but exciting. The Human Resources Department looks forward with pride and anticipation to working with employees, friends and neighbors in support of mutual goals and objectives.

Respectfully submitted,

Brian A. Smith
Human Resource Director

Brenda Clark
Human Resource Assistant

Report from the

INFORMATION SYSTEMS

DEPARTMENT

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with great pleasure that I submit this report on behalf of the Information Systems Department. In keeping with this year's theme of "Where are we going," I would like to share the vision of where we hope to be in the near future. The municipal and school departments have come far in the area of technology in a short period of time. Our vision for the future in the area of Information Systems is interesting and exciting; as it will benefit the citizens of Scarborough in the ways we serve them and educate our children.

The Scarborough Information Systems Department was formed in 1996 through the cooperative efforts of the Town Council and Board of Education. The municipal's Information Services Department and the school's Computer Technology Department were combined into one department to meet the ever increasing technology needs of the Town of Scarborough in a cost efficient manner. During the past ten years the merger has proved to be a worthwhile venture as the school and municipal networks share

personnel, resources, hardware and information between six sites that make up the Oak Hill "campus", plus ten remote sites. The installation of fiber optic cabling in 1995 between the six Oak Hill sites established the first school and town wide area network that has grown to now include the three Primary Schools and Public Works. This wide area network enables the sharing of data and voice communications, which is more efficient and reduces operating cost.

Stephen F. Tewhey
Information Systems
Director

In 1997 the Town of Scarborough Web Site was established as a means of communicating with the public. It has grown into a communications center for up-to-date information and on-line access for the citizens to conduct town business. You can now register your vehicle or sign up for Community Service programming without traveling to the Municipal Center. As we move forward other departments will be adding on-line services for our citizens, which save time and lowers cost. Please visit

(Continued from page 11)

www.scarborough.me.us throughout the year for more information.

Scarborough is committed to an on-going system-wide process designed to make wise use of a broad array of technologies. The schools are in the second year of a three-year Comprehensive Plan for Technology. The plan calls for technology at the "point of learning" and "access to and routine use of a full range of internal and external information" throughout our schools. This has placed networked computers in every classroom and wireless access in every building. Teachers and staff have integrated this new technology into every area of the curriculum. To view our Technology Plan please visit the School Web Site at www.scarborough.me.us.

Indeed we have come a long ways in a short period of time. The town and school have used technology to increase productivity and provide more services in a cost effective manner.

Respectfully submitted,
Stephen F. Tewhey, Information Systems Director

Report from the**FINANCE DEPARTMENT**

To the Town Manager, Town Council, and Citizens of Scarborough:

Ruth D. Porter
Finance Director

It is with profound pleasure that I submit the annual report on behalf of the Finance Department for the Fiscal Year 2007-2008.

The Finance Department is responsible for managing and reporting the financial activities of the Town of Scarborough to assure all interested parties those public resources are conscientiously received, safeguarded, invested, accounted for and disbursed. Our department works to reduce liabilities and risks in order to protect the

financial and personal interests of the residents, taxpayers, employees, investors and visitors. Additionally, the Finance staff prepares financial statements that report the financial condition of the Town of Scarborough. The Governmental Accounting Standards Board (GASB) is the governing body for the reporting and accounting of municipalities across the country. The Town of Scarborough Finance Department received the prestigious *Certificate of Achievement for Excellence in Financial Reporting* for the Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2007. This is the third consecutive year that the Town of Scarborough has submitted and achieved this prominent award. Excerpts of the June 30, 2008 Comprehensive Annual Financial Report (CAFR) are highlighted on the following pages. The Town of Scarborough's financial report was audited by the firm of Macdonald Page and Co., LLC located at 30 Long Creek

Drive, South Portland, Maine 04106. Please review the completed CARF on the Town's web site at <http://www.scarborough.me.us/acct/index.html>.

The Finance Department is comprised of the following offices and describes the related responsibilities:

- **Accounting:** Includes payroll, accounts payable, cash management, financial software implementation and oversight, investments, risk assessment, accounts receivable, budgeting, debt management and financial reporting.
- **Collections:** Includes property tax collection and processing, general and rescue billing and collections, vehicle registrations, hunting and fishing licenses, beach parking permits, boat launch permits, parking tickets, snowmobile, watercraft and ATV registrations along with various other revenue collections.
- **Purchasing:** Includes procuring goods and services, directing, supervising and coordinating the preparation of technical specifications for all purchasing and construction related activities of the Town.
- **Assessing:** Includes calculating the annual valuation of all taxable and exempt real and personal property in Scarborough and committing the property taxes annually.

Since 1980, I believe that Scarborough has grown in very many ways. We have more businesses than in the past. We have more citizens and students than in the past.

I hope to show, through numbers, how Scarborough has grown over the years between 1980, when I first started working for the Town, through June 30, 2008. I have listed selected data from four fiscal years, 1980, 1988, 1998 and 2008.

Respectfully submitted,
Ruth D. Porter, Finance Director

AUDIT FOR YEAR ENDING JUNE 30, 2008

The schedules on the following pages have been extracted from the financial statements of the Town of Scarborough, Maine, a complete copy of which is available for inspection at the Town Office. The schedules included herein are:

Statement 1: Statement of Net Assets
 Statement 3: Balance Sheet - Governmental Funds
 Statement 4: Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds
 Exhibit A-1: General Fund Comparative Balance Sheets
 Exhibit A-2: General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance - Budgetary and Actual
 Exhibit G: Statement of Changes in Long-term Debt

Statement 1

Report from the

EXCISE TAX OFFICE

To the Town Manager, Town Council, and Citizens of Scarborough:

It's been three years since I last said hello to all of our Scarborough residence, and much has accrued since our last article in the annual report. For one the hard work of our former town manager Mr. Ron Owens came full circle and we incorporated our two offices; Tax and Excise, so that together these two offices could better serve our Town Hall customers. Our offices moved out after Thanksgiving and went into chambers "B" for two and half months, which by the way was ahead of schedule, thanks to the great work Hardy Ponds foremen did coordinating all the sub contractors. The next step was to cross train all of our Tax and Excise personnel, which happened in no time. We have great people serving the residence of Scarborough and they go above and beyond the call of duty to help each and every town residence. We also still and will serve the City of

South Portland's customers by completing their new boats and doing all of their residence snowmobiles and ATV's.

New changes have come with our new Town manager Mr. Thomas Hall and we look forward to the future, we also wish to thank Mr. Ron Owens for his many years of service to the Town of Scarborough and we wish him well in his retirement. I hope he is enjoying the warmth of Florida?

Report from the

TOWN ASSESSOR

To the Town Manager, Town Council, and Citizens of Scarborough:

*Paul Lesperance
Town Assessor*

This year, the tax rate was set at \$11.80 per thousand dollars of value based on a taxable valuation of \$3,397,230,200 for real and personal property as of April 1, 2007. This is an increase in valuation of \$79,732,400 from 2006 or 2.47%. The tax rate increased by 32 cents or 2.78%.

The tax rate is based on municipal, school, and county expenses. The total appropriation was \$40,087,316 up \$2,002,442 or 5.25%.

The total number of taxpayers who qualified for a homestead exemption in fiscal 2008 was 4,251 which saved each home \$153.40. The total number of veteran exemptions amounted to 605 for an additional savings of

\$59.00. It is important that each taxpayer who qualifies for an exemption file an application with the Assessor's Office. This was the first year for the Property Tax Assistance Program. We approved 134 applicants for a total refund of \$59,852.78. All citizens are encouraged to call or visit our office so that we can determine if you qualify for any exemptions and make sure the proper forms are completed.

As always, I and my Administrative Assistant Sara Salisbury and Assistant Assessor Susan Russo are available to all citizens for any questions you may have concerning your valuation or property tax.

Report from the

PURCHASING OFFICE

To the Town Manager, Town Council, and Citizens of Scarborough:

The Town of Scarborough's Purchasing Office is responsible for procuring goods, services and construction for all Town Departments as well as administering its contracts.

Over the last three years, Purchasing has continued to provide a valuable service to the Town's Departments, as well as expanding its role to provide procurement and contracting services to that of Scarborough's Public Library.

As with the Town Hall Collections renovation purchasing aims to provide similar services to the up and coming Library renovation project in coordination with Library staff, the architect, and selected contractor. At the time of this report's publishing the project was at the bidding stage. Given the state of the economy, there are numerous good contractors seeking work so we are hopeful of obtaining favorable pricing. We are confident this project will be well managed and the resources of purchasing and other departments, as well as those of the contractor's will be effectively utilized to restrain costs and hit target dates.

To date, Purchasing continues to provide oversight and procurement services on various types of equipment purchases and services, as well as construction projects throughout Town. On the equipment side, we have procured numerous light duty vehicles and pick-up trucks for Community Services, Public Works, and the Fire Department as well as a Plow Truck for Public Works, and a Class "A" Pumper Apparatus for the Fire Department. Additionally, Town Departments including the Library have been able to successfully utilize various service contracts procured by Purchasing through competitive processes for professional services such as Lighting Design and Engineering, Architectural Services, HVAC services, and phone services. Examples of the successes of these contracts can be seen at Public Works and the Library where through Lighting Design and Engineering, we procured energy efficient lighting for both facilities. By designing the project as such and working in conjunction with Efficiency Maine we have received over \$20,000 in rebates. With a full calendar year of electricity usage and billing nearing for the Public Works facility, we are anxious to see the savings we will realize over the out of date lighting replaced. Throughout the process on all of these procurements, Purchasing continues to provide soft cost savings to individual departments. Such soft costs would include procurement administration, contract oversight, and coordination and follow-up among others. This has freed up departments to do the things they are trained to do, thus

lessening the burden of having to worry about the intricacies of public procurement.

As well as continuing to provide oversight on the Town's Procurement Process, Purchasing will look towards utilizing computer software and the internet to make the Town a more efficient and effective organization; not only in how we procure goods and services, but also how we conduct business. We are hoping to implement an internet based program in the New Year called "Business Self Service" whereby any vendor or contractor can register online to be informed of equipment purchases, and/or service procurements such as construction via email. We anticipate numerous benefits by utilizing this program beyond bringing more competition to our procurement processes; most importantly it will ensure we are reaching out to all of our local businesses so they are aware of opportunities to do business with the Town. Purchasing hopes to team with SEDCO to reach out to our local business community once we get the program up and running. We are very excited about the possibilities and doors this program will open.

In these tough economic times, Purchasing, in conjunction with all Town Departments will continue to remain proactive and find ways to effectively utilize tax payer dollars through competitive processes, and effective use of resources. For the future, we hope to better utilize our collective buying power to procure various everyday items that all Departments use and continue to cooperate with our neighbors where regional buying presents an opportunity to save additional dollars.

Respectfully submitted,
Keith L. Matherne,
Purchasing Agent

Grand Total July 1, 2005, through June 30, 2006 \$198,729.98		

The State of Maine encourages all visitors at all beaches to carry out what you carry in.

Scarborough has made available rubbish containers in and near the parking areas of all local beaches and recreation areas. Please take the time to use them.

Keeping our beaches and parks clean is a "quality of life" issue we all need to be aware of. Your cooperation on this matter is greatly appreciated.

The containers are emptied by the Community Services Department during the summer and winter months.

Thank you for using them.

Report from the

PLANNING DEPARTMENT

To the Town Manager, Town Council, and Citizens of Scarborough:

*Daniel B. Bacon
Town Planner*

It is with great pleasure that I submit the annual report for the 2008 fiscal year on behalf of the Planning and Code Enforcement Department. Our department performs the planning, engineering and code enforcement functions for Scarborough. Fiscal year 2008 was particular significant given the Town's 350th anniversary celebration coincided with both new development and planning initiatives that will likely define our community for many years to come.

Throughout the year, Code Enforcement inspected the construction of Scarborough Gateway Shoppes, including the Cabelas retail store, which opened its doors in May. This retail and restaurant center initiated development on

the Haigis Parkway, and is a new fixture at Exit 42. In the Payne Road area, Code Enforcement monitored the construction of the Lowes Home Improvement Store; the Texas Roadhouse restaurant; the expansion to the Sam's Club warehouse retailer; as well as the 88-room Homewood Suites Hotel, all of which are now open for business, anchoring this area as a regional destination.

Our department also inspected new development along Route One and in Oak Hill. A new 20,000 sq. ft. office building was constructed at 383 Route One; a 69-room Comfort Inn and Suites was completed; a classic diner opened its doors in Dunstan; and CPort Credit Union redeveloped a site at 313 Route One. In Oak Hill, Bessey Square was inspected and partially completed with new office and retail space; the construction of the Bessey Common senior housing project occurred; and a new Saco-Biddeford Bank was constructed and inspected throughout the year. In addition to these commercial projects, Code Enforcement also inspected a range a residential development, including new dwellings in Dunstan Crossing, the Black Point Inn, Sunset Ridge, and Hidden Creek Phase III.

On the review and permitting side, our Planning Staff coordinated and reviewed development plans and staffed seventeen Planning Board meetings. The Planning Board and staff reviewed a range of commercial, residential and

Campsites			181	
Commercial Lots & Buildings		13	21	
Senior Housing Units	175			
Commercial/Industrial Sq. Ft.	540,750	177,579	745,502	154,369
Live/Work Units			8	

(Continued from page 28)

industrial development projects and issued final approvals for those listed in the table below. The Morrison Development Center School, JDR Trust Office Building, the Bittersweet Banks Subdivision, Eastern Village, Maine Bank and Trust, First Look Plaza, Maine Medical Center's Research Expansion and Sebago Brewing are some of the most notable projects that were approved and are now in a position to be developed.

Planning staff also regularly assisted the Comprehensive Plan Implementation Committee and Planning Decisions as we continue to work to implement the Updated Comprehensive Plan that was adopted by the Town Council in 2006. The Comprehensive Plan Implementation Committee is charged with overseeing the implementation of the Updated Plan and working with the Town Council to that end. The committee's achievements in 2008 included establishing "town and village center" zoning districts in both Oak Hill and Dunstan; rezoning the north end of Route One to a business-office-research district; and creating a local business district (B3) for the Route One corridor between Oak Hill and Scarborough Marsh to continue to encourage commercial development and redevelopment in this area. In addition to these rezoning initiatives, the Implementation Committee worked with the Town Council to update the Town's Growth Management Ordinance to not only pace residential growth, but to direct a greater share of our residential development to the "growth areas" of town. More implementation is slated for fiscal year 2009.

On the engineering front, our department orchestrated the

oversight and inspection of the roadway construction associated with the new residential and commercial development that was occurring over the last year. Of note are the road and intersection improvements for the Scarborough Gateway project at Exit 42 as well as the new residential streets in Dunstan Crossing, Sea Ridge at Blue Point, Tamarack Lane, Howard Lane, Chestnut Drive, and Trademark Drive among others. We also worked on a range of town engineering projects, most notably coordinating with the Town Manager and Public Works on the Dunstan sidewalk plan that is currently under construction.

On a final, but very important note, I would like to highlight that our department welcomed Jay Chace as our new Assistant Town Planner. Jay previously served as the Town Planner in Harpswell and brings to Scarborough a strong background in planning, coupled with a very responsive, friendly disposition. Further, I would also like to thank and recognize all of our staff – Town Engineer James Wendel, Assistant Town Planner Jay Chace, Chief Code Enforcement Officer David Grysk, Code Enforcement Officers Carroll Shepard, Tom Reinsborough and Jonathan Reed, and Administrative Assistants Carole Logan and Robin Dahms – for their hard work and dedication.

Respectfully submitted,

Daniel B. Bacon, Town Planner

Report from the

CODE ENFORCEMENT OFFICE

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with great pleasure that I submit the annual report of the Code Enforcement Office for the fiscal year July 1, 2007 through June 30, 2008. The information below shows the activity during this past fiscal year.

*David Grysk
Chief Code Enforcement Officer*

Respectfully submitted,
David Grysk,
Chief Code Enforcement Officer
Inspectors:
David Grysk, Carrol Shepard,
Tom Reinsborough, Jon Reed

Report from the

ZONING BOARD OF APPEALS

To the Town Manager, Town Council, and Citizens of Scarborough:

During the fiscal year 2007 – 2008 the Scarborough Zoning Board of Appeals acted upon 60 appeals.

Of those 60 appeals, 3 were denied and 57 were approved. There were 16 Special Exception Appeals, 9 Variance Appeals, 7 Limited Reduction of Yard Size Appeals, 10 Practical Difficulty Variance Appeals, 11 Miscellaneous Appeals and no Administrative Appeals. The Special Exception Appeals included 8 Accessory Units.

Respectfully submitted,
Mark Maroon, *Chairman*
Zoning Board of Appeals

The Zoning Board has more information including their minutes and agendas on their Webpage, for more information please visit:

A Report of the

SCARBOROUGH ECONOMIC DEVELOPMENT CORPORATION

Harvey R. Rosenfeld - President,
SED CO

SED CO (Scarborough Economic Development Corporation) was incorporated in 1985 by the Scarborough Town Council as a non-profit development corporation to manage its economic development program.

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with great pleasure that I submit the annual report for the fiscal year July 1, 2007 through June 30, 2008, on behalf of the Board of Directors and the staff of the Scarborough Economic Development Corporation (SED CO).

► **Where We're Going:** SED CO has been around since 1985. Having served local businesses for the last 23 years, it is interesting for us to have watched the number of businesses in Scarborough increase over the years. We are now up to over 1,400 businesses in Scarborough. We project that in the coming years, that number will grow to 1,500 in 2010, 1,800 in 2015 and 2,000 in 2018. SED CO is currently located at 7 Oak Hill Terrace, just behind the Post Office. In the coming years, SED CO will be looking for a new space, as we continue to outgrow our current one. We have expanded the size of our Board of Directors to be better represented from our community, and we have also increased the professional requirements for our Staff. SED CO looks forward to what the commercial future has in store for Scarborough, and we are poised and ready to adapt to the inevitable future changes.

► **Our Office:** SED CO constantly updates its Resource Room, which is filled with brochures, business cards, and products from local businesses, in addition to information on state and federal resources, and financial institutions. As always, please feel free to come in and browse, or to drop off information about your business. Come visit us at Oak Hill; our hours are Monday - Friday 8:30 - 4:30 p.m.

► **Commercial Areas in the Town:** Throughout the Scarborough Industrial Park, the Pleasant Hill Road area, the Enterprise Business Park, the Haigis Parkway area, and up and down Route One and Payne Road, new businesses are coming in, and existing businesses are expanding and flourishing. The Super Wal-Mart is currently under construction at Scarborough Gallery. Maine Medical Center Research Institute's expansion is almost complete. The brand-new 383 US Route One building is now open.

Many new and diverse businesses have located in Scarborough, including sporting goods giant Cabela's, Kitchen & Cork, Portland Pie, The Meat House, and more. As evidenced by the number of new projects in Town, Scarborough's business community is continuing to expand at a rapid pace.

► **Haigis Parkway:** This area is quickly gaining national recognition, thanks to the first large tenant, Cabela's. This 130,000 SF destination sporting goods retail store opened in May 2008, as did many smaller retail stores in the nearby vicinity. Cabela's is part of a 70-acre mixed-use project that will bring 800 jobs to Scarborough. This development predicts 3 million people annually will visit Scarborough. There are also other projects currently in the planning and development stages for the Parkway. Due to the Parkway's location, having its own Maine Turnpike exit, its close proximity to the Portland Jetport, Route One, and 295, and the city and port of Portland, the area is a highly attractive location. SED CO is working very hard to ensure that the right kind of high-quality businesses locate on the Parkway. In fact, it was recently announced that Fairchild Semiconductor would be moving to the Parkway as well. The Haigis Parkway area is now referred to as "Scarborough's Professional Gateway" and a national marketing and ad campaign is currently underway to attract

(Continued on page 32)

(Continued from page 31)

developers to the area. The website for Scarborough's Professional Gateway is : www.scarboroughspprofessionalgateway.com

► **What SEDCO does:** SEDCO continues to work with local business people to help them create or expand their businesses in Scarborough. SEDCO fields hundreds of phone call and e-mail inquiries each year. SEDCO is also always eager to schedule introductory meetings with businesspeople, to introduce them to the Corporation and let them know exactly how we can help, and what services we provide. In addition, SEDCO deals with site location requests, financial assistance inquiries, business plan help, grand opening planning, and provides demographic and general information on Scarborough. It is SEDCO's goal to aid entrepreneurs to determine the best possible way to plan, develop, and grow their business. SEDCO also assists Town Departments and Town Committees and facilitates meetings between the departments and business owners and developers.

► **SEDCO Publications:** Quarterly, SEDCO publishes two newsletters: *Sites* and *Business Bulletin*. *Sites* is sent out to commercial realtors, economic developers, financial institutions, and appraisers in the Greater Portland area, and has a full listing of properties available in Scarborough. *Business Bulletin* is a summary of recent business events that have occurred in Town, and also has a listing of newly opened businesses; it is sent to all 1,400 businesses in Town, as well as to various public officials. Both newsletters are also available to the public via our website: www.sedco.scarborough.me.us. Also, the Corporation maintains an up-to-date listing of available space for lease and land and/or buildings for sale or lease in a user-friendly binder in its office; anyone is welcome to come and peruse the listings. In addition to these publications, SEDCO continually updates the *Scarborough Business Directory*, which contains information on all 1,400 businesses in Town. This Directory is available in hard copy, it may be e-mailed in Excel format, and it available on our website. SEDCO also provides a *Scarborough Lodging Directory*, which is a brochure that lists all motels, hotels, inns, campgrounds, and cottages for rent in Scarborough. The Lodging Directory was recently updated and re-printed.

► **Ten Largest Businesses in Scarborough:**

<u>Employer</u>	<u>Nature of Business</u>	<u># Employees</u>
Town of Scarborough	Municipal and Schools	1,346
Hannaford Brothers	Supermarket Chain, Corp. Office	1,169
Postal Service	Distribution Center	632
Cabelas	Sporting Goods	292
NorDx	Medical Laboratory	256
Johnson & Jordan	Mechanical Contractors	250
Wal-Mart	Retail Department Store	223
Sam's Club	Wholesale Department Store	173
Piper Shores	Nursing Home	150
Scarborough Downs	Race Track & Restaurant	150

► **Economic Development Incentives:** Scarborough has not taken the traditional economic development approach of

fast cash incentives to attract new businesses. Rather, we have developed a set of policy-based alternative incentives that benefit the community as a whole, rather than merely individual projects. Some of our alternative incentives include: location (ease of transportation and geographic proximity to Portland); large land area; one of the lowest tax rates in Greater Portland; quality of life; highly developed infrastructure; high bond rating and relatively low bond indebtedness; well-articulated design standards; and a positive financial environment. These alternative incentives have eliminated the need for special interest bonuses or benefits. They also capitalize on our economic advantages to create opportunities that attract affluent, financially capable, well-educated and well-supported business customers who bring a level of aesthetics that is compatible with our desire to continually improve the Town.

► **The Future:** Our Economic Development Plan for the Future is to continue to develop the philosophy of offering alternatives to traditional incentives, and our hope is that the Town of Scarborough will continue to lead Maine in quality economic development. The Town will strive to do this by maintaining its presence in the interconnected world of economic development and by maintaining and improving the existing level of effort that allows us to keep the non-residential tax base at a level of at least 25%. We must be prepared to respond in innovative ways to changing technology and evolving trends in the world economy. It is our goal to institute practices to create a commonly held vision of our Economic Development plan. The ongoing updating of the Comprehensive Plan offers a vision of the future that includes preserving our cultural, natural, and historic resources, while encouraging new areas for business location and development. Our economic development plan recognizes globalization and inevitable change to continue to make Scarborough a better place for both those who live and work here.

► **Contact Us:** We invite the business community and potential start-ups to contact SEDCO at (207) 883-4893. We are truly a unique service funded by the Town of Scarborough. Consultations with SEDCO are confidential, and there is no charge for our services. We look forward to working with you!

Respectfully submitted,
Harvey Rosenfeld, SEDCO President

POLICE DEPARTMENT

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with great pleasure that I submit the Annual Report of the Scarborough Police Department for the Fiscal Year 2007-2008.

Robert A. Moulton
Police Chief

The Growth of Scarborough

The theme of this year's annual report is "The Growth of Scarborough". It is not a surprise that this theme was chosen given the tremendous growth that we have seen over the past twenty years or more. Having spent my entire life here I have seen incredible changes in the landscape and demographics of our community. When seeing it change a little bit each day, it is easy to lose sight of just how dramatically Scarborough

has changed. There have been times over the years that I have been visited by people who have left the community for a period of years and then returned to either live here again or just to visit. It is during those visits, when witnessing their reaction to seeing or hearing about different parts of town, that I sometimes pause and reflect on all the changes that I have seen take place over the years. Thinking back even as little as twenty years ago, who could have imagined what our town would look like today.

The type of growth that we have experienced has obvious implications for the police department and the way that we deliver services. The changes in population, number of new homes, businesses, and neighborhoods is quite dramatic by any standards. Although well planned and managed, these changes do increase the demands for police services in pretty significant ways. As a brief illustration of those changes I have included the graph which shows the increases in calls for services and arrests as compared to the changes in police staffing. The graph displays data from the

beginning of 1989, which is the first full year of computerized data, through the end of 2007.

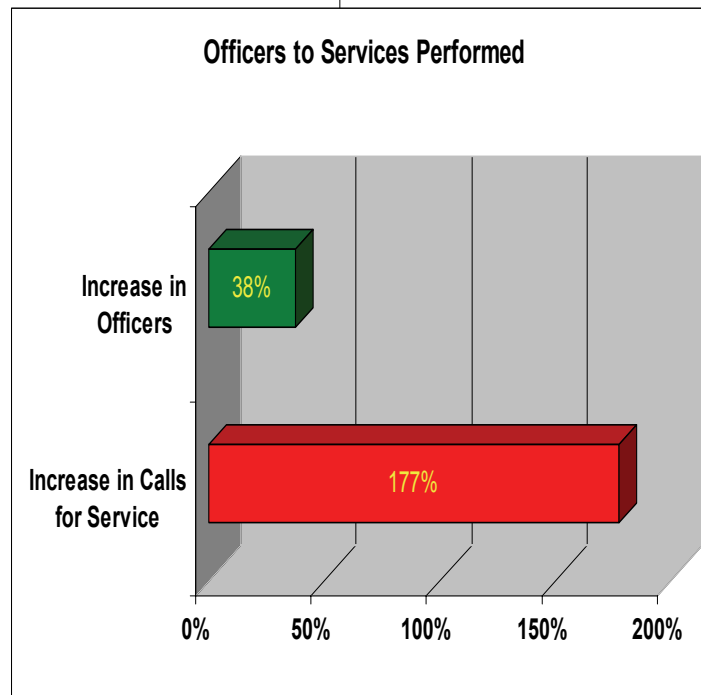

Looking at the future, the police department is faced with two major challenges. The first of our challenges is with respect to staffing. As the chart indicates, the increases in calls for services have far outpaced the increases in staffing.

For several years, budget constraints had prohibited the police department from requesting additional patrol positions. During budget preparations for FY 07/08, the Town Manager and Town Council acknowledged this fact and indicated that they would be receptive to seeing multi-year staffing plans for Police, Fire, and Rescue needs.

Currently, the police department attempts to maintain a minimum staffing level of three patrol officers and a supervisor. With our current compliment of officers it is difficult to maintain that staffing level. With a community that stretches 54 square miles, even when minimum staffing levels are met it is difficult to cover the expanse of each patrol area, particularly given the growth in residential neighborhoods and commercial properties.

Planning

The multi-year staffing plan that we presented to the town council would allow us to begin to introduce a fourth patrol area. This area would encompass the Payne Road corridor to include the Eight Corners area, Gallery Boulevard, Green Acres, and Haigis Parkway. This area has seen tremendous growth over the past few years and is projected to see significant additional growth in the next few years. This area is quickly becoming one of the busiest areas of our community and needs the attention of its own patrol. We were very pleased that the town council accepted and supported our staffing plan in the current budget.

The second major challenge for the department is with respect to the current facility. For the past several years we have noted the need for a capital improvement project to look at the needs of police, fire and rescue as it relates to our facility. In the FY 07/08 budget, the town council approved capital improvement funds to hire an architectural firm to work with the departments in formulating a plan which will ultimately be

(Continued on page 34)

(Continued from page 33)

brought to the voters. After a winnowing process of the firms that responded to the towns request for qualifications, the Scarborough firm of Gawron Turgeon Architects was selected to spearhead this project. During the course of the year, members of the Police Department have worked with their counterparts in the Fire and Rescue departments to identify their needs over the next several years.

Additionally, the departments have worked together to identify common areas and resources that might be shared to reduce costs and create additional efficiencies. At this point, work is continuing with a public safety building committee comprised of members of the departments as well as town councilors, planning department staff and citizens at large.

Planning seemed to be a consistent theme for this fiscal year. In addition to the long term planning for facilities and staffing, the Police Department was also very busy with some shorter term planning for the town's 350th celebration. I'm sure that many departments will comment on the 350th celebration in next years report as it actually took place in FY 08/09. I think it's safe to say however that the celebration was a tremendous success and well worth all of the hard work on everyone's part.

The Police Department has also been involved in the planning of a regional crime lab which will be located in a renovated section of the Portland Police Department. The Town of Scarborough has committed to joining with seven other communities and the County of Cumberland in a cost and resource sharing agreement. This agreement will help all of the communities involved defray the cost of expensive equipment while providing a forum for advanced training and support of crime scene personnel.

Day-To-Day-Operations

I am pleased to be able to report that some of our other regional efforts are working well and meeting their objectives. As reported last year, the Scarborough Communications Center is the State designated Public Safety Answering Point (PSAP) for Buxton, Hollis, and Old Orchard. This service is provided for other communities at a per capita fee. As of this writing, we have made it through our first year with flying colors. Our communications staff did an outstanding job handling the additional 911 call volume without a hitch.

Our involvement with the Federal, State, and Local drug task force (HIDTA) continues to be very successful in taking drugs, cash, and guns off the streets of our area. Our officer has been involved in a number of successful operations this year which have led to substantial sentences as well as assets being forfeited back to our community.

In last years report I noted our involvement in a new regional task force aimed at the investigation of violent crimes and the apprehension of violent offenders. This task force has been very successful in assisting area departments with violent crimes investigations. During FY 07/08, the Southern Maine Violent Crimes Task Force (SMVCTF) arrested 165 violent individuals. These individuals have a range of histories from murder, assault, robbery, rape, and fugitive from justice to name a few. There is no question that this task force has had a substantial impact on our region.

Our patrol officers and detectives continue to work diligently to address the concerns of our increasing population. Increased calls for service, higher volumes of traffic, and the increasing number of neighborhoods and businesses all put a strain on our resources and our

ability to provide
pro - a c t i v e
s o l u t i o n s .
Through the use
of technologies
and best
practices we
continue to strive
to provide
the highest level
of services to our
community.

In recognition of those efforts, the following individuals were recognized at our public safety awards night for the year 2007.

It can be said that imitation is the best form of flattery. When we were graciously invited by the Fire Department to join with them to make their annual awards night celebration a true public safety awards night, I was quite taken by a number of things. One of the things that I thought was particularly fitting was that they named some of their longevity awards after significant members and former members of the fire service. This gave me an idea and a couple of years ago I was very proud to present Captain Marla St. Pierre with the very first "Captain George G. 'Nick' Nickerson Award" in recognition of her 25 years of service. The late Captain Nickerson was an honorable policeman and a true character in every sense of the word. I was very pleased to be able to honor both Captain Nickerson and Captain St. Pierre with the surprise presentation of this award.

Chief's Award

Captain Marla St. Pierre

Congratulations to all of this year's award winners !!!

At this year's awards night I was on the other end of a surprise presentation when I was deeply honored to receive the "Chief John T. Flaherty Sr." award for 30 years of service. Chief Flaherty, a true character himself, is a well known figure around town both from his many years as Scarborough's second Police Chief and as the proprietor of Flaherty's Farm. It seems like just yesterday that I was offered the job of patrolman by Chief Flaherty and I was particularly touched to receive this award in his honor. A couple of days later, I had the opportunity to visit with Him at his home and show him the award.

*Former Chief Flaherty
& Chief Moulton*

On another note, I would like to take this opportunity to give many thanks to Town Manager Ron Owens as he prepares to retire and move to a warmer place. Ron has been great to work for. He has given department heads the latitude to do their jobs but has always been there for support and guidance when needed. When working with other chiefs and managers around the region, it became quickly evident that Ron was viewed as a man of great integrity and ability. In a number of our regional endeavors, it was Ron's soft spoken demeanor and collaboration skills that brought forth successful programs. On behalf of the members of the Scarborough Police Department, I would like to offer our best wishes and sincere thanks to Ron and Marcia as they begin a new chapter in their lives.

Reflecting back over my thirty years here, I think Scarborough is a remarkable place to live and work. When I travel around different parts of the state it makes me realize how unique we really are in that we don't just talk about team work, we truly practice it and not just on one level. I would like to thank the town council for the support that they have given us, both as a department and also as a community. I also need to give a special thanks to Fire Chief Mike Thurlow, Public Works Director Mike Shaw, Community Services Director Bruce Gullifer, and all of the other department heads whom we work with day in and day out. Finally, I would like to take this opportunity to thank all of the department's full and part time employees, volunteers, and supporters for all of the time, hard work and dedication that they invest in our community to ensure that it remains a wonderful place to live and work.

*Respectfully submitted,
Robert Moulton, Chief of Police*

Report from the

ANIMAL CONTROL OFFICER

To the Town Manager, Town Council, and Citizens of Scarborough:

Bruce Haskell Photography

Chris Creps
Animal Control Officer

This has been a busy year for wild animal calls throughout the Town of Scarborough. The majority of calls concern foxes and coyotes, as well as the usual complaints of woodchucks, skunks and squirrels invading homes and/or causing property damage. The Animal Control Division will provide live traps to residents for removal of nuisance animals, with the exception of larger animals such as fox, coyote, turkey, deer, moose, and bears.

The Maine Warden Service should be contacted regarding larger animal problems.

There is always a concern of wild animals carrying rabies or some other type of disease. Any mammal can contract rabies, but there are few that are actual carriers of this disease. Common carriers of rabies in the State of Maine are raccoons, skunks, foxes, and bats. This year there has been only one confirmed case of rabies in Town (raccoon).

Another concern for residents in Scarborough has been West Nile Virus. There are only a few birds that are tested for this disease: crows, jays, and ravens. Songbirds are not tested for the West Nile Virus.

The following are important reference numbers for wildlife concerns and disease .

- Maine Health and Environmental Testing State Lab – 207-287-1706
- Center for Disease Control -1-800-821-5821
- Maine Warden Service Gray Headquarters- 657-2345

Respectively submitted,
Chris Creps, Animal Control Officer

Report from the

HARBORMASTER - MARINE RESOURCE OFFICER

To the Town Manager, Town Council, and Citizens of Scarborough:

I respectfully submit this annual report as the Harbor Master and Marine Resource Officer for the Town of Scarborough for the year ending 2008.

This year has seen a slight decrease in tourist activity due to rising fuel costs and poor weather conditions. However the Marine Division was kept busy by a steady increase of commercial and recreational fisherman using Town facilities, most notably the Pine Point Fisherman's Co-Op. The Addition of the second boat

launch continues to be a great help in eliminating congestion at the Co-Op. While we have seen an increase of activity among local fisherman, we are pleased to report that public safety has not been a cause for concern. There have only been two Marine emergencies reported thus far for the year 2008. Although attendance was less than anticipated, the beaches and Town facilities were well maintained by the Community Services staff.

Although the weather has been mediocre at best for most of the year, on nice warm days the beaches and Co-Op become very busy. On several occasions the parking lots located at Hurd Park and the Fisherman's Co-Op filled up early in the morning. We encourage visitors to arrive early on holidays and weekends because parking is limited during these busy times.

Mooring space at the Co-Op is limited but if anyone is interested in adding their name to the Town's waiting list for a mooring, please feel free to contact my office or the Town Hall for further information.

The designs for the renovated pier located at the Fisherman's Co-Op have been completed. While we did receive a grant from the Maine Department of Transportation, we are still searching for adequate funding before we can commence construction. The newly upgraded pier would allow more visitors a chance to enjoy a safer and more user friendly environment around the harbor. It would also be a huge asset to the Town and to all working

Dave Corbeau
Harbormaster -
Marine Resource Officer

Bruce Haskell Photography

more user friendly environment around the harbor. It would also be a huge asset to the Town and to all working commercial fisherman who currently use the pier.

With a steady flow of visitors at the beaches, there were several cases of missing or lost children. With the help of the Marine Division and the Community Services staff we were able to reunite all of the missing children with their families. With so many visitors at the beaches at one time, we remind all visiting families to keep a watchful eye on their children as well as their personal belongings.

Photo by Tom Ayer—Digital Reflections

With our continued participation with the Maine Healthy Beaches Water Testing Program, we have been able to monitor the water to ensure that it is safe for all beach-goers. Once again, we were able to keep all of our beaches open for the summer season. The continued testing has also allowed local clam diggers to have a successful season. By staying in this program we hope to make sure that our beaches remain some of the best that the state has to offer.

On behalf of the entire Marine Division, we would like to thank the many wonderful people in the Town of Scarborough for a great year and for all of their hard work. With all of their efforts, we have been able to ensure that all of our beaches are safe and clean.

Respectfully submitted,

David Corbeau.

Harbormaster / Marine Resource Officer

Report from the

SHELLFISH CONSERVATION COMMITTEE

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with pleasure that I submit this report for fiscal year July 1, 2007, through June 30, 2008, on behalf of the Shellfish Conservation Commission.

The year 2008 was a challenging year for harvesting clams in Scarborough. Due to the abundance of rainfall received this year we lost over two months of harvesting soft shell clams. Irregardless of the hurting economy and despite all of the rainfall harvesters still seem to be digging a sufficient amount of clams.

The Shellfish Committee and Harbormaster Dave Corbeau are closely working with DMR on the re-opening of the Nonesuch River. Last fall the Town of Scarborough was one of three towns selected by DMR to take place in the "pilot project". This project consist of a two-year study on rainfall in the Nonesuch River. It will allow us to have access to independent labs, such as Katahdin Labs, to help accelerate water sampling. One way we all can help with this process is help maintain our beaches and boat landings by picking up our pets waste.

I would like to remind people that Jones Creek is open from December 17, 2008 thru February 28, 2009.

With that being said this concludes our yearly report and I would like to extend special thanks to the following:

Shellfish Committee, Town Council, Town Clerks Office, & Harbormaster Dave Corbeau.

Thank you for all of your time and hard work it has certainly not gone unnoticed.

Respectfully submitted,

Robert G. Willette, Chairman

Scarborough Shellfish Conservation Committee

Shellfish harvesters at work

Report from the

FIRE DEPARTMENT / RESCUE UNIT / EMA

To the Manager, Town Council, and Citizens of
Scarborough:

It is with great pleasure that I submit the annual report of the Scarborough Fire Department, Scarborough Rescue Unit, and the Scarborough Emergency Management Agency for the fiscal year ending June 30, 2008.

Where are we now and where are we going?

The theme of this year's report is "The Growth of Scarborough". Each year in the annual report I include a summary of activity to help provide that snap shot of statistics that many members of the community enjoy comparing from year to year. Over time those statistics clearly illustrate how the growth in our community has affected the department. Our average increase in calls for service has run around 7% which means they double every 10 years. In last year's Annual Report I outlined how the growth in Scarborough has increased the call volume to the point that exceeded the ability of our call members to meet the demands. I also explained how The Scarborough Fire & Rescue Department was at a crossroads in terms of meeting the future challenges driven primarily from the growth in our community and an aging population which requires a more intensive use of our excellent EMS system. To quantify these facts the department produced a long range staffing plan for the town manager and town council's review. This document explained how the department evolved and what proactive measures we have taken over the years to postpone the inevitable addition of more full time personnel. The report explains effective programs like the Day Firefighter and EMT program where part time employees are used to minimally staff the apparatus during the day when most of our available call members are at their full time jobs, many outside the community. It also highlights some important statistics like the charts below:

As the graphic indicates while our calls for service have tripled, the call members available to respond to those emergencies has been dramatically reduced by more than 1/2. We were very pleased with how the manager and council accepted and supported our staffing analysis report during the budget process.

B. Michael Thurlow
Fire Chief

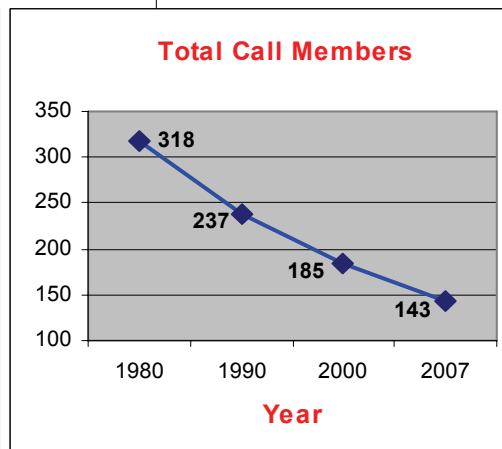

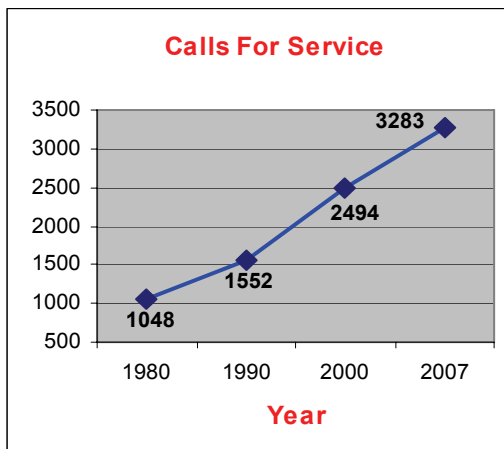

Growth has strained all the services in town, but none more than at the public safety building. For the past 5 years the police and fire chiefs have included a request for a capital improvement project to study the space needs and design either an addition or replacement of the current public safety building that we share. In this current fiscal year those funds were approved and we spent most of the year working with Gawron Turgeon Architects on this important project. We started with an accounting of the facility's current space as well as the current and future needs for both departments over the next 15-20 years. The next step was to look at various options to expand the facility at our current location. Finally after attempting to secure neighboring property and looking at the safety concerns with being so close to the Oak Hill intersection the decision was made to look for alternative sites in the area. A public safety building committee was formed including members from public safety, planning, the town council, and citizens at large. A conceptual design was developed and at the time of this report we are still working to secure a suitable piece of property so we can send this important project to the voters for a referendum vote at some point in the future.

Highlights from the past year

Here is a brief list of some other activities and projects that the department worked on this past year:

- We joined the Trauma Intervention Program (TIPS) which is a group of trained and dedicated citizens that are available to respond to emergency scenes to help deal with victims or family members of victims during or following an incident. This program has been very well received by numerous greater Portland
- public safety departments and we have found it equally beneficial here in Scarborough.

(Continued on page 39)

(Continued from page 38)

- These volunteers take some of the pressure off our first responders by filling a critical need by providing care and compassion to friends and relatives while our personnel deal with the victims and the emergency scene. The program interfaces extremely well with our certified Chaplain program, and this past fiscal year our Chaplain, Dwayne Hopkins, received one of TIPS Hero's with Heart award for the fine work he does for both the fire and police departments and for his interactions with the TIPS program and its volunteers.
- In October we were pleased to hire Colette Mathieson as an administrative assistant when she decided to move back to Scarborough. Colette has been a long time employee of the town serving almost 20 years in Community Services before moving back to Rockland to be near family.
- Our dispatch center expanded by providing Public Safety Answering Point (PSAP) services to the towns of Old Orchard Beach, Buxton, and Hollis. PSAP service is the answering of 911 calls and providing emergency medical dispatch (EMD) instructions and transferring emergency calls to those agencies that provide the services in those areas. Our dispatch center continues to do an excellent job and is very highly respected in public safety circles. This past year we were also pleased to hire a new full time dispatcher, Kyle Jandreau. Kyle came from very northern Maine and is also a trained firefighter that has joined the fire department as a call member. He has been a great fit in dispatch and is doing a fine job.
- We completed the second year of energy efficiency upgrades in our facilities by replacing old lighting fixtures with new, low energy, models and upgraded the controls so they automatically come on and shut off when no one is in the room. We also upgraded the controls on our heating systems to better manage and conserve heat.
- For a number of years Scarborough has participated and was a founding member of the Metro Fire Chiefs Coalition with eight other communities that surround the City of Portland. We meet on a monthly basis to work on joint projects for cost and operational efficiencies. During the past fiscal year the Metro Chiefs were successful in obtaining a Federal Fire Act Grant worth almost 400,000 to purchase emergency vehicle driving simulators, and to develop and deliver emergency and defensive driving classes to all members of our departments that are certified to drive the apparatus.
- After over 20 years of service, Marilyn Nelson, stepped down as the department's clerk. I want to personally thank her for her dedicated service to the department over her very long career not only as clerk

but also in her role as firefighter and engineer at North Scarborough station.

- In June the department completed our update to mobile data. Many of our apparatus now have mobile data computer terminals to connect the trucks to our records management and computer aided dispatch program. The rescue is using these new laptops to complete their patient care reports so that we are more and more moving to a paperless records management system both for efficiency and to minimize cost and potential errors.
- Our members collectively logged 14,748 hours of qualified professional development training during the fiscal year. These hours included two extensive classes that we offered in-house this year, a basic EMT class, and a Fire Officer I & II class.
- I was pleased to promote the following new call company officers during the past fiscal year, Lieutenants Joe Carroll Ladder 2, Mark Searway Engine 1, Jon Perry Engine 3, Erin Stone Engine 4, Geoff MacLean Engine 5, and Mike Shaw Engine 6.

The strength of our department is our personnel

Captain Bruce Bell & Firefighter Clayton Skillin receiving the Eldred Harmon award for 50 years of dedicated service to the department

(Continued on page 40)

(Continued from page 39)

Each winter we hold a joint awards ceremony with the police department to recognize dedication and outstanding achievement by our members. Please see the Summary of Awards for 2007 for the list of awards and awardees.

SUMMARY OF AWARDS FOR 2007**Gold Badge Award for 20 years of service**

Firefighter Gordon Lane
Firefighter Tim O'Brien
Firefighter Jim McCormick
Firefighter Steven Pallotta

Irwin Faunce Award for 30 years of service

Captain Steve Chamberlain
Canteen member Ann Carson

Robert Carson Award for 35 years of service

Lieutenant Gary Tapley

Henry Gould Award for 45 years of service

Firefighter Neal Paulsen

Eldred Harmon Award for 50 years of service

Captain Bruce Bell
Firefighter Clayton Skillin

Chief's Merit Award

Doctor Kelly Pendleton

Unit Citation

Dispatcher of the year

Arthur Green

Emergency Medical Technician of the year

Firefighter Michael DiClemente

Firefighter of the year

Firefighter Clayton Skillin

Officer of the year

Captain David Jackson

Paramedic of the year

Paramedic Firefighter Jeff Grinnell

Student of the year

Firefighter Sam Mendlowitz

Our dedicated personnel are the key to our success as is demonstrated by the awards noted above, and I would like to thank all of them once again for their efforts throughout this past fiscal year.

Although it technically didn't happen during fiscal year 2008, as I write this report our current Town Manager, Ron Owens, has announced that he has decided to retire and will be leaving his post in early November. Ron has been an absolute pleasure to work for and this report wouldn't be complete without commenting on his leadership. Ron came to Scarborough with a great deal of experience from his many years of work in other similar communities which provided him valuable insight into the challenges we faced during his tenure. He used those experiences to successfully steer our community through an unprecedented period of growth and challenges. Ron has been very supportive of all municipal departments including public safety. He understood our long term needs

and helped support the ten year staffing plan we presented to the council during the budget process. Ron has always operated at that 10,000 foot view and had the ability to think outside the box that is so important to a person in that position. He has served our community well and I'm sure you join me in wishing Ron and his wife Marcia the very best in their retirement.

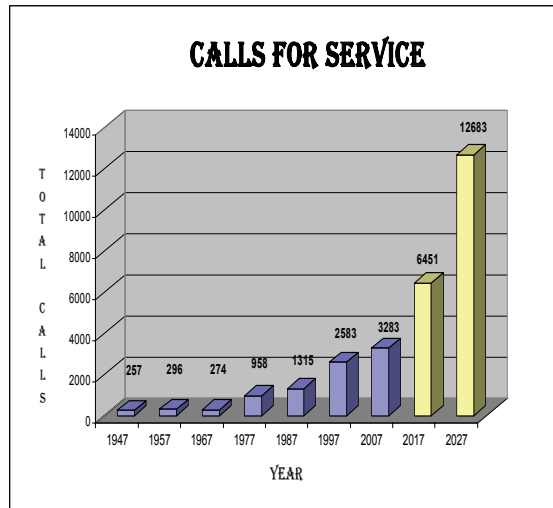

As you can see it has been another busy and productive year for the Fire, Rescue and Emergency Management departments. I hope that this historical snapshot has been informative. In closing I would like to take this opportunity to thank the Town Council for their support. I would also like to thank Police Chief Robbie Moulton, Public Works Director Mike Shaw, and all the department heads that I work with on a daily basis for their help and support through this past year. Finally I want to thank the men and women of our department for all of their sacrifices, hard work, and dedication to serving the emergency response needs of our community. Each day I go to work I am proud of the organization I lead, and the personnel that work with me to serve everyone in our community.

Respectfully submitted,

B. Michael Thurlow, Fire Chief

Report from the

PUBLIC WORKS DEPARTMENT

*To the Town Manager, Town Council, and Citizens of
Scarborough:*

*Michael E. Shaw
Director of Public Works*

It is with great pleasure I report on the accomplishments of the Public Works Department for the period July 1, 2007 through June 30, 2008.

Infrastructure replacement and upgrades took center stage again this year. Given that we have 340 lane miles to oversee, constant work is required to meet the vehicular and pedestrian needs of the citizens.

The **Higgins Beach Drainage Project** was awarded to White Brothers Construction in

October. It was imperative that the majority of work be done in winter to minimize the impact to the community during summer months. The total cost of the project was \$1,193,491.00. Of this amount \$203,000.00 was watermain replacement which was paid by the Portland Water District. I was pleased that we received a high number of bids from qualified contractors for this project.

The scope of the Higgins Beach Project centered around reconstructing the drainage system on Ocean Avenue and Greenwood Avenue. Diverting stormwater into the new system is of great benefit to the whole Higgins Beach community.

I would like to take a moment to thank all of the residents at Higgins Beach for their input during the planning phase as well as their patience during the construction process.

While the Higgins Beach Drainage Project was drawing to a close, the second phase of the **Green Acres Drainage Project** started. Again, a number of area contractors displayed great interest in this project. Dearborn Brothers Construction won the bid to commence with the project. The total contract amount was \$2,459,520.00 with \$180,000.00 of the costs going to the Portland Water District for watermain replacement.

As you may recall, phase I was completed in 2006. Phase II is designed to address drainage and roadway deficiencies in the second half of the neighborhood. Again, in an effort to understand the needs of the residents we held a series of meetings to gather input on the plans. There is no reason to believe the second phase of the project will be any less of a success than phase I where we saw resident's basements dry up and ditching erosion go away.

The **Schooner Road Drainage Project** started in February

2007 and was completed in April. This work alleviated the road flooding issues experienced by the residents living on the lower section of the street.

Along with these major contractual projects, Public Works did its part in helping fix drainage problems by performing ditching, culvert cleaning and replacement, sweeping, and other necessary repairs to keep our aging infrastructure in good working order.

The first full year of the automated recycling and trash collection program was a success. User satisfaction appears to be high and recycling rates continue in the 35% – 36% range. The increase in recycling from 19% to 36% has diverted 1,562 tons of trash away from the solid waste stream. Because of this, the town has realized a savings of approximately \$137,000.00 in avoided tipping fee costs. With resources becoming more precious it is encouraging to have a program that makes sense from an economic and environmental standpoint.

Another project aimed at economic and environmental stewardship was an interior lighting retrofit to the Public Works facility. In December of 2007 we awarded a contract in the amount of \$61,800.00 to Tuomi Electric. The majority of contract costs were used for replacement of light fixtures and controller upgrades. By using high-

Green Acres Project

efficiency fluorescent bulbs where metal Halide fixtures had originally been used we were able to eliminate some fixtures and, at the same time, provide better light quality. Accompanying sensors were installed for the purpose of automatically turning off lights in areas not being used.

With the help of the purchasing department we were able to acquire \$14,475.00 in rebates from Efficiency Maine for the fixtures we used in the retrofit project. With a net cost of \$47,325.00, the payback on this project should be a little over 4.5 years as the engineers estimate an annual cost savings of \$10,000.00.

The Public Works Department's GIS division enjoyed another productive year. Headed by our GIS coordinator

(Continued on page 43)

(Continued from page 42)

Aimee Dubois, we worked with all town departments to standardize data shared by all.

A few of our other projects include establishing:

- A road database which provides complete information on our road system;
- Buildings, roads, railroads & vegetation layers that assist in watershed analysis and other land-use studies;
- Emergency Response Maps – hydrant locations, police patrol zones, & response areas;
- Conserved Lands Map done in conjunction with the Scarborough Land Conservation;
- Maps for the 350th Celebration – parade route, shuttle bus route, barrier locations, etc.;
- Community Services Trail Maps;
- Updated Scarborough Street Map;

It is also worth noting that Aimee's peers respect her work so much that she was elected to the Maine GIS User Group board of directors and appointed to the Maine GeoLibrary board of directors.

The Vehicle Maintenance Division forged ahead this year with an investigation into biodiesel and alternative fuels. A pilot program was initiated with a plow truck, front-end loader, and a school bus. While use of biodiesel fuel is not uncommon we felt a need to proceed carefully using a 20% blend of the fuel until we fully understood the effects on the vehicles.

All indications are that the 50-cent premium for biodiesel is worth it due to increased fuel mileage and potential engine longevity. The federally mandated ultra low-sulfur diesel appears to have less lubricating ability than the biodiesel and as a result fuel mileage is decreased. As you read this report all town vehicles will have been converted to biodiesel.

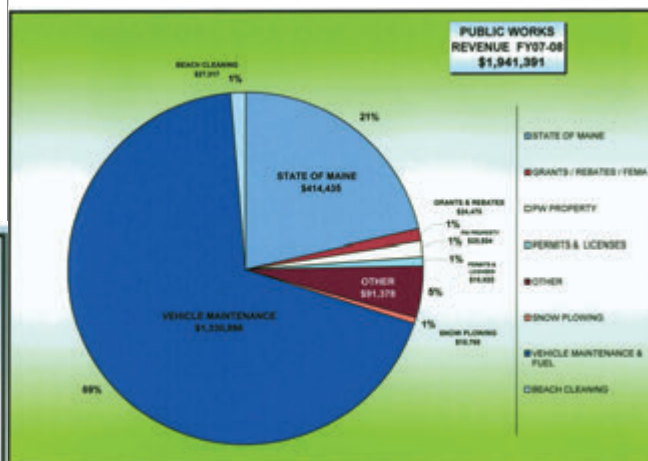

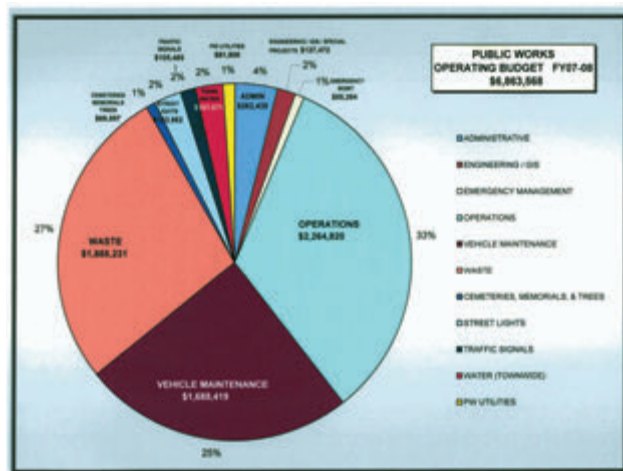

The Vehicle Maintenance Division also experimented with propane as an alternative fuel source. A police cruiser and a Public Works pickup were converted to propane or gasoline making them dual fuel vehicles. As of the writing of this report propane is 66 cents per gallon less expensive than gasoline. We are also eligible for a 50-cent per gallon rebate through a federal government program. The operators of the vehicles do not notice a difference in performance and because the propane burns cleaner preventive maintenance is not required as often resulting in additional savings.

Although we realize that biodiesel and propane are not the final solutions, they appear to be main stream alternatives worth pursuing at this time. Our staff is always looking for new and more efficient ways to run town equipment.

Public Works had a loss in its family this year. Gary Brown passed away in October 2007. Gary's 35 years of service to the town touched many people. All of us here at Public Works were saddened by the loss of a friend.

I would like to thank the town manager, council, and citizens for supporting our many endeavors. Public Works' projects and operations are not only costly but require support and understanding from all of you.

Respectfully submitted,
Michael E. Shaw
Director of Public Works

SCARBOROUGH RECYCLES - CURBSIDE OR SILVER BULLETS

RESIDENTIAL CURBSIDE PICKUP: Containers must be curbside no later than **7:00 a.m.** on day of scheduled pick-up; Only the Town issued carts will be picked up. Please call Scarborough Public Works - 207.730.4400 for more information.

SILVER BULLET DROP OFF RECYCLING LOCATIONS: Hannaford parking lot at Oak Hill; Dunstan School Restaurant parking lot on Route 1; Wal-Mart parking lot, on Payne Road; Community Recycling Center, 8 Runway Road (Pleasant Hill area); Bessey School on Route 1 at the Maine Veterans Home entrance *(to be moved to a new undetermined location in the near future).*

Cardboard drop-off locations - Only at Dunstan School Restaurant, Bessey School, and Wal-Mart locations.

GLASS:

- All glass bottles, jars (colored & clear), etc.
- Labels and lids OK
- No light bulbs, mirrors, plates or drink ware

PLASTIC:

- #1 through #7 plastic, including colored
- No PVC pipe or biodegradable plastic
- Labels OK
- NO STYROFOAM

CANS:

- All metal food & drink cans, metal lids
- Empty aerosol cans with caps removed
- Please crush to save space

MAGAZINES & PHONE BOOKS:

- Keep clean & dry
- Deposit loose

PAPERS, NEWSPAPERS, PAPER (KRAFT) BAGS:

- Newspapers, junk mail, greeting cards, calendars, envelopes, computer/office paper, paper bags, flyers, inserts, school paper
- Leave them loose or in paper bags - do NOT tie with string
- Please, no plastic or other paper wrap

PAPERBOARD:

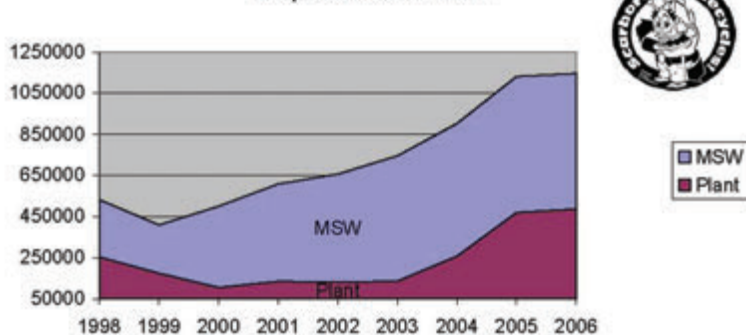

- Dry & clean paperboard (cereal, rice, cake, cracker, mix boxes, etc.)

Report from the

SCHOOL DEPARTMENT

To the Town Manager, Town Council, and Citizens of Scarborough:

Growth and development - both are strong themes that spring to mind when you think of Scarborough. While there are many things that could be used to demonstrate how these have become synonymous with our town, a cursory review of the School Department would quickly hammer home both themes.

In October, 1987, the school department enrollment was 1917 students. In October, 2007, our enrollment stood at 3361. During that time the high school has had two expansion projects – 1988 and 2005. A new middle school was built in 1996 and twenty modular classroom have been added since then. The intermediate school has added twenty-four modular classrooms, four added in 1998 have been removed. The three elementary schools were renovated and expanded in 1993 and twelve modular classrooms have been added at that phase

Scarborough High School after two major expansions

Currently there are a total of 614,027 square feet of permanent building, and 49,200 square feet of modulares. Expanding our physical plant has not been without its challenges. The Wentworth Intermediate School is in serious need of replacement. It has also put a significant financial strain on our resource with over \$4 million of our operating budget going to debt service to pay for these expansions.

*David Doyle
Superintendent*

Modular Classrooms at Wentworth Intermediate School

But in spite of this strain, Scarborough Schools continue to perform very well based on comparisons of State standardized testing. Based on the information available at the Department of Education's web site, our students outperformed the state average on every portion of the Maine Education Assessment Grades 3 through 8, and the Maine High School assessment, which is an enhanced version of the SAT. Recently US News and World Report ranked Scarborough High School a Silver Medal school - one of only 5 in the state and 504 nationwide. Their ranking was based on data from the 2006/2007 school year.

(Continued on page 46)

(Continued from page 45)

Information from over 21,000 schools nationwide was analyzed to determine if the full range of the student body was well served, and if students were college ready when they graduated. This reflects very well on the entire school department and community. Go to www.usnews.com for more information

Scarborough Middle School built in 1996

In addition our students continue to perform well outside the classroom. State Championships were won in 6 activities – Girls Indoor Track; Girls Ice Hockey; Boys Lacrosse; Girls Outdoor Track; Speech and Debate; and Academic Decathlon. They excelled as members of All State Bands and Choruses and the State One Act Play competition. Middle School and High School Math Teams performed very well in their competitions. Students were also active in supporting their community, exemplified by the thousands of dollars that are raised by Middle School students participating in the Ed Wimert Bike/Walk for Aids held every October, or the Annual Polar Dip sponsored by the High School Key Club with funds raised used to support the work of Heifer International. Students were also actively involved in the 350th celebration; volunteered countless hours at area soups kitchens; raked Senior Citizen lawns; and collected funds to support UNICEF among many different activities. They helped raise money to support Camp Sunshine, and the Builders Club sponsored students to work with Operation Cupid in support of our troops. These activities are just a sampling of the many that students undertake.

While helping students achieve and supporting our extensive physical plant, the School Department operates at a per pupil cost well below the state average, and significantly below our neighbors. Again based on the most recent information available at the Department of Educations web site, Scarborough's per pupil cost of \$9,376 was \$412 less than the State average. **The latest available information for fiscal year 2007 showed neighboring districts per pupil costs ranging from \$10,146 in Gorham, \$11,578 in South Portland, \$10,851 in Portland, \$9,991 in Cape Elizabeth, and \$14,934 in Westbrook.** Go to www.maine.gov/education for more information

*Respectfully submitted,
David Doyle, Superintendent*

Report from

COMMUNITY SERVICES

MISSION

STATEMENT

It is the mission of Community Services to provide diverse, safe, quality, and cost-efficient services to the best of our abilities.

We accomplish this through communication, coordination, and education in a professional and timely manner for the Town of Scarborough.

To the Town Manager, Town Council, and Citizens of Scarborough:

It is with pleasure that I submit this annual report on behalf of the Community Services Department for the Fiscal Year 2007-2008.

Exciting times! The Town of Scarborough has successfully completed its third phase of the Eastern Trail. This part of the trail -- from Pine Point Road to the Old Orchard Beach line -- has been constructed and completed for non-motorized pedestrian use. In this third phase we have added a new 10-car parking lot, a kiosk, drainage, and a new trail surface. The new parking lot is located at the Scarborough Memorial Cemetery on Old Blue Point Road.

The final and most northerly phase of the Eastern Trail, over the Nonesuch River, has had preliminary engineering and we are seeking easements so that we may construct in the near future.

This should complete Scarborough's portion of the Eastern Trail and will be a model for future trail construction in Scarborough. Scarborough has not been blessed with slow-moving traffic, thus giving us more need for active trails. Our current Main Street is U.S. Route 1, not a popular place for riding a bike or going for a Sunday walk.

In conclusion, we have many opportunities that await those who want to stay active, be fit, and get involved. We encourage everyone to take advantage of the Eastern Trail and see what beauty we have to offer.

Respectfully submitted,
Bruce W. Gullifer, Director

RESPONSIBILITIES

- Recreation programs for children, adults, and senior citizens
- Special events, including Summerfest, Winterfest, Autumn Harvest, and Easter Egg Hunt
- Facilities scheduling of buildings, recreation areas, complexes, and parks
- Beach maintenance and administration, including boat launching.
- Public information services (SCTV Channel 2 and 3)
- Before - and after-school child care
- Maintenance of school, town, and recreational grounds

COMMITTEES

- Community Services and Recreation Advisory Board
- Scarborough Cable Television Committee
- Hunnewell House Committee
- Scarborough Eastern Trail Management

(Continued from page 47)

SCHOOL-AGE CHILD CARE – A STATE-LICENSED PROGRAM

Our programs grow each year with as many as 300 participants registered in the program. We accept registration for students in kindergarten through fifth grade. We provide quality care during regularly scheduled out of school hours 7 a.m. – 9 a.m. and 2:30 p.m. – 6 p.m. when a vast majority of parents, guardians, and residents of Scarborough are working. Full day care coverage 7 a.m.—6 pm is provided on teacher in-service, snow day, and vacations.

We view the home, school, and community interrelated domains that affect the children's growth and development. We keep open lines of communication among all of these groups and thus have started the ever so popular e-mail newsletter. It reduces the amount of waste of paper and allows for a more direct way of responding for the busy working parent.

Our programs are all conveniently located at the three primary schools within town, and we are fortunate enough to have our own building known as Bessworth. A variety of community events are held here each year. We host three

• Safety	• Activities/Projects
• Fun	• Choices
• Friends	• Learning
• Snacks	• Community Involvement

pot-luck dinners where family and friend gather to enjoy a good meal and good company.

As the Town of Scarborough continues to grow, the need for quality before and after school care will only increase as working families move to town. Over the years, we have added programs for middle school age students, and pre-school age children. We will continue to adapt the types of programs we offer as the priorities of the community grow and change.

CLUB TEEN MIDDLE SCHOOL

We continue to maintain our minimum enrollment of twenty students. Working parents appreciate having a program available where there is proper supervision after school. We find this age group hard to program for in one large open room with minimal storage.

In addition to our daily programming, we try to offer additional activities of interest amongst the teens. We took a trip in October to "Spooky World" at Canobie Lake Amusement Park for a Halloween event. Each Club Teen participant was allowed to invite a friend. We held a spooky movie night at Bessworth, ate lots of pizza and made loaded caramel apples. We went on our annual holiday shopping trip to the Maine Mall. Of course

everyone stopped for a quick bite to eat in the food court, and played a few games in the arcade.

As far as the town's continued growth, this teenage group of students could certainly benefit from a Community Recreation Center. The programs we could offer in a space like that would be endless.

BESSWORTH BEGINNERS PRE-SCHOOL

Now let's take a look back to the beginning September 2005 with one classroom, a teacher, and six students. Today we have two classrooms, two teachers, and two assistants. We offer a variety of program options including a two day, three day, or five day with two extended days. We are partnering with the Scarborough School Nutrition Program to offer these students lunch. Our plan is to generate enough interest in the five day program that each day incorporates extended hours. The programs incorporate all of the following:

- A first school experience
- Making new friends
- Socialization
- Hands on learning
- Field trips
- Intergenerational activities

Classroom teachers kept portfolios of the children's progress from September through June.

The students visit the public library twice a month for story hour. Ms. Julie teaches an interactive science lesson each week. In March the theatrical production of Jan Brett's "The Mitten" was performed. Families and friends enjoyed a pizza dinner after the performance which was donated by a parent owning The Portland Pie Company. In June we held our graduation ceremony saying goodbye to our friends moving onto public kindergarten, and celebrated with family pot luck- BBQ at Ms. Missy's house. Students enjoyed playing ball, blowing bubbles, and eating treats. We look forward to what next year has to bring.

SCHOOL VACATIONS

The Kindergarten through 5th grade Vacation Camp Programs ran for 1 week in February and 1 week in April and was once again almost at full capacity for both weeks. Approximately 100 children participated.

In April we allowed parents to sign up by the day and not just for the week. This option allowed for parents to be more flexible with the days they needed.

Daily activities, 2 to 3 field trips and a great staff have made for continued success and popularity with this program.

During February vacation, the field trips consisted of Sledding at a local Golf Course, and going to Westbrook Cinemagic to watch a new release. Pick and Pottery was

(Continued on page 49)

(Continued from page 48)

brought in as one of our in-house activities and the participants painted mugs and ice cream bowls.

April vacation field trips consisted of a Sea Dogs Game, and Ice Skating at the MGH Ice Arena.

Some on-site activities during both camps consisted of cooking, active games, bingo, basketball, outside time and arts and crafts. Every participant was encouraged to participate in all activities.

Looking back on previous years and where the Vacation Camp program is today, we can only envision the program expanding. The number of participants will continue to grow each year as we broaden our registration process and provide the parents with the flexibility they need.

SPECIAL EVENTS

We held our annual fall event -- **Autumn Harvest** -- at our own Memorial Park. A caricaturist was on hand to draw caricatures of the kids in their costumes. BJ Hickman the magician performed a magical show. Children received balloons and apples, and prizes were awarded for decorated pumpkins. Face painting, games, and arts and crafts kept everyone busy! Fresh hot popcorn, cold apple cider, and caramel apples were available for purchase.

Winterfest 2008 was held on Sunday, February 17, and was a huge success! With a large turnout, the competition was on for the title of King and Queen of Winterfest. Competitions and games ran from noon until 4:00 pm and included a snow sculpture contest, snow golf, jump rope competition, ice cube hunt, cardboard sled races, turkey bowling, and skating competitions. A cake decorating contest took place at the Bessworth Child Care Center and was sponsored by Cakes Extraordinaire. The theme of the day was Winter Wonderland and all the decorators brought their best creations, ranging from penguins and mittens to cakes with igloos, ice skating ponds, and evergreens galore. While competitions took place, Community Services provided free hot chocolate and s'mores, hayrides, a bonfire to warm up by, and skating with Salty Pete from the Portland Pirates. The day wrapped up with the crowning of the Winterfest Kings and Queens, drawing of raffle prizes donated from local businesses, and a magic show by the Amazing Lou, sponsored by Saco & Biddeford Savings. Scarborough Community Services would like to thank all of its sponsors and volunteers who made this event so successful!

Bunny Hop 2008 was held in mid-March. There were two different sessions, one for pre-school and kindergarten students, another for 1st and 2nd grade students. Both sessions consisted of hunting for over 1,000 toy- and candy-filled eggs that had been hidden throughout the Bessworth Building. Children who found any special metallic eggs were awarded a large prize. The bunny was also on-site for pictures with the children.

The Flashlight Egg Hunt was open to any child in grades 3 through 6. Although it was still quite snowy in mid-March when the hunt was held, the kids had a great time using their flashlights to hunt around the Wentworth playground in the dark for the 2,500 eggs that were hidden. Again, as with the Bunny Hop earlier in the day, children who found any metallic eggs were given a larger prize.

SUMMER RECREATION -

PRE-KINDERGARTEN THROUGH SIXTH GRADE

We started the summer off with a mandatory training for all forty five staff at Scarborough's own Camp Ketcha. Communication and trust were the two major key components to the training. Everyone participated in a number of the elements on the ropes course, and staff who did not think it would be possible went over a 12ft wall with the support and encouragement of their co-workers.

The program began the week of the 4th of July because of the late end of the school year due to the amount of snow we had. We accepted registrations of pre- kindergarten through fifth grade students to attend all eight weeks or individual weeks. We offered a new payment plan which allowed participants to register and pay in smaller amounts over an extended period of time and on-line at their convenience throughout the summer.

Community Service became the sponsor of the Scarborough School Nutrition's breakfast, snack, and lunch program. This allowed for qualifying families to receive the same benefits they do during the school year. Lunch was served to eighty campers on average everyday. We see this program as continuing to grow as it is a convenience to parents and guardians not to have to worry about packing a lunch.

The weather this summer was rainy. We had to cancel a variety of trips including our Sebago Lake trip. In place of the lake, the group ventured off to the New England Aquarium in Boston. On the last day of camp we enjoyed a pizza party, our annual highlight show, and a visit from the ice cream truck. We are already planning for next summers activities.

SUMMER RECREATION - MIDDLE SCHOOL

The Middle School Summer Rec program again took up to 75 campers in grades 6-8, weekly for our 8 week program. This year, we had more campers registered for all eight weeks than ever before. We spent many days having fun at great places such as Six Flags, New England Aquarium, Paintball, the Yarmouth Clam Festival and White Water Rafting.

Wednesdays were in house theme days at Middle School Summer Rec. Themes ranged from Happy Un-Birthday Day (we celebrated everyone's birthday with cupcakes, party games, and even gifts), to 80's day (campers played Rock Band, wore 80's clothes and styled hair), to Wet N' Wild Day (giant slip n' slide, water balloons, water relays), to

(Continued on page 50)

(Continued from page 49)

Olympics (with events such as Ice Melt, Mental Marathon, T.P. Roll Rally, and soccer). Almost every Wednesday theme day consisted of competitions, which the campers loved, as well as a movie at the end of the day that tied into the theme. Wednesdays also gave campers a chance to use the turf field for games such as football and soccer and spend their lunch time at Wentworth with younger campers.

For the third year, we took a group of campers entering the 9th grade on a kayaking and rafting overnight trip. This year a total of 16 campers and camp counselors made the trip up to the West Forks for the overnight adventure on Indian Pond. Everyone ended up a little wet due to rain during the evening and night hours, but we were lucky enough to have the sun come out in the morning, in time for the overnights to meet up with the rest of the Middle School group to raft the Kennebec river.

This summer, we were also able to offer a local overnight trip to any camper interested in attending. The boy's overnight had 12 participants and was held at Bayley's Camping resort in Scarborough. The girl's overnight had 10 participants and was held at Wassamki Springs Campground also located in Scarborough. We can only expect the number of participants to grow in the future.

The favorite new fieldtrip of the summer must have been the Boston Duck tour and New England Aquarium trip. The trip began with the campers loading on to authentic, renovated World War II amphibious landing vehicles. We enjoyed our boxed lunches as we were given a historical tour of Boston. When the Ducks went in to the Charles River some of the campers were even allowed to drive! We finished our day at the New England Aquarium where the penguin exhibit was a real hit.

YOUTH PROGRAMS

As the town continues to grow, our youth programs expand as well. Along with our programs increasing in numbers, our recreation staff has also. We have added a new recreation manager and a part-time position of a recreation leader/site supervisor.

Our **fall soccer program** begins with children in pre-kindergarten and continues through eighth grade. We had almost 900 children in the soccer program this year. The continuous devotion of our parent, community, and student volunteers is what makes this very popular program so outstanding. We appreciate the time and energy these volunteers give to each of our programs.

New in 2007 was the MLS soccer clinic for children ages two-and-a-half to four. This clinic gave young children the opportunity to play and learn the game of soccer. Memorial Park was filled with toddlers every Thursday morning for four weeks.

Our **Flag Football** program is growing by leaps and bounds. This third-year program has added kindergarten and first grade to their rosters. We appreciate the many dedicated volunteer coaches who have helped this program grow.

Scarborough Community Services' **Fall and Spring Cross Country** programs were again very popular activities. Our home meets that took place at Memorial Park were always very well attended.

Also new this year was the **Book Club**. This program was for Wentworth students and offered participants new adventures while reading and discussing novels under the guidance of a certified teacher and literacy specialist.

WINTER/SPRING PROGRAMS

Our **basketball program** for kindergarten through sixth grade continues to be very popular. Scarborough High School coaches and players have been instrumental in helping this program grow. Scarborough Community Services is fortunate to be able to make use of the Scarborough Schools for all of our games and practices.

Our **Snow Sports** programs continue to be a big draw for the youth of Scarborough. We offer Monday night Lost Valley trips for students in grades 4 through 8 and Saturday trips to Sunday River for students in grades 6 through 12. Both programs offer many different packages and transportation is provided.

Scarborough Community Services is also honored to offer programs such as Dribblettes, Softball and Baseball camps, and skills training clinics, along with lacrosse clinics for boys and girls. Each of these programs is run by Scarborough teachers and coaches.

ADULT RECREATION PROGRAMS

Scarborough Community Services adult recreation programs have grown over the past year. Ballroom dance and belly dance classes joined the already-popular lineup of Pilates, yoga, and our open gym nights (basketball, dodgeball, and volleyball). We are always looking for new ideas and opportunities to offer more adult recreation programming. We invite all residents to contact us with their input.

The 2007-2008 year brought continued growth to the new Senior WOW program which included the hiring of a full-time seniors coordinator and a part-time bus driver, the birth of the seniors website, www.scarboroughseniorwow.org, the design of the Senior WOW logo, and an increase in the number of events and programs offered to seniors in Scarborough. Wednesdays continued to see between 20 and 50 seniors gathering at the Hillcrest Community Center for a luncheon followed by a program or activity. Some of these events and programs were the Annual Bring-Your-Grandchildren Day with a ventriloquist for entertainment, Fall Barbecue in Memorial Park with singer José Duddy, a

(Continued on page 51)

(Continued from page 50)

performance by the Scarborough High School Choral Group, the making of May baskets with Bessworth preschoolers, a Spiral Arts program, the Annual Garden Silent Auction and Plant Sale, Wii demonstration, and many more entertaining and informative programs. Some of these programs were specifically designed to promote intergenerational involvement.

Senior trips included Jillson's Sugar House, New England Flower Show in Boston, Trolley and Brick Museums in Kennebunk, a tour of Wilbur's Chocolate Factory in Freeport, a tour of Tom's of Maine, Lilac Festival in South Paris, many shows at Portland Players and Lyric Theater, and much more! Bus rides were offered to Scarborough Seniors attending the Osher Lifelong Learning Institute at USM in Portland as well.

Many educational opportunities were offered, including computer classes led by the Key Club of Scarborough High School. Partnering with the Scarborough Library, a series of programs were offered including Simple Home Repair, Web Search, and Scarborough History.

The Town of Scarborough, Scarborough Community Services, and many dedicated community volunteers have been diligently researching the needs of Scarborough seniors as part of the Senior Study Committee. From this research came a five-year action plan to develop Senior WOW Programs (WOW stands for Without Walls), an extensive network of programs, services, and community partnerships to meet the identified needs of seniors in the Scarborough community. The Implementation Committee was formed to oversee the realization of this action plan. One of the first steps in the action plan was to hire a Seniors Program Coordinator to be the central point of organization in the development and maintenance of the Senior WOW Programs. Cecelia Duchano joined the Community Services staff in January 2007 as the new Seniors Program Coordinator and began work with the Implementation Committee and the town-sponsored Senior Series Board. As part of the transition process, the hardworking Senior Series Board finished their service as board members at the end of June and have continued to be committed to providing quality senior programming through volunteer efforts in the new Senior WOW Programs.

Volunteer Committees have been established to discuss future plans and take an active role working with the Seniors Program Coordinator to research, plan, and develop programs and services for Scarborough seniors, and to establish partnerships with local organizations or businesses who would like to offer their programs and services to Scarborough seniors. There are currently 33 volunteers serving either as a member of a volunteer committee or helping out at specific events. Current committee topics include Activities, Health and Wellness, Outreach, Education, Intergenerational, Communications and Facilities. Other possible topics are Fundraising and Transportation. A nine-member Seniors Program Advisory

Board will also help in the direction of future Senior WOW Programs. As the Senior WOW Programs develop, activities at Hillcrest will be expanding in the fall to an additional Wednesday each month; there will also be a greater selection of activities and offerings around the town. Plans are being put together for a Senior WOW newsletter. Stop by the Community Services Office to find out about new offerings.

CONCERTS IN THE PARK

Scarborough rocked this summer! What's not to love about free concerts in the park? During the summer of 2007 Scarborough Community Chamber again partnered with Community Services to welcome six musical groups on Thursday nights at the gazebo at Scarborough's Memorial Park. Enjoyable evenings were had by all – providing opportunities to kick back and enjoy the show, reconnect with friends, or simply relax in the park and take in the care-free evenings of summer. Additions to this year's festivities were free Amtrak Downeaster ticket drawings, concert T-shirts, Chamber Frisbee give-aways, and the Rotary Club providing very family-affordable fare at the concession stand.

Concert attendees were able to enjoy a variety of music from:

- Dan Merrill with Coos Canyon
- Bob Charest Band
- Wavelength
- Don Campbell Band
- Motor Booty Affair
- Tony Boffa Band

The concert series was a tremendous success thanks to great performers, good weather, generous sponsors, and volunteers. This year's concert series not only had record attendance for its six-year history (over 6,000 attendees), but also grew in sponsorship support creating great visibility for Scarborough's Community Chamber and the businesses that sponsored the series. This year there were over 60 area businesses involved. Three years ago our concerts moved to the new park under the mantra "if you build it, they will come." And they came in droves this year, turning this into a real community event. Look out 2008!

CABLE ACCESS TELEVISION

Scarborough Cable Television system (SCTV) provides the citizens of Scarborough coverage of civil and public events and information of interest through its two access channels - Channels 2 and 3. These events are replayed on both channels throughout the course of the week, and in between these programs slides of upcoming events run continuously for non-profit organizations. The SCTV facility now has its new digital equipment, and new fiber has been installed for live programming from the Clifford Mitchell Sports Complex and Scarborough High School. Negotiations are currently under way between the town and school to provide this live programming from these areas. SCTV prides itself on producing high-quality programming and first-rate coverage of local government.

Report from the

PUBLIC LIBRARY

The year was filled with planning and implementing strategies to improve the library building and services following the defeat of a building expansion project in June 2006. The library began long deferred building improvements and repairs with the replacement of roofing. A mechanical room was built on the rear of the building to house equipment for a new energy efficient heating and cooling system. Carpet replacement, energy efficient lighting, window replacements, parking expansion and brick repair will follow in subsequent years.

The Library Trustees enlisted a private research firm to conduct a town-wide survey to help understand the needs and desires of the community regarding library services and to gauge support for our efforts. The results of the survey indicate a high level of satisfaction with the Library. Respondents believed that the Library is an essential public service and would support the Library through votes and financial contributions if a compelling case were made for a specific need.

The Board of Trustees recognized the importance of enhancing the strong relationship with community members. A new part-time staff position, dedicated to development and programming, became possible with a grant from the Morton-Kelly Charitable Trust. The new position will be included in operating budgets in future years. The result of this new emphasis was a dramatic increase in annual fund contributions for the fiscal year. The increased focus on diverse programming resulted in attendance of nearly 11,600 children and adults, an 18% increase.

This year's minimal growth of the library collection is a result of both space limitations and the nature of how information is provided. We continue to acquire, through purchase and gifts, new titles to meet the recreational and information needs of our community. With no new collection space anticipated, it has become essential to maximize the existing space. The collection is constantly reviewed for worn and outdated titles in order to make room for new items. Online resources, including the state-funded MARVEL! databases, assist in offering up-to-date information without the local investment in the physical article or the space to hold it. The media collection is moving from tape toward the slimmer formats on disk. Active use of interlibrary loan

further supplements what we are able to offer our community of readers.

Our role in the community is well known as a location for information, recreational reading, and opportunities for life-long learning. One of our greatest values to the community is our role as a facilitator and community-gathering place. This year, examples of this role include our very popular reading time for adults with developmental disabilities. We have conducted seminars for the business community and hosted Small Business Week to help promote the economic strength of our community. We assisted the community in the recovery from the Patriots' Day storm by recruiting and coordinating volunteers to help our neighbors who did not have the resources to clear debris. We have expanded our own online gathering place by improvements to our library website including a blog, RSS feed and online newsletters.

We are financially supported in our efforts by the annual appropriation from the municipal budget. We also rely on the generous financial support of donors, through gifts to our annual appeal, as special gifts in honor or memory of a loved one, through an estate plan, or in response to a grant request. We are grateful for the significant gifts from the Margaret Jewell Trust, the Morton-Kelly Charitable Trust and the George L. and Clara S. Shinn Foundation.

Many people strengthen us in our mission, including our Board of Trustees, the library staff, the Friends of the Library and our 34 volunteers are a team that shares the commitment to provide the very best service to our community. On behalf of this team, I thank the citizens of Scarborough for your support. We welcome your suggestions and we encourage you to visit your library often.

Respectfully submitted,

Nancy E. Crowell, MLS, Library Director

*Nancy E. Crowell
Library Director*

Report from the

CONSERVATION COMMISSION

The Conservation Commission has again continued its goals of reviewing projects before the Planning Board, providing education and information to the community concerning natural resources, and updating the Commission web site.

Again this year the Planning Board and staff have been very supportive of our comments and ideas related to the protection of natural resources. We would like to thank Susan Auglis, the outgoing Planning Board Chair, for her vision, leadership, and work to fairly balance often conflicting issues. We look forward to working with Allen Paul, the incoming chairman. Our planning comments can be viewed by going to www.scarborough.me.us, "Boards and Committees" then click on "Conservation Commission".

To advance our educational goals, the Commission organized three educational seminars for the public last year. The topics were Vernal Pool Biology and Regulation, a project overview of the restoration project of the Libby River Marsh done by the Friends of the Scarborough Marsh and the Maine D.O.T., and a seminar about Stormwater Management.

We supported the revitalization of the Maine Association of Conservation Commissions (MEACC), became an early member, and assisted in steering meetings. MEACC is dedicated to providing a

statewide network of support, resources, and a forum for conservation commissions which have previously operated independently.

For the third year, the Commission provided posters for the Annual Spring Cleaning of Scarborough Marsh and Beaches in which more than 200 volunteers participated.

We are currently planning a vernal pool inventory for the whole Town which we hope to conduct early in 2008.

The Commission would like to thank the Town Manager, Staff, the Town Council local developers and residents for their support. We extend our congratulations to Dan Bacon in his new position as Town Planner and welcome Jay Chace, our new Assistant Town Planner, to Scarborough.

As Chairman, I would like to thank Commissioners Jeannine Uzzi, Kelley Pendleton, John Cole, Patrick Kelly, Bob Jordan and associate member Laurene Swaney for their service this year. We are sorry that Silla Von Fault Trueworthy was unable to continue on the Commission and appreciate her contribution.

The Conservation Commission currently has an opening and would enjoy inquiries from residents who have a scientific background, natural resources experience, or an interest in conservation, over the past year.

Respectfully submitted,

Paul Austin, Chairman of the Conservation Commission

Report of the

SCARBOROUGH LAND CONSERVATION TRUST

The Scarborough Land Conservation Trust is a private, non-profit, community-based organization committed to acquiring, protecting and preserving land for public access and enjoyment of its natural resources, scenic vistas and historical significance. The projects undertaken by the Trust, working in partnership with the Town, offer unique value to our

To the Town Manager, Town Council, and Citizens of Scarborough:

During 2008 the Scarborough Land Conservation Trust (SLCT) had to bid farewell – but not goodbye, we hope – to its long-time leader and boundless source of energy, Laurene Swaney, who stepped aside as President. Recent board additions Jack Anderson, Donna Betts, Tim King and Elizabeth Peoples, along with veteran board members Paul Austin, Rick Shinay, Alex Timpson, Doug Williams and Jeremy Wintersteen, along with loyal volunteers like Rita Breton, have continued to pursue the goals and ideals for acquisition, protection and stewardship which Laurene has so long exemplified. And we hope to have her back in the future!

In the past year SLCT volunteers and our one paid, but priceless, staffer Marla Zando have poured a lot of volunteer time and donated funds into stewardship of the roughly 1,000 acres of land already acquired or protected by easements for enjoyment by Scarborough's residents, and have worked to increase public awareness of the opportunities for use of this space, while pursuing several new projects of note. Maps of the trails through the Sewell Woods, Libby River Farm and Fuller Farm properties, maintained by hardy volunteers, can now be found on our website, www.scarboroughmaine.com/slct; and the publication and mailing of two SLCT newsletters and a lot of good press in local newspapers, as well as participation in public events like Scarborough's 350th anniversary celebration and a developing farmers' market, have raised the profile of SLCT's mission for the town and its benefits for all. Broadturn Farm tenants John Bliss and Stacy Brenner have earned a lot of well-deserved attention as they completed another successful year of their Community Supported Agriculture (CSA) program, in which members are able to purchase fresh, locally grown, organic produce, eggs and meat products. Equally successful was Broadturn Farm's Farm Camp for children ages 4-9 and "pick your own" opportunities open to the public, helping agriculture to survive and thrive in Scarborough, where it has always been such a special part of the character of the community.

While Broadturn Farm is indeed a success, it remains SLCT's largest constant stewardship expense. Owning a 200-year old farmhouse and several barns comes with many responsibilities for upkeep and maintenance. This year the house required lead paint remediation, and the main barn received extensive renovations that will keep it sound and useful in many ways for many years to come. There is always much more to be done in order to enable John and Stacy to successfully pursue and everyone who visits

Broadturn Farm to enjoy all the ways in which traditional farm activities, along with some exciting new ideas, can nourish and enhance our modern suburban lives.

While Scarborough continues to grow and develop in so many good ways, and our region becomes increasingly urbanized, it remains vitally important to make sure that we preserve all the open space we can for public access and traditional rural uses, or else we risk losing the very special character that has made Scarborough such a desirable place to live. Our strategic goals for land acquisition and protection include having open public spaces widely distributed around the community, so that one has far to go for a nice walk in fields or woods, or feels totally surrounded by suburbia; and also building larger contiguous blocks of protected, accessible land wherever possible - for example, adjacent to the Scarborough Marsh and its tributary watersheds to enhance and support a wider range of outdoor

activities. In addition to several smaller dispersed projects in the pipeline, in 2008 we have made significant progress towards two other

Observation Platform at Libby River Farm

organizations; and we have continued to keep our sights on another well-known landmark property, with hopes of someday being able to protect it. While significant tax benefits accrue to landowners who donate property or conservation easements over it, most of what SLCT acquires is purchased outright, at fair market value, and land in Scarborough is not cheap. Once acquired, we must take care of it; and as more land is acquired, more funds along with the labor of many volunteers are required for good stewardship.

Since its inception in 1977, SLCT has operated with the aid of numerous volunteers.

*Respectfully submitted,
Laurene Swaney, President
Scarborough Land Conservation Trust*

HOUSEHOLD WASTE & RECYCLING SCHEDULE

July 1, 2007, through June 30, 2008

Household waste & recycling items must be **curbside by 7:00 a.m.** on the scheduled pick-up day in the wheeled containers provided by the Town. No commercial waste, large items, yard waste, construction debris, or hazardous waste may be placed with household trash. If you have any questions please call Public Works at 207-730-4400, or email the Recycling Coordinator at swojcoski@ci.scarborough.me.us or, view our "*Waste & Recycling*" Web page at:

www.scarborough.me.us and navigate to Public Works Waste & Recycling.

PICK-UP AREAS

- **MONDAY:** Pine Point Road to railroad overpass, Broadturn Road to Maine Turnpike, Payne Road to Milliken Road, Milliken Road to Route One, Route One to Saco line, and back to Oak Hill.
- **TUESDAY:** All areas north of the Maine Turnpike.
- **WEDNESDAY:** South side of Route One from Oak Hill to South Portland line and north side of Route One from Milliken Road to South Portland line. North to Maine Turnpike, including Green Acres area and Heritage Acres area.
- **THURSDAY:** Black Point area, Pleasant Hill area, and Winnocks Neck area.
- **FRIDAY:** Pine Point Road from railroad overpass, Pine Point, then all of Higgins Beach.
- **HOLIDAYS OBSERVED (NO PICKUP):** Thanksgiving, Christmas Day, New Year's Day, July 4th.
- **NOTE:** Occasionally rubbish collection will not be affected by these holidays. The current policy is to check the contractor's pickup schedule and post a notice outlining any changes. Notices are posted in the *Scarborough Leader*, the *Forecaster*, on the local access channel, the Town's Web site, and at various municipal locations. Because holidays may fall on different days of the week each year, the schedule may also change, so check for notices regularly. On storm days rubbish will still be collected (even if there is no school); only in extreme weather conditions will pickup be cancelled. Cancellation will be announced on radio and TV stations.

RECYCLABLE MATERIALS:

Clear and colored glass, cans, #1 and #2 milky and colored plastic, newspapers, magazines, phone books, paperboard, corrugated cardboard.

RECYCLABLE MATERIALS DROP-OFF LOCATIONS:

Hannaford parking lot at Oak Hill; Dunstan School Restaurant parking lot on Route 1; Wal-Mart parking lot, on Payne Road; Community Recycling Center, 8 Runway Road (Pleasant Hill area); Bessey School on Route 1 at the Maine Veterans Home entrance (*to be moved to a new undetermined location in the near future*).

Cardboard drop-off locations - Only at Dunstan School Restaurant, Bessey School, and Wal-Mart locations.

TOWN BEACH PASSES AVAILABLE FOR:

FERRY BEACH

A sandy beach along the Scarborough River channel that is located off Black Point Road, at the end of Ferry Road. There is a municipal parking lot at the end of the road. The beach is somewhat protected from ocean waves by the jetty located on the other side of the channel. The Town maintains the beach area, parking lot, and facilities located there.

The facilities include public restrooms with showers and a public boat launch. There are fees to park in the municipal parking lot and to use the boat launch.

Seasonal passes are available for residents and non-residents at the Municipal Building located at 259 US Route One. Passes may be purchased for Ferry Beach or a combination pass for both Town beaches. Vehicle registration must be presented at the time of purchase.

FMI call (207) 730-4000.

PINE POINT BEACH (HURD PARK)

A long sandy beach extending from the jetty at Pine Point to Old Orchard Beach. The beach is both public and private with public access. During the summer months the Town rakes the beach weekly. The municipal parking lot is located on Avenue 5 off King Street. The Town maintains the beach area, parking lot, and the facilities there.

The facilities include public restrooms, showers, and a concession stand; there is no boat launch at this beach. There are fees to park in the municipal parking lot.

Seasonal passes are available for residents and non-residents at the Municipal Building located at 259 US Route One. A pass may be purchased for Pine Point Beach (Hurd Park) or a combination pass for both Town beaches. Vehicle registration must be presented at the time of purchase.

FMI call (207) 730-4000.

FOR YOUR INFORMATION

BIRTH CERTIFICATES

Birth certificates in the State of Maine can be obtained from:

1. The city or town in Maine where the child is born;
2. The city or town in Maine where the mother was living at the time of the birth; or,
3. The State Department of Vital Statistics located in Augusta, Maine.

The fee for a certified copy of a birth certificate is \$10 for the first copy and \$5 for each additional copy obtained at the same time. Call the Scarborough Town Clerk's Office at 207-730-4020 for more information.

MARRIAGE LICENSES

Residents of Maine obtain marriage licenses from the Town Clerk's Office in the town in which they reside. If the bride and groom are both residents of Maine but from different communities, they may obtain a license from the town in which either resides. If neither are residents of Maine, they may obtain the license in any town or city in the State and be married in any community within the State. For persons who have been previously married, a certified document must be presented indicating the dissolution of the former marriage. The application for a marriage license is valid for 90 days from the date of issuance. The application fee is \$30. Please call the Scarborough Town Clerk's Office at 207-730-4020 for more information.

DOG LICENSES

All dogs in the State of Maine are required by state law to be licensed in the town in which you reside. To license your dog(s), you must present a current State of Maine rabies certificate along with a spaying or neutering certificate issued by your veterinarian. The fee for unaltered dogs is \$11 and for spayed or neutered dogs it is \$6.

All dogs six months of age or older must be licensed each year. A late fee of \$15 will be charged after February 1st and \$25 after April 1st. Call the Scarborough Town Clerk's Office at 207-730-4020 for more information.

PASSPORT INFORMATION

The Town Clerk's Office has been a certified passport agent since January 2003. We have applications for new passports, for passport renewals and many other forms you may need to get or update your passport. We process passport applications Monday through Friday from 8:00 a.m. until 3:00 p.m. For further information you may visit the following website www.travel.state.gov or contact the Town Clerk's Office at 207-730-4020.

VEHICLE REGISTRATION

New registrations, as well as re-registrations, can be done at Town Hall without having to go to the Department of Motor Vehicles as long as no SR22 is required and there isn't a vanity plate request. To register a vehicle, you must have the serial or vehicle identification number (VIN), year, make, model, color, weight, and optional equipment of the vehicle to be registered.

You must also provide the current mileage of the vehicle and proof of insurance. With a new vehicle registration you must also present the bill of sale or dealer's certificate and the application for title. For brand-new vehicles, you must also present the window sticker showing the manufacturer's suggested retail price sticker that was affixed to the window of the vehicle.

Under state law we cannot process your registration without current proof of insurance. Call the Scarborough Excise Office at 207-730-4016 for more information.

RESIDENT HUNTING AND FISHING LICENSES

Resident hunting or fishing licenses may be obtained from the Excise or Tax Collector's Offices at Town Hall and also online at www.informe.org. The cost is \$23 per license.

The cost of a combination hunting and fishing license is \$40. A junior hunting license (10 - 16 years of age) may be obtained for \$9. Anyone over 16 years of age may obtain an adult license after presenting a valid hunter safety certificate. Please call the Scarborough Excise Office at 207-730-4010 for more information.

Town of Scarborough
P. O. BOX 360
SCARBOROUGH, ME 04070-0360
Boards & Committee Application Form

The Town of Scarborough is always seeking applications from interested residents to volunteer for various boards, standing committees, and other committees organized to work on specific issues within stated time frames. The Appointments Committee of the Town Council is responsible for reviewing all applications from interested residents and making recommendations to the full Town Council for appointment to the various committees. Please consider assisting your community by volunteering! Serving on a committee is a wonderful way to learn more about our community, meet our neighbors, and contribute to our town's success. Thank you.

Date of Application: _____

Name: _____

How long have you been a resident of Scarborough? _____ Months / Years

The Town needs the following personal contact information in order to communicate with you. This information will not be published or released to the public, unless you choose to make it public. If you are willing to allow any item of personal contact information to be made available to public inquiry, please check the "Yes" or "No" box next to the item.

Street Address: _____	<div style="border: 1px solid black; padding: 2px;">Yes</div>	<div style="border: 1px solid black; padding: 2px;">No</div>
Mailing Address: (If different) _____	<div style="border: 1px solid black; padding: 2px;">Yes</div>	<div style="border: 1px solid black; padding: 2px;">No</div>
Home Telephone: _____	<div style="border: 1px solid black; padding: 2px;">Yes</div>	<div style="border: 1px solid black; padding: 2px;">No</div>
Business Telephone: _____	<div style="border: 1px solid black; padding: 2px;">Yes</div>	<div style="border: 1px solid black; padding: 2px;">No</div>

Please put a check mark in the box by the name of any committee or board you would be interested in serving on:
