## SPOTLIGHT ON STUDENT ENGAGEMENT

### MS. MELISSA GARCIA

Ms. Gomez takes her class outside as they work in pairs. Students had to use team work and strong description language skills in order to get their partner to draw and image that they could not see.

COACH DON BURGE

Students learn about proper work out and training in addition to how to assist each other on each of the stations in our weight room. Coach Burge encourages team work and always pushes for the best in his students!

## MRS. BRIGID McCARTHY

Ms. Brigid McCarthy assisted students designing a giant Calavera for Dia De Los Muertos.

**Thank you Eliseo & CV Gardeners for beautifying up our lunch area for students and staff to enjoy.**

## **PBIS TARGETED BEHAVIOR**

This week our faculty and staff are working with our students on learning about appropriate language for the professional academic setting. We are encouraging our students to know when to "Code Switch" or to change the choice of language and words used for various environments. This is a skill that will better prepare them for the College and Career setting.
