

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: South Bay Union School District
 CDS Code: 37 68395 0000000
 School Year: 2024-25
 LEA contact information:
 Pamela Reichert-Montiel
 Assistant Superintendent, Educational Leadership
 preichert-montiel@sbusd.org
 619-628-1609

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

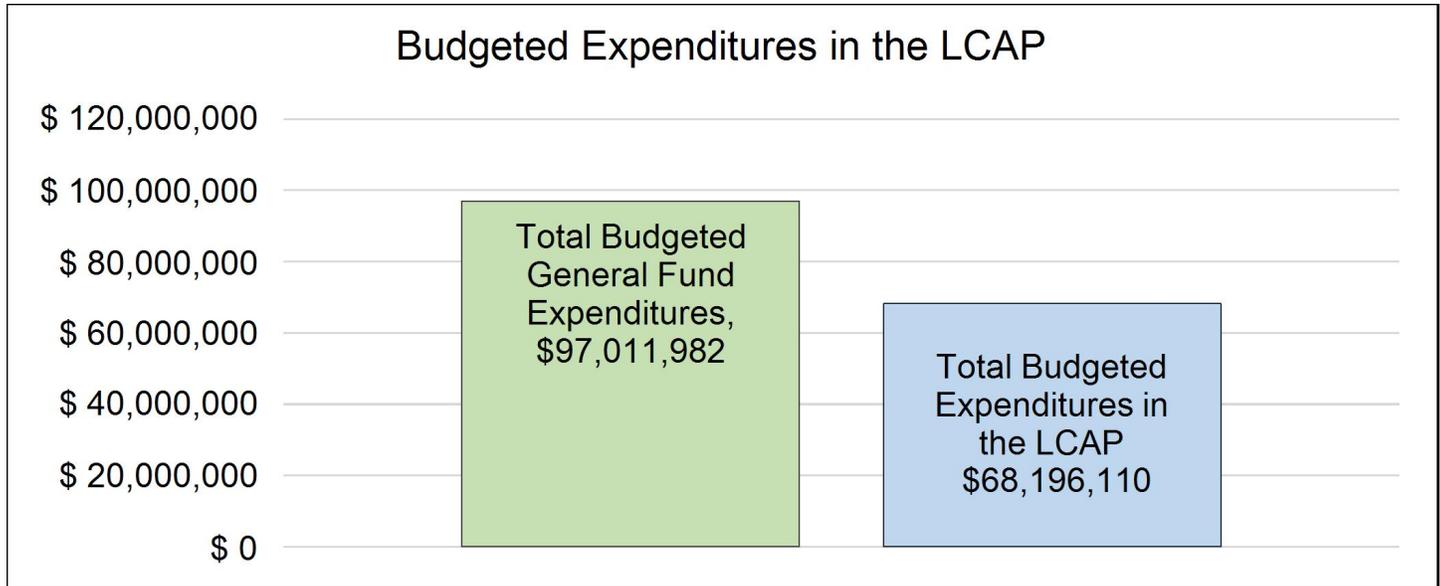

This chart shows the total general purpose revenue South Bay Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for South Bay Union School District is \$84,248,454, of which \$54,421,453.00 is Local Control Funding Formula (LCFF), \$14,487,281.00 is other state funds, \$11,518,306.00 is local funds, and \$3,821,414.00 is federal funds. Of the \$54,421,453.00 in LCFF Funds, \$13,576,507.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much South Bay Union School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: South Bay Union School District plans to spend \$97,011,982.00 for the 2024-25 school year. Of that amount, \$68,196,110.00 is tied to actions/services in the LCAP and \$28,815,872 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

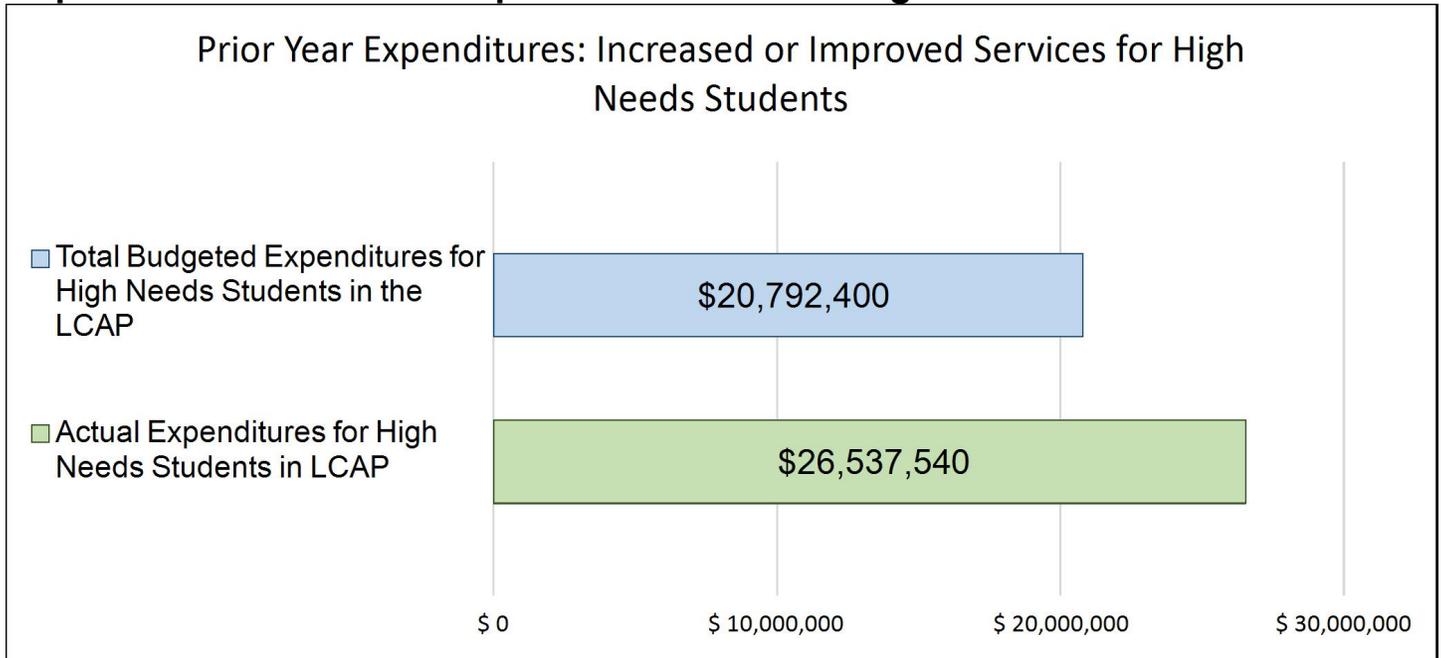

The total budgeted General Fund expenditures in the FY2024-25 Budget are \$97,011,982 compared to the total budgeted General Fund LCAP expenditures of \$68,196,110. The difference: ($\$97,011,982 - \$68,196,110 = \$28,815,872$) is used to fund the district's General Administration. Examples include but are not limited to Centralized data processing, Payroll, Human Resources, Professional Services such as Legal, Consulting, or Architectural Services. Also included are Plant Services consisting of routine facility repairs and the maintenance of the grounds at each of the district's facilities. Lastly, Interest on Long-Term Debt would be another example of a cost associated with General Administration and not included in the LCAP budget.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, South Bay Union School District is projecting it will receive \$13,576,507.00 based on the enrollment of foster youth, English learner, and low-income students. South Bay Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. South Bay Union School District plans to spend \$13,768,245.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what South Bay Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what South Bay Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, South Bay Union School District's LCAP budgeted \$20,792,400.00 for planned actions to increase or improve services for high needs students. South Bay Union School District actually spent \$26,537,540.00 for actions to increase or improve services for high needs students in 2023-24.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Ensuring Academic Excellence:

Provide a differentiated, responsive, and well-rounded academic experience based on instructional practices that make a significant difference in the lives of all students.

Below is information about all actions under Goal 1 and what specifically was implemented during the 2023-2024 school year.

1.1 - Literacy and Math TOSAs - While the District did employ a Literacy TOSA, the Math TOSA position was not filled during the 2023-2024 school year.

1.2 - Language Development TOSA - A Language Development TOSA was hired after the school year started, missing a cycle of support to the school sites.

1.3 - District and Site Level English Learner Support - Support this year has included EL Achieve resources and release time for professional development and data analysis.

1.4 - District and Site Level Academic Support and Interventions - All school site have a Learning and Acceleration Tutor focused on providing academic support and interventions for students not meeting grade level standards.

- 1.5 - Professional Learning (Academic) - Professional development costs have included contracts, release time (substitute teacher costs) and out-of-contract pay.
- 1.6 - Supplemental Instructional Materials - Resources such as Words Their Way, Benchmark, and Frog Street were purchased.
- 1.7 - Visual Performing Arts (VAPA) and Science, Technology, Engineering and Math (STEM) - VAPA/STEM teachers were assigned to all schools, including the two charters.
- 1.8 - Digital Platforms and Content - There continues to be an abundance of digital platform choices due to programs selected during distance learning. Many of these contracts have been paid with one-time funds and will be eliminated for the 2024-2025 school year.
- 1.9 - Curriculum Adoptions - No new curriculum was adopted during the 2023-2024 school year.
- 1.10 - One to One Digital Devices - Students were issued one-to-one digital devices.
- 1.11 - Connectivity Resources - Families have been issued wifi "hot spots" to ensure connectivity while at home. This resource has been especially important for our students experiencing insecure housing and foster youth.
- 1.12 - Digital and Network Safety - Cyber security is essential for all organizations, especially educational systems who have become the target of recent cyber-attacks. This action includes software, hardware, cloud-based services, and personnel to ensure network safety.
- 1.13 - Credentialed Teaching Staff - SBUSD continues to ensure all teachers are highly qualified and meet credentialing requirements.
- 1.14 - Class Size - SBUSD maintains class-size requirements related to education code and collective bargaining agreements with the Southwest Teachers Association (SWTA).
- 1.15 - Student Progress Monitoring - The District has been transitioning away from the data management Illuminate due to the inability to house all necessary data. That resulted in using multiple systems during the 2023-2024 school year.
- 1.16 - Support Staff - This activity includes the salaries of multiple staff at the Education Center - directors, coordinators, and bilingual liaisons.
- 1.17 & 1.18 - These actions were discontinued prior to the 2023-2024 school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Ensuring Academic Excellence:

Provide a differentiated, responsive, and well-rounded academic experience based on instructional practices that make a significant difference in the lives of all students.

Below is information about all actions under Goal 1 and what specifically was implemented during the 2023-2024 school year.

- 1.1 - Literacy and Math TOSAs - There was less than a \$10,000 difference between what was planned and estimated actual expenditures.
- 1.2 - Language Development TOSA - The estimated actual expenditures are less due to the position being filled late in the year with a new employee to the District.
- 1.3 - District and Site Level English Learner Support - The expenditures related to EL Achieve (Systematic ELD) and teacher release time for professional development were less than the planned expenditures.

- 1.4 - District and Site Level Academic Support and Interventions - The planned expenditures were less than the estimated actuals because of salary increases for all certificated staff, including Learning Acceleration Tutors related to Action 1.4.
- 1.5 - Professional Learning (Academic) - Material difference is less than \$5,000.
- 1.6 - Supplemental Instructional Materials - Material difference is less than \$3,000.
- 1.7 - Visual Performing Arts (VAPA) and Science, Technology, Engineering and Math (STEM) - The estimated actual expenditures are less due to the positions at the Charter Schools not being included. Expenditures are for the VAPA/STEAM positions at the 9 non-charters and for the Music Teacher at Mendoza Elementary. Removing the charter positions resulted in a lowered cost of approximately \$500,000.
- 1.8 - Digital Platforms and Content - Many digital platforms were selected during distance learning. Several of these contracts have been paid with one-time funds and will be eliminated for the 2024-2025 school year. The estimated actual expenditures exceeded the planned expenditures by approximately \$480,000. It appears that the projections did not reflect all of the digital platforms regardless of funding source.
- 1.9 - Curriculum Adoptions - There were no adoptions of core instructional materials during the 2023-2024 school year, therefore there were zero actual expenditures.
- 1.10 - One to One Digital Devices - The actual expenditures reflected costs for cases and charging cords only. The additional \$500,000 that was planned was not spent and will be spent in the upcoming year on the computer refresh that is a multi-year plan.
- 1.11 - Connectivity Resources - The estimated actual expenditures are three times the planned expenditures. Additional hotspots were secured to ensure connectivity was not a barrier for families and students.
- 1.12 - Digital and Network Safety - There is an approximate \$700,000 difference between the estimated actual expenditures and the estimated planned expenditures. Part of the projection is related to personnel costs, while the other is related to hardware, software, and cloud based resources. While personnel costs have either maintained the same or increased, the non-personnel costs came in lower than expected.
- 1.13 - Credentialed Teaching Staff - The estimated actuals include salaries and fringe for certificated staff. The cost is approximately 20,000,000, which reflects salary increases over the past three years. The planned expenditures should have been calculated to include these increases, and will be moving forward on the new LCAP template.
- 1.14 - Class Size - The estimated actual expenditures are approximately \$200,000 more than planned. This is due to less teacher salaries as declining enrollment affects staffing.
- 1.15 - Student Progress Monitoring - The District has been transitioning away from the data management Illuminate due to the inability to house all necessary data. That resulted in using multiple systems during the 2023-2024 school year, increasing the planned expenditures from approximately \$50,000 to approximately \$94,000, a difference of \$44,000.
- 1.16 - Support Staff - The estimated actuals exceed the planned expenditures by approximately \$1,300,000. These costs did not actually increase, they were identified in other actions and not reflected in the planned expenditures for 1.16. The actuals increased because of department reorganization and assigning staff to this action to reflect current practices.
- 1.17 & 1.18 - No planned expenditures were identified as these actions were discontinued.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Ensuring Academic Excellence:

Provide a differentiated, responsive, and well-rounded academic experience based on instructional practices that make a significant difference in the lives of all students.

It is difficult to identify which actions were effective or ineffective in making progress toward Goal 1 during the three-year LCAP cycle. What we have learned is that while some progress was made in ensuring academic excellence, it has been a challenging three years, particularly upon our return from school closures, distance learning, and the effects of the pandemic on our students, staff, and families.

1.1 Literacy and Math TOSAs & 1.2 Language Development TOSA - TOSA vacancies resulted in less staff supporting more schools.

1.3 - District and Site Level English Learner Support - While this action provided for English language development materials, professional development, and teacher release, concerns about the quality of ELD remains, as well as the need to focus on both designated and integrated ELD across the system.

1.4 - District and Site Level Academic Support and Interventions - Learning Acceleration Tutors at each site were found to be effective by the majority of educational partner input. LATs are able to provide intervention for students not meeting grade level standards and/or are referred for the Student Study Team (SST) process.

1.5 - Professional Learning (Academic) - The professional development related to guided reading and Lab Aids was well received. Effectiveness will be determined by the implementation of the curriculum/strategies in the classroom.

1.6 - Supplemental Instructional Materials - The supplemental materials were found to be effective in supporting instruction in ways that the core curriculum fell short. Resources purchased included Words Their Way, Benchmark Taller and Workshop for Dual Language Immersion (DLI) programs, and Frog Street for TK.

1.7 - Visual Performing Arts (VAPA) and Science, Technology, Engineering and Math (STEM) - While the work students engage in during VAPA/STEM blocks each week may not be directly aligned to student achievement, we recognize the impact that participating in visual and performing arts and science, technology, engineering, and math activities have on student engagement and participation in learning.

1.8 - Digital Platforms and Content - There is no direct correlation that we can find between time on digital platforms and student achievement. Given the inconsistencies in implementation and low usage of several platforms, it is safe to say they have been ineffective in reaching the goal.

1.9 - Curriculum Adoptions - We follow the adoption cycles to ensure the most recently developed curriculum is available to our students and staff. There were no core adoptions during the 2023-2024 school year.

1.10 - One to One Digital Devices - Effective in supporting student learning and access to digital content.

1.11 - Connectivity Resources - Hot Spots and other Wi-fi access for families has been effective in increasing access.

1.12 - Digital and Network Safety - Our technology department has been effective in preventing misuse of student devices and unsafe practices by utilizing safety software and partnering with the SDCOE and other organizations to identify and resolve any risk factors. While access to a safe network system is essential in supporting teachers and staff in their daily work, which ultimately results in higher student achievement.

1.13 - Credentialed Teaching Staff - Despite staffing challenges across the state of California, SBUSD has been able to hire highly qualified teachers for any openings. Filling positions that require special education credentials has presented some challenges, especially with the rising number of students with IEPs.

1.14 - Class Size - Class sizes are determined by the bargaining agreement and are taken into consideration when placing enrolling students at schools and in programs. There is a mutual desire to maintain class sizes that promote academic achievement. Overall, this action has been effective but remains a topic of discussion in negotiations with our certificated labor partners.

1.15 - Student Progress Monitoring - Our student progress monitoring system has not been effective District-wide and therefore we will be moving to iReady for the 2024-2025 school year. One of the reasons it has not been effective is that the Illuminate platform could no longer support the data imputed for F&P and DRA reading assessments. This, in conjunction with the search for a new diagnostic assessment, and use of IABs, has resulted in ineffective progress monitoring.

1.16 - Support Staff - Support staff at both the site and District level have been predominantly effective in meeting Goal 1, however, in year 3 the departments that oversee teaching and learning reorganized to better meet the needs of students and staff. We have only completed one school year with the new changes, so it will take additional time to determine if the design of these departments results in increases in student achievement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Ensuring Academic Excellence:

Provide a differentiated, responsive, and well-rounded academic experience based on instructional practices that make a significant difference in the lives of all students.

Below is information about all actions under Goal 1 in the current LCAP and what specifically was implemented during the 2023-2024 school year. For the 2024-2027 SBUSD LCAP there will be three new Goals. These goals will be -

Goal 1: Effective Organizational Systems: We believe that all educational partners play an integral role in contributing to and living out the District Vision, Mission, and Values. It is only through a collective effort that we will be successful in creating a highly effective and successful organization.

Goal 2: District and School Climate, Culture, and Connectedness: We will create and maintain equitable, welcoming, and safe learning environments that value diversity, language, individual culture, identity, interests, and the contributions of all educational partners, while also building the capacity and efficacy of all.

Goal 3: Academic Excellence for All Students: All students will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Mathematics, and Multilingual Learners (MLs) will demonstrate progress in developing English language proficiency.

1.1 - Literacy and Math TOSAs - For the 2024-2025 school year we will have five TOSAs who will be assigned to two (2) school sites each, focused on ELA, Math, and Language Development. These were the content areas identified in greatest need during the LCAP input

process and subsequent LCAP surveys. During the 2024-2025 school year District leadership will explore options for a position that supports both professional development and direct support to students. (New Goal 3)

1.2 - Language Development TOSA - For the 2024-2025 school year we will have five TOSAs who will be assigned to two (2) school sites each, focused on ELA, Math, and Language Development. These were the content areas identified in greatest need during the LCAP input process and subsequent LCAP surveys. (New Goal 3)

1.3 - District and Site Level English Learner Support - We will continue to use Systematic ELD (EL Achieve) as our primary designated ELD program and will supplement as needed. Staff and parent input during the LCAP development process identified the need for additional supports for multilingual learners. (New Goal 3)

1.4 - District and Site Level Academic Support and Interventions - Schools have reported an increase in student achievement with the Learning and Acceleration Tutors, therefore they will continue into the new LCAP. (New Goal 3)

1.5 - Professional Learning (Academic) - Professional development is essential for all educational partners (classified, certificated, parents), a theme that surfaced from the LCAP input development process. For the 2024-2025 school year we will focus our professional development in the area of reading instruction, ELA and Math standards, language development, and parent education. (New Goals 2 & 3)

1.6 - Supplemental Instructional Materials - The Consultation Committee (made up of five STWA members and five District administrators) has spent the last year exploring supplemental instructional resources. The goal moving forward is to select resources that are standards aligned that supplement the current adopted curriculum in the areas that are lacking. The areas identified thus far are phonemic awareness, phonics, reading comprehension, and writing. (New Goal 3)

1.7 - Visual Performing Arts (VAPA) and Science, Technology, Engineering and Math (STEM) - Weekly one hour participation for all students will continue in the 2024-2025 school year. This action will be identified in the new three-year LCAP. (New Goal 2)

1.8 - Digital Platforms and Content - Due to the read for a diagnostic reading and math assessment, as well as progress monitoring and benchmark assessments, the District is moving to a new digital platform and eliminating the majority of current platforms due to cost and overall usage. In addition, student achievement data does not demonstrate that such platforms are resulting in improvement. (New Goal 3)

1.9 - Curriculum Adoptions - The next curriculum adoption will be Math - most likely for the 2025-2026 school year. Funding will continue to be identified in the new LCAP. (New Goal 3)

1.10 - One to One Digital Devices - The technology department has developed a refresh schedule for all student and staff. Funding has been identified to support the refresh calendar for the next three years. (New Goal 1)

1.11 - Connectivity Resources - Student connectivity is imperative as more educational resources are digitally based and require wifi. Funding will continue for this action moving forward. (New Goal 1)

1.12 - Digital and Network Safety - We will continue forward with personnel, hardware, software, cloud-based resources, and any necessary training to ensure network safety. We will also maintain our partnership with the SDCOE to ensure we are up to date with the most effective and efficient safety procedures. (New Goal 1)

1.13 - Credentialed Teaching Staff - The District will continue to recruit and retain highly qualified teachers. The number of teachers employed will depend on student enrollment, specialized programs, and agreements related to class size. Planned expenditures will reflect these factors as well as any future cost of living (COLA) increases. (New Goal 1)

1.14 - Class Size - No changes are expected for the 2024-2025 school year, but any decisions made during negotiations with labor partners will be reflected as applicable. (New Goal 1)

1.15 - Student Progress Monitoring - Moving forward the District will no longer be using the current student data system, Illuminate. Instead, we will use a combination of Elevation and potentially iReady for diagnostic assessments, progress monitoring, and standards-based assessment/benchmarks. (New Goal 3)

1.16 - Support Staff - Departments are fully staffed and will remain so unless future reductions are proposed. This is a possibility as student enrollment declines, possible school consolidations are proposed, and lay-off/reductions are recommended. (New Goals 2 & 3)

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

				site host and the focus for the Equity Walk.	

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Goal 2 - Advancing Equity and Inclusion:

Create a culture of equity and inclusion through the elimination of systemic barriers to individual success and the development of culturally responsive practices.

2.1 - Equity and Access Task Force - The original Equity and Access Task Force (and Diversity Committee not identified in this actions) was merged into the Diversity, Equity, Inclusion, and Belonging (DEIB) Committee. The new committee is facilitated by the Director of Equity, Multilingual Learners, and Innovation. The committee met several times this year and will continue their work in the 2024-2025 school year.

2.2 - Ethnic Studies - Focus on Ethnic Studies across the county is currently on the high school requirement, not materials for elementary level systems.

2.3 - Equity Based Professional Learning (Cultural Proficiency and SDCOE) - While staff did attend the SDCOE Equity Conference, no additional professional development agreements were made. The District already completed its work with the Center for Educational Leadership (CEL) and the series on Cultural Proficiency with the Lindsays (authors and facilitators).

2.4 - Equity Focused Leadership Framework (CEL) - Work with the Center for Educational Leadership (CEL) was completed prior to the 2022-2023 school year. We continue to use the strategies learned to guide our work around street data collection, specifically empathy interviews and student fishbowls.

2.5 - Culturally Relevant Curricular Materials - Culturally relevant books were purchased for all schools, increasing the number of titles available to staff and students that represent the diverse identities of the students we serve.

2.6 - Equity and Inclusion TOSA - The positions of content area specific TOSAs were identified during the development of the 2021-2024 LCAP. Unfortunately, the six positions have been difficult to fill resulting in less TOSAs supporting all schools. While the Equity and Inclusion TOSA position has been filled for three-years by the same certificated staff member, the role has evolved and has included supporting school sites in additional focus areas.

2.7 - Student Equity Walks, Empathy Interviews, and Fishbowls - Equity walks, empathy interviews and student fishbowls took place over the course of the school year across the District. The professional development was led by the Equity, Multilingual Learners, and Innovation Department in order to build the capacity of site administrators to take the work back to their sites.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 2 - Advancing Equity and Inclusion:

Create a culture of equity and inclusion through the elimination of systemic barriers to individual success and the development of culturally responsive practices.

2.1 - Equity and Access Task Force - The approximate \$28,000 difference between the budgeted expenditures and the estimated actual expenditures are because a consultant was not used to facilitate a committee, not provide professional development. The original Equity and Access Task Force was transitioned into the Diversity, Equity, Inclusion, and Belonging (DEIB) Committee. The new committee is facilitated in-house with costs for out-of-contract pay.

2.2 - Ethnic Studies - There were no expenditures for this action as there are currently no elementary level curricular materials.

2.3 - Equity Based Professional Learning (Cultural Proficiency and SDCOE) - The only estimated actual expenditures for this action were \$4,575 for attendance at the local Equity Conference. That total is approximately \$94,000 less than the planned expenditures.

2.4 - Equity Focused Leadership Framework (CEL) - Zero planned expenditures, zero actuals.

2.5 - Culturally Relevant Curricular Materials - The estimated actuals were \$39,000 less than planned. Culturally relevant books were purchased for all schools, but costs were lower than expected.

2.6 - Equity and Inclusion TOSA - The approximate \$37,000 difference between the budgeted expenditures and the estimated actual expenditures are because the planned expenditures were not updated to reflect salary increases and costs of health and welfare benefits over the past three years.

2.7 - Student Equity Walks, Empathy Interviews, and Fishbowls - There were no actual expenditures charged to the District budget as the professional development, walks, interviews, and fishbowls took place during the instructional day.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Goal 2 - Advancing Equity and Inclusion:

Create a culture of equity and inclusion through the elimination of systemic barriers to individual success and the development of culturally responsive practices.

Through the LCAP input development process it was decided that the work of equity and inclusion should be integrated throughout the actions in the new LCAP, so there will no longer be a separate equity goal. Furthermore, it is difficult to determine if action steps under this goal were effective or ineffective in making progress towards the goals because they work in partnership with actions from other goals. What we can determine from the data collected is that there was an increase in empathy interviews, student fishbowls, and equity walks. In addition, the percentage of staff who were able to define microaggressions, implicit biases, and explicit biases increased.

- 2.1 - Equity and Access Task Force
- 2.2 - Ethnic Studies - n/a
- 2.3 - Equity Based Professional Learning (Cultural Proficiency and SDCOE)
- 2.4 - Equity Focused Leadership Framework (CEL)
- 2.5 - Culturally Relevant Curricular Materials
- 2.6 - Equity and Inclusion TOSA
- 2.7 - Student Equity Walks, Empathy Interviews, and Fishbowls

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 2 - Advancing Equity and Inclusion:

Create a culture of equity and inclusion through the elimination of systemic barriers to individual success and the development of culturally responsive practices.

- 2.1 - Equity and Access Task Force - The original Equity and Access Task Force (and Diversity Committee not identified in this actions) was merged into the Diversity, Equity, Inclusion, and Belonging (DEIB) Committee. The new committee is facilitated by the Director of Equity, Multilingual Learners, and Innovation. The committee met several times this year and will continue their work in the 2024-2025 school year. (New Goal 2)
- 2.2 - Ethnic Studies - Discontinued until further direction is received from SDCOE and/or CDE.
- 2.3 - Equity Based Professional Learning (Cultural Proficiency and SDCOE) - Will not continue in the 2024-2027 LCAP, but the learning that has already occurred will be integrated into the new LCAP. In addition, staff will continue to attend the Equity Conference facilitated by the SDCOE. (New Goal 2)
- 2.4 - Equity Focused Leadership Framework (CEL) - Not an action in the new LCAP.
- 2.5 - Culturally Relevant Curricular Materials - Culturally relevant books will continue to be purchased for all schools, increasing the number of titles available to staff and students that represent the diverse identities of the students we serve. (New Goal 2)
- 2.6 - Equity and Inclusion TOSA - The LCAP input indicated the need to refocus TOSA work on ELA, Mathematics, and Language Development. There will not be an Equity TOSA in the new school year. (ELA/Math/Language Development TOSA - New Goal 3)
- 2.7 - Student Equity Walks, Empathy Interviews, and Fishbowls - Will continue in the new LCAP. (Goal 2 Metric to determine student connectedness and belonging.)

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Welcoming and Safe Learning Environments:

Create learning environments which support the social-emotional needs of students and foster a sense of belonging and connectedness.

3.1 - Social Emotional Learning TOSA - There was an SEL TOSA during the 2023-2024 school year.

3.2 - District Behavior Support Team - There were Behavior Intervention Assistants (BIAs) at all schools. There were also members of the original District Behavior Support Team, however due to staffing shortages in other areas, members of the team were often deployed to different locations during the school year. The original intent of the team has not fully been implemented.

3.3 - SEL and Mental Health Professional Learning - While PD did occur, it was done by school counselors with no additional cost to the District.

3.4 - District Social Worker - The District Social fulfilled her roles and responsibilities, including serving as the District Homeless Liaison.

3.5 - Family Communication - Frequent communication occurred across the District using the digital platform that allows for phone calls, email, and text messaging.

3.6 - Behavior Intervention Assistants - Behavior Instructional Assistants were hired to support schools with student behavior, Positive Behavior Intervention and Support (PBIS) Systems, structured social interactions during recess and lunch, and more. LCAP input indicated that Educational Partners value the BIAs and would like to see addition positions added in the future.

3.7 - After School Enrichment - ASES and ELO-P funds provided before and after school programming, clubs, and intersession during breaks.

3.8 - Facilities, Maintenance, and Transportation - All departments fulfilled their roles and responsibilities.

3.9 - Family Education and Engagement - Multilingual Learner parents attended the CAFE Conference in Anaheim and the Mini CAFE Conference in San Diego.

3.10 - Mental Health MTSS Framework - SBUSD contracted with Effective School Solutions to co-create a District Mental Health Framework and provide staff with PD. The Framework is in its final revision and will be shared at the start of the 2024-2025 school year.

3.11 - Attendance Support - Attendance secretaries at all school sites monitor student attendance and support families with accessing ParentVue to complete annual on-line registration, while District-level staff also support on-line registration and transfer requests.

3.12 - Reach Out to Families Center - The Reach Out to Families Resource Center provided families with basic needs and resources.

3.13 - School Counselors (and Social Workers) - All schools received support from school counselors and social workers.

3.14 - School Psychologists - All schools received support from school psychologists.

3.15 - Supervision Assistants - All school received additional supervision assistant support all three years of the current LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Goal 3 - Welcoming and Safe Learning Environments:

Create learning environments which support the social-emotional needs of students and foster a sense of belonging and connectedness.

3.1 - Social Emotional Learning TOSA - The estimated actual expenditures are more due to increases in salaries and fringe benefits.

3.2 - District Behavior Support Team - The estimated actual expenditures are approximately \$260,000 higher than the budgeted expenditures. This is due to the increase in salaries and benefits as well as an increase in the number of Behavior Instructional Assistants supporting schools.

3.3 - SEL and Mental Health Professional Learning - There were no expenditures associated with this action because all PD was done by the school counselor team, provided during contract time.

3.4 - District Social Worker - The estimated actual expenditures are approximately \$20,000 more than planned due to salary increases.

3.5 - Family Communication - The cost of our web-based communication tool increased by approximately \$6,000.

3.6 - Behavior Intervention Assistants - The planned expenditures are approximately \$55,000 less than projected.

3.7 - After School Enrichment - The estimated actuals are approximately \$200,000 less. This is due to overestimating the cost of intersession programming.

3.8 - Facilities, Maintenance, and Transportation - The budgeted expenditures were approximately \$7,000,000 over the projected actual expenditures. In discussion with the fiscal services team, it is assumed that the initial projections were incorrect. However, last year the actual expenditures for this action were \$11,754,682, so it made sense that the cost of salaries and materials and supplies would be higher than the prior year.

3.9 - Family Education and Engagement - The cost to attend conferences out of the San Diego area resulted in higher expenditures than originally budgeted by approximately \$8,500.

3.10 - Mental Health MTSS Framework - The contracted work with Effective School Solutions cost approximately \$56,000 less than planned.

3.11 - Attendance Support - The difference in planned expenditures and actuals is \$22,000.

3.12 - Reach Out to Families Center - The staff at the Reach Out to Families Center provides clothing to families in need, including new items such as undergarments, shoes, and jackets. There was an increase in staff salary costs and family needs, therefore the costs were \$12,000 more than budgeted.

3.13 - School Counselors (and Social Workers) - The projected cost was approximately \$7,000 less than the projected actuals. This is a slight difference in salary projections.

3.14 - School Psychologists - The difference between the budgeted expenditures and the actual expenditures is approximately \$477,000. This is due to increases in salaries and benefits, which we underestimated.

3.15 - Supervision Assistants - The cost increased by approximately \$253,000. This is due to the additional supervision support provided to school sites to ensure student safety, especially during unstructured times.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Goal 3 - Welcoming and Safe Learning Environments:

Create learning environments which support the social-emotional needs of students and foster a sense of belonging and connectedness.

3.1 - Social Emotional Learning TOSA - While there was a SEL TOSA during the 2023-2024 school year, TOSA vacancies resulted in less staff supporting more schools. In addition, the SEL TOSA was unable to focus solely on social-emotional learning.

3.2 - District Behavior Support Team - Due to the fact that the District Behavior Team was unable to function as originally planned, this action would be considered ineffective in meeting the goal during the three-year LCAP cycle.

3.3 - SEL and Mental Health Professional Learning - Adequate professional development has not been provided over the course of the three-year LCAP due to substitute teacher shortages and focusing on doing PD during contract hours.

3.4 - District Social Worker - The District Social Worker fulfilled her roles and responsibilities, serving students and families in need.

3.5 - Family Communication - The ability to send emails and texts, in addition to the usual phone calls, definitely increased communication with families, which increased a sense of connectedness.

3.6 - Behavior Intervention Assistants - Behavior Instructional Assistants were hired to support schools with student behavior, Positive Behavior Intervention and Support (PBIS) Systems, structured social interactions during recess and lunch, and more. LCAP input indicated that Educational Partners value the BIAs and would like to see addition positions added in the future. BIAs have been effective in meeting the goal of supporting the social-emotional needs of students.

3.7 - After School Enrichment - More students have participated in expanded learning programming, tutoring, sports, clubs, and intersession than in previous years. Involvement in enrichment and extra-curricular activities promote belonging and connectedness.

3.8 - Facilities, Maintenance, and Transportation - These three departments play an essential role in creating welcoming and safe learning environments. They effectively create spaces and conditions for students to be supported.

3.9 - Family Education and Engagement - An increase in family engagement results in student belonging and connectedness. While this action has been effective for the parents who have participated in conferences, more opportunities are needed to engage more parents, families, and students.

3.10 - Mental Health MTSS Framework - The creation has not been effective in making progress towards Goal 3, but once the framework is completed and disseminated, it will have an impact on future work related to our new Goal 2.

3.11 - Attendance Support - Attendance support has increased attendance, which has effectively increased student connectedness.

3.12 - Reach Out to Families Center - The services of the ROTFC are designed to meet the basic needs of students and families, which is necessary when building connectedness to the school community.

3.13 - School Counselors (and Social Workers) - School counselors were effective in making progress toward Goal 3. So much so that educational partners indicated during the LCAP development input process that they would like to see more counselors hired in the future.

3.14 - School Psychologists - Services contribute to creating a safe learning environment and fostering a sense of belonging. In addition, school psychologists provide counseling for students as needed.

3.15 - Supervision Assistants - Highly effective in helping to create safe environments, especially during unstructured time.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 3 - Welcoming and Safe Learning Environments:

Create learning environments which support the social-emotional needs of students and foster a sense of belonging and connectedness.

3.1 - Social Emotional Learning TOSA - For the 2024-2025 school year we will have five TOSAs who will be assigned to two (2) school sites each, focused on ELA, Math, and Language Development. These were the content areas identified in greatest need during the LCAP input process and subsequent LCAP surveys. During the 2024-2025 school year District leadership will explore options for a position that supports both professional development and direct support to students. (New Goal 3)

3.2 - District Behavior Support Team & 3.6 - Behavior Intervention Assistants - These actions will be combined in the 2024-2027 LCAP. (New Goal 2)

3.3 - SEL and Mental Health Professional Learning & 3.10 - Mental Health MTSS Framework - Professional development will be planning during the new school year, however, the contract with Effective School Solutions will be complete.

3.4 - District Social Worker - The work of the District Social Worker will continue in the new school year. (New Goal 2)

3.5 - Family Communication - To ensure communication with all educational partners via the District website, digital newsletters, emails, texts, and phone calls, the District will continue with a yearly subscription to a communication tool. The communication tool (currently Blackboard Connect) will be identified in the new LCAP. (New Goal 1)

3.7 - After School Enrichment - SBUSD is allocated both After School Education and Safety (ASES) and Expanded Learning Opportunities Program (ELO-P) funding to provide engaging and enriching before and after school programming, as well as intersession during fall, winter, spring, and summer breaks. Programming includes clubs, sports, after school tutoring and more. Programming will continue in the 2024-2025 school year. (New Goal 2)

3.8 - Facilities, Maintenance, Transportation & 3.15 - Supervision Assistants - These actions will be combined with other basic services in the 2024-2027 LCAP. Basic services that contribute to an effective organizational system designed to meet the needs of all educational partners. These services ensure the daily functions of the District and school sites, including facility upkeep, general maintenance, transportation, child nutrition, clerical support, school offices, supervision assistants, department offices, district leadership roles, and Board of Trustees. (New Goal 1)

3.9 - Family Education and Engagement - There will be District and school site level opportunities for Educational Partners to collaborate with and hold leadership roles on committees, focus groups, and task forces. (New Goal 1)

3.11 - Attendance Support - All schools will receive the following support in the 2024-2027 school year: A fulltime Attendance Secretary who will monitor attendance and hold School Attendance Review Team (SART) meetings, make phone calls and conduct home visits. Particular attention will be given to students experiencing housing insecurities, foster youth and students identified as low income; A District-level Pupil Enrollment and Attendance Accounting Technician who provides enrollment and transfer data, supports parents to complete on-line enrollment, monitors class sizes to ensure that teacher-to-student ratios are maintained; The Attention2Attendance (A2A) on-line platform to monitor attendance, create reports, email SART and SARB letters to parents, send positive attendance messaging, identify low attendance day trends, and identify students on the cusp of being chronically absent. (New Goal 2)

3.12 - Reach Out to Families Center & 3.13 - School Counselors (and Social Workers) - Both actions will continue. (New Goal 2)

3.14 - School Psychologists - The District will maintain school psychologists in the future LCAP, (New Goal 3)

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
South Bay Union School District	Pamela Reichert-Montiel Assistant Superintendent, Educational Leadership	preichert-montiel@sbusd.org 619-628-1609

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The following description of the South Bay Union School District is from data collected on May 1, 2024, via our local student information system. We used this data versus CALPADS data collected earlier in the school year to ensure the most accurate representation of the District and students we serve.

South Bay Union School District (SBUSD) serves approximately 6,027 students in Preschool through grade 8. Our schools are geographically located in South San Diego County, approximately three to five miles from the Mexico border. The enrollment of students in Transitional Kindergarten through eighth grade is approximately 5,651. The District consists of one Preschool, nine TK/K-6 campuses, and two TK-8 District dependent charter schools. The enrollment at VIP Village Preschool of approximately 376 students includes both three- and four-year-olds who are not old enough for Transitional Kindergarten (TK). In addition, during the 2023-2024 school year there were approximately 67 students enrolled in the Virtual Academy, housed on the Bayside STEAM Academy campus. A decline in Virtual Academy enrollment has resulted in its closure for the 2024-2025 school year.

The following demographic data is for the enrollment of the 3801 students in our non-charter TK-6 grade schools. Our charter school demographics can be found in the site specific 2024-2027 Local Control and Accountability Plans for Nestor Language Academy Charter and Imperial Beach Charter School.

68% of the student body is considered socioeconomically disadvantaged, while 48% are Multilingual Learners, and 87% of students in the District are Hispanic/Latino. SBUSD has an unduplicated count of 80%.

18% of the students enrolled in the nine (9) non-charter school are identified as Students with Disabilities. This represents 688 students out of 3801.

One of the greatest challenges SBUSD currently faces is declining enrollment. Since 2011, enrollment has declined by approximately 40%, resulting in smaller schools with less classes and in some cases more combination classrooms. The projected decline is 46% by the 2025-

2026 school year. A Superintendent's Advisory Committee (SAC) was created to explore options related to school consolidation, specialized programs, and strategies to prevent further declining enrollment. Recommendations will be made to the Board of Trustees, with possible changes in the 2025-2026 school year.

In December 2023 the Board of Trustees adopted a Vision, Mission, and Values for SBUSD. They served as the foundation of the new 2024-2027 Local Control and Accountability Plan (LCAP).

Mission - South Bay Union School District, in partnership with our community, educates and empowers students to develop a love of learning by providing safe, equitable environments that celebrate diversity and affirm language, culture, and identity by promoting excellence, social responsibility and well-being.

Vision - South Bay Union School District is the foundation for the community in which students grow academically and socially into responsible members of society.

Values -
Academic Achievement
Child Centered
Community
Equity
High Expectations
Leadership
Safety

Please note that the terms English Learner (EL) and Multilingual Learner (MLL) can be used interchangeably. While it is preferred to use assets-based language that values the many languages spoken by our educational partners, English Learners (EL) is the terminology used for the CA Dashboard and for Federal accountability requirements.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

South Bay Union School District is engaged in a continuous cycle of improvement that we refer to as Reflect, Redefine, and Rebuild (R3). Both Dashboard and local data is not where we want it to be and we are dedicated to reflecting on our practices, redefining what we want for the students we serve and our definition of student success, and to rebuild our structures, systems and programs to ensure that they meet the needs of the educational partners we serve. Throughout these cycles we aim to create and maintain equitable, welcoming, and safe learning environments that value diversity, language, individual culture, identity, and the contributions of all educational partners. We also believe that we must build the capacity and efficacy of all through professional development, differentiated support, and leadership opportunities.

For ALL schools, including the two dependent charters, IBCS and Nestor, the 2023 Dashboard data is as follows.

The overall percent of 3-8 grade students meeting or exceeding standard for English Language Arts on the Spring 2023 CAASPP: 30.17%

By student groups:

English Learners: 11.34% of students meeting or exceeding standard

Hispanic: 27.55% of students meeting or exceeding standard

Socioeconomically Disadvantaged: 26.04% of students meeting or exceeding standard

Students with Disabilities: 10.43% of students meeting or exceeding standard

Homeless Students: 16.08% of students meeting or exceeding standard

Foster Youth: No data to report - fewer than 11 students

The overall Percent of 3-8 grade students meeting or exceeding standard for Mathematics on the Spring 2023 CAASPP: 21.71%

By student Groups:

English Learners: 9.96% of students meeting or exceeding standard

Hispanic: 19.51% of students meeting or exceeding standard

Socioeconomically Disadvantaged: 17.07% of students meeting or exceeding standard

Students with Disabilities: 8.18% of students meeting or exceeding standard

Homeless Students: 16.90% of students meeting or exceeding standard

Foster Youth: No data to report - fewer than 11 students

When we analyze the data excluding the dependent charters, the percent of students meeting or exceeding standards decreases for both ELA and Math.

25.14% of all 3-8 grade students met or exceeded standard for English Language Arts and 16.48% of all 3-8 grade students met or exceeded standard for Mathematics.

The 2023 Dashboard identified the student groups performing in the RED by school site. For the purpose of the SBUSD LCAP, only the non-charters will be addressed. Imperial Beach Charter School (IBCS) and Nestor Language Academy Charter will identify specific actions in their LEA plans. The SBUSD District-level student groups identified in RED were English Learner (ELA) and African American students (Math). The following schools within SBUSD indicated student groups in RED.

- Bayside STEAM Academy - Multilingual Learners (ELA) & Students with Disabilities (Math)
- Godfrey Berry - Students with Disabilities (ELA)
- Central Elementary - Multilingual Learners (ELA) & Socioeconomically Disadvantaged (ELA)
- Emory Academy - Multilingual Learners (ELA) & Students with Disabilities (Math)
- Teofilo Mendoza - The performance indicator for Chronic Absenteeism indicates an overall RED status for Mendoza Elementary with the following three student groups - Multilingual Learners (Chronic Absenteeism), Hispanic (Chronic Absenteeism), Socioeconomically

Disadvantaged (Chronic Absenteeism)

- George Nicoloff - Overall School in Math with the following four student groups - Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math)
- Oneonta Elementary - Multilingual Learners (ELA), Multilingual Learners (English Learner Progress Indicator). The performance indicator for English Learner progress indicates an overall RED status for Oneonta School.
- Howard Pence - Overall School in ELA with the following four student groups - Multilingual Learners (ELA), Hispanic Students (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA), & Overall School in Math with the following four student

groups - Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math)

- Sunnyslope Elementary - Multilingual Learners (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA) & Students with Disabilities (Math)

The results for the SBUSD Virtual Academy are not included due to its closure for the 2024-2025 school year.

The 2022-2023 ELPAC Summative Data identifies the following percent of students within each achievement level:

- 11.37% of students performing at Level 4
- 31.54% of students performing at Level 3
- 31.66% of students performing at Level 2
- 25.44% of students performing at Level 1

On the 2023 Dashboard English Learner Progress Indicator (ELPI) 46.6% of the 1,570 English Learners tested are making progress towards English language proficiency.

Local data results have been inconsistent as we have moved to implement IABs in grades 3-8, and to identify common assessments for high frequency words and writing in grades K-2. We have also piloted digital diagnostic assessments in English and Spanish Language Arts and Mathematics. A decision was made to move forward with iReady for the 2024-2025 school year. This decision has resulted in the elimination of several digital platforms and discontinuing the use of previous local assessments. For the 2024-2025 school year all grade levels will use iReady three times a year to assess student progress towards grade level standards, to guide instructional decisions, to differentiate instruction, and identify students in need of additional support. In addition, Dual Language Immersion (DLI) teachers will pilot Spanish diagnostic reading assessments to adequately measure the development of Spanish.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

The SBUSD Virtual Academy (VA) was identified as eligible for comprehensive support and improvement, however, the Board of Trustees voted on March 7, 2024, to close the VA Program. The closure was recommended due to low enrollment and declining interest for the 2024-2025 school year. The majority of the students currently enrolled in the VA have registered at their schools of residence for the new school year. The school will be officially closed by the CDE on June 30, 2024. Due to its closing for the 2024-2025 school SBUSD Virtual Academy has declined funding for the Comprehensive Support and Improvement Local Educational Agency Subgrant.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers Principals Administrators Other school personnel District bargaining units Parents	<p>To ensure consistency District-wide, District staff developed an input protocol for all educational partners. The in-person protocol for the winter/spring 2024 input included a reflection tool to address the following prompts:</p> <ol style="list-style-type: none"> 1. Do our goals directly align with our newly adopted Mission, Vision, and Values? (provide evidence) 2. Do our goals and actions reflect our hopes for all educational partners (certificated, classified, parents, community, etc.)? Who are we missing? (provide evidence) 3. Are there goals you would recommend to be added, deleted, or changed? (provide suggested wording for goal) 4. Are there any action steps that you would recommend to be added, deleted, or changed? (provide suggested wording with goal and action step (ex: 1.10)) 5. What do you believe our primary focus should be for the 2024-2025 school year?

Students	Empathy interviews and student fishbowls
The South County SELPA	Reviewed the special education study conducted by School Services of California and its alignment to LCAP goals and actions.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Prior to the LCAP development process, educational partners provided input into the development of the District Vision, Missions, and Values. This process began in the beginning of the fall of 2023 when the Board of Trustees drafted their initial thinking. SBUSD had been without a Vision, Mission, and Values for several years, as a result of the focus being placed predominantly on the Local Control and Accountability Plan. After the finalized document was approved in December 2023, the newly adopted Vision, Mission, and Values, became

the foundation for the new LCAP.

Educational partner engagement and input was critical in the development of the 2024-2027 LCAP. Multiple opportunities for educational partner input resulted in rich data that directly influenced the goals and actions outlined in this document.

Goal Development -

The LCAP input process and subsequent surveys provided opportunities for educational partners to provide input into the following:

1. Do our goals directly align with our newly adopted Mission, Vision, and Values? (provide evidence)
2. Do our goals and actions reflect our hopes for all educational partners (certificated, classified, parents, community, etc.)? Who are we missing? (provide evidence)
3. Are there goals you would recommend to be added, deleted, or changed? (provide suggested wording for goal)

The input received directly influenced the identification of the new LCAP goals.

After the initial input (responses to the protocol prompts, surveys, etc.) was analyzed, two goals were presented to the Board of Trustees on April 11, 2024.

Proposed New Goal 1: District and School Climate, Culture, and Connectedness

We will engage in continuous improvement cycles in which we as a collective system reflect, redefine, and rebuild our programs and services to meet the needs of the educational partners we serve. Throughout these processes we will create and maintain equitable, welcoming, and safe learning environments that value diversity, language, individual culture, identity, and the contributions of all educational partners that build the capacity and efficacy of all through professional development, differentiated support, and leadership opportunities.

Proposed New Goal 2: Academic Excellence for All Students

All students will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Mathematics, and Multilingual Learners (MLs) will demonstrate progress in developing English language proficiency.

Following the Board presentation, the LCAP Advisory Committee met on April 29, 2024, recommending that goal 2 be simplified. Throughout the process, educational partners suggested that basic services be identified in a separate goal, something that did not occur in the 2021-2024 LCAP. Therefore, as a result the following three goals were presented to the Board of Trustees on May 2, 2024. Possible action categories were identified to demonstrate how they would connect to the new goals.

Proposed New Goal 1: Effective Organizational Systems

We believe that all educational partners play an integral role in contributing to and living out the District Vision, Mission, and Values. It is only through a collective effort that we will be successful in creating a highly effective and successful organization.

Possible Action Categories:

- Team Building opportunities
- Community partnerships
- Committees
- Reflect, Redefine, Rebuild - Cycle of Continuous Improvement
- Basic services related to transportation, child nutrition, facilities, etc.

Proposed New Goal 2: District and School Climate, Culture, and Connectedness

We will create and maintain equitable, welcoming, and safe learning environments that value diversity, language, individual culture, identity, interests, and the contributions of all educational partners, while also building the capacity and efficacy of all.

Possible Action Categories -

- Professional development for all educational partners
- Developing the whole child
- Social-emotional development and support
- Special programs
- MTSS Related to SEL

Proposed New Goal 3: Academic Excellence for All Students

All students will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA) and Mathematics, and Multilingual Learners (MLs) will demonstrate progress in developing English language proficiency.

- Possible Action Categories -
- Core instructional resources
- Supplemental instructional resources
- Intervention
- Support staff
- MTSS related to academics
- Assessments
- Content specific professional development

Action/s Development -

The LCAP input process and subsequent surveys provided opportunities for educational partners to provide their insights into the following:

1. Are there any action steps that you would recommend to be added, deleted, or changed? (provide suggested wording with goal and action

step (ex: 1.10))

2. What do you believe our primary focus should be for the 2024-2025 school year?
3. Suggestions on how to best support Multilingual Learners
4. Suggestions for increasing parent engagement
5. Suggestions for improving student attendance
6. Identifying interest in specialty programs - naming them specifically

The top priorities identified by all educational partners via the in-person LCAP input protocol were the following:

- New Curriculum (ELA, ELD, Math)
- MTSS/SST/Intervention
- Newcomer programs/support
- Counselors
- Reduce class size
- Community partnerships
- Family engagement
- School safety
- Parent education
- Professional development
- Learning Acceleration Tutors
- Behavior Intervention Assistants
- Academic Tutoring

The top priorities identified by school-site level staff only via the in-person LCAP input protocol were the following:

- New Curriculum (ELA, ELD, Math)
- MTSS/SST/Intervention
- Newcomer programs/support
- Additional Counselors
- Reduce class size
- Community partnerships
- Family engagement
- School safety
- Parent education
- Professional development for all staff
- Learning Acceleration Tutors
- Behavior Intervention Assistants
- Eliminate combination classrooms

The top priorities identified by EL Parent Committees (ELAC, DELAC) via the in-person LCAP input protocol were the following:

- Newcomer Programs/support
- MTSS/SST/Intervention
- Parent education
- Professional development for all staff
- Reduce class size
- Academic tutoring
- Community partnerships
- Parent-Teacher communication
- Music and other specialty programs

The top priorities identified by all educational partners via the LCAP input survey related to support for Multilingual learners were the following:

- Newcomer programs
- Dual Language Immersion (DLI)
- Practice with English models
- Resources in English & Spanish
- Family Engagement
- ELD resources
- High Expectations
- Support

The top priorities identified by all educational partners via the LCAP input survey related to suggestions for increasing parent engagement were the following:

- Communication
- Parent education/workshops
- Volunteer opportunities
- Fun family events
- Incentives/prizes

The top priorities identified by all educational partners via the LCAP input survey related to suggestions for improving student attendance were the following:

- Incentives & recognition
- Family outreach
- Engaging lessons, events, assemblies, activities
- Parent accountability
- Welcoming environment

Student empathy interviews were also done with students experiencing chronic absenteeism to get their perspectives on school attendance and the barriers they face.

In addition, there was overwhelming support for specialty programs in the areas of Visual Performing Arts (VPA), Music, and STEM.

Actions that were developed based specifically on the input identified above include, but are not limited to, the following:

Goal 1 - Actions - 1.5

Goal 2 - Actions - 2.1, 2.2, 2.3, 2.4

Goal 3 - Actions - 3.1, 3.2, 3.3, 3.4, 3.6

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	<p>Effective Organizational Systems</p> <p>All educational partners play an integral role in contributing to and living out the District Vision, Mission, and Values. It is only through a collective effort that we will be successful in creating a highly effective and successful organization.</p>	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 3: Parental Involvement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>

An explanation of why the LEA has developed this goal.

<p>In December 2023 the SBUSD Board of Trustees approved a new vision and mission and identified values that they felt represented the priorities of the District. The approved vision, mission, and values were based on the input of educational stakeholders and serve as the foundation of the 2024-2027 Local Control and Accountability Plan (LCAP). During the LCAP input process, Educational Partners indicated the need for community partnerships, parent engagement, and increased communication. In addition, we have been engaged in cycles of continuous improvement that we refer to as R3 - Reflect, Redefine, and Rebuild. It is imperative that we create an organizational system where we reflect on our practices, define what success looks like, and rebuild to meet the needs of all educational partners, most importantly to ensure the academic and social-emotional success of our students.</p>

It does not include supplemental staff such for intervention, counseling, etc. (Metric 1.2)</p> <p>*LCFF Base</p>	\$31,122,969.00	No
1.3	Digital Safety and Infrastructure	<p>Maintain digital and network safety for the organization and all users. This requires the appropriate hardware, software, and personnel at both the District and site level. It also requires timely response to repairs and any risks to the system. Expenditures under this action include:</p> <ul style="list-style-type: none"> Hardware Software Tech Department Personnel Instructional Media Resource Technicians (IMRTs) Synergy Student Information System (SIS) PeopleSoft & iVisions <p>This action will be measured by the metrics identified in Metric 1.7.</p> <p>*LCFF Base</p>	\$1,535,109.00	No
1.4	Communication and Connectivity Resources	<p>Ensure communication with all educational partners via the District website, digital newsletters, emails, texts, and phone calls, which includes a yearly subscription to a communication tool.</p> <p>The communication tool (currently Blackboard Connect) is funded using LCFF Base.</p>	\$969,734.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>Ensure access to connectivity resources for students and families such as hot spots and partnerships with local Wi-Fi providers. This is a resource particularly extended to students experiencing housing insecurity and or living in shared housing.</p> <p>Title I funds have been set aside for this expenditure.</p>		
1.5	Educational Partner Engagement	<p>There will be District and school site level opportunities for Educational Partners to collaborate with and hold leadership roles on committees, focus groups, and task forces. Currently these opportunities include but are not limited:</p> <p>District-level: Local Control and Accountability Plan (LCAP) Advisory Committee Superintendent's Advisory Committee (SAC) District English Learner Committee (DELAC) South County Special Education Local Planning Area (SELPA) Community Advisory Committee (CAC) Diversity, Equity, Inclusion, and Belonging (DEIB) Committee Multilingual Learner Committee SBUSD PTA Council Community School Steering Committee Wellness Committee Special Education Working Together Committee Consultation Committee</p> <p>Site-level: School Site Council (SSC) English Learners Advisory Committee (ELAC) Parent Teacher Association (PTA) Positive Behavior Intervention and Support System (PBIS) Committee Community School Steering Committee</p> <p>This is not exhaustive list of opportunities; however, it does reflect the majority of current and anticipated structures. Committees and focus</p>	\$889,227.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>groups will continue to be created as needed throughout the three-year LCAP.</p> <p>There are limited costs associated with this work which are related to out of contract pay, release time, print materials, and in some cases refreshments. Resources typically used for this action include LCFF Base, Title I, and Title III funds.</p> <p>Metric 1.3 will measure parent participation in the LCAP Advisory Committee, the District English Learner Advisory Committee (DELAC), the Superintendent's Advisory Committee (SAC) and the South County Special Education Local Planning Area (SELPA) Community Advisory Committee (CAC).</p> <p>SBUSD will continue to stress the importance of parent participation in these committees.</p>		
1.6	Cycles of Continuous Improvement	<p>We have been engaged in cycles of continuous improvement that we refer to as R3 - Reflect, Redefine, and Rebuild. It is imperative that we create an organizational system where we reflect on our practices, define what success looks like, and rebuild to meet the needs of all educational partners, most importantly to ensure the academic and social-emotional success of our students. We will integrate the R3 process into all aspects of District work.</p> <p>There is no metric to this specific action, nor projected cost. It is a structure that will be used that includes the use of data to drive decisions.</p>		No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	<p>Goal 2: District and School Climate, Culture, and Connectedness</p> <p>We will create and maintain equitable, welcoming, and safe learning environments that value diversity, language, individual culture, identity, interests, and the contributions of all educational partners, while also building the capacity and efficacy of all.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

Goal 2 encompasses several actions that are designed to improve school climate and culture, as well as create an environment in which parents, students, and staff experience a sense of connectedness. Local climate survey data indicate that 70% of students in grades 3-6 feel connected at school, which decreases to 52% for middle school students in 7th and 8th grades. That still means at least 30% of 3-6 grade students do not feel connected, and that percent jumps to 48% for middle schoolers.

Student attendance is one way to measure school connectedness. Unfortunately, the chronic absenteeism rates at the end of the 2022-2023 school year were:

- Overall: 35.7% chronically absent
- English Learners 36.8%
- Socioeconomically Disadvantaged 38%
- Students with Disabilities 42.2%
- Homeless Students 42.6%
- Foster Youth 22.6%

March 2024 90% of parents who completed the LCAP survey indicated that they wished there were specialized programs for students, primarily visual and performing arts, music, and STEM.

During the district’s educational partner input process, there was strong support for the work of counselors and social workers at school sites in order to provide social and emotional support for students. To ensure that students grow academically and socially, the culture and climate

of schools must be conducive to learning and promote a sense of connection and belonging. In addition, educational partner input demonstrated a desire to explore special programs that are aligned to student interests and develop the whole child. There was also a strong opinion that instructional programs need to be engaging and motivating to our students.

When the California Healthy Kids Survey (CHKS) was administered in March 2024, 3rd-6th grade students' belief that there are social and emotional learning supports at school declined over the past three years from 80% to 70%.

Only 32% of staff believe there are social and emotional learning supports, while 90% of parents believe teachers are responsive to their child's social and emotional needs. School Counselors and Social Workers were added to the LCAP in the 2022-2023 school year. It is concerning that while social-emotional learning support has increased, educational partners perception of the support has not. Either additional services are still needed, or the District-level team needs to improve its communication and implementation of the existing supports.

Parent participation in school advisory committees is not consistent. Parents will volunteer to serve, but often are unable to attend meetings. It is imperative that we hear from all educational partners and must explore all suggestions for increasing participation.

On the LCAP Input Survey Educational partners suggested the following strategies for increasing parent engagement:

- Communication
- Parent education/workshops
- Volunteer opportunities
- Fun family events
- Incentives/prizes

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Development of the Whole Child Through Specialized Programs	<p>District support of Visual and Performing Arts (VAPA) and Science, Technology, Engineering, and Math (STEM) instruction includes the following:</p> <ol style="list-style-type: none"> VAPA/STEAM teachers assigned to all schools to provide one-hour of weekly instruction. This action is District-wide to ensure all students receive engaging, well-rounded learning experiences, especially historically underrepresented students such as multilingual learners, socio-economically disadvantaged students, students experiencing housing insecurities, foster youth, and students with disabilities. <p>LCFF S/C - Without supplemental and concentration funds, the District would not be able to provide these experiences.</p>	\$657,165.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>2. Music teacher at Teofilo Mendoza Elementary School and VPA instructional assistant.</p> <p>Funded with LCFF Base funds and other discretionary block grant funds (Arts & Music).</p>		
2.2	Social-Emotional Supports	<p>Social-emotional supports are provided to students at both the District and school site level. A lack of awareness of these supports and/or belief that additional supports are needed is evident in both the LCAP educational partner input and the CHKS data identified in Metric 2.6.</p> <p>Supports include:</p> <p>1. School counselors at all school sites, with additional time allocated to the two charters with middle school students. While all students have access to these supports, they are intended to particularly support students who have or are experiencing trauma related to housing insecurities, being in the foster care system, and/or poverty (low income).</p> <p>2. School Social Workers (3) assigned to support multiple sites. Social workers provide support and access to resources for families experiencing housing insecurities, students in foster care, and those experiencing the adverse effects of poverty (low income). In addition, they provide intervention when students are identified as chronically absent, making phone calls, doing home visits, parent education, and more. In the 2023-2024 school year, 35.7% of our student population was chronically absent (Metric 2.1).</p> <p>LCFF S/C - Without supplemental and concentration funds, the District would not be able to provide these supports.</p> <p>3. A District Social Worker works out of the Student Services department to provide additional support to foster youth and students experiencing housing insecurities. This position serves as the official homeless liaison, working directly with the SDCOE, the CDE, and Department of Child Welfare Services (CWS).</p>	\$821,457.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>This position is funded 100% with Title I funds.</p> <p>Staff will collect street data in how to best support students and families. This practice is reflected in Metric 2.9.</p>		
2.3	District-level Social-Emotional Learning Support Staff	<p>The Educational Leadership Division, divided into four departments: Educational Services; Equity, Multilingual Learners, and Innovation; Student Services; and Technology are designed to support both the academic and social-emotional needs of all students, but particularly multilingual learners, foster youth, students identified as low-income, and students with disabilities. In addition to supporting staff and students, these departments ensure that all legal requirements are being met and all federal guidelines or other funding criteria are being met. The role of each department is two-fold; support, and accountability.</p> <p>Below is a list of the department personnel who predominantly support the actions identified in Goal 2. There are additional staff assigned to support actions identified in Goal 3.</p> <p>Director of Educational Services - Costs identified in Goal 3 Director of Equity, Multilingual Learners, and Innovation - Costs identified in Goal 3 Director of Student Services - Costs identified in Goal 3 Director of Technology - Costs identified in Goal 1</p> <p>Costs related to Goal 2, Action 3: Coordinator of Multitiered Systems of Support - 0641, 2600, 6266 District-level School Psychologist/BCBA -3010, 6500 Behavior Intervention Assistants - The Learning Recovery Emergency Block Grant</p> <p>In addition to the services and supports provided, this action includes professional development for all educational partners related to social-emotional learning. Professional development will be funded by Title I.</p>	\$808,721.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>The effectiveness of this action will be determined by Metrics 2.2, 2.6 & 2.7.</p>		
2.4	School Connectedness	<p>Student and family connectedness, engagement, and education were all highly valued in the LCAP input process. Specific staff have been identified to ensure parent and family engagement is schools. They include:</p> <p>Coordinator of Family Engagement and Support - 3010, 6331 Community Activities Coordinator - 0980 Family Engagement & Support Liaisons - 0980</p> <p>The Coordinator of Family Engagement and Support and the Community Activities Coordinator jointly oversee the Reach Out to Families Center (ROTFC) located on the north side of the Central Elementary School campus. The ROTFC serves as a centrally located hub of resources and services to the community including parent education, a clothing room, housing information, access to washers and dryers, health and human services, medical referrals, and more.</p> <p>Family Engagement & Support Liaisons are assigned to support two school sites in order to coordinate and publicize a variety of parent involvement activities and educational opportunities to foster positive parent, school, and student relationships.</p> <p>It is the goal of the three positions above to increase and improve services for all students, but particularly for unduplicated students.</p> <p>Metric 2.2 will be used to measure the effectiveness of these supports. Metric 2.9 will be used to inform our work as street data around connectedness will be collected. The following question will be asked during street data collection - "What would you like to see or feel in our school to make you want to be here?"</p> <p>Metric 2.10 will measure middle school dropout rates, which should continue to be zero if students are feeling connected to their schools.</p>	\$328,583.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.5	Improved Student Attendance	<p>In the 2022-2023 school year over a third (35.7%) of the students enrolled in SBUSD were identified as chronically absent. Unfortunately, the percentage was even higher for our multilingual learners, socioeconomically disadvantaged students, students with disabilities, and students experiencing housing insecurities.</p> <p>English Learners 36.8% Socioeconomically Disadvantaged 38% Students with Disabilities 42.2% Homeless Students 42.6% Foster Youth 22.6%</p> <p>All schools receive the following support:</p> <ol style="list-style-type: none"> 1. A fulltime Attendance Secretary who will monitor attendance and hold School Attendance Review Team (SART) meetings, make phone calls and conduct home visits. Particular attention will be given to students experiencing housing insecurities, foster youth and students identified as low income. 2. A District-level Pupil Enrollment and Attendance Accounting Technician who provides enrollment and transfer data, supports parents to complete on-line enrollment, monitors class sizes to ensure that teacher-to-student ratios are maintained. 3. The Attention2Attendance (A2A) on-line platform to monitor attendance, create reports, email SART and SARB letters to parents, send positive attendance messaging, identify low attendance day trends, and identify students on the cusp of being chronically absent. <p>At Teofilo Mendoza School the following student groups were identified in RED on the 2023 California Dashboard:</p> <ul style="list-style-type: none"> • Multilingual Learners • Hispanic • Socioeconomically Disadvantaged <p>This action will include the cost of Mendoza to participate in the SDCOE Improving Chronic Absence Network (ICAN). In addition, Berry and Nicoloff Schools will participate with Mendoza in ICAN.</p>	\$328,583.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>The effectiveness of these supports and services will be measured by Metric 2.1, 2.10, 2.11, and 2.12</p> <p>Without the use of LCFF Supplemental & Concentration funds, these services would not be possible.</p>		
2.6	Expanded Learning Opportunities	<p>SBUSD is allocated both After School Education and Safety (ASES) and Expanded Learning Opportunities Program (ELO-P) funding to provide engaging and enriching before and after school programming, as well as programming on 30 non-school days for no less than 9 hours per day (with 3 days being offered for professional development for program staff). The programming includes: before/after school, sports, clubs and tutoring.</p> <p>SBUSD adheres to the ELO-P funding requirements of inviting all unduplicated students to participate. The ELO-P team receives support and oversight by the Director of Educational Services. The team includes: Extending Learning Coordinator Extended Learning Athletics and Club Supervisor Extended Learning Administrative Secretary Extended Learning Program Office Assistant</p> <p>All schools provide before and after school programming, while schools are clustered together during non-school day programming.</p> <p>While ASES and ELO-P services are both designed to benefit unduplicated students, they do not require the use of LCFF Supplemental and Concentrated funding. This action however is considered contributing as it increases services for students.</p>	\$8,598,330.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	<p>Goal 3: Academic Excellence for All Students</p> <p>All students will demonstrate growth towards meeting or exceeding standards in English Language Arts (ELA), English Language Development (ELD) and Mathematics, and Multilingual Learners (MLs) will demonstrate progress in developing English language proficiency.</p>	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal was developed in response to the needs identified through data analysis and input from educational partners.

The analysis of 2023 California School Dashboard (Dashboard) data indicated a clear need to continue supporting English Language Arts (ELA) and English language development (ELD). For example:

30.17% of all students in grades 3–8 met or exceeded standard in English Language Arts on the Smarter Balanced assessments. The following percentage of each student group met or exceeded standards on the 2022-2023 assessment.

- English Learners: 11.34%
- Hispanic: 27.55%
- Socioeconomically Disadvantaged: 26.04%
- Students with Disabilities: 10.43%
- Homeless Students: 16.08%

No data was reported for foster youth as there were fewer than 11 students tested.

21.17% of all students in grades 3–8 met or exceeded standard in Mathematics on the Smarter Balanced assessments. The following percentage of each student group met or exceeded standards on the 2022-2023 assessment.

English Learners: 9.96%
Hispanic: 19.51%
Socioeconomically Disadvantaged: 17.07%
Students with Disabilities: 8.18%
Homeless Students: 16.90%
No data was reported for foster youth as there were fewer than 11 students tested.

The SBUSD District-level student groups identified in RED were English Learner (ELA) and African American students (Math). In addition, data from the California Dashboard has identified the following student groups in RED for academics at the following school sites:

Bayside STEAM Academy - Multilingual Learners (ELA) & Students with Disabilities (Math)
Godfrey Berry - Students with Disabilities (ELA)
Central Elementary - Multilingual Learners (ELA) & Socioeconomically Disadvantaged (ELA)
Emory Academy - Multilingual Learners (ELA) & Students with Disabilities (Math)
George Nicoloff - Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math)
Oneonta Elementary - Multilingual Learners (ELA)
Howard Pence - Multilingual Learners (ELA), Hispanic Students (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA), Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math)
Sunnyslope Elementary - Multilingual Learners (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA) & Students with Disabilities (Math)

Our Multilingual learners are not achieving where we would like to be, both on the CAASPP and on the ELPAC. For the 2022-2023 ELPAC Summative Data, below is the percent of students within each achievement level:

11.37% of students performing at Level 4
31.54% of students performing at Level 3
31.66% of students performing at Level 2
25.44% of students performing at Level 1

Yet on the Dashboard English Learner Progress Indicator (ELPI), 46.6% of the 1,570 English learners tested are making progress towards English language proficiency. This is an increase of 4.2%, resulting in "green" status.

Oneonta Elementary was the one District school in which Multilingual Learners were identified in RED on the English Learner Progress Indicator.

This goal is also aligned to work currently being done in developing an ELA Scope and Sequence at each grade to ensure adequate coverage of grade level standards throughout the school year. A Mathematics Scope and Sequence will be next in preparation of the new textbook adoption in the 2025-2026 school year.

Multilingual Learners make up approximately 50% of the District's enrollment. During the LCAP development input process the following priorities were identified for students developing English language proficiency:

Resources in English & Spanish; Practice with English models; Family Engagement; ELD resources; High Expectations; and Intervention Support. An additional priority included professional development in highly effective instructional strategies for Multilingual learners. SBUSD has 184 Long Term English Learners (LTELS), ELs who have been in U.S. schools for six or more years without reaching nor progressing in the levels of English proficiency to be reclassified. Including the two Dependent Charters, that number increases to 311.

Research on LTELS reveals that they share certain experiences that may contribute to their prolonged EL status, including:

- Variability in the quality and approach to their education in the elementary grades,
- Lack of adequate English language development (ELD) instruction,
- Teachers who have not had the preparation to address their needs (which in turn results in lack of access to appropriate grade-level content and curricula), and
- An undiagnosed or unaddressed learning disability.

Among research-supported strategies to improve outcomes for these students are infusing high-quality language instruction across the curriculum (integrated ELD), specific ELD instruction (designated ELD), dual language programs, instruction that ensures access to a rigorous curriculum, mentorship, a culturally relevant and inclusive curriculum that contributes to motivation and engagement, and clustering LTEL students in heterogeneous and rigorous grade-level content classes with English proficient students taught using strategies designed to make content accessible.

Additional strategies that contribute to ongoing success for younger ELs include dual language immersion and other bilingual programs, ensuring appropriately rigorous content from the beginning (not waiting for students to gain English language proficiency before introducing complex topics), and building students’ background knowledge to increase their understanding.

It is important to note a tension in the field of research and practice between the potential harm of labeling students as LTELS, for example possibly leading to lower teacher expectations and student self-efficacy beliefs—and the necessity of identifying the issue of long-term EL status in order to remedy a failure of the education system and improve outcomes for these students.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Student Achievement: California School Dashboard ELA Indicator	2022-2023 ELA CAASPP Results - Overall Percent of Students meeting or exceeding standard: 30.17%			2025-2026 ELA CAASPP Results - Overall Percent of Students meeting or exceeding standard: 45%

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Standards Based Instruction	<p>During the 2023-2024 school year the District, in collaboration with educational partners identified the need to strengthen the instructional program in English Language Arts and Mathematics. Supplemental resources are currently being identified to support standards-based instruction as we are between ELA and Math adoptions.</p> <p>The success of this action will be measured by student achievement identified in Metrics 3.1, 3.2 & 3.8, as we believe as we focus on grade level standards and use standards aligned resources, we will see an</p>	\$830,399.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>increase in the percent of students meeting or exceeding grade level standards.</p> <p>Resources identified to supplement the current core curriculum include:</p> <p>Heggerty Phonemic Awareness: Manual & video subscription for all K-2 teachers (\$20,000) UFLI for phonics: Teacher manual and professional development for all K-3 teachers (\$180,000) Developing decoders: 1 Kit per grade level for K-2 at each school (\$140,000) Cursive (\$32,000)</p> <p>Decisions are still being made regarding materials to support Mathematics and comprehension standards at all grade levels.</p> <p>Any supplemental resources for ELA/ELD/Math will be added to the standards-based scope and sequence currently being developed for each grade level.</p> <p>Funds identified to support this action include: Core curriculum adoptions - LCFF Base Supplemental resources - LCFF Base, Title I, Title III, and Lottery 6300</p>		
3.2	Academic Intervention	<p>Learning Acceleration Tutors (LATs) were first hired upon our return from distance learning in order to support academic intervention. Throughout the LCAP development input process, educational partners indicated that they saw success for students assigned to small group intervention on 6–8-week cycles.</p> <p>Funding for these positions comes from categorical resources.</p> <p>The success of this action will be measured by student achievement identified in Metrics 3.1 & 3.2, as well as qualitative data on referrals for special education testing, and students exiting the Student Study Team (SST) process.</p>	\$678,826.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>School Psychologists are assigned to all schools to support assessment when students in the SST process are not making progress. They are multi-funded positions as they serve both students in general education, prior to qualification for special education services, and students with disabilities who have Individualized Education Programs (IEPs). In addition, School Psychologist provide approximately 8 hours per week of counseling for students.</p>		
3.3	Student Progress Monitoring	<p>All schools will use progress monitoring and benchmark assessments to monitor student progress on mastering grade level standards in ELA and Math. Data will be used by staff to inform instruction, differentiate lessons, and provide intervention opportunities.</p> <p>The SBUSD District-level student groups identified in RED were English Learner (ELA) and African American students (Math).</p> <p>Data from the California Dashboard has identified the following student groups in RED for academics at the following school sites:</p> <p>Bayside STEAM Academy - Multilingual Learners (ELA) & Students with Disabilities (Math) Godfrey Berry - Students with Disabilities (ELA) Central Elementary - Multilingual Learners (ELA) & Socioeconomically Disadvantaged (ELA) Emory Academy - Multilingual Learners (ELA) & Students with Disabilities (Math) George Nicoloff - Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math) Oneonta Elementary - Multilingual Learners (ELA) Howard Pence - Multilingual Learners (ELA), Hispanic Students (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA), Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math)</p>	\$657,165.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Sunnyslope Elementary - Multilingual Learners (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA) & Students with Disabilities (Math)</p> <p>The District will be using a new progress monitoring tool (iReady) during the 2024-2025 school year to ensure that all students, but especially those student groups in RED in ELA and Math are assessed regularly and monitored for progress made on grade level standards.</p> <p>We will continue to use Ellevation to house student data and monitor the progress of Multilingual Learners. There are two years left on this contract and will potentially be renewed for the 2026-2027 school year.</p> <p>Oneonta Elementary was the one District school in which Multilingual Learners were identified in RED on the English Learner Progress Indicator, and therefore will receive additional support in the use of Ellevation to monitor progress and provide intervention to Multilingual Learners as needed.</p> <p>The effectiveness of this action will be measured by an increase in student achievement on the ELA and Math sections of the California Assessment of Student Performance and Progress (CAASPP), as identified in Metrics 3.1 & 3.2.</p> <p>LCFF Supplemental & Concentration funds will be used to fund this action. iReady = \$315,000</p>		
3.4	Supplemental Digital Platforms	<p>Digital platforms and content are used to support academic instruction. Content is selected to enhance student learning and access to foundational skills and grade level standards. During the 2023-2024 school year instructional teams reviewed the use of digital platforms and determined a number of programs that were being underutilized and/or were deemed as no longer needed. The District process of reflecting, redefining, and rebuilding lead teams to identify the need for a digital</p>	\$808,720.00	No

Action #	Title	Description	Total Funds	Contributing
		<p>progress monitoring tool that supports standards aligned instruction, differentiation, and intervention. The tool selected is iReady for Reading and Math. iReady comes with content that makes other digital platforms no longer necessary.</p> <p>Therefore, the following digital platforms will continue for the 2024-2025 school year, and others will be eliminated.</p> <p>Imagine Learning - Licenses for Multilingual Learners at levels 1 & 2. (\$89,000) Joy School English - Licenses for Transitional Kinder Students (\$52,000) See Saw - Professional development will be provided to review the new features. (\$85,000) Raz Kids Plus - High usage and excellent resource for downloading decodable text, which is currently a need. (\$165,000)</p>		
3.5	Highly Qualified Teachers for Class Size Reduction and Special Programs	<p>With declining enrollment many schools face the challenge of imbalanced class size and/or an increase in combination classrooms. These challenges surfaced throughout the LCAP development input process from all educational partner groups. In addition, programs that best meet the needs of Multilingual learners, such as dual immersion, require highly qualified staff that can teach and support students in multiple languages.</p> <p>A recent Learning Policy Institute Study showed that in the initial analysis of district performance, which controlled for the socio-economic status (SES) of families, teacher qualifications stood out as the in-school factor most strongly associated with students' success. On average in this study, the lower the percentage of teachers with substandard credentials, including permit, waiver, or intern credentials, the higher the student achievement. In addition, teachers' average experience level within a district was positively associated with achievement for African American and Latino/a students. In addition, Linda Darling-Hammond, in review of state policy in regard to teacher quality, published research analyses indicating that measures of teacher preparation and certification are by far</p>	\$10,821,573.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>the strongest correlates of student achievement in reading and mathematics.</p> <p>In addition, research on LTELs reveals that they share certain experiences that may contribute to their prolonged EL status, including:</p> <ul style="list-style-type: none"> • Variability in the quality and approach to their education in the elementary grades, • Lack of adequate English language development (ELD) instruction, • Teachers who have not had the preparation to address their needs (which in turn results in lack of access to appropriate grade-level content and curricula), and • An undiagnosed or unaddressed learning disability. <p>Additional strategies that contribute to ongoing success for younger ELs include dual language immersion and other bilingual programs, ensuring appropriately rigorous content from the beginning (not waiting for students to gain English language proficiency before introducing complex topics), and building students' background knowledge to increase their understanding.</p> <p>This action requires the use of LCFF supplemental and concentration funds.</p>		
3.6	Professional Development for Academic Instruction	<p>Throughout the LCAP development process, professional learning was identified as a priority for all educational partners. The areas of greatest need are language arts, math and language development. While identifying supplemental resources to teach grade level standards, professional development aligned to either current resources or those being purchased was highlighted to ensure support for staff responsible for teaching and learning. Professional development opportunities will include both certificated and classified personnel.</p>	\$821,458.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Intensive professional development for teachers of early literacy will be provided. Grade level spans will be as follows: TK - Funded by Universal TK grant funds (\$120,000) K-2 - Funded by Title I, Title II, and Effective Educator Grant</p> <p>In addition, for the 2024-2025 school year there will be five (5) Teachers on Special Assignment who will be assigned to school sites to support staff in meeting the instructional needs of students through on-going, frequent professional development, model lessons, data analysis, and more. Specific focus areas will include what is outlined in the LCAP and School Plans for Student Achievement (SPSAs).</p> <p>LCFF S/C - For 5 TOSAs</p>		
3.7	District-level Instructional Support Staff	<p>The Educational Leadership Division, divided into four departments: Educational Services; Equity, Multilingual Learners, and Innovation; Student Services; and Technology are designed to support both the academic and social-emotional needs of all students, but particularly multilingual learners, foster youth, students identified as low-income, and students with disabilities. In addition to supporting staff and students, these departments ensure that all legal requirements are being met and all federal guidelines or other funding criteria are being met. The role of each department is two-fold: support; and accountability.</p> <p>Below is a list of the department personnel who predominantly support the actions identified in Goal 3. Additionally, there are staff assigned to support actions identified in Goal 2</p> <p>Director of Educational Services - Resources 0605, 3010 Coordinator of Educational Services - 0980, 4035 Educational Services Technician - Focus on Supplemental Curriculum - 0980</p> <p>Director of Equity, Multilingual Learners, and Innovation - Resource 0980 Coordinator of Equity, Multilingual Learners, and Innovation - 0980</p>	\$657,165.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>Educational Services Technician - Focus on ELPAC Testing - 0980 Bilingual Liaison - 0980 Bilingual Liaison - 0980 Secretary/Translator - 0980</p> <p>Director of Student Services - Resources 0621, 0641, 0980, 6500 Coordinator of Special Education - 3214, 6500 Coordinator of Special Education - 6500 Coordinator of Multitiered Systems of Support - 0641, 2600, 6266 Coordinator of Family Engagement and Support - 3010, 6331 Secretary/Translator - 0980</p> <p>The Director of Technology and department personnel are identified under Goal 1, Action 1 related to basic services.</p>		
3.8	Meeting the Needs of Multilingual Learners (English Learners)	<p>SBUSD uses the Systematic English Language Development (SELD) Program for Designated ELD. A comprehensive ELD program addresses all four (4) domains - Listening, Speaking, Reading, and Writing. SELD instruction is supplemented with additional instructional resources, particularly in the reading and writing domains. These resources include:</p> <p>Systematic ELD is the adopted language acquisition program used with all MLs. In addition, the District has purchased the Hello! Newcomer resource that will be used in the 2024-2025 school year with Newcomer students. Supplemental resources, such as Guided Reading Kits, have been purchased to further develop the reading domain.</p> <p>The Ellevation data platform has been purchased to provide staff with data on ELs and Long-Term English Learners (LTELS).</p> <p>The Educational Leadership Division will work with school sites to ensure Learning Acceleration Tutors (LATs) are providing instruction to Newcomer students, and intervention to LTELS not making adequate progress.</p>	\$191,738.00	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>LCFF S/C Funds are used to purchase Systematic ELD materials, Hello! materials, to provide staff with access to the Ellevation digital data management system for ELs, and professional development to support instructional strategies for all Multilingual Learners.</p> <p>LCFF S/C</p>

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.1	<p>Action: Development of the Whole Child Through Specialized Programs</p> <p>Need: The need is to ensure that unduplicated students stay engaged in school and access specialty programs that enrich their academic experiences.</p>	VAPA/STEM teachers provide weekly instruction to all students. This action is District-wide to ensure all students receive engaging, well-rounded learning experiences, especially historically underrepresented students such as multilingual learners, socio-economically disadvantaged students, students experiencing housing insecurities, foster youth, and students with disabilities.	2.8 and quantitative data - parent and student surveys, and teacher schedules.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>		
<p>2.2</p>	<p>Action: Social-Emotional Supports</p> <p>Need: Unduplicated pupils need access to trauma informed care and social-emotional supports. Counselors in particular provide unduplicated students with increased services related to course access, social skills development, and supports and strategies to combat the challenges of living bi-nationally, experiencing poverty and housing insecurities, and placement in foster care.</p> <p>Scope: LEA-wide</p>	<p>All schools are assigned a school counselor to provide all students, but especially unduplicated students, with access to social-emotional supports that may include individualized counseling services and/or small social skills groups that support underrepresented students in accessing the educational system.</p>	<p>2.1, 2.6, 2.7, 2.9</p>
<p>2.4</p>	<p>Action: School Connectedness</p> <p>Need: Engagement and connectedness of underrepresented families in the educational process and daily educational activities. Our underrepresented students make up our unduplicated pupil count and it is imperative that the District and schools provide opportunities to increase connections through the Reach Out to Families Center and the Family Support and Engagement Liaisons at each school site.</p>	<p>The success of unduplicated pupils is directly impacted by parent/family engagement in the educational process and school activities/events. This action is designed to ensure that unduplicated pupils feel valued, heard, and seen. Family Support and Engagement Liaisons are assigned to each school within the LEA. The Liaison group works collaboratively to ensure the needs of all families, and all students are met, and the appropriate resources are made available.</p>	<p>2.2, 2.9, 2.10</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>		
<p>2.5</p>	<p>Action: Improved Student Attendance</p> <p>Need: Approximately 23-38% of unduplicated pupils were identified as chronically absent in the 2022-2023 school year.</p> <p>Scope: LEA-wide</p>	<p>Increased communication with families, increased monitoring of attendance data, and interventions such as the Improving Chronic Absence Network (ICAN) will have a direct impact on improving and increasing services to SBUSD's unduplicated pupils. Attendance is an LEA focus because nearly a quarter of the student population was chronically absent in the 2022-2023 school year. The ICAN work provides the professional development and planning time for staff to address the attendance issues facing each school.</p>	<p>2.1, 2.10, 2.11, 2.12</p>
<p>2.6</p>	<p>Action: Expanded Learning Opportunities</p> <p>Need: Before and after school, and intersession programming are essential to provide both academic and enrichment opportunities to unduplicated pupils.</p> <p>Scope: LEA-wide</p>	<p>All students are invited to participate in the variety of program offerings throughout the calendar year. Unduplicated pupils benefit both academically and socially by expanding their school day. Before and after school programming is offered LEA-wide to all students because it is a need within our community. In addition, after school clubs and athletics are offered to expose all students to extracurricular interests that further promote school engagement.</p>	<p>2.1, 2.4 & 2.12</p>
<p>3.2</p>	<p>Action: Academic Intervention</p> <p>Need: The following percentage of each student group met or exceeded ELA standards on the Smarter Balanced 2022-2023 assessment. English Learners: 11.34% Socioeconomically Disadvantaged: 26.04%</p>	<p>Unduplicated pupils not meeting grade level standards will receive intervention from Learning Accelerated Tutors assigned to school sites. In addition, LATs will provide instruction to Newcomers using the Hello! language development curriculum/resource.</p>	<p>3.1, 3.2, 3.3 & 3.10</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>No data was reported for foster youth as there were fewer than 11 students tested.</p> <p>The following percentage of each student group met or exceeded Math standards on the Smarter Balanced 2022-2023 assessment. English Learners: 9.96% Socioeconomically Disadvantaged: 17.07% No data was reported for foster youth as there were fewer than 11 students tested.</p> <p>Our Multilingual learners are not achieving where we would like to be, both on the CAASPP and on the ELPAC. For the 2022-2023 ELPAC Summative Data, below is the percent of students within each achievement level: 11.37% of students performing at Level 4 31.54% of students performing at Level 3 31.66% of students performing at Level 2 25.44% of students performing at Level 1</p> <p>Less than 50% of our Multilingual Learners are performing at Levels 3 & 4. SBUSD has 184 Long Term English Learners (LTELs), ELs who have been in U.S. schools for six or more years without reaching nor progressing in the levels of English proficiency to be reclassified.</p> <p>Scope: LEA-wide</p>		

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
3.3	<p>Action: Student Progress Monitoring</p> <p>Need: Red student groups on CA Dashboard: SBUSD District-level student groups identified in RED were English Learner (ELA) and African American students (Math). Student groups in RED for academics at the following school sites: Bayside STEAM Academy - Multilingual Learners (ELA) & Students with Disabilities (Math) Godfrey Berry - Students with Disabilities (ELA) Central Elementary - Multilingual Learners (ELA) & Socioeconomically Disadvantaged (ELA) Emory Academy - Multilingual Learners (ELA) & Students with Disabilities (Math) George Nicoloff - Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math) Oneonta Elementary - Multilingual Learners (ELA) Howard Pence - Multilingual Learners (ELA), Hispanic Students (ELA), Socioeconomically Disadvantaged Students (ELA), Students with Disabilities (ELA), Multilingual Learners (Math), Hispanic Students (Math), Socioeconomically Disadvantaged Students (Math) & Students with Disabilities (Math) Sunnyslope Elementary - Multilingual Learners (ELA), Socioeconomically Disadvantaged</p>	<p>Progress monitoring and benchmark assessments are needed to ensure progress is being made toward mastering grade level standards. Due to the number of student groups in RED on the California Dashboard it was determined that an LEA-wide progress monitoring tool was needed to ensure all students are making progress on grade level standards. District staff will be able to analyze data across grade levels and across different schools. This data can help determine successes and challenges and where to focus District resources.</p>	3.1 & 3.2

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Students (ELA), Students with Disabilities (ELA) & Students with Disabilities (Math)</p> <p>Scope: LEA-wide</p>		
<p>3.5</p>	<p>Action: Highly Qualified Teachers for Class Size Reduction and Special Programs</p> <p>Need: Highly qualified teachers are essential in meeting the needs of unduplicated pupils. SBUSD is committed to providing quality Dual Language Immersion Programs that promote language acquisition resulting in proficiency in two languages. In addition, teachers are needed to maintain smaller class sizes.</p> <p>Scope: LEA-wide</p>	<p>English learners benefit from programs that build upon their primary language and are assets based, valuing bilingualism and biliteracy rather than subtractive in nature. Without the use of LCFF S/C funds, we would not be able to provide such programs. In addition, research on Long Term English Learners shows that strategies that benefit younger ELs include dual language immersion and other bilingual programs, ensuring appropriately rigorous content from the beginning (not waiting for students to gain English language proficiency before introducing complex topics), and building students' background knowledge to increase their understanding.</p>	<p>3.1, 3.2, 3.3 & 3.4</p>
<p>3.6</p>	<p>Action: Professional Development for Academic Instruction</p> <p>Need: The following percentage of each student group met or exceeded ELA standards on the Smarter Balanced 2022-2023 assessment. English Learners: 11.34% Socioeconomically Disadvantaged: 26.04% No data was reported for foster youth as there were fewer than 11 students tested.</p>	<p>Unduplicated pupils need highly qualified and trained staff to meet their instructional needs. Staff require professional development in the most effective instructional strategies and use of evidence based instructional resources. Professional development will be provided across the LEA in the areas of Language Arts, Mathematics, and Language Development. Teachers on Special Assignment (TOSAs) are assigned to two schools to support professional learning in these three areas. Supplemental resources have been purchased to assist</p>	<p>3.1, 3.2, 3.3 & 3.5</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>The following percentage of each student group met or exceeded Math standards on the Smarter Balanced 2022-2023 assessment. English Learners: 9.96% Socioeconomically Disadvantaged: 17.07% No data was reported for foster youth as there were fewer than 11 students tested.</p> <p>Our Multilingual learners are not achieving where we would like to be, both on the CAASPP and on the ELPAC. For the 2022-2023 ELPAC Summative Data, below is the percent of students within each achievement level: 11.37% of students performing at Level 4 31.54% of students performing at Level 3 31.66% of students performing at Level 2 25.44% of students performing at Level 1</p> <p>Scope: LEA-wide</p>	<p>instruction in phonemic awareness and phonics, in addition to the instructional tools provided within the digital platform iReady. These resources are provided LEA-wide, as is the professional development to use the resources effectively.</p>	
<p>3.7</p>	<p>Action: District-level Instructional Support Staff</p> <p>Need: Instructional support for ELs, Foster Youth, and Low-Income students RED student groups at schools sites and the District. The SBUSD District-level student groups identified in RED were English Learner (ELA) and African American students (Math).</p>	<p>Personnel are identified to meet the specific needs of student groups, including the District's unduplicated student count as well as students with disabilities. With the number of student groups performing in RED on the California Dashboard, personnel have been identified who will monitor the progress of each group throughout the school year to ensure academic growth is made. Support staff directly supervise instructional programs at the school site level, ensure compliance, and provide access to appropriately</p>	<p>3.1, 3.2 & 3.6</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide	differentiated educational programs and curriculum.	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
3.8	<p>Action: Meeting the Needs of Multilingual Learners (English Learners)</p> <p>Need: Our Multilingual learners are not achieving where we would like to be, both on the CAASPP and on the ELPAC. For the 2022-2023 ELPAC Summative Data, below is the percent of students within each achievement level: 11.37% of students performing at Level 4 31.54% of students performing at Level 3 31.66% of students performing at Level 2 25.44% of students performing at Level 1. Less than 50% of our Multilingual Learners are performing at Levels 3 & 4. SBUSD has 184 Long Term English Learners (LTELs), ELs who have been in U.S. schools for six or more years without reaching nor progressing in the levels of English proficiency to be reclassified.</p>	<p>Effective Systematic ELD instruction, Data Management System to monitor ELs, especially LTELs, Newcomer instruction using Hello!, and professional development for all staff working directly with English Learners. Research on LTELs reveals that they share certain experiences that may contribute to their prolonged EL status, including:</p> <ul style="list-style-type: none"> • Variability in the quality and approach to their education in the elementary grades, • Lack of adequate English language development (ELD) instruction, • Teachers who have not had the preparation to address their needs (which in turn results in lack of access to appropriate grade-level content and curricula), and • An undiagnosed or unaddressed learning disability. 	3.3, 3.4 & 3.10

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	Scope: Limited to Unduplicated Student Group(s)		

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The additional funding has been identified to hire school counselors. Counselors will support foster youth, English learners, and low-income students as they navigate the educational system, academically, socially, and emotionally. (Action 2.2)

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA’s LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA’s annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2023
