The information you have requested is not available in an existing public document. Race and gender are public information, and I have attached a spreadsheet with that documentation.

Good morning,

I am a doctoral candidate at Nova Southeastern University. My research includes certified personnel in Beaufort County, SC. Specifically, I would like to request current demographic information by school on certified personnel including race, gender, education levels and years of experience.

I am available via cell phone after 3:00 p.m. or email at anytime.

I look forward to your response.

Thanks.

Janon Jackson
