---	--------------	--------------------------	------------------------------

If sibling(s) are attending one of the District-Wide Schools in the 22-23 school year, please provide the student name along with the school attending. This will indicate your eligibility for sibling preference. Siblings must be in the same building, the same qualifying year to be considered for sibling preference. (Cousins do not qualify as siblings.) i.e. If you have an outgoing 5th/8th grade in 22-23 (going on to middle/high school), your incoming K grader would not qualify for sibling preference. Sibling applications must be in by midnight January 17th, to be included in the first drawing. Siblings applying after January 17th, will go into the lottery pool until space becomes available.
