Dear Ms. Orischak:

As a follow-up to my initial August 5 response to your FOIA request for “any/all agreements/MOAs/MOUs/contracts/retainers/documents detailing the BCSD bond counsel’s compensation structure and commitment to the BCSD,” we have continued to search for any responsive documents and have found none.

Superintendent Rodriguez strongly believes that the financial compensation for any person or entity engaged in work for the school district should have the details of that compensation documented. He has directed that engagement letters become a routine component of the compensation process for bond counsel work.

Please let us know if you should need any additional information.

Sincerely,
Jennifer Staton
