**Athletic Participation Rules**

a. When there is a limited overlap of extracurricular activities as outlined below, a student participating in one activity will, upon their request, be given the opportunity to participate in tryouts for an additional activity. If selected by the coach/sponsor of the added activity, the student must return to the first activity for all remaining events, which includes practices as well as contests.

The student may attend events associated with the additional activity when they do not conflict with the first activity, which will take priority at all times. Failure to remain with the first activity will cause the student to forfeit the privilege of continuing with the added activity. Upon making the selection of being involved in both activities, the student acknowledges they may forfeit some opportunities granted to the second activity, and in some instances, both activities.
