

Giving Families Choices
Elementary and Middle School Family Privacy Options

There are two ways families may ask schools to withhold student-related information. These default to Yes for all students, so this form is used to either opt out or opt back in after previously opting out.

1. Publish information in the PTSA Student Directory – this includes student and parent names, address, grade, phone number, and email address.

Yes No

2. Share information with King County Library System in order to receive an electronic library card – this includes student name, ID number, and date of birth. Selecting No will opt the student out of receiving an electronic library card.

Yes No

Signature of Parent or Legal Guardian

Date

Print Name

Name of Student (PLEASE PRINT)

Important note:

These requests will remain in place during this student’s enrollment in the Issaquah School District, (which includes transition from school to school and grade level to grade level) unless you make changes.

You can make changes in the future by filling out this form and submitting it to the registrar at your student’s school. Copies of this form are available in each school office.
