Want to speed up the process?

Make a QR Test Code for your child before coming to a testing event

How to:

1. Click <https://register.pennrapidtest.org/> or enter this url into your web browser (the app is not compatible with Internet Explorer but should work on most other web browsers).
2. Follow instructions on your screen, which include answering questions about your (child's) demographic info. to create a personalized QR code.

Screen #1:

PA rapidtest

This site allows you to preregister for a COVID-19 test. Please fill the form with your information. Once it is completed, this website will display a QR code. You may take a screenshot of the QR code or print out the webpage. Bring this QR code with you to the testing site. Click next to continue.

Address Address Line 2 City

State Zip County

Clear Form Submit

Screen #4:

3. Take a screengrab (photo) of the QR code and store it in your device in your photos app; or, cut/paste the screengrab onto a Word .doc, and print it out.

4. You may create as many personalized QR codes as you wish – each time you create a new one, you'll enter your demographic data; but each time you use that QR code in the PA Rapid Test app at a testing event, your demographic data will pre-populate.

Thank you!
