Purpose: The purpose of this meeting is for the redistricting advisory committee to hear feedback from the public about the redistricting for the expansion of Crozet Elementary School. Members of the public will have either two or three minutes (depending on the number of participants) to share their feedback with the committee. The committee will not be responding directly to participants but will use the feedback as they prepare their final recommendation for the Superintendent.

Agenda Summary: Hear feedback from the community on the redistricting

Facilitators: Patrick McLaughlin

Note Taker: Stephanie Bowles

275 moved making Crozet's total students 585

Community Feedback:

11/4/21 - Community members, all from Chesterfield landing, discussed the impact losing walkability from Chesterfield landing would cause. The community of walkers enjoys the safe trails through the Meadows neighborhood that allows them to spend time together, enjoy nature and connect with the elder community that has come to depend on their daily interactions with the families. They have built a community in addition; the loss of walkability would increase traffic unnecessarily on Crozet Avenue. Furthermore, taking away walkability is a far less healthy option. Numerous families expressed moving to the area, making life-changing decisions including but not limited to changes in employment to choose a home in Chesterfield landing because of the extensive trails and walkability they provide.

11/9/21 – Community members were discouraged by the demographics slide and the 10% that was not accounted for. The slide highlights Black, Hispanic/Latino, White as well as English Lerner's and Economically Disadvantaged. This 10% is not an invisible population and does not want to be treated as such. They would like to see the numbers reflect the 10% moving forward. Of the four (4) scenarios one community member noted they preferred four (4) as it moved the most students making room for growth in areas like Old Trail that are expanding with the inclusion of many apartments. Revisiting this in less than 10 years is not ideal.
