235 STUDENT RIGHTS AND RESPONSIBILITIES

INTRODUCTION

Committed to excellence and continuous improvement, the Lower Merion School District strives to ensure that all students achieve their highest level of critical thinking and creativity, that they value themselves and the diversity of others, and that they are knowledgeable, contributing citizens capable of excelling in a rapidly changing world.

The establishment of a true collaborative culture requires the age-appropriate participation of students in the school's decision-making process. Students' opinions and concerns must be considered when planning and implementing high-quality educational programs. With student participation, however, comes student accountability. Our goal as a learning community is to provide an exceptional academic program while establishing a collaborative culture that consistently operates within the philosophy of "students first." In this environment, faculty, staff, administrators and parents/guardians will work side-by-side with students to determine the educational program that best serves the needs of each LMSD student. In turn, students will accept the responsibilities associated with partnership, and elevate their performance behaviorally and academically. A collaborative culture can only be established when all members of the community commit to performing at their personal best, while striving to achieve the common goal of providing an outstanding education for all students.

This policy is intended to help the community understand the expectations that must be met in order for our schools to operate as safe and trusting communities for all students and families. LMSD is a District that prides itself in maintaining a culture of civility, tolerance, and respect. All persons are treated with dignity and are expected to behave according to the expectation set forth.

Part I of this policy is intended to frame the basic rights of students within the school environment. **Part II** outlines the responsibilities of students to create and maintain a positive learning environment where academic engagement is maximized. Part II is also sometimes referred to as a "Code of Conduct."

PART I – STUDENT RIGHTS

I. Equal Educational Opportunity

It is the policy of the Lower Merion School District that no student shall be denied access to a free and full public education on account of race, color, ethnicity, national origin, language, immigration status, sex assigned at birth, sexual orientation, gender identity, gender expression, pregnancy, childbirth, pregnancy-related medical conditions, disability, creed, religion, or religious creed.

II. Establishing a Culture and Climate of Mutual Respect and Trust

The Board, through prior policy enactments, has clarified its priority of fostering inclusive environments within its schools through understanding, respect, and celebration of diversity and the ways in which that positively impacts the sense of belonging for all students. These policies include, but are not limited to:

- Civility (006)
- Equity (101)
- Equal Opportunity Program for School and Classroom Practices (103)
- Individualized Student Supports and Services (114)
- Controversial and Value Issues (119)
- Guidelines Concerning Religion (130)
- Student Athletics (151)
- Participation in Curricular Programs and Activities by Economically Disadvantaged Students (152)
- Transgender & Gender Diverse Students: Ensuring Equity and Nondiscrimination (259)

The District intends to provide sound educational programs and services in a school environment that fosters learning. Responsibility for maintaining such a positive learning environment is shared by students, school staff, and parents/guardians.

A. Student Involvement

1. The school, as a diverse center of learning, invites the open exposure and exchange of ideas and issues to and by students. It is therefore the right of any student to question, examine and debate any issue relating to the world community or the functions and proposals of the school, such as discipline, scheduling and school policy. Because the Board values the input of the District's students, where practical, building administrators shall elicit feedback from their respective student bodies about any revisions to this Policy, except for minor editorial revisions. Any failure to elicit feedback shall not, however, affect the enforceability of the revision.
2. It is the policy of the Lower Merion School District to incorporate into the ongoing curriculum ideas that may transcend traditional curricular topics, and that may raise questions about current social, political, technical, philosophical, and other problems, regardless of the controversial nature of the topic as long as, on divided issues, students should be apprised of the existence and nature of differing views. See also Policy 119 (Controversial and Value Issues in the Curriculum).

The advice and opinions of students shall be sought and considered by the professional staff in the planning of the school curriculum. Channels shall be provided in the school for receiving student advice

and opinions in determining the courses to be taught, the content of the courses, the evaluation of courses being taught, and the nature and conduct of extra-curricular activities.

B. Freedom of Expression

1. Freedom of expression is a right guaranteed by the United States Constitution and the Constitution of the Commonwealth of Pennsylvania. Public school students generally have the right to express themselves. Such expression is referred to as “protected expression.”
2. Student-initiated religious expression is permissible and shall not be prohibited except as to time, place, and manner of distribution, or if the expression involved violates some other part of this Policy or related Administrative Regulation (e.g. because it is independently determined to be unprotected expression under the standards and definitions as defined in the related Administrative Regulation). See also Policy/AR 130 (Guidelines Concerning Religion).
3. The Board respects the right of its students to express themselves in word or symbol and to distribute and post materials in areas designed for posting as part of that expression. The Board also recognizes that exercise of that right must be limited by the District’s responsibility to maintain an orderly school environment and to protect the right of all members of the school community.
4. Therefore, expression that is likely to or does materially and substantially interfere with the educational process, threatens serious harm to the school or community, encourages unlawful activity, or interferes with another individual’s rights is prohibited by the District, in accordance with State regulations.
5. Students may use publications, handbills, announcements, assemblies, group meetings, buttons, armbands, and any other means of common communication, provided that the use of public school communications facilities shall be in accordance with the regulations of the authority in charge of those facilities. Students have the responsibility to obey laws governing libel and obscenity, and to be aware of the full meaning of their expression. Students have the responsibility to be aware of the feelings and opinions of others and to give others a fair opportunity to express their views.
6. The Board reserves the right to prohibit the posting or distribution of non-school materials containing expression not considered protected expression as defined in paragraph B.1., above, and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right

to discipline students for engaging in unprotected expression. Where such expression occurs off campus and away from school functions, a nexus between the unprotected expression and a substantial and material disruption of the school program must be established.

7. Flag Salute and the Pledge of Allegiance: All students are expected to behave respectfully during the Flag Salute and Pledge of Allegiance. However, students may decline to recite the Pledge of Allegiance and may refrain from saluting the Flag on the basis of personal belief or religious convictions. Students who choose to refrain from such participation shall respect the rights and interests of classmates who do wish to participate in a meaningful ceremony. A student who chooses not to participate may either stand or sit and remain respectfully silent.

8. Dress Code Philosophy
 - a. The District believes all students have the right to an equitable education and should be able to dress, and style their hair, for school in a manner that expresses their individuality without fear of unnecessary discipline or body shaming. Enforcement of this universal dress code shall not create disparities, reinforce stereotypes or increase marginalization of any group, nor will it be more strictly enforced against students because of racial identity, ethnicity, gender identity, gender expression, gender nonconformity, sexual orientation, cultural identity, religious identity, household income or body type/size.
 - b. The Board recognizes that each student's mode of dress and appearance is a manifestation of personal style and individual preference. The Board will not interfere with the right of students and their parents/guardians to make decisions regarding their dress and/or appearance, except that schools are responsible for ensuring that a student's personal appearance does not interfere with the health or safety of any student. However, the mere negative perceptions of other students or staff do not constitute an interference with the health or safety of any student.
 - c. The Superintendent or their designee shall ensure that all rules and regulations implementing this Policy impose only the minimum necessary restrictions on the exercise of the student's style and individuality.
 - d. Each school's dress code shall be gender-neutral. Schools cannot enforce specific attire based on gender. Students have the right to dress in accordance with their gender identity within the constraints of the dress codes adopted by the school.
 - e. Exceptions to the dress code may be made by the Superintendent or their designee for medical or religious reasons when required by law.

C. Student Government

1. Students are free to establish and are encouraged to participate in student government that provides all students a voice in school affairs through a representative system or otherwise. If the government has elective representatives or officers, the officers and elections must be open to all students on a non-discriminatory basis. Student government is intended to represent the interests of the students.
2. Students have the primary responsibility for the conception and development of the charter for their student government subject to administration and Board approval. The charter must be available to all students and to the administration.

D. Student Organizations

Students have the right to form and participate in student organizations of their choice and these organizations have the right to peaceable assembly and to conduct programs on school property, provided the principal is given reasonable notice, and such assembly and programs do not endanger health or safety, damage property, or seriously disrupt the activities of others. Such assembly and programs shall also adhere to the provisions of this policy. Participants in student organizations have the responsibility to give timely notice to the principal of plans to assemble and to conduct programs and, in so doing, to refrain from endangering health or safety, damaging property, or seriously and immediately disrupting the activities of others.

E. Procedures for the Resolution of Student Concerns

1. Purpose: The Board believes that students and their families should be made aware of how to file a complaint for perceived violations of rules, policies, civility, or established practice by Lower Merion School District staff, students or visitors/volunteers should that become necessary. While there are required procedures under the law and other Board Policy for certain types of violations referenced below, the Board supports a platform that allows any type of concern to be directed immediately to building and central office administrators who are responsible for taking appropriate action.
2. Definition: For purposes of this policy, a student complaint shall be one that arises from actions that directly affect the student's participation in an approved educational program and arises from a violation or misapplication of District or School rules, policies, civility, or established practice. This policy applies to complaints about school programs and activities including extracurricular activities.

4. Guidelines: The Superintendent will prepare written procedures for prompt and satisfactory resolution of any complaint arising from a purported violation or misapplication of district policies as they pertain to students.

PART II – STUDENT RESPONSIBILITIES

I. Purpose and Authority

The Board desires to communicate the District's rules, expectations, and procedures regarding student conduct and discipline. Recognizing that student conduct and academic outcomes are closely related, the Board strives to create a school environment where positive behavior is modeled and encouraged, academic engagement is maximized and rule violations and disruptive behavior are minimized. The Board requires each student to adhere to Board Policies, Administrative Regulations, and school rules in effect at each school, and to submit to such disciplinary measures or other behavior modifying measures appropriately assigned for infractions of those rules.

Board Policies, related Administrative Regulations, and school rules shall apply to the fullest extent permitted by law to student conduct in school, at school-sponsored activities, during the time spent in travel to and from school and school-sponsored activities, and as otherwise permitted by law (“on-campus”). Additionally, the District may discipline students for conduct that occurs off campus and/or at non-school sponsored activities to the fullest extent permitted by law (“off-campus”). Such off-campus conduct occurs when:

- The conduct involves, threatens or makes more likely violence, use of force or other serious harm directed at students, staff or the school environment;
- The conduct materially and substantially disrupts or interferes with the school environment or the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions;
- The conduct interferes with or threatens to interfere with the rights of students or school staff or the safe and orderly operation of the schools and their programs;
- The conduct involves the theft or vandalism of school property; or
- The proximity, timing or motive for the conduct in question or other factors pertaining to the conduct otherwise establish a direct connection to attendance at school, to the school community, or to a school-sponsored activity. This would include, for example, but not be limited to, conduct that would violate the Code of Student Conduct if it occurred in school that is committed in furtherance of a plan made or agreed to in school, or acts of vandalism directed at the property of school staff because of their status as school staff.

Under **Appendix A** to this policy, the Board provides details regarding certain conduct expectations and prohibitions such as weapons, controlled substances, and personal devices. While these infractions are listed with specificity within this Board Policy, it is not intended, nor should they be read, to exclude from discipline other types of behavior that are described or referenced within Administrative Regulations, Student Handbooks, or classroom rules.

II. Delegation of Responsibility

The Superintendent or their designee shall promulgate an Administrative Regulations implementing this Board Policy governing student conduct which shall detail the behaviors students are expected to exhibit and the consequences students can expect to receive when their conduct falls short of such expectations.

The Administrative Regulations promulgated to implement this Policy shall be in accordance with applicable law and the guidelines outlined below, and consistent with Board Policy 101 (Equity). The equitable administration of school-based discipline utilizing restorative practices rather than punitive measures, when appropriate, and the reduction of disproportionality in school-based discipline are key components of the District's equity efforts. The accompanying Administrative Regulations shall contemplate, incorporate, and be consistent with this critical work.

III. Guidelines

The District's regulations governing student conduct shall not be arbitrary, capricious, discriminatory, or outside its grant of authority. The consequences or other requirements students can expect to receive when they make poor choices regarding their behavior shall:

- Relate in kind and degree to the infraction. Discipline shall generally be progressive in nature, and exclusionary discipline shall generally be reserved for serious infractions or cases where other interventions or restorative practices have proven unsuccessful.
- Require the student to reflect upon and accept responsibility for their actions.
- Ameliorate any harm or disruption caused by the student's misconduct, if possible.
- Hold parents and guardians accountable, including financial liability, for the actions of their child, if applicable.

The severity of any consequence or other measure should be proportional to the severity of the infraction and take into account, among other considerations, the age of the student, the student's

prior disciplinary record, special circumstances about the incident, as well as any applicable laws, regulations, or Board Policy.

Whenever appropriate, the District will utilize restorative practices to address student behaviors that do not conform to the District's rules and expectations. The building principal or designee shall have the authority to assign discipline or other requirements to students, subject to the regulations of the Superintendent or their designee and to the student's due process right to notice, hearing, and appeal.

A. Student Responsibilities, Generally

1. Student responsibilities include regular school attendance, conscientious effort in classroom work, and following school rules and regulations. Most of all, students share with the administration and faculty a responsibility to develop a climate within the school that is safe, inclusive, and conducive to learning.
2. No student has the right to interfere with the education of other students. It is the responsibility of each student to respect the rights of teachers, students, administrators, supportive staff, and all others who are involved in the educational process.
3. Students should express their ideas and opinions in a respectful manner.
4. In fulfilling the student responsibilities set forth above and in addition thereto, it is the responsibility of the students to:
 - i. Be aware of all rules and regulations for student behavior and follow them;
 - ii. Be willing to volunteer information in matters relating to the health, safety and welfare of the school community and the protection of school property;
 - iii. Assume that until a rule is waived, altered or repealed, it is in full effect;
 - iv. Assist the school staff in operating a safe school for all students enrolled therein;

B. Student Searches

1. The Board recognizes its obligation to protect the health, safety, and well-being of all students and staff and to promote an atmosphere conducive to learning. The District is aware of and respects the rights of students to be free of unreasonable searches of their persons and their possessions. However, in certain circumstances, the safe and orderly operation of the schools sometimes requires the investigation of possible violations of school rules, which may include searches of students and their possessions.
2. The Board directs the Superintendent to establish guidelines implementing this policy which shall:
 - a. Provide building and central office administrators with broad discretion to conduct lawful searches, in accordance with law.
 - b. Ensure that students and their parents/guardians are notified at least annually of the contents of this policy and the accompanying administrative guidelines.
 - c. Ensure that, prior to a search, students shall be notified and given an opportunity to be present, if required by law.
3. Systematic suspicionless testing may be performed on students and their guests at school dances, proms, and other school-sponsored student activities as determined by the High School Principal upon consultation with the Superintendent and pursuant to regulations promulgated by the Superintendent. For purposes of this Regulation, "systematic" means either testing of all students or a predetermined random selection of students. Testing refers to breathalyzers or other similar non-invasive testing.

C. Suspensions and Expulsion

- A. The Board recognizes that exclusion from school, whether by suspension or expulsion, is the most severe sanction that can be imposed on a student, and one that cannot be imposed without due process.
- B. Every principal or designee in charge of a district school may temporarily suspend any student on account of disobedience or misconduct. Any principal or teacher suspending any student shall promptly notify the Superintendent or their designee. The Board may, after a proper hearing, suspend such child for such time as it may determine, or may permanently expel him/her. Such hearings may be delegated to a duly-authorized committee of the Board, or to a duly-qualified hearing examiner, who need not be a member of the Board, but whose adjudication must be approved by the Board.

Teaching staff and other District employees responsible for students shall have the authority to take such reasonable actions necessary to control the disorderly conduct of students in all situations and in all places where such students are within the jurisdiction of this Board and when such conduct interferes with the educational program or threatens the health, safety, or welfare of others.
