

ONLINE LEARNING CHALLENGE OR FUN?

OLIVER

"I have four good reasons why I don't like online school. First of all, my eyes get tired. Another reason is that I don't get a good sleep. I cannot play with friends. Finally, wearing masks and going to school is much better than computers, computers, and computers."

VLADIMIR

"I don't like online school because I cannot see people in person. I have to be at my computer screen all day. I cannot do normal PE. I cannot watch CNN 10."

PETER

"Online learning is a challenge for me because I have to sit in front of a screen all day, but I still think it is fun because I am learning new things and can see my friends."
