2021-22 Adopted Budget

Welcome

Thank you for reviewing the Boulder Valley School District annual Budget.

This is an unprecedented time in our country and in PK-12 education. There is no doubt that the past 18 months, during the pandemic, have been the most challenging in my career.

Adding to the stress of changing health guidelines and fluctuating enrollment numbers, we have faced many unknowns when it comes to the related economic crash and recovery efforts from our state and federal governments. This made the already difficult prospect of developing a PK-12 budget, in a state like Colorado where education funding is meager, even tougher. We have had to wait to see the impacts of inflation and legislative decisions, while depending on the support of our outstanding community, which consistently supports quality schools with their time, talent, and resources.

Needless to say, we have had to be nimble and flexible to navigate it all.

As always, the Board of Education and BVSD employees are committed to maximizing the resources allocated to the school district through effective instructional practices and efficient operations. During the pandemic, we looked to stretch those resources even further, ensure that our students had additional supports, our families did not go hungry and that our employees continued to receive a paycheck. If the true caliber of an institution is shown in the way that it handles crises, the Boulder Valley School District deserves its reputation as one of the best school districts in Colorado.

We always say that People are Our Strength in BVSD and that shone brighter than ever during this crisis.

The talented and experienced BVSD employees remain dedicated to providing excellent and equitable learning opportunities for every student in the district, even with the unknowns we are facing. The primary goal of the district is to prepare students for success in further study, employment, and participation in a global environment.

The budget presented in this document supports the commitment of BVSD to provide a high quality education for all students regardless of the uncertainty created by the COVID-19 pandemic.

Acknowledgements and Awards

Thank you to the dedicated Budget Services staff (Kari Albright, Christine Buchholtz, Christal Dominguez, Phil Winterbourne, Nicole Buffington, Gillian Luis, and Kim Carpentier) for their committed efforts in producing this document.

This Meritorious Budget Award is presented to

From: Bill Sutter, Chief Financial Officer and

Subject: 2021-22 Adopted Budget

The ensuing document contains information and details regarding the 2021-22 Adopted Budget for fiscal year July 01, 2021 – June 30, 2022. The Board of Education approved the 2021-22 fiscal year budget on June 8, 2021. This financial plan supports a quality education for all students, while maintaining financial stability within available resources.

The funding of public education in Colorado is a complex challenge. Amidst those challenges, the Boulder Valley School District aims to identify and fund active, interventionist approaches to student learning that provide excellent and equitable opportunities for all of its students, so that they may become successful Boulder Valley School District graduates. For the vast majority of our students, the district is meeting or exceeding student, teacher, and parent expectations. This point is proven by our consistent academic showing among the top three of Colorado's large front range school districts—and often the top district—as measured by state and national academic rankings.

For maximum learning and achievement to continue, budget considerations include the direct support provided in schools and classrooms as well as the operational support across the district. To do this, staff must keep current with state and federal regulations, develop curriculum and instruction to meet state standards, manage a multimillion dollar budget, and maintain the wide range of support operations within the organization. With multiple sources of revenue, federal and state mandates, and diverse stakeholders, it is important to ensure that the district's strategic plan guides resource allocations. The development of this budget takes into account these considerations relevant to the Boulder Valley School District and community at large.

This fiscal year's budget is built upon a 2020 inflation factor of 2.0 percent and the Budget Stabilization Factor (Negative Factor) being reduced by a significant \$479.7M from the 2020-21 fiscal year, resulting in the current amount being \$572.4M, with the Boulder Valley School District portion being \$19.3M. The remaining amount of the Budget Stabilization Factor represents a 6.8 percent reduction in total program funding. The Budget Stabilization Factor was instituted in fiscal year 2009-10 as a means of reducing the state's investment in K-12 education during the economic downturn. Following years of constrained state funding, it remains a significant challenge for the district to maintain current programs, continue to address critical needs in the areas of increasing the proficiency level of all students, addressing the social-emotional needs of students, and maintaining district operations in 63 facilities on over 700 acres, distributed across 500 square miles.

One new program in particular is included within the 2021-22 Adopted Budget which deserves special attention. On November 10, 2020, the BVSD Board of Education passed Resolution 20-33 - Addressing Equitable Discipline and Approaches to Student Conduct. This resolution directed the superintendent to:

- develop a timeline and budget to accelerate the work of Strategic Initiative 6a, specifically regarding the
 development and implementation of equitable disciplinary practices by developing a comprehensive plan
 to reduce disparities in school discipline, including ending the current SRO program
- use a process to develop the comprehensive plan that incorporates diverse voices of administrators, teachers, students, parents, and community partners, specifically including people who are BIPOC, LGBTQIA, and have disabilities
- assure the comprehensive plan incorporates the development of new school safety plans, revised intergovernmental agreements with BVSD's multiple law enforcement agencies, and opportunities for the community to learn about and provide input into school safety plans
- provide quarterly updates on the process to develop the comprehensive plan, and no later than May 1, 2021 in accordance with the Board's normal budget cycle, to present the comprehensive plan, including a target date for ending the current SRO program of January 2022.

Letter of Transmittal (continued)

This budget includes \$2.0M in funding to address the requirements set forth in the resolution. Final plans for staffing to include school safety staff and mental health supports which will be implemented by the deadline set in the resolution.

While the Colorado economic recovery continues to exceed expectations, there is some concern for the future due to enrollment declines in BVSD and across the state, coupled with the limited investment in PK-12 public education from the state legislature. This, largely constrained by Colorado's constitutional thicket of conflicting requirements and constraints regarding the investment in public services for all of Colorado's residents. The Boulder Valley School District is managing its operations in the near term, though priorities set by elected state officials for investing state resources continue to create budget challenges and dilemmas for the future regarding funding for public education. These factors necessitate prudent fiscal management to maintain the stability of the Boulder Valley School District. Meeting current educational needs must be balanced with an outlook toward the future.

This budget document details what we do, how we do it, and where the district is headed as an organization. It is always our goal to be accountable and responsive to the needs of our community within the projected resources available, and to operate the district with sound fiscal principles of integrity, responsibility, and a long-range financial vision. The district budget policies detailed in this book support this commitment.

This extensive document was prepared by the staff of the district's Business Services Division and, to the best of our knowledge and belief, the enclosed data are accurate in all material respects, and are reported in a manner to present fairly the financial position and planned operations of the Boulder Valley School District for the 2021-22 fiscal year.

Our Purpose

It is well-known in the community and in Colorado that the Boulder Valley School District (BVSD) is already among the highest achieving of Colorado's 178 school districts. What may not be as well-known is the shared determination of students, parents, teachers, administrators, and community leaders to make BVSD the educational answer for each student in the district regardless of circumstance or background. Each child brings a unique and worthwhile contribution to the learning community.

Vision

We develop our children's greatest abilities and make possible the discovery and pursuit of their dreams, which when fulfilled will benefit us all. We provide a comprehensive and innovative approach to education and graduate successful, curious life-long learners who confidently confront the great challenges of their time.

Mission

The mission of the Boulder Valley School District is to create challenging, meaningful and engaging learning opportunities so that all children thrive and are prepared for successful, civically engaged lives.

Value Statements

- 1. We respect the inherent value of each student and incorporate the strengths and diversity of students, families, staff and communities.
- 2. Societal inequities and unique learning needs will not be barriers to student success.
- 3. We address the intellectual growth, health and physical development, and social-emotional well-being of students.
- 4. We value accountability and transparency at all levels.

Strategic Plan

The Boulder Valley School District has developed a new Strategic Plan that we call **All Together for All Students**. This ambitious, exciting, and comprehensive effort will guide BVSD for the next five years and aims at bringing everyone together to meet the needs of all students.

We believe that Boulder Valley is uniquely positioned because of its resources and outstanding educators to overcome the challenges we face, including an achievement gap that educators across Colorado and the nation have struggled to address.

Built upon a solid foundation

The new strategic plan was developed by BVSD educators utilizing the feedback of more than 1,400 staff members and more than 500 parents and community members. Superintendent Rob Anderson visited all 56 BVSD schools, every BVSD facility, and held six regional community forums in English and three in Spanish.

The new plan also builds upon the success of BVSD's previous strategic plan, The Success Effect and its three initiatives: Talent, Learning, and Partnerships.

Finally, the team reviewed a tremendous amount of data regarding student, school, and district performance as they crafted a plan to address some of BVSD's most pressing needs.

Student-focused

Our strategic plan is focused first and foremost on students. After analyzing volumes of data and feedback from educators and the community, BVSD set three Long Term Student Outcomes that will drive everything we do:

More simply, our goal is to Ignite the passion of learning in every student, Equip them will the skills needed to overcome the achievement gap and to prepare them to Soar in whatever they do after school.

Strategic Plan (continued)

Starting Strong

While everything in the strategic plan is important, we also know that it is crucial that we pace ourselves. That is why we started with only six of the 13 initiatives:

- **PK-12 Pathways for Students**. Providing consistency and coherence across the entire BVSD system, so that students learn the most important things and build upon their learning from year-to-year.
- **Best Instructional Practices**. Establishment of effective instructional practices that meet diverse student needs.
- **One size doesn't fit all**. Every school is different, so we are setting up a system that more equitably shares resources based on the needs of schools and their communities.
- **Keep what works. Toss what doesn't.** School districts are notorious for keeping programs that don't work. We are assessing current and future programs to ensure they're beneficial for students.
- **Howdy Partner.** We know our goals are only achievable through effective partnerships with our community, including non-profits and businesses.
- **Everyone is welcome.** Our goal is to ensure that BVSD is a warm, welcoming, and safe environment for every student regardless of their background, race, gender, or other identifying characteristics. We aim to implement practices that challenge inequity and bias.

Customized for each school

The problem with most strategic plans is that they broadly implement ideas and supports from the district to all schools. Every school is expected to implement all initiatives, regardless of their situation. As a result, few are fully implemented.

In contrast, we believe that everyone cannot do everything the same if we all want to get better. We are customizing and vertically aligning support based on the specific needs of each school and community.

This also aligns with the district's recent reorganization. Schools have now been grouped in regional areas and district support staff have worked to meet with each school's leader to determine the best way to utilize resources that are the most impactful for students.

Learn more about the plan at bvsd.org/strategic-plan.

Strategic Plan (continued)

The Boulder Valley School District is moving from design to implementation with its <u>All Together for All Students</u> Strategic Plan.

Following a thorough design process led by BVSD's teacher-leaders, educators across the district are now in the process of standing up the Four Pillars of Instruction and integrating culturally and linguistically responsive teaching practices, which will effectively address the many systemic issues that we believe have led to the district's historic achievement gaps.

Four Pillars of Instruction

The Multi-Tiered System of Supports provides our students with individualized support to meet both their academic and behavior challenges. The system includes Universal instructional Practices initiatives for all students, as well as more targeted support and acute interventions, when needed.

Common Instructional Model is a set of researched based teaching progression that, when used by educators, results in student engagement and growth.

learners. Teacher facilitates learning in whole group, small group and individual contexts with relationships at the core of the teaching and high levels of student interaction and collaboration.

Scope/Sequence BVSD educators have prioritized the State of Colorado standards and what order they should be taught from year to year, to ensure that students have the knowledge and skills they need as they build upon their learning from grade-to-grade – starting in preschool.

Balanced Assessment System as students are learning, it is critically important for us to check in with them along the way to see whether they've picked up the concepts we are teaching, or whether they may need additional support in specific areas. This is accomplished through a system of assessments, including interactive (during learning) and summative (end-of-unit) checkpoints that allow students to demonstrate what they have learned.

Culturally and Linguistically Responsive Teaching

Integrated in all of this work are efforts to ensure that our students are represented in our curriculum, supports are available to meet their specific needs so that, ultimately, every student feels welcomed and included in learning. We know excellence is only possible once we have addressed equity in our school district.

Performance Results

The Colorado Department of Education's 2019 District Performance Framework Report identifies BVSD as "Accredited: Low Participation" overall, with the district meeting accreditation targets for Academic Achievement, Academic Growth, and Postsecondary and Workforce Readiness. The district meets 95 percent Test Participation Rates in English Language Arts, Math, and Science, and Meets Requirements in Finance and Safety assurances. Data for 2020 was not available at the time of this publication.

Through the budget process, BVSD continues to target resources at the classroom level, differentiating resources for schools with concentrated populations of low income students, with the goal to increase the proficiency level of all students in accordance with district Long Term Outcomes as outlined in the Strategic Plan.

Understanding School Finance in Colorado

Every homeowner and business owner in Colorado pays property taxes for schools, along with sales taxes for police, fire, and other local public services. The Colorado state government is responsible for funding other public services such as prisons and transportation, in addition to determining the funding for schools. Each year, the budget crafted by the legislature and approved by the governor determines how much of the total state budget is allocated to education. The portion earmarked for K-12 education is then divided among 178 school districts throughout the state using formulas in the Colorado School Finance Act (SFA). These formulas determine how much money each

district will receive per pupil as well as how much of that funding is paid by the state and how much is paid through local taxes.

In 2000, Colorado voters passed Amendment 23 to help safeguard Colorado K-12 funding. The amendment guarantees that state per pupil funding must increase annually by no less than the rate of inflation as determined by state government.

			Total Program Funding

2009-10	197,694,395	(\$4,562,150)	193,132,245	6,979
TOTAL NEGATIVE	FACTOR	(\$330,897,272)		

When the recession hit Colorado government in 2007, the state initially met its requirements under Amendment 23. As the recession lengthened, Colorado legislators were faced with increasingly hard choices in funding state obligations funding reductions that occurred in all public sectors. As a result of the Great Recession, the "negative factor", now known as the Budget Stabilization Factor, was implemented. The legislature determined that Amendment 23 only applied to "base" per pupil funding.

Under law, Colorado per pupil funding is made up of a base amount per student that is the same throughout the state. Added to this base are "factors" allocating additional per pupil funds by use of a state formula applied on a district-by-district basis. The factors include: poverty, cost of living, and size, and make up a large portion of Colorado's per pupil funding.

Each year the legislature determines the amount of increased funding required under Amendment 23 and the School Finance Act. The Budget Stabilization Factor is then applied against this total dollar amount, reducing overall funding. Back in 2009, Colorado per pupil funding fell by more than \$1 billion statewide on an annual basis. Over the last several years, legislators have approved incremental buy-downs of the statewide deficit, however with the projected economic crash due to the COVID-19 global pandemic, the negative factor ballooned to \$1.2B in the 2020-21 fiscal year.

Who Determines How Much Funding Each School District Receives?

Equity in School Funding

While tax dollars are collected locally for education, the state legislature determines how much funding each school district will receive. The SFA is aimed at ensuring that all children in the state receive an equitable educational experience and has devised a formula that evaluates various factors and determines the funding needed to provide said experience in each school district. For the 2021-22 school year, it is estimated BVSD will receive \$8,766 for each student full-time equivalent (FTE).

State Equalization

Schools are funded from three sources: local property tax, state funds, and vehicle registration fees, known as Ownership Tax (SOT). Although the state determines individual school district funding levels, the amount contributed from the three different sources varies according to local assessed property valuation. As evidenced in the charts shown on this page, because of higher assessed valuation, BVSD receives a larger portion of its revenue from local property taxes and therefore, the state contribution is less than peer districts. Conversely, those districts whose property assessed valuations are lower typically receive a greater portion of funding from the state.

Local Referenda

Colorado law allows local school districts to ask voters to approve override funding for their district through an additional mill levy. BVSD voters generously approved school overrides in November of 2016, 2010, 2005, 2002, 1998, and 1991. This additional funding is capped by state law at 25 percent of total program funding. All override revenues come from increased property taxes; no additional state funding occurs. A district's authorization to raise and expend override revenues does not affect the amount of SFA funding the district receives.

Mill Levies

In 1994, the Colorado SFA was revised to create Title 11, Article 50 of the Colorado Revised Statutes, which determines the base revenue of the General Operating Fund for each school district. This 1994 revision set the standard mill levy at 40 mills for all districts. Then in 2007, due to dramatic increases in property values (assessed valuation) in some areas of Colorado (since 1994), the Act of 1994 was amended during the legislative session. This amendment froze the existing General Operating Fund mill levy for most districts in the state in order to reduce the pressure on state funding for local school districts.

For BVSD, the total 2021-22 mill levy is estimated at 47.844 mills, which is a 1.15 percent decrease from the prior year. The mill levy is applied to assessed valuation which is estimated to increase in 2021-22 by 3.5 percent or approximately \$258.0M, from the prior year, net of tax incremental financing (TIF) agreements. General Operating Fund mills have remained at 25.023 since 2006. The district's 1991, 1998, 2002, and 2010 budget override (referendum) elections result in a levy of 10.077 mills. The mill levy for abatements, refunds, and omitted property is 0.250 mills, bring the total General Operating Fund mill levy to 35.350 mills. The Bond Redemption Fund at 7.537 mills, the transportation mill levy at 0.957 mills, and the operations and technology mill levy at 4.000, bring the collective total mills for BVSD to 48.393 mills. Historical information on the district's assessed valuation is located in the Informational Section of this document.

Total 2020 assessed valuation for the 2021-22 fiscal year is estimated at: \$7,619,962,511 Transportation mills are capital construction mill levies.

Bond Redemption Mills are capital construction mill levies.

Operations & Technology mills are capital construction, technology, and maintenance mill levies

Abatement Mills are related to assessed valuation appeals.

Election Mills are mills for additional funding in the form of overrides approved by voters

Note increase for election mills in years following the 2010 referendum General Fund Mills are associated with School Finance Act funding.

Changes in Debt

As of June 30, 2020, the district reported general obligation bond indebtedness of \$791,885,000 (not including bond premiums), capital lease of \$1,582,230, and long-term obligations for compensated absences of \$10,761,530. The annual principal and interest payments for fiscal year 2020 are \$57,458,900. The district will pay the last principal payment of existing debt on December 1, 2049.

How Does Supporting Education Impact Your Taxes?

Local tax money goes to the county treasurer who in turn distributes it to each governmental entity in the county.

Constitutional amendments that affect school funding:

Article X, Section 20 (TABOR Amendment)

Sets taxing and spending limits on all levels of government in the state, from special districts, such as fire protection and schools to county and state governments. This amendment's primary objective is to "restrain the growth of government" as stated in the Colorado Constitution. The most significant limitations from this amendment that impact school funding from the state are that it:

- requires voter approval of tax increases.
- limits revenue collections.
- limits spending.

The law also impacts district spending as it requires that a school district hold 3 percent of expenditures in reserve. This reserve can **only** be spent in an emergency, which <u>excludes</u> economic conditions, revenue shortfalls, or salary and fringe benefit increases. A statute change in 2009-10 now allows a district to hold a letter of credit or utilize real asset value (buildings) as this 3 percent reserve, rather than cash. BVSD continues to hold a 3 percent cash reserve for this requirement.

Amendment 23

In November of 2000, Colorado taxpayers approved Amendment 23 to the Colorado Constitution. This amendment identifies increases in funding to public elementary and secondary schools at a rate of inflation plus 1 percent for a total of 10 years, through the 2010-11 fiscal year, and then at the rate of inflation thereafter. The amendment's stated goal was to restore public education funding back to 1988 levels.

Referendum C

In November 2005, Colorado voters passed Referendum C, which temporarily overrides the current TABOR revenue formula that limits annual growth in state revenues to the rate of change of inflation plus population. With no increase to current tax rates, Referendum C allows the state to keep and spend the revenue it collects under current rates for five years. The revenue retained by this change will be used to fund healthcare, K-12 and higher education, pension plans for firefighters and police specifically and identified Department Transportation projects. The referendum's stated goal was to restore state budget cuts since 2001 and reset the base fundina level.

Doing the Math:

State law sets the property tax assessment rate. In the 2021 collection year, homeowners will pay an assessment rate of 7.15 percent of the actual assessed value of their home, while businesses will pay a 29 percent assessment rate.

Here's how the math works for each \$100,000 in home value:

- The 7.15 percent of assessed value is calculated to be \$7,150. That's the amount on which taxes are based.
- One tax mill is equal to 1 cent on \$10. So, \$7,150 in value multiplied by 0.001 equals \$7.15 per mill.
- In 2021, the BVSD tax rate is estimated at 47.844 mills or \$342.08 in taxes per year for each \$100,000 of assessed home value.

You can use the same formula to calculate your property taxes for your schools if you know your home's assessed value. The same calculations based on a 29 percent business rate net \$1,387.48 in school taxes for each \$100,000 of taxable business property.

Gallagher Amendment

November 2020, Amendment B was passed by Colorado voters and repealed the Gallagher Amendment, which divided the state's total property tax burden between residential and nonresidential (commercial) property. This repeal allowed the Colorado State Legislature to freeze property tax assessment rates at the current rates for residential property and 29% for nonresidential property).

Principal Issues Facing the District

The annual budget development process provides the opportunity for district decision-makers to align budget choices to the desired outcome of student success. The resulting annual spending plan is a blueprint for the district to provide quality instruction and educational programs for all students, in order to address the district's values. As part of the budget development process, the board strives to align human and financial resources with student needs in order to realize the greatest possible impact upon student achievement. This alignment of resources takes into consideration the principal issues facing the district as outlined below. Resource allocations were made with an effort to maximize the impact on students.

<u>Limited Restoration of State Funding</u> Although state revenues have rebounded from depressed levels, pressure continues on the legislature to limit the funding for K-12 education in Colorado. At the same time, some state programs and services are required to expand while others are expanded by legislative mandate. The statewide impact of the Budget Stabilization Factor remains at \$572.4M and \$19.3M for BVSD.

<u>Increasing Student Proficiency</u> BVSD has a large number of students who are not proficient on state assessments. Disaggregating assessment data allows resources and attention to be targeted on meeting the needs of students who require the greatest assistance. In the BVSD, a significant investment of local resources in early childhood education programs continues. These resources are targeted to help increase the proficiency level of all students in future years. A reorganization of district staff is being implemented for 2021-22 to realign the support structure for our school networks, driving resources and supports closer to the school level while providing the appropriate leadership functions. The goal is to have a consistent and universal approach with clear roles and responsibilities, as well as channels of authority. This became especially clear during the pandemic when difficult questions needed to be answered relatively quickly.

<u>Unfunded State Mandates and Reforms</u> In recent years, the Colorado legislature has implemented significant education reforms, including new state curriculum standards and assessments that rely on substantial school district investments in expanded technology, infrastructure, and equipment; and an annual principal and teacher evaluation system which requires ongoing investment in professional development and increased personnel to realize the intent of the legislation. Little or no targeted funding from the state has been added to specifically address these increased requirements and expectations.

<u>Declining Enrollment</u> BVSD's projected slight decline in enrollment into the near future poses many challenges. Although the Colorado School Finance Act softens the financial impact when districts experience declining enrollment, challenges still exist with regards to the cumulative effects of the loss of funding, inefficient staffing and underutilized facilities. As these overall student populations shift between grades, programs, and communities, a review of resource allocations between programs is necessary to determine adjustments to address the needs of those shifting student populations without additional resources.

Economic Conditions and Outlook

Analysis of 2020-21

The Colorado economic recovery continues to accelerate. The adopted 2020-21 School Finance Act included a significant funding cut to help balance the state's budget based on a projected economic crash for 2020-21. The per pupil funding cut from 2019-20 to 2020-21 was 4.7 percent, or \$392. The \$500M investment made in K-12 education by Governor Polis via the Coronavirus Relief Fund (CRF) via the CARES Act helped to offset the cuts. These one-time funds had significant restrictions and requirements for spending required of most federal funds.

Analysis of 2020-21 (continued)

BVSD received:

- CRF \$14.3M Allocated to teacher salary and benefit costs relate to providing increased student instructional time during Fall 2020 when compared to Spring 2020.
- ESSER Connectivity Grant \$165K Used to purchase internet services for about 300 low income students to enable remote learning, as well as equipment to start an innovative school-based network providing long-term services.
- Reopening Schools Grant \$1.4M Used to purchase HEPA filters for school cafeterias, KN95 masks and other personal protective equipment, cleaning supplies, HVAC air filters and COVID testing.
- Connecting Colorado Students Grant \$1.0M Used to buy radio towers providing internet from all BVSD school buildings to neighborhoods with free, robust service to low income families and available to all students and staff with little long-term cost to the district.
- ESSER I Grant \$1.5M Used to purchase additional student and teacher Chromebooks, cameras, cleaning supplies and personal protective equipment for staff.
- ESSER II Grant \$6.2M The application has not been submitted yet, but grant request will include items such as extra nurses, health room staff and classroom monitors; a K-8 summer school to address learning loss, more air cleaning equipment, more COVID testing, increased unemployment insurance claim costs, more technology for students and more cleaning supplies and personal protective equipment for staff.
- ESSER III Grant \$14.0M Application has not been submitted yet, but grant request will include items such as addressing learning loss and opening schools safely in the fall.

After the supplemental state appropriation in January 2021, the 2020-21 statewide average per pupil funding for K-12 public education was \$8,123. The final per pupil revenue for BVSD was \$8,032. The 2020-21 General Operating Fund mid-year analysis for BVSD completed in February 2021, indicated the 2020-21 General Operating Fund budgeted ending fund balance of \$0.3M in excess of reserves is on target to grow to \$18.2M. Negotiations with district staff associations completed in late May, included a one-time payment of 1% of wages earned plus \$500 in lieu of a compensation increase in 2020-21. This payment will be made in July, 2021 and accrued back to the 2020-21 fiscal year. In addition to the General Operating Fund mid-year analysis, other funds have been reviewed and no longer require a General Fund transfer to balance as originally estimated in the 2020-21 Revised Budget. The results created an estimated \$7.0M in transfers from the Food Service, Athletics, and Transportation Funds that do not need to be made in the 2020-21 fiscal year. The one-time payment to employees is estimated at \$5.5M and the General Operating Fund ending balance is projected to be \$20.3M.

Analysis of 2021 Economic Forecast

Colorado

For more than 50 years, the Colorado Business Economic Outlook has been compiled by industry leaders in the state, and presented by the Business Research Division of the Leeds School of Business at the University of Colorado Boulder. The information below was selected directly from the Colorado Economic Forecast for 2021, presented on December 7, 2020. The entire report can be found at:

https://www.colorado.edu/business/sites/default/files/attached-files/2021 cbeo book lr final.pdf

The unprecedented economic impacts of the COVID-19 pandemic has affected all aspects of the economy - some positively and some negatively. The breadth of impacts is too great to briefly describe, so it is important to follow the link above and review the full report for all the information contained within. The following excerpts provide an overview of the information particularly relevant to public education including employment, population, education and specific information for Boulder County.

Analysis of 2021 Economic Forecast (continued)

The COVID-19 pandemic has caused a historic economic downturn in both Colorado and the nation, with record GDP and employment declines. While the economy has bounced back from the depths of the recession, much uncertainty remains around the pandemic and its recurring effects on the economy. Despite the downturn, a review of economic metrics reveals Colorado continues to outperform the nation in many areas; however, it has fallen behind in others. Real GDP declined 6.3% in Q2 2020 year-over-year, ranking Colorado fourth among the 50 states for the lowest decline, and the state's five-year compound annual growth rate (CAGR) ranks fifth, at 1.5%. Employment declined 4% year-over-year in October, ranking the state 16th overall, and the unemployment rate of 6.4% ranked the state 30th. Personal income grew 9.4% year-over-year in Q2 2020 in the state, ranking Colorado 36th in the nation. Likewise, per capita personal income grew 8.1%, ranking Colorado 40th. In 2019, the state's population added 67,000 people, ranking Colorado seventh for pace of growth. The labor force declined by 36,300 year-over-year, or 1.1%, in October 2020, ranking Colorado 25th for labor force growth. Reflecting both the young workforce and economic opportunity, Colorado's labor force participation ranked fifth-highest nationally, at 67.6% in October. Home values continued to appreciate, but at a slower rate, growing 3.7% in Q2 2020 year-over-year, ranking the state 35th.

While the economy has observed a healthy bounce back from the unprecedented lows in Q2 2020, the months ahead present large challenges, uncertainty, and many factors that could influence the direction of the recovery. A second wave of COVID-19 cases appears to be presenting itself as the U.S. heads into the winter season, again threatening hospital capacities and new government restrictions. Additional mandated lockdowns could present a blow to the already fragile economy. Restaurants that have managed to get by during the summer months due to outdoor seating could be severely impacted as the weather gets colder and indoor capacity remains muted. Other companies that have been surviving may not be able to withstand many more months of recessed demand.

Employment

Colorado has demonstratively been an employment growth state, recording 80 growth years and only eight years of job losses between 1940 and 2019. The COVID-19 pandemic in 2020, however, has brought nine consecutive years of job growth to an abrupt halt, impacting every industry in the state.

Most businesses in the economy are small businesses - 96.2% of wage and salary establishments have fewer than 50 employees (compared to 95.7% nationally). These small businesses represent 49% of jobs in Colorado (compared to 43.7% nationally).

After seven years of consecutive declines, the unemployment rate increased from 2.8% in 2017 to 3.2% in 2018. However, the labor market tightened in 2019, averaging 2.8% for the year. In 2020, the unemployment rate stood at 6.4% in October, ranking the state 30th, after falling from a record high 12.2% in April due to the pandemic. The unemployment rate is estimated to average 7.1% for 2020 and is projected to average 6.7% in 2021.

Analysis of 2021 Economic Forecast (continued)

Population

COVID-19 will slow Colorado's population growth in the short run, with continued slowing births, increased deaths, and slowing migration. International migration contributes 20%-25% of Colorado's total net migration and it has all but come to a standstill. Population growth in 2020 is projected to slow to 55,000 from 67,000 in 2019. Growth is projected to continue to slow further to 53,000 in 2021 and then return to pre-COVID-19 levels by 2024. Through 2025, the forecast is for natural increase to remain in the low-20,000s and net migration to remain in the mid-40,000s to the low-50,000s. Growth is forecast to remain fairly strong from 2025-2030, driven by the retirements of baby boomers and the need for replacement workers. After 2030, population growth is expected to slow due to a slowing economy, continued slowing birth rates, an aging population, slowing labor force growth, and slowing international immigration. Although Colorado's population growth is forecast to slow over the next few decades, it is projected to continue to outpace the nation, growing at roughly twice the national rate. Colorado is forecast to increase from 1.7% of the U.S. population in 2019 to 2% by 2050.

The largest population growth by county continues to be along the Front Range. Between 2020 and 2030, the state's population is projected to increase by 743,000, with 87% of this increase, or 644,000 people, projected for the Front Range and 370,000 for the Denver Metro area. The North Front Range is expected to observe the fastest growth, at an annual average of 2%, or 149,000 people. The 2050 forecast for the state is 7.9 million, with 6.6 million along the Front Range, or 84% of the total population.

Education

The economic crash brought on by the pandemic in the spring of 2020 necessitated massive cuts to all aspects of state government. Since K-12 public education makes up about 36% of state general fund spending, the cut to K-12 education was a significant \$611 million. This more than doubled the Budget Stabilization factor, or the amount cut from the School Finance Act formula from \$572.4 million to \$1.17 billion. This is a 4.8% year-over-year reduction in per pupil funding, or about \$411 per pupil. While this may seem like a relatively small percentage of a reduction, all the expectations to deliver educational services in a safe and welcoming environment remained in place.

Undoubtedly, the \$500 million in CARES Act funds that Governor Polis distributed to school districts created short-term funding to allow districts to purchase technology devices, increase learning opportunities for students, and provide personal protective equipment, cleaning supplies, and additional cleaning staff to provide a safe and productive learning environment. The challenge is that these non-recurring Coronavirus Relief Fund resources must be used by December 30, 2020, which limits their usefulness for the continued expenditures related to the pandemic such as increased utility costs for improved air circulation, deep cleaning of facilities, substitute teachers, and addressing student learning deficiencies.

Analysis of 2021 Economic Forecast (continued)

The outlook for the 2021-22 fiscal year has improved dramatically from June. Enrollment may continue to be subdued with uncertainties regarding vaccine availability, choices around homeschooling, and overall comfort level with sending children to school. Despite the uncertainties, the projected enrollment decline is very slight from the current year of approximately 1,000 students. Governor Polis' 2021-22 budget proposal, as released on November 2, restores K-12 funding back to 2019-20 levels, with increases for inflation. This proposal totals a funding restoration of \$811 million and brings the budget stabilization factor back to the amount in 2019-20 of \$572.4 million, translating into an average of \$492 per pupil more than 2019-20 funding, or a 5.8% increase. While the funding outlook remains positive for the time being, the upcoming FY21 state revenue forecasts in December 2020 and March 2021 will determine where the legislature is able to set the budget for K-12 education in 2021-22.

The summary 2021 forecast for Colorado, found on page 143 of the document states:

- Colorado will likely fall out of the top 10 states for employment growth in 2020 and 2021 given the service sector impact.
- Employment growth is projected in nine of the 11 industries in 2021.
- Changing consumer preferences, from housing to shopping, will continue to have disparate impacts on Colorado communities.
- Work-from-home behaviors will impact commercial real estate, transportation, retail sales, and workplace dynamics
- Population in 2021 will grow by the lowest number since 2003. The state will still add an estimated 53,300 people, with just 35,100 coming from net in-migration according to the State Demography Office.

Boulder County

Boulder County's economy is fueled by businesses in diverse industries, a highly educated workforce, visionary entrepreneurs, global industry leaders, a desirable quality of life, a world-class research university, and several national research labs. The county often outperforms the state and national economies in areas such as job growth, educational attainment, capital investment, and commercial real estate absorption.

The unprecedented COVID-19 global public health emergency affected individuals, businesses, and institutions throughout Boulder County in 2020. Coordinated efforts by county and city officials, community and business leaders, institutions, and nonprofit organizations to provide information, guidance, technical assistance, and financial support continue to help individuals and businesses address and adapt to the impacts of COVID-19. While the extent and duration of the pandemic and economic disruption are not yet clear, Boulder County's underlying economic strengths, robust pre-COVID economy, and collaborative environment will aid in its economic recovery.

Prior to the COVID-19 pandemic, Boulder County continued to post low unemployment rates and solid employment gains. After the coronavirus outbreak, the unemployment rate increased from 2.4% in February 2020 to 9.7% in April 2020. In September 2020, the Boulder County unemployment rate was 5.3% (not seasonally adjusted) compared to state unemployment of 6.2% and a national rate of 7.7% (not seasonally adjusted). Between September 2019 and September 2020, Boulder County employment decreased 7.8%, representing a loss of 15,700 jobs.

Analysis of 2021 Economic Forecast (continued)

The area's large concentration of jobs in sectors with higher-than-average wages contributes to above-average incomes for area residents. Census Bureau data show the 2019 median household income for Boulder County residents was \$88,535, compared to \$77,127 for Colorado residents and \$65,712 for U.S. residents.

The Boulder County economy continues to benefit from a high concentration of companies and employment in key industry sectors such as aerospace, biotechnology, cleantech, information technology, natural and organic products, outdoor recreation, and tourism. In addition to the presence of well-established Fortune 500 companies, many startups and early-stage companies in these industries are based in Boulder County.

Fiscal Outlook for 2021-22

Governor Polis' November 1 proposed budget for 2021-22 included funding adjustments for a slight state-wide Pre-K12 enrollment decline, inflation at 2.5 percent, and a reduction to the Budget Stabilization Factor of \$601.0M. The net projected PPR increase for BVSD was \$897, or 11.3 percent. While this increase is significant, this restoration of funding is following the significant funding cut noted in the analysis of 2020-21. Included in the Governor's proposal is a statewide enrollment decline of 0.12 percent, but the Legislative Council Staff initial district-specific projection for BVSD student decline was at 0.43%/-130 students. Historically, the Governor's budget has been considered a "floor" for K-12 funding, with additional resources being allocated during the legislative session.

With the improving 2020-21 economic outlook and the state's 2020-21 supplemental budget process, the governor's budget request was updated to address changes in state-wide student counts and local revenue sources, but also a lower inflation rate of 2.0 percent. These changes reduced the investment needed to reduce the Budget Stabilization Factor to the proposed level. This was largely due to the reduction of students in public schools as a result of the COVID-19 pandemic.

At the time of the production of this document, the Budget Stabilization Factor reduction to statewide total program funding as calculated in the SFA remains at \$572.4M, or 6.8 percent. For BVSD, this negative factor equates to \$19.3M in annual lost state revenues, as calculated through the SFA. Typically, the legislature has completed its 120 day session by early May. In 2021, the session was delayed a month and is scheduled to end on June 12. Although the School Finance Act has not been adopted, all indications point to the funding being adopted as proposed, with the potential for a slight increase in funding that can be addressed in the revised budget process if necessary.

After the state sets the total funding for K-12 public education, each local district determines how to fund its specific system and allocate resources to every school within its district.

Fiscal Outlook for 2021-22 (continued)

Assumptions and Estimates

The development of the BVSD comprehensive budget is guided by the Strategic Plan, applying resources strategically, while supporting operational activities to ensure basic business functions, operations, compliance, risk-mitigation, health and safety as appropriate. Within these strategic areas, resources are applied as determined by a set of priorities, assumptions and estimates that change from year to year. For the 2021-22 fiscal year, the following data and preliminary estimates are being utilized during the initial planning phase of budget development. As always, the board's adoption of a balanced budget will be guided by available funding, policy requirements and student needs.

- Inflation Denver-Aurora-Lakewood Core Consumer Price Index (CPI)
 - September Legislative Council Staff projection: 1.7%
 - o Governor's 2021-22 budget proposal: 2.5%
 - December Legislative Council Staff projection: 2.0%
 - o 2020 US Bureau of Labor Statistics final: 2.0%
- Employee compensation and contract adjustments
 - Longevity, salary schedule movement, working conditions
 - 3.0% employee salary cost of living adjustment (COLA)
 - o Health/Dental Benefits: 2.0% district rate increase
- Student population
 - o 2019-20 162 decline
 - o 2020-21 1,621 decline
 - 2021-22 275 increase / 1,508 3-year decline
- Staffing adjustments
 - Declining enrollment changes maintain staffing ratios
 - Restore 2020-21 1x classroom staffing
 - Remote synchronous learning staffing
 - o 1X staffing to address the short term student decline
- Budget Stabilization Factor reduction (improvement)
 - Statewide total Budget Stabilization Factor: \$572.4M
 - o Incremental statewide reduction: \$479.7M
 - o Incremental BVSD reduction: \$16.5M (compared to 2020-21)
 - BVSD total Budget Stabilization Factor: \$19.3M
- Contractual price escalations and operational expenditures
- Implementation of updated strategic initiatives
- Remediation for impacted student learning in 2020-21
- Reserves for continuing COVID-19 related impacts
- Federal funding for continuing COVID-19 impacts

School Finance Act Funding

The funded pupil count, which is the number of full-time students enrolled in a district, is the real driver of school funding. The SFA identifies a per pupil funding amount, and the number of full-time students enrolled in a district determines the amount of total funding the district receives. However, not all students (preschool students for example) attend school on a full-time basis; the funded pupil count is different from the total enrollment. The official pupil count occurs each October and results in the funded pupil count numbers.

When projecting student enrollment, the budget implications are substantial if expected growth is not realized. If a shortfall in actual enrollment occurs as compared to projections, this information is generally received after the close of the first quarter of the fiscal year, and many staffing and programmatic changes cannot be made without significant impacts to students. For this reason, the district generally undertakes a reasonable, yet conservative, projection methodology to reduce the risk of a funding shortfall compared to expected revenues.

The BVSD projected state per pupil revenue (PPR) for 2021-22 is \$8,766 (slightly rounded). This PPR is 11.0 percent more than what was budgeted in 2020-21. Total program funding, defined by the SFA, is projected to be \$259.3M, an increase of \$19.3M from the BVSD 2020-21 Revised Budget. This figure does not include the estimated uncollectable property taxes due to the timing of tax collections. The table below shows what the impact would be to the district's funding with fewer students.

Enrollment FTE Projections

The initial 2021-22 enrollment FTE projections indicate a slight increase of total student enrollment. The chart below reflects a slight increase in enrollment FTE during 2021-22 fiscal year. The following four charts show the historical change in BVSD enrollment.

District-Wide Enrollment

The total number of BVSD students in the fall of 2021 shows an estimated increase of 276.0 students compared to the October 1, 2020, enrollment. For the funded pupil count, preschool through twelfth grade students who are part-time, based upon a student's attendance and academic schedule, are counted as 0.50 FTE.

District-Wide Student FTE

Examination of enrollment reveals that K-12 General Operating Fund in-person student FTE increased by 904.0, while online FTE decreased by 619.5; the K-12 Charter School FTE decreased by 5.0 FTE; special education and the Colorado Preschool Program remained the same.

District-Wide Preschool Enrollment

The chart below summarizes the total number of BVSD preschool students enrolled. Students may qualify for eligibility through the Colorado Preschool Program, special education, or pay tuition at identified preschool locations. The preschool district-wide enrollment table below shows 441 Colorado Preschool Program (CPP) students and 266 special education students projected.

Allocation of Budgets to Schools

Each BVSD school is allocated resources on the basis of projected enrollment. Various formulas are used which address the allocation of:

- Staff FTE teachers, paraprofessionals, principals, office personnel, custodians, and other staff
- Operating Dollars for supplies, copier costs, equipment, staff development, and leadership, (textbook funds are budgeted centrally and distributed to schools based on a textbook adoption calendar)

The goal of instructional staffing allocations is to ensure that resources are distributed equitably among the district's schools. They are based on district-wide per student ratios that are set specifically for each grade level. As overall enrollment fluctuates or as the student population shifts between levels, the staffing is then adjusted to maintain each of the ratios. Variances above and below may occur when student populations shift between schools and across grades. If budget constraints prevent the funding of expected ratios in the current year, the funding of staffing ratios will generally be a budget priority in the following fiscal year.

School-based 2.25 percent budget cuts implemented in 2010-11 to address the significant state budget shortfalls as a result of the Great Recession were partially reset/reinstated in 2018-19. This includes both staff FTE and operating dollars. The operating dollars were restructured as a weighted student formula to address student characteristics including poverty, special education, and English language development. Staffing allocations have been updated to create uniform allocations across instructional levels.

Demographic Overview

The Boulder Valley School District is located near the foothills of the Rocky Mountains approximately twenty miles northwest of Denver. BVSD's boundaries encompass approximately 500 square miles in Boulder, Broomfield, and Gilpin Counties and contain a population of approximately 211,000. The communities of Boulder, Louisville, Lafayette, Erie, Superior, Broomfield, Nederland, Ward, Jamestown, and Gold Hill are served.

Each school provides information about specific programs, services, and activities offered on their individual school websites. A list of schools with links to their websites can be found on the district website at: https://www.bvsd.org/.

Employee Compensation

Education is a profession that relies on people — teachers and support personnel. Personnel costs (salaries and benefits) account for 91 percent of the district's General Operating Fund total expenditures.

BVSD provides district-paid benefits and offers additional benefits that can be purchased by the employee. The past 10 years are marked by a distinct rise in the rate of increasing healthcare costs. Since 2012-13, costs have grown 48.4 percent, averaging 4.8 percent per year on an annualized

basis, while per pupil revenue has only increased 37.5 percent (3.8 percent per year) over the same time period. Employee benefits have also been reduced to mitigate cost increases.

In an effort to further contain these increases, the district has moved to self-insured healthcare and dental plans. The cost of health benefits directly affects the dollars available for other employee compensation.

Personnel Trends

The estimated number of 2021-22 budgeted full-time employees in BVSD in all funds, including Charters, is 3,832.296. This is an increase of approximately 0.85 percent from the 2020-21 fiscal year. The General Operating Fund will slightly increase FTE to maintain staffing resources. Position totals are expected to remain relatively constant into the near future.

Budget Development Process

School boards and superintendents in all 178 Colorado districts face many budget challenges. At BVSD, driving forces considered by the board and the superintendent for the 2021-22 budget include: employee compensation, additional student-centric resources to address student needs in the areas of school safety, social-emotional support, curriculum materials and a significant \$17.4M investment committed over three years to differentiated funding to close the achievement and opportunity gaps and disproportionality. With this, there are still continuing challenges with the state tax and revenue policies, the impact of decisions made by the legislature, and the investment in hiring and retaining high quality staff through a competitive compensation structure.

This budget was prepared considering the needs and values of students, parents, employees, and taxpayers. Throughout the stages of the budget process, the board must balance the needs of all stakeholders with the fiscal responsibility it has to the taxpayers. Although BVSD students exceed in aggregate the state average on all universally administered performance measures, achievement gaps exist for certain targeted groups. The budget development process brings to the forefront the needs of all students, and allows funding decisions to be made that provide the necessary resources to address the district's strategic plan.

BVSD began the budget process with the development of a calendar as presented to the Board of Education on December 08, 2020. The calendar outlines the following steps:

Governor Polis' November 1 proposed budget for K-12 public education in 2021-22 included funding adjustments for a slight state-wide Pre-K12 enrollment decline, inflation at 2.0 percent, and a reduction to the Budget Stabilization Factor of \$601.0M. The net projected PPR increase for BVSD was \$897, or 11.3 percent. While this increase is significant, this restoration of funding is following the significant funding cut noted in the Fiscal Analysis of 2020-21. Although Colorado enjoys one of the most robust local economies in the country, the fiscal constraints contained within Article X, Section 20 of the Colorado constitution, the state legislature cannot make decisions to allocate the necessary resources to public services to meet the needs of a growing population, crumbling infrastructure and investing for the future.

With the improving 2020-21 economic outlook and the state's 2020-21 supplemental budget process, the governor's budget request was updated to address changes in state-wide student counts and local revenue sources. These changes reduced the investment needed to reduce the Budget Stabilization Factor to the proposed level. This was largely due to the reduction of students in public schools as a result of the COVID-19 pandemic.

Budget Development Process (continued)

At the time of the production of this document, the Budget Stabilization Factor reduction to statewide total program funding as calculated in the SFA remains at \$572.4M, or 6.8 percent. For BVSD, this negative factor equates to \$19.3M in annual lost state revenues, as calculated through the SFA. Typically, the legislature has completed its 120 day session by early May. In 2021, the session was delayed a month and is scheduled to end on June 12. Although the School Finance Act has not been adopted, all indications point to the funding being adopted as proposed, with the potential for a slight increase in funding that can be addressed in the revised budget process if necessary.

After the state sets the total funding for K-12 public education, each local district determines how to fund its specific system and allocate resources to every school within its district.

The budget development process is outlined below:

- 1. Planning Development of a course of action regarding the range of state funding changes.
- 2. Gathering Input A dialogue regarding community values and priorities to consider in developing BVSD's annual budget.
- 3. Results Processing the input gathered to frame the creation of the budget.
- 4. Analysis Reviewing the assumptions, projections, and priorities with the Board of Education.
- 5. Preliminary Budget An unbalanced initial budget guided by the strategic plan, projections, and known data to provide decision points for discussion.
- 6. Proposed Budget A budget version including expected resources, projected uses, and incorporation of necessary adjustments to create a balanced budget.
- 7. Budget Adoption Statutory requirement to adopt a balanced budget by June 30 for the ensuing fiscal year.
- 8. Budget Revision Adjustment of the annual budget to include final year-end financial data and student enrollment through the first two months of the school year and any relevant new financial information.
- 9. Amending the Budget Transfers of funds between accounts during the fiscal year to adjust for changing conditions or needs.

The following chart summarizes the process, timelines, and decision points of the budget development process for both the adopted and revised budgets. From year to year, the timeline varies only slightly as statutory and contractual deadlines provide the milestones for the process. Similarly, information and data generally becomes available in a parallel timeline to the previously mentioned milestones with variations driven largely by the legislative process.

All Funds

Appropriation 2021-22

The adoption of the budget by the Board of Education includes the formal approval of both the Budget Resolution and the Appropriation Resolution, as defined in Colorado State Statute 22-44-103(1). The resolutions set the maximum amount of funds which can be utilized in a given fiscal year. All available resources are appropriated through this process and each accounting fund is included in each of the resolutions. A board of education of a school district shall not expend any moneys in excess of the amount appropriated by resolution for a particular fund, C.R.S. 22-44-115(1).

All Funds Overview

General Operating Fund

The General Operating Fund is the core operating fund of the district and accounts for the majority of all instructional and operational expenditures of the district. Included in this fund are categorical programs (e.g., special education, gifted and talented education, career and technical education, transportation, and E.L.P.A. (English Language Proficiency Act). A major source of funding to the General Operating Fund is received through the state's School Finance Act, established by the state legislature, which identifies a per pupil funding amount, and the number of full-time students enrolled in a district to determine the amount of total funding. This Fund is developed so that the total of annual ongoing expenditures and transfers does not exceed annual revenues and contains an ending fund balance that complies with state statute and district policy.

Differentiated School Support Fund

The Differentiated School Support Fund was created in FY22 and is used to track spending of resources allocated to schools as part of the district's Strategic Plan. Through a tiered system of school requirements, supports, and accountability metrics which drive the allocation of resources, the goal is to help close the opportunity and achievement gap in the District. A weighted and differentiated funding model was implemented to distribute resources to schools identified with levels of Flexible, Targeted, and High support needs. The table below outlines the differentiated levels and per pupil tiered approach to funding:

- Flexible (Base Amount) / Targeted (x2) / High (x10)
 - o All Students \$50 / \$100 / \$500
 - Special Education \$50 / \$100 / \$500
 - Free and Reduced Lunch \$75 / \$150 / \$750
 - English Language Development \$50 / \$100 / \$500

PERA On-Behalf Fund

As a component of Senate Bill 18-200, the state is required to make a direct on-behalf payment of \$225.0 million to Colorado PERA each year. The payment is allocated based on the proportionate amount of annual payroll to the School Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. Generally accepted accounting principles require the district to report its proportionate share of on-behalf payments as both a revenue and expenditure. Because on-behalf payments have no financial impact on district operations, the revenues and expenditures have been recorded in a new stand-alone fund, so as to not distort ongoing district activities. Because the necessary calculations are not provided to the district by Colorado PERA until after year end, budgeted amounts represent a conservative estimate based on prior year data.

Technology Fund

The Technology Fund was established for digital device procurement, software updates, and technical support. The program maintains technologies by bi-annual allocations to each school based on student counts. The allocations are used to purchase Chromebooks, tablets, desktops, laptops, projectors, large screen TVs, document cameras, and other technology for use in the classroom and administrative functions. This fund includes activity related to 1:Web and the Cart:Web Program. Estimated carryover amounts are for projects that span multiple years. Current year funding includes revenues from the Federal E-Rate reimbursement program. Timing of equipment purchases affect the carryover balance in this fund.

All Funds Overview (continued)

Athletics Fund

The district-wide Athletics Fund provides for interscholastic athletics in grades 8 through 12 and intramural athletics at all grade levels. Athletic programs at charter schools are funded from each charter school's individual allocation.

Preschool Fund

The preschool general fund includes sessions of preschool in 20 elementary schools and the Mapleton Early Childhood Center. The program has a nine month schedule. The Community Montessori has a five day a week, half-day program, with an extended half-day option available.

While the district is required to track the use of Colorado Preschool Program (CPP) funds by the use of state chart of accounts, it is not required to have a separate fund. As a result, the CPP Fund has been combined with the Preschool Fund beginning with the 2018-19 fiscal year. CPP is a no-cost preschool program for eligible families that supports students who have identified risk factors that can impact school success and/or may lead to achievement gaps.

Community Schools Fund

The Community Schools Fund provides the community with educational and enrichment opportunities through extended use of BVSD facilities. The Community Schools Program is self-supporting, utilizing program tuition and community use fees for operational expenses. The fund provides the following programs:

- 1) School Age Program
- 2) Community Use
- 3) Lifelong Learning
- 4) Community Connections: A Student Resource Guide
- 5) Preschool Enrichment
- 6) Early Connections Infant/Toddler Care

Charter School Fund

The Charter School Fund consists of five charter schools: Boulder Preparatory, Horizons K-8, Peak to Peak K-12, Summit Middle, and Justice High. The schools have separate governing boards but are dependent upon the district for the majority of their funding.

Governmental Designated-Purpose Grants Fund

The Governmental Designated-Purpose Grants Fund is the vehicle for receipt and expenditure of categorical funds. The district receives numerous local, state, and federal grants which have varying fiscal years. These grant funds supplement the regular district educational programs.

Transportation Fund

The Transportation Fund's purpose is to account for the revenue and expenses associated with providing bus transportation for students for regular school attendance and for extra curricular activities such as field trips, athletics, and music events.

All Funds Overview (continued)

Operations and Technology Fund

The Capital Construction, Technology, and Maintenance Fund has been established to account for activity which was authorized with funds made available from the passage of the 2016 Ballot Measure. Voters approved an operational mill levy which will fund a portion of the ongoing maintenance, custodial, security, and technology expenditures in the General Fund. Resources from the levy will allow investment for ongoing preventative maintenance and repairs to extend facility life. The Board of Education set the levy to 4 mills in December 2019 which is the maximum amount allowed by voter approval.

Food Services Fund

The Food Services Program serves approximately 13,000 meals per day using the new culinary center to serve 51 schools, Head Start Programs and two schools outside of the school district. The program is primarily dependent on Food Service revenue from 170 serving days.

Risk Management Fund

The Risk Management Fund accounts for the costs of the district's property and liability insurance, workers' compensation insurance, loss prevention services and coordinates the overall risk management activities for the district. Fluctuations in property and workers' compensation insurance premiums may cause corresponding changes in transfer from the General Fund.

Bond Redemption Fund

The Bond Redemption Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The size of the mill levy for the Bond Redemption Fund is determined by the amount of the yearly requirement for the payment of principal and interest on the outstanding bonds.

2014 Building Fund

The 2014 Building Fund includes the proceeds from the sale of \$576.5M in general obligation bonds. These funds will be used to implement projects identified in the <u>Facilities Master Plan</u> as approved by the Board of Education on August 12, 2014. The voter approved total Bond Program of \$576.5M includes improvements to school facilities and sites, programmatic space, health and physical development, educational innovation, school replacement, Early Childhood Education, information technology, a new school in Erie, and specialized Special Education services.

Health Insurance Fund

The Health Insurance Fund is an internal service fund used to account for claims, administrative fees, and stop loss insurance coverage for the district's self-funded health insurance employee benefit program. Employees have the choice of participating in the district's self-funded plan administered by United Healthcare or a traditional plan offered by Kaiser Permanente. The district contributes an annual premium per eligible employee. Employees have the option to purchase dependent coverage. In addition, the district contributes \$15 per employee towards an Employee Assistance Program.

All Funds Overview (continued)

Dental Insurance Fund

The Dental Insurance Fund is an internal service fund used to account for claims and administrative fees of the district's self-funded dental insurance employee benefit program. The district contributes an annual premium per eligible employee. Employees have the option to purchase dependent coverage.

Capital Reserve Fund

The Capital Reserve Fund may be used for land acquisition and land improvements; and for the construction of new facilities, or for the remodel of existing facilities, including the acquisition of equipment and furnishings. Vehicles, software licensing agreements and computer equipment may also be acquired through the Capital Reserve Fund.

Private Purpose Trust Fund

Trust and Agency Funds are used to account for assets held by the district in a trustee capacity or as an agent for individuals, private organizations, and special activity groups within the district. This Fund is comprised of Expendable Trust Funds, Nonexpendable Trust Funds, and Agency Funds.

Student Activities Fund

This fund is provided to account for receipts and disbursements from student activities and district fundraising.

Front Range BOCES Fund

The Front Range BOCES Fund is a custodial fund to account for activities of the Front Range BOCES. The district has an intergovernmental agreement, under which the district processes contributions and non-personnel expenditures of the Front Range BOCES. The district is acting only in a fiduciary (custodial) capacity on behalf of the Front Range BOCES.

General Operating Fund

Revenue Sources

- •The Board of Education can make policy decisions on what the district charges for its tuition and fees. This controllable revenue source comprises only 0.2 percent of total General Operating Fund revenue.
- •The BVSD electorate has control over passing local property tax increases for school funding which represents 20.6 percent of district's 2021-22 the budgeted revenue. The board can only recommend placing a referendum on the ballot.
- The Colorado legislature determines BVSD's revenue from the SFA. BVSD voters have some control over who their state representatives are and how they vote on education issues. This less controllable revenue. combined with categorical reimbursements, totals 75.1 percent of BVSD's 2021-22 budgeted revenue. board has no control over the SFA.
- Other revenue including nonequalized specific ownership tax, other revenues, and services provided, make up the remaining 4.1 percent of BVSD's budgeted revenue, and are controlled primarily by economic factors completely outside of the district's control.

There are a variety of factors that impact the amount of money the district receives in its General Operating Fund from its different funding sources. The district and/or its constituents have more control over some factors than others. As you can see from the diagram below, the smaller funding sources are typically the ones over which the district has more control. For example, the district or the schools can control what kind of fundraising projects to have and how that money is to be used. However, at the other end of the spectrum, there is virtually no control over how many children live in the district and attend our schools.

In the 2021-22 fiscal year, the district projects the following revenue sources and amounts in the General Operating Fund:

*includes abatements and delinquent local property taxes

Summary of Assumptions

2021-22 Total Resources: \$411.9M

- \$23.3M increase in revenue from the 2020-21 Revised Budget is comprised of:
 - o An increase in the beginning balance.
 - An increase in School Finance Act revenue that is the result of a per-pupil revenue increasing based on decreasing the budget stabilization factor and funding of COLA in the base.
 - Slight decrease in Mill Levy Property Tax revenue that is indexed at 25.0 percent of School Finance Act funding as this is calculated on Total Program which is before the budget stabilization factor is applied due to lower student enrollment.
 - Removal of one-time revenue budget increase in Property Tax Credit and Abatements.
 - Flat state categorical funding.
 - o Removal of prior year READ Act revenue which had been deferred.
 - o An increase in revenue from Services Provided to Charters.

2021-22 Total Expenditures: \$313.3M

- \$8.9M increase in expenditures from the 2020-21 Revised Budget is comprised of:
 - Total compensation increase related to 3 percent COLA, step increases based, health and PERA rate benefit increases. Additional staff FTE for formula adjustments for classroom teacher, Art/Music/PE teachers, and paraeducators. Additional high school counselors and high school Social Worker and Psychologist FTE also included in ongoing.
 - Ongoing Middle Level Teacher FTE for response for planning time and school support and security in Security and Mental Health operation.
 - o The removal of 2020-21 one-time expenditures.
 - Ongoing expenditure increase for utilities, ERP and other Information Technology support, career and technical education program expansion, concurrent enrollment tuition support, curriculum materials and other fees, contracts and services.
 - One-time expenditures for curriculum materials, continue unit development and product completion, targeted intervention resources, student and staff Title IX training, equal school day transition support, career and technical education program development, utilities due to increased air handling, three year software uses pilot, communication support, set up for new security staff, and other fees, contracts and services.

2021-22 Total Reserves: \$33.9M

- \$0.8M net increase in Reserves from the 2020-21 Revised Budget is comprised of:
 - An overall increase in expenditures will result in an increase of required TABOR and contingency reserves.
 - o An increase in the multi-year funding contract reserve to align with contract.

Summary of Assumptions (continued)

202-22 Total Transfers: \$64.8M

- \$13.8M net increase in Transfers from General Operating Fund from the 2020-21 Revised Budget is comprised of:
 - Removal of any one-time 2019-20 transfer due to COVID and virtual learning.
 - Increase of ongoing transfers to funds related to 3 percent COLA, step increases, and health and PERA rate benefit increases.
 - Increase to the Risk Management Fund both ongoing and one-time.
 - Increase to Capital Reserve Fund ongoing.
 - Reduction of transfer to Food Services for efficiencies gained with the Culinary Kitchen. 0
 - Increase one-time in Technology Fund to fund a 5th grade 1:WEB program rollout. 0
 - Increase ongoing transfer to Charter Fund per negotiated contracts with charter schools to reflect increase in Per Pupil Revenue.

Note: Graph percentages may total other than 100 percent due to rounding.

Capital Projects

The two funds that comprise this section are the Building Fund and the Capital Reserve Fund. Each fund records

revenue as well as capital expenditures incurred for upgrades, replacements, constructing, repairing, or equipping fixed assets

within the district.

2014 Building Fund

Summary

The Building Fund records the revenues and expenditures related to the \$576.5M capital improvement bond issue approved by voters on November 4, 2014. The funds will be utilized in accordance with the <u>Educational Facilities Master Plan</u> that was approved by the Board of Education on August 12, 2014.

In April 2015, BVSD issued the first set of bonds for the \$576.5M capital improvement bond issue. The bids received reflect the bond market's very high level of confidence in the district, which results in lower interest cost for taxpayers. Proceeds from the \$250.0M issuance will fund the first phase of the bond program.

In March 2017, BVSD issued the second set of bonds for the \$576.5M capital improvement bond issue. Boulder Valley's bonds are rated by Moody's (Aa1), Standard & Poor's (AA+), and Fitch (AA+). The rating from Standard & Poor's represents an upgrade to the district's prior AA rating and is the highest rating assigned by Standard & Poor's for any Colorado school district. Proceeds from the \$190M issuance will fund the next phase of the bond program.

On March 6, 2019, the district issued the third set of bonds for the \$576.5M capital improvement bond issue. Proceeds for the \$136.5M issuance are currently funding bond projects.

Assessing the need

In 2012, the Board of Education directed staff to complete an assessment of the condition of Boulder Valley School District facilities and appointed the Capital Improvement Planning Committee, comprised of staff and community members, to work with district staff to identify and prioritize capital improvement needs and advise the Board of Education regarding the long-term facility needs of the district.

A complete building and site assessment was performed on all district buildings, encompassing over 4.5 million square feet of district assets. In addition, the committee identified capital improvement needs that extend beyond those of specific schools and will strengthen district infrastructure as well as expand educational opportunities for students.

Educational Facilities Master Plan

This work is the basis for this Educational Facility Master Plan which identifies \$576.5M in capital projects that will improve learning environments in all schools. Nearly 50 percent of the plan is committed to extending the life of existing buildings by investing in building structures and systems such as roofs, electrical, plumbing and heating, ventilation, and air conditioning systems. In addition, schools will get a much needed boost in aesthetics with new flooring, paint, and ceilings.

The plan also will upgrade learning spaces to support modern instructional practices, expand early childhood education, enhance security, and renovate district support facilities. Three elementary schools have been identified to be replaced because the buildings have become so deteriorated it is more prudent to replace the schools than invest in the existing facility. To meet anticipated enrollment demands, a new school campus will be constructed in Erie to serve students in preschool through eighth grade.

Building Fund (continued)

Citizens' Bond Oversight Committee

The Board of Education has convened a Citizens' Bond Oversight Committee (CBOC) to monitor and provide independent review of the projects in the Bond Program. Such monitoring and review is intended to provide a high level of accountability and communication on behalf of the Board of Education to the citizens of the district.

The 18-member committee will be comprised of representative district stakeholders including teachers, principals, parents and community members. The group will meet for the first time in spring 2014 and will serve for the duration of the Bond Program.

Bond Program Commitments

BVSD made commitments to provide substantial communication of its efforts, to meet regularly with CBOC, and to include school community participation in the design activities at each school. In addition, the district will incorporate energy-efficient 'green' strategies into projects and will meet the safety and security goals so important to the students, staff, and community.

The district has committed to:

- Produce regular communication updates on the district website and for school newsletters;
- Meet regularly with CBOC;
- Present to the Board of Education on a regular basis;
- Convene Design Advisory Teams (DAT) at every school to engage the communities in the design process
 of building projects and;
- Address safety and security measures at each building as feasible.

Please note that the BVSD Capital Reserve Fund will continue to support school efforts as before and will provide value-added benefits to bond projects as justified.

Bond Program's Benefit to the Environment

BVSD has made an organizational commitment to sustainability through district policy and the Sustainability Management System (SMS). The SMS is a comprehensive approach for identifying and coordinating existing efforts, establishing baselines, defining sustainability for BVSD, and creating plans to integrate sustainability into operations and curriculum. The SMS was updated in 2014 and set new five-year goals in four areas: buildings, materials flows, transportation, and education with an overarching theme of climate. The work included in the Educational Facility Master Plan provides significant opportunity to advance the district towards these goals, particularly in the areas of green building and climate.

Capital Reserve Fund

Summary

Boulder Valley School District is committed to providing safe and healthy environments for students to learn. This commitment is reflected in three existing board policies:

- Safe Schools Policy ADD
- Building and Grounds Security Policy ECA
- Building and Grounds Maintenance Policy ECB

Colorado statutes limit the options for governmental entities to fund significant capital projects. Any tax increase or issuance of debt must be approved by a vote of the local electorate. Due to this constraint, major capital projects are generally reserved for bond issuances. This funding constraint forces the district to defer maintenance on facilities to a level where the limited funds available are allocated to projects for health and safety needs and protection of the facility, as noted in items #1 and #2 below. Over 75 percent of the budgeted project expenditures fall within these two project types. Due to the limited funding available for capital projects, the policies identified above are taken into consideration when developing the annual capital projects list.

During the budget development process for the capital projects fund, district staff discuss the projects being considered. A determination is made whether these projects have the potential for significant impact on short- or long-term cost reductions or increases of operational budgets. If the potential for significant impact is a concern, further analysis will be performed to determine the impact and address it through the district's budget process.

District staff evaluate project requests and prioritize those requests based on the following criteria:

- 1. Health/Safety Does an unsafe or unhealthy condition exist for students and staff?
- 2. Protection of the facility Will the district incur excessive costs in the future if the system is not replaced or repaired? Will other areas of the facility deteriorate if this system is not repaired or replaced?
- 3. Improve the educational program Is a facility change necessary to deliver an adequate instructional program?
- 4. Replacement of depreciated items.
- 5. What is the impact on the district operating budget and/or services for non-routine projects?

Impacts of Capital Projects on General Fund

Major capital improvements paid for with bond funds and capital reserve funds are budgeted in the Building Fund and Capital Reserve Fund respectively. Additional operating costs incurred as a result of identified improvements typically consist of increased utility, custodial, and maintenance costs, which are budgeted in the General Operating Fund.

Capital Reserve

The projects that impact the operating budget fall into four major operational areas:

<u>Health/Safety:</u> These projects support the repairs, replacements, or construction tasks related to conditions in a district building or school grounds which are potential threats to the safety or health condition of students or staff.

<u>Mechanical Systems:</u> These projects include upgrades, replacement, and major repairs to HVAC, electrical systems, and plumbing systems within the district's facilities. These upgrades result in a savings to the operating budget through improved efficiency and reduced maintenance runs for repairs on failing equipment and false alarms triggered by warning systems.

<u>Maintenance Support:</u> These projects include repairs and new construction to school buildings and grounds which protect capital investments and support a quality educational program.

<u>Vehicle Replacement</u>: This project is the scheduled replacement of the bus and maintenance vehicle fleet. The replacement of aging vehicles realizes a savings through improved fuel efficiency and reduced maintenance and repairs. The change to more fuel efficient vehicles will result in a slower growth of both use of fuel and expense rather than a reduction in total use or cost. The expansion of curb-to-curb service for special needs students has drastically increased in recent years. The savings realized from these more efficient vehicles will help to slow the growth of this mandated expense as well as the significant increase in the cost of fuel.

The majority of projects are identified as falling into one or more of the stated criteria.

In the 2021-22 Adopted Budget, the district added \$500K in ongoing funds for replacing buses.

Charter School Fund

Summary

The funding for each charter school is based on charter enrollment and contract agreements between the school and BVSD.

There are five charter school component units in BVSD's Charter School Fund: Boulder Preparatory High School, Horizons K-8 School, Peak to Peak Charter School, Justice High School, and Summit Middle Charter School.

Fund Balance Requirements

In order to meet the challenges of school funding in Colorado and BVSD, the board adopted Policy DB in spring 2005, which dictated a minimum level of year-end fund balance in order to ensure the district's ongoing financial health. To further bolster the district's financial position and address the current economic challenges, the Board of Education updated this policy in January 2009, strengthening the requirements of the policy. The policy restricts the district from using one-time money for ongoing expenditures. This ensures programs are sustained with ongoing revenue. In addition, current policy specifies the amount to be held as a contingency reserve.

Following the requirements of this policy means BVSD will have to make annual budget adjustments so that new expenditures do not exceed new revenues and a moderate level of reserves is maintained. Because the district has, in the past, funded necessary programs with fixed revenues provided by override funds, the cost of these programs will eventually exceed the fixed revenue stream. Using the policy now means the district can make smaller adjustments over time rather than making dramatic cuts when the cost of programs has outgrown revenue sources.

The original policy was recommended by BVSD's external auditors and commended by the Colorado Department of Education's accreditation consultant. The recent update to the policy was crafted by the district's audit committee with input from the district's external financial advisors.

The **two key elements** of the policy are spending limitations and reserve requirements as follows:

Spending Limitations:

- The General Operating Fund budget will be developed so that the total of annual ongoing expenditures and transfers do not exceed annual revenues.
- If the General Operating Fund ends any fiscal year with an ending balance beyond required reserves, this amount can only be used for one-time uses in subsequent years.
- One-time uses are defined as expenditures, transfers and/or reserves committed to by the district for a finite period of time, on a non-recurring basis.

Reserve Requirements:

- The General Operating Fund budget will be developed containing an ending fund balance equal to required reserves including the TABOR reserve plus a minimum of a 4.0 percent contingency reserve. The need for additional reserves shall be reviewed annually.
- Funds in the contingency reserve shall not be spent without board approval. The request for approval must include a plan for ensuring that the expenditure will not exceed the fixed dollar amount approved by the board, and must also include a plan for replenishing the reserve within two years from first dispersal.
- The budgets for all other funds will be developed to include, at a minimum, the required TABOR reserve.
- The General Operating Fund budget will be developed on a GAAP basis.

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable fund
- Restricted fund balance
- Committed fund balance
- Assigned fund balance
- Unassigned fund balance

The 2021-22 Adopted Budget has been developed in compliance with these fund balance requirements.

Compliance Statements

The following statements were prepared by the state's Financial Policies and Procedures Committee to comply with certain requirements in state statute.

This budget's revenue projections were prepared using information provided by the Colorado Department of Education, the county assessor, the federal government, and other sources using methods recommended in the *Financial Policies and Procedures Handbook*. These budget expenditure estimates were prepared based on program needs, enrollment projections, mandated requirements, employee contracts, contracted services, and anticipated changes in economic conditions using methods described in the *Financial Policies and Procedures Handbook*. Beginning fund balances and revenues equal or exceed budgeted expenditures and reserves.

This budget includes the audited revenues, expenditures, and fund balances for the last completed fiscal year. Audited figures are detailed in BVSD's Comprehensive Annual Financial Report and are available for review on the district's website (www.bvsd.org), in the district's business office, the Colorado Department of Education, or the state auditor's office.

The 2021-22 Adopted Budget was prepared in compliance with the revenue, expenditures, tax limitation, and reserve requirements of Section 20 of Article X of the State Constitution.

Governing Policies

The following main sections of policies guide the Boulder Valley School District through the budget development and implementation process as well as policies that direct operational procedures of the district. A detailed description of each policy associated within each section can be found in the Appendix located in the Informational Section of this document.

Section A: Foundations and Basic Commitments - Contains policies, regulations, and exhibits regarding the district's legal role in providing public education and the basic principles underlying school board governance.

Section B: Board Governance and Operations - Includes policies regarding how the school board is appointed or elected, how it is organized, how it conducts meetings, and how the board operates.

Section C: General School Administration - Contains policies, regulations, and exhibits on school management, administrative organization, and school building and department administration.

Section D: Fiscal Management - Includes the policies on school finances and the management of funds. Policies on the financing of school construction and renovations are included in Section F, Facilities Development.

Section E: Support Services – Contains policies on non-instructional services and programs, particularly those on business management.

Section F: Facilities Development - Contains policies on facility planning, financing, construction, and renovation. Also includes the topics of temporary facilities and school closings.

Section G: Personnel - Contains policies that pertain to all district employees.

Section H: Negotiations - Contains policies guiding negotiating procedures.

Section I: Instruction - Contains policies regarding instruction, curriculum, resources, and achievement.

Section J: Students – Includes policies regarding student admissions, attendance, rights and responsibilities, conduct, discipline, health and welfare, and school-related activities.

Section K: School-Community Relations - Contains policies, regulations, and exhibits on parent and community involvement in schools.

Section L: Education-Agency Relations - Policies include school district's relationship with other education agencies – including other school systems, regional or service districts, private schools, colleges and universities, educational research organizations, and state and national educational agencies.

Document Summary

This concludes the Executive Summary portion of the **INTRODUCTORY SECTION**. The purpose of this document is to help the reader understand school finance issues and the process used to create a budget that is fiscally responsible and supports the needs of all students for the upcoming year. The 2021-22 Adopted Budget document provides summary information for a broad look at the financial plan of the district.

The school district's budget is a living document representing the investment our community makes in educating its children. Each year, the district evaluates programs, staffing patterns, and other expenditures in relation to the strategic directions set by the Board of Education, with particular emphasis on student achievement. We are proud of the fact that this community places a premium on academic achievement for all children.

This budget reflects the vision, mission, values, and goals of the Boulder Valley School District to provide educational services to its students to the end that the attainments of their goals as members of society are enhanced. The recent economic impacts as a result of COVID-19, improvement of educational services, and a projected decrease in the student population created challenges to maintain necessary expenditures within the limits of available resources and restrictions imposed by the state legislature.

This budget is a prudent plan that balances the many needs of our students within the economic realities of our state and district. The members of the Board of Education have provided outstanding support for the educational services of the district, and the budget reflects the commitment of the board and the community for quality educational programs.

The remaining sections of this document provide detailed and supplementary information to support the budgets as presented.

The **ORGANIZATIONAL SECTION** provides detailed information on the Boulder Valley School District's government profile, its facilities, and geographical area. It provides insights into the district's vision, goals, and strategies in the context of supporting student achievement. It details the district's administrative structure, operating departments along with accounting descriptions of fund types, revenue and expenditure classifications, budget, and management practices that regulate operations.

The **FINANCIAL SECTION** provides all the information necessary to understand the structure of the district's financial documents; detailed budget schedules for all funds are included to provide historical financial standings along with debt obligations. Included are a five-year beginning balance, revenue, expenditure, transfers, emergency reserves, and ending balance for all of the district's funds including staffing formulas. Sub-sections include General Operating Fund, Other Funds, and the Charter School Fund detailing five years of revenues and expenditures and providing program and staffing summaries.

The **INFORMATIONAL SECTION** includes enrollment trends, historical data comparisons, data, charts, and assorted information in support of the budgets. This section is intended to help the reader have a better understanding of the history and future of the district as a growing entity. Sub-sections include the Appendices and Glossary that provide historical information on the Boulder Valley School District's assessed valuation, mill levies, enrollment and pupil count funding, the Colorado Department of Education critical dates, and terms used in the budget document.

The 2021-22 Adopted Budget line item detail is available for public review in PDF format on the Boulder Valley School District's website under Financial Transparency section at: https://www.bvsd.org/about/financial-transparency/budget.

For additional district financial information, readers should refer to the Comprehensive Annual Financial Report for the June 30, 2020, fiscal year-end, which is also available on the district's Business Services Division web page.

Profile of the Government

Boulder Valley School District RE-2 (BVSD) is a public school district and body corporate, organized and existing under the School District Organization Act of 1965, Article 30, Title 22, and Colorado Revised Statutes. The district has the authority to determine its own budget, levy taxes or set rates or charges, and issue bonded debt without approval from the state or by another government, making BVSD fiscally independent.

Originally organized in 1860, the district was reorganized in 1961 to include numerous smaller districts. There is a seven member Board of Education, elected by the citizens of Boulder, Broomfield, and Gilpin Counties, that govern the district. Board members serve four-year terms, with four members elected every two years; they are term-limited at two terms.

BVSD is located in Boulder County near the foothills of the Rocky Mountains, approximately twenty miles northwest of Denver. Its boundaries encompass approximately 500 square miles in Boulder, Broomfield, and Gilpin Counties and contain a population of approximately 211,000. The communities of Boulder, Louisville, Lafayette, Erie, Superior, Broomfield, Nederland, Ward, Jamestown, and Gold Hill are served. Residents within the district, particularly in the more densely settled urban areas where most of the population resides, participate in the large and increasingly diverse front-range economy, which includes the cities of Denver, Boulder, and Longmont and the growing communities in between. The city of Boulder is home to the University of Colorado, Boulder Campus, and is a significant stabilizing force for the local economy. Other major employers in the area include Oracle Inc., IBM Corporation, Ball Corporation, numerous federal research laboratories, and other smaller software, research, manufacturing, and pharmaceutical firms.

BVSD provides a full and challenging range of educational programs and services authorized by Colorado State Statute including kindergarten through grade twelve education in elementary, middle, and high schools; Special Education; Career Technical Education; an Online Education program; and Culturally and Linguistically Diverse Education; and numerous other educational and support programs. In addition, the district offers preschool programs through the Colorado Preschool Program, Community Montessori focus school, and the Special Education program. The district also has five charter schools that comprise the Charter Funds of the Boulder Valley School District: Summit Middle Charter School, Horizons K-8 School, Boulder Preparatory High School, Justice High School, and Peak to Peak Charter School.

Budget Decisions Shaped by Goals and Financial Constraints

A school district budget is a dynamic entity, structured to achieve the goals of the district within the environment of current economic conditions and political will. The BVSD superintendent is guided by the district's goals and community priorities in creating the annual budget. It evolves year to year to address current conditions. Each year our community is invited to play a role in developing the budget. We continually strive to help our community understand the complexities of our budget by publishing several documents to explain the budget and its development. It can be difficult to see long-term trends, therefore, one purpose of this document is to give a historical perspective on how public education in Colorado, and specifically Boulder, arrived at its current state.

Given the constraints of available resources, BVSD re-examines priorities each year and uses the budget development process to allocate funding to maximize student achievement. Over time, the district has faced challenges, utilized advances in technology, enhanced the advantages of the district's economies of scale, and modified programming to maximize student learning.

Plan and Assess for Continuous Improvement

Increasingly, state and federal regulations determine the environment in which BVSD must operate, from establishing funding levels to setting academic achievement standards. As the district is presented with new budgetary challenges to address, it is continuously modifying and improving its methods of analyzing data to anticipate future challenges. We constantly monitor business environmental factors such as inflation, tax collection rates, and state legislation in order to examine cost trends for a variety of items during the development of the budget.

Vision, Mission and Value Statements

It is well known in our community and in Colorado that the Boulder Valley School District (BVSD) is already among the highest achieving of Colorado's 178 school districts. What may not be as well-known is the shared determination of our students, parents, teachers, administrators, and community leaders to make BVSD the educational answer for each student in our district regardless of circumstance or background. Each child brings a unique and worthwhile contribution to our learning community.

Vision

We develop our children's greatest abilities and make possible the discovery and pursuit of their dreams, which when fulfilled will benefit us all. We provide a comprehensive and innovative approach to education and graduate successful, curious life-long learners who confidently confront the great challenges of their time.

Mission

The mission of the Boulder Valley School District is to create challenging, meaningful and engaging learning opportunities so that all children thrive and are prepared for successful, civically engaged lives.

Value Statements

- 1. We respect the inherent value of each student and incorporate the strengths and diversity of students, families, staff and communities.
- 2. Societal inequities and unique learning needs will not be barriers to student success.
- 3. We address the intellectual growth, health and physical development, and social-emotional well-being of students.
- 4. We value accountability and transparency at all levels.

Strategic Plan

The Boulder Valley School District has developed a new Strategic Plan, that we call **All Together for All Students**. This ambitious, exciting, and comprehensive effort will guide BVSD for the next five years and aims at bringing everyone together to meet the needs of all students.

We believe that Boulder Valley is uniquely positioned because of its resources and

outstanding educators to overcome the challenges we face, including an achievement gap that educators across Colorado and the nation have struggled to address.

Built upon a solid foundation

The new strategic plan was developed by BVSD educators utilizing the feedback of more than 1,400 staff members and more than 500 parents and community members. Superintendent Rob Anderson visited all 56 BVSD schools, every BVSD facility and held six regional community forums in English and three in Spanish.

The new plan also builds upon the success of BVSD's previous strategic plan, The Success Effect and its three initiatives: Talent, Learning, and Partnerships.

Finally, the team reviewed a tremendous amount of data regarding student, school, and district performance, as they crafted a plan to address some of BVSD's most pressing needs.

Student-focused

Our strategic plan is focused first and foremost on students. After analyzing volumes of data and feedback from educators and the community, BVSD set three Long Term Student Outcomes that will drive everything we do:

All students benefit from challenging and relevant educational opportunities Reduce disparities in achievement

Every student graduates empowered with the skills necessary for post-graduate success

More simply, our goal is to Ignite the passion of learning in every student, Equip them will the skills needed to overcome the achievement gap and to prepare them to Soar in whatever they do after school.

Starting Strong

While everything in the strategic plan is important, we also know that it is crucial that we pace ourselves. That is why we started with only six of the 13 initiatives. Here is a quick rundown:

- PK-12 Pathways for Students. Providing consistency and coherence across the entire BVSD system, so that students learn the most important things and build upon their learning from year-to-year.
- **Best Instructional Practices**. Establishment of effective instructional practices that meet diverse student needs.
- One size doesn't fit all. Every school is different, so we are setting up a system that more equitably shares resources based on the needs of schools and their communities.

Strategic Plan (continued)

- **Keep what works. Toss what doesn't.** School districts are notorious for keeping programs that don't work. We are assessing current and future programs to ensure they're beneficial for students.
- **Howdy Partner.** We know our goals are only achievable through effective partnerships with our community, including non-profits and businesses.
- **Everyone is welcome.** Our goal is to ensure that BVSD is a warm, welcoming and safe environment for every student regardless of their background, race, gender or other identifying characteristics. We aim to implement practices that challenge inequity and bias.

Customized for each school

The problem with most strategic plans is that they broadly implement ideas and supports from the district to all schools. Every school is expected to implement all initiatives, regardless of their situation. As a result, few are fully implemented.

In contrast, we believe that everyone cannot do everything the same if we all want to get better. We are customizing and vertically aligning support based on the specific needs of each school and community.

This also aligns with the district's recent reorganization. Schools have now been grouped in regional areas and district support staff have worked to meet with each school's leader to determine the best way to utilize resources that are the most impactful for students.

Data Driven

We will develop measures that will help drive the critical work of the district. A focus upon Return on Investment (ROI) will focus resources on the most beneficial initiatives in the district, and allow staff to stop doing what is not working; benchmark performance both locally and nationally with similar, high performing districts; and develop targets that will focus efforts on student outcomes. In order to establish a baseline, BVSD pulled together as much data as possible regarding the state of the school district, including state assessment results, district culture and climate surveys and much, much more. This collective data resulted in:

Long Term Outcomes

Our new Strategic Plan will be focused on the needs of our students. For this reason, BVSD administrators, employees, parents and community members have three Long Term Student Outcomes -- specific, student-focused, measurable results that we want our students to achieve across the district.

Strategic Themes

Strategic Themes are areas that must be addressed to achieve long-term outcomes.

Strategic Plan (continued)

The Boulder Valley School District is moving from design to implementation with its <u>All Together for All Students</u> Strategic Plan.

Following a thorough design process led by BVSD's teacher-leaders, educators across the district are now in the process of standing up the Four Pillars of Instruction and integrating culturally and linguistically responsive teaching practices, which will effectively address the many systemic issues that we believe have led to the district's historic achievement gaps.

Four Pillars of Instruction

The Multi-Tiered System of Supports provides our students with individualized support to meet both their academic and behavior challenges. The system includes Universal instructional Practices initiatives for all students, as well as more targeted support and acute interventions, when needed.

Common Instructional Model is a set of researched based teaching progression that, when used by educators, results in student engagement and growth.

learners. Teacher facilitates learning in whole group, small group and individual contexts with relationships at the core of the teaching and high levels of student interaction and collaboration.

Scope/Sequence BVSD educators have prioritized the State of Colorado standards and what order they should be taught from year to year, to ensure that students have the knowledge and skills they need as they build upon their learning from grade-to-grade – starting in preschool.

Balanced Assessment System as students are learning, it is critically important for us to check in with them along the way to see whether they've picked up the concepts we are teaching, or whether they may need additional support in specific areas. This is accomplished through a system of assessments, including interactive (during learning) and summative (end-of-unit) checkpoints that allow students to demonstrate what they have learned.

Culturally and Linguistically Responsive Teaching

Integrated in all of this work are efforts to ensure that our students are represented in our curriculum, supports are available to meet their specific needs so that, ultimately, every student feels welcomed and included in learning. We know excellence is only possible once we have addressed equity in our school district.

Budget Development Process

School boards and superintendents in all 178 Colorado districts face many budget challenges. At BVSD, driving forces considered by the board and the superintendent for the 2021-22 budget include: employee compensation, additional student-centric resources to address student needs in the areas of school safety, social-emotional support, curriculum materials and a significant \$17.4M investment committed over 3 years to differentiated funding to close the achievement and opportunity gaps and disproportionality. With this, there are still continuing challenges with the state tax and revenue policies, the impact of decisions made by the legislature, and the investment in hiring and retaining high quality staff through a competitive compensation structure.

This budget was prepared considering the needs and values of students, parents, employees, and taxpayers. Throughout the stages of the budget process, the board must balance the needs of all stakeholders with the fiscal responsibility it has to the taxpayers. Although BVSD students exceed in aggregate the state average on all universally administered performance measures, achievement gaps exist for certain targeted groups. The budget development process brings to the forefront the needs of all students, and allows funding decisions to be made that provide the necessary resources to address the district's strategic plan.

BVSD began the budget process with the development of a calendar as presented to the Board of Education on December 08, 2020. The calendar outlines the following steps:

Governor Polis' November 1 proposed budget for K-12 public education in 2021-22 included funding adjustments for a slight state-wide Pre-K12 enrollment decline, inflation at 2.0 percent, and a reduction to the Budget Stabilization Factor of \$601.0M. The net projected PPR increase for BVSD was \$897, or 11.3 percent. While this increase is significant, this restoration of funding is following the significant funding cut noted in the Fiscal Analysis of 2020-21. Although Colorado enjoys one of the most robust local economies in the country, the fiscal constraints contained within Article X, Section 20 of the Colorado constitution, the state legislature cannot make decisions to allocate the necessary resources to public services to meet the needs of a growing population, crumbling infrastructure and investing for the future.

With the improving 2020-21 economic outlook and the state's 2020-21 supplemental budget process, the governor's budget request was updated to address changes in state-wide student counts and local revenue sources. These changes reduced the investment needed to reduce the Budget Stabilization Factor to the proposed level. This was largely due to the reduction of students in public schools as a result of the COVID-19 pandemic.

At the time of the production of this document, the Budget Stabilization Factor reduction to statewide total program funding as calculated in the SFA remains at \$572.4M, or 6.8 percent. For BVSD, this negative factor equates to \$19.3M in annual lost state revenues, as calculated through the SFA. Typically, the legislature has completed its 120 day session by early May. In 2021, the session was delayed a month and is scheduled to to end on June 12. Although the School Finance Act has not been adopted, all indications point to the funding being adopted as proposed, with the potential for a slight increase in funding that can be addressed in the revised budget process if necessary.

After the state sets the total funding for K-12 public education, each local district determines how to fund its specific system and allocate resources to every school within its district.

<u>Input Gathering and Analysis</u> In order to seek a broad range of input from the community, the district conducted many budget information/discussion meetings. These included:

- Seven public budget worksessions with the Board of Education
- Five Board of Education meetings with specific budget agenda topics
- Numerous meetings with district stakeholder groups and the District Leadership Team

Budget Development Process (continued)

These meetings provided opportunities for the district's stakeholders to hear relevant budget information as well as give feedback to the superintendent and Board of Education regarding the development of the 2021-22 budget.

Also, district staff maintains a "BVSD Financial Transparency" section within the district's website to present significant amounts of district financial information and links to other data sources with the goal of providing transparency and increasing understanding regarding all financial aspects of the district. This website aligns with the state statute related to fiscal transparency. The link can be found on the main page of the district's website at www.bvsd.org.

Finally, Board of Education meetings held from January through June provide an opportunity for the general public to contribute direct input to the board regarding the budget, as agenda item IV at each meeting is set aside for public participation. Each speaker is allotted two minutes to discuss district topics of interest to the individual that are germane to district functions. The board takes public comments into consideration during the budget development process.

<u>Preliminary Budget</u> After reviewing the input from the board, enrollment projections and the most current revenue assumptions, the superintendent and his senior staff prepared a preliminary budget. The preliminary budget was presented to the board for discussion and review during a worksession on April 13, 2021, and again as a study item at the regular Board of Education business meeting on April 13, 2021.

<u>Proposed Budget</u> The proposed budget reflects staff compensation of steps and lanes on salary schedules, a 3.0 percent cost of living adjustment, savings from staff turnover, and a 2.0 percent increase to the district-paid health insurance premium. The proposed budget also incorporates numerous investments to support students, staff and operational functions of the district.

- School mental health supports and safety staff as a replacement for school resource officers
- Curriculum materials, development and support
- Funding to increase middle school planning time
- Differentiated funding for schools based on student need and improvement goals
- Utilities and other contractual inflationary increases

Further details are included in the "Budget Adjustment Plan" in the Introductory Section of this document.

<u>Budget Adoption</u> After the presentation of the 2021-22 Proposed Budget on May 25, 2021, the Board of Education is scheduled to adopt the 2021-22 budget on June 08, 2021.

<u>Budget Revision</u> The final phase of budget development is the modification of the June adopted budget based on final 2020-21 financial data and updated enrollment information gained during the first two months of school. This budget development process is consistent with current Colorado statutes that require a proposed budget be presented to the board by June 1 and adopted by June 30. The law provides the opportunity for a board of education to adjust revenues and expenditures through January 31 of the fiscal year.

<u>Amending the Budget</u> Changes to the budget following the adoption by the Board of Education are authorized under Policy DBJ, which allows the transfer of funds between accounts with the approval of the superintendent or designee.

This following charts summarize the process, timelines, and decision points of the budget development process for both the adopted and revised budgets. From year to year, the timeline varies only slightly as statutory and contractual deadlines provide the milestones for the process. Similarly, information and data generally becomes available in a parallel timeline to the previously mentioned milestones with variations driven largely by the legislative process.

Basis of Budgeting and Accounting

Colorado Local Government Uniform Accounting and Budget Laws require that a budget be adopted and reported for all funds. Total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased provided they are offset by unanticipated revenue. All appropriations lapse at the end of the fiscal year. Supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

This budget was prepared in compliance with the revenue, expenditure, tax limitation, and reserve requirements of Article X, Section 20 of the State Constitution (TABOR Amendment). This amendment prohibits school districts from increasing taxes, mill levies, revenues, or spending except by statutory defined limits. It also mandates "emergency reserves" of three percent of total government spending.

On November 2, 1999, the Boulder Valley School District voters passed a ballot issue that authorized the district to collect, retain, and spend all district revenues from any source received in 1999, and for each year thereafter, that are in excess of any revenue raising, spending, or other limitation in Article X, Section 20 of the Colorado Constitution.

Budgets for all funds are adopted on a basis consistent with GAAP. A GAAP budget includes all expenditures/expenses incurred and revenue earned during the period, regardless of the timing of when cash is actually received or paid. On a budgetary basis, the district has not budgeted a deficit fund balance and is in compliance with state legal requirements. The district's definition of a balanced budget is in accordance with Colorado Revised Statute 22-44-105(1.5)(a) which states: "A budget adopted pursuant to this article shall not provide for expenditures, interfund transfers, or reserves in excess of available revenues and beginning fund balances."

Supplemental budgets may be adopted in accordance with C.R.S. 22-44-110(5) and 22-44-110(6), in the event additional money becomes available. Budget amounts may be amended by transfer in accordance with BVSD district Policy DBJ. Policy DBJ is derived from C.R.S 22-44-112 that limits which funds are available for transfer. All budget transfers require the approval of the superintendent or designee.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the district considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, specific ownership taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the district.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt services expenditures as well as expenditures related to compensated absences are recorded only when payment is due.

Enterprise Fund and Fiduciary Fund revenues and expenses are recognized on the accrual basis of accounting. Revenue is recognized in the accounting period in which it is earned, and expenses are recognized when incurred.

Financial Information

Internal Control

District management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the district are protected from loss, theft, or misuse. Adequate accounting data must also be compiled to allow for the preparation of financial statements in conformity with GAAP. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

(1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit

As a recipient of federal, state, and local financial assistance, the district is responsible for ensuring that adequate internal controls are in place to guarantee compliance with all related applicable laws and regulations related to financial programs. As a part of the district's single audit, tests are made to determine the adequacy of internal control, including that portion related to federal award programs as well as to determine that the district has complied with applicable laws and regulations, contracts, and grants. The results of the district's single audit for the fiscal year ended June 30, 2020, provided no instances of material weaknesses in internal control or material violations of applicable laws, regulations, contracts, and grants.

Budgeting Controls

The district maintains numerous budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget adopted by the Board of Education. Budgetary controls include an encumbrance accounting system, expenditure control, and position control. The district's financial system provides budget managers with online capabilities to view outstanding orders and available funds for all accounts in their department or school. Encumbered amounts lapse at year end and are generally re-established in the following year as an obligation against that year's appropriated budget. The policies adopted by the Board of Education related to fiscal management and the budget process can be found in the Informational Section of this document.

Cash Management

The cash management and investment practices of the district follow BVSD's Board of Education Investment Policy and state law. The district's investments are managed in a manner that optimizes the return on investments and minimizes risk while providing needed liquidity. The board receives a quarterly investment portfolio report in the regular quarterly financial report. In order to meet its cash flow requirements the district will participate in the State of Colorado's Interest Free Loan Program. This program allows the district to borrow funds from the State Treasury as needed to fund its operations, repaying those funds once property tax revenues begin flowing into the district in March. In June 2021, district staff will request authorization from the board to borrow an amount similar to that of 2020-21 from this program for the second half of the 2021-22 fiscal year. All funds will be repaid to the State Treasury by June 30, 2022.

Risk Management

The district participates in two self-insurance pools, one for property/liability insurance and one for workers' compensation. The property/liability insurance for the district is provided through the Colorado School Districts Self-Insurance Pool, which is comprised of over 100 school districts. The workers' compensation coverage for the district is provided through the Joint School Districts Pool for Workers' Compensation. This pool is comprised of four large Denver-metro school districts: Aurora, Boulder Valley, Cherry Creek, and Littleton. The pools rely upon actuarial reviews to determine appropriate funding and reserve levels. Excess insurance is in place for amounts above the retention. Detailed insurance information is provided with the budget information for the Risk Management Fund in the Financial Section of this document.

Financial Information (continued)

Audit Committee

On September 28, 2004, the Board of Education adopted Policy DIEA-District Audit Committee which established an Audit Committee. The committee is made up of five members: two Board of Education members, one being the board treasurer who shall serve as chair of the District Audit Committee, and the other member appointed by the president of the board for a two-year term; the district's chief financial officer; the district's accounting services director; and a community member with expertise in governmental accounting and financial management. The community member will be selected by the District Audit Committee and recommended to the Board of Education for a two-year term.

The primary responsibilities of the committee are as follows:

- Recommend the selection of an external auditor, considering independence, qualifications and cost of services. Review the scope, plan, and coordination of the independent audit efforts. Consider the auditor's findings and recommendations for appropriate actions.
- Review quarterly financial reports provided by the district.
- Review district financial policies and procedures.
- Review any new debt issuance.
- Encourage continuous improvement of district financial policies and procedures.

Independent Audit

State statutes require an annual audit by independent certified public accountants. During 2021, the district issued an RFP for audit services. Based upon the recommendation of the Audit Committee, the Board of Education approved a contract with CliftonLarsonAllen, LLP to perform the district's audits beginning with the fiscal year ending June 30, 2021. In addition to meeting the requirements set forth in state statutes, the audit is also designed to meet the requirements of the Single Audit Act and OMB Circular A-133. The Comprehensive Annual Financial Report for the year ended June 30, 2020, as well as previous fiscal years, can be found on the Financial Transparency page of the district's website at www.bvsd.org.

Governing Policies

The 2021-22 Adopted Budget is developed in accordance with policies and procedures adopted by the Board of Education. The district has a vast array of policies from which to operate. After careful deliberation, the board approves policies that are then implemented through specific regulations and procedures. Specific policies that pertain to the development and implementation of the district budget are described below, and the entire policy statements have been included in the Informational Section of this document. The policies referenced throughout this document may be found on the district website at: https://www.bvsd.org/about/board-of-education/policies.

School Board Powers and Responsibilities (BBA) - Powers and mandatory duties of the board are defined in state statutes. Included in the policy are the functions that the board considers most important.

Annual Operating Budget (DB) - The annual budget is the financial plan for the operation of the school system. It provides the framework for both revenue and expenditures for the year. The budget translates into financial terms the educational programs and priorities of the district.

Budget Transfers (DBJ) - Under law, the Board of Education may, upon the recommendation of the superintendent, transfer any unencumbered monies from the contingency reserve account (which is within the General Operating Fund) to any school and/or program budget accounts.

Governing Policies (continued)

Grants Management (DD) - The school district is receptive to outside financial support to aid in delivery, maintenance, and improvement of the educational program. The district will apply for and receive appropriate federal, state, and private grants that will support the strategic plan or otherwise assist in improving student achievement.

Project Partnerships, Sub-Award Grants, Sub-Contracts Pursuant to Grants, and Third-Party Grants Involving District Personnel, Programs or Facilities (DD-R1) - When BVSD is named by another agency or institution in a grant application as the recipient of payments, goods, or services under that grant, this is considered a sub-award grant and it is subject to all of the same requirements for review and approval as grants written by and awarded to BVSD and its schools/departments.

Grants to District Personnel (DD-R2) - Grants applied for and received by individual district personnel for personal, professional, or professional development purposes are not subject to district policies unless they involve activities conducted during the normal work day, or involve students, the use of school property, and/or require the participation of other district personnel.

Loan Programs (Funds from State Tax Sources) (DEB) - The superintendent shall notify the board when it becomes evident that cash balances will not meet anticipated obligations. Under such circumstances the board may negotiate, under the provisions of Colorado statutes, for a loan in amounts as may be required to meet such obligations. Such a loan may not be obtained without prior approval of the board.

Cash Management/Investment Policy (DFA) - The Board of Education authorizes the superintendent to effectively manage the district's financial assets and to invest all funds not needed immediately. District funds shall be invested in accordance with Colorado statutes.

Revenues from Licensing of School Facilities for Telecommunication Uses (DFB) – As a service to the communities where its various school sites and facilities are located and as a source of revenue to the school district, the Board of Education may license the use of its sites and facilities for the installation, maintenance, and use of telecommunication and low power radio signal equipment owned by third-party entities.

Revenues from State/Federal Tax Sources (DEB/DEC/DFC) - Except for non-categorical state and federal funds received by the school district to support the General Operating Fund budget, other outside funds received for any project requiring the expenditure of school district funds and/or the cooperative use of school district facilities on a regularly scheduled basis shall be brought to the Board of Education for authorization before the project is instituted.

Depository of Funds/Authorized Signatures (DG) - All monies received by the school district shall be deposited in an official bank as designated by the board. Such a financial institution must qualify as an eligible public depository in accordance with state law.

Bonded Employees and Officers (DH) - The district's chief financial officer and director of accounting services shall be bonded in the sum of \$100,000 each. Other employees may be bonded at the discretion of the superintendent.

Fiscal Accounting and Reporting (DI) - The superintendent shall be responsible for receiving and properly accounting for all funds of the district. The accounting system used shall conform to the requirements of the State Board of Education and with generally accepted accounting principles which will provide the appropriate separation of accounts, funds, and special monies.

Inventories (And Property Accounting) (DID) - The Board of Education directs that the district maintain a system for the inventory of all fixed assets including land, buildings, vehicles, and equipment. The district will also maintain an inventory of infrastructure assets including roads, bridges, tunnels, drainage systems, sidewalks, curbs, and water/sewer distribution collection systems.

Governing Policies (continued)

Audits (DIE) - In accordance with state law, all funds and accounts of the district shall be audited annually, following the close of the fiscal year. The board shall issue a Request for Proposal (RFP) or use some other similar process for selection of an independent auditor licensed to practice in Colorado and knowledgeable in government accounting to conduct the audit.

District Audit Committee (DIEA) - The Board of Education has the responsibility to district residents and taxpayers to properly account for public funds. In keeping with the adopted principles of sound financial management, the board establishes an audit committee to assist in its oversight responsibilities.

Purchasing and Contracting (DJ-DJE) - Purchases are made to obtain the optimum value for each dollar expended. Competition is the basis for all purchasing, unless impractical, inefficient, or impossible. The procurement department issues purchase orders and is authorized to issue procurement cards for the purchase of goods and services authorized in the district's adopted budget and purchased in accordance with this policy.

Payroll Procedures/Payday Schedules (DL-DLA) - All employees will be paid via direct deposit to an account at the financial institution of their choice. A payroll check will be issued only with the prior written approval of the chief personnel officer.

Salary Deductions (DLB & DLB-R) - Deductions shall be made from the compensation of all employees for federal and state income tax in keeping with federal and state requirements. The superintendent authorizes deductions for PERA, credit union, savings bond, life survivor's insurance, health and dental insurance, tax savings plans, employee contributions, and professional dues from employee salaries, provided the employee has filed the proper permission for payroll withholding.

Employee Expense Reimbursements (DLC) - Employees who are required to travel from school to school and/or out of town on business for the district shall be reimbursed upon application by the employee and supervisor approval.

District Properties Disposal Procedures (DN) – The superintendent or designee shall determine whether school property other than real estate is obsolete and/or of no further value to the school district, and shall, based upon appraisal, decide the manner of disposal of such property by sale, donation, sealed bid, auction, recycling or discarding.

Type and Description of Funds

The district has 21 active funds in total, each identified within their type (Operating Funds, Special Revenue Funds, Debt Service Fund, Capital Project Funds, Enterprise Fund, Internal Service Funds, and Fiduciary Funds) including the General Operating Fund.

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts for recording the source and use of cash and other financial resources. It contains all related assets, liabilities, and residual equities or balances, or changes therein.

Funds are established to carry out specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions for the purposes described.

Operating Funds are accounts for all financial resources except those required to be accounted for in another fund. Section 22-45-103(1)(a), C.R.S., states that all revenues, except those revenues attributable to the Bond Redemption Fund, the Capital Reserve Fund, the Building Fund, the Insurance Reserve Fund, and any other fund authorized by the State Board of Education, shall be accounted for in the General Operating Fund. Any lawful expenditure of the school district, including any expenditure of a nature that could be made from any other fund, may be made from the General Operating Fund.

Type and Description of Funds (continued)

- <u>10 General Operating Fund</u>: This fund accounts for the largest portion of the total district budget and covers day-to-day operating expenditures including salaries and benefits for employees, textbooks, and business services. Funding comes from local property taxes and the state of Colorado. Funds must be transferred from the General Operating Fund to the Capital Reserve and Insurance Reserve Funds.
- <u>101 PERA On-Behalf Fund</u>: This fund is used to report its proportionate share of on-behalf payments each year to Colorado PERA as both a revenue and expenditure.
- <u>11 Charter School Fund</u>: This fund is used to account for the financial activities associated with charter schools, which are treated as component units of the district.
- <u>12 Differentiated School Support Fund:</u> This fund is used to track spending of resources allocated to schools identified with differentiated levels of support needs.
- <u>15 Technology Fund:</u> This fund includes the expenditures for a four-year computer replacement program as well as staff training and software as needed. These funds were approved as a result of the November 1, 2005, election.
- <u>16 Athletics Fund</u>: This fund includes the expenditures for interscholastic sports for grades 8-12. Revenues include a transfer from the General Operating Fund as well as student participation fees and game admissions. The activities related to interscholastic sports for charter schools are recorded within the individual charter school's budget.
- <u>17 Preschool Fund:</u> This fund was established by the successful passage of the 2010 mill levy override. A portion of the funding from the passage of the override is dedicated to the expansion of services offered to children ages three through five years of age.
- <u>18 Risk Management Fund</u>: This fund accounts for the resources used for the district's liability, property, and workers' compensation insurance needs. It also provides overall risk management activities for the district.
- <u>19 Community Schools Fund:</u> The Community Schools Fund is used to account for the district's educational and enrichment opportunities provided through extended use of Boulder Valley School District facilities.
- <u>29 Colorado Preschool Program Fund</u>: This fund was established by Senate Bill 01-123, concerning the required expenditure of a portion of a school district's per pupil operating revenue for the school district's Colorado Preschool Program. Beginning with FY19, this requirement has been lifted. As a result, this fund was consolidated into the Preschool Fund beginning with the 2018-19 Proposed Budget.)

Special Revenue Funds are accounts for the proceeds from special revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes. A separate fund may be used for each restricted source.

- <u>21 Food Services Fund:</u> This fund accounts for all financial activities associated with the district's school lunch program.
- <u>22 Governmental Designated-Purpose Grants Fund:</u> This fund is provided to account for monies received from various federal, state, and local grant programs.
- <u>25 Transportation Fund:</u> This fund accounts for all the transportation services of the Boulder Valley School District. It was developed after voters approved the transportation mill levy in November 2005.
- <u>61 Operations & Technology Fund:</u> This fund accounts for capital construction, technology, and maintenance. It was developed after voters approved the associated mill levy in November 2016.
- <u>73 Student Activities Fund:</u> This fund is provided to account for receipts and disbursements from student activities and district fundraising.

Type and Description of Funds (continued)

Debt Service Fund is to be used to service the long-term general obligation debt of the school district including principal, interest, and related expenses. This fund may be used to service other long-term voter-approved debt of the school district.

<u>31 - Bond Redemption Fund:</u> This fund is authorized by Colorado law. It provides revenues based upon a property tax mill levy set by the school board to satisfy the district's bonded indebtedness on an annualized basis.

Capital Project Funds are used to account for financial resources used to acquire or construct major capital facilities, sites, and equipment. These funds are designated to account for acquisition or construction of capital outlay assets which are not acquired directly by the General Operating Fund, special revenue funds, or enterprise funds.

- <u>42 2014 Building Fund:</u> This fund is required by Colorado law and is used to fund ongoing capital needs such as site acquisition, major maintenance, and equipment purchases that are funded through the issuance of long-term debt.
- <u>43 Capital Reserve Fund:</u> This fund is required by Colorado law and is used to fund ongoing capital needs such as site acquisition, major maintenance, and equipment purchases that are funded through the sale of assets and transfers from the General Operating Fund.

Enterprise Funds are used to record operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs (expenses, including depreciation and indirect costs) of providing goods or services to the students or general public on a continuing basis are financed by charges for services or products. Enterprise funds are also used to account for operations where the school board or state regulatory agency has decided that periodic determination of revenues earned, expenses incurred, and net income generated is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds are used to account for school district operations that provide goods or services within the district or to other school districts, or to other governmental units, on a cost-recovery basis.

- <u>66 Health Insurance Fund</u>: The Health Insurance Fund is an internal service fund to account for claims and administrative fees of the district's self-funded health insurance employee benefit program.
- <u>67 Dental Insurance Fund</u>: The Dental Insurance Fund is an internal service fund to account for claims and administrative fees of the district's self-funded dental insurance employee benefit program.

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The key distinction between trust funds and agency funds is that trust funds normally are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. An agency fund does not involve a formal trust agreement and the government's role is purely custodial.

- <u>72 Private Purpose Trust Fund</u>: Private purpose trust funds are used to account for assets held by the district in a trustee capacity or as an agent for individuals, private organizations, and special activity groups within the district. The Trust and Agency Fund is comprised of Expendable Trust Funds, Nonexpendable Trust Funds, and Agency Funds.
- <u>75 Front Range BOCES Fund</u>: The Front Range BOCES Fund is a custodial fund to account for activities of the Front Range BOCES. The district is acting only in a fiduciary (custodial) capacity on behalf of the Front Range BOCES.

Definition of Account Code Structure

Boulder Valley School District's account code structure is aligned with the Colorado Department of Education's *FPP Handbook – Chart of Accounts.* These account code elements comprise the account string used for electronic data communications.

Fund - an independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources. It contains all related assets, liabilities, and residual equities or balances, or changes therein. Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions.

4000-9900 = Facilities Acquisition and Construction Services, Other Uses, Reserves

Source/Object - a combination dimension which is used to identify the type of account: Revenue (Sources), or Expenditure (Object). Object is the service or commodity obtained.

1XX = Salaries

2XX = Benefits

3XX = Purchased Professional and Technical Services

4XX = Purchased Property Services

5XX = Other Purchased Services

6XX = Supplies

7XX = Property & Equipment

8XX = Other Objects

9XX = Other Uses of Funds

Job Classification - a dimension which enables school districts to break down expenditures for salaries and employee benefits by the employee's job classification.

100-199 = Administration

200-207 = Classroom Instruction

210-224 = Instructional Support

231-242 = Other Support

300-371 = Professional Support

380-382 = Computer Technology

400-426 = Paraprofessionals

500-516 = Office/Administrative Support

600-636 = Crafts, Trades, and Services

Designated Grant/Project - an award of financial assistance in the form of cash or a contribution or gift of other assets from another government to an eligible grantee to be used for a specified or designated purpose, activity or facility.

Fiscal Year – a twelve-month account period (July 1 through June 30) to which the annual budget applies.

Revenue and Expenditure Accounts

All account types—revenues and expenditures accounts—use the same basic multidimensional account code structure as shown below:

Revenue Dimensions	Expenditure Dimensions
Fund	Fund(2 digits)
Location(required for Charter Schools)(3 digits)	Location(required for Charter Schools)(3 digits)
SRE(2 digits)	SRE(2 digits)
Program(4 digits)	Program(4 digits)
Source (4 digits)	Object(4 digits)
Job Classification (n/a) (3 digits)	Job Classification(3 digits)
Designated Grant/Project (4 digits)	Designated Grant/Project(4 digits)

Regardless of account type, this basic account code structure contains seven dimensions and the same number of digits in each dimension. Some of the dimensions in the revenue, expenditure, and balance sheet account codes differ in purpose; however, the length, placement, and separation of the dimensions are identical for computer programming purposes.

Organizational Structure and Operating Departments

Within the school system, the Superintendent oversees the operations of five divisions – Instructional Services, Information Technology, Operations, Financial Services, and Human Resources. These divisions and their corresponding departments work together to support the instruction and well-being of all students, teachers and staff, and the schools of Boulder Valley School District. In addition, the schools in BVSD are divided into three support networks – East Support Network, Southwest Support Network, and Northwest Support Network. Organized geographically, the support networks allow a decentralized approach to school management and provide schools the opportunity to work more closely together and align resources. Each is managed by an Area Superintendent and supported by an Executive Director.

Note: As a result of implementing GASB Statement No. 84, fund balance as of June 30, 2019 has been restated.

The following charts show that of the district's 21 active funds, the General Operating Fund accounts for 62.4 percent of all revenues, while all other funds combined make up the difference. Forty-seven percent of all district expenditures come from the General Operating Fund, with 53.0 percent occurring in the remaining 20 funds combined.

Due to rounding, some percentages less than 0.1% may present as zero.

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable fund balance Amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund).
- Restricted fund balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, contract provisions, or by enabling legislation.
- Committed fund balance Amounts constrained to specific purposes through resolution by the board of education are reported as committed. Amounts cannot be used for any other purpose unless the board takes the same action to modify or rescind the commitment.
- Assigned fund balance Amounts constrained by the district for specific purposes, but are neither restricted nor committed. Through resolution, the board of education has authorized the district's superintendent to assign fund balances.
- Unassigned fund balance The residual amount reported when the balances do not meet any of the above criterion. The district reports positive unassigned fund balance only in the general fund. Negative unassigned balances may be reported in all funds.

The above summary outlines changes in fund balance net of current year reserve amounts. In accordance with board Policy DB, the district maintains a minimal level of year-end fund balance net of these reserves in order to ensure ongoing financial health.

Changes in fund balance are authorized by the Board of Education as a use of beginning fund balance for one-time uses which will not lead to an ongoing deficit. Funds with a positive net change have budgeted resources higher than anticipated uses.

Current year reserves are subtracted from the Beginning Fund Balance to arrive at a net Beginning Fund Balance to reflect funds actually available for use. Changes in fund balance are calculated against the net Beginning Fund Balance.

Summary of Fund Balance Changes (continued)

The significant changes in fund balance, identified as greater than \$500,000, are as follows:

<u>General Operating Fund</u> – Fund balance uses are identified in the "Budget Adjustment Plan" in the Introductory Section. These funds were allocated to critical needs through the budget process and will not create any specific or significant consequence.

<u>Differentiated School Support Fund</u> – This fund will support schools over a three-year period.

<u>Technology Fund</u> – Carryover funds have been identified for technology needs that span multiple fiscal years. <u>Operations & Technology Fund</u> – Fund balance carryover funds are for an identified project related to a required ERP system upgrade.

2014 Building Fund – Fund balance represents bond proceeds that continue to be spent down on capital improvements as planned within the 2014 Educational Facilities Master Plan.

<u>Capital Reserve Fund</u> - Fund balance represents the carryover of one-time funds for capital improvement projects throughout the district. The capital improvement projects primarily include building renovations and improvements. <u>Health Insurance Fund</u> - Fund balance was generated from positive claims experience and savings related to a change in the district's benefit consultants, and third party service providers, including stop loss insurance coverage and claims administration. Fund balance is being partially used to cover an increase in contributions (3.8%) that is less than the expected increase in medical claims. Benefit plan design changes and contributions from the district and dependents will be reconsidered in 2021-22, as necessary.

School Allocation Formulas

The school formulas are detailed in the following pages. Each instructional level, elementary, middle and high, as well as program resources such as Special Education, literacy, and language support services are shown below. Staffing formulas are listed by type of employee. The School Discretionary Funds or School Resource Allocation (SRA) formula is also included.

- The district's budget methodology to allocate state and local funds to each Title I school ensures it receives all the state and local budget funds it would otherwise receive if it did not receive any Title I funding.
- BVSD assures that its budget methodology is compliant with the supplement, not supplant provisions within section 1118(b) of, and referenced throughout, the Every Student Succeeds Act.

Staffing formulas may change each year depending upon available resources. Specific classroom staffing may vary because of site-based decisions.

Elementary Level

- 1. Principals: 1.0 Full Time Equivalent (FTE)/school (Small schools below 350 students may have multiple assignments and reduced FTE.)
- 2. Assistant Principals: Allocations are based on school needs and available FTE. K-8 Assistant Principals: 2.0 Assistant Principal FTE allocated from elementary and middle levels.
- 3. Classroom Teachers Class Size Formulas:
 All elementary schools are staffed using guideline ratio of 1:24.58 with adjustments made to accommodate individual grade levels. Guidelines for class size can be found in the BVEA negotiated agreement section C-6.

Elementary art, general music and physical education specialist allocations were updated in 2017-18 to reflect the work of a task force assigned to equalize specialist instruction time at the elementary level. A rotating ABC schedule, adopted to support the implementation of the Ideal School Day, includes equalized instruction time for all elementary specials. The terms of this agreement are outlined in the Memorandum of Understanding for Guidelines of Elementary Art, General Music and Physical Education Specialists. The allocation of .0556 FTE per section provides equalized instruction of 50 minutes per grade level classroom on a rotating ABC schedule.

- 4. Teacher Librarians: 1.0 FTE teacher librarian may be assigned to schools with over 350 K-5 student FTE and .50 FTE may be assigned to schools with enrollments under 350 student FTE.
- 5. Each school with an enrollment of 350+ K-5 students will be allocated a 1.0 FTE School Counselor; those with enrollments of 200-350 K-5 students be allocated a 0.50 FTE School Counselor. All Title schools and schools with poverty at 30 percent or above have been allocated a 1.0 FTE School Counselor. Gold Hill and Jamestown did not receive this resource.
- 6. School Clerical Support: Clerical FTE is allocated based on enrollment and includes office manager clerical FTE.

<u>FIE</u>
1.125 - 2.000
2.125 - 2.500

7. Custodians: The custodial formula for elementary schools is the sum of the building square footage/25,000; the custodial formula for K-8 schools is the sum of the building square footage/29,000. Rounding occurs at .250, .50, .750, and 1.0. The head custodian position is included within this allocation formula.

School Allocation Formulas (continued)

Elementary Level (continued)

8. Paraeducators:

Regular Paraprofessional: The para allocation was reset in 2018-19 to add a weighted student formula which provides added resources for students with a free and reduced lunch (FRL) status. The standard ratio of .0326 hours is allocated per student. Additional weight is added for students with a FRL status. The FRL student count receives a weighted enrollment of one and a half, providing 50 percent more for students with the FRL status. Schools with full day kindergarten receive an allocation of .50 or .25 paraprofessional FTE per section.

Health Room Paraprofessional: .500 FTE for enrollment of 75 – 500 .600 FTE for enrollment greater than 501

- 9. Library Paraprofessional: 3.5 hours per day for schools with a .50 teacher librarian (adjustments made for schools at one site). Schools with a full time teacher librarian do not receive library paraprofessional FTE.
- 10. School Discretionary Funds: The SRA allocation was revised in 2018-19 to simplify the allocation process and provide a weighted formula designed to support student populations of poverty, English Language Learners, and Special Education. Student enrollment (heads) is used based on initial enrollment projections from BVSD Planning Office in the spring. Adjustments are made for actual enrollment and Special Demographics reported with official October count information in the fall. The school resource allocation (SRA) is allocated at \$65 per pupil. An allocation for Special Programs is given to Free and Reduced (FRL) of \$125, English Language Learners of \$25, and \$25 for Special Education. Schools with preschool programs will receive a per pupil amount of \$65 as well as \$25 per preschool student. All of these funds are totaled to comprise the SRA. Schools have the discretion to reallocate the funds within the total as long as they comply with state law and employee contracts.

Elementary leadership enrollment numbers include kindergarten through fifth grade. Preschool allocations are staffed using independent formulas.

Middle Level

- 1. Principals: 1.0 FTE/school.
- 2. Assistant Principals: Assistant Principal 1.0 FTE; adjustments made for schools with above average FRL populations.
 - K-8 Assistant Principals: 2.0 Assistant Principal FTE allocated from elementary and middle levels.
- 3. Classroom Teachers: 1.0 FTE teaching position per 22.99 students as a middle level average. In addition, 7.5 FTE are allocated to the 14 middle schools based on identified free and reduced lunch student counts. Boulder Universal is staffed with a student teacher ratio of 155 course offerings per 1.0 teacher FTE. The classroom teacher allocation includes art, music, and physical education teachers at the middle level. Guidelines for class size can be found in the BVEA negotiated agreement section C-5.
- 4. Teacher Librarians: 1.0 FTE teacher librarian may be assigned to schools with over 375 students and partial FTE may be assigned to schools with enrollments under 375 students or multi-level schools at one site.
- 5. Counselors: The formula was adjusted to a range in 2013-14. Total student enrollment ranges are as follows: 100-350 = .50 FTE; 351-400 = 1.0 FTE; 401-500 = 1.5 FTE; 501 and over = 2.0 FTE. Service is for 10 days beyond the regular teaching assignment.

6. School Clerical Support: Clerical FTE are allocated based on the size of each school; adjustments are made for schools with above average FRL populations.

Small (1-350) 1.0 - 1.50 FTE Average (over 350) 2.5 - 3.00 FTE

- 7. Custodians: The custodial formula for middle schools is the sum of the building square footage/32,000; the custodial formula for K-8 schools is the sum of the building square footage/29,000. Rounding occurs at .250, .50, .750, and 1.0. The head custodian position is included within this allocation formula.
- 8. Paraeducators: The paraeducator allocation includes hours for regular programs and health rooms. Staffing is based on enrollment .01832 hours per student FTE. The overall average is approximately 1.0 paraeducator FTE per school.
- 9. Community Liaisons: 0.50 FTE at the following schools: Angevine, Broomfield Heights, Casey, Centennial and Manhattan.
- 10. School Discretionary Funds: The SRA allocation was revised in 2018-19 to simplify the allocation process and provide a weighted formula designed to support student populations of poverty, English Language Learners, and Special Education. Student enrollment (heads) is used based on initial enrollment projections from BVSD Planning Office in the spring. Adjustments are made for actual enrollment and Special Demographics reported with official October count information in the fall. The SRA is allocated at \$75 per pupil. An allocation for Special Programs is given to Free and Reduced (FRL) of \$125, English Language Development of \$25, and \$25 for Special Education. All of these funds are totaled to comprise the SRA. Schools have the discretion to reallocate the funds within the total as long as they comply with state law and employee contracts.

High School

- 1. Principals: 1.0 FTE/school (Nederland Middle .5/Senior .5)
- 2. Assistant Principals:

The formula is dependent on enrollment bands. Enrollment ranges of 1,000-1,800 receive 3.0 Assistant Principal FTE. Enrollment greater than 1,800 receives 4.0 Assistant Principal FTE. Schools with less than 1,000 students receive allocations based on individual site needs. These schools include Arapahoe Campus, Nederland, and New Vista.

3. Classroom Teachers Staffing Formula/Ratio:

The base formula for most high school teacher FTE is 26.34:1. Small schools are staffed at the following ratios: Arapahoe Campus 20.34:1, Nederland 19.64:1 and New Vista 24.74:1. An additional 8.5 FTE is distributed based on identified free and reduced lunch student count. Boulder Universal is staffed with a student teacher ratio of 155 course offerings per 1.0 teacher FTE.

The classroom teacher allocations include art, music, and physical education teachers at the secondary level. Additional allocations are made for program needs i.e., International Baccalaureate, Advanced Placement, Hispanic Study Skills, and Career Technical Education classes. Class size caps for regular freshman and sophomore math and language arts classes enroll a maximum of 30 students per section. Additional guidelines for class size can be found in the BVEA negotiated agreement section C-5.

- 9. Custodians: The custodial formula for high schools is the sum of the building square footage/33,000. Rounding occurs at .250, .50, .750, and 1.0. The head custodian position is included within this allocation formula.
- 10. Media Technicians: Allocation of media technician personnel is based upon the following chart:

Enrollment	Hours/ Week	FTE
0 – 949	15	0.375
950 - 1,700	32	0.750
1,701 - 2,000+	40	1.000

- 11. Paraeducators: Staffing is based on enrollment and .0104 hours per student FTE. The average is approximately 2.3 FTE for the larger schools and .27 FTE for smaller schools.
- 12. Pupil Services: 8.857 teacher FTE; allocation varies based on school needs.
- 13. Community Liaisons:

15. School Discretionary Funds: The SRA allocation was revised in 2018-19 to simplify the allocation process and provide a weighted formula designed to support student populations of poverty, English Language Learners, and Special Education. Student enrollment (heads) is used based on initial enrollment projections from BVSD Planning Office in the spring. Adjustments are made for actual enrollment and Special Demographics reported with official October count information in the fall. The SRA is allocated at \$70 per pupil. An allocation for Special Programs is given to Free and Reduced (FRL) of \$125, English Language Development of \$25, and \$25 for Special Education. All of these funds are totaled to comprise the SRA. Schools have the discretion to reallocate the funds within the total as long as they comply with state law and employee contracts.

Special Program Allocations

- 1. **Special Education**: All special education instructional staff, paraeducator hours, and special skills aides' hours are allocated to schools based on the location and severity of students with disabilities. A factoring system has been utilized for the allocation of teacher FTE and is outlined below:
 - a. Learning Programs (Resource)
 - i. IEP Preschool students 1.0 teacher FTE per 8 students
 - ii. IEP Elementary school 1.0 teacher FTE per 21 students
 - iii. IEP Middle and High school 1.0 teacher FTE per 25 students
 - iv. One-on-one paraprofessional FTE allocated as per students' needs
 - b. Intensive Programs Elementary
 - i. 1.0 Teacher FTE
 - ii. 1.626 Para Professional for ICAN Programs
 - iii. 3.252 Para Professionals for Multi-Intensive Programs
 - iv. 3.252 Para Professionals for Autism Intensive Programs
 - c. Intensive Programs Middle/High
 - i. 1.0 Teacher FTE
 - ii. 1.950 Para Professional for ICAN Programs
 - iii. 3.892 Para Professionals for Multi-Intensive Programs
 - iv. 3.892 Para Professionals for Autism Intensive Programs
 - d. Speech/Language Pathologist
 - i. FTE based on number of students on IEP
 - e. Psychologist/Social Workers
 - i. FTE based on school student population
 - f. Occupational/Physical Therapists
 - i. FTE allocated based on number of students on IEP

5. Culturally and Linguistically Diverse Education (CLDE):

60.540 ELD Teacher FTE

FTE is allocated based on the number of emerging bilingual (EB) students (NEP, LEP and FEP Y1 and Y2) registered at each school. Each year, the CLDE department receives a total FTE allocation which is distributed to BVSD schools where an ELD program is offered. Elementary program schools are allocated 1.0 FTE for every 40 students in increments of .25. Middle Schools are allocated 1.0 FTE for every 50 students in increments of .17. High schools are allocated 1.0 FTE for every 50 students in increments of .20. EB numbers are collected in January of the previous school year. With this, there may be minor administrative adjustments to the calculated amount to reflect unique circumstances at a school. Charter schools are provided FTE support based upon the number of CDLE students registered as of January the year before and charter contract language.

6. Gifted and Talented Tutor (GT):

10.956 GT Tutor FTE is allocated as: 7.656 FTE at the K-5 level, 2.1 FTE at the Middle School level and 1.2 FTE at the High School level. School level allocations are based on pupil count using the spring staffing counts. FTE must be used to serve identified talented and gifted students, their families, and enrichment activities for advanced learners. Allocation formulas may change each year depending upon available resources.

7. Grants:

Title I Formula based grant: Schools are ranked on the basis of FRL percentages and the portion of the allocated grant funds deemed available to schools is allocated to those schools selected in that process. A per FRL pupil amount is then applied to the FRL headcount at each school selected to determine the individual school allocations. Most of our Title I schools are considered "schoolwide" Title I schools so all students at those schools benefit from these dollars. Schools identified as "targeted assistance" only provide services to the BVSD specifically identified Title I students at that school. Other grant fund awards are expended in accordance with a specific grant purposes, not on an allocation basis.

Special Education Funding

The reimbursement method for determining special education state funding was eliminated by the Colorado state legislature in 1994. Funds are now distributed on a per student basis from the Special Education December 1 Count added to a base amount related to a district's prior year funding levels. The year of the base is set by the legislature.

A history of total special education funding is provided below.

I. Funding Sources - 2021-22

Federal Funds: Federal Grant Dollars 11.63% of total Special Education budget

State Funds: Categorical Reimbursements 13.90% of total Special Education budget

Local Funds: School Finance Act, Mill Levy Override 74.47% of total Special Education budget

⁵ December Count budget is an estimate based on a 4 year average change, a 1.53% increase in count from October.

Special Education Costs

Over the last five years, the number of students in Special Education has increased 5.2 percent while per pupil revenue (PPR) increased 13.4 percent on average in that same span of time. The difference between PPR as compared to total special education costs reflects a shortfall in revenue of approximately 1.2 percent on average over the last five years.

To minimize the impact to the general operating fund for costs associated with this program, the district seeks grant and other state funding. Though these alternate funding sources greatly mitigate the difference between PPR and total expenses, there remains a shortfall in funding of 1.3 percent on average over the last five years. Currently, grant and other state funding equates to 30.2 percent of the total for special education funding; these alternate funding sources have resulted in an average increase of 8.6 percent over the last five years, reducing the impact to the general operating fund.

With the changes noted, it remains increasingly difficult for the General Operating Fund to absorb these Special Education costs without affecting other BVSD goals and priorities.

- (2) Due to the specific nature of Colorado State Law, the district's practice is to follow state law with regard to legal debt levels rather than maintain a separate debt policy.
- (3) Existing debt has been approved by the voters and allows the district to fund capital improvement projects. Funds for debt repayment are generated via a separate mill levy (see Bond Redemption Fund). Accordingly, existing debt levels have no impact on current or future operating budgets.

General Obligation Debt: Bond Redemption Fund

General obligation bonds payable at June 30, 2020, are comprised of the following issues:

\$136,520,000 General Obligation Bonds, Series 2019A. Issued to implement a district-wide capital construction and improvement program. Principal payments due on December 1 and interest payments due on December 1 and June 1, through 2048. Interest accrues at rates ranging from

Note:

All bonds that have been authorized have been issued. The Bond Redemption Fund mill levy will be adjusted annually to ensure adequate revenues to make all debt service payments as they become due in accordance with the debt schedule identified above. On November 4, 2014, voters approved a ballot measure authorizing the district to issue general obligation bonds in an amount not to exceed \$576,520,000. The bonds have been issued in three series and are for the purpose of funding capital projects outlined in the district's Facilities Master Plan. On April 14, 2015, the district issued \$250,000,000 of General Obligations Bonds, Series 2015. On March 16, 2017, the district issued \$190,000,000 of General Obligation Bonds, Series 2019A, which was the remaining amount authorized.

General obligation bonds have been issued to carry out district-wide capital improvement plans, which have included necessary repair and deferred maintenance projects, replacement of schools and other facilities, and the construction of new school sites.

The BVSD June 30, 2020, Comprehensive Annual Financial Report identifies \$10.7M as an accrued obligation for compensated absences as of 6/30/2020.

Long-Term Debt: Capital Lease

Capital Lease

The district acquired certain school buses under capital lease financing agreements. The buses have an 8-year estimated useful life. At June 30, 2020, the net book value of buses under capital lease agreements is \$2,147,695 (\$3,585,122 less accumulated depreciation of \$1,437,427). These lease agreements qualify as capital leases and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2020, were as follows:

Year Ended June 30,	 vernmental Activities

Beginning Balance Assumptions

Budgeted beginning fund balance for the General Operating Fund includes significant amounts of dollars that are restricted or designated for specific purposes in the budgeted fiscal year. The restricted beginning fund balance for 2021-22 includes the reserves necessary for a multi-year employee contract, reserve for weather conditions, required GAAP reserves, and the warehouse inventory. The unused 2020-21 TABOR emergency reserve and contingency reserve are also considered part of the restricted beginning balance. The one time unrestricted beginning balance includes estimated savings in personnel expenditures and fund transfers from 2020-21. The \$10.7M District Reserve was created in 2020-21. This reserve was built into the budget as a result of available fund balance to support future needs.

The portion of the beginning fund balance that is not restricted is available for use at the discretion of the board.

Major Sources of Revenue

Revenue Assumptions

The SFA funding for BVSD of \$8,766, per funded pupil is an increase of 11 percent as compared to the 2020-21 Revised Budget per pupil funding. Each year, the legislature sets the base funding for every school district in the state using a formula that includes various factors to determine a level of funding that provides an equitable education experience for all K-12 students across the state.

The SFA total program computation is based on the pupil count taken on October 1 of the fiscal year. For 2021-22, total funded enrollment is projected to be 29,588.1 which includes 609.6 additional students due to declining enrollment and the state allowing an average to lessen the funding impact to school districts. The actual funded pupil count number is determined in early November after the student enrollment data is collected, audited by district staff, and verified with the Colorado Department of Education. Colorado Revised Statute 22-54-103(7) allows districts to average up to five years' pupil counts with the current year's pupil count to minimize the loss of funding that accompanies declining enrollment.

Estimated revenue from the SFA is based on the projected funded enrollment of 29,588.1 times the per pupil funding of \$8,766 (slightly rounded), or \$259.3M. This number is adjusted in the budget to account for uncollectable property tax.

Local Revenues

Local Revenues

Property taxes are the largest source of revenue for the district. This tax is levied on all the taxable property within the district for the functions of the General Operating Fund, but is separate from the taxes levied by the district for the Bond Redemption Fund, Transportation Fund, and Operations & Technology Fund. Based on the following calculation, it is estimated that the district will receive \$259.3M in local property taxes for funding operations in 2021-22 before any uncollectible factor. This is in addition to the state equalized portion of the School Finance Act Total Program Funding.

- Specific ownership taxes (Non-Equalized) are generated through a state mandated tax collected by the county for yearly motor vehicle registration. These tax revenues are distributed among local governmental agencies based on the percentage of the total property tax attributed to each entity. Specific ownership taxes are a portion of the total program funding formula of the SFA along with local property tax and state equalization. The formula for determining total program funding is based in part on the amount of specific ownership tax revenue actually received by a district in the prior fiscal year. Total specific ownership taxes, which are driven primarily by registration of new cars, is expected to be decrease slightly at a total of \$6.7M as compared to \$7.2M in the 2020-21 Revised budget.
- Specific ownership taxes (Equalized) is tax collected by the county for yearly motor vehicle registration and is outside of the SFA formula. As compared to 2020-21 Revised Budget this is expected to increase by \$488K to a total of \$11.2M.
- Property Tax Credits/Abatements is expected to decrease due to the removal of one-time budget adjustment. The budget at \$1.7M reflect the expected ongoing budget for the current year.
- <u>Interest</u> is expected to remain the same as the prior year.

¹ Subject to change by CDE formula.

² This amount is higher than what is budgeted due to uncollectible local property taxes. Boulder Valley School District does not collect 100 percent of local property taxes each year. This does not include the transportation mill levy or the bond redemption mill levy, as these revenue sources are specifically related to funds other than the General Operating Fund.

Local Revenues (continued)

- Tuition income is expected to remain the same as the prior year.
- <u>Miscellaneous Revenue</u> is expected to remain the same as the prior year.
- <u>Services provided to charters</u> are contractual obligations paid by five charter schools for services in special education, information technology, business services, and district general administration. A slight increase of \$194K is projected for the Proposed Budget due to personnel assumptions for central services as well as a change in student count.

State Revenues

- <u>State Equalization</u> from the SFA represents the second largest revenue source for the General Operating
 Fund. The total amount of state equalization anticipated to be received in 2021-22 is \$63.9M, which along
 with equalized specific ownership and local property taxes comprise total program funding, as defined by
 the SFA.
- Other State Revenues are provided in the SFA to pay for specific groups of students or particular student needs. These programs are often referred to as "categorical" programs and include Special Education, Career and Technical Education, Culturally & Linguistically Diverse Education programs, and the READ Act. Revenues for this category are projected to have a slight decrease of \$102K from the 2020-21 Revised Budget which is due to a small increase for CPI of 2 percent as well as the removal of the deferred revenue for the 2019-20 READ Act.

Major Expenditures

Expenditure Assumptions

Expenditures for the continuation of current programs and services are built upon the established base budgets along with 2020-21 ending fund balance, except as noted in the 2021-22 "Budget Adjustment Plan." District revenues fund the following priorities: providing a competitive employee compensation package, full-day kindergarten, literacy programs, technology support, and building maintenance. Further detail of one-time expenditures is contained in the "Budget Adjustment Plan" in the Introductory Section of this document.

<u>Staff Compensation</u> - Budgeted salary projections for 2020-21 contain an overall increase in compensation for all staff in employee groups paid from the General Operating Fund and expansion of programs at the district. This estimated increase includes compensation to service employees (custodians and maintenance workers), office professionals (clerical employees), instructional staff (teachers, counselors, psychologists, and social workers), paraeducators, other instructional support staff (tutors and computer/media technicians), building administrators (principals and assistant principals), central administrators and professional/technical employees. The increase in salary expense from the prior year consists of COLA (\$6.4M), steps (\$3.1M), horizontal lane movement for eligible employees (\$1.4M) and attrition savings (\$2.6M). Ongoing staffing was adjusted in the Budget based on a change of staff resources due to an increase of high school counselors (\$190K), high school psychologist/social workers (\$224K), one-time staff to support continued unit development and product completion (\$300K), ongoing Career and Technical staff (\$240K) and security and mental health personnel for social emotional support (\$2M). Staffing formula for classroom teachers have been adjusted to account for an increase in student enrollment.

Expenditure Assumptions (continued)

One-time budget for staffing reserve has been included to help with one-time staffing needs as well as unassigned and displaced teachers. Compensation changes include an additional adjustment over the state COLA rate for a total increase of 3 percent (when COLA is 2 percent). Combined, fixed, and variable employee benefits will increase by salary adjustments listed above. Variable benefits will increase related to step compensation increases, and an increase in health insurance and dental insurance in 2021-22. Any regular employee working 20 or more scheduled hours per week, or 0.5 FTE, is eligible for district-paid benefits of long-term disability, health, dental, and life insurance, and a matching contribution of up to \$120 to a flexible spending medical account.

A detailed schedule of the district-paid portions of employee benefits can be found under "Appendix A: Budget Fact Sheet" in the Informational Section of this document. Wages paid have a 2020-21 rate for Medicare, PERA, and long-term disability applied to account for historical pre-tax contributions by employees. Individual medical and dental rates are projected to increase 2 percent annually.

Purchased Services, Supplies and Materials, Capital Outlay, Other - The current budget for purchased services, supplies and materials, and capital outlay reflects a continuation of base budget amounts, along with adjustments as identified in the "Budget Adjustment Plan" in the Introductory Section. Previous years' one-time and carryover expenses were removed for this year's budget. Ongoing and one-time expenses for this category will change from prior year and is comprised of budget increases for curriculum materials (\$2M), Equal School Day transition support (\$150K), Career and Technical equipment and support (\$260K), utilities and maintenance support for the District (\$686K), Title IX training for staff and students (\$110K), Communication support (\$143K), Instructional and Information Technology software (\$900K), along with additional other fees, contracts, and services.

Reserve and Transfer Assumptions

- Reserves A total of 6.0 percent of General Operating Fund expenditures is reserved per TABOR (state-required 3.0%) and per local requirements (board policy of 3.0%). Beginning 2018-19, the contingency reserve was increased by 1.0 percent to a total of 4.0 percent. In 2020-21, reserves were increased by \$10.7M. This reserve was built into the budget as a result of available fund balance to support future needs. The use of emergency reserves excludes factors related to economic conditions, revenue shortfalls, and district salary or fringe benefit increases. This Budget also reserves \$500K for potential impacts due to weather conditions, \$275K for multi-year contract obligations, \$44K for GAAP Reserves, and \$425K for warehouse inventory.
- <u>Transfers</u> New to 2021-22 is a fund "Differentiated School Support". This fund within the General Fund will support schools identified as targeted and flexible for their intervention school support expenditures (45 schools in total). General Operating Fund will transfer one-time \$10.8M in 2021-22 for schools to develop a three-year plan for the use of those funds. For those schools identified as High Support, one-time Federal grant dollars will be accessed for their three year plans.

The total amount of the Capital Reserve Fund and Risk Management Fund transfers is \$8.1M. The Risk Management Fund will increase ongoing by \$100K from the prior year due to an increase in property and liability insurance rates in the state and will increase by \$1M with a one-time transfer into the fund by General Operating Fund. The Capital Reserve Fund increase of \$0.3M in 2021-22 is \$0.5M in ongoing transfer for bus replacement and removal of 2020-21 one-time funding for air quality testing.

Reserve and Transfer Assumptions (continued)

The General Operating Fund will transfer to the Preschool Fund funds to cover operations as outlined per the Early Childhood Expansion plan, and will include funding for support for Early Childhood Education administration and health insurance, steps, and PERA increases. In addition, the Preschool Fund will also recognize the \$2.1M per pupil funding as well as the expense related to the CPP program in this fund. The fund transfer for CPP and General fund support the increase of COLA, Steps and benefit rates for employees in the fund.

The Transportation Fund transfer will increase from the prior year to support increases in health insurance, steps, COLA and PERA. This year includes a one-time \$30K transfer to support a bus route between Pioneer and Manhattan to support the bilingual program at that school. Utilities have been adjusted and supported by General Operating Fund, including a one-time transfer due to additional expense expected with a higher usage for air circulation due to COVID.

The Athletics Fund transfer increased by \$148K over the base transfer to account for a new District Athletic Director position beginning in the 2020-21 school year.

The transfer to the Technology Fund will increase one-time by \$116K to account for the purchase of 1:Web devices for the first year to rollout devices for 5th graders. General fund will fund this in 2020-21 and families will not be assessed a fee for the elementary student.

Community Schools Fund will continue to transfer to the General Fund \$150K to support schools in which they rent out their space to the community.

The transfer of \$1.5M to the Food Services Fund has decreased over prior year (\$200K) to account for a decrease need in general fund support of \$450K due to efficiencies gained with the full operation of the central Culinary Kitchen. The fund is supported for health insurance increases, COLA, steps, and PERA increases. Utilities have been adjusted and supported by General Operating Fund, including a one-time transfer due to additional expense expected with a higher usage for air circulation due to COVID.

Charter Schools Assumptions

Costs for five charter schools, Horizons K-8, Peak to Peak Charter, Summit Middle, Boulder Preparatory High School, and Justice High School, are included in the Charter School Fund. Each individual charter school develops its own revenue and expenditure budgets, which are based on contracts negotiated with the district. The 2021-22 Budget transfer has increased by \$1.6M from the 2020-21 Revised Budget amount. This is largely due to an increase in per pupil funding. The payment for services contracted with the district for 2021-22 will increase by \$0.2M. Contracted services include, in part: special education, information technology, business services, and district general administration.

One-Time Expenditures

The district budget has many accounting funds; the General Operating Fund is the largest. Most of these funds have strict limitations on how they can be used. These restrictions are set by the state and federal governments as well as generally accepted accounting principles. The General Operating Fund has the most discretionary money of any fund and accounts for the majority of district operating expenditures. This fund is where the superintendent and Board of Education can make the most spending decisions.

PERA On-Behalf Fund

As a component of Senate Bill 18-200 the State is required to make a direct on-behalf payment of \$225.0 million to Colorado PERA each year. The payment is allocated based on the proportionate amount of annual payroll to the School Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. Generally accepted accounting principles require the district to report its proportionate share of on-behalf payments as both a revenue and expenditure. Because on-behalf payments have no financial impact on district operations, the revenues and expenditures have been recorded in a new stand-alone fund, so as to not distort ongoing district activities. Because the necessary calculations are not provided to the district by Colorado PERA until after year end, budgeted amounts represent a conservative estimate based on prior year data.

Differentiated School Support Fund

The Differentiated School Support Fund was created in FY22 and is used to track spending of resources allocated to schools as part of the district's Strategic Plan. Through a tiered system of school requirements, supports, and accountability metrics which drive the allocation of resources, the goal is to help close the opportunity and achievement gap in the District. A weighted and differentiated funding model was implemented to distribute resources to schools identified with differentiated levels of Flexible, Targeted, and High support needs.

Technology Fund

The Technology Fund was established for digital device procurement, software updates, and technical support. The program maintains technologies by bi-annual allocations to each school based on student counts. The allocations are used to purchase Chromebooks, tablets, desktops, laptops, projectors, large screen TVs, document cameras, and other technology for use in the classroom and administrative functions. The estimated carryover amounts are for projects that span multiple years. Current year funding includes revenues from the Federal E-Rate reimbursement program, Fiber, LiveWire,1:Web Program and the Cart:Web Program. The Tech Tools Program will support K-4 with 1:1 Chromebooks in FY 2022. Timing of equipment purchases affect the carryover balance in this fund.

Athletics Fund

The Adopted Budget includes step increases. The budget reflects a transfer amount from the General Operating Fund of \$2.1M to cover of Athletic program expenses. All Charter School athletic program expenditures are reflected in the Charter School Fund.

Middle Level

- 13 middle schools offer interscholastic sports and intramural sports;
- 8 interscholastic sports are offered: football, girls basketball, boys basketball, co-ed wrestling, girls volleyball, co-ed track, and co-ed cross country;
- 230 interscholastic coaches in middle level programs;
- The average cost of a middle level coach is \$2,745 per season;

High School

- 6 high schools offer interscholastic sports (Boulder, Fairview, Monarch, Centaurus, Nederland, and Broomfield);
- 13 interscholastic sports and weight room training are offered for boys and girls;
- Coaching positions are allocated based on the number of participants in each school with an average of 73 per high school (except Nederland with 20 coaches);
- State tournament expenses are paid from the building activity account;
- 61 percent of the athletic budget is funded from a transfer from the General Operating Fund;
- Approximately \$40K per year is spent on helmet reconditioning and safety equipment.

Preschool Fund

The preschool general fund includes a total of 75 sessions of integrated preschool in 20 elementary schools and the Mapleton Early Childhood Center. A reduced tuition rate allows parents to request enrollment for a scholarship rate of \$200 per month for four half-days of integrated preschool, for a nine month schedule. Full tuition rates are \$400 a month with a schedule of four half-days per week. The Community Montessori tuition rates are as follows; for a five day a week, half-day program, the rate is \$594 per month, with an extended half-day option available for an additional \$403 per month.

Colorado Preschool Program is a no-cost preschool program for eligible families that supports students who have identified risk factors that can impact school success and/or may lead to achievement gaps. Funding for the 2021-22 Colorado Preschool Program and the Early Childhood At-Risk Enhancement (ECARES), which is part of the Colorado Preschool Program, serves half-day and full-day preschool. During the current school year, BVSD is expecting an allocation of 479 slots (239.50 FTE). Last year, BVSD requested an additional 11 slots above the state allocation after all of the original slots were filled. The additional 11 slots were only needed during the last school year.

Risk Management Fund

Major costs in this fund are contributions for property, liability and workers' compensation insurance, and premiums for flood insurance. For each of these programs, the district participates in self-insurance pools. The annual premium contributions (to the pools) are based on the district's claims history. Workers' compensation premiums tend to fluctuate at a higher rate each year based on claims history, which in turn impacts the required transfer from the General Fund. The fund includes a contingency reserve to better manage these fluctuations in future years.

Community Schools Fund

The Community Schools Fund provides the community with educational and enrichment opportunities through extended use of BVSD facilities. The Community Schools Program is self-supporting, utilizing program tuition and community use fees for operational expenses. Fiscal year 2021-22 includes a transfer to General Fund of \$150,000, increases in salaries which include a 3% COLA, an annual step, and rising health insurance costs.

Charter School Fund

Funding for charter schools is based on contract agreements between the individual schools and BVSD. The funded pupil count at all five charters, Justice High, Summit Middle School, Horizons K-8, and Boulder Prep are all expected to have minor or no fluctuations in funded FTE from the Funded 2020-21 count. Peak to Peak K-12 Charter is expected to enroll at 1,445 in FY22 which is their contract limit. Justice High School and Summit has budgeted for the same number of student FTE (82 and 354), Boulder Prep has budgeted for 1 fewer student FTE (95.0FTE), and Horizons K-8 has increased slightly by 0.5 student FTE to 348.0. Related fund transfers and district purchased services have been adjusted to reflect changes in student enrollment. Charter fund financials are completed by individual schools.

Governmental Designated-Purpose Grants Fund

The district will receive funding in FY22 from two key sources, ESSA and IDEA Part B. The FY22 allocations for ESSA and IDEA Part B programs are estimated to have an 8% and 4% increase, respectively in comparison with FY21. In addition, in FY22 the district will receive an estimated \$13.9 million in ESSER III funding under the American Rescue Plan Act from the Department of Education. Awards received in FY20 and FY21 that will continue to be funded include two a School Health Professional Grants that will help support various Middle and High School programs, a Expelled and At-Risk Targeted Intervention Grant at Justice High School and Expelled and At-Risk Grants at Boulder Prep and the District. The district will continue to receive funding for the School to Work Alliance Program and Carl Perkins Technical Education Act of 2006. Additionally, the district will continue to pursue grant funding that will support and enhance the learning experience for our students.

Transportation Fund

The Transportation Fund was created to capture the expenses of transporting students to/from school and after-school events. Funding is provided by property taxes (2005 mill levy), the Colorado Dept. of Education transportation reimbursement, a transfer from the General Fund, and paid usage by outside organizations. Total compensation is \$16.4M, of which \$12.2M is Driver and Monitor compensation. The 2021-22 Adopted Budget includes COLA, steps, PERA, and fixed benefit increases across all job classes. COVID-19 Impact - We anticipate full in person learning for the 2021-22 school year. Adequate budget has been allocated to cover these anticipated costs for the 2021-22 fiscal year.

Operations & Technology Fund

The Operations and Technology Fund was established in 2016-17 to account for activity that was authorized with funds made available from the passage of the 2016 Capital Construction, Technology, and Maintenance mill levy that voters approved. This levy will fund a portion of the General Operating Fund maintenance, custodial, security, and technology expenditures. The Adopted Budget includes multi-year activity for ERP implementation costs for the district, a facility assessment and maintenance projects. Resources from the levy will allow investment for ongoing preventative maintenance and repairs to extend facility life. In 2021-22, the levy remained 4.000 Mills, the maximum allowed by voter approval.

Food Services Fund

The Food Services Program will serve approximately 13,000 meals per day using the newly constructed central kitchen to serve 51 schools, 3 Head Start Programs and two charter schools outside of the District. The USDA will extend the free meals for all program through the end of the academic school year. The General Fund will transfer \$1,507,835 to help cover annual step, health insurance premium, staffing increases, and utility costs. An additional \$4,994 will be transferred to cover estimated additional utility costs to provide a safer environment during the end of the COVID pandemic.

Front Range BOCES Fund

The Front Range BOCES Fund is a custodial fund to account for activities of the Front Range BOCES. The district has an intergovernmental agreement, under which the district processes contributions and non-personnel expenditures of the Front Range BOCES. The district is acting only in a fiduciary (custodial) capacity on behalf of the Front Range BOCES. Revenues include contributions from member districts. Expenditures include personnel costs, which are processed by a third party, and non-personnel costs necessary for the Front Range BOCES to provide educational and other support to its members.

Bond Redemption Fund

The Bond Redemption Fund mill levy for property tax collections are set to provide the appropriate funding for the district's debt service obligations, which are summarized in the table below. Boulder Valley's bonds are rated by Moody's (Aa1), Standard & Poor's (AA+), and Fitch (AA+). The rating from Standard & Poor's represents an upgrade to the district's prior AA rating and is the highest rating assigned by Standard & Poor's for any Colorado school district. All bonds that have been authorized have been issued. The Bond Redemption Fund mill levy will be adjusted annually to ensure adequate revenues to make all debt service payments as they become due in accordance with the debt schedule identified above. On November 4, 2014, voters approved a ballot measure authorizing the district to issue general obligation bonds in an amount not to exceed \$576,520,000. The bonds have been issued in three series and are for the purpose of funding capital projects outlined in the district's Facilities Master Plan.

2014 Building Fund

2014-2022 Building Fund 8-Year Spending Plan

Facility Condition renovations will improve the physical condition of buildings through repair and replacement of HVAC, electrical and plumbing systems, roofs, windows, interior and exterior doors as well as asbestos abatement, restroom renovations and upgrades to interior finishes and casework.

Program Compatibility renovations will improve the educational functionality of learning spaces such as Special Education rooms, auditoriums and music rooms.

Health and Physical Development improvements will expand opportunities for students to participate in fitness activities whether on the playground, individually or as part of a team through construction of multi-purpose fitness rooms, modern weight rooms and running tracks and paths.

Sustainability improvements will improve energy efficiency with lighting upgrades, HVAC upgrades and retro-commissioning to ensure all systems are performing optimally.

Educational Innovation renovations will modernize learning spaces to meet the needs of 21st Century students through the use of moveable walls to allow for flexible use of learning spaces, alternative furniture, shared activity spaces where students can collaborate, present or study independently or labs to support project-based learning to name a few examples.

School Replacement Creekside, Douglass and Emerald elementary schools will be replaced with new buildings to serve the same size enrollments as served currently.

District-wide Support Campus renovations will improve operational functionality and efficiency. Specifically renovations will be made to the central Transportation hub, a central kitchen will be constructed, professional development facilities will be expanded to support technology training and central administrative offices will be renovated.

District-wide Radio Upgrade will upgrade all district radios from analog to digital.

Information Technology renovations will improve Internet access and system stability. Audio enhancement will be provided for every classroom and the BVSD fiber optic network will be extended to select affordable housing projects to allow for Internet access.

Early Childhood Education classrooms and support spaces will be constructed to allow BVSD to provide preschool and full-day kindergarten throughout the district.

Erie School a new preschool through eighth grade campus will be constructed in Erie to serve growing enrollment in that part of the district.

Centralized Special Education funding will allow staff and the community to engage in a visioning process to identify program and facility needs with construction to follow.

Capital Reserve Fund

District staff evaluates capital project requests and prioritizes them based on health/safety issues, protection of the facility, improvement of an educational program, replacement of depreciated items, and impacts to the district's operating budget. Projects normally fall into four major areas: school health/safety repairs, mechanical systems repairs, maintenance support, and vehicle replacements. All carryover projects are identified as one-time expenditures and will not lead to an ongoing deficit.

Health Insurance Fund

The Health Insurance Fund is an internal service fund used to account for claims, administrative fees, and stop loss insurance coverage for the district's self-funded health insurance employee benefit program. Employees will have the choice of participating in the district's self-funded plan administered by United Healthcare or a traditional plan offered by Kaiser Permanente. Employees have the option to purchase dependent coverage. For 2021-22, the district will contribute an annual premium of \$7,793 per eligible employee, an increase of 2.0 percent over the prior year. In accordance with negotiated agreements, the district contribution increases annually up to two times CPI (2.0% for 2021-22), not to exceed 5.0 percent. In addition, the district funds an Employee Assistance Program at a contribution rate of \$17 per employee.

A Generation of Colorado School Finance

The timeline below illustrates major milestones in Colorado school finance. We take a look at over 30 years of school finance in Colorado, the legislative, economic, and demographic changes that shaped the way our schools are financed. It is useful to review the remainder of this document in the context of these environmental factors that have affected the district.

Timeline of Colorado School Finance & Education Reform 1981 – 2021

Addressing Mandates:

New Content Standards; District Accreditation; Expanded Choice Legislation; Basic Literacy Act; School Accountability Reports (SAR's); Safe Schools Act; Student Identification / Data Warehouse; TCAP Testing; Change Special Ed Funding; BEST; Declining Enrollment; READ Act; Full Day Kindergarten

This timeline can be broken down roughly into three broad segments, which overlap each other:

Each of these three eras can be characterized by its unique situation with respect to:

- Changes in Federal and State Laws
- Economic Conditions in Colorado
- Population Growth and Demographic Trends
- Advances in Technology

A Generation of Colorado School Finance (continued)

1982 - 1993

In 1982, the Gallagher Amendment was passed which fixed the percentage ratio for property taxes at 45 percent for residential property and 55 percent for commercial property.

Mid-year revenue rescissions occurred in 1983, 1984, 1986, 1987, 1988, 1991, and 1993 primarily because state tax revenues could not keep pace with rapid enrollment growth in Colorado. The rescissions occurred so frequently that the Boulder Valley School District budgeted for the rescissions in advance.

1988 - 2000

This period marks the beginning of many dramatic changes in public school finance as well as increased regulations at the federal and state levels which dictate the environment that school districts must operate in today.

In 1988, the Colorado Public School Finance Act was revised significantly. This revision reset the standard for state equalization to distribute state funding for districts throughout Colorado taking under-funded districts into consideration, comparing rural districts vs. urban districts or large districts vs. small districts. At the time, the state provided 40 percent of per pupil funding to districts across Colorado, and districts provided 60 percent of the funding. Today state funding plays a much larger role by providing 64 percent of per pupil funding and districts providing 36 percent, on a statewide average.

In 1992, Section 20, Article X of the Colorado Constitution (TABOR Amendment) was passed, which requires districts to set aside 3 percent of defined, planned spending that cannot be used to address revenue shortfalls, salary or fringe benefit increases, or other economic conditions. This amendment also requires voter approval of tax increases and limits revenue collections.

Also in 1992, the district converted from a Calendar Year budget cycle to a Fiscal Year and the 1992 budget was based on a Transitional Fiscal Year. Because the Boulder Valley School District receives a majority of its tax collections in the spring, the district has had to borrow cash for the first half of the fiscal year in order to operate. Generally, this function has been performed through the state's interest-free loan program, since 1993.

A Generation of Colorado School Finance (continued)

1988 – 2000 (continued)

District administrative responsibilities have also increased dramatically since 1988 due to a host of new federal and state regulations:

Federal regulations

Omnibus Transportation Employee Testing Act, Gun-Free Schools Act, Children's Online Privacy Act,
 Digital Millennium Copyright Act, and the Equal Access Act, among others

State regulations

- New regulations associated with Section 504/Americans with Disabilities Act
- New regulations associated with the Colorado Basic Literacy Act
- CSAP Testing and CELA Assessments
- Standards-based education
- Bilingual education
- Changes to state accreditation requirements
- School Accountability Reports
- Adopted state standard Chart of Accounts
- New budget processes associated with TABOR
- Expanded choice legislation, Open Enrollment, charter schools and focus schools
- 1991 Referendum (\$7,062,468)

1998 - Present

From 1998 to present, Boulder Valley School District is marked by several voter passed overrides and new laws to comply with.

Although per pupil funding in Colorado continued to fall behind national averages, Boulder Valley School District voters passed several tax overrides, tying the funds to specific program needs:

- 1998 Referendum A (\$10,600,000)
- 2002 Referendum (\$15,000,000)
- 2005 Referendum 3A Transportation Mill Levy (\$7,300,000)
- 2006 Ballot Measure 3A (six-year \$296.8 million bond issue for capital projects)
- 2010 Ballot Measure 3A (25 percent of total program)
- 2014 Ballot Measure 3A (\$576.5 million bond issue for capital projects)
- 2016 Referendum 3A Capital Construction, Technology, and Maintenance Levy (\$29,187,970)

In 2000, Amendment 23 to the Colorado Constitution was passed which guarantees increases in funding to public elementary and secondary schools at a rate of inflation plus 1 percent for a total of 10 years. The increase is guaranteed at the rate of inflation thereafter. The goal of this amendment was to restore public funding, adjusted for inflation, back to 1988 funding levels.

In 2002, the federal No Child Left Behind Act (NCLB) was implemented along with new regulations.

In 2004, the Colorado Commission on Higher Education (CCHE) added requirements for high school graduates.

In 2005, Colorado voters passed Referendum C which suspends the tax limits in the TABOR Amendment for five years, allowing the state to return to pre-recession levels. While this amendment will not likely affect school funding significantly, it assures Colorado school districts that the state will be prepared to sustain Amendment 23 funding.

In the 2007-08 fiscal year the district created a Health Insurance Fund to account for claims and administrative fees of the district's health insurance employee benefit program. This was done to help control health insurance costs.

A Generation of Colorado School Finance (continued)

1998 - Present (continued)

In 2010, Colorado voters passed a ballot measure that provides 25 percent of total program funding for restoring budget cuts, mitigating future budget cuts, supplementing teacher and staff compensation, and funding early childhood programs.

In 2006, and again in 2014, Colorado voters approved ballot measures providing the passage of bonds for capital improvements. The 2014 Educational Facilities Master Plan was approved by the Board of Education on August 12, 2014.

In 2016, Colorado voters passed an operational levy that freed up general fund resources so more funds can be directed toward ongoing maintenance, custodial, security, and technology expenditures.

In 2019, the state legislature approved funding for full-day kindergarten across Colorado.

Per Pupil Expenditures

The charts below shows what the actual cost per funded pupil is in BVSD compared to the School Finance Act per pupil revenue (PPR). From this presentation, we get a truer picture of the breakdown of funding per student as it relates to total budgeted expenditures, which utilize revenue from PPR, election overrides, state categorical reimbursements, grant funding, and year-to-year carryovers.

Before the sunset of Amendment 23 at the end of the 2010-11 fiscal year, on an inflation-adjusted basis, BVSD still spent less per student than at 1988 levels. The objective of adding the extra 1 percent in Amendment 23's increase of "inflation plus 1 percent" was to bring districts in Colorado back to 1988 funding levels after 10 years of the extra percentage. Even with the addition of 1991, 1998, 2002, 2005, and 2010 overrides, not until FY17 did the district surpass 1988 funding levels. This table shows how these overrides directly benefit BVSD students and allow the district to offer programming that would otherwise not be available.

Student Enrollment

From 2012 to 2017, total district enrollment flattened out, averaging a 0.8 percent increase annually while the change in charter school students averaged 0.3 percent decrease annually during the same period. Starting in 2018, the district began seeing a decline in enrollment, a trend that was expected to continue but possibly flatten out over the next few years. However, in 2020 the COVID pandemic resulted in a significant drop in enrollment. As we come out of the pandemic, the district anticipates those numbers to increase over the next few years, returning to numbers more in line with pre-pandemic enrollment counts.

Enrollment and Student FTE by Level

The district's School Finance Act total program funding is based on the funded pupil count, which is determined by full-time equivalent (FTE) students. The pupil count is held on October 1, and accounts for preschool and part-time kindergarten through twelfth grade students as half-time within the fiscal year for which funding is received.

Student Teacher Ratios

Student-teacher ratios remain a primary measurement of the district's funding at the classroom level. While productivity gains through technology have provided the district with many benefits, little can change the age-old relationship between teachers and their students. Because 91 percent of the General Operating Fund expenditure budget is made up of employee compensation, accurate projections are important in maintaining the delicate balance of student-teacher ratios.

When total students decrease, the student-teacher ratio will also decrease if the number of teachers remains the same. Each year, the district re-examines the school allocation formulas described in the Financial Section of this document. In order to calculate the cost of maintaining the same student-teacher ratio, the district must consider rising health care costs, fluctuations in enrollment, changes in the salary schedules, and providing a competitive compensation package to attract and retain quality employees. The district continues to focus resources on class size, student-teacher ratios, and support for literacy instruction.

Enrollment History

Prior to 2017, BVSD had experienced positive enrollment growth with gains above 1.0 percent. In 2017, enrollment decreased slightly, only to return the next year. Since 2018, the district has seen a decline in enrollment that was expected to level out or slightly decline, however in 2020, due to COVID, the district experienced a significant decrease in enrollment but that is expected to return to the leveled trend as anticipated prior to the pandemic.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of outstanding debt of the overlapping governments that is borne by the taxpayers of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the taxpayers should be taken into account.

Notes:

- (1) Balance as of June 30, 2020
- (2) The Percentage Applicable to the district is calculated by taking the percentage of the government's assessed value which is located within the boundaries of the district.

There are several notable items regarding district comparisons:

In order to provide a clear representation of revenue versus expenditures for BVSD and other local school districts, 2018-19 data is displayed for both revenues and expenditures.

The Colorado Department of Education defines what information is included in each category, and chooses what items are included or excluded from the total operating expense.

The amounts are higher than what is budgeted because of uncollectible local property taxes. The Boulder Valley School District does not collect 100 percent of local property taxes each year. This does not include the Transportation Mill Levy, or the Bond Redemption Mill Levy, as these revenue sources are specifically related to funds other than the General Operating Fund.

There are some notable items regarding district comparisons:

This comparison is based on information gathered by the Colorado Department of Education. While this process provides dated information, it is a consistent comparison using the same data source.

The Colorado Department of Education defines what information is included in each category, and chooses what items are included or excluded from the total operating expense.

The Boulder Valley School District has no knowledge of other districts' procedures for coding expenses and therefore cannot control or verify other district's percentages in each category.

Appendix P: Governing Policies

The following Governing Policies refer to the budget.

BBA: School Board Powers and Duties

The board of education is responsible for the governance of the school district and the protection and acquisition of school district policy. The powers and duties of the board of education are those enumerated in the Colorado school statutes. Prime responsibilities include:

- 1. Selection of the superintendent of schools.
- 2. The development of overall policy for the school district and the individual schools.
- 3. The declaration of objectives and long-range goals.

Board members have an obligation to act in the overall best interests of the students, the schools, and the taxpayers, protecting the assets and assisting in the acquisition of supporting funds. It is the duty of the board to promulgate policies and regulations for faculty, administration, and staff. The board approves graduation requirements, determines curriculum, and approves appointment, promotion, and dismissal of all school district personnel.

The school district, its employees, and any group or organization using the district's buildings and facilities shall comply with all federal and state laws and executive and administrative orders applicable to the school district relating to equal opportunity and nondiscrimination.

Specific powers and duties of the board include:

Employees

- 1. Acceptance, rejection, or modification of recommendations from the superintendent concerning employment, retirement, and termination of all employees.
- 2. Adoption of salary provisions for all employees, including those groups not represented in negotiating units.
- 3. Adoption of leave provisions and other fringe benefits.
- 4. Adoption of personnel policies consistent with sound educational management and planning.

Students

- 1. Acceptance, modification, or rejection of policies recommended by the superintendent of schools on admission, placement, promotion, attendance, expulsion, suspension, graduation, conduct, and discipline.
- 2. Acceptance, modification, or rejection of policies recommended by the superintendent of schools concerning health services, food services, and transportation services.
- 3. Fixing of tuition charges and terms of admission for nonresident pupils, and waiving of tuition if necessary for the welfare of the child.
- 4. A commitment to provide equal access for educational opportunities in accordance with state and federal quidelines.

<u>Instruction</u>

- 1. Adoption of policies and general district goals upon which the instructional programs are based and conducted.
- 2. Acceptance, modification, or rejection of recommendations by the superintendent of schools on the scope and nature of educational offerings, including the adoption of textbooks to be used. Determination of graduation requirements, years, or grades to be taught.
- 3. Enforcement of the pertinent statutes of the state of Colorado and the rules and regulations of the state board of education with respect to the educational programs of the district.

BBA: School Board Powers and Duties (continued)

Finance

- 1. Approval and adoption of an annual budget in consultation with the superintendent of schools.
- 2. Appropriation of amounts fixed in each annual budget.
- 3. Authorization for administrative approval of expenditures so budgeted and appropriated.
- 4. Decisions as to time, size, and sale of bonds and investment of bond proceeds.
- 5. Preparation of policies for the purchasing, disposal, distribution of supplies, property, and equipment.
- 6. Approval and adoption of an adequate insurance program.
- 7. Authorization of the investment and borrowing of funds within the limitations prescribed by law.

Plant

- 1. Purchasing, holding, and sale of sites.
- 2. Planning regarding location, design, and building specifications and construction.
- 3. Employment of architects and contractors.
- 4. Provisions for operational and maintenance services.
- 5. Provisions of adequate furnishings for buildings.
- 6. Provision for health, safety, and welfare for all students and employees within acceptable guidelines for energy conservation.

<u>General</u>

- 1. Employment of a superintendent of schools, auditor, attorney, and outside consultants, and the evaluation of their services.
- 2. Approval of the school calendar recommended by the superintendent of schools.
- 3. Requirement of frequent, thorough reports on the management of operation of the schools.
- 4. Delegation of the administration of policies and regulations to the superintendent of schools.
- 5. Delegation of the implementation of policies pertaining to health, safety, and welfare to the superintendent of schools.

LEGAL REFS.: C.R.S. 22-32-109

C.R.S. 22-32-110 AGREEMENT REFS.:

Teachers' agreement, Section A

DB: Annual Operating Budget

Both the extent and quality of educational services affect – and are affected by - the financial program. All are governed by policies of the board of education, subject to the state statutes on what studies must be offered by the school district, state statutes regarding the financial resources available to the school district, and by the standards to be observed in the provision of services, facilities, and supplies.

A proposed budget, developed under the direction of the superintendent of schools, is presented to the board of education no later than June 1 each year. A statement shall be submitted with the proposed budget, describing the major objectives of the educational program to be undertaken by the school district during the ensuing fiscal year and the manner in which the budget proposes to fulfill such objectives. The proposed budget will include those elements of revenue and expenditures as prescribed by state statute.

The General Operating Fund budget will be developed on a generally accepted accounting principles (GAAP) basis.

DB: Annual Operating Budget (continued)

Balanced Budget Requirements

In order to ensure its ongoing financial health, the district needs to maintain a positive year-end balance across all funds.

To meet this end, the General Operating Fund budget will be developed so that the total of annual ongoing expenditures and transfers does not exceed annual revenues.

If the General Operating Fund ends any fiscal year with an ending balance beyond required reserves, this amount can only be budgeted for one-time uses in subsequent years. One-time uses will be defined as expenditures, transfers and/or reserves committed to by the district for a finite period of time, on a non-recurring basis. Uses of one-time funds must be approved by the board and be accompanied by a plan for assuring that such uses will not result in an ongoing deficit in future budget years.

Reserve Requirements

To minimize any sudden and unplanned discontinuity to the district's programs and operations, the General Operating Fund budget will be developed containing an ending fund balance equal to required reserves including TABOR, plus a minimum of a 3 percent contingency reserve. This reserve shall be reviewed every year as part of the budget approval process, to determine if a larger reserve is prudent in view of uncertainties in current and future revenue and in district expenses.

Funds in the contingency reserve shall not be spent without board approval. The request for approval must include a plan for ensuring that the expenditure will not exceed the fixed dollar amount approved by the board, and must also include a plan for replenishing the reserve, within two years from first dispersal.

The budgets for all other funds will be developed to include, at a minimum, the required TABOR reserve.

DBJ: Budget Transfers

The Board shall follow state statute regarding the transfer of unencumbered moneys and other funds as specified by state law.

Unencumbered moneys shall not be transferred from one fund to another unless authorized in advance by Board resolution. When a contingency occurs, the Board, by resolution, may transfer any unencumbered moneys from the contingency reserve account, which is within the general fund, to any other fund or function.

DBJ: Budget Transfers (continued)

School Budget Accounts

Principals are responsible for funds budgeted to that school and may transfer moneys between their discretionary accounts. However, moneys in school staffing salary and benefit accounts cannot be transferred without the approval of the Superintendent.

Program Budget Accounts

Program managers are responsible for funds budgeted to that program and may transfer discretionary moneys according to procedures established by the program manager. Transfers between programs must have the approval of each program manager's immediate supervisor. All budget transfers require the approval of the Superintendent.

DD: Grants Management

The District encourages and is receptive to financial support from appropriate federal, state, local governmental and private grant-makers to aid in delivery, maintenance, and improvement of District and school educational, support or operational programs.

The term "grant" encompasses all federal, state, and local governmental, corporate or foundation *financial awards* that have *specific performance requirements or conditions* attached and that are *applied for* and accepted by the District.

BVSD is the legal applicant and recipient for all grant funds applied for and received by all of its public schools, programs and departments. Contracts awarded to the District consequent to the receipt of a grant by another agency or institution are considered sub-award grants, and are subject to all of same requirements as awards received directly by BVSD. Grants applied for and received by individual District personnel for personal or professional development purposes are not subject to District policies unless they involve students, use of school property, or require the participation of other District personnel.

The District may apply for and receive grants that support the current BVSD Goals or otherwise improve educational resources. The Board reserves the right to approve or decline any grant application or award based upon established principles, and may delegate this authority to the Superintendent or other staff assigned by the Superintendent.

The opportunity to competitively apply for a grant must be available to all District schools under the same eligibility criteria if a grant is used to fund any school personnel position(s). This provision does not apply to the District itself, which may apply for grants to fund personnel at particular schools based upon established principles and demonstrated differentiated needs, including, but not limited to: student achievement, educational equity and school climate.

DD: Grants Management (continued)

Any grant application of \$25,000 or more, or made to a state or federal agency, or requiring the expenditure of non-budgeted District or school funds (i.e. cash matching funds) must be approved by the Board. The Superintendent shall have the authority to approve grants applications from \$2,500 up to \$25,000. The Principal or department director shall have the authority to approve grant applications of less than \$2,500. Schools or District departments may not make applications for grants of more than \$25,000, or to a state, or federal agency, or requiring the expenditure of non-budgeted district or school funds, without submission of an Intent to Apply form to the Superintendent or designee, and his or her signed approval.

The Superintendent shall establish procedures for grant administration and for review and approval of all grant applications. The Superintendent shall provide a quarterly report to the Board of all awarded grants.

DD-R1: Project Partnerships, Sub-Award, Grants, Sub-Contracts Pursuant to Grants, and Third-Party Grants Involving District Personnel, Programs or Facilities

When BVSD is named by another agency or institution in a grant application as the recipient of payments, goods or services under that grant, this is considered a sub-award grant and it is subject to all of the same requirements for review and approval as grants written by and awarded to BVSD and its schools/departments. Similarly, if BVSD is named by another agency or institution in a grant application as the provider of services under a grant, the same rule applies.

Contracts awarded to the District consequent to the receipt of a grant by another agency or institution are similarly considered sub-award grants and subject to all of the same requirements for review and approval as grants written by and awarded to BVSD and its schools/departments, regardless of whether BVSD is specifically named in the original grant application.

If a grant is written by a third-party agency, organization, institution, individual, or business entity that entails any of the following:

- use of District personnel during work hours;
- contact with students, or research involving students* or employees;
- changes or additions to District educational programs, student support or teacher support programs;
- changes or additions to District facilities and grounds;
- use of BVSD facilities, personnel, or programs to provide an in-kind match for the grant;
- requirements for future upgrades or maintenance of equipment, software, textbooks, facilities or grounds;
 or
- use of BVSD as the fiscal agent to receive and account for the grant funds

...then this grant is subject to the prior review and approval of BVSD, even if BVSD is not directly named in the application and does not directly receive any financial award through the grant. Other forms of approval may apply (e.g. parental permission; Human Research Committee, etc.) in addition.

BVSD reserves the right to decline to participate in any project initiated by a third party that has not been submitted for District review prior to application for funding AND that has not received the approval of the school district through the Board-designed process prior to the award of funding.

*See Policy JFJ-E for information regarding student participation in surveys, analyses, or evaluations.

DD-R2: Grants to District Personnel

Grants applied for and received by individual District personnel for personal, professional or professional development purposes are not subject to District policies unless they involve activities conducted during the normal work day, or involve students, the use of school property, and/or require the participation of other District personnel.

DEB: Loan Programs (Funds from State Tax Sources)

Short-Term Borrowing

The superintendent shall notify the board when it becomes evident that cash balances will not meet anticipated obligations. Under such circumstances the board may negotiate, under the provisions of Colorado statutes, for a loan in such amounts as may be required to meet such obligations. Such a loan may not be obtained without prior approval of the board.

The board authorizes the president and the superintendent to execute promissory notes on behalf of the school district from time to time as such borrowing of funds becomes necessary and may further authorize them to execute any and all other documents necessary or incidental to the borrowing of funds. By law, these short-term loans must be repaid by the close of the fiscal year in which the loan was received.

State Interest-Free Loan Program

The superintendent shall notify the board when it becomes evident that a General Fund cash deficit will occur in any month in the coming fiscal year. Under such circumstances the board may elect to participate in an interest-free loan program through the state treasurer's office by adopting a resolution approving participation in the program. The loan may not exceed an amount certified by the district's chief financial officer and the superintendent. However, the superintendent may not apply for such loan without a resolution of the board. The state treasurer shall determine the method for calculating cash deficits and appropriate reporting mechanisms.

All loans shall be repaid by June 25 of the fiscal year in which they were made or an alternate date determined by the state treasurer.

Tax Anticipation Notes

The board may issue tax anticipation notes without an election if it determines that taxes due the district will not be received in time to pay projected budgeted expenses. Tax anticipation notes shall mature on or before June 30 of the fiscal year in which the tax anticipation notes were issued.

Tax anticipation notes issued by the district shall not exceed 75 percent of the taxes the district expects to receive in the current fiscal year as shown by the current budget.

<u>Cooperative Projects — School District Funding</u>

Except for noncategorical state and federal funds received by the School District to support the general fund budget, other outside funds received for any project requiring the expenditure of School District funds and/or the cooperative use of School District facilities on a regularly scheduled basis shall be brought to the Board of Education for authorization before the project is instituted.

DEB/DEC/DFC: Revenues From State/Federal Tax Sources (continued)

When such projects are proposed, the following information shall be presented:

- 1. Specific educational needs to be served.
- 2. Alternatives considered in meeting those needs.
- 3. Specific strategies and activities planned to meet those needs.
- 4. A budget identifying revenue anticipated from all sources (including *all* in-kind contributions of each fund or); itemized expenditures (including projections for salaries and benefits, supplies and equipment, inservice and training expense, travel to professional meetings, etc.); and staffing requirements.
- 5. Scope and duration of the project, including a description of the population to be served.
- 6. Description of decision-making framework and responsibilities assigned school personnel. Cooperative projects will be staffed and initiated subsequent to Board authorization. School District selection and compensation policies will be followed in making staffing arrangements whenever possible.

In approving cooperative projects, the Board of Education will be responsible only for School District contributions authorized in the project budget and only for the purposes described. If total anticipated revenue is not received, services must be curtailed. Services to school-age children have the highest priority for retention in such circumstances.

In the event that implementation extends into more than one budget year, the Board will review the project annually as part of the School District budget review process.

DFA: Cash Management/Investment Policy

It is the policy of the District to invest public funds in a manner that will preserve capital, meet the daily liquidity needs of the District, diversify the District's investments, conform to all local and state statutes governing the investment of public funds, and generate market rates of return.

This Cash Management Investment Policy addresses the methods, procedures, and practices which must be exercised to ensure effective and judicious fiscal and investment management of the District's funds.

SCOPE

Cash balances in the Bond Redemption Fund, the Building Fund, the Health Insurance Fund, the Dental Insurance Fund, the Non-expendable Trust Fund and the Expendable Trust Fund shall not be pooled and the investment income derived from the individual investment accounts shall be allocated directly to the individual fund.

All cash shall be pooled for investment purposes, except for cash balances of the funds listed above. Investment income derived from the pooled investment account shall be allocated to the General Fund.

This Investment Policy shall apply to all funds accounted for in the District's Comprehensive Annual Financial Report.

DFA: Cash Management/Investment Policy (continued)

INVESTMENT OBJECTIVES

The District's principal investment objectives include:
Preservation of capital and protection of investment principal;
Maintenance of sufficient liquidity to meet anticipated cash flows;
Attainment of a market rate of return;
Diversification to avoid incurring unreasonable market risks;

Conformance with all applicable District policies, state statutes and Federal regulations.

DELEGATION OF AUTHORITY

The Superintendent is vested with responsibility for managing the District's investment program and for implementing this Cash Management Investment Policy. The Superintendent may delegate the authority to conduct investment transactions and to manage the operation of the investment portfolio to the Accounting Services Director or the Chief Financial Officer. No person may engage in an investment transaction except as expressly provided under the terms of this Investment Policy.

The Superintendent or his/her designee shall establish written procedures and internal controls for the operation of the District's investment program, designed to prevent loss of public funds due to fraud, error, misrepresentation and imprudent actions.

The District may engage the support services of outside investment advisors in regard to its investment program, so long as it can be demonstrated that these services produce a net financial advantage or necessary financial protection of the District's financial resources.

PRUDENCE

The standard of prudence, as defined by the Colorado Revised Statutes, to be used for managing the District's assets is the "prudent investor" standard applicable to a fiduciary, which states that a prudent investor "shall exercise the judgment and care, under circumstances then prevailing, which men of prudence, discretion, and intelligence exercise in the management of the property of another, not in regard to speculation but in regard to the permanent disposition of funds, considering the probable income as well as the probable safety of capital." (Colorado Revised Statutes 15-1-304, Standard for Investments.)

The District's overall investment program shall be designed and managed with a degree of professionalism that is worthy of the public trust. The District recognizes that no investment is totally without risk and that the investment activities of the District are a matter of public record. Accordingly, the District recognizes that occasional losses may be possible in a diversified portfolio and shall be considered within the context of the overall portfolio's return, provided that adequate diversification has been implemented and that the sale of a security is in the best long-term interest of the District.

The Superintendent and other authorized persons acting in accordance with written procedures and exercising due diligence shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported in a timely fashion to the Board of Education and appropriate action is taken to control adverse developments.

ETHICS AND CONFLICTS OF INTEREST

District employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the District's investment program or that could impair or create the appearance of an impairment of their ability to make impartial investment decisions. Employees shall disclose to the Superintendent or his/her designee any material financial interest they have in financial institutions that conduct business with the District, and they shall subordinate their personal investment transactions to those of the District.

DFA: Cash Management/Investment Policy (continued)

AUTHORIZED SECURITIES AND TRANSACTIONS

All investments will be made in accordance with the Colorado Revised Statutes as follows: C.R.S. § 11-10.5-101, *et seq.*, Public Deposit Protection Act; C.R.S. § 11-47-101, *et seq.*, Savings and Loan Association Public Deposit Protection Act; C.R.S. § 24-75-601, *et. seq.*, Funds - Legal Investments; C.R.S. § 24-75-603, Depositories; and C.R.S. § 24-75-702, Local governments – authority to pool surplus funds. Any revisions or extensions of these sections of the statutes will be assumed to be part of this Investment Policy immediately upon being enacted. This Cash Management Investment Policy further restricts the investment of District funds to the following types of securities and transactions:

- 1. <u>U.S. Treasury Obligations</u>: Treasury bills, Treasury notes, Treasury bonds and Treasury STRIPS with maturities not exceeding five years from the date of trade settlement.
- 2. <u>Federal Instrumentality Securities</u>: Debentures, discount notes, callable securities, step-up securities and stripped principal or coupons with maturities not exceeding five years from the date of trade settlement issued by the following only: Federal National Mortgage Association (FNMA), Federal Farm Credit Banks (FFCB), Federal Home Loan Banks (FHLB) and Federal Home Loan Mortgage Corporation (FHLMC). Federal Instrumentality Securities shall be rated in the highest rating category by at least two Nationally Recognized Statistical Rating Organizations (NRSROs), and shall be rated not less by any NRSRO that rates the debt.
- 3. <u>Repurchase Agreements</u> with a termination date of 180 days or less collateralized by U.S. Treasury obligations or Federal Instrumentality securities listed in 1. and 2. above with a final maturity not exceeding 10 years. The purchased securities shall have a minimum market value including accrued interest of 102 percent of the dollar value of the transaction. Collateral shall be held by the District's third-party custodian bank, and the market value of the collateral securities shall be marked-to-the market daily.

Repurchase Agreements shall be entered into only with broker/dealers recognized as primary dealers by the Federal Reserve Bank of New York, or with firms that have a primary dealer within their holding company structure. Approved Repurchase Agreement counterparties shall have a short-term credit rating of at least A-1 or the equivalent and a long-term credit rating of at least A or the equivalent by a Nationally Recognized Statistical Rating Organization (NRSRO). Repurchase agreement counterparties shall execute a District approved Master Repurchase Agreement with the District. The Chief Operations Officer shall maintain a copy of the District's approved Master Repurchase Agreement along with a list of broker/dealers who have executed same.

- 4. <u>Commercial Paper</u> with an original maturity of 180 days or less that is rated at least A1+, P-1 or the equivalent at the time of purchase by at least two NRSROs and rated not less by all NRSROs that rate the commercial paper. If the commercial paper issuer has senior debt outstanding, it must be rated at least AA-, Aa3 or the equivalent at the time of purchase by at least two NRSROs and rated not less by all NRSROs that rate the issuer.
- 5. <u>Non-negotiable Certificates of Deposit</u> with a maturity not exceeding one year in any FDIC insured state or national bank, or state or federal savings bank located in Colorado that is a state approved depository per C.R.S. § 24-75-603. Certificates of deposit that exceed FDIC insurance limits shall be collateralized as required by the Public Deposit Protection Act or the Savings and Loan Association Public Deposit Protection Act.
- 6. <u>Local Government Investment Pools</u> authorized under C.R.S. § 24-75-702 that: 1) are "no-load" (no commission or fee shall be charged on purchases or sales of shares); 2) have a constant net asset value of \$1.00 per share; 3) limit assets of the fund to those securities authorized by state statute; 4) have a maximum stated maturity and weighted average maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940; and 5) have a rating of AAA or the equivalent by one or more NRSROs.

DFA: Cash Management/Investment Policy (continued)

7. Money Market Mutual Funds registered under the Investment Company Act of 1940 that: 1) are "no-load" (no commission or fee shall be charged on purchases or sales of shares); 2) have a constant net asset value of \$1.00 per share; 3) limit assets of the fund to those securities authorized by state statute; 4) have a maximum stated maturity and weighted average maturity in accordance with Rule 2a-7 of the Investment Company Act of 1940; and 5) have a rating of AAA or the equivalent by one or more NRSROs.

The foregoing list of authorized securities shall be strictly interpreted. Any deviation from this list must be approved by the Board of Education.

INVESTMENT DIVERSIFICATION

It is the intent of the District to diversify the investments within the investment portfolio to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions or maturities. Nevertheless, the asset allocation in the investment portfolio should be flexible depending upon the outlook for the economy, the securities markets and the District's anticipated cash flow needs.

INVESTMENT MATURITY AND LIQUIDITY

The investment portfolio shall remain sufficiently liquid to meet all cash requirements that may be reasonably anticipated. To the extent possible, investments shall be matched with anticipated cash flows and known future liabilities. Investments shall be limited to maturities not exceeding five years from the date of trade settlement.

COMPETITIVE TRANSACTIONS

Each investment transaction shall be competitively transacted with authorized broker/dealers. At least three broker/dealers shall be contacted for each transaction and their bid and offering prices shall be recorded. If the District is offered a security for which there is no other readily available competitive offering, quotations for comparable or alternative securities will be documented.

SELECTION OF BROKER/DEALERS

The Chief Operations Officer shall maintain a list of broker/dealers approved for investment purposes, and it shall be the policy of the District to purchase securities only from those authorized firms. To be eligible, a firm must meet at least one of the following criteria:

- 1. Be recognized as a primary dealer by the Federal Reserve Bank of New York or have a primary dealer within its holding company structure;
- 2. Report voluntarily to the Federal Reserve Bank of New York;
- 3. Qualify under Securities and Exchange Commission (SEC) Rule 15c3-1 (Uniform Net Capital Rule).

Broker/dealers will be selected by the Superintendent or his/her designee on the basis of their expertise in public cash management and their ability to provide service to the District's account. Each authorized broker/dealer shall be required to submit and annually update a District approved Broker/Dealer Information Request Form that includes the firm's most recent financial statements. In the event that an external investment advisor is not used in the process of recommending a particular transaction in the District's portfolio, any authorized broker/dealer from whom a competitive bid is obtained for the transaction will attest in writing that he/she has received and reviewed a copy of this policy.

The District may purchase commercial paper from direct issuers even though they are not on the approved broker/dealer list as long as they meet the criteria outlined in item 3. of the Authorized Securities and Transactions section of this Investment Policy.

DFA: Cash Management/Investment Policy (continued)

SAFEKEEPING AND CUSTODY

The Superintendent or his/her designee shall approve one or more banks to provide safekeeping and custodial services for the District. A District approved safekeeping agreement shall be executed with each custodian bank. To be eligible, a financial institution shall qualify as a depository of public funds in Colorado as defined in C.R.S. § 24-75-603.

The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the District. Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices.

All investment securities, except non-negotiable Certificates of Deposit, Local Government Investment Pools and Money Market Mutual Funds, purchased by the District will be delivered by either book entry or physical delivery and will be held in third-party safekeeping by the District approved custodian bank, its correspondent bank or the Depository Trust Company (DTC).

All Fed wireable book entry securities shall be evidenced by a safekeeping receipt or a customer confirmation issued to the District by the custodian bank stating that the securities are held in the Federal Reserve system in a Customer Account for the custodian bank which will name the District as "customer."

All DTC eligible securities shall be held in the custodian bank's Depository Trust Company (DTC) participant account and the custodian bank shall issue a safekeeping receipt evidencing that the securities are held for the District as "customer."

All non-book entry (physical delivery) securities shall be held by the custodian bank or its correspondent bank and the custodian bank shall provide evidence that the securities are held for the District as "customer."

The District's custodian will be required to furnish the District monthly reports of holdings of custodied securities as well as a report of monthly safekeeping activity.

REPORTING

At the end of each quarter, the Chief Financial Officer shall submit to the Board an investment report listing the investments held by the District and the current market value of the investments.

POLICY REVISIONS

This Cash Management/ Investment Policy shall be reviewed annually by the Superintendent or his/her designee and may be amended by the Board of Education as conditions warrant.

DFB: Revenues from Licensing of School Facilities for Telecommunication Uses

The board of education of the Boulder Valley School District, as a service to the communities where its various school sites and facilities are located and as a source of revenue to the school district, may license the use of its sites and facilities for the installation, maintenance, and use of telecommunication and low power radio signal equipment owned by third-party entities.

The school district, in granting the use of its sites and facilities for use by telecommunication entities, shall require at all times that the health and safety of its students, staff, and patrons are protected and the aesthetics and structural integrity of all sites and facilities will not be jeopardized by such use.

The granting of use of school district sites and facilities for telecommunication uses shall require that the third-party entity adhere to the following procedures and guidelines:

DFB: Revenues from Licensing of School Facilities for Telecommunication Uses (continued)

1. Site identification

- School district shall grant qualified third parties access to school district facilities and sites for assessment
 and testing purposes to determine existence of optimum location for equipment and antenna provided the
 third party agrees to indemnify school district for any liens, claims, or damages while conducting this site
 and facility feasibility identification.
- Third party shall be given permission to contact appropriate jurisdictions to make preliminary investigation of zoning, land use, and other necessary permitting requirements on identified sites and facilities.

2. Submittal of preliminary design to school district

- Third party wishing to pursue the installation of telecommunication facilities on school district sites and facilities after completing its site and facilities identification process shall submit to the school district Department of Operations the following:
 - a. Survey and legal description of proposed site.
 - b. Design drawings and representations showing height, area requirements, and location of proposed telecommunication facilities.
 - c. Detailed description of the equipment proposed to be installed and the improvements to be constructed on the telecommunication sites.
 - d. Detailed description of the environmental, compatibility, and aesthetic impact of the proposed installation and construction on existing school district use.
 - e. Proposed source of electrical power and telephone connection.

3. License agreements shall require:

- The initial term to not exceed five years and shall be subject to termination by school district for school district purposes.
- Provisions and procedures for renewal of the agreement for subsequent terms.
- Annual payment schedule.
- Agreement to indemnify school district.
- Agreement to be conditioned upon third party obtaining zoning, land use, and building permit approval.
- The third party to be responsible for the processing and obtaining of all required permits, certificates, and approvals and to appear at all hearings.
- Obtaining all permits required by FCC.
- Manage all construction and installation on sites but subject to construction and safety standards promulgated by the school district.
- Nonexclusive use of sites and facilities with a covenant to cooperate with any other third party users of telecommunication facilities utilizing the same sites.
- Provisions for multiple-site use by third party when desired and agreed to by the school district.
- All facilities and equipment installed by third parties shall accommodate all telecommunications equipment
 of the school district.
- License granting limited access by third party across school district property to the facilities and site during
 construction, operation, and maintenance of the equipment and facility, which is not disruptive to school
 district use.
- All improvements and installations shall be installed and constructed at the third party's sole expense in a workmanlike manner, shall be removed upon termination of the use agreement unless otherwise agreed to by the school district, and the site and facilities shall be restored to original condition.
- Third party shall maintain and keep sites and facilities in good repair.
- Third party to pay all utilities, operating costs, and any taxes associated with a telecommunication use.
- Third party to maintain liability, property, and workers compensation insurance with the school district as an additional insured.
- Nonassignability without school district consent.

DFB: Revenues from Licensing of School Facilities for Telecommunication Uses (continued)

- Final approval by school district which shall take into account the proposed location of the site, the
 compatibility to the surrounding neighborhood location of the site, the aesthetic integration of the facility,
 the requested term, the consideration offered, the safety and structural impact of the facility on existing
 uses, and the benefit to the school district telecommunication needs.
- 4. This policy is not intended to vest any rights to the use of school district facilities and sites in any third party. Approval of any telecommunication facility and use shall rest solely with the board of education and shall be determined on a case-by-case basis.

DG: Depository of Funds/Authorized Signatures

All moneys received by the school district shall be deposited in an official bank as designated by the board. Such a financial institution must qualify as an eligible public depository in accordance with state law.

The accounting department will review all banking arrangements annually and will seek competitive bids for banking services every five years.

When moneys are withdrawn from the custody of the county treasurer, such withdrawn moneys shall be deposited by the treasurer of the board or official custodian to the credit of the district in a depository designated by the board.

The treasurer or official custodian shall comply with all requirements of state law regarding the deposit of district funds.

Revenues from a tax levy for the purposes of satisfying bonded indebtedness obligations shall be administered by a commercial bank or depository trust company located in Colorado that meets the requirements set forth in state law.

Checks written on all district funds authorized by the board of education, except student activity funds, will require the facsimile signature of the treasurer of the board of education. The use of the facsimile signature must conform to the present state statutes. It is the practice of the board to adopt the required resolution and complete the required "consent to use facsimile signature" form at the board's annual organizational meeting.

Checks drawn on the various student activity funds require the signature of the principal or assistant principal at the school. Moneys of the school activity accounts will be deposited in a designated bank located within the district. DI: Fiscal Accounting and Reporting

The superintendent shall be responsible for receiving and properly accounting for all funds of the district.

The accounting system used shall conform to the requirements of the state board of education and with generally accepted accounting principles; providing for the appropriate separation of accounts, funds, and special moneys.

In accordance with C.R.S. § 22-45-102, the board will receive financial statements on a quarterly basis.

<u>NOTE</u>: Fiscal accounting and reporting must meet requirements established by the state board of education as set forth in the Financial Policies and Procedures Handbook for public schools in Colorado. (C.R.S. §§ 22-44-203 and 22-44-204)

DID: Inventories (And Property Accounting)

The Board directs that the District maintain a system for the inventory of all capital and infrastructure assets. Capital assets (also called fixed assets) are those District assets that are of a tangible nature, have a useful life of over one year, and have a unit value of \$5,000 or more. Examples of fixed assets include, but are not limited to, land, land improvements, buildings, equipment and vehicles.

Infrastructure assets are normally stationary in nature and can be preserved for a significantly greater number of years than capital assets. Examples of infrastructure assets include, but are not limited to roads, bridges, tunnels, drainage systems, sidewalks, curbs, and water/sewer distribution and collection systems. Infrastructure assets also have a unit value of \$5,000 or greater. All fixed assets and infrastructure assets of the District will be included in the government-wide financial statements.

The Superintendent, or designee, will cause an inventory of capital and infrastructure assets to be performed annually. The Superintendent, or designee, assumes responsibility for the property accounting system. Principals and designated administrators are accountable to the Superintendent for assets assigned to their respective schools or departments and for all other District property under their control.

The Board has the responsibility to District residents and taxpayers to properly account for public funds. In keeping with the adopted principles of sound financial management, the Board establishes an Audit Committee to assist in its oversight responsibilities. The primary responsibilities for the District Audit Committee shall be as follows:

Recommend the selection of an external auditor, considering independence, qualifications and cost of services. Review the scope, plan and coordination of the independent audit efforts. Consider the auditor's findings and recommendations for appropriate actions.

- Review quarterly financial reports provided by the district.
- Review District financial policies and procedures.
- Review any new debt issuance.
- Encourage continuous improvement of District financial policies and procedures.

The District Audit Committee shall be comprised of five members: two Board members, one being the Board Treasurer who shall serve as chair of the District Audit Committee, and the other member appointed by the Board for a two year term; the District's Chief Financial Officer; the District's Director of Accounting Services; and a community member with expertise in governmental accounting and financial management. The community member will be selected by the District Audit Committee and recommended to the Board a two year term. The District's independent auditor may be asked to attend selected committee meetings.

Purchases are made to obtain the optimum value for each dollar expended. Competition is the basis for all purchasing, unless impractical, inefficient or impossible. Free and fair vendor competition and impartial evaluation shall be accomplished using methods and actions which uphold the highest ethical standards.

The Procurement Director shall have the authority to establish procurement processes and to establish and maintain terms and conditions to govern District procurements.

The Procurement Department issues purchase orders and is authorized to issue procurement cards for the purchase of goods and services authorized in the District's adopted budget and purchased in accordance with this policy. Procurement Department staff members are solely authorized to issue a District purchase order or District purchase order number, or to revise or cancel a District purchase order.

1. Awards

First consideration in making awards will be the interests, policies, and objectives of the District. Other factors to be considered include quality, availability, and price of the product or service, and responsibility and responsiveness of the vendor. The District reserves the right to cancel any solicitations, and reject any and all bids or offers, in whole or in part.

2. Contracts

District staff with budget authority are permitted to enter into various contracts for small dollar amounts such as providing customized training or services, rental of vending machines or reservations and use of outside facilities. Any such contract term shall not exceed one year. Board policy requirements, including the competitive procurement requirements set forth below, shall apply.

The Superintendent or designee has the authority to enter into contracts for goods or services or other activities within the mission of the District provided that the amount involved does not exceed \$50,000.

Contracts between \$50,000 and \$100,000 must be signed by the Board President, but do not require formal Board approval if the provisions of this policy have been complied with and funds have been budgeted.

Unless otherwise provided by resolution, all District contracts exceeding \$100,000 shall first be authorized by Board resolution, prepared with the approval of the attorney for the District. Following Board approval, all contracts shall be executed by the President and Secretary. The Secretary shall see that one properly executed copy is delivered to the other party, a copy is delivered to the appropriate school or department and a copy is properly filed with the Board's records.

3. Discretionary Purchases, Quotations, Bids and Requests for Proposals (RFP)

Competition for the purchase of goods and services, except professional services, shall be accomplished as indicated below.

PURCHASE OF GOODS/SERVICES	METHOD
Less than \$5,000	Discretionary purchases. No competition required.
\$5,000 - \$50,000 (unit price – goods or services or combination, i.e., project)	Competitive quotations required Written quotes 2 or more vendors
\$50,000 and higher (unit price – goods or services or combination, i.e., project)	Competitive sealed bid or RFP process. Procurement Staff will conduct solicitation process. If unit price of goods or services exceeds \$100,000, Board approval is required prior to purchase. Expenditures in excess of Boardapproved amounts shall be submitted to the Board for consideration.

6. Purchase of Goods and Services to be Paid for by Parents or Students

All goods and services related to school activities that are to be paid for by parents or students shall be controlled and administered by the building principal in accordance with Board policy requirements. Parents and/or students shall be informed of their option to obtain goods and services from vendors other than those selected by the District, if they so elect.

7. Cooperative Purchasing

The Procurement Department may join in cooperative purchasing with other school districts, the State of Colorado, or any other entity where such purchasing benefits the District.

8. Sole Source Procurements

Sole source procurements in lieu of required competition will be permitted upon submittal by the requestor of acceptable documentation to the Procurement Department verifying that: 1) There is only one product or service that can reasonably meet the requirements, AND 2) There is only one vendor who can reasonably provide that product or service.

DJ/DJE: Purchasing and Contracting (continued)

9. Emergency Purchases

If a condition develops which is likely to result in immediate physical injury to persons, damage to District property, interruption of District operations, or significant financial loss to the District if action is not taken immediately, limited emergency purchases can be made without following the competitive bid procedures if the Superintendent or designee so authorizes. Written documentation shall be provided to the Procurement Director justifying such emergency purchases.

The Superintendent authorizes the following types of deductions from employee salaries, provided the employee has filed the proper permission for payroll withholding:

PERA

All employees of the District must participate in the Public Employees' Retirement Association of Colorado under the provisions set by Colorado statutes.

SAVINGS BOND

Employees may purchase savings bonds through payroll deduction. Bonds are purchased and delivered according to the employee's written instructions.

LIFE SURVIVOR'S INSURANCE

The Public Employees' Retirement Association has an insurance plan which provides survivor's insurance for any active member of PERA who wishes to participate. Employees may participate in this program through payroll deduction. PERA will supply information about these plans.

HEALTH AND DENTAL INSURANCE

For the various groups of employees, health and dental insurance premiums shall be paid in accordance with their negotiated agreements. Family members' health and dental plans may be added through payroll deduction. Procedures shall be handled by the Human Resources Division.

TAX DEFERRED SAVINGS PLANS

Employees may participate in the 401k plan available through PERA, the District's 403b plan, and/or the District's 457b plan through payroll deduction following established District procedures. No other tax deferred investment savings plans shall be available through the District. The employee is solely responsible for his/her investment elections and for compliance with Internal Revenue Code rules and regulations.

EMPLOYEE CONTRIBUTION CAMPAIGN

The District holds an annual Employee Contribution Campaign to allow employees to contribute to various community charities. Employees may contribute one-time donations in cash or check or authorize payroll deductions to be made to Impact on Education, Foothills United Way, Community Health Charities of Colorado and/or Community Shares of Colorado.

- **Fixed Asset:** Tangible property with an estimated life of more than one year.
- **Food Services Fund (Fund 21):** This fund is used to account for the financial activities associated with the district's school lunch program.

Front Range BOCES Fund

The Front Range BOCES Fund is a custodial fund to account for activities of the Front Range BOCES.

Free Appropriate Public Education (FAPE):

Section 504 of the Rehabilitation Act of 1973 protects the rights of individuals with disabilities in programs and activities that receive federal financial assistance, including federal funds. A Free Appropriate Public Education means that a child with disabilities will receive the same education as a child without disability or handicap. FAPE can be achieved by giving the child special services, usually written in an Individualized Education Plan (IEP).

- **Free or Reduced Lunch (FRL):** In order to qualify for free or reduced meals, a household has to fill out an application. Guidelines are set by the Federal Government, comparing the household's size to its income.
- **Full Time Equivalency (FTE):** Unit used to measure the hours in an employee's contract based on a 40 hour work week.
- **Fund:** A fund is an independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources. It contains all related assets, liabilities and residual equities or balances, or changes therein. Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations, or other restrictions.
- **Funded Pupil Count:** Adjustments to the district's October 1 pupil enrollment count (headcount) to produce the full time equivalent (FTE) membership used in the School Finance Act formula to determine the district's funding for the current budget year. For example, a pupil enrolled in kindergarten is counted as a one-half funded pupil (0.5 FTE). Similarly, but under different guidelines, preschool pupils are counted as one-half FTE pursuant to CRS 22-28-106(2) and 22-53-103.
- **General Administrative Support:** Activities concerned with establishing and administering policy for operating the school district. Includes superintendent, deputy superintendent, assistant superintendents, legal counsel and the grants specialist.
- **General Operating Fund (Fund 10):** Provides for the basic day-to-day operational costs of the district. The mill levy for the fund is determined by the provisions of the State Public School Finance Act of 1994, as amended, and the Taxpayer's Bill of Rights (TABOR).
- **Generally Accepted Accounting Principles (GAAP):** A collection of rules, procedures and conventions developed by the accounting profession which set the minimum requirements for a fair presentation of financial data in external financial reports.
- **Gifted and Talented (GT):** Program for children between the ages of 5 and 21 whose abilities, talents, and potential for accomplishment are so outstanding that they require special provisions to meet their educational needs.

- **Government Finance Officers Association (GFOA):** Professional association of state, provincial and local finance officers in the United States and Canada.
- Governmental Accounting Standards Board (GASB): The Governmental Accounting Standards Board (GASB) is the independent organization that establishes and improves standards of accounting and financial reporting for U.S. state and local governments.
- **Governmental Designated-Purpose Grants Fund (Fund 22):** A special revenue fund used to account for governmental grants for designated purposes.
- **Grant:** A financial award from a federal, state or local government agency, or any private foundation, corporation or organization, which is given for specific purposes or to which specific performance requirements exist, and is generally solicited through a process of written application.
- Health Insurance Fund (Fund 66): An Internal Service Fund to account for claims and administrative fees of the district's Self-Funded Health Insurance employee benefit program.
- Highly Qualified Teacher: Section 1119 of the federal No Child Left Behind Act of 2001 (NCLB), requires that all teachers teaching in coreacademic content areas meet the requirements for being designated as "Highly Qualified," no later than the end of the 2005-06 school year. Typically, "highly qualified" teachers are licensed & endorsed in the content area in which they are teaching, have completed 24-semester hours in the content area, or have passed the certification test in the content area being taught.
- **Impact on Education:** Formerly the Foundation for Boulder Valley Schools. An independent, non-profit organization created to impact student learning, create community partnerships, and advocate for public education.
- **Indirect Cost:** A charge made to a grant to offset the administrative cost to the district of processing and managing a grant.
- Individual Career and Academic Plan (ICAP): A multi-year process that intentionally guides students and families in the exploration of career, academic and postsecondary opportunities. With the support of adults, students develop the awareness, knowledge, attitudes, and skills to create their own meaningful and powerful pathways to be career and college ready.

- Individual Education Program (IEP): A legal document written for students who qualify under the IDEA (Individuals with Disabilities Education Act) that defines the goals and objectives, accommodations and modifications based on the student's needs that allow the student to progress in learning in the general education curriculum.
- **Infinite Campus (IC):** A software package that the district uses to manage student information.
- **Instructional Staff Support:** Activities associated with assisting the instructional staff with the content and process of providing learning experiences for students. Examples include the support activities of librarians and media technicians.
- Leadership in Energy and Environmental Design (LEED): A standard and rating system developed by the US Green Building Council (USGBC) to rate environmentally conscious building practices.
- **Levy:** (Verb) To impose taxes. (Noun) The total of taxes imposed by a governmental unit.
- **Liabilities:** Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed, or refunded at some future date. This term does not include encumbrances.
- **Location:** Locations are used to denote the group and type of educational activities for organizational purposes and are often considered cost centers. Each type of unit has discriminating characteristics. The units include individual schools, buildings, and central departments.
- **Long-term Debt:** Debt with a maturity of more than one year after the date of issuance.
- **Mill Levy:** The rate of taxation. A mill is one-tenth of a cent (\$.001). Mill levies are expressed in dollars per thousand, i.e., one dollar for each \$1,000 of assessed value.
- Multi-Use Outdoor Facilities Assessment (MUOFA): The Multi-Use Outdoor Facilities Assessment section of the BVSD Educational Facilities Master Plan developed in 2006.
- Multi-Tiered System of Support (MTSS): Multi-Tiered System of Supports (MTSS) is a systemic, continuous-improvement framework in which data-based problem-solving and decision making is practiced across all levels of the educational system for supporting students. MTSS utilizes high quality evidence-based instruction,

- intervention, and assessment practices to ensure that every student receives the appropriate level of support to be successful.
- NCGA Statement: National Council on Governmental Accounting's directive on Government Accounting and Financial Reporting Principles.
- New Century Graduate: The vision of the New Century Graduate is to graduate students in the new century who have the knowledge, skills and personal characteristics that will prepare them for the challenges they will encounter as adults. The steering committee report was completed in May of 2002 and can be found on the district's website.
- No Child Left Behind (NCLB): The No Child Left Behind Act was signed into law in January 2002. This law reauthorized the Elementary and Secondary Education Act. The new law revised the framework that Colorado will use to comply with sweeping reforms in education.
- **Non-exempt Employees:** Employees eligible for overtime pay on hours worked in excess of 40 hours per week; typically clerical, paraeducators, and service employees.
- Nonexpendable Trust Fund: This fund accounts for the principle amount received from the Jitsugyo High School Student Exchange Program and the Barbara Carlson Scholarship, and related interest income. The interest portion of the trust is to be used to finance the activities authorized by the trust or scholarship agreement.
- **Object:** As specified by the Colorado Department of Education (CDE) Chart of Accounts, the service or commodity obtained as a result of a specific expenditure (what was purchased). There are nine major object categories, each of which is further subdivided. Following are definitions of the object classes and sub-object categories:
 - 0100 Salaries (Regular, Temporary, Overtime, Stipends, Leave)

Private Purpose Trust Fund (Fund 72)

Trust and Agency Funds are used to account for assets held by the district in a trustee capacity or as an agent for individuals, private organizations, and special activity groups within the district. This Fund is comprised of Expendable Trust Funds, Nonexpendable Trust Funds, and Agency Funds.

- **Procurement Card (P-card):** A Visa credit card, issued by the Procurement Department via CitiBank, that provides qualified users in schools and departments with a means for making allowable low dollar purchases for district business/use.
- Program Compatibility Assessment (PCA): The Program Compatibility Assessment section of the BVSD Educational Facilities Master Plan developed in 2006.
- **Program:** A plan of activities and procedures designed to accomplish predetermined objectives. Programs are classified into broad areas: Instruction, Support Services, Operation of Non-Instructional Services, Facilities Acquisition and Construction, Other User, and Reserves.
- Public Employees' Retirement Association (PERA): PERA administers a cost-sharing multiple-employer defined benefit pension fund and a cost-sharing multiple-employer defined benefit other post-employment benefit (OPEB) fund for district employees.
- **Public School Finance Act of 1994, as Amended:** State Legislation creating Title 11,
 Article 50, of the Colorado Revised Statutes which
 determines the base revenue of the General
 Operating Fund of the district. This funding is

comprised of property taxes, specific ownership taxes and state equalization support. The Act establishes an allowable mill levy and defines the process for exceeding the allowable amount by an election.

- **Pupil Count:** A head count of pupils by school and grade level which are enrolled in an education program in BVSD for the State of Colorado as of the school day nearest the Count Day, October 1. The October 1 Pupil Count is used to determine the level of funding that the district will receive from the Colorado School Finance Act and is also used to budget the School Resource Allocation (SRA) and staffing allocations for schools.
- **Pupil Enrollment:** The number of pupils enrolled on October 1 during the budget year or the school day nearest to said date, as evidenced by the actual attendance of each pupil prior to said date. This is sometimes referred to as the head count.
- Purchase Order: Document issued by the Procurement Department to a vendor setting forth products or services to be provided to the district by that vendor. Includes quantities, unit costs, delivery instructions, terms and conditions. Purchase orders are initiated by schools/departments via requisitions created in Lawson.
- **Purchased Services:** Personal services rendered by personnel who are not on the payroll of the district, and other services which may be purchased by the district.
- Reading to Ensure Academic Development (READ) Act: The READ Act was passed by the Colorado Legislature during the 2012 legislative session. The READ Act repeals the Colorado Basic Literacy Act (CBLA) as of July 1, 2013, keeping many of the elements of CBLA such as a focus on K-3 literacy, assessment, and individual plans for students reading below grade level. The READ Act differs from CBLA by focusing on students identified as having a significant reading deficiency, delineating requirements for parent communication, and providing funding to support intervention. Other components of the Colorado READ Act include a competitive Early Literacy Grant and a resource bank of assessments, instructional programming, and professional development.
- **Referendum C:** In November 2005, Colorado voters passed Referendum C, which temporarily overrides the current TABOR revenue formula

- that limits annual growth in state revenues to the rate of change of inflation plus population. With no increase to current tax rates, Referendum C allows the state to keep and spend the revenue it collects under current rates for the next five years.
- **Revenue:** Funds received, generally from taxes or from a state or federal funding program, which are not loans and which do not cause an increase in a liability account.
- **Revolving Account:** Used to account for assets held by the district in a trustee capacity for individuals, private organizations, other governmental units and/or other funds.
- **Risk Management Fund (Fund 18):** This fund provides for the payment of insurance premiums, legal and other associated administrative costs necessary to cover loss or damage to district property and Workers' Compensation claims.
- **Salary:** The total amount paid to an individual, before deductions, for personal services rendered while on the payroll of the district.
- **School Administrative Support:** Activities concerned with overall administrative responsibility for a school or combination of schools. Includes principals, assistant principals and clerical staff.
- School Improvement Teams (SIT): School Improvement Teams function as an advisory committee to the school on issues related to school improvement, accreditation accountability. Roles/responsibilities include: review of accountability reports and involvement in school goals/ planning, budget, safe school plan, and educational programs. A school advisory council is required at each public school under State Statute C.R.S. 22-7-106(1)(a)(4). The school team works to develop and maintain a school and community partnership for the ongoing improvement of public education.
- **School Resource Allocation (SRA):** General Fund resources provided to the schools to be used to pay for day-to-day operating expenditures of the building.
- Sheltered Instruction Observation Protocol (SIOP): BVSD strives to maximize English learning throughout the school day with sheltered content instruction outside the CLDE classroom setting. SIOP is a model for teachers to follow for lesson planning & implementation that provides English learners with access to grade level content standards.

Special Education Advisory Committee (SEAC):

The mission of the Special Education Advisory Committee is to support and promote quality education services for children in an environment that accepts the diversity of each student as a valued member of a community of learners. Within this framework the committee sets and accomplishes goals relative to its mission. The committee also serves to assist, consult with and advise the Director of Special Education on all aspects of special education programming and services.

- **Special Education Program (SPED)**: A special curriculum consisting of courses and other provisions which are different from or provided in addition to those provided in the usual school program and are provided for exceptional pupils by specially qualified personnel.
- Special Reporting Element (SRE): Special Reporting Element is used in the Chart of Accounts to designate broad categories of expense. Also see: Co Curricular Activities, Other Education, Student Support Services, Instructional Staff Support, General Admin Support, School Admin Support, Central Support Services, Other Support Services.
- **Specific Ownership Tax:** An annual tax imposed upon each taxable item of certain classified personal property such as motor vehicles. The tax is computed by the County Clerk in accordance with state schedules applicable to each sale of personal property.
- **Stability Rate:** The stability rate is the percentage of students enrolled in the school as of February 1st who were also enrolled in the school during the previous October student count.
- State Fiscal Stabilization Fund -The State Fiscal Stabilization Fund (SFSF) program is a new one-time appropriation of \$53.6 billion under the American Recovery and Reinvestment Act of 2009 (ARRA). Of the amount appropriated, the U. S. Department of Education will award governors approximately \$48.6 billion by formula under the SFSF program in exchange for a commitment to advance essential education reforms to benefit students from early learning through post-secondary education, including: college- and career- ready standards and high-quality, valid and reliable assessments for all students; development and use of pre-K through post-secondary and career data systems; increasing

- teacher effectiveness and ensuring an equitable distribution of qualified teachers; and turning around the lowest-performing schools.
- **Strategy:** A statement which commits to a set of actions over time in order to gain an advantage or improvement.
- **Student Activity Fund:** A fund in which the district maintains central custody of monies held in trust for school sponsored organizations and activities.
- **Student Support Services:** Activities designed to assess and improve the well-being of students and to supplement the teaching process. Examples include counseling, health, occupational therapy, and social work.
- **Supplant:** To displace and substitute for another. For example, federal grant funds shall supplement but not supplant non-federal funds.
- **Supplies:** Consumable material used in the operation of the school district including fuel and natural gas, food, textbooks, paper, pencils, office supplies, custodial supplies, maintenance materials and software.
- **Support Services Programs:** Those activities which facilitate and enhance instruction. Support services include school-based and general administrative functions and centralized operations for the benefit of students, instructional staff, other staff, and the community.
- **TABOR Amendment (Emergency Reserve):**Section 20, Article X of the Colorado Constitution requires the set-aside of three percent of defined, planned spending that cannot be used to address revenue shortfalls, salary or fringe benefit increases, or other economic conditions.
- **Taxes, Ad Valorem:** Taxes levied on the assessed valuation of real and personal property which, within legal limits, determine the amount to be raised for school purposes. The district establishes the ad valorem taxes to be raised by certifying the mill levies to Boulder and Gilpin Counties. Each county treasurer collects property taxes and remits its share to the district. The County Treasurers receive payment for the service. See Treasurer's Fees.
- **Technology Fund (Fund 15):** This fund includes the expenditures for a four-year computer replacement program and provides training and software as needed. These funds were approved by voters in the November 1, 2005 election.
- **Tools of Inquiry for Equitable Schools (TIES):**This process provides a framework to address the district goals of achievement, equity and

organizational climate. It provides tools for inquiry and data-driven analysis.

Total Program: Annual funding, or Total Program Funding, is provided to school districts via the Public School Finance Act of 1994. Funding is based on an annual October 1 pupil count. For each pupil funded in the October 1 pupil count, the per pupil formula that calculates Total Program provides a base per-pupil amount plus additional money which recognizes district-to-district variances in (a) cost of living, (b) personnel costs, and (c) sizes. The Total Program amount also includes additional funding for atrisk pupils.

Transfers: Money that is taken from one fund under the control of the board of education and added to another fund under the board's control.

Transitional Colorado Assessment Program:

Required by the state, TCAP (replaced CSAP) tests are administered to all public school students in grades 3-10 in reading, writing, and mathematics, and grades 5, 8 and 10 in science. The revised standards in TCAP include early school readiness and postsecondary competencies, as well as reflect both workforce readiness and 21st century skills.

Transportation Fund (Fund 25): This fund accounts for all the transportation services of the Boulder Valley School District. It was developed after voters approved the 2005 Transportation mill levy in November 2005.

Treasurer's Fees: State law permits the Boulder and Gilpin County Treasurers to charge the district one-quarter of one percent of the property taxes collected.

Trust and Agency Funds (Funds 71, 72 & 73):

These funds are used to account for assets held by the district in a trustee capacity for individuals, private organizations, other governmental units and/or other funds. The Fiduciary Funds consist of the Expendable Trust Fund, Nonexpendable Trust Fund, and the Agency Fund.

Tuition Based Preschool Fund (Fund 23): This fund is provided to account for the monies associated with the operation of tuition-based preschool programs, including Community Montessori preschool and Colorado Preschool Program peers.

US Green Building Council (USGBC): The US Green Building Council is a community of leaders which envision an environmentally responsible, healthy, and prosperous environment that improves the quality of life.

Voice over Internet Protocol (VoIP): A telephone communications system that utilizes the internet rather than regular telephone lines.

W-9: IRS form to request a taxpayer identification number.

Weighted Index: The weighted index is a summary statistic of student achievement on CSAP tests. It is computed by averaging state-assigned values of 150 for advanced, 100 for proficient, 50 for partially proficient and -50 for unsatisfactory and not tested students.
