## Upper School Profile

Antilles School is a Pre-K to 12 college preparatory school on St. Thomas in the US Virgin Islands. We serve a diverse community of learners and inspire individual excellence in a collaborative setting, while empowering each student with the academic and life skills needed to become engaged, intentional citizens able to transition from a small island to anywhere in the world.

Antilles opened its doors on October 4, 1950 in historic Villa Santana, overlooking St. Thomas' Charlotte Amalie Harbor. The driving force during the school's early years was the founding head, Deborah Finch, whose educational aims were embraced in a five-point program focusing on each child's physical, academic, and creative development, along with their social and emotional growth. This philosophy has been significant to our community since its inception.

At Antilles, students from nearly every cultural and economic background call our campus home. Along with providing a rigorous curriculum that prepares students for acceptance to the nation's top universities, we also help shape their physical, emotional, and intellectual well-being. All courses are focused on core college preparatory material and skills but also allow students to engage at their own pace, and at a greater depth.

Our school is situated on 27 acres on St. Thomas' south side and our state-of-the-art facilities including a theater, libraries, gymnasium, and laboratories which offer our students the opportunity for deeper learning and provide a competitive edge upon acceptance to four-year accredited colleges and universities. With close proximity to beaches, nature preserves, and historical land-marks, students are able to take advantage of off-campus learning opportunities under the water, in lush forests, up mountain peaks, and across rich agricultural farm grounds.

Our student-faculty ratio is 10:1. Small class sizes allow for an individual student teacher connection, while also enhancing student interaction. We challenge our learners to collaborate, to lead, to share decision-making, and to be mindful of the world around them. Our students are active in student government, clubs, athletics, and in community organizations, volunteer efforts, and relief drives.
