

THE AMERICAN SCHOOL IN ENGLAND

Health and Safety Policy

The current version of any policy, procedure, protocol or guideline is the version held on the TASIS website. It is the responsibility of all staff to ensure that they are following the current version.

Document Details

Information Sharing Category	PUBLIC
TASIS Document reference (Org, Doc, version, date)	HSP V6.1
Version	6.1
Date published	October 2021
Date ratified by Head of School	October 2021
Review/Update date	October 2022
Responsible area	Bursar/Estates Manager

All who work, volunteer or supply services to our school have an equal responsibility to understand and implement this policy and its procedures both within and outside of normal school hours including activities away from school.

Amendments:

Date	Amendment
October 2021	All policies and associated procedures have been fully revised as of October 2021. The updates are in accordance with government guidance on the management of Covid-19 in schools.

Monitoring and Review:

This policy is subject to continuous monitoring, refinement and audit by the Executive Director of Finance and Operations/Bursar, who will seek to identify trends and understand issues of concern and to take steps to improve systems to manage these. The Board of Directors will undertake a full annual review of this policy and procedures, inclusive of its implementation and the efficiency with which the related duties have been discharged. This discussion will be formally documented in writing. Any deficiencies or weaknesses recognised in arrangements or procedures will be remedied immediately and without delay. All staff will be informed of the updated/reviewed policy which will be made available to them in either a hard copy or electronically.

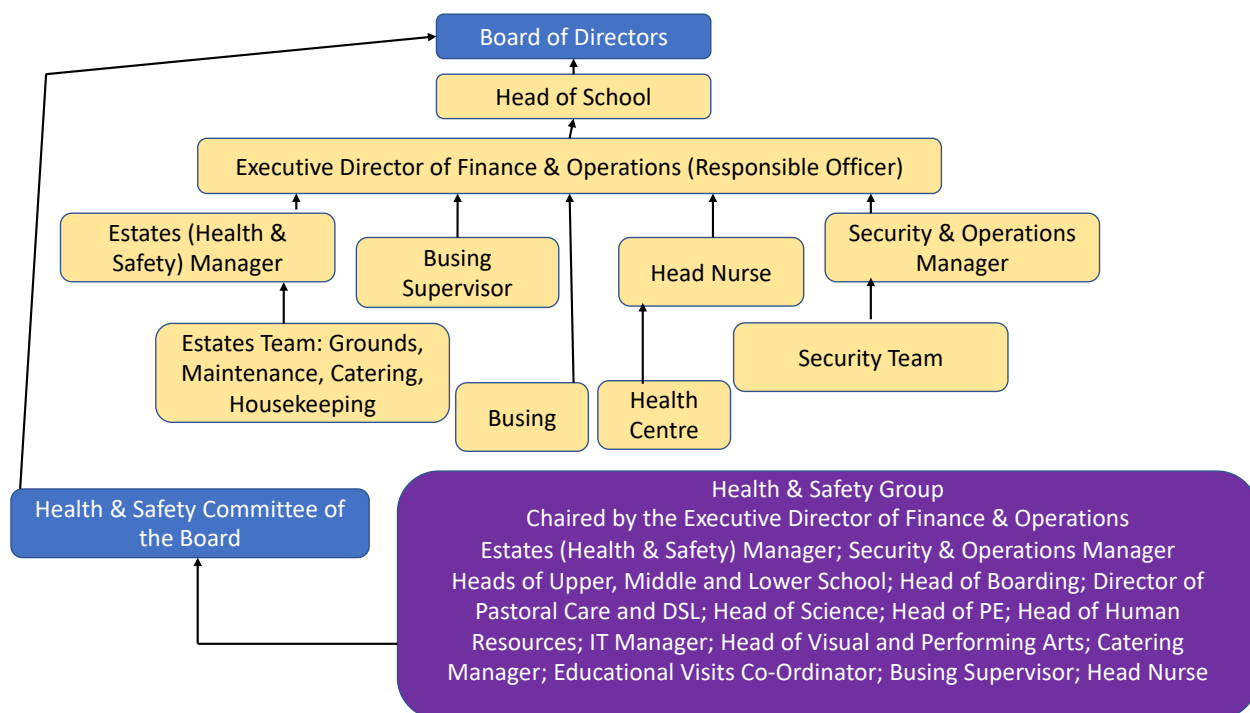

Date Reviewed: October 2021

Head of School	Chair of the Board of directors	Executive Director of Finance and Operations/Bursar
Bryan Nixon	David King	Ann Corfield

This policy will next be reviewed no later than October 2022 or earlier if significant changes to the systems and arrangements take place, or if legislation, regulatory requirements, or best practice guidelines so require

All who work, volunteer or supply services to our school have an equal responsibility to understand and implement this policy and its procedures both within and outside of normal school hours, including activities away from school.

HEALTH AND SAFETY ORGANOGRAM

Issue Authorization: This document is issued on behalf of the Board of Directors of TASIS The American School in England (forthwith referred to as 'TASIS') or "the School", whose registered place of business is Coldharbour Lane, Thorpe, Surrey, TW20 8TE.

RESPONSIBILITIES, ARRANGEMENTS, POWERS AND PROCEDURES

For the purposes of this document, the term "Board of Directors" is deemed to have the same meaning as "Proprietor" in accordance with the ISSR, and is used interchangeably. This policy is inclusive of activities outside of the normal school hours. It applies to all staff (teaching and support staff), the Board of Directors and volunteers working in the school. The Policy is publicly available on the school website and upon request a copy (which can be made available in large print or other accessible format if required) may be obtained from the School Business Office. All who work, volunteer or supply services to our school have an equal responsibility to understand and implement this policy and its procedures, both within and outside of normal school hours, including activities away from school.

Legal Status - being prepared with regard to the:

- Regulatory Requirements, Part 3 Welfare, Health and Safety of Pupils and Part 5 Premises of and Accommodation at Schools of The Education (Independent School Standards Compliance Record) (England) (Amendment) Regulations currently in force.
- Keeping Children Safe in Education (DfE: September 2021).
- Non-statutory interim supplements to *KCS/E*: Coronavirus (COVID-19): safeguarding in schools, colleges and other providers (2021 subject to DfE updates) and Safeguarding and remote education during coronavirus (COVID-19).
- Health and Safety at Work Act 1974, associated regulations: The Management of Health and Safety at Work Regulations 1999 (as amended), and The Regulatory Reform (Fire Safety) Order 2005.
- Equality Act 2010, Special Educational Needs and Disability Code of Practice: to 25 years (DfE: currently in force)
- Government guidance and advice from the Outdoor Education Advisers' Panel (OEAP).

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- Accidents and ill health at work are reported in accordance with the *Reporting of Injuries, Diseases and Dangerous Occurrences* (RIDDOR) legislation (2013) www.hse.gov.uk/riddor Tel: 0845 300 9923.

Introduction

Covid-19 Arrangements: TASIS England has taken extensive measures to ensure proportionate protective systems for children and staff, which also ensure that all pupils receive a high-quality education that enables them to thrive and progress. We follow the DfE Guidance on the Opening of Schools including guidance from Public Health England and actively review our procedures accordingly. We have effective risk assessment processes, in consultation with employees, risk mitigation measures and monitoring, including a specific risk assessment relating to the additional risks of COVID-19 and its management. This risk assessment is reviewed regularly to ensure it is dynamic and evolving in conjunction with new guidance and also factors within the school as they arrive. We also regularly review whether COVID-19 has implications for existing arrangements and update them where necessary.

By way of risk mitigation and management measures in respect of COVID-19, we employ a range of controls including ways to promote hand and respiratory hygiene precautions. Specific measures include:

- a requirement that people who are ill or register a high temperature stay at home;
- robust hand and respiratory hygiene;
- enhanced cleaning arrangements;
- good space ventilation, with the use of Disinfecting Filter System (DFS) units where natural ventilation is less achievable;
- the continued use of face masks in communal indoor spaces, including classrooms in the Upper and Middle Schools;
- the use of government mandated on campus lateral flow testing programmes and ongoing twice-weekly lateral flow testing of students and staff at home or in the boarding houses;
- active engagement with NHS Test and Trace; and
- staff, students and visitors maintaining distance informally from each other as much as possible.

Related documents regarding the management of COVID-19 currently are:

- Safeguarding – Child Protection COVID-19 Addendum;
- Management of Health Procedure and accompanying Flowchart - Management of (Suspected) Cases of COVID 19;
- Infection Control and Hygiene arrangements;
- Covid-19 Risk Assessments; and
- Covid-19 Procedures including school maps, pupil and staff guidance and parent information letters.

TASIS is committed to improving Health and Safety management in all activities. To assist in the implementation of a suitable Health and Safety management system, TASIS engages the competent Health and Safety resource required under current regulations. Guidance entitled 'Successful Health and Safety Management' and 'Leading Health and Safety at Work' published by the Health and Safety Executive and the Institute of Directors will be used to develop our approach to managing risk. The emphasis in both pieces of guidance is that senior management are expected to lead the organisation's Health and Safety and measure its performance along with other business activities.

The success of this strategy will be defined by all our stakeholders understanding and fulfilling their individual and collective responsibilities in controlling risk and meeting Health and Safety objectives. In turn, it will reduce business interruption and reduce the number and severity of incidents, whilst improving the health, safety and wellbeing of employees, students and others who may be affected by our activities.

The main elements include:

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- **Plan** - Developing an approach that understands the requirements and measures compliance against those requirements on a regular basis. The Health and Safety policy then sets a clear direction and ensures communication of Health and Safety duties and benefits.
- **Do** – Competent Health and Safety advisors, including trained staff and contractors, will assist TASIS in introducing management systems and practices that ensure risks are dealt with sensibly, responsibly and proportionately.
- **Check** – Competent Health and Safety advisors, including trained staff and contractors, will assist TASIS at a strategic and tactical level in implementing monitoring and reporting arrangements allowing both specific (e.g. incident-led) and routine reports on the performance of Health and Safety.
- **Act** – Competent Health and Safety advisors, including trained staff and contractors, will assist TASIS in the review of Health and Safety performance and establish whether the essential Health and Safety principles, including effective leadership and management, competence, worker consultation and involvement have been embedded in the organisation and whether the system has been effective in managing risk and protecting people.

The overall and final responsibility for Health and Safety is that of the Board of Directors. The day to day responsibility for ensuring this and other health and safety policies are put into practice is designated to the Executive Director of Finance and Operations / Bursar, who is also responsible for ensuring that the health and safety organisational chart is kept up to date and posted in appropriate locations around the premises. The signing and dating of this document signifies that this policy and all other policies and procedures relating to health and safety have been reviewed or considered for review.

DfE Guidance 2011 *Health and Safety Advice on Legal Duties and Powers for Local Authorities, Head Teachers, Staff and Governing Bodies* requires the proprietor to:

- have a general statement of policy, which includes who is responsible for what (delegation of tasks); and
- make arrangements to establish, monitor and review measures needed to meet satisfactory Health and Safety standards.

The *Health and Safety at Work Act of 1974* places responsibilities on all our staff. The organisation chart shows who the members of staff are and what responsibilities each of them have. This will be amended and updated as and when appropriate. We also have a Health and Safety Law Poster displayed at points around the campus that summarises our responsibilities as an employer and the responsibilities of our staff as required by law. The reporting lines for health and safety differ in some ways from those reporting lines that are applicable for any other issues and concerns - an example of which are the child protection procedures. In order to effectively discharge its duties, the TASIS Board of Directors has:

- established a Health and Safety Committee, whose Chairman is a member of the Board of Directors; and
- appointed and delegated the day to day responsibility for ensuring this and other Health and Safety policies are put into practice to the Responsible Officer (the Executive Director of Finance and Operations/Bursar) and the Health and Safety Manager (the Estates Manager).

General Statement: The aim of TASIS England is to provide a safe and healthy working and learning environment for staff, pupils and visitors believing that the prevention of accidents, injury or loss is essential to the effective operation of the School and is part of the education of its pupils. We recognise that the term 'health' also includes mental health. We have a dedicated policy on mental health, which takes into consideration the guidance issued by the Department for Education. In keeping with the requirements of the Health and Safety at Work Regulations (1974), it is the policy of the Board of Directors to ensure, as far as is reasonably practicable, the Health, Safety and Welfare of employees, children, parents, visitors and volunteers in any school activity, whether it be on the school site or off site. This policy also applies to any persons, including contractors, employed by or on behalf of the Board of Directors, who visit or work at sites in the control of the Board of Directors. The Board of Directors has the power to ensure that the Health and Safety Policy is carried out in-school and on all school activities. The Executive Director Finance and Operations /Bursar manages the implementation and monitoring of the policy for the Board of Directors.

The arrangements outlined in this policy statement and the various other safety provisions made by the Board of Directors cannot in itself prevent accidents or ensure safe and healthy working conditions. This can only be achieved through the adoption of safe methods of work and good practice by every individual. The Board of Directors will take all reasonable steps to identify and reduce hazards to a minimum, but all staff and students must appreciate that their own safety and that of others also depends upon their individual conduct and vigilance while on the school premises, or while taking part in school sponsored activities.

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

Employer Duties: The Board of Directors has a duty to:

- be familiar with and ensure the school adheres at all times to the requirements of the Health and Safety at Work Act 1974 and any other health and safety legislation and codes of practice that are relevant to the work of the school, in particular the Management of Health and Safety and Work Regulations;
- ensure that all staff have been carefully selected to meet our requirements for the health, safety and security of the children in our care;
- where appropriate, ensure that staff and parents are made aware of risks identified and of the systems and procedures we put in place to deal with these risks;
- provide arrangements that recognise our responsibilities to visitors, contractors and the public who may be affected by our activities and provide safe equipment, safe play areas, safe access and egress and maintain them in good order;
- have a clear understanding on actions to take in the event of any emergencies;
- train and supervise all our staff in the particular health and safety issues that affect children and ensure that activities undertaken by the school both on and away from the School site are risk assessed and safely managed;
- monitor and review this Policy and the various systems and procedures in accordance with statutory requirements;
- comply with the *Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR)*.

TASIS England ensures arrangements are made to safeguard and promote the welfare of students at the school and that such arrangements have regard to any guidance issued by the Secretary of State. The Board of Directors takes into consideration:

- safeguarding arrangements, including safer recruitment and recording procedures, effective arrangements for child protection and the training and development of staff so that children can be safe in school;
- procedures to eliminate bullying and promote a safe environment and the prevention and tackling of all forms of bullying and harassment, including cyber-bullying and prejudice-based bullying related to special educational need, sexual orientation, sex, race, religion and belief, gender reassignment or disability;
- the systematic and consistent management of behaviour, including the use and recording of rewards and sanctions, including written policies to promote good behaviour;
- the provision of a safe and secure school environment, including the elimination of potential risks to students' welfare, health and safety both on and off-site, including particular attention, where relevant, to the health and safety of students with priority needs;
- the systematic and consistent management of procedures to reduce the risk of fire and comply with fire safety regulations;
- how effectively the arrangements for students' care in the event of sickness, accident or injury are implemented and how our students are supervised during school hours; the effectiveness of the school's monitoring and recording systems for students' attendance and punctuality;
- how well the school reviews admission arrangements and makes adjustments to ensure the accessibility of the school's premises and curriculum for all students;
- the way we teach children how to understand and respond to risk, for example risks associated with extremism, new technology, substance misuse, knives and gangs, relationships (including sexual relationships), water, fire, roads and railways;
- the views expressed by students, and different groups of students, on welfare, health and safety, respect for, and courtesy towards others and their views on harassment, racism, homophobia and different types of bullying;
- how our day and boarding students are supervised including activities away from school;
- the effectiveness of the school's monitoring and recording systems for students' attendance and punctuality; and
- the views of parents and carers, staff, proprietors and others.

Employee Duties: The Health and Safety at Work Act 1974 states:

"It shall be the duty of every employee while at work:

- to take reasonable care for the health and safety of himself and of any persons who may be affected by his acts or omissions at work, and
- regards any duty or requirement imposed on his Bursar or any other person by or under any of the relevant statutory provisions, to cooperate with him so far as is necessary to enable that duty or requirement to be performed or complied with."

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

The Act also states that: “No person shall intentionally or recklessly interfere with or misuse anything provided in the interests of health, safety and welfare in pursuance of any of the relevant statutory provisions.” All staff will make themselves familiar and ensure compliance with the requirements of the Health and Safety at Work Act 1974 and any other health and safety legislation and codes of practice relevant to the work and also the particular area in which they work. They will, so far as is reasonably practicable:

- be familiar with this Health and Safety Policy and all safety arrangements, including those for fire, first aid and other emergencies, as laid down by the Board of Directors.
- take part in health and safety training as required, inform their line manager if there is any reason they are unable to perform any task without undue risk (e.g. illness, incapacity, etc), and only undertake any task for which they have been trained;
- take reasonable care of their own health and safety and that of any other persons (staff, students, visitors, etc.);
- observe standards of dress consistent with safety and/or hygiene;
- exercise good standards of housekeeping and cleanliness, as well as know and apply the emergency procedures in respect of fire and first aid;
- co-operate fully with their employer on health and safety matters, including following safe systems of work and ensure that all tools, machinery and equipment are adequately guarded and are in good and safe working order;
- ensure that storage and use of toxic, hazardous and highly flammable substances is minimised, or where this is not practical, are correctly used, stored and labelled;
- report any defects that they observe in the premises, plant, equipment and facilities and take action to ensure no one is put at risk and use the correct equipment, tools, protective equipment and clothing for the job;
- report all accidents and near misses immediately, whether injury is sustained or not, using the online Incident, Accident and Near Miss Report form;
- promote and achieve high standards of health and safety suggesting improvements and ways of reducing risks and co-operate with other employees in promoting improved safety measures; and
- act as a prudent parent when in charge of students, as they have a duty to under common law.

If employees feel that the procedure is inappropriate (e.g. it is too bureaucratic) they should discuss this with their employer and request that it is reviewed. The Executive Director Finance and Operations / Bursar will work with the employer to ensure that the procedures at the school are proportionate, effective and appropriate. Staff and faculty are encouraged to discuss health and safety matters at staff meetings and to bring issues to the attention of the Health & Safety Group.

Consultation Arrangements with Employees: The school will maintain effective lines of communication to enable relevant health and safety information to be passed to members of staff. There is a Health and Safety Committee of the Board with terms of reference and a Health and Safety Group that reports to it. Membership is made up of staff representatives. Consultation arrangements with employees are also in place to ensure the maintenance of Health and Safety standards. Staff are informed of updates with regard to health and safety through our staff meetings and in the case of immediate changes, staff are consulted individually by the Health and Safety Manager (the Estates Manager).

Responsibilities of the Board of Directors: The Board of Directors of TASIS England, acting via the Responsible Officer, are responsible for ensuring the implementation of this policy within the school. In particular, they will:

- monitor the effectiveness of the Health and Safety policy and the safe working practices described within it and revise and amend it on a regular basis as necessary;
- prepare an emergency evacuation procedure and arrange for the periodic practice of evacuation drills to take place at least once a term and for the outcome to be recorded to facilitate improvement;
- ensure that all staff and parents are made aware of any risks identified and of the systems and procedures we put in place to deal with these risks;
- make arrangements to draw the attention of all staff employed at TASIS England to school and departmental safety policies and procedures together with any other safety guidelines and information issued by the relevant authorities;
- ensure that the arrival and departure of all visitors is recorded on the Envoy system;
- make arrangements for the implementation of accident reporting procedures and draw these to attention of all staff at the school as necessary;
- ensure that regular workplace inspections are undertaken;
- arrange for the withdrawal, repair or replacement of any item of furniture, fitting or equipment identified as being unsafe;

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- ensure that any defect in the fabric of the building is attended to immediately or, as appropriate, referred to the Board in committee, whilst ensuring in the interim that arrangements are made to limit the risk identified;
- monitor through the Responsible Officer and the Health and Safety Manager (the Estates Manager) the activities of contractors, hirers and other organisations present on site as far as it reasonably practical;
- identify and evaluate risk control measures in order to select the most appropriate means of minimising risks to staff, students and others, while providing a healthy and safe environment for students to enjoy learning;
- make themselves more familiar with the requirements of the Health and Safety at Work Act 1974 and any other Health and Safety legislation and codes of practice that are relevant to the work of the school, in particular the Management of Health and Safety and Work Regulations 1999;
- ensure that all our staff have been carefully selected to meet our requirements for the health, safety and security of the students in our care, including compliance with the Surrey Local Safeguarding Children Board locally agreed inter-agency procedures and Safer Recruitment in Education guidance and HM Government Guidance “Working Together to Safeguard Children” 2018;
- provide employees with information, instruction, safe working practices, supervision and training to ensure they are competent to carry out their tasks;
- minimise cases of injury and work related ill health and to investigate accidents and incidents that might have resulted in harm to employees;
- seek support from and consult with employees on matters concerning their health and safety;
- provide safe equipment, safe play areas, safe access and egress and maintain them in good order;
- have a clear understanding on actions to take in the event of any emergencies;
- train all staff in the particular Health and Safety issues that affect students;
- ensure that activities undertaken by the school both on and away from school site are risk assessed and safely managed;
- adopt and maintain an effective policy organisation and arrangements for the provision of Health and Safety throughout the school;
- comply with the *Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR)*;
- hold regular meetings that include Health and Safety as a fixed agenda item;
- ensure duty rotas take into consideration both regulatory and best practice staffing ratios for the age range of the school community (3 – 19 years old); and
- ensure specific controls and procedures are in place for the safety of the students in our care from the point of arrival to the point at which they depart.

Duties of the Chairman of the Health and Safety Committee: The Board of Directors has established a Health and Safety Committee, whose Chairman is a member of the Board of Directors. The Chairman has a particular responsibility for Health and Safety matters at TASIS England, including ensuring adequate representation of staff on the Health and Safety Committee.

Responsible Officer for Health and Safety (RO) Duties: The Executive Director Finance and Operations / Bursar is the Responsible Officer, charged with overseeing Health and Safety within the school, and is accountable to the Head of School and Board of Directors. The managers with day-to-day Health and Safety responsibilities report to her: the Health and Safety Manager is the Estates Manager and the Security and Operations Manager has specific duties in respect of crisis management and evacuation.

In order to ensure that all areas of the School recognise their responsibility in respect of health and safety, the Executive Director Finance and Operations / Bursar has set up and chairs a Health and Safety Group that meets 3-4 times a year.

Duties of the Members of the Health and Safety Group: Members of the group are drawn from each section of the school and from boarding as well as from those areas of the curriculum and school life that are inherently more “risky”, including science, sports and activities, the visual and performing arts, trips, catering, busing and the Health Centre. The Estates Manager, Security and Operations Manager, IT Manager and Head of HR are also members. Members are required to ensure that risk assessments are in place covering all relevant activities and spaces; to review risks in their areas and bring new risks to the group's attention; to ensure that actions relating to risks previously identified have been carried out; and to review accidents, incidents and near misses to be able to identify and implement learnings. This group reports to the Health and Safety Committee of the Board.

Health and Safety Manager Duties: The Estates Manager and the Security and Operations Manager are responsible for on-site health and safety at the school. The Estates Manager acts as the focal point for day to day references on safety and gives advice, obtaining, where necessary, external advice. She also has responsibility for ensuring that the requirements of all relevant legislation, codes of practice and guidelines are met in full at all times and for the day to day maintenance and development of safe working practices and conditions for teaching staff, support staff, students, visitors and any other person using the premises or engaged in activities sponsored by the school. The Estates Manager will take reasonable, practicable steps to achieve this and assign clear safety functions to other members of staff as appropriate. The role, whilst not being limited to the following, includes:

- Monitoring the Health and Safety policy, ensuring that the Board of Directors, employees and other persons involved with the school have knowledge of it and are carrying out their duties in accordance with it;
- being aware of and ensuring compliance with the requirements of the Health and Safety at Work Act 1974 and any other health and safety legislation and codes of practice relevant to the work of the school;
- ensuring that all employees are trained and competent to undertake their work safely, are aware of their own limitations and know they must not undertake any task unless they have been trained, are competent and are confident they can carry out the task safely in the conditions that prevail;
- ensuring that all tools, machinery, plant and equipment is fit for purpose, adequately installed, guarded and appropriately used, and that it receives planned maintenance, that maintenance records are kept, in accordance with statutory legislation where appropriate, and ensuring that defective equipment that constitutes a safety hazard is removed from service immediately and clearly labelled as defective;
- keeping up to date with current legislation and informing other staff and volunteers as appropriate;
- making annual health and safety inspections;
- ensuring that all Fire Safety policies and procedures are implemented, including the external and internal fire safety audits and inspections;
- producing, implementing and monitoring health and safety procedures, including a risk assessment strategy, monitoring the effectiveness of the implementation of this policy and reports to the Proprietors on health and safety matters, via the Executive Director Finance and Operations;
- ensuring that statutory health and safety notices are displayed in appropriate locations within the establishment;
- investigating any specific Health and Safety problem identified within TASIS England and taking or recommending remedial action as appropriate, such as a method of working ceasing on Health and Safety grounds on a temporary basis subject to further consideration by the Board of Directors and;
- ensure that the procedures and practices identified in the Appendix to this policy are in place.

The Security and Operations Manager will:

- collate accident information and, when necessary, ensure accident and incident investigations are carried out;
- ensure that emergency plans and procedures, including those for fire, are in place, known, tested regularly and that any necessary revisions are made and disseminated;
- ensure that the fire drill instructions are in all rooms;
- maintain and update the Crisis Management Plan;
- ensure that visitors observe the school's safety rules.

The Executive Director Finance and Operations / Bursar undertakes to ensure this policy is available to all employees and contractors and to ensure that it is readily available in the workplace. The Health and Safety Executive (HSE) enforces health and safety law relating to the activities of independent schools. Because the Employer is responsible for health and safety in the workplace and on work activities, the HSE will normally take action against the Employer. However, in some circumstances, for example where an employee failed to take notice of the Employer's policy or directions in respect of health and safety, the HSE may take action against the employee as well or instead.

Duties of Staff Holding Posts/Positions of Special Responsibility: These staff:

- have a general responsibility for the application of the Board of Directors' Health and Safety Policy to their own area of work and are directly responsible to the Executive Director Finance and Operations / Bursar for the application of existing health and safety measures and procedures within that area of work and follow the advice or instructions given by her, including complying with the relevant parts of this statement;

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- shall, where necessary, establish and maintain safe working procedures, including arrangements for ensuring, as far as is reasonably practicable, safety and absence of risks to health in connection with the use, handling, storage and transport of articles and substances (e.g. chemicals, boiling water, duplicating fluid, guillotines);
- shall resolve any health and safety problem any member of staff may refer to them and refer to the Executive Director Finance and Operations / Bursar any of these problems for which they cannot achieve a satisfactory solution within the resources available to them;
- shall carry out a regular safety inspection of the activities for which they are responsible and, where necessary, submit a report to the Executive Director Finance and Operations / Bursar;
- shall ensure, as far as is reasonably practicable, the provision of sufficient information, instruction, training and supervision to enable other employees and students to avoid hazards and contribute positively to their own safety and health at work;
- shall, where appropriate, seek the advice and guidance of the Executive Director Finance and Operations / Bursar or any relevant adviser appointed by the Board of Directors and shall propose to the Executive Director Finance and Operations / Bursar requirements for safety equipment and on additions or improvements to plant, tools, equipment or machinery, which are dangerous or potentially so.

Standard Working Arrangements:

- We have a Health and Safety Manager who is the Estates Manager and a Security and Operations Manager. Heads of sections and of departments are members of the Health and Safety Group.
- We have an electronic registration system (Envoy) to record the arrival and departure of all staff, children, parents, visitors and contractors who enter our school.
- We require all employees and volunteers to undertake Health and Safety training as they commence their employment or voluntary support for the school and to undertake annual fresher training.
- We ensure that children do not have access to any medicines, foods or drinks to which they are allergic. Details of those students who have specific food intolerances or allergies is provided to the Catering team and all allergens clearly labelled for each dish, side dish or condiment.
- Only those staff who have been checked by an ‘enhanced disclosure’ from the Disclosure and Barring Service are allowed unsupervised access to the children in our care.
- Faculty and staff are trained in emergency first aid and at least one member of faculty or staff who has a current full first aid training certificate is present at all times whilst children are on our premises.
- Parents, visitors, contractors etc. are required to enter the school premises via the Security Lodge at the entrance to the North Campus. This entrance is staffed at all times and parents, visitors and contractors are required to sign in.
- All children in our care are regularly reminded of what is safe and not safe to do when on our premises.
- We have installed smoke detectors in all fire risk areas. These are checked on a weekly basis. We ensure that everyone can hear the fire alarm when it is raised.
- We regularly practise what to do in the event of a fire and make sure all the children in our care know what to do if they hear our fire alarm.
- Head injuries will always be reported to parents and carefully monitored.
- In our EYFS, we only use safety-approved substances for use by children, such as non-toxic glues and paints. We only use water-based products, not solvent-based one.

Safeguarding and Child Protection: If an employee or volunteer suspects that a student may be the victim of abuse, they should immediately inform the school’s Designated Safeguarding Lead (DSL). The school complies with both the Surrey Safeguarding Children Partnership, locally agreed inter-agency procedures and Safer Recruitment in Education guidance and HM Government Guidance

We require all adults and volunteers working in the school to comply with the Safer Recruitment Procedures. The school has a separate Safeguarding Children and Child Protection policy which is reviewed annually. *Working Together to Safeguard Children* (HM Gov: in force July 2018), helps to outline individuals’ responsibility in promoting the safety and welfare of all children. We also comply with *Keeping Children Safe in Education Statutory guidance for schools and colleges* (KCSIE) (DfE, in force September 2021). Our school is vigilant and alert to triggers and situations that may put children at risk, and we must be proactive in taking action. Communicating with children effectively is crucial. To do this, we need to know their personalities and be sensitive to their specific needs.

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

Supervision of Students: In addition to this being built into the day to day working practices at TASIS England, we also have a separate policy that clearly states the school's approach. We make professional judgements taking into consideration the age of the students and activities in which they are engaged. No student is to be allowed unattended into areas of the school that could be deemed hazardous and classrooms where hazardous substances or equipment is stored for teaching purposes will be used solely for the purpose of teaching lessons and remain locked at all other times.

Online Safety: Please refer to our ICT – E-Safety Policy including Prevent Duty. We use only a filtered service, selected links and child-friendly search engines. Staff use Child Exploitation and Online Protection (CEOPs) teaching materials. Parents are asked to sign authorisation for their child to use the Internet. We also seek parental permission before using photographs of children or their work on the school's website, or in newsletters and other publications.

Arrangements for the Comfort and Safety of Children and Staff:

- Safe, adjustable heating systems keep the premises warm.
- Our windows are safe, lockable and allow sufficient light through.
- Our doors prevent fingers from being trapped by sudden closures and have safe vision panels fitted where possible so that small children can be seen before opening.
- Our floors are designed to minimise slips and trips and are regularly checked to ensure they are free from obstacles along walkways and are not damaged.
- Our hot water supply is maintained at a temperature to prevent accidental scalding.
- We have a separate lockable room as well as lockable cabinets for the storage of any potentially harmful items.
- We have sufficient ventilation and air circulation systems; where this cannot be achieved through natural ventilation, we employ disinfecting filter system (DFS) units to clean the air.
- Fresh drinking water is available at all times. There is no access to any water supplies that are not safe for drinking.

Arrangements for Hygiene:

- We provide protective clothing and equipment as necessary when dealing with any issues of hygiene or cross-contamination, including suitable disposal facilities where appropriate.
- All food and drink kept on the premises is stored safely and appropriately. Our refrigerators are kept clean and at a temperature recommended for safe storage. It is checked daily.
- Only safety-approved cleaning materials are used.
- We have a daily cleaning schedule to cover all areas accessible by children.
- We teach our children about the importance of hygiene and keeping their hands clean.
- Any animals on site are checked to ensure they do not pose a threat to children's health. Pets belonging to resident House Parents are allowed by agreement but must be kept within the residence at all times, except when exercised when they must be kept under full control by means of a suitable lead or restraint and must be exercised off campus.

Risk Assessment: The Board of Directors ensures that (a) the welfare of students at the school is safeguarded and promoted by the drawing up and effective implementation of a written Risk Assessment Policy in compliance with Health and Safety Work regulations 1992; and (b) appropriate action is taken to reduce risks that are identified. Our Risk Assessment Policy is an integral part of our health and safety procedures and expands on the detail given in this Health and Safety Policy. Our Risk Assessment Policy when read in conjunction with this Health and Safety Policy demonstrates that our risk assessment is systematic with a view to promoting children's welfare. Particular attention is paid to key areas of risk such as supervision and school trips. The policy content includes: when risk assessments should be completed, who is responsible for drawing-up and checking these, recording (including any pro-forma) and training for staff.

What is a Risk Assessment? A risk assessment is a careful examination by someone of what could cause harm to them or others. The risk can be weighed up as to whether the Head of School has taken enough precautions or should do more to prevent harm. The Proprietor is legally required to assess the risks in the workplace and, in the process, the Estates Manager (the Health and Safety Officer) will:

- look for the hazards; decide who might be harmed and how;
- decide whether the existing precautions are adequate or whether more should be done;
- record the findings; review the assessment and if necessary, revise it.

Regular and systematic inspections and risk assessments of all potential hazardous substances and work activities will be made by, or under the authority of the Estates (Health and Safety) Manager and will take into account all the relevant regulations and codes of practice. Specialist advice will be obtained if necessary and the risk assessment will be reviewed periodically. The significant findings will be recorded, and appropriate preventative and/or protective measures taken as necessary.

Looking for Hazards: Hazards will be identified by:

- consultation, and conducting inspections of the workplace;
- analysing jobs and activities undertaken by staff and pupils;
- listing all Acts and Regulations as they apply to the workplace; and
- using manufacturers' instructions, accident records, ill health records, which can all help to identify hazards.

Advice to all Staff: Staff will look for hazards which could reasonably be expected to result in significant harm under the conditions in the school and grounds that constitute their workplace. The following examples are used as a guide:

- slipping / tripping hazards (e.g. poorly maintained floors or stairs);
- fire (e.g. from flammable materials);
- chemicals (e.g. floor cleaner);
- working at height, (e.g. from ladders);
- pressure systems, (e.g. gas systems and bottles);
- electricity (e.g. poor wiring);
- dust fumes (e.g. welding);
- manual handling;
- noise;
- poor lighting; and
- low or high temperature.

Who might be at Risk, and How? Individuals are not listed by name, just groups of staff conducting similar work, or why they may be affected, e.g. teaching and office staff, maintenance staff, contractors, parents and pupils. Particular attention is given to staff, pupils or parents with disabilities, inexperienced staff and lone workers.

Is Risk Adequately Controlled? Staff will consider whether precautions have already been taken against the risks from the hazards identified, and whether they are sufficient. For example:

- Has the school already provided adequate information, instruction or training; are there adequate systems or procedures?
- Do the precautions meet the standards set by a legal requirement?
- Do the precautions comply with a recognised industry standard?
- Do the precautions represent good practice?
- Do the precautions reduce risk as far as reasonably practicable?

If so, then the risks are adequately controlled, but the precautions already in place should be identified and listed as part of the process. The following will be referred to: procedures, manuals and school rules regarding how to impart this information to relevant stakeholders. If the risk is not adequately controlled, an 'action list' will be written, giving further action necessary to control the risk. The 'action list' details what more the school can reasonably do to reduce the risks identified, which were not adequately controlled at that point. Priority is given to those risks which affect large numbers of people and / or could result in serious harm. Further action will be taken in the following order, wherever possible:

- 1) Remove the risk completely
- 2) Try a less risky option
- 3) Prevent access to the hazard, e.g. by guarding or fencing
- 4) Re-organise work to reduce exposure to the hazard – e.g. increased staff supervision
- 5) Issue personnel protective equipment or provide welfare facilities (e.g. washing facilities for removal of contamination and first aid), depending on the nature of the risk

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

Recording the Findings: Risk assessments will be recorded in one or more of the following ways:

- 1) School Risk Assessment Form – generic templates are available from the Estates (Health and Safety) Manager and on the LMS;
- 2) Specific Health & Safety risk assessment records, e.g. COSHH, Manual Handling, Visual Display Screen Equipment, Personal Protective Equipment.
- 3) Part of an instruction manual or procedure document, e.g. staff manual or standard operating procedure; or
- 4) Any other appropriate and approved record.

The risk assessment will be signed and dated by the person completing the form. The findings of the risk assessment will be made known to all staff and students affected by the activity assessed. A copy of all completed risk assessments will be kept in the School's online Risk Assessment Repository.

Review and Revision: If there is a significant change in working practices, e.g. purchase of new machinery or substances, employment of new staff, etc., this could present new hazards. In line with best practice, risk assessments will be reviewed from time to time to ensure precautions are still working effectively. All risk assessments will be:

- Reviewed annually where there is a generic risk assessment;
- Reviewed on each occasion when there is a specific activity or site assessment required; and
- Reviewed at regular periods dependent on the level of risk of the activity. For example, immediately following an accident (or a near miss) or when new activities are introduced.

The review should be signed and dated by the person completing the form. A copy of the completed reviewed/updated risk assessment should be stored in the School's online Risk Assessment Repository. Where any concerns are identified, this must be brought to the attention of the Estates Manager.

Staff Training in Health and Safety, including Risk Assessment: Staff training in child protection, Prevent duty, first aid, fire safety, educational visits, curriculum specific activities and COSHH is a set agenda item for the Health and Safety Committee. TASIS will provide information, instruction and training in health and safety matters including this Health and Safety Policy appropriate to the needs of the individual or group of staff members. In doing so, consideration will be given to the nature of the duties held by staff members and the potential hazards that either they or others within their charge may be exposed to. Newly appointed employees could be vulnerable to any risk, therefore, all relevant Health and Safety matters are drawn to their attention at an early stage. Whilst it is a management responsibility to instruct all employees in safe working procedures in relation to their posts and workplaces, employees may from time to time find themselves in unfamiliar environments. In such cases, the employee should be particularly alert for hazards. The Fire Response Team is trained to perform their duties and will receive refresher training every three years.

All Students are expected, within their Expertise and Ability to:

- Exercise personal responsibility for the safety of themselves and their fellow students;
- Observe standards of dress consistent with safety and/or hygiene, this would preclude unsuitable footwear, clothing and articles considered dangerous;
- Observe all the safety rules of TASIS England and, in particular, the instructions of teaching staff in the event of an emergency;
- Use and not wilfully misuse, neglect or interfere with things provided for safety purposes.

Recording and Reporting Accidents to Staff, Students and Visitors: The Executive Director Finance and Operations / Bursar ensures that TASIS England complies with the *Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR)* under which TASIS is required to report to the Health and Safety Executive (telephone: 0845 300 99 23):

- Deaths, major injuries, more than seven day injuries;
- An accident causing injury to students, members of the public or other people not at work where they are taken to hospital and is out of or in connection with work;
- A specified dangerous occurrence.

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

All injuries, accidents, and dangerous occurrences will be recorded. The most relevant witness or supervising member of faculty will fill in an online Accident, Incident or Near Miss Report form for every accident or near miss that occurs on or off the School site if in connection with the School. This will be curated by the Executive Director of Finance & Operations / Bursar and the Security and Operations Manager. Records should be stored for at least three years. If the person injured is a minor then records must be kept for a period of 25+ years from the date of birth of the child.

Notifiable Incidents: This is an incident involving the care of a student which meets any of the following criteria:

- A student has died (including cases of suspected suicide) and abuse or neglect is known or suspected;
- A looked after student has died (including cases where abuse is **not** known or suspected);
- A student has been seriously harmed and abuse or neglect is known or suspected;
- A student in a regulated setting or service has died (including cases where abuse is **not** known or suspected).

Any such incident should be reported to Surrey Council Child Death Overview Panel (CDOP) coordinator whose contact details are by telephone 01372 833 319 and by Email: CDOP@surreycc.gov.uk, Ofsted and the DfE along with the *Reporting of Injuries, Diseases and Dangerous Occurrences* (RIDDOR) in accordance with the regulations.

The Curriculum: We teach the students about health and safety in order to equip them with the skills, knowledge and understanding to enable them to live positive, successful and healthy lives. We teach children respect for their bodies, and how to look after themselves. We discuss these issues with the children in Personal, Social, Health and Economic Education (PSHEE) along with Citizenship; including reinforcing these points in lessons, where children learn about healthy eating and hygiene. We also show them how to move and play safely in PE lessons. Health and safety issues also arise when we teach care for the environment and awareness of the dangers of litter. Our school promotes the spiritual, moral, social and cultural (SMSC) development of children.

The Early Years Foundation Stage (EYFS) Safeguarding and Welfare Requirements: The safeguarding and welfare requirements, specified in the TASIS England Early Years Foundation Stage Programme, are contained in whole school policies inclusive of any appendix specific to EYFS.

First Aid and Medication: Please refer to the school's separate Health Centre Policy, First Aid Policy and Medications and Medical Needs Policy. TASIS England has in place: practical arrangements at the point of need, the names of those qualified in first aid and the requirement for updated training every three years, at least one qualified person on site when students are present, ways to show how accidents are to be recorded and parents informed, access to first aid kits, arrangements for students with particular medical conditions (for example, asthma, epilepsy, diabetes), hygiene procedures for dealing with spillage of body fluids and guidance on when to call an ambulance.

The arrangements for first aid provision will be adequate to cope with all foreseeable incidents. The number of designated first aiders will not, at any time, be less than the number required by law. This is determined by risk assessment (Local Authority guidance). Designated staff will be given such training in first aid techniques as is required to give them an appropriate level of competence. All staff will be aware of how to summon first aid in an emergency, who the first aiders are and their contact and location details. All first aid signs and containers must be identified by a white cross on a green background. A written record will be kept of all first aid administered either on the school premises or as a part of a school related activity. If a student requires medication whilst in the care of the school, the parent should notify the school and ask permission for the medication to be brought in. The safekeeping and administration of medication is in accordance with the school Medications and Medical Needs Policy.

Occupational Health Services and Managing Work-Related Stress: We take our duties and responsibilities with regard to the welfare of both staff and students very seriously. The school has access to occupational health services, including specialist medical and counselling facilities if so required and has the appropriate policies and procedures and working practices in place.

Arrangements for Activities:

- Adults accompanying residential trips have a DBS enhanced certificate and where appropriate, a personal risk assessment is made, along with the generic or specific risk assessment for the activity.
- We inform parents of plans for events on our premises.

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- We always ensure adequate staffing ratios at all times.
- We also have generic and specific parents' consent for activities as is required.
- We ensure that our staff have access to all necessary equipment for outings and that they use a checklist.
- We ensure we have means of communication during outings and a list of appropriate telephone numbers.

For further details please refer to Educational Visits, Off-Site Activities and Visitors Policy.

Off-site Visits, Including Residential Visits and School-Led Adventure Activities: The School has an Educational Visits Coordinator (EVC) along with policies and procedures for Educational Visits and Off-Site Activities. These include Learning Outside the Classroom, Behaviour Management on Outdoor and Off-Site Activities, and Action to be taken by the Group Leader in the event of a serious accident. The school also has access to professional advice and detailed documentation in this area of the curriculum. In line with our COVID-19 mitigations, residential overnight stays will only be organised in line with DfE guidance on school trips in force at the time of the trip.

Adventure Activities using Licensed Providers: When planning an activity that will involve caving, climbing, trekking, skiing or water sports, we check that the provider holds a licence, as required by the Adventure Activities Licensing Authority Regulations now under the purview of the Health and Safety Executive. These regulations apply to adventure activities that take place in England, Scotland and Wales but these arrangements may be subject to change in the future. All non-standard or adventure activities must be subject to a risk assessment before being undertaken. All assessments must be supported by a backup plan which details measures to be taken in the event of the activity going wrong and participants put at the risk of harm.

Non-standard activities must be supervised by a member or members of staff with appropriate recognised qualifications and relevant experience. In certain cases, additional supervision may be provided by personnel from outside the School, who have relevant expertise and appropriate recognised qualifications. The School does not rule out the possibility of undertaking activities which contain an element of risk, though it does commit itself to ensuring that those activities are as well controlled as is practicable.

Behaviour of any Person (including a Parent) on the School Premises: Our School has a written Behaviour Policy which includes setting out the behaviour expected of parents on the premises and the procedures that will happen when the school wishes to restrict a parent's access to school premises because a person is causing a nuisance or disturbance. A parent who has been banned from entering school premises is trespassing if he or she does so without permission. Any violent behaviour will be reported to the police.

Theft or other Criminal Acts: The Executive Director Finance and Operations / Bursar and other senior colleagues will investigate any incidents of theft involving students. If there are serious incidents of theft from the school site, the Executive Director Finance and Operations / Bursar will inform the police and record the incident in the incident book.

Violence towards Staff: If there are any concerns about the behaviours of visitors they are required to leave the premises. With reference to students, there is a well-established behaviour management policy and procedures including the use of reasonable force and physical restraint. All adults, including staff, parents and visitors, are expected to behave in a manner which is in line with and supportive of our school ethos.

Arrangements for the Safety and Security of Equipment: The following arrangements are put in place to look after all equipment on the premises as well as any hired or purchased equipment:

- electrical equipment and installations are checked by competent persons or organisations;
- gas heating boilers and gas supply lines are regularly checked by competent persons or organisations. Access to these is strictly controlled;
- playground equipment conforms to British Standards for safety and allows sufficient space in between for safe movement and access;
- external play areas of our premises where children might fall from a height are constructed of impact-resistant materials that conform to the relevant standards;
- internal play equipment is assessed for safety and suitability prior to use. Only CE-marked equipment (or equipment certified for conformity) is used;

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

- regular visual checks are made on the integrity and safety of all play equipment used externally. Suspect equipment is taken out of service until repaired;
- formal inspections of all external play equipment are carried out on an annual basis by a competent person or organisation - the School uses RoSPA; and
- Classroom or other equipment that could potentially cause harm, e.g. the art room kilns and grounds equipment, are subject to risk assessment and may only be operated by identified individuals following, as relevant, standard operating procedure or manufacturer's instructions and with appropriate training.

The Effective Management of the Welfare, Health and Safety of All People at our School:

Staff Training in Health and Safety, including Risk Assessment: Staff training is a set agenda item for the Health and Safety Committee. Staff training is provided when appropriate in both generic and specific areas with reference to risk assessment, first aid (including paediatric first aid), fire safety, educational visits, curriculum specific activities, mental health first aid and COSHH. Newly appointed employees could be vulnerable to any risk and, therefore, their line manager will ensure that all relevant Health and Safety matters are drawn to their attention at an early stage. Whilst it is a management responsibility to instruct all employees in safe working procedures in relation to their posts and workplaces, employees may from time to time find themselves in unfamiliar environments. In such cases, the employee concerned should be particularly alert for hazards and, wherever possible, ensure they are accompanied by a person familiar with the environment or that they are advised of specific hazards. All volunteer helpers will be expected, as far as reasonably possible, to meet the same standards required of all employees.

Consultation Arrangements with Employees: There is a Health and Safety Committee of the Board with terms of reference and a Health and Safety Group, whose membership includes staff representatives. Consultation arrangements with employees are also in place to ensure the maintenance of Health and Safety standards. Staff are informed of updates with regard to health and safety through our weekly staff meetings and, in the case of immediate changes, staff are consulted individually by the Estates (Health and Safety) Manager.

Appendix 1

Control of Substances Hazardous to Health: The implications of COSHH applies at TASIS England, where both records and working practices reflect the seriousness with which TASIS England implements its policy and procedures in the care and maintenance of premises, the delivery of the curriculum and administrative functions. Integral to our COSHH Policy are both inventory of substances and risk assessments. Only trained staff will be permitted to use the substance. When evaluating substances, any fumes/gasses/vapours and dusts generated by processes will also be assessed.

Contractors will be reminded of their responsibility to notify TASIS England should they need to use any substance that may be hazardous and appropriate control measures will be put in place. If the school feels that the control measures are insufficient, the contractor will not be permitted to start work until an alternative can be found. This may mean postponing the work until staff/students are not present.

Dealing with Health and Safety Emergencies: Procedures and Contacts: The procedures for fire and emergency evacuation are displayed in every classroom and in prominent positions around the School. These procedures are updated on a regular basis and dated to indicate the latest update. The log book for recording and evaluation of practice and evacuation drills will be held securely by the Security and Operations Manager. The Head of School has overall responsibility for implementing the evacuation procedure, delegated to the Security and Operations Manager, if an emergency were to occur. Arrangements are in place in the absence of the Head of School or the Security and Operations Manager, which are specified in the Crisis Management Plan.

TASIS England has in place a Crisis Management Plan in the event of a Health and Safety Emergency. This plan details the procedures and contacts for dealing with a health and safety emergency. For specific details, please see our 'Crisis Management Plan' which is available to all staff electronically on the LMS.

Display Screen Equipment: TASIS England will take appropriate measures to protect staff and students from risks arising from the use of display screen equipment and associated workstations. All computer workstations will be assessed in accordance with a standard protocol, to identify risk factors arising from the interface between the user, the equipment and the work environment.

Electrical Systems: The School will ensure that all permanent electrical systems and wiring are maintained in good and safe condition. Periodic reviews of electrical systems will be undertaken so as to support this approach. Portable electrical equipment is visually checked by staff before use and if any defects are noted the item is put out of use. In addition, both school and student owned portable electrical equipment items are subject to a regular check in line with guidance on checking of electrical equipment.

Fire Safety: In compliance with the 'Fire Safety Order' (2005) TASIS England undertakes a fire risk assessment (formally recorded and regularly reviewed so as to keep it up to date) and our Board of Directors complies with the additional duties to: produce a fire risk (prevention) policy which includes the elimination or reduction of risks from dangerous substances, develop fire procedures and provide staff training (repeated periodically where appropriate), ensure the safety of staff or anyone else legally on the premises, carry out fire drills and contact emergency services when necessary, appoint one or more competent persons (with sufficient training, experience and knowledge) to assist in taking preventative and protective measures (including firefighting and evacuation), have a suitable system for the maintenance of: clear emergency routes and exits (with doors opening in the direction of escape), signs, notices, emergency lighting where required, fire detectors, alarms and extinguishers (with the maintenance being performed by a 'competent person', such as, ISO 9001 certified or BAFE approved) and provide staff and any others working on the school site with fire safety information, also requiring staff to take reasonable care.

The role of the 'responsible person' at TASIS is undertaken by the Executive Director Finance and Operations / Bursar, who consults with the Estates (Health and Safety) Manager and the Security and Operations Manager. The Executive Director Finance and Operations / Bursar, in conjunction with the Estates and Security and Operations Managers keeps records of the following: (i) the fire risk assessment and its review; (ii) the fire risk (prevention) policy; (iii) fire procedures and arrangements; (iv) training records (v) fire practice drills; and (vi) certificates for the installation and maintenance of fire-fighting systems and equipment.

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

Lettings and Hirers: The Executive Director Finance and Operations / Bursar, in conjunction with the Estates Manager is directly responsible for safety management/compliance during lettings and ensuring that premises, equipment and substances are safe and without risk to health and ensures that the means of access and egress are safe for the use of hirers. The Executive Director Finance and Operations / Bursar, is also responsible for fire escape routes and making sure exits are clearly marked for the benefit of unfamiliar users of the building. Hirers of the building are briefed about the location of the telephone, fire escape routes, fire alarms and firefighting equipment.

Hirers must comply with all school policies as described in the letting agreement (e.g. in relation to smoking, substance abuse, alcohol, and so on), and adhere to the capacity figures detailed on any lettings documentation. When the premises or facilities are being used out of normal school hours for an activity then, for the purposes of this policy, the organiser of that activity, even if an employee, will be treated as a hirer and comply with the requirements of this section. When the premises are hired to persons outside the 'employ' of the Board of Directors, it will be a condition for all hirers and others using the premises or facilities, that they are familiar with this policy, that they comply with all safety directives of the Board of Directors and that they do not, without the prior consent of the Board of Directors: introduce equipment for use on the school premises, alter fixed installations, remove fire and safety notices or equipment and take any action that may create hazards for any persons using the premises.

Management of Asbestos: An Asbestos survey has been undertaken with recommendations implemented; the school has in place both a policy, management plan and a specialist checklist for the management of asbestos. The school complies with the regulatory requirements for the management of asbestos.

Manual Handling: The School has in place comprehensive procedures for manual handling. Training is provided to make sure that loads are managed safely and appropriately.

Noise: The school will take all appropriate measures necessary to protect employees, students and others from damage to hearing due to noise caused by School or contractor operations. This will be achieved by avoiding the use of noisy equipment or processes, in so far as this is practicable. Where this can't be achieved then suitable hearing protection will be provided to those who may be exposed.

Non-Smoking: Our school, in compliance with the law, is a non-smoking establishment. We do not allow smoking on the school premises, as we do not want to present smoking as acceptable. Should we find any member of staff smoking at school, we would consider this a serious breach of the terms and conditions of employment.

We aim to help students know and understand the dangers of smoking and the harmful effects that smoking can have on their bodies. We provide students with the knowledge and information necessary for them to make responsible choices in relation to smoking. We equip students with the social skills that help them to resist the pressure to smoke, either from their peer group, or from society in general.

Personal Protective Equipment (PPE) and required Clothing: TASIS England recognises that the use of PPE as a risk control measure is a last resort as it protects only the user and is at risk of not being worn correctly. The School will supply any PPE identified as a required risk control measure within risk assessments for carrying out activities in lessons. Employees who are required to use or wear any other PPE are provided with training on the circumstances in which it is to be used, the hazards it will protect against, the importance of correct use, and any limitation of the equipment. The training also includes how to inspect, clean, maintain and store the equipment and how to report defects and obtain replacements.

Reporting Injuries to Insurers: All injuries which might foreseeably lead to a civil claim for damages, should be referred to the Executive Director Finance and Operations / Bursar, who will ensure that the relevant insurer is informed. Where the School receives a claim for damages, then that claim must, without delay, be referred to the School's Business Office and the School's insurance company.

Restraint: All members of staff are aware of the regulations regarding *The Use of Force to Control or Restrain Children* as set out in Education Act 1996. Teachers in our school do not hit, push or slap children. Staff only intervene physically to restrain children to prevent them injuring themselves or others, damaging property or committing a criminal offence. Details of such

TASIS is committed to safeguarding and promoting the welfare of students and expects all staff and volunteers to share this commitment. It is our aim that all students fulfil their potential.

an event (what happened, what action was taken and by whom, and the names of witnesses) are brought to the attention of the Designated Safeguarding Lead and recorded in the child's personal file. The child's parents are informed on the same day. Records are kept of when force is used and parents are informed. Guidance is given to all 'members of staff' (as defined above) on the circumstances in which 'physical intervention' is allowable.

School Security: While it is difficult to make the school site totally secure, we will do all we can to ensure the school is a safe environment for all who work or learn here. We require all adult visitors to the school to sign into our electronic Envoy system at the Security Lodge, and to wear an identification lanyard at all times whilst on the school premises. We provide all adult visitors to the school with a Health and Safety Leaflet. Staff must report to the school office immediately any visitor who is not identified with a school lanyard. If any adult working in the school has suspicions that a person may be trespassing on the school site, they must inform the Head of School immediately. The Head of School will direct any intruder that they must leave the school site straight away. If this does not occur the Head of School will contact the police immediately.

Selecting and Managing Contractors and those Hiring the Premises: When the premises are used for purposes not under the direction of the Executive Director Finance and Operations / Bursar, then, subject to the explicit agreement of the Board of Directors, the person in charge of the activities for which the premises are in use will have responsibility for safe practices as indicated in the Responsibilities/Duties of the Executive Director Finance and Operations / Bursar. The Board of Directors notes their residual responsibility for the control of premises and will take all reasonable steps to ensure that such persons detailed above comply with the terms of this Policy. The Board of Directors or their designated representative will seek to ensure that contractors conduct themselves and carry out their operation in such a manner that all statutory and advisory safety requirements are met at all times. If scaffolding is required to ensure safe access, then competent scaffolding contractors will be used to erect, maintain and take down scaffolding. All scaffolding must comply with European Standard EN12811-1:2003.

All contractors who work on the premises are required to ensure safe working practices by their own employees under the provisions of the Health and Safety at Work Act 1974 and must pay due regard to the safety of all persons using the premises in accordance with this Act. Contractors may not commence work until they have reported to the school and ensured that any permit to work documentation is completed. In instances where the contractor creates hazardous conditions and refuses to eliminate them or to take action to make them safe, the Board of Directors will take such actions as are necessary to protect persons in their care from a risk or injury. The Board of Directors will draw the attention of all users of the premises (including hirers and contractors) to Section 8 of the Health and Safety at Work Act 1974, which states that no person shall intentionally or recklessly interfere with, or misuse, anything which is provided in the interest of health, safety or welfare in pursuance of any of the relevant statutory provisions.

The selection, appointment and monitoring of contractors working within the school premises is the responsibility of the Estates Manager. This takes into account: the Construction (Design and Management) Regulations 1994 – Assessment of Competence and Provision for Health and Safety along with Building Contracts undertaken on educational Premises.

For Health and Safety purposes the school must be notified by and agree with the person arranging the works, of the following:

- the delineated area of the works – including the associated adjacent area which, for health and safety reasons, forms the operating area of the contractor – hereafter and for the purposes of any contract termed 'the site';
- The scope of the works, the name of the individual contractor(s) undertaking the works, and the dates and times of operations at the school.

For the duration of the works the cleanliness of the site and the health and safety of all persons affected by the operations on the site are the responsibility of the contractor undertaking the works who must ensure that the school is indemnified against the works. Access to and from the site is the responsibility of the contractor undertaking the works.

Transport: We only hire taxis, minibuses and coaches which are approved by the local authority, where drivers are DBS checked and each seat has either a seatbelt or a booster seat as is applicable. In advance of the trip, students will be given clear safety instructions based on the risks associated with the particular type of travel. Children must sit only two to a double seat. Seat belts must be worn and, where appropriate, booster car seats should be used. All drivers of the school mini-bus must have undertaken an appropriate training course. In cases of long journeys, students will be given the opportunity to exercise after reasonable intervals. First aid material must be carried and be readily available throughout the visit. Any mini-bus or other

vehicle designed to carry nine or more passengers operated by the school is in accordance with the restricted *Passenger Carrying Vehicle* (PCV) Operators licence and any driver must hold a *PCV Driving Licence*.

Working at Height: Any situations where work may need to be carried out at height are in consultation with our Estates (Health and Safety) Manager. If any work on fragile roofs is required, then this will be subcontracted out to a specialist roofing contractor who has been vetted for competence and who has supplied a satisfactory method statement. No work will be carried out near any openings or holes in a roof (or floor surface) or near its edge, unless suitable control measures have been put in place. Suitable measures will include provision of secure coverings over holes or openings, and provision of suitable roof edge protection.

Further Information: With reference to the following statements, TASIS England has the required details, policies, procedures and working practices in place. Additionally, documentation is in place concerning:

- Anti-bullying, behaviour management; employment; fire safety policy and audit and role of fire marshals
- First aid and the administration of medicines; risk assessment and safeguarding (child protection/safer recruitment, E-Safety and Prevent Duty)

Appendix 2

Specific Responsibilities: The management procedures listed in the policy require certain individuals to implement them. The details and named individuals are shown in the following table. This list will be updated as appropriate to reflect changes in roles and responsibilities.

Details	Responsibility
Safety management: <ul style="list-style-type: none"> ● Maintain and update the health and safety action plan. ● Maintain the Health and Safety files. ● Monitor progress with the inspection programme. 	Executive Director Finance and Operations / Bursar and Estates Manager
Risk assessments: <ol style="list-style-type: none"> 1. Oversee the maintenance of assessments. 2. Amend and update general assessments. 3. Carry out and maintain display screen assessments. 4. Carry out and maintain manual handling assessments. 5. Carry out and maintain COSHH assessments. 6. Water safety. 	Responsibility for ensuring risk assessments are completed and acted upon falls to: the Estates (Health and Safety) Manager and Security and Operations Manager, along with all those individuals named in the organigram - namely, section and departmental heads
Fire and emergencies: <ul style="list-style-type: none"> ● Oversee fire precautions and carry out alarm tests. ● Maintain the fire log. 	Head of School, Estates (Health and Safety) Manager and Security and Operations Manager
Accidents, diseases and dangerous occurrences: <ul style="list-style-type: none"> ● Make statutory accident and dangerous occurrence reports. ● Maintain records of accidents, dangerous occurrences and diseases. ● Scrutinise sick notes and make statutory disease reports. 	Executive Director Finance and Operations / Bursar, in conjunction with the Head Nurse and Security and Operations Manager and; with respect to sick notes, the Head of Human Resources
