THE SAGE RIDGE WAY

- Each fall students attend Outdoor Education Week at different regional locations by grade level, integrating survival skills and socio-emotional learning competencies.
- Each spring students pick two “Sage Session” classes to study over two weeks. Faculty build sessions around their own personal interests to allow students to explore subjects outside the classroom setting.
- Freshmen are required to take a seminar course which teaches them critical-thinking, public debate, and research skills as well as social media literacy and stage presence. They build upon core life competencies to gain greater confidence, awareness, and social emotional maturity.
- To get a taste for college life, seniors take a college-level humanities seminar as a capstone history class, write a 15-20 page research essay, and juggle a four-week, 60-hour internship (min. 3 hours per day) in May to discover possible career interests.
- The Sage Ridge Way is a culture deeply embedded in all aspects of the school. Faculty, staff, coaches, and a dedicated parent community go above and beyond to help students reach their highest potential and thrive as young adults. A level of trust and leadership is placed upon students to do the right things and ethically live according to the school’s Value Pillars and Honor Code.
