

Interactive Media Production

Discover the fundamental elements of effective visual communication including sound, video and motion graphics. Interactive Media Production is a program that is nationally accredited through Adobe, and an authorized testing center. Students have an opportunity to earn the Adobe Certified Associate (ACA) certification providing a valuable competitive edge, demonstrating basic, entry-level skills with Adobe digital media software.

What will you learn?

You will learn to create content for various media including mobile devices, websites and interactive television while developing a digital portfolio. Plan and develop projects using industry-standard Macintosh computers and Adobe products, with exceptional results.

What can you be certified in?

Adobe Dreamweaver, Adobe Illustrator, Adobe InDesign, Adobe Photoshop, and Adobe Premiere Pro
