

# STUDENT OF THE MONTH

April 2021

**Lois Lemmon**

As Head of Rooke House I am extremely proud to have Lois as our Captain. She embodies our values: showing care and trustworthiness through her interactions with peers; resilience, and adventure in her pursuit of extra opportunities.

Her numerous merit comments are bursting with praise for her efforts in class and beyond. Lois is a very worthy recipient of this award for many reasons, but most importantly, because of her outstanding attitude to school life.

**Mrs Perry (HoH)**

Lois is always fully engaged in all activities in form, and willing to help the younger tutees in the group, which shows a fantastic level of maturity. She has shown brilliant leadership skills with her involvement with MUN helping to explain procedures and skills to help engage and motivate students new to the activity.

She is a mature and enthusiastic student who thoroughly deserves this recognition due to all her hard work and unwavering positive attitude.

**Mr Fletcher (Tutor)**

I would like to recommend Lois for her maturity and commitment to MUN and her desire to promote it in school.

She is training up Year 7 and would love more students to join from other year groups. She shows true leadership and potential. Her poise this morning was hugely impressive and working for sustainability has to be admired.

I would also commend her for her courage in getting out of the Gib bubble and networking across the world.

**Mrs Mason**

Lois, I have heard many excellent student presentations at Prior Park and your one this morning on EuroMUN is certainly amongst the very best.

This is something which our year 12 Geographers would undoubtedly benefit from taking part in and I invite you to speak to them in one of their next Geography lessons.

Your knowledge and passion really shone this morning. Well done and best wishes in your association with EuroMUN.

**Mr Doherty**
