#### **District Priorities**

Your Board of Education has a newly developed ends policy, which defines their dreams and goals for our students.

Eagle County Schools students are inspired and able to reach their individual potential, will acquire a passion for life-long learning, the desire to succeed, and the ability to participate and contribute, both locally and globally, as a competitive and responsible citizen and community member.

Eagle County Schools has always had the goal of pushing students to higher achievement, as confirmed in our mission statement of 'Educating Every Student for Success.' This year, we are pushing that goal to a whole new level. We have developed individual multi-year goals for each and every student in grades two through ten. When you meet with your child's teacher in the fall, please be sure to ask what your child's individual achievement goal is for this year. By setting an individual target for each child and designing programs to help students reach those targets, we are paying attention to the needs of each student, whether they are high-achieving or low-achieving.

Eagle County Schools is entering into year two of the three year 'Closing the Achievement Gap' (CTAG) initiative, funded by the State. As we partner closely with Colorado Department of Education (CDE) and Edison Alliance, we are consistently working to meet the needs of all of our students. Our focus on individual goals will allow us to further support this initiative by concentrating on every single child.

Grade level competency in reading, writing and math is crucial, but it is only one piece of the puzzle. We want to do our part in developing well-rounded, inspired, passionate young people. We want them to leave our District ready, able and willing to go out and change the world.

#### Summary

Eagle County School district patrons can remain confident in the district's determination to maintain quality education programs and sound financial condition. The district continually strives to keep resources strategically focused on improving student learning, while seriously accepting the responsibility of public funds' stewardship. The rigorous and systematic budget process ensures that taxpayers' monies are spent efficiently and responsibly, always with the goal of providing our students a quality education.

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

The District was formed under the laws of the State of Colorado and operates under an elected Board of Education. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the District. No additional separate governmental units, agencies, or nonprofit corporations are included in the financial statements of the District since none are financially accountable to the District. Financial accountability includes but is not limited to, appointment of a voting majority of the organizations' governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

The District does not exercise oversight responsibility over any other entity, nor is the District a component unit of any other governmental entity.

#### **Fund Accounting**

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

#### Governmental Funds

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Fund - The Debt Service Fund (Bond Redemption) is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Capital Projects Fund - The Capital Projects Fund is used to account for the construction or acquisition of capital facilities. Receipts for these purposes arise from the sale of bonds, grants from other governmental units, transfers from other funds or gifts from individuals or organizations.

#### Proprietary Funds

Enterprise Funds - Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. It is the intent of the District that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges or where the governing body has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Funds - The Internal Service Funds account for goods and services provided to other departments or funds of the District on a cost-reimbursement basis.

#### Fiduciary Fund

Agency Fund - The Agency Fund accounts for assets held by the District as an agent for student clubs and other organizations.

#### Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Governmental funds are used to account for the government's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The government considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

fund liability is incurred, except for un-matured interest on general long-term debt that is recognized when due, and certain compensated absences and claims and judgments that are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Those revenues susceptible to accrual are property taxes, grant expenditure reimbursements, and charges for services.

Proprietary fund types utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

#### **Budgets**

Budgets are required by state law for all funds. Budgets are adopted on a basis consistent with generally accepted accounting principles, except for the Food Service Fund and the District Housing Fund. The budgets for the Food Service Fund and the District Housing Fund are adopted on a basis consistent with GAAP, except that fixed asset acquisitions are treated as expenditures, depreciation is not budgeted, contributed capital is treated as revenue, and the values of commodities received and used are not included. Budgets are adopted in accordance with School District Budget Law, with annual appropriated budgets for each fund of the district. All appropriations lapse at fiscal year end.

The modified accrual basis of accounting is the basis of accounting for all funds, except for the Food Service Fund and the District Housing Fund. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available; expenditures are recorded when the related fund liability is incurred. The accrual basis of accounting is utilized by the Food Service Fund and the District Housing Fund, wherein revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Depreciation is computed and recorded as an operating expense and expenditures for fixed assets are shown as increases to assets.

Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments within any fund and the reallocation of budget line items within any department within any fund rests with the Superintendent of Schools. Revisions that alter the total appropriation of any fund must be approved by the Board of Education. Appropriations are based on total funds expected to be available in each budget year, including beginning fund balances and reserves as established by the Board of Education. Variances between budget and actual result from the non-expenditure of reserves, non-occurrence of anticipated events, scheduling of capital projects and normal operating variances. All appropriations lapse at fiscal year end.

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

#### **Encumbrances**

Encumbrances represent commitments related to unperformed contracts for goods and services. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in all funds except for the Employee Benefit Trust Fund. Encumbrances outstanding at year-end are considered immaterial and thus are not reported as reservations of fund balances.

#### Cash and Investments

In order to facilitate the recording of cash transactions and maximize earnings on investments, the District has combined the cash and investments of all funds and maintains accountability for each fund's equity in the pooled cash and investments.

All funds of the District are eligible for investments and may be combined in an investment instrument to maximize earnings. Investment earnings using combined funds recorded in the General Fund per Board Policy, except for earnings on investments held under certain trust agreements. Investments are stated at cost or amortized cost.

#### BUDGET DEVELOPMENT PROCESS

#### **Budget Overview**

The annual operating budget represents the district's plan to ensure scarce financial resources are spent in as efficient and effective manner as possible to meet the district's goals. It has been developed to allocate the district's resources to programs and services that add value to the educational excellence the district provides its students.

The purpose of this budget document is to serve as a policy document, financial plan, operation guide and communication device.

#### **Budget Process**

Eagle County School's budget process is on-going. It is developed to strategically focus the district's resources into programs and services that meet the changing needs of students.

Based upon input from the Board of Education, the Administrative Team, the District Budget Committee, negotiated salary agreements and other relevant information, the Business Services department develops budget guidelines for allocation of funds. The budget guidelines and all information necessary to develop a budget are sent to each budget manager to determine the placement of allocated funds which best meets the needs of their students or departments.

During May, the Superintendent of Schools submits to the Board of Education a proposed budget for all funds for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. Public comment is encouraged by the Board of Education to obtain taxpayer comments. Prior to June 30, the budget is adopted by formal resolution.

The budget process does not end with the final approval of the new fiscal year's budget. As costs are incurred during the current year, they are recorded against the program and line item budget amount so that an accurate picture of the comparison between expenditures and budget allocation always exists. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

### **BUDGET DOCUMENT**

This budget document was designed to provide the general public with extensive and readable information about the school system. It is intended, also, as a working reference document for administrators and other school personnel.

The Table of Contents lists every topic covered in this document and its page number. As an additional aid, the document is divided into the following four sections:

- Introductory Section Provides general information about the school system, including composition of the School Board and organizational chart.
- Organizational Section The district's budget is condensed in budget summary form for those readers who may not be interested in more detailed information. In addition, the budget development process, a presentation of revenue sources and comparative budgetary data have been included.
- Financial Section In the financial section, each area is described by its current activities and its budget amount. As a result, budget information is organized by each area, identifying the services each level or department provides. It includes all governmental funds, a summary of revenue and expenditures for the general fund and all other funds of the district.
- Informational Section This last section includes a multitude of miscellaneous types of information typically sought by interested parties over past years including performance measures, enrollment trends, staffing and employee trends, revenue and expenditure trends and the glossary.

#### **BUDGET FACTS AND ASSUMPTIONS**

The 2008-09 budget was developed knowing certain facts and making certain assumptions based on information available at the time of preparation. These facts and assumptions are as follows:

#### Facts:

- 1. Legislators completed the amount of funding for K-12 education for 2009-10. The budget has been prepared with a per pupil revenue increase of 4.9% from \$7,154 to \$7,591 via the Colorado Public School Finance Act.
- 2. This budget's revenue projections were prepared using information provided by the Colorado Department of Education, the County Assessor, the federal government, and other sources using methods recommended in the Colorado Department of Education's Financial Policies and Procedures Handbook. This budget's expenditure estimates were prepared based on program needs, enrollment projections, mandated requirements, employee negotiations, contracted services and anticipated changes in economic conditions.
- 3. Beginning fund balances plus revenues equal expenditures and ending reserves in all funds.
- 4. All employee groups are eligible for a lump-sum payment for performance in August. The proposed budget includes estimated salaries including a lump sum average of up to 4.0%.
- 5. All administrators are on a min-max schedule that represents the average of like size districts plus cost of living.
- 6. Health and dental benefits for all eligible employees have been projected to increase 6% for 2009-10. This insurance premium is shared between the employer and employee with the District paying 85% of the single premium and the employee paying 15%. Additionally, the family premium is set at 2.1 times the single premium.

#### **Assumptions:**

- Actual funding to the district is primarily provided by the Colorado Public School Finance Act, which is calculated from the pupil counts taken on October 1, 2010. The funded pupil count is projected to increase from 5,592 in 2008-09 to 5,569 in 2009-10. This is a projected decrease of 23 funded students.
- 2. The ratio for assessment of residential property will remain the same at 7.96%. The ratio for assessment of commercial property will remain the same at 29%.
- 3. The mill levy will not be known until mid-August.
- 4. 0.50% of property taxes will not be collectable or recoverable.

#### **Revenues:**

The district receives its revenue primarily from local sources in the General Fund. Total estimated revenue for the 2009-10 budget is \$54,473,149. The majority of this revenue \$38,445,596 (76.8%) is available to the district through the Colorado Public School Finance Act, which authorizes per pupil funding of students in the amount of \$7,591. This revenue is determined through a formula, which utilizes local property taxes; state equalized specific ownership taxes and state funds.

The Colorado Public School Finance Act is based on the pupil count taken on October 1 of the budget year. Thus, this estimated revenue to the General Fund is based on the projected funded pupil count of 5,569 at \$7,591 per pupil.

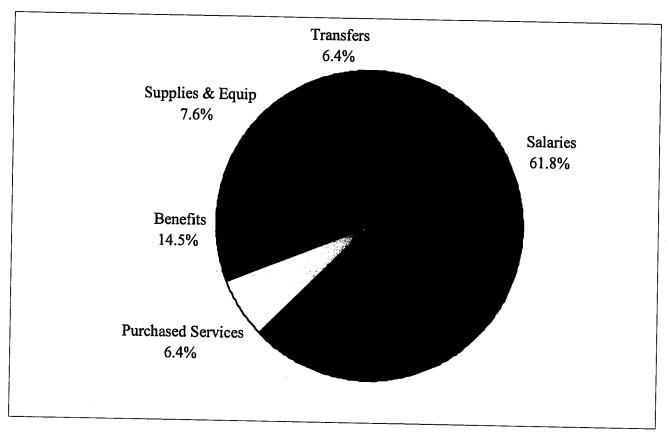

In addition, the Colorado School Finance Act allows the district to levy mills to collect property taxes for the override election of November 1989 and 1998; the "hold-harmless" provision in the Colorado School Finance Act; the cost-of-living election in November 2001 and for the recovery of abated taxes. This revenue is estimated at \$8,150,000.

In addition to the Colorado School Finance Act, the district receives categorical funding for pupil transportation, the Exceptional Children's Education Act (special education), English as a Second Language and vocational education from the state. The budget estimates these to be a total of \$850,000.

#### **Expenditures:**

Total estimated expenditures and transfers for 2009-10 in the General Fund is \$56,210,476. The District's major expenditures are salary 61.8%; benefits 14.5%; purchased services that includes utilities 6.4%; supplies and equipment 7.6%; and transfers 9.3% of the budget.

#### Mill Levy

The General Fund mill levy for 2009, collected in 2010 is estimated to be 14.944 mills, an increase from the 2008 levy of 14.855 mills. The estimated 2008 mill levy for the Bond Redemption Fund is 4.619 mills and the Transportation Fund is 0.305 mills. This is a total mill levy for 2008 of 19.868 mills.

A property owner in Eagle County School District would pay \$158 per \$100,000 of market value in 2009 compared to \$162 per \$100,000 of market value in 2008. Final assessment values will not be reported to the district until December 2009; the actual 2010 mill levy for the district will not be certified by the Board of Education until December 2009. Therefore, a current, accurate calculation of the tax cost to the homeowner will be calculated on December 15, 2009.

#### Assessed Valuation

The district currently estimates that the assessed valuation or "tax base" for 2010 will be \$3,276,477,632. This estimated assessed valuation is based on projections received from the Colorado State Legislative Council. This amount represents an increase of \$342,785,548 0.12% from the 2009 assessed value of \$2,933,684,930.

### EXPENDITURE DETAIL INTRODUCTION AND OVERVIEW

The following expenditure detail will allow interested readers to compare three years of expenditures (2009-10 budget, 2008-09 budget, and 2007-08 actual) on a more detailed level. A summary page is presented for each category followed by the detailed pages included in that category. The budget detail is grouped into the following categories:

| Budget Detail Category   | Initial Page         |
|--|----------------------|
| Elementary Education Middle School Education High School Education Special Programs Support Services | 29<br>51<br>61<br>71 |

Instruction budgets at the elementary, middle and high school levels include teachers, aides, instructional supplies, librarians, and counselors, office of the principal, custodians, and utilities. Costs, which are incurred to operate the school but managed centrally for cost effectiveness, i.e., maintenance of buildings, human resources, etc., are summarized in the support component section.

The traditional line-item budget format continues to be prepared because it conforms to the format used by the Colorado Department of Education. The traditional budget format and the budget detail are identical in terms of the total amount. The traditional line-item budget is available for review in the Business Services department.

### ALLOCATION OF BUDGET TO SCHOOLS

Each of the district's schools is allocated resources on the basis of projected funded pupil count. This funding is designated through two formulas, which cover the costs of:

- Staffing, i.e. teachers, aides, counselors, librarians, principals, office personnel, etc.
- Supplies, equipment, and staff development.

Staffing is allocated through a staffing formula, which ensures that staffing is distributed to schools equitably. Schools may allocate their staff differently depending on the needs of their student population. This flexibility encourages the collaborative input of local school advisory committees. The staffing levels for each educational level are:

Elementary School 12.32 students/staffing unit or 8.12 staff/100 students Middle School 13.36 students/staffing unit or 7.49 staff/100 students High School 13.36 students/staffing unit or 7.49 staff/100 students

These staffing levels insure that the Administrative Policy IIB on class size is met. The current class size guideline is K-1, 20 students per class; grades 2-3, 23 students per class; grades 4-6, 25 students per class and grades 7-12, a school average of 25 students per class.

Differences in budgeted costs per school do occur and are primarily the result of variations in:

- Number of pupils
- Square footage of school
- Age of school
- Utility costs
- Experience of staff

#### STUDENT FEES

Students shall not be charged an instructional fee as a condition of enrollment in school or as a condition of attendance in any class that is considered part of the academic portion of the District's educational program, except tuition when allowed by law. However, the District requires students to pay for expendable materials above the basic requirement, athletic/activity fees and miscellaneous fees for field trips. The fees for Eagle County School District RE50J for 2009-10 are as follows:

SCHOOL PROFILE

The Red Table Early Learning Center (RTELC) Program is inspired by the Reggio Emilia Philosophy. This educational experience is based on the image of the child who has great potentials for development and is the subject of rights, a child who learns and grows in relation with others. RTELC being apart of the Eagle County School District values small class size, low teacher-child ratios, individualized program planning and collaborative partnerships with families. We believe that each child is a unique and priceless gift entrusted to our care. We respect, value, and accept children as we guide and support their learning experiences.

The Red Table Early Learning Center operates from 7:30am-5:30pm. The center is open Monday through Friday and is open year-round except for holidays and 4-5 scheduled and announced staff development days.

#### OTHER FUNDS

State law requires each Board of Education to approve expenditures of all funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts and with its own assets, liabilities, and fund equity, which are segregated for the purpose of conducting specific activities of the district in accordance with special regulations, restrictions, and limitations.

This section of the budget document presents all funds, other than the General Fund, for review and comparison purposes. In order, they are:

- Bond Redemption Fund
- Building Fund
- Capital Reserve Fund
- Charter School Fund
- Designated Purpose Grants Fund
- District Housing Fund
- Employee Benefit Trust Fund
- Food Service Fund
- Student Activity Fund
- Transportation Fund

#### BOND REDEMPTION FUND

Legal Citation: The District has a tax levy for bonded indebtedness, therefore, this fund is required by Colorado Revised Statute 22-45-103(b).

**Purpose:** The Bond Redemption Fund provides revenues based on a property tax mill set by the School Board to satisfy the District's bonded indebtedness on an annual basis.

**Revenues:** The sole revenue for the Bond Redemption Fund is property tax revenue. The projected mill levy for 2010 is 5.145 mills based on an estimated assessed valuation of \$2,995,428,041.

Expenditures: The expenditures for this fund are principal, interest, and service fees for the voter approved bonds. Outstanding indebtedness at June 30, 2010, will be \$251,421,304 with final maturity scheduled for December 1, 2026. The reserve balance represents a timing issue in the Bond Redemption Fund. Taxes collected in the spring must be used to pay the June and December debt payment of the same calendar year. Therefore, at the end of the District's fiscal year, June taxes have been collected but the second calendar debt payment has not been made. The taxes are held in reserve to make the December principal and interest payment. The following table presents the scheduled principal and interest payments to maturity:

| <u>Year</u> | <u>Interest</u> | <b>Principal</b> | <u>Total</u>  |
|-------------|-----------------|------------------|---------------|
|             |                 |                  | •             |

The computation of the district's legal debt margin is determined as 20 percent of assessed valuation, less the principal amount of bonded debt outstanding. As of June 30, 2009 the legal debt margin calculation is estimated to be as follows:

| 2008 estimated assessed valuation | \$2,995,428,041      |
|-----------------------------------|----------------------|
| Times – Limitation Percent        | x 20%                |
| Legal Debt Limit                  | \$ 599,085,608       |
| Less Outstanding Bonded Debt      | <u>(251,421,304)</u> |
| Legal Debt Margin                 | \$ 347,657,567       |

#### **BUILDING FUND**

**Legal Citation**: This fund is required to separate bond sale proceeds and investment of bond proceeds from all other District money. The requirement is part of the bond covenants.

**Purpose:** The Building Fund is used for capital improvements that are authorized and defined in the ballot question.

Revenue: The Building Fund is initially funded from the proceeds of a voter approved bond sale. In addition, the fund receives the income generated by investing the bond proceeds in U.S. Government Securities or U.S. Government guaranteed accounts. Investment earnings are limited by IRS rules governing arbitrage on tax exempt bond proceeds. Investment earnings for 2009-10 are estimated to be \$1.20 million.

**Expenditures:** The voter approved bond question determined how this fund may be spent. The current plan is to spend Building Fund money over four years on the following projects:

| Battle Mountain High School       | \$63,235,552  |
|-----------------------------------|---------------|
| Renovate Eagle Valley High School | 21,499,642    |
| New June Creek Elementary School  | 22,173,030    |
| Small Facility Repair Projects    | 3,000,000     |
| Energy Conservation Projects      | 5,900,000     |
| Technology                        | 4,400,000     |

| Total                             | \$134,070,000 |

Of the above total expenditure plan, an estimated \$20.3 million was spent in 2006-07, \$63.5 million in 2007-08 with the remainder being spend in 2008-09 and 2009-10.

#### CHARTER SCHOOL FUND

Legal Citation: This fund is required but Charter School transactions are considered part of the General Fund. A different fund number is used so charter school activities can be identified.

**Purpose:** The Charter School Fund is provided to maintain a separate account for their expenses so data is identifiable.

**Revenue:** The district allocates \$7,154 per student to each charter school based on their October 1 funded pupil count. The schools raise additional money from other sources such as foundations and donations.

#### DESIGNATED PURPOSE GRANTS FUND

**Legal Citation:** This fund is optional under Colorado Revised Statutes. However, based on federal reporting requirements, the district has chosen to maintain all federal grants in a separate fund.

**Purpose:** The Designated Purpose Grants Fund is provided to maintain a separate accounting for federal grant programs which are restricted as to the type of expenditures for which they may be used, and which may have a different fiscal period than that of the district.

Revenue: The district seeks grants from federal sources to provide additional and/or alternative funding for school district programs. As grants are received, the Board of Education formally accepts the grant, which establishes the accounting records for the grant.

| • | Title VI                    | Provides for master and mentor teacher stipends at each building  |

**Expenditures:** Expenditures for designated purpose grants must be made in accordance with the conditions of each grant.

## Eagle, Colorado

#### FOOD SERVICE FUND

Legal Citation: This fund is mandatory under the Colorado Code of Regulations 301-11-3.11.

**Purpose:** The Food Service Fund provides meals at 15 of the 18 schools in the district. The Food Service program also operates a bakery that provides bread, rolls and dessert items for all of the cafeterias as well as for other district programs.

**Revenues:** Revenue is generated by student and adult meal sales, as well as offering individual items for sale a la carte. The Food Service program receives a federal reimbursement for a portion of the meals served and participates in the federal commodity program.

School lunch prices will not increase for 2009-10 and are as follows:

| Elementary student    | \$3.00 |
|-----------------------|--------|
| Middle school student | 3.00   |
| High school student   | 3.00   |
| Milk carton           | .40    |

**Expenditures:** The Food Service Fund is working towards supporting all expenditures with revenue collections. The General Fund is supporting the Food Service Fund with an operating transfer in 2008-09 representing the Food Service Fund share of the November 2001 election. This transfer is expected to reduce over time and eventually be eliminated in future years, as the program again becomes profitable.

Account Group: These groups account for and control general fixed assets and general long-term debt.

Accrual Basis: The basis of accounting under which revenues are recorded when they are levied and expenditures are generally recorded when a related liability is incurred, regardless of when the revenue is actually received or the payment is actually made.

**Appropriation:** A specific amount of money authorized by the Board of Education for the purchase of goods/services. This represents the annual spending plan for the district. An appropriation is usually limited in amount and the time when it may be expended.

Asbestos Hazard Emergency Response Act (AHERA): This is a regulation that requires schools to conduct inspections, develop comprehensive asbestos management plans, and select asbestos response action to deal with asbestos hazards.

**Assessed Valuation:** This is the value placed on property, both land and building, by the Eagle County Assessor. Property taxes are paid on the basis of a property's assessed valuation, which does not necessarily correspond to the property's marker value.

Assessment Ratio: A percentage used to multiply the market value of a home which results in the assessed value of that home.

Balance Sheet: A summarized statement, as of a given date, of the financial position of the district per fund and/or all funds combined showing assets, liabilities, reserves, and fund balance.

#### GLOSSARY (CONTINUED):

**Board of Education:** The elected body that has been created according to state law and vested with responsibilities for education activities in a given geographical area.

**Bonded Debt:** An obligation resulting from the borrowing of money through issuance of General Obligation Bonds by the school district.

Bond, General Obligation: A written promise to pay specified amounts of money at certain times in the future and carrying interest at fixed rates. The obligation to pay is backed by the taxing authority of the district. The items that these funds can be used for are stated on the ballot when the issue is presented to the people. Money can be spent only for these authorized purposes. Proceeds from bond issues cannot be used to pay the daily operating expenses of a school district.

**Budget:** An annual financial plan that identifies revenues specifies the type and level of services to be provided, and establishes the amount of money, which can be spent. This is a pre-plan to the appropriation and is used by the district in establishing annual mill levies.

Budgetary Reserve: This account is not an expenditure function or account. It is strictly a budgetary account to provide for contingencies.

Business Services: Those activities concerned with the administering of the district's business functions, the accounting for purchasing, data processing, storage and district physical inventories.

Capital Outlay: School district expenditures for the acquisition of fixed assets which are presumed to have benefits for more than one year and which cost at least \$750.00 for equipment and \$2,500 for remodeling projects. Examples include the acquisition of land or existing buildings, improvements to grounds, construction of buildings, additions to buildings, remodeling of buildings, furniture, vehicles and equipment.

Categorical Programs: In addition to the Total Program funding provided by the Public School Finance Act of 1994 (as amended), school districts receive state funding to pay for transportation, special education, vocational education, and the English Language Proficiency Act. These programs are referred to as "categorical" programs. Eagle County School District is capable of funding the entire Total Program using only specific ownership taxes and property taxes. The district must also fund their categorical programs where possible by increasing the property tax mill levy. As such, the district "buys out" state funding of the programs using the additional property tax revenue generated by the increased mill levy.

CDE: Colorado Department of Education.

Therefore districts were allowed to operate with higher funding amount. This is now part of the override election.

**Program:** The effort to accomplish a specific objective or objectives consistent with funds or resources available. Budgets and actual revenue and expenditure records may be maintained per program.

Property owned by governmental, charitable, and religious institutions is exempt from taxation.

## GLOSSARY (CONTINUED):

Property Tax Carryforward: In 1992, school districts began to use a July through June budget year rather than the calendar year on which they previously had been operating. This change caused some districts to generate property taxes greater than total program needs. Districts are required to carry forward the excess property tax collections for use in later budget years. Annually, districts carry forward balances to offset any State Share, including Minimum State Share, or state categorical program funding which they otherwise would be eligible to receive. Public School Finance Act of 1994: CRS 22-53-101, et. Seq., enacted in 1994, seeks to provide for a thorough and uniform system of public schools throughout the state. It requires that all school districts operate under the same finance formula and that equity considerations dictate all districts be subject to the expenditure and maximum levy provisions of this act. Colorado's 176 school districts each have a different per-pupil funding based upon four factors: size adjustment, cost of living adjustment, personnel costs factor, and at-risk factor.

#### GLOSSARY (CONTINUED):

The Total Program amount also includes additional funding for atrisk pupils.
