Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Spring-Ford Area School District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Spring-Ford Area School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Spring-Ford Area School District as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

For the year ended June 30, 2018, the Spring-Ford Area School District adopted new accounting guidance, implementing Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 20, budgetary comparison information on pages 71 and 72, schedule of the school district's proportionate share of the PSERS net pension liability on page 73, schedule of the school district's PSERS pension contributions on page 74, schedule of the school district's proportionate share of the PSERS net other postemployment benefit plan liability on page 75, schedule of the school district's PSERS other postemployment benefit plan contributions on page 76 and schedule of changes in the total other postemployment benefit plan liability and related ratios on page 77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Spring-Ford Area School District's basic financial statements. The supplementary information listed in the table of contents and the schedule of expenditures of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Board of School Directors
Spring-Ford Area School District

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 21, 2019, on our consideration of the Spring-Ford Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Spring-Ford Area School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

This discussion and analysis of Spring-Ford Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the audited financial statements and the related disclosures to enhance their understanding of the District's financial performance.

Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments*, issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

The Spring-Ford Area School District (the "District") experienced significant increases in the costs during the 2017/2018 fiscal year in special education instruction, and health related benefits for our employees. Further, increases in the mandated costs for the Public School Employees Retirement System (PSERS) employer contribution continue to cause additional stress on the financial resources of the District.

The District completed the fiscal year 2017/2018 with liabilities and deferred inflows of resources of \$377,786,315 exceeding assets and deferred outflows of resources of \$316,451,950 by \$61,334,365. In comparison the total net position of the district decreased \$347,364 year-over-year.

- The governmental activities total assets increased by \$4,358,710 over prior year.
- The District's business-type activities, which are comprised of the Food Service Fund, showed a decrease of \$6,690 in total assets from prior year.
- At the end of the current fiscal year, the unassigned, undesignated fund balance of the General Fund was \$10,978,382 compared to the prior year of \$14,307,996, a decrease of \$3,329,614.
- The Board continues to review the fund balance of the District and strives to maintain the fund balance to within 5-8% of the total budgeted expenditures, or in future years will budget to replenish the fund balance, should it be necessary.

USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of two distinct series of financial statements: the District as a whole, and by fund.

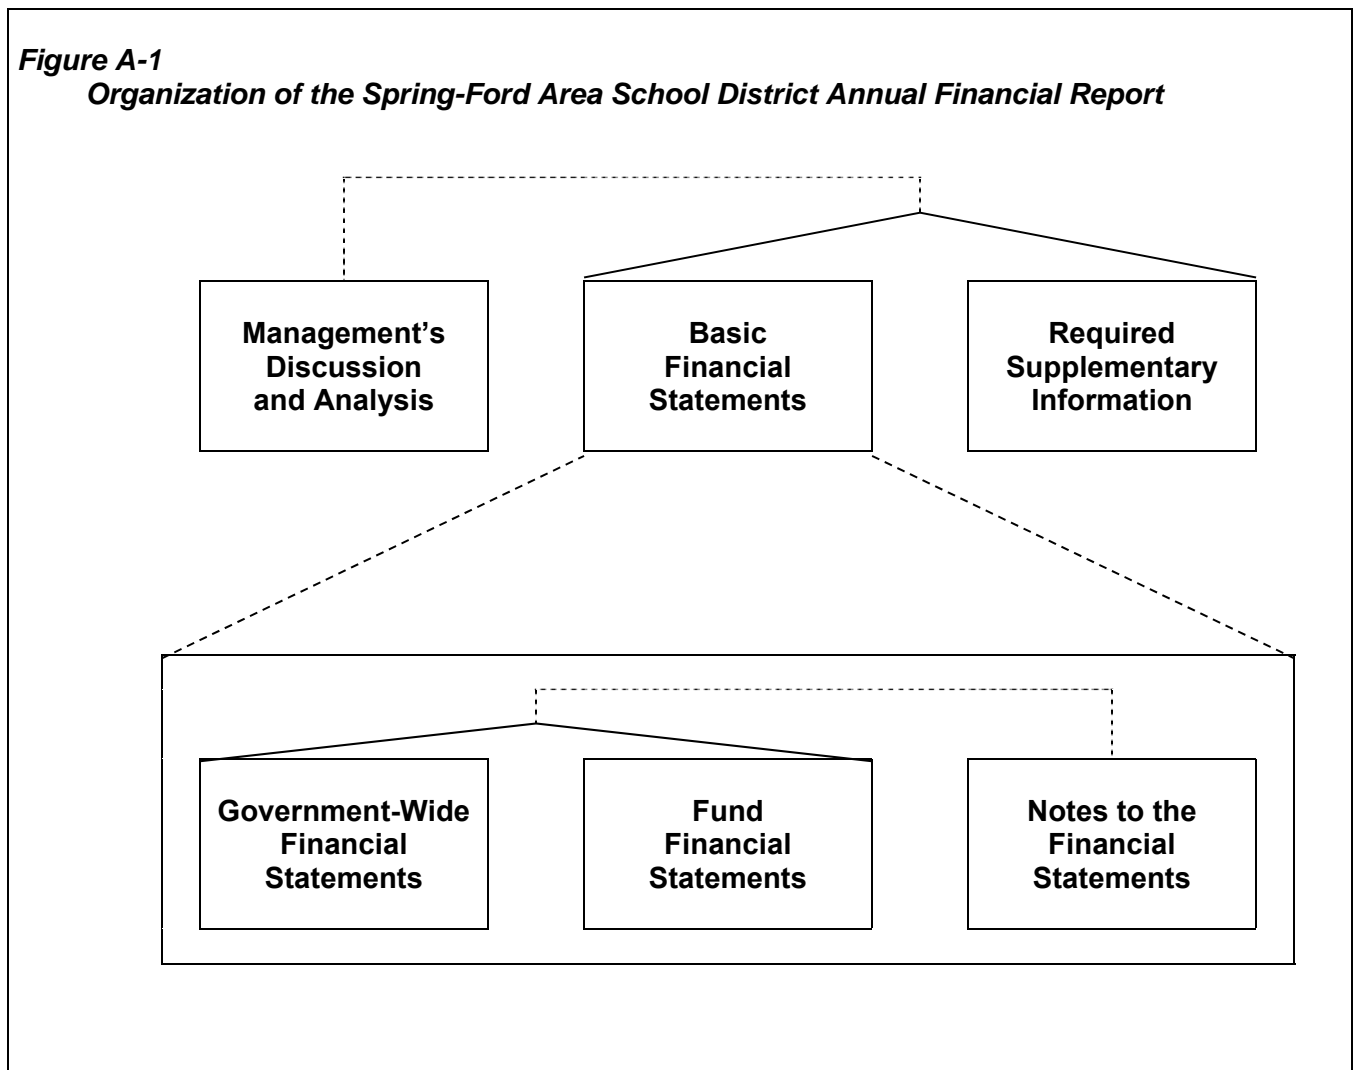

The first two statements are government-wide financial statements (District as a whole). These are the Condensed Statement of Net Position, and the Statement of Activities. The statements provide both long-term and short-term information about the District's overall financial status.

SPRING-FORD AREA SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

The remaining statements (by fund) focus on individual parts of the District's operations in more detail. The Governmental Funds statements focus on how general District services were financed in the short term, as well as what remains for future spending. The Proprietary Fund statements offer short and long term financial information about the activities the District operates as a business. For this District, this is the Food Service Fund. The Fiduciary Fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the financial section are arranged and relate to one another.

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year revenues and expenses are accounted for in the statement of activities regardless of when cash is received or disbursed.

The two government-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, is one way to measure the District's financial health or current position.

The government-wide financial statements of the District are divided into two categories:

- **Governmental Activities:** All of the District's basic services are included here, such as instruction, administration and community services. Revenues in the form of property taxes; state and federal subsidies; and state and federal grants finance most of these activities.
- **Business-Type Activities:** The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation. The food service operation is designed to be self-funding.

Fund Financial Statements

The District's fund financial statements, which begin on page 23, provide detailed information about the most significant individual funds. Some funds are required by state law and by debt requirements.

- **Governmental Funds:** Most of the District's activities are reported in Governmental Funds, which focus on the determination of financial position and change in financial position, not on income determination. Governmental Funds utilize the modified-accrual accounting method. This method of accounting measures cash and all other financial assets that can readily be converted to cash. The Governmental Funds statements provide a detailed short-term view of the District's operations. Governmental Funds information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and Governmental Funds is reconciled in the financial statements.
- **Proprietary Fund:** The Proprietary Fund is used to account for District activities that are similar to private sector business operations. Fee for service charges by the District to customers (external and internal customers), are reported in the Proprietary Fund. Currently the Food Service Fund is the District's sole Proprietary Fund.
- **Fiduciary Funds:** The District is the trustee for some Scholarship and Agency Funds. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position on page 32. These activities are excluded from the District's other financial statements because the District cannot use these assets to finance its operations.

Table A-3 presents the Districts Statement of Changes in Net Position. This schedule uses the financial information from the Statement of Activities found on page 22. The presentation of Table A-3 is similar to an income statement of a private industry organization.

Total revenues from governmental and Business type activities were \$153,921,669 for the fiscal year ended June 30, 2018, versus \$151,027,286 for the prior fiscal year. The main contributors to the increase were local property taxes, earned income tax revenue, operating grants and contributions and investment earnings.

Total expenditures for the current fiscal year were \$154,269,033 versus \$142,685,468 for the prior fiscal year. The major contributors to the increase in expenditures are related to increased costs around instruction and instructional support services.

Overall the District's net position decreased \$347,364 during the current fiscal year.

THE DISTRICT FUNDS

At June 30, 2018, the District's Governmental Funds reported a combined total fund balance of \$53,741,665.

General Fund

The District budgeted for significant increases in health benefit costs, costs for anticipated needs of special education and future retirement and debt service cost. These areas are a challenge for the District in budgeting. The District is self-insured for health benefits for dental and prescription insurances. This category can fluctuate annually based upon the health of the individual employees within the District. Special education costs are dependent upon the type of student enrolled in the District each year. Enrollment and/or withdrawal of severely handicapped students can cause this expenditure to fluctuate. While the District does prepare a budget with a modest reserve each year for unexpected emergencies, this expenditure is dependent upon actual experience during the fiscal year.

Capital Project Funds

Capital Reserve Fund - In order to fund projects without the need of additional borrowing issues, the District has established this fund. In the past, the tax payment settlement from Exelon was transferred to the Capital Reserve. This year, the fund was used for some capital projects.

District Wide Capital Projects Fund - The District established this fund in prior years for debt funded district-wide capital projects.

Construction 2018 Fund - The District established this fund in the current year for new construction capital projects.

Debt Service Fund

The increase was due to interest earned on investments.

General Fund Budget

During the fiscal year, the Board of School Directors (the "Board") authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year. A statement showing the District's original and final budget amounts compared with amounts actually paid and received is provided on page 65.

The District applies for federal, state and local grants, and these grants cannot always be anticipated in the budgetary process.

Budgeted expenditures and other financing uses also decreased during the fiscal year as more accurate data became available. Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budget reserve category to specific expenditure areas.

The Budgetary Reserve is an amount used for unexpected expenditures throughout the fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2018, the District had \$172,822,684 invested in a broad range of capital assets net of accumulated depreciation, including land, buildings, furniture and equipment. This amount represents a net increase (including additions, deletions and depreciation) of \$377,480 or 0.2% from last year.

Table A-7 reflects the capital assets of both the governmental activities and the business-type activities of the District.

Pottsgrove School District and Upper Perkiomen School District are the other two members of the Western Center. Spring-Ford's remaining portion of the debt principal obligation is estimated to be \$11,589,270.

SPRING-FORD AREA SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

In June 2018, the District authorized the issuance of General Obligation Bonds, Series of 2018, in the amount of \$7,195,000. The bonds were issued to plan, design, construct, furnish, and equip the renovations and expansion of certain areas of the Spring-Ford High School, and to undertake various other capital improvement projects for the benefit of the School District and to pay the costs and expenses of issuing the Bonds.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET 2018-2019 AND RATES

In April 2018, Moody’s Investor Services held the district’s general obligation rating steady at Aa1 with regard to the \$7.195 million in Government Obligation Bonds, Series of 2018. Moody’s cited that the Aa1 underlying rating reflects the District’s continued growth in the District’s affluent and residential tax base as well as a multi-year trend of improving finances. Further, the district’s strong financial operations have produced healthy reserve and liquidity balance. Moody’s acknowledged the District’s prudent budgeting and strategic planning and expects the District’s financial performance to remain strong.

The District expects the tax base will continue to experience moderate growth. There are numerous housing units in construction or planned in the future, as well as significant anticipated commercial development. The new assessment increases during 2017/2018 from property growth (\$52.4 million) have affected the tax base, thus generating approximately \$1.4 million in new gross tax dollars.

The District has developed many fiscal strategic planning to meet future needs of the District. These include the following: Capital Projects 5 Year Plan; Retirement Past and Future; Debt Budget and Actual; Summary of Debt Principal and Interest Requirement; Projects Financed by Bond Issues; and Future Borrowing Capacity. Because of these planning models, a Debt Service Fund account (\$7.9 million) and retirement account (\$4.0 million) are maintained and currently utilized to meet future financing needs.

The budget for the 2018/2019 fiscal year is in the amount of \$164,444,650, representing an increase of 4.2% over prior year. The District increased property taxes 2.35% to 26.8599 mills. The state cap index was 2.4% without allowable exceptions.

The comparison of revenue and expenditure categories is as follows:

FUTURE ECONOMIC FACTORS

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future:

Act 1

The Taxpayer Relief Act Special Session Act 1 of 2006 ("Act 1") is complex legislation designed to provide property tax relief for home owners. In doing so Act 1 sets aside tax revenue from the gaming industry in Pennsylvania to offset a portion of property taxes levied by school districts in the form of homestead and/or farmstead discounts. However, Act 1 also places restrictions on the amount a school district can raise property taxes to meet its expenses. Each year the state sets the maximum amount a school district may increase its property taxes referred to as the "Index". There are currently three exceptions whereby a school district may increase the property tax greater than the Index. However, tax increases above the Index are permitted, but only through voter approval. Unlike its predecessors, Act 1 is mandatory. Act 1 may have many collateral consequences for school districts, including negative impacts to education programs, possible bond downgrade and related borrowing expense, and many diverse required actions.

Collective Bargaining Contract

The Board and the Spring-Ford Education Association most recent collective bargaining agreement that was ratified on August 28, 2017. This contract will expire on June 30, 2021.

Assessment

The recent downturn in the economy has resulted in increased assessment appeals in the District. The District continues to work closely with its solicitor and appraisal companies to settle assessment appeals in the best interest of the District. While new commercial growth will help offset losses, the District must be very cautious with forecasting revenue to meet expenses. The District has hired an appraiser and the District solicitor to represent the interest of the District in resolving these disputes and hopefully arriving at a mutually agreed settlement. The District does have reserve accounts to assist with major negative losses until the local economy improves.

Self-Funding Insurances and Insurance Plans

Beginning in 2010/11, the District moved to self-funded health insurance and vision. Previously, the District's health and vision coverage was fully insured with Independence Blue Cross. The District was already self-funded for its prescription and dental plans. The District continues to work with the Chester County Intermediate Unit with The Reschini Group as the medical consultant.

SPRING-FORD AREA SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
YEAR ENDED JUNE 30, 2018

The District continually reviews its insurance plans to control escalating health care costs. The District currently offers different levels of Personal Choice plans whereby participants make higher contributions for the more expensive plans. Further, to limit or hedge the exposures of self-insurance, the District has purchased stop-loss insurance for potential high-dollar claims. As a result of self-insuring, the District has incurred year-over-year premium increases of less than 8% for the past three years.

Act 32- County-Wide EIT Collection

PA Act 32 of 2009 amends the Local Tax Enabling Act (LTEA Act 5111 of 1965) to provide for consolidation of the collection of local earned income tax (EIT) at the county level starting January 1, 2012. The act has two overarching purposes: To establish state-wide uniformity in tax rules, procedures and forms; to provide greater tax collection efficiency by reducing the large number of tax collectors; and to consolidate local EIT collection at the county level. The District is involved in the TCC (Tax Collection Committee) to form a tax collection bureau and hire a tax collection agency to collect EIT for all school districts and municipalities within the county. The TCC group has appointed Berkheimer as the tax collection agency with the option of districts/municipalities to select an early implementation of EIT and LST (Local Service Taxes) beginning January 1, 2011.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2018

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS FORWARD \$ 2,643,289

Capital outlays are reported in Governmental Funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$5,701,759) exceeds depreciation (\$5,309,113) in the current period. 392,646

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the Governmental Funds. Unavailable tax revenues increased by this amount this year. (32,827)

The issuance of long-term debt provides current financial resources to Governmental Funds, while the repayment of the principal of long-term debt consumes the current financial resources of Governmental Funds. Neither transaction, however, has any effect on net position. Also, Governmental Funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. 3,022,673

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in Governmental Funds:

- Accrued interest not reflected in Governmental Funds 89,375
- Pension plan expense (5,483,000)

In the statement of activities, certain operating expenses--compensated absences (vacations and sick leave)--are measured by the amounts earned during the year. In the Governmental Funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). (839,107)

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Spring-Ford Area School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

School District

The Spring-Ford Area School District is located in Royersford, Pennsylvania. The District tax base consists of Limerick and Upper Providence Townships and Royersford and Spring City Boroughs.

The District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

Board of School Directors

The District is governed by a board of nine School Directors who are residents of the District and who are elected every two years, on a staggered basis, for a four-year term. The Board of School Directors has the power and duty to establish, equip, furnish and maintain a sufficient number of elementary, secondary and other schools necessary to educate every person residing in such district between the ages of 6 and 21 years who may attend.

In order to establish, enlarge, equip, furnish, operate and maintain any schools herein provided, or pay any school indebtedness which the District is required to pay, or pay any indebtedness that may at any time hereafter be created by the District, the Board of School Directors is vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual state appropriation, and is vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity, shall administer the District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision and operation of the District.

The Director of Business and Fiscal Affairs, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the District. In this capacity, he or she shall be responsible to ensure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the District. The Director of Business and Fiscal Affairs is directly responsible to the Superintendent.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity

The accompanying basic financial statements comply with the provisions of GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, in that the financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (1) the District's ability to impose its will over a component unit or (2) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. In addition, component units can be organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. This report presents the activities of the Spring-Ford Area School District. The District is not a component unit of another reporting entity nor does it have any component units.

The tax collectors are elected officers who collect taxes on behalf of the county, townships, boroughs and the District. The District regards the tax collectors' offices as separate entities and, therefore, does not account for their activity in the financial statements.

Basis of Presentation and Accounting

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for Fiduciary Funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the Proprietary Fund financial statements but differs from the manner in which Governmental Funds financial statements are prepared. Governmental Funds financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for Governmental Funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of Governmental and Proprietary Funds financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column (Other Governmental Funds). Fiduciary Funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due. The financial statements for Governmental Funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The Proprietary Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The Proprietary Funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the Proprietary Funds' principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are food service charges. Operating expenses of the Enterprise Fund include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds are reported using the economic resources measurement focus.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds

General Fund - The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available for any purpose provided it is expended or transferred according to the general laws of Pennsylvania.

Capital Project Funds - These funds are used to account for financial resources to be used for the acquisition and construction of capital equipment and improvements in accordance with the applicable general obligation bond agreement. The District's Capital Project Funds are presented below.

The *Capital Reserve Fund* was established to set aside funds for capital expenses in the future.

The *District-Wide Capital Projects Fund* was established with proceeds from the Series A of 2007 General Obligation Bonds. The purpose of this fund is to finance certain special capital projects within the District.

The *Construction 2018 Fund* was established with proceeds from the Series of 2018 General Obligation Bonds. The purpose of this fund is to finance certain special capital projects within the District.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

Proprietary Funds

Enterprise Fund - The Enterprise Fund (Food Service Fund) is used to account for operations (1) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Internal Service Fund - The Internal Service Fund is used to account for the financing of goods or services provided by an activity to other departments, funds, or component units of the District on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, the financial statements of the Internal Service Fund are consolidated into the governmental activities column when presented in the government-wide financial statements.

Self-Insurance Fund - The Self-Insurance Fund is used to account for all financial transactions related to the administration of the District's self-insured health plans.

Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Trust Funds are used to account for the resources of the various scholarships whose sole purpose is to provide annual scholarships to particular students as prescribed by donor stipulations.

Agency Funds account for the assets held as an agent for the various student activities and retirees escrow.

Fair Value Measurement

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are those that lack significant observable inputs.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 2 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

Statutes authorize the District to invest in: 1) obligations, participations and other instruments of any Federal agency, 2) repurchase agreements with respect to U.S. Treasury bills or obligations, 3) negotiable certificates of deposit, 4) bankers' acceptances, 5) commercial paper, 6) shares of an investment company registered under the Investment Company Act of 1940 whose shares are registered under the Securities Act of 1933, and 7) savings or demand deposits. The specific conditions under which the District may invest in these categories are detailed in Pennsylvania Act No. 53 of 1973, as amended by Pennsylvania Act No. 10 of 2016. Investments are stated at fair value.

Pennsylvania Local Government Investment Trust Funds are invested in accordance with Section 440.1 of the School Code. Each school district owns a pro rata share of each investment or deposit which is held in the name of the fund.

Under Act No. 72, enacted by the General Assembly of the Commonwealth of Pennsylvania, the funds deposited with the various banks are permitted to be secured on a pooled basis with all other public funds which the banking institution has on deposit. These may be bonds of the United States, any state of the United States, or bonds of any political subdivision of Pennsylvania or the general state authority or their authorities created by the General Assembly of the Commonwealth of Pennsylvania, or insured with the Federal Deposit Insurance Corporation. The market value of such bonds pledged must equal 120% of the funds deposited. The security pledged by the various depositories utilized during the year and at June 30, 2018, was in excess of the minimum requirements just described.

The District has adopted GASB Statements No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, No. 72, *Fair Value Measurement and Application* and No. 79 *Certain External Investment Pools and Pool Participants*. In accordance with these Statements, investments in marketable securities with readily determinable fair value and all investments in debt securities are reported at their fair values. Investments in qualifying external investment pools are reported at amortized cost basis.

Short-Term Interfund Receivables/Payables

During the course of operations, transactions may occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the Governmental Funds balance sheet. Short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the statement of net position, except for amounts due between governmental and business-type activities, which, when present, are shown as internal balances.

Allowance for Doubtful Accounts

The District believes that all receivables are collectible; therefore, an allowance for doubtful accounts is not needed.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories and Prepaid Items

Inventory of food and milk in the Food Service Fund consists of supplies purchased and donated foods received from the federal government. Donated foods are valued at their fair market value in accordance with the *Manual of Accounting for Pennsylvania School Systems - Food Service Fund*. Food and supplies are carried at cost using the first-in, first-out method. Inventories of Governmental Funds are recorded as expenditures when consumed rather than when purchased. Inventories on government-wide financial statements are presented at the lower of cost or market on a first-in, first-out method and are expensed when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant, equipment and construction in progress, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The District defines a capital asset as an asset with an initial, individual cost equal to or greater than \$5,000 or purchased with debt proceeds and must also have an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Interest incurred during the construction of capital assets utilized by the Enterprise Fund is also capitalized.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Property, plant and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Site improvements	20-50
Buildings and building improvements	20-50
Furniture and equipment	5-20
Vehicles	8

Long-Term Obligations

In the government-wide financial statements and Proprietary Fund Type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund Type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable premium or discount. Bond issuance costs are recognized during the period in which they were incurred.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, Governmental Funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences

The District accounts for compensated absences by complying with GASB Statement No. 16, *Accounting for Compensated Absences*. This statement requires a liability be reported for certain compensated absences as the benefits are earned by employees instead of when they are paid.

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For the Governmental Funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In the Enterprise Fund, the entire amount of compensated absences is reported as a fund liability.

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Deferred Outflows/Inflows of Resources

The District previously implemented GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District's deferred outflows on the statement on net position consist of deferred charges on debt refundings, net of accumulated amortization, the deferred outflow related to OPEB activity and the deferred outflow related to pension activity. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition prices. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows related to OPEB activity and the deferred outflows related to pension activity, are reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred outflow related to OPEB activity is the result of changes in the School District's proportionate share of the total plan from year to year, the difference between projected and actual investment earnings and actual contributions subsequent to the measurement date. The deferred outflow related to pension activity is the result of changes in the School District's proportionate share of the total plan from year to year, the difference between expected and actual experience, the difference between projected and actual investment earnings, the difference between the actual employer contributions and the School District's proportionate share of total contributions, actual contributions subsequent to the measurement date and changes in assumptions.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items, which arise only under a modified accrual basis of accounting that qualify for reporting in this category. The first item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. The deferred inflows related to OPEB activity and the deferred inflows related to pension activity, are reported in the government-wide statement of net position and the proprietary fund statement of net position. The deferred inflow related to OPEB activity is the result of differences between employer contributions and proportionate share of total contributions and changes in assumptions. The deferred inflow related to pension activity is the result of differences between expected and actual experience and changes in proportion. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose for both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and Proprietary Fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance and GASB Statement No. 54

The District previously implemented GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on the District's fund balances more transparent.

The following classifications describe the relative strength of the spending constraints:

- ***Nonspendable*** - Amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints. Fund balance types of this category are prepaid expenses.
- ***Restricted*** - Amounts that can be spent only for specific purposes stipulated by external resource providers or through enabling legislation. Fund Balance types in this category include amounts for capital projects, self-insured costs and special education costs.
- ***Committed*** - Amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and do not lapse at year-end. Fund balance of this type is for the future retirement rate increase. Since the District is required to contribute to the retirement plan, the retirement rate commitment has been set up by the Board of School Directors to provide for any fluctuations to the rate increases.
- ***Assigned*** - Amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the District Manager and/or District Finance Director. Fund balance of this type includes amounts for subsequent year's budget, contractual or legal settlement commitments, self-insured costs and debt service.
- ***Unassigned*** - Amounts not contained in other classifications. Unassigned amounts are technically available for any purpose. It is the policy of the District to retain a minimum 5% to 8% of the subsequent year operating budget in the unassigned category.

The Board of School Directors establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. Assigned fund balance is intended to be used by the government for specific purposes but does not meet the criteria to be classified as restricted or committed. The details of the fund balances are included in the Governmental Funds balance sheet (page 23). Restricted funds are used first as appropriate, followed by committed resources and then assigned resources, to the extent that expenditure authority has been budgeted by the Board of School Directors. The District does reserve the right to first reduce unassigned fund balance to defer the use of these other classified funds. In the event that unassigned fund balance becomes zero, then assigned and committed fund balances are used in that order.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE B - CASH AND INVESTMENTS

Cash

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2018, \$52,886,525 of the District's \$66,726,032 bank balance is uninsured and collateralized with securities held by the pledging bank's trust department not in the District's name, \$688,783 was insured by the FDIC and \$13,150,724 is uninsured and uncollateralized. The cash deposits totaling \$13,150,724 of the School District are in the Pennsylvania School District Liquid Asset Fund (PSDLAF) and Pennsylvania Local Government Investment Trust (PLGIT). Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PSDLAF and PLGIT act like money market mutual funds in that its objective is to maintain a stable net asset value of \$1 per share, is rated by a nationally recognized statistical rating organization and is subject to an independent annual audit.

Interest Rate Risk - The District's investment policy limits investment maturities in accordance with the Commonwealth of Pennsylvania School Code as a means of managing its exposure to fair value losses arising from increasing interest rates.

Investments

As of June 30, 2018, the District had the following investments and maturities:

<u>Investment Type</u>	<u>Amortized Cost</u>	<u>Fair Value</u>	<u>Maturities Less Than One Year</u>
State investment pools	\$ 11,056,334	\$ -	\$ 11,056,334

A portion of the District's investments is in the PSDLAF and PLGIT programs, of which are funds similar to mutual funds. GASB Statement No. 3, Paragraph 69, provides that certain types of cash and investments, such as cash investments in a State Treasurer's investment pool or mutual fund, cannot be assigned a credit risk category because the government does not own specific securities. Therefore, the PSDLAF and PLGIT cash investments included in these statements will not be assigned a credit risk category. The carrying amount of these investments at June 30, 2018, is \$11,056,334. These assets maintain a stable net asset value of \$1 per share. PSDLAF is not SEC-registered. All investments are monitored weekly by Standard & Poor's and are subject to an independent audit on an annual basis.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE B - CASH AND INVESTMENTS (Continued)

Investments held with qualifying external state investment pools are valued at amortized cost in accordance with GASB Statement No. 79. The District had \$5,944,614 invested in a PLGIT I-Class account at June 30, 2018. This investment limits redemptions or exchanges to two per calendar month. The District had \$1,967,000 invested in PLGIT CD programs, which generally must be held to maturity. The District had \$2,000,000 invested in PSDLAF flex pools and \$1,144,720 in PA Invest which are not subject to withdrawal restrictions.

Fair Value Measurement

The School District did not have any recurring fair value measurements as of June 30, 2018.

NOTE C - TAXES - REAL ESTATE AND OTHER

The School Board is authorized by state law to levy property taxes for District operations, capital improvements and debt service. Property taxes are based on assessed valuations of all taxable real property within the District. Taxable real property was assessed at \$3,937,511,811. The tax rate for the year was \$2.624 per \$100 of assessed valuation. Current tax collections for the District were approximately 97% of the total levy.

Taxes are levied on July 1 and payable in the following periods:

Discount period	July 1 to August 31 - 2% of gross levy
Face period	September 1 to October 31
Penalty period	October 31 to collection - 10% of gross levy
Lien date	January 15

District taxes are billed and collected by the local elected tax collector. Property taxes attach as an enforceable lien on property as of July 1.

NOTE D - RECEIVABLES

Receivables at June 30, 2018, consisted of taxes, other revenue and intergovernmental grants and entitlements. The real estate taxes receivable account represents real estate transfer taxes and prior year uncollected tax levies. All receivables are considered fully collectible due to the ability to lien property for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds.

NOTE E - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2018, is as follows:

Due to/from Other Funds

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Food Service Fund	\$ 622,750
General Fund	Debt Service Fund	486,000
Self-Insurance Fund	General Fund	8,630,517
Capital Project Funds	General Fund	<u>2,330,398</u>
		<u>\$ 12,069,665</u>

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." The amounts between the Debt Service Fund and the General Fund are interfund borrowings to pay for principal and interest due on outstanding bonds and notes payable. The amounts between the General Fund and the Food Service Fund are for payroll. The amounts between the General Fund and the Capital Projects Fund are for capital projects. The amounts between the General Fund and Self-Insurance Fund are for health benefits.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE H - CHANGES IN LONG-TERM LIABILITIES (Continued)

Funds to repay the outstanding bonds will be provided from future taxes or other general revenues in the General Fund. Total interest expense paid during the year ended June 30, 2018, was \$3,571,925. Interest costs incurred were charged to expenditures in the General Fund.

Vested employee benefits will be liquidated by Governmental and Proprietary Funds.

The Debt Service Fund has been used to liquidate other long-term liabilities in prior years.

In June 2018, the District authorized the issuance of General Obligation Bonds, Series of 2018, in the amount of \$7,195,000. The bonds were issued for the purpose of planning, designing, constructing, furnishing, and equipping the renovations and expansion of certain areas of the Spring-Ford High School, and to undertake various other capital improvement projects for the benefit of the School District.

NOTE I - DEFEASED DEBT

In the current and prior years, certain bonds were defeased in substance by placing an amount in irrevocable trusts to provide for all future debt service payments on the refunded bonds. Accordingly, the trust account assets and the liability for the in-substance defeased bonds are not included in the District's financial statements.

As of June 30, 2018, the District has defeased debt outstanding of \$58,910,000.

NOTE K - PENSION PLAN

Summary of Significant Accounting Policies

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information About the Pension Plan

Plan Description - PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided - PSERS provides retirement, disability and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least one year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum three years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending on membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

NOTE K - PENSION PLAN (Continued)

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Members Contributions

- Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with services rendered on or after January 1, 2002.
- Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and the Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The School District's contractually required contribution rate for the fiscal year ended June 30, 2017, was 29.20% of covered payroll, actuarially determined as an amount that, when combined with employee contributions is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the plan from the School District were \$17,830,000 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the School District reported a liability of \$230,101,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2016 to June 30, 2017. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the School District's proportion was 0.4659%, which was an increase of 0.0477% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2018, the School District recognized pension expense of \$26,030,000 . At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE K - PENSION PLAN (Continued)

\$20,446,000 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the new pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2018	\$ 5,105,000	\$ 94,000
2019	7,708,000	142,000

2021	<u>3,901,000</u>	<u>72,000</u>
	<u>\$ 21,573,000</u>	<u>\$ 398,000</u>

Actuarial Assumptions - The total pension liability as of June 30, 2017, was determined by rolling forward the System’s total pension liability as of the June 30, 2016 actuarial valuation to June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - entry age normal - level % of pay
- Investment return - 7.25%, includes inflation at 2.75%
- Salary growth - effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS’ experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The plan’s policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2017.

Discount Rate - The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

NOTE L - COMPENSATED ABSENCES

Sick Pay

Under the District's administrative regulations, professional, administrators and eligible support personnel accumulate unused sick days from year to year. These accumulated sick days are nonvesting during the employee's tenure.

Upon retirement, employees are entitled to payment of unused sick days as follows: All employees may elect either (1) a lump sum retirement bonus of \$11 to \$32 per unused sick day depending on their classification or (2) employer contributions to continuation of employee elected health insurance benefits based on unused accumulated sick days times a rate per day as follows:

<u>Unused Sick Days</u>	<u>Professional (50% of substitute rate)</u>	<u>Administrative</u>	<u>Nurses, Aides, Maintenance and Custodial Workers</u>
0 to 50	\$75 per day	\$21 per day	\$18 per day
51 to 100	\$75 per day	\$23 per day	\$20 per day
101 to 150	\$75 per day	\$26 per day	\$22 per day
151 to 200	\$75 per day	\$29 per day	\$24 per day
201 or more	\$75 per day	\$32 per day	\$27 per day

Benefits payable under option (2) of this plan shall be paid directly to the insurance carrier until the employee reaches age 65. To qualify for either of these options, the employee must be eligible for super annuation, withdrawal, or disability pension from PSERS and must be retiring from a full-time position.

The District maintains records of accumulated sick days earned by employees who are eligible to retire. As a result, liabilities of \$2,581,353, including FICA tax (net of reimbursement), have been established as a long-term liability in the governmental activities column of the government-wide statement of net position and a long-term liability of \$58,955, including FICA tax (net of reimbursement), is recorded in the Food Service Fund and in the business-type activities column of the government-wide statement of net position, as required by GASB Statement No. 16. In addition, a liability of \$107,983, including FICA tax (net of reimbursement), has been set up in the General Fund for the portion that will use currently available financial resources. This amount is also shown as a current liability in the governmental activities column of the government-wide statement of net position.

Vacation Leave

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No. 16, the portion of vacation pay earned at June 30, 2018, that will use currently available financial resources is \$793,568 including FICA tax and retirement contributions (net of reimbursement), which has been recorded in the General Fund and as a current liability in the governmental activities column of the government-wide statement of net position. The remaining vacation pay earned at June 30, 2018, of \$281,633 including FICA tax and retirement contributions (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net position.

NOTE M - OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN

Plan Description

The District provides medical and prescription drug insurance benefits to eligible retired employees, spouses and dependents through a single-employer defined benefit plan. The benefits, benefits level, employee contribution and employer contribution are administered by District Supervisors and can be amended by the District through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a stand-alone financial report. The activity of the plan is reported in the District's General Fund.

Plan Membership - At June 30, 2017, plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	23
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>949</u>
	<u><u>972</u></u>

Funding Policy and Funding Status

The plan is an unfunded plan with no assets accumulated in a trust. Contributions to the plan are equal to benefit payments. For the year ending June 30, 2018 benefit payments paid as they came due were \$104,776.

Benefits Provided

The plan provides the following benefits:

All administrators who have at least 15 years of service with the School District and at least 25 years of PSERS service shall be eligible for benefits under the plan. Benefits include medical and prescription drug. The School District pays \$100 of the premium per month, with the member paying the remainder of the cost. Member's spouse and family are included as dependents. Coverage lasts up to 7 years.

All teachers who have at least 15 years of service with the School District and at least 25 years of PSERS service shall be eligible for benefits under the plan. Benefits include medical and prescription drug. The School District pays \$40 of the premium per month, with the member paying the remainder of the cost. Member's spouse and family are included as dependents. Coverage lasts up to 7 years.

All Administrators, Teachers, and Support Staff who have reached PSERS retirement eligibility or PSERS disability eligibility shall be eligible for benefits under the plan. Benefits include medical and prescription drug. The member must pay the full premium. Member's spouse and family are included as dependents. Member is covered until member reaches Medicare age, and spouse is covered until later of spouse reaches Medicare age or Member reaches Medicare age.

NOTE M - OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN (Continued)

Assumptions

The following assumptions and actuarial methods and calculation were used:

Interest Rate – 3.13%, based on S&P Municipal Bond 20 Year High Grade Rate Index at July 1, 2017.

Salary - An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, salary increases are composed of a 2.5% cost of living adjustment, 1% real wage growth, and for teachers and administrators a merit increase which varies from 2.75% to 0%.

Health Care Cost Trend Rate - 6.0% in 2017, and 5.5% in 2018 through 2023. Rates gradually decrease from 5.4% in 2024 to 3.9% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

Withdrawal - Rates of withdrawal vary by age, gender and years of service. Sample rates for employees with more than 10 years of service are shown below. Rates for new employees start at 22.9% for both men and women and decrease with age and service.

<u>Age</u>	<u>Male Rate</u>	<u>Female Rate</u>	<u>Age</u>	<u>Male Rate</u>	<u>Female Rate</u>
25	2.57%	5.02%	45	1.37%	1.65%
30	2.57%	4.02%	50	1.92%	2.06%
35	1.50%	2.85%	55	3.38%	3.11%
40	1.34%	1.60%	60	5.57%	6.40%

Mortality - Separate rates are assumed preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into the table are rates projected generationally by the Buck Modified 2016 projection scale to reflect mortality improvement.

Disability - No disability was assumed.

Retirement - Assumed retirement rates are based on PSERS plan experience and vary by age, service and gender.

Percent of Eligible Retirees Electing Coverage in Plan – 70% of Teachers and Administrators and 20% of the Support Staff are assumed to elect coverage.

Continuation of Benefits Past Medicare Age – Retirees are assumed to not continue coverage past Medicare age.

SPRING-FORD AREA SCHOOL DISTRICT

NOTE M - OTHER POSTEMPLOYMENT BENEFITS – SINGLE EMPLOYER PLAN (Continued)

Percent Married at Retirement - 30% of employees are assumed to be married and have a spouse covered by the plan at retirement. Non-spouse dependents are deemed to be immaterial.

Spouse Age - Wives are assumed to be two years younger than their husbands.

Retiree Contributions - Retiree Contributions are assumed to increase at the same rate as the Health Care Cost Trend Rate.

Actuarial Value of Assets - Equal to the Market Value of Assets.

Actuarial Cost Method - Entry Age Normal - Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of Assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

Changes in Assumptions - In the 2017 actuarial valuation, the discount rate changed from 2.49% to 3.13%. The trend assumption was updated. Assumptions for salary, mortality, withdrawal and retirement were updated based on new PSERS assumptions.

General Information about the Health Insurance Premium Assistance Program

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2017 there were no assumed future benefit increases to participating eligible retirees.

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2017, there were no assumed future benefit increases to participating eligible retirees

Contributions

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2017 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$509,000 for the year ended June 30, 2017.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the District reported a liability of \$9,492,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2016 to June 30, 2017. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the District's proportion was 0.4659% percent, which was an increase of 0.0477% from its proportion measured as of June 30, 2017.

\$535,000 was reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending June 30,</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
2018	\$ 73,000	\$ 2,000
2019	73,000	2,000
2020	74,000	1,000

2022	71,000	1,000
Thereafter	<u>73,000</u>	<u>1,000</u>
	<u>\$ 436,000</u>	<u>\$ 8,000</u>

Actuarial Assumptions

The Total OPEB Liability as of June 30, 2017, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2016 to June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 3.13% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 Eligible retirees will elect to participate Pre age 65 at 50%.
 Eligible retirees will elect to participate Post age 65 at 70%.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2015 determined the employer contribution rate for fiscal year 2017.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE N - OTHER POSTEMPLOYMENT BENEFITS - PSERS (Continued)

- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	76.4%	0.6%
Fixed income	23.6%	1.5%
	<u>100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2017.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 3.13%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 3.13% which represents the S&P 20 year Municipal Bond Rate at June 30, 2017, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2017, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2016, 91,797 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2016, 1,354 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2017, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease	Current Trend Rate	1% Increase
System net OPEB liability	\$ <u>9,490,000</u>	\$ <u>9,492,000</u>	\$ <u>9,494,000</u>

Sensitivity of the District's proportionate share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 3.13%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (2.13%) or 1-percentage-point higher (4.13%) than the current rate:

	1% Decrease 2.13%	Current Discount Rate 3.13%	1% Increase 4.13%
School District's proportionate share of the net OPEB liability	\$ <u>10,790,000</u>	\$ <u>9,492,000</u>	\$ <u>8,414,000</u>

NOTE O - COMMITMENTS AND CONTINGENCIES

There are a number of tax assessment appeals in the Court of Common Pleas of Montgomery County from the decisions of the Board of Assessment Appeals. Legal counsel for the District cannot give an opinion on the outcome of these appeals nor can they reasonably estimate the financial impact.

As of June 30, 2018, several suits and claims were in progress dealing with various subject matters. In these actions, indicated amounts are either not material or management is of the opinion that insurance coverage is adequate to cover the applicable claim. Management believes no adverse financial decisions of a material amount against the District would result from these legal proceedings.

As of June 30, 2018, the District had commitments of approximately \$8,000,000 for construction and acquisition of property and equipment related to the High School Expansion Project.

NOTE P - OPERATING LEASES

The District has entered into various lease obligations primarily for rental of computer equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the year ended June 30, 2018, were \$996,653.

Future minimum lease payments for these leases are as follows:

<u>Year Ending</u> <u>June 30,</u>	
2019	\$ 401,494
2020	<u>190,891</u>
	<u>\$ 592,385</u>

NOTE Q - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all major programs except for worker's compensation for which the District retains risk of loss. For insured programs, there were no significant reductions in insurance coverages for the 2017-2018 year. Settlement amounts have not exceeded insurance coverage for the current year or the four prior years.

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2018

NOTE Q - RISK MANAGEMENT (Continued)

The District is a member of the School Districts Insurance Consortium (SDIC) for worker's compensation coverage. SDIC is comprised of 78 member school districts which jointly self-assume their worker's compensation liabilities. Even though the member school districts contribute to SDIC's insurance fund, they remain individually liable for their own worker's compensation claims. The members of SDIC are required to participate in any deficiencies of SDIC and are subject to periodic assessments, as required. At June 30, 2018, there was no unfunded liability.

The District is self-insured for its medical, dental and hospitalization benefits and prescription drug benefits. The monthly premium is revised annually in April for the upcoming fiscal year beginning July 1 and is based upon actual cost plus basis per third-party administrator.

NOTE R - JOINT VENTURE

The District is a participating member of the Western Montgomery Career and Technical Center (the "Center"). The Center is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The Board of Directors of each participating district must approve the Center's annual operating budget. Each participating district pays a pro-rata share of the Center's operating costs based on the previous five years average daily members at the Center from each district. The District's share of the Center's operating costs for 2017-2018 was \$2,486,670 1,355,513 .

On dissolution of the Center, the net position of the Center will be shared on a pro rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in the Center, as defined by GASB Statement No. 14, except a residual interest in net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the Center can be obtained from the Center's administrative office.

In September 2008, the District entered into a long-term sublease agreement with the Center through February 2029 for a portion of the debt service payments on the Center's School Lease Revenue Bonds, Series of 2008. The payments for each year are based on a proration of the previous market value (40%) and the previous five-year average of average daily members (60%).

2024 to 2028	6,138,215
2029	<u>1,226,969</u>
	<u>\$ 13,499,778</u>

Sublease expenditures for the year ended June 30, 2018, were \$ 1,355,513 970,269.

NOTE S - JOINTLY GOVERNED ORGANIZATION

The District is a participating member of the Montgomery County Intermediate Unit (MCIU). The MCIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The Board of Directors of each participating district must approve MCIU's annual operating budget. The MCIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no ongoing financial interest or responsibility in the MCIU. The MCIU contracts with participating districts to supply special education services and computer services and to serve as a conduit for certain federal programs.

NOTE T - SELF-INSURANCE

In July 2010, the District elected to sponsor a self-insured employee welfare benefit plan for health care coverage. An administrative services agreement was signed with a third-party insurance company (claims administrator) to administer the costs and claims associated with the plan. The agreement required the District to establish a reserve escrow of \$1,350,200. These funds (including earned interest) are reported as restricted cash on the statement of net position. The total amount held in escrow as of June 30, 2018, is \$1,382,697. The reserve will be used to pay claims, retention charges and broker commissions incurred prior to but paid after the date of determination. The reserve is intended to secure only the District's obligations to the claims administrator and has no effect, application, or operation regarding the District's direct obligation to the benefit program. The claims administrator may, in its discretion, require a greater or lesser reserve amount from the District to secure the District's obligations under the agreement. If the claims administrator requires a lesser amount, the District will receive a refund or credit.

NOTE U - DONATED FOODS

The Food Service Fund contains inventories which consist of both food commodities donated by the federal government and other food and supply inventories. Donated foods represent \$62,984 of the Proprietary Funds' inventory balance at June 30, 2018. These inventories are valued at last unit cost in accordance with the recommendations of the Food and Nutrition Service of the Department of Agriculture and are expensed as used.

NOTE V - PRIOR PERIOD RESTATEMENT

The School District implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The objective of GASB Statement No. 75 is to improve accounting and financial reporting by state and local governments for other postemployment benefit (OPEB) plans. GASB Statement No. 75 states that the School must record their share of the Public School Employees' Retirement System (PSERS) unfunded liability. In addition, the School also must record the total liability of their single employer other postemployment benefit plan.

For the government-wide business-type activities and the proprietary fund food service fund, the School District has treated their proportionate share of the beginning of year PSERS net OPEB liability of \$163,000 as having been recognized in the period incurred. The School District has adjusted beginning net position for the government-wide business-type activities and the proprietary fund food service fund from (\$2,796,413) to (\$2,959,413).

For the government-wide governmental activities, the School District has treated their proportionate share of the beginning of year PSERS net OPEB liability of \$8,845,000 and the beginning of year single employer OPEB plan liability of \$6,094,094 as having been recognized in the period incurred. As part of the implementation, the previously recognized obligation for other postemployment benefits under GASB 45 in the amount of \$3,953,740 will be reversed. The School District has adjusted beginning net position for the governmental activities from (\$47,042,234) to (\$58,027,588).

SPRING-FORD AREA SCHOOL DISTRICT
NOTES TO THE BUDGETARY COMPARISON SCHEDULE
YEAR ENDED JUNE 30, 2018

NOTE A - BUDGETARY INFORMATION

An operating budget is adopted prior to the beginning of each year for the General Fund on a basis consistent with generally accepted accounting principles. The General Fund is the only fund for which a budget is legally required.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting of its financial statements, specifically:

- The District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
- The District is required to publish notice by advertisement, at least once in two newspapers of general circulation in the municipality in which it is located and within 15 days of final action that the proposed budget has been prepared and is available for public inspection at the administrative office of the District.
- Notice that public hearings will be held on the proposed operating budget must be included in the advertisement; such hearings are required to be scheduled at least ten days prior to when final action on adoption is taken by the Board.

Legal budgetary control is maintained at the sub-function/major object level. The Pennsylvania School Code allows the Board to make budgetary transfers between major function and major object code only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the Pennsylvania Department of Education's 2028 Report when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2017-2018 budget transfers.

NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2018, expenditures exceeded appropriations in the following General Fund department levels (the legal level of budgetary control):

GENERAL FUND	
Vocational education programs	\$ 970,235
Other instructional programs	2,881
Nonpublic school programs	5,498
Pupil personnel services	266,789
Refund of prior year revenues	<u>60</u>
	<u>\$ 1,245,463</u>

These excess expenditures were funded by available fund balance in the General Fund.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of School Directors
Spring-Ford Area School District
Royersford, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Spring-Ford Area School District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Spring-Ford Area School District's basic financial statements, and have issued our report thereon dated January 21, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Spring-Ford Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Spring-Ford Area School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Spring-Ford Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2018-01 and 2018-02 to be significant deficiencies.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of School Directors
Spring-Ford Area School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Spring-Ford Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Spring-Ford Area School District's Response to Findings

Spring-Ford Area School District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Spring-Ford Area School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

***Independent Auditors' Report on Compliance for Each Major Federal Program;
Report on Internal Control Over Compliance in Accordance With the Uniform Guidance***

To the Board of School Directors
Spring-Ford Area School District
Royersford, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Spring-Ford Area School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the Spring-Ford Area School District's major federal programs for the year ended June 30, 2018. Spring-Ford Area School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Spring-Ford Area School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Spring-Ford Area School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Spring-Ford Area School District's compliance.

To the Board of School Directors
Spring-Ford Area School District

Opinion on Each Major Federal Program

In our opinion, the Spring-Ford Area School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the Spring-Ford Area School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Spring-Ford Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Spring-Ford Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

2018-01 Bank Reconciliations

Condition: During the audit, we noted that Spring-Ford Area School District's bank account balances were not reconciled to the general ledger on a timely basis.

Criteria: Bank statements should be maintained and cash accounts should be reconciled on a timely basis to the general ledger.

Effect: Cash activity may be misstated.

Cause: Reconciling items were improperly reflected on the bank account reconciliations, the reconciliations did not always agree to amounts reflected on the books and reconciliations were not performed timely.

Recommendation: We recommend bank reconciliations be prepared on a monthly basis and that at the end of each reconciliation, any differences between the book amount on the reconciliation and the amount actually reflected on the books be reconciled. We recommend that all suspicious reconciling items be promptly investigated and adjusted with adequate explanations. Additionally, all outstanding deposits and withdrawals that reconcile the bank balance to the book balance should be evaluated to ensure they are appropriately included for the month being reconciled. Finally, we recommend that a member of management, such as the Controller or Chief Financial Officer, review the bank reconciliations for any unusual items, investigate and fully resolve any such items and document his or her approval by initialing the form.

Management's Response: Adjustments have been made so that bank account reconciliations are currently being prepared in a timely manner as part of the monthly close process and shall continue on an ongoing basis. Management also has in numerous preventative controls in place to effectively mitigate the risk of fraud or other abnormalities. Deficiencies in the monthly reconciliation process have been addressed through a comprehensive review and root cause analysis of each deficiency. Policies and procedures have been updated where necessary and training of administrative and secretarial staff has occurred. New staff hired will be trained in these processes and monitored for compliance. All bank reconciliations going forward will be reviewed by the Chief Financial Officer.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2018

B. FINDINGS - FINANCIAL STATEMENTS AUDIT (Continued)

2018-02 Monthly Reconciliation and Closing Procedures

Condition: Our audit procedures revealed that the systematic method of ensuring that timely and complete monthly reconciliation and closing procedures was not followed consistently. This situation may lead to a growing backlog of transactions and journal entries that are not posted into the accounting system, and potentially impact the business decision process. Failure to correct this issue going forward has the potential to cause errors in the financial statements. Management does have adequate preventative compensating control in place to effectively mitigate the risk of fraud and other abnormalities.

Criteria: The general ledger and subsidiary ledgers should be reconciled on a monthly basis.

Effect: Differences between the actual account balances and the amount reflected in the general ledger could accumulate over a period of time. Without proper monthly reconciliations and closing procedures, the determination of the actual balance requires a significant time investment in a lengthy reconciliation process.

Cause: The Business Office did not consistently follow its process of requiring that accounts be reconciled on a monthly basis.

Recommendation: In order to maintain proper control over the account balances, we recommend that management consistently follow its procedures to ensure that account balances are reconciled between the general ledger and the subsidiary ledgers on a consistent and timely basis. Differences should be investigated and resolved as soon as possible. These procedures will ensure that the balances in the general ledger reflect the accurate balances supported by the subsidiary ledgers.

Management's Response: Monthly reconciliations will be prepared beginning in January 2019 and performed on an ongoing basis consistent with its close procedures. The noted deficiency in the monthly reconciliation process is being addressed through a comprehensive review and root cause analysis, and adjustments needed to the processes and procedures, if any, will be updated.. Administrative and secretarial staff have been trained on the policies and procedures in place, and the importance of adhering to these procedures. New staff hired after that period will be trained in these processes and monitored for compliance. The CFO and/or Controller will review each reconciliation to insure any reconciling items are investigated and addressed in a timely manner.

FISCAL YEAR ENDED JUNE 30, 2018

Finding 2018-01 Bank Reconciliations

Description of Finding:

During the audit bank account balances were not reconciled to the general ledger on a timely basis.

District Position:

The District concurs with this finding.

Corrective Action to be taken:

The District has taken steps to review and update the monthly closing processes and procedures to insure that all bank reconciliations are completed on a monthly basis, and any reconciling items will be investigated and resolved in a timely manner.
