FROM THE PRINCIPAL - The first trimester of the 2021-2022 school year ends on Wednesday, November 10! Fall conferences are just around the corner and will take place during the week of November 18-24.

Parent/student/teacher conferences are a special time set aside to talk about individual progress and make academic goals. Again this year, all teachers will include students in the conference because successful student learning requires a strong partnership between student, parent and teacher. Here are some suggestions to make the most out of your conference:

- **Be prepared to listen** to your child share and describe his or her learning. **This is an important goal of the conference.**
- **Stay focused** on your child and his/her progress. Time is limited.
- If you have a **serious concern or question** that may take away from your child's opportunity to share his or her learning, this conference **may not** be the best time to thoroughly discuss it. However, if you would like time alone with the teacher, please just ask.
- **Let the teacher know** if anything has happened that might affect your child's performance at school.
- **Share concerns** that arise when you work with your child at home.
- **Before you leave**, develop ideas and plans for how you can better support your child and teacher.

I cannot stress enough the importance of **consistent, ongoing** communication between home and school. This conference cannot be the first and last time that teachers, students and parents communicate about student learning. If you have any comments and/or questions about conferences, do not hesitate to contact me. Thank you.
