## **Masks Optional Effective Immediately**

Our apologies for the late message, but we want to make sure all families are aware of an important decision that was made in the Board of Education meeting this evening, which affects the school day tomorrow.

The Board of Education voted unanimously to make masks optional for all staff and students, effective immediately. All other protocols, such as quarantine procedures, will remain the same. All forms of school transportation will still require masks, as this is federally controlled. We will continue to monitor and make changes as needed. This will also be revisited during each monthly Board Meeting.

Thank you for your continued support and have a wonderful rest of the week!
