

International College (IC) in Lebanon is one of the largest international schools in the world. With over 3,600 students, the school has evolved throughout its long and rich history, dating back to 1891 in south-west Turkey, to an excellent institution, and one in a truly unique setting in the Middle East region and globally. The highest standards of academic and extra-curricular educational

opportunities are consistently adhered to, in line with international accreditations and authorizations, such as with the Council of International Schools (CIS), New England Association of Schools and Colleges (NEASC), Agency for French Education Abroad (AEFE) and International Baccalaureate (IB). Chartered in the State of Massachusetts, US, and abiding by the laws of the Lebanese government, IC

remains a nonprofit organization, and one that is proudly independent and non-sectarian. Indeed, IC's many notable alumni across the world highlight the school's success, and, as they often remark, it is what the school offered them as a base for their life journey and career achievements, all encapsulated in the 'IC Spirit' both during their school days and right up to the present day.

## Curricular Tracks

### The Secondary School includes grades 10-12

**The Lebanese Baccalaureate Program** is a rigorous national program offered in either English or French with tracks that include General Sciences, Life Sciences, and Economics and Sociology. At the end of grade 12, all students are assessed by comprehensive exams set by the Lebanese Ministry of Education.

**The College Preparatory Program** is a four-year course modeled on a traditional high school program. The language of instruction is English. Required courses include Math, Sciences, English, Social Studies, and French with Arabic language at varying levels.

**The French Baccalaureate Program** follows the curriculum established by the French Ministry of Education. This program fosters self-discipline and organization while encouraging the development of critical thinking and analytical skills. In grades 9-12, students take courses from the common core. In grade 11, students

add three advanced specialty courses, each of which meets for six hours per week. In grade 12, students narrow their specialty courses to two, each of which meets for eight hours per week. Students complete the equivalent of high-honors level coursework in specialty courses. The Baccalaureate final grade will be based on both continuous assessment (40% of the final grade) and examination results (60% of the final grade) with written and oral examinations in grades 11 and 12.

**The International Baccalaureate Program (IBDP)** is a demanding two-year curriculum with a rigorous assessment. It is made of six subject groups and a core comprising of theory of knowledge, creativity, activity, and service (CAS), and an extended essay. Through the core, students reflect on the nature of knowledge, complete independent research and undertake a project that often involves community service.
