

CLEAR CREEK INDEPENDENT SCHOOL DISTRICT

Authorization for Administration of Diabetes Management and Care Services by Unlicensed Diabetes Care Assistant

Information to Parents: The 79th Texas Legislature, through House Bill 984, amended the Health and Safety Code to provide more specific requirements for the provision of diabetes management and care services to students in public schools who seek care for the student's diabetes while at school. The school, in conjunction with the parent, will develop for each student who seeks care for diabetes at school an Individualized Health Plan that will specify the diabetes management and care services the student requires at school. Traditionally the school nurse has provided any medical care students might require at school. Under Chapter 168 of the Texas Health and Safety Code, each school also must train other employees to serve as Unlicensed Diabetes Care Assistants who can provide diabetes management and care services if a nurse is not available when a student needs such services. Such services include the administration of insulin or in an emergency, glucagon. Clear Creek ISD has trained staff at each school to provide such services. Chapter 168 of the Texas Health and Safety Code further specifies that an Unlicensed Diabetes Care Assistant (UDCA) exercises his or her judgement and discretion in providing diabetes care services and that nothing in the statute limits the immunity from liability afforded to employees under section 22.0511 of the Texas Education Code.

Under Chapter 168 of the Texas Health and Safety Code, an Unlicensed Diabetes Care Assistant may only administer diabetes care and management services if the student's parent/guardian authorizes an Unlicensed Diabetes Care Assistant to assist the student and confirms his or her understanding that an Unlicensed Diabetes Care Assistant is immune from liability for civil damages under section 22.0511 of the Texas Education Code.
