Stay on top of your health

Use your preventive care benefits

Regular checkups and exams can help you stay healthy and catch problems early, when they are easier to treat. Our health plans offer all the preventive care services and immunizations below at no cost to you.¹ As long as you use a plan doctor, or lab, you will not have to pay anything. If you use providers that are not in your plan, you may have out-of-pocket costs.

If you are not sure which services make sense for you, talk to your doctor.

Preventive versus diagnostic care

Preventive care helps protect you from becoming sick. If your doctor recommends services even though you have no symptoms, that is preventive care. Diagnostic care is when you have symptoms and your doctor recommends services to find out what is causing your symptoms.

1 The range of preventive care services covered at no cost share when provided by plan doctors is designed to meet state and federal requirements. The Department of Health and Human Services decided which services to include for full coverage based on U.S. Preventive Services Task Force A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC), and certain guidelines for infants, children, adolescents and women supported by Health Resources and Services Administration (HRSA) guidelines. You may have additional coverage under your insurance policy. To learn more about what your plan covers, see your **Certificate of Coverage** or call the Member Services number on your ID card.

2 You may be required to receive preapproval for these services.

3 The Centers for Disease Control and Prevention (CDC)-recognized diabetes prevention programs are available for overweight or obese adults with abnormal blood glucose or who have abnormal CVD risk factors.

4 Some plans cover additional vision services. Please see your contract or **Certificate of Coverage** for details.

5 Check your medical policy for details.

6 Breast pumps and supplies must be purchased from plan providers for 100% coverage. We recommend using plan durable medical equipment (DME) suppliers.

7 This benefit also applies to those younger than age 19. A cost share may apply for other prescription contraceptives, based on your drug benefits. Your cost share may be waived if your doctor decides that using the multisource brand or brand name is medically necessary.

8 Counseling services for breastfeeding (lactation) can be provided or supported by a plan doctor or hospital provider, such as a pediatrician, OB-GYN, or family medicine doctor, and hospitals with no member cost share (deductible, copay, or coinsurance). Contact the provider to see if such services are available.
