Crops by Kids

Most of The Crops by Kids garden has been "put to bed" for the season.

Many of the beds have been cleaned and the weeds taken away. Mrs. Thygesen's PE classes cleaned out the beds, weeded the walkways and composted the crops.

Mrs. Moran's students planted garlic from the bulbs harvested this spring. As we were cleaning the beds this week, students noticed several old garlic bulbs from the summer.

Mrs. Thygesen picked kale and brought it to the dining room for the staff to make kale chips. Some students will try them out. Kale chips are roasted with a little oil and sprinkled with salt.

Students from the Career Center at Spaulding repaired the rotten boards and fence posts during the last week of October. A big thank you for doing this!

According to the Farmer's Almanac, the full moon in November is the Beaver Moon. For both the colonists and local tribes, this was the time to set beaver traps before the swamps froze, to ensure a supply of warm winter furs. This full Moon has also called the Frost Moon.

What do you call specific groups of animals? For a group of beaver? They are called a colony of beavers. How about a group of caterpillars? An army of caterpillars. The group of frogs is an army or colony of frogs.

Until spring...be thinking of gardening...

New Bleachers

Our new bleachers were recently installed in the Crowley Gym! Take a peek at what our new and improved bleachers look like! We are hopeful that things to return to "normal" so that we can use them for assemblies and large gatherings.
