Public Records Requested (Description)	Please consider this a request under the South Carolina Freedom of Information Act. This

of Documents or
Information Requested):

request includes the following records:

Any electronic records, such as an Excel spreadsheet, that denotes details of all vendor contracts issued by the Beaufort County School District from June 13, 2015-June 13, 2018. This request is for details of vendor agreements, not a list of vendor names. In other words, if an outside company was paid \$20,000 to conduct a school leadership training on February 2, 2017, I'm seeking records that would provide those details about each specific vendor.

My impression is that your agency would have typed up basic details of each vendor contract into a centralized spreadsheet. If your agency has something close to, but not exactly what I am seeking, please feel free to let me know. I am not asking your agency to create a new record, but rather provide me all the non-exempt fields of any such electronic record you keep that would be responsive to this request.

As a member of the news media seeking this information in the public interest, I respectfully request fees be waived, per statute. If charges are necessary for this request, please provide me with a detailed breakdown of the anticipated charges before fulfilling the request.

Thank you,
Maggie Angst
