The Academy. The Right Choice

Fueling lifelong success through preparation, exploration and empowerment

The Academy's mission is to help all students grow into college ready, exemplary citizens by combining academic mastery with personal empowerment to drive lifelong success. We serve our full community by intentionally developing a school culture that embraces diversity, equity and inclusion .

We have the privilege of serving your student from Pre-K through 12th Grade. As a K-12 *cradle to cap* school, we develop the relationships that create lifelong success.

Our Wildcat Pride is a part of who we are and what we do. From our Leader in Me school status, our love for our students and community, and our focus on continuous growth in an engaging classroom: you'll see why self-control, respect, responsibility, kindness, courage and integrity are infused in our culture.

Parent involvement, student self-advocacy, and positive staff relationships are encouraged and nurtured in our school community. There are numerous opportunities to be a part of the school by volunteering during events, in the classroom, or in committees.

Creating *same-side conversations* between students, staff and parents is one thing that strengthens our school. School life has many facets, and knowing that staff and families are on the same side to support our students creates opportunities to learn and become better versions of ourselves.

Make the right choice, and come grow with us.

Main Entrance

The first stop for all visitors.

The Main / West Entrance

As you enter The Academy you are greeted by our friendly staff.

This is where all visitors are checked-in and wait to meet a student or staff member. This entrance is reserved for elementary students and visitors.

The Secondary East Entrance

All High School students enter and exit the building through these doors. We have a full-time staff member monitoring these doors and greeting everyone as they enter.

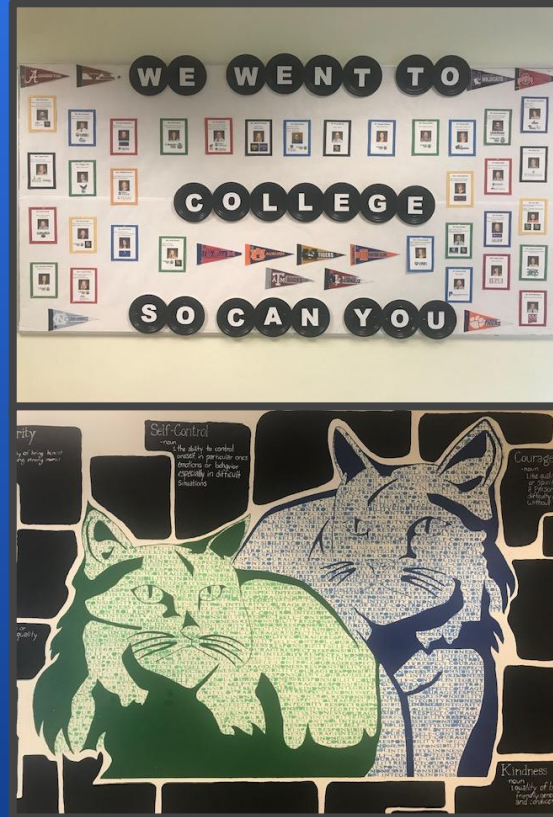

The Bistro

This area is called our, “Bistro.” The Bistro provides a cafe like area where students can work / hang out individually or in small groups.

The High School Hallways

Let's take a peek into some of our classrooms...

Math

English

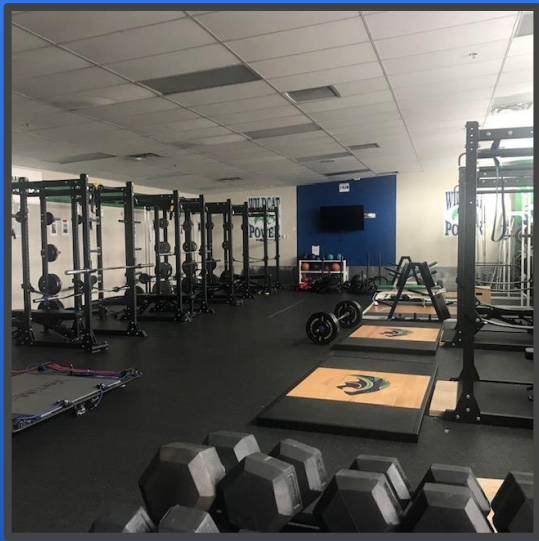

Science

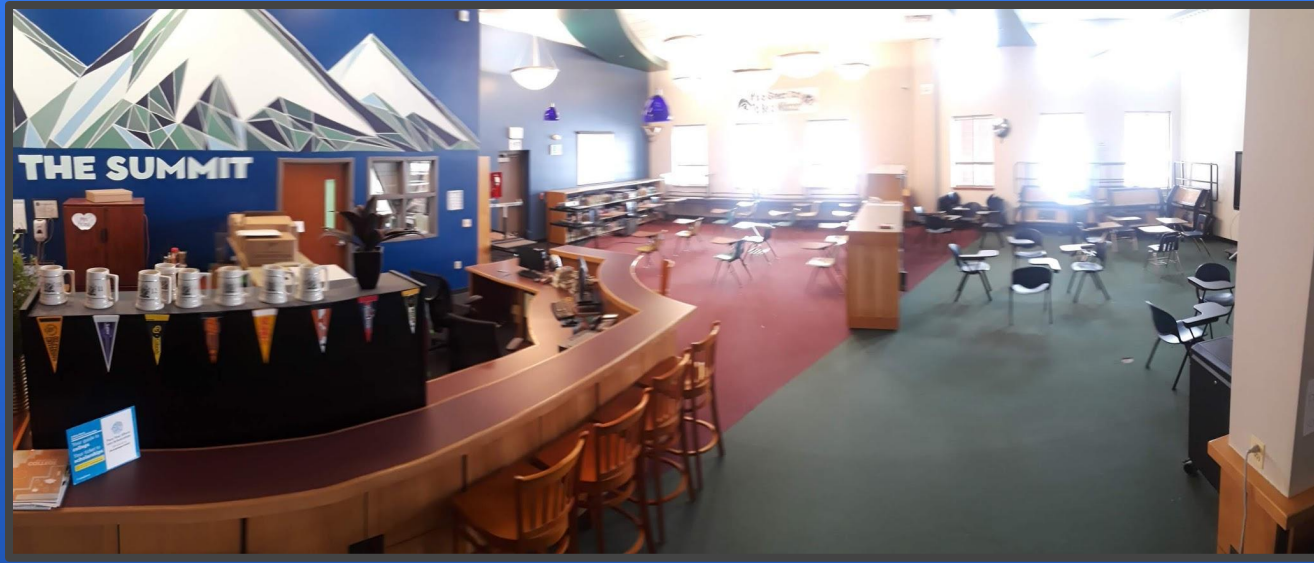

Music

The Academy boasts a stellar music program. Students can choose to participate in a variety of different music courses including: band, orchestra, choir, guitar and others.

Gymnasium & Weight Room

At The Academy, we know that physical engagement is critical when stimulating learners intellectually. To emphasize this point, you will often see students using one of our three gyms or our weight room.

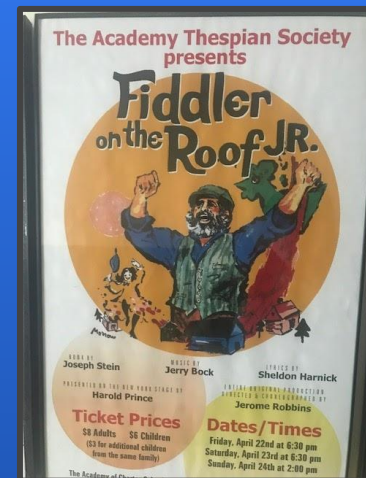

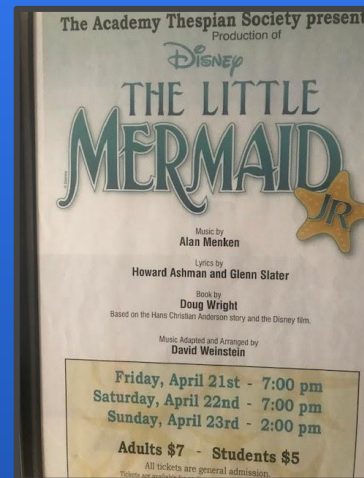

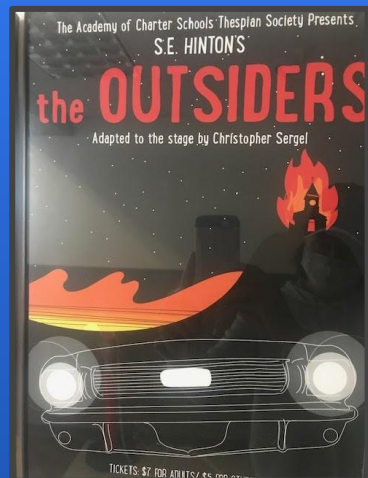

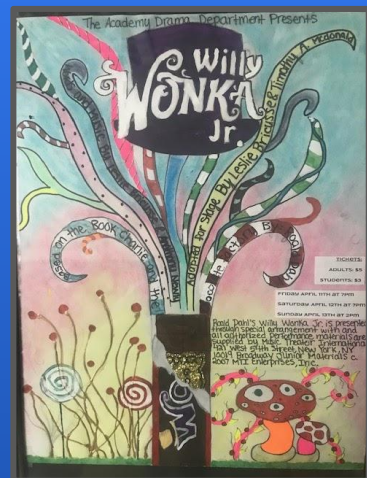

Summit

Welcome to the Summit! Students use this space to receive academic support, use a computer or printer, or even if they just need a place to meet with their teachers.

Art

Students at The Academy enjoy our fully equipped art room where students can fully express themselves through the process of creation and exploration.

Theater

The Academy has a robust theater program that puts on annual plays twice per school year. They present a Fall Production that consists of student created plays and a more formal Spring Musical that always enlists the help of our entire K-12 community.

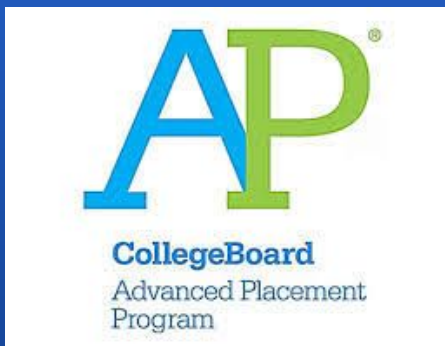

Technology

The current needs of society emphasize a familiarity with new software and computer systems. Our school has both PC and Apple tech labs that provide opportunities to engage in a wide range of experiences through our various technology classes. As a side note, all students at The Academy are provided a Chromebook to use in all of their classes.

More Educational Opportunities

In addition to our rigorous core academics, The Academy offers 15 different AP courses as well as a Concurrent Enrollment partnership with Front Range Community College. Some FRCC classes are even taught on our campus.

Hands-on Learning Experiences

As a part of our Academy Pathways Program we also offer several experiential and unique learning opportunities:

- Student Internships at local businesses
- The AgCademy Farm Internship program
- Entrepreneurial Business Classes
- Work Study Opportunities
- Independent Study Courses proposed and created by our students

Feel free to contact one of our high school counselors to learn more about these exciting opportunities.

Our school campus houses a football and soccer field, baseball field, playgrounds and basketball courts, and even an outdoor classroom space. It contains large open use grass areas and is nestled on two sides by the Big Dry Creek open space. Staff and students enjoy use of the beautiful natural area that borders our campus.

The Academy's Main Campus

School Safety - Officer Jacobsen

Providing a safe environment for our school community is our top priority. Our School Resource Officer, Kelly Jacobsen is an exemplary police officer! She can be found throughout the school engaging with students, giving presentations in classes, assisting with drills and being a model person for our school community. Her positive and friendly personality is amazing!

At the Academy we offer Middle School and High School Athletic Sports including Football, Basketball, Volleyball, Baseball, Boys & Girls Soccer, Cross Country, Cheer and Softball.

Some examples of our clubs are Middle School and High School NHS, Student Council, Yearbook, Art, Thespian Society, Rubik's Cube and E-Sports.

It is important for the students at The Academy to self-advocate and have a voice. We want all students to make their experience at The Academy a good one. Involvement in school is proven to increase attendance and academic achievement. Students are encouraged to start clubs in their areas of interest - we have several staff members who are always more than happy to sponsor new clubs.

Sports & Clubs

Thank you for visiting The Academy High School

We hope to see you in the
hallways next school year!
