Update- Summer Programs and Overview

Mr. Matt Schrage, Assistant Superintendent for Instruction, provided updates on the Summer Workshop Programming. It was a busy summer with many new offerings. With the Federal stimulus funding we were able to offer five weeks of programming during July and August, offering 43 different workshops, K-12.

Mr. Schrage also provided an update for Health and Safety with moving to mandatory testing of staff and students. We have close to 500 students and approximately 150 staff members that will have weekly testing. This is a screening test, not diagnostic. A wide range of training took place this summer with the Behavior Intervention Team and law enforcement.

Mrs. Stephanie Knapp Yehl, Director of Special Programs, provided updates with the summer programs. There were 68 students in Extended School Year, 10 in additional related services with six full classrooms full day and three half day classrooms. The theme for the program was wellness warriors.

Mrs. Jean Mackenzie, Director of Intervention, provided K-5 Summer School and YMCA Programming update. There were 155 students in reading, writing and math programs. Thirty-three were students with IEP's. There was a virtual program, YMCA program and in-person this summer. The theme for the program was the Olympics with a final event at the end of the program for all students.

Mr. Dan Bowman, Director of Technology, provided an overview of technology from this summer. In addition to supporting the above programs the district also hosted BOCES Summer School. The department hired five students for the summer. During the school year these students work at the Student Tech Help Desk. Over 1,200 Chromebooks were unboxed and made ready to use for students. All Primary School Chromebooks were returned and put back into the carts for the beginning of the new year. The install of promethean boards was finished up in the Elementary School. For the most part the Primary-Elementary building is complete. The Middle School is complete and just a few more to install at the Academy. Help desk tickets are getting back to pre-pandemic level.

Mr. Jim Simmons, Athletic Director, provided an overview of Athletics. Very proud of what was accomplished last year with COVID restrictions. This year began on August 23 with Junior Varsity sports. There have been minimal disruptions with this year with COVID protocols being closely followed. Homecoming and Athletic Hall of Fame will be held this weekend.

*Those not participating in the rest of the meeting left at 7:01 p.m.*

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canandaigua City School District, New York, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Canandaigua City School District, New York, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress postemployment benefit plan, schedule of the District's proportionate share of the net pension liability, schedule of District contributions, and budgetary comparison information on pages 4–13 and 51–55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

As described in Note II to the financial statements, the District adopted GASB Statement No. 84, *Fiduciary Activities*. As a result, the beginning net position has been restated. Our opinion is not modified with respect to this matter.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Canandaigua City School District, New York's basic financial statements. The accompanying supplemental information as listed in the table of contents and schedule of expenditures of federal awards, as required by the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplemental information as listed in the table of contents and schedule of expenditures of federal awards, as required by the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplemental information as listed in the table of contents and schedule of expenditures of federal awards, as required by the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Canandaigua City School District, New York's internal control over financial reporting and compliance.

### **Management's Discussion and Analysis**

#### **For the Fiscal Year Ended June 30, 2021**

The following is a discussion and analysis of the School District's financial performance for the fiscal year ended June 30, 2021. This section is a summary of the School District's financial activities based on currently known facts, decisions, and/or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

#### **Financial Highlights**

At the close of the fiscal year, the total liabilities plus deferred inflows (what the district owes) exceeded its total assets plus deferred outflows (what the district owns) by (\$8,545,603) (net position) an increase of \$2,702,182 from the prior year. Of this amount net investment in capital assets increased \$4,356,822, restricted funds increased \$1,292,488, and unrestricted funds decreased \$8,351,492.

General revenues which include Federal and State Aid, Real Property Taxes, Investment Earnings, Compensation for Loss, and Miscellaneous accounted for \$76,954,313 or 96% of all revenues. Program specific revenues in the form of Charges for Services, Operating Grants and Contributions, and Capital Grants and Contributions accounted for \$3,092,654 or 4% of total revenues.

As of the close of the fiscal year, the School District's governmental funds reported combined fund balances of \$37,445,122 an increase of \$1,151,822 in comparison with the prior year.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains individual fund statements and schedules in addition to the basic financial statements.

##### *Government-Wide Financial Statements*

The *government-wide financial statements* are designed to provide readers with a broad overview of the School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the School District's assets plus deferred outflow of resources and liabilities plus deferred inflow of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The *governmental* activities of the School District include instruction, pupil transportation, cost of food sales, general administrative support, community service, and interest on long-term debt.

The government-wide financial statements can be found on the pages immediately following this section as the first two pages of the basic financial statements.

### *Fund Financial Statements*

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the School District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The School District maintains six individual governmental funds; General Fund, Special Aid Fund, School Lunch Fund, Miscellaneous Special Revenue Fund, Debt Service Fund and Capital Projects Fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the capital projects fund which are reported as major funds. Data for the school lunch fund, the debt service fund, the miscellaneous special revenue fund, and the special aid fund are aggregated into a single column and reported as non-major funds.

The School District adopts and voters approve an annual budget for its General Fund. A budgetary comparison statement has been provided for the General Fund within the basic financial statements to demonstrate compliance with the budget.

The *Fiduciary Funds* are used to account for assets held by the School District in an agency capacity which accounts for assets held by the School District on behalf of others. Fiduciary funds are not reflected in the government-wide financial statement because the resources of these funds are *not* available to support the School District's programs.

The financial statements for the governmental and fiduciary funds can be found in the basic financial statement section of this report.

*Notes to the Financial Statements*

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statement section of this report.

**Government-Wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all the School District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets plus deferred outflow of resources and liabilities plus deferred inflow of resources, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively. Additional non-financial factors such as changes in the District's property tax base and the condition of the school buildings and facilities must also be considered to assess the District's overall health.

All of the District's services are reported in the government-wide financial statements as governmental activities. Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes, federal and state aid, and investment earnings finance most of these activities.

**Financial Analysis of the School District As a Whole**

**Net Position**

The District's combined net position were smaller on June 30, 2021, than they were the year before, decreasing to (\$8,545,603) as shown in table below.

The District's financial position is the product of many factors.

By far, the largest component of the School District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The School District uses these capital assets to provide services to the students and consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

There are four restricted net asset balances Capital Projects, Retirement Contribution Reserve, Capital Reserves, and Other Purposes. The remaining balance of unrestricted net position was a deficit of (\$100,274,840).

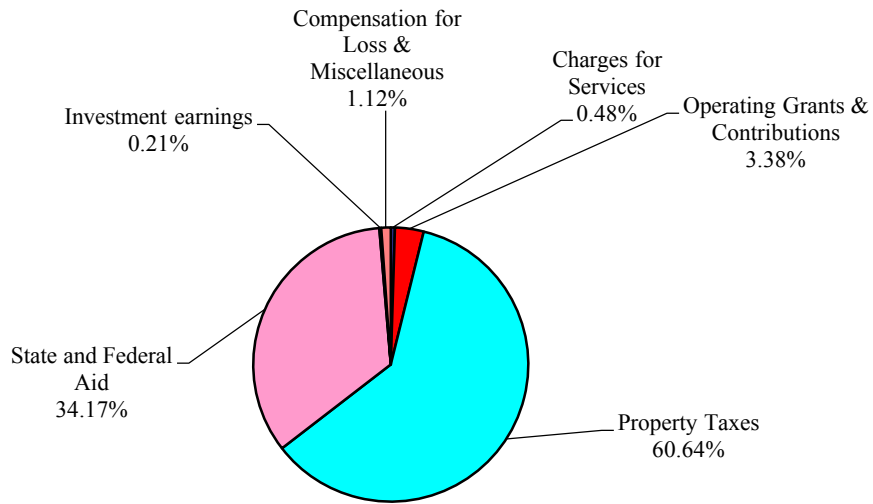

**Changes in Net Position**

The District’s total revenue decreased to \$80,046,967. State and federal aid 34% and property taxes 61% accounted for most of the District’s revenue. The remaining 5% of the revenue comes from operating grants, capital grants, charges for services, use of money and property, compensation for loss, and miscellaneous revenues.

The total cost of all the programs and services decreased 3% to \$82,759,149. The District’s expenses are predominately related to education and caring for the students (instruction) 81%. General support which included expenses associated with the operation, maintenance and administration of the District accounted for 11% of the total costs. See table below:

The General Fund is the chief operating fund of the District. At the end of the current year, the total fund balance of the General Fund was \$29,068,506. Fund balance for the General Fund increased by \$4,685,931 compared with the prior year. See table below:

<b><u>General Fund Balances:</u></b>	<b><u>2021</u></b>	<b><u>2020</u></b>	<b><u>Total Variance</u></b>

<b>Total General Fund Balances</b>	<b><u>\$ 29,068,506</u></b>	<b><u>\$ 24,382,575</u></b>	<b><u>\$ 4,685,931</u></b>

The District appropriated funds from the following reserves for the 2021-22 budget:

	<b><u>Total</u></b>
Unemployment Costs	\$ 100,000
Retirement Contribution	317,187
Workers' Compensation	343,000
Tax Certiorari	50,000

<b>Total</b>	<b><u>\$ 910,187</u></b>

**General Fund Budgetary Highlights**

The difference between the original budget and the final amended budget was \$1,093,029. This change is attributable to \$92,025 for carry over encumbrances from the prior year, \$2,789 for CARES Act funding, \$14,715 for donations, \$500 for School Library of the Year Award, and \$983,000 for bus purchases.

The key factors for budget variances in the general fund are listed below along with explanations for each.

<b>Expenditure Items:</b>	<b>Budget Variance Original Vs. Amended</b>	<b>Explanation for Budget Variance</b>
Transfers-Out	\$1,223,000	The variance is a result of voter approved purchase of buses and additional funding needed to cover larger than anticipated deficit in the school lunch fund.

<b>Revenue Items:</b>	<b>Budget Variance Amended Vs. Actual</b>	<b>Explanation for Budget Variance</b>
Miscellaneous	\$600,375	The District received e-Rate funding of \$88,847, public excess cost prior year adjustment payment from 2004-05 of \$154,017, and BOCES refund of prior year expenses of \$241,862.
<b>Expenditure Items:</b>	<b>Budget Variance Amended Vs. Actual</b>	<b>Explanation for Budget Variance</b>
Teaching – Regular School	\$878,701	Due to COVID and the district being in a hybrid instructional model, the district had lower than anticipated expenses for salaries.
Programs for Children with Handicapping Conditions	\$1,844,707	The District has lower than anticipated needs for student out-of-district placements. Due to COVID and the district being in a hybrid instructional model, the District also had lower than anticipated expenses in hourly wages.
Pupil Transportation	\$697,504	Due to COVID and the district being in a hybrid instructional model with no transportation being provided on Wednesday, the District also had lower than anticipated expenses in wages, supplies and contractual expenses.
Employee Benefits	\$1,034,211	Due to COVID and the district being in a hybrid instructional model, the district had lower than anticipated expenses in salary that resulted in lower than anticipated expenses in benefits.

<b>Total Capital Assets</b>	<b><u>\$ 79,606,383</u></b>	<b><u>\$ 78,486,918</u></b>

<u>Type</u>	<u>2021</u>	<u>2020</u>

### Factors Bearing on the District's Future

- The COVID-19 pandemic resulted in extraordinary changes in how the District operated in 2020-21. It is unknown how the continuing pandemic will affect the District in the future. In the short-term, the District received federal stimulus funding to mitigate the affect on finances.
- The tax cap levy calculation is limited by the Consumer Price Index or 2%, whichever is lower. Due to the cap on the growth of the tax levy, the District is restricted in the amount of additional revenue that can be generated from one year to the next.
- New and continuing Tax Certiorari cases continue to be received by the District. As a result, the District faces increased legal expenditures and potential reduction on these property assessments.
- The District continues to see an increase in approved Payment in Lieu of Taxes agreements with values for payments below what payments would be if these properties remained on the tax rolls.
- The annual increase in minimum wage will continue to increase District expenditures. With the tax levy cap, this may become unsustainable.
- State Aid funding continues to remain unpredictable and unequal from year-to-year, making long-term planning and decision making difficult.

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The following are the amounts by which capital outlays and additions of assets in excess depreciation in the current period:

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term obligations in the Statement of Net Position. The following details these items as they effect the governmental activities:

The net OPEB liability does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds. (5,307,179)

The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units* and GASB Statement No. 61, *The Financial Reporting Entity*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the District's reporting entity.

#### 1. Extraclassroom Activity Funds

The extraclassroom activity funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the District with respect to its financial transactions, and the designation of student management. Separate audited financial statements (cash basis) of the extraclassroom activity funds can be found at the District's business office. The District accounts for assets held as an agency for various student organizations in an agency fund.

**( I. ) (Continued)**

**B. Joint Venture**

The District is a component of the Ontario, Seneca, Yates, Cayuga and Wayne Counties Board of Cooperative Educational Services (BOCES). The BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, Section 1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$7,441,786 for BOCES administrative and program costs.

The District's share of BOCES aid amounted to \$1,585,576.

Financial statements for the BOCES are available from the BOCES administrative office.

**C. Basis of Presentation**

**1. Districtwide Statements**

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital specific grants.

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

( I. ) (Continued)

2. **Fund Statements**

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following governmental funds:

a. **Major Governmental Funds**

**General Fund** - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

**Capital Projects Fund** - Used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

b. **Nonmajor Governmental** - The other funds which are not considered major are aggregated and reported as nonmajor governmental funds as follows:

**School Lunch Fund** - Used to account for transactions of the District's lunch, breakfast and milk programs.

**Special Aid Fund** - This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

**Debt Service Fund** - This fund accounts for the accumulation of resources and the payment of principal and interest on long-term obligations for governmental activities.

**Miscellaneous Special Revenue Fund** – used to account for and report those revenues that are restricted or committed to expenditures for specified purposes.

c. **Fiduciary** - Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used.

**Custodial Funds** - These funds are strictly custodial in nature and do not involve the measurement of results of operations. Assets are held by the District as agent for various student groups or extraclassroom activity funds.

( I. ) (Continued)

**D. Measurement Focus and Basis of Accounting**

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-Wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

**E. Property Taxes**

Real property taxes are levied annually by the Board of Education no later than September 1, and become a lien on August 27, 2020. Taxes are collected during the period October 1 to December 31, 2020.

The City and Counties in which the District is located enforce uncollected real property taxes. An amount representing all uncollected real property taxes must be transmitted by the City to the District within two years from the return of unpaid taxes to the City. Real property taxes receivable expected to be collected within 60 days of year-end, less similar amounts collected during this period in the preceding year are recognized as revenues. Otherwise, deferred revenues offset real property taxes receivable.

**F. Restricted Resources**

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

**( I. ) (Continued)**

**G. Interfund Transactions**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowing. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the District-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note VIII for a detailed disclosure by individual fund for interfund receivables, payables, expenditures, and revenues activity.

**H. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

**I. Cash and Cash Equivalents**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

New York State Law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

Investments are stated at fair value.

( I. ) (Continued)

**J.     Receivables**

Receivables are shown net of an allowance for uncollectible accounts, when applicable.

No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**K.     Inventory and Prepaid Items**

Inventories of food and/or supplies for school lunch are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A non-spendable fund balance for these non-liquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

**L.     Capital Assets**

In the District-wide financial statements, capital assets are accounted for at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their acquisition value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. A capitalization threshold of \$5,000 is used to report capital assets. The range of estimated useful lives by type of assets is as follows:

<u>Class</u>	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$ 50,000	SL	15-50 Years
Machinery and Equipment	\$ 1,000	SL	5-25 Years

The investment in infrastructure type assets have not been segregated for reporting purposes since all costs associated with capital projects are consolidated and reported as additions to buildings and improvements.

( I. ) (Continued)

**M. Unearned Revenue**

The District reports unearned revenues on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and revenue is recognized.

**N. Deferred Outflows and Inflows of Resources**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**O. Vested Employee Benefits**

**1. Compensated Absences**

Compensated absences consist of unpaid accumulated annual sick leave, vacation, and sabbatical time.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement 16, Accounting for Compensated Absences, the liability has been calculated using the vesting/termination method and an accrual for that liability is included in the District-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the funds statements only the amount of matured liabilities is accrued within the General Fund based upon expendable and available financial resources. These amounts are expensed on a pay-as-you-go basis.

( I. ) (Continued)

**P. Other Benefits**

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides post-employment health coverage to retired employees in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits may be shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure.

**Q. Short-Term Debt**

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that a BAN issued for capital purposes be converted to long-term financing within five years after the original issue date.

**R. Accrued Liabilities and Long-Term Obligations**

Payables, accrued liabilities, and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits payable and compensated absences that will be paid from governmental funds are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

**S. Equity Classifications**

**1. District-Wide Statements**

In the District-wide statements there are three classes of net position:

- a. **Net Investment in Capital Assets** - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.
- b. **Restricted Net Position** - reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

( I. ) (Continued)

On the Statement of Net Position the following balances represent the restricted for other purposes:

	<b><u>Total</u></b>
Workers' Compensation	\$ 1,384,970
Unemployment Costs	472,043
Retirement Contribution - TRS	1,572,000
Insurance	298,244
Tax Certiorari	1,735,434
Debt	94,455
Miscellaneous	510,693
Employee Benefit Accrued Liability	<u>1,345,676</u>
<b>Total Net Position - Restricted for Other Purposes</b>	<b><u><u>\$ 7,413,515</u></u></b>

c. **Unrestricted Net Position** - reports the balance of net position that does not meet the definition of the above two classifications . The reported deficit of \$100,274,840 at year end is the result of full implantation of GASB #75 regarding retiree health obligations and the New York State Pension system unfunded pension obligation.

2. **Fund Statements**

In the fund basis statements there are five classifications of fund balance:

a. **Nonspendable Fund Balance** – Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance includes:

	<b><u>Total</u></b>
Inventory in School Lunch	\$ 50,696
Prepaid Items	1,271,883
Noncurrent Receivables	<u>513,327</u>
<b>Total Nonspendable Fund Balance</b>	<b><u><u>\$ 1,835,906</u></u></b>

b. **Restricted Fund Balances** – Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the general fund are classified as restricted fund balance. The District has established the following restricted fund balances:

( I. ) (Continued)

**Capital Reserve** - According to Education Law §3651, must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. The Reserve is accounted for in the General Fund under restricted fund balance. Year end balances are as follows:

<b><u>Name of Reserve</u></b>	<b><u>Maximum Funding</u></b>	<b><u>Total Funding Provided</u></b>	<b><u>Total Year to Date Balance</u></b>
2016 Vehicle Capital Reserve	\$ 6,000,000	\$ 5,018,830	\$ 4,598,569
2016 Building Capital Reserve	\$ 10,000,000	\$ 9,999,991	\$ 84,660
2017 Building & Equipment Capital Reserve	\$ 5,000,000	\$ 5,000,000	\$ 5,018,612
2021 Capital Reserve	\$ 10,000,000	\$ 3,124,012	\$ 3,124,012

**Reserve for Debt Service** - According to General Municipal Law §6-1, the Reserve for Debt Service must be established for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations that remain outstanding at the time of the sale. Also, earnings on project monies invested together with unused proceeds are reported here.

**Employee Benefit Accrued Liability Reserve** - According to General Municipal Law §6-p, must be used for the payment of accrued employee benefits due to an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

**Insurance Reserve** - According to General Municipal Law §6-n, must be used to pay liability, casualty and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriation, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve, however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval.

( I. ) (Continued)

**Retirement Contribution Reserve** - According to General Municipal Law §6-r, must be used financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board.

**Teachers' Retirement Reserve** – General Municipal Law §6r was amended to include a Teachers' Retirement Reserve (TRS) sub-fund. The reserve has an annual funding limit of 2% of the prior year TRS salaries and a maximum cumulative total balance of 10% of the previous years TRS salary.

**Tax Certiorari Reserve** - According to General Municipal Law §3651.1-a, must be used to establish a reserve fund for tax certiorari claims and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceeding in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies.

**Unemployment Insurance Reserve** - According to General Municipal Law §6-m, must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund.

**Workers' Compensation Reserve** - According to General Municipal Law §6-j, must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget.

**Encumbrances** - Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the General Fund and School Lunch Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

( I. ) (Continued)

Restricted fund balances include the following:

	<u><b>Total</b></u>
<b><u>General Fund -</u></b>	
Workers' Compensation	\$ 1,384,970
Unemployment Costs	472,043
Retirement Contribution - ERS	4,307,649
Retirement Contribution - TRS	1,572,000
Insurance	298,244
Tax Certiorari	1,735,434
Capital Reserves	12,825,853
Employee Benefit Accrued Liability	1,345,676
<b><u>Capital Fund -</u></b>	
Capital Projects	7,750,837
<b><u>Misc Spec Rev Fund -</u></b>	
Scholarships	510,693
<b><u>Debt Service Fund -</u></b>	
Debt Service	94,455
<b>Total Restricted Fund Balance</b>	<b><u><u>\$ 32,297,854</u></u></b>

The District appropriated and/or budgeted funds from the following reserves for the 2021-22 budget:

	<u><b>Total</b></u>
Unemployment Costs	\$ 100,000
Retirement Contribution	317,187
Workers' Compensation	343,000
Tax Certiorari	50,000
Employee Benefit Accrued Liability	100,000
<b>Total</b>	<b><u><u>\$ 910,187</u></u></b>

c. **Assigned Fund Balance** – Includes amounts that are constrained by the District’s intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the General Fund are classified as assigned fund balance. Encumbrances represent purchase commitments made by the District’s purchasing agent through their authorization of a purchase order prior to year end. The District assignment is based on the functional level of expenditures.

Management has determined significant encumbrances for the Capital fund amounts in excess of \$11,000. There were no significant encumbrances in the General fund, the following are considered significant encumbrances:

( I. ) (Continued)

<b><u>Capital Projects Fund -</u></b>	
Capital Improvements	\$ 25,548,765
Bus Purchases	982,611
<b>Total Capital Projects Fund Significant Encumbrances</b>	<b><u><u>\$ 26,531,376</u></u></b>

Assigned fund balances include the following:

	<b><u>Total</u></b>
General Fund - Encumbrances	\$ 168,224
<b>Total Assigned Fund Balance</b>	<b><u><u>\$ 168,224</u></u></b>

d. **Unassigned Fund Balance** – Includes all other general fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the school district and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted or assigned.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the District’s budget for the general fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

3. **Order of Use of Fund Balance**

The District’s policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as restricted fund balance. In the general fund, the remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

T. **New Accounting Standards**

The District is now required to report some or all of that activity in the *Governmental funds*. See Note II for the financial statement impact of implementation of the Statement.

## IV. Stewardship, Compliance and Accountability

By its nature as a local government unit, the District is subject to various federal, state and local laws and contractual regulations. An analysis of the District's compliance with significant laws and regulations and demonstration of its stewardship over District resources follows.

### A. Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the General Fund.

The voters of the District approved the proposed appropriation budget.

Appropriations established by adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restriction, if the Board approves them because of a need which exists which was not determined at the time the budget was adopted. The following supplemental appropriations occurred during the year: \$92,025 for carry over encumbrances from the prior year, \$2,789 for CARES Act funding, \$983,000 for bus purchases, and \$15,215 for donations.

#### ( IV. ) (Continued)

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Budgets are established and used for individual capital projects fund expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

#### **B. Encumbrances**

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year end are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

#### **C. Deficit Net Position**

The District-wide net position had a deficit at June 30, 2021 of \$8,545,603. The deficit is the result of the implementation of GASB Statement 75, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", which required the recognition of an unfunded liability of \$107,359,277 at June 30, 2021. Since New York State Laws provide no mechanism for funding the liability, the subsequent accruals are expected to increase the deficit.

#### **V. Cash and Cash Equivalents**

**Credit risk:** In compliance with the State Law, District investments are limited to obligations of the United States of America, obligations guaranteed by agencies of the United States of America where the payment of principal and interest are guaranteed by the United States of America, obligations of the State, time deposit accounts and certificates of deposit issued by a bank or trust company located in, and authorized to do business in, the State, and obligations issued by other municipalities and authorities within the State.

**Concentration of Credit risk:** To promote competition in rates and service cost, and to limit the risk of institutional failure, District deposits and investments are placed with multiple institutions. The District's investment policy limits the amounts that may be deposited with any one financial institution.

**Interest rate risk:** The District has an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from rising interest rates

The District's aggregate bank balances (disclosed in the financial statements), included balances not covered by depository insurance at year end, collateralized as follows:

Uncollateralized	\$	-
Collateralized with Securities held by the Pledging Financial Institution		<u>40,010,235</u>
<b>Total</b>	<b>\$</b>	<b><u><u>40,010,235</u></u></b>

Restricted cash represents cash where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year end includes \$32,297,854 within the governmental funds and \$186,015 in the fiduciary funds.

**VI. Investments**

**A. Governmental Funds**

The District's investments are recorded at fair value and have been categorized based upon a fair market value.

The District adopted the provisions of SFAS No. 157, *Fair Value Measurements*, which establishes a fair value hierarchy that defines three discrete "levels" of valuation techniques to determine the fair value of investments. Level 1 inputs consist of quoted (unadjusted) prices in active markets for identical assets at the measurement date, Level 2 inputs are inputs other than quoted prices that are observable either directly or indirectly, and Level 3 inputs are unobservable inputs and are to be used only if observable inputs are not available.

The District values investments in securities and securities sold short that are freely tradable and listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year.

The District's investments are recorded at fair value and have been categorized based upon a fair value hierarchy in accordance with SFAS 157.

The following table presents information about the District's investments measured at fair value as of June 30, 2021:

	<b>2021</b>	
	<b><u>Cost</u></b>	<b><u>Quoted Prices in Active Market for Identical Assets (Level 1)</u></b>

**VII. Receivables**

Receivables at June 30, 2021 for individual major funds and nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

**VIII. Interfund Receivables, Payables, Revenues and Expenditures**

Interfund Receivables, Payables, Revenues and Expenditures at June 30, 2021 were as follows:

	<u>Interfund</u>			
	<u>Receivables</u>	<u>Payables</u>	<u>Revenues</u>	<u>Expenditures</u>
General Fund	\$ 1,693,431	\$ 8,517,965	\$ 12,898	\$ 2,106,594

Interfund receivables and payables between governmental activities are eliminated on the Statement of Net Position. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are not necessarily expected to be repaid within one year.

Transfers are used to finance certain special aid programs, support capital project expenditures and school lunch programs.

In prior years, the District defeased certain general obligations and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. \$13,565,000 of bonds outstanding are considered defeased.

Interest on long-term debt for June 30, 2021 was composed of:

Interest Paid	\$ 537,199
Less: Interest Accrued in the Prior Year	(144,418)
Plus: Interest Accrued in the Current Year	132,644
<b>Total Long-Term Interest Expense</b>	<b><u>\$ 525,425</u></b>

On November 12, 2020, the District issued \$4,475,000 in general obligation bonds with an average interest rate of 2.250% to advance refund \$4,485,000 of outstanding serial bonds with an average interest rate of 2.358%. The net proceeds of 4,535,217 (after payment of \$86,051 in underwriting fees, insurance and other issuance costs) were used to purchase United States government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the bonds. As a result, the bonds are considered to be defeased, and the liability for those bonds has been removed from the District's financial statements. The District advance refunded the bonds to revise its payment schedules due to changes in New York State's aid payment schedules. The economic gain (the difference between the present value of the debt service payments on the old and new debt) is approximately \$194,222.

**XI. Deferred Inflows/Outflows of Resources**

The following is a summary of the deferred inflows/outflows of resources:

	<b><u>Deferred Outflows</u></b>	<b><u>Deferred Inflows</u></b>
Pension	\$ 21,309,469	\$ 10,172,698

<b>Total</b>	<b><u>\$ 49,130,659</u></b>	<b><u>\$ 41,967,093</u></b>

**XII. Pension Plans**

**A. General Information**

The District participates in the New York State Teachers' Retirement System (TRS) and the New York State and Local Employees' Retirement System (ERS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

**B. Provisions and Administration**

A 10 member Board of Trustees of the New York State Teachers' Retirement Board administers TRS. TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law (NYSRSSL). Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the system, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. TRS issues a publicly available financial report that contains financial statements and required supplementary information. The report may be obtained by writing to NYRS, 10 Corporate Woods Drive, Albany, New York 12211-2395 or by referring to the TRS Comprehensive Annual Financial report, which can be found on the System's website at [www.nystrs.org](http://www.nystrs.org).

ERS provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. NYSRSSL govern obligations of employers and employees to contribute, and benefits to employees. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. ERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to NYSERS, Office of the State Comptroller, 110 State Street, Albany, New York 12244 or by referring to the ERS Comprehensive Annual Report, which can be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php).

( XII. ) (Continued)

C. **Funding Policies**

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education Law. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' fiscal year ended March 31. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year

The District's share of the required contributions, based on covered payroll paid for the District's year ended June 30, 2021:

<u>Contributions</u>	<u>ERS</u>	<u>TRS</u>
2021	\$ 1,318,343	\$ 2,812,539

D. **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions**

At June 30, 2021, the District reported the following asset/(liability) for its proportionate share of the net pension asset /(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2021 for ERS and June 30, 2020 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and ERS Systems in reports provided to the District.

	<u>ERS</u>	<u>TRS</u>

For the year ended June 30, 2021, the District recognized pension expenses of \$847,480 for ERS and \$5,957,861 for TRS. At June 30, 2021 the District's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b><u>Year</u></b>	<b><u>ERS</u></b>	<b><u>TRS</u></b>

**E. Actuarial Assumptions**

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

( XII. ) (Continued)

	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2021	June 30, 2020
Actuarial valuation date	April 1, 2020	June 30, 2019
Interest rate	5.90%	7.10%
Salary scale	4.50%	4.72%-1.90%
Decrement tables	April 1, 2015- March 31, 2020 System's Experience	July 1, 2009- June 30, 2014 System's Experience
Inflation rate	2.70%	2.20%
COLA's	1.40%	1.30%

For ERS, annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2019. For TRS, annuitant mortality rates are based on plan member experience adjustments for mortality improvements based on Society of Actuaries Scale MP-2019.

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2020 are summarized as follows:

	<u>Long Term Expected Rate of Return</u>	
	<u>ERS</u>	<u>TRS</u>
Measurement date	March 31, 2021	June 30, 2020
<u>Asset Type -</u>		
Domestic equity	4.05%	7.10%

( XII. ) (Continued)

The real rate of return is net of the long-term inflation assumption of 2% for ERS and 2.2% for TRS.

\* Excludes equity-oriented long-only funds. For investment management purposes, these funds are included in domestic equity and international equity.

**F. Discount Rate**

The discount rate used to calculate the total pension liability was 5.90% for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**G. Sensitivity of the Net Pension Liability to the Discount Rate Assumption**

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 5.90% for ERS and 7.10% for TRS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentagepoint lower (4.90% for ERS and 6.10% for TRS ) or 1-percentage-point higher (6.90% for ERS and 8.10% for TRS) than the current assumption :

**XIII. Postemployment Benefits**

**A. General Information About the OPEB Plan**

*Plan Description* – The District's defined benefit OPEB plan, provides OPEB for all permanent full-time general and public safety employees of the District. The plan is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

*Benefits Provided* – The District provides healthcare and life insurance benefits for retirees and their dependents. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

( XIII. ) (Continued)

*Employees Covered by Benefit Terms* – At June 30, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	399
Active Employees	552
<b>Total</b>	<b>951</b>

**B. Total OPEB Liability**

The District's total OPEB liability of \$107,359,277 was measured as of June 30, 2021, and was determined by an actuarial valuation as of that date.

*Actuarial Assumptions and Other Inputs* – The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.16 percent
Salary Increases	2.60 percent, average, including inflation
Discount Rate	2.16 percent
Healthcare Cost Trend Rates	Initial rate of 5.30% decreasing to an ultimate rate of 4.10%
Retirees' Share of Benefit-Related Costs	Varies depending on contract

The discount rate was based a yield or index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality rates were based on RP-2014, as appropriate, with adjustments for mortality improvements based on Scale AA.

**C. Changes in the Total OPEB Liability**

**XIV. Risk Management**

**A. General Information**

The District is exposed to various risks of loss related to injuries to employees, theft, damages, natural disasters, etc. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

**B. Workers' Compensation**

The District incurs costs related to the Wayne-Finger Lakes Area School Workers' Compensation Plan (Plan) sponsored by the Board of Cooperative Educational Services, of Ontario, Seneca, Yates, Cayuga and Wayne Counties and its component districts. The Plan's objectives are to furnish workers' compensation benefits to participating districts at a significant cost savings. Membership in the Plan may be offered to any component district of the Ontario, Seneca, Yates, Cayuga and Wayne Counties BOCES with the approval of the Board of Directors. Voluntary withdrawal from the Plan may be effective only once annually on the last day of the Plan year as may be established by the Board of Directors. Notice of the Intention to Withdraw must be given in writing to the Chairman of the Board of Directors and the Treasurer not less than one year prior to the end of the Plan year.

Plan membership is currently comprised of Wayne-Finger Lakes BOCES and twenty-two districts. If a surplus of participants' assessments exists after the close of a Plan year, the Board may retain from such surplus an amount sufficient to establish and maintain a claim contingency fund. Surplus funds in excess of the amount transferred to or included in such contingency fund shall be applied in reduction of the next annual assessment or to the billing of Plan participants. All monies paid to the Treasurer by participants shall be commingled and administered as a common fund. No refunds shall be made to a participant and no assessments shall be charged to a participant other than the annual assessment. However, if it appears to the Board of Directors that the liabilities of the Plan will exceed its cash assets, after taking into account any "excess insurance", the Board shall determine the amount needed to meet such deficiency and shall assess such amount against all participants pro-rata per enrollee.

**( XIV. ) (Continued)**

The Plan purchases, on an annual basis, stop-loss insurance to limit its exposure for claims paid.

The Plan establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. However, because actual claims costs depend on complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Such claims are based on the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and claims that have been incurred but not reported. Adjustments to claims liabilities are charged or credited to expenses in the periods in which they are made. During the year ended June 30, 2021, the Canandaigua City School District, New York incurred premiums or contribution expenditures totaling \$342,690. The District has established a workers' compensation reserve totaling \$1,384,970 as of June 30, 2021.

The Plan is audited on an annual basis and is available at the BOCES administrative offices. The most recent audit available for the year ended June 30, 2020, revealed that the Plan was underfunded.

**C. Unemployment**

District employees are entitled to coverage under the New York State Unemployment Insurance Law. The District has elected to discharge its liability to the New York State Unemployment Insurance Fund (the Fund) by the benefit reimbursement method, a dollar-for-dollar reimbursement to the fund for benefits paid from the fund to former employees. The District has established a self insurance fund to pay these claims. There were no claim and judgment expenditures of this program for the 2020-21 fiscal year. The balance of the fund at June 30, 2021 was \$472,043 and is recorded in the General Fund as an Unemployment Insurance Reserve. In addition, as of June 30, 2021, no loss contingencies existed or were considered probable or estimable for incurred but not reported claims payable.

**XV. Commitments and Contingencies**

**A. Litigation**

There are tax certiorari cases requesting reduction of assessments. The District has established a Tax Certiorari reserve to help offset any potential liability.

**B. Grants**

The District has received grants, which are subject to audit by agencies of the State and Federal Governments. Such audits may result in disallowances and a request for a return of funds. Based on prior years' experience, the District's administration believes disallowances, if any, will be immaterial.

**C. Voluntary Employee Benefit Association (VEBA)**

The District has established a VEBA program for eligible employees. The purpose of the plan is to provide employees with certain health care and medical expense benefits in addition to the basic health insurance coverage. There were no contributions for the 2020-21 fiscal year. The account is recorded in the General Fund and the balance as of June 30, 2021 was \$470,344.

## **XVI. Tax Abatement**

The County of Ontario IDA, and the District enter into various property tax abatement programs for the purpose of Economic Development. As a result the district property tax revenue was reduced \$1,508,609. The District received payment in lieu of tax (PILOT) payment totaling \$825,731 to help offset the property tax reduction, which resulted in a net tax abatement totaling \$682,878.

## **XVII. Subsequent Event**

The District issued two bond anticipation notes in September 2021, one totaling \$6,000,000 at an interest rate of 0.188% and one for \$2,000,000 at an interest rate of 0.195%, both maturing on 6/23/22.

## **XVIII. COVID-19**

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency because of a new strain of coronavirus (the “COVID-19 outbreak”) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the School’s financial condition, liquidity, voter approved budgets, and future results of operations. Management is actively monitoring the global situation on its financial condition, budgets, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the School is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for fiscal year 2022.

In response to the COVID-19 outbreak, the Federal Government passed several COVID relief acts which include funding for elementary and secondary education. The School District was awarded three different stimulus packages known as Coronavirus Aid, Relief and Economic Security Act (CARES), Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA), and the American Rescue Plan Act (ARPA). New York State Required the CARES funds to be reported in the General fund, as an offset to state aid reductions, referred to as the Pandemic Adjustment, while the CRRSA and ARPA funds are required to be reported in the special aid fund.

The District reported \$547,034 in CARES revenues and expenditures during the 2021 fiscal year and has submitted the CRRSA and ARPA funding applications to the New York State Education Department for approval. All three stimulus funds may be used for pre-award costs dating back to March 13, 2020, when the national emergency was declared. The District also provided free breakfast and lunches to all students (except those who opted out) through the National School Breakfast and Lunch Program.

**Report on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit  
of Financial Statements Performed in Accordance With  
*Government Auditing Standards***

**Independent Auditors' Report**

To the Board of Education  
Canandaigua City School District, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canandaigua City School District, New York, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Canandaigua City School District, New York's basic financial statements, and have issued our report thereon dated October 13, 2021.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the Canandaigua City School District, New York's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Canandaigua City School District, New York's internal control. Accordingly, we do not express an opinion on the effectiveness of the Canandaigua City School District, New York's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Canandaigua City School District, New York's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

October 13, 2021

To the Board of Education  
Canandaigua City School District, New York

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canandaigua City School District, New York as of and for the year ended June 30, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered the Canandaigua City School District, New York's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, as discussed below, we identified certain matters involving the internal control and other operational matters that are presented for your consideration. This letter does not affect our report dated October 13, 2021 on the financial statements of the District. We will review the status of these comments during our next audit engagement. Our comments and recommendations, all of which have been discussed with appropriate members of management, are intended to improve the internal control or result in other operating efficiencies. Our comments are summarized as follows:

The District's responses to the deficiencies identified in our audit have not been subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

**Prior Year Deficiency Pending Corrective Action:**

**Capital Assets –**

The District obtained an updated capital asset and depreciation schedule during the year, however, the schedule prepared by the third party did not include a provision to allocate depreciation by function as required by GASB Statement No. 34.

We recommend the District work with the third party vendor to update the capital asset information to include functional codes in order to allocate the depreciation by function.

**District's Response**

The District Treasurer is currently working with the third party vendor to update the capital asset schedule to allocate depreciation by function. This is anticipated to be completed by December 31, 2021.

**Current Year Deficiency in Internal Control:**

**School Lunch Fund -**

As indicated in the financial statements, the School Lunch Fund had an operating loss totaling \$224,835, prior to a Board approved subsidy from the general fund totaling \$227,229.

We recommend the District continue to monitor the School Lunch Program and develop cost containment and revenue enhancement measures to assist in maintaining the financial integrity of the program.

**District's Response**

The District Assistant Superintendent for Business continuously monitors the financial status of the School Lunch Program throughout the school year. The loss in the School Lunch Program was much higher in 2020-21 than in a typical school year due to the hybrid schedule for students due to the COVID-19 pandemic resulting in much lower participation in the meal program. The District is anticipating higher than normal participation in 2021-22 due to all meals being free for students. This monitoring will be ongoing.

**Prior Year Recommendations:**

We are pleased to report the following prior year recommendations has been implemented to our satisfaction:

1. The District updated their payroll system with regard to calculating salary's.
2. The District transferred old project balances to the appropriate fund.

This communication is intended solely for the information and use of management, the Board, audit committee, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

**LETTER OF COMMUNICATION**

**For Year Ended June 30, 2021**

**MENGEL METZGER BARR & CO. LLP**

Certified Public Accountants

October 13, 2021

To the Board of Education  
Canandaigua City School District, New York

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Canandaigua City School District, New York for the year ended June 30, 2021, and have issued our report thereon dated October 13, 2021. Professional standards require that we provide you with the following information related to our audit.

**A. Our Responsibility Under U.S. Generally Accepted Auditing Standards and OMB Uniform Guidance**

As stated in our engagement letter dated March 30, 2021, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

In planning and performing our audit, we considered the Canandaigua City School District, New York's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. We also considered internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Uniform Guidance.

As part of obtaining reasonable assurance about whether the Canandaigua City School District, New York's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit. Also, in accordance with OMB Uniform Guidance, we examined, on a test basis, evidence about the Canandaigua City School District, New York's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Uniform Guidance* applicable to each of its major federal programs for the purpose of expressing an opinion on the Canandaigua City School District, New York's compliance with those requirements. While our audit provides a reasonable basis for our opinion, it does not provide a legal determination on the Canandaigua City School District, New York's compliance with those requirements.

**B. Planned Scope and Timing of the Audit**

We performed the audit according to the planned scope and timing previously communicated to management and the Board in our engagement letter dated March 30, 2021.

**C. Significant Audit Findings**

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Canandaigua City School District, New York are described in Note 1 to the financial statements. The new accounting pronouncements which were implemented were GASB Statement No. 84, Fiduciary Activities and GASB Statement No. 90, Majority Equity Interest, an amendment of GASB Statements No. 14 and No. 61. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events effecting them may differ significantly from those expected. Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no individually sensitive disclosures affecting the financial statements.

**D. Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

**E. Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has been made aware of immaterial misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

**F. Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

**G. Management Representations**

We have requested certain representations from management that are included in the management representation letter dated October 13, 2021.

**H. Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the governmental unit’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

**I. Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**J. Compliance with All Ethics Requirements Regarding Independence**

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence. Safeguards in place to eliminate or reduce threats to independence to an acceptable level include a skilled, knowledgeable and experienced Business Official who reviews draft financial statements prior to issuance and accepts responsibility for them.

**K. Other Matters**

We applied certain limited procedures to the management’s discussion and analysis, schedule of changes in District’s total OPEB liability and related ratio, schedule of District’s proportionate share of the net pension liability, schedule of District contributions, and budget comparisons, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information accompanying the financial statements (as listed in the table of contents) but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

\* \* \*

This information is intended solely for the use of the Board of Education and management of the Canandaigua City School District, New York and is not intended to be and should not be used by anyone other than these specified parties.

## Request for Overnight Field Trip- Updated September 23, 2021

### Overview

This process is intended to provide adequate information for necessary approvals and better timeframes for the advisors to plan and commit funds for the group / club involved. The process for BoE approval of overnight field trips involves **two** separate approvals. **Failure to complete all approval documentations and meet all approval deadlines risks the trip being declined and therefore not approved.**

#### 1. Initial Approval (Planning)

- a. Submit Cover Sheet (*attached*) with all available information completed to the building Principal. Include any information available whether it is incomplete or not. The more information provided, the fewer questions asked. This should occur at or near the initial discussions of a possible trip, typically, at least 6/8 months before the trip dates. **Where appropriate, requests for approval for recurring field trips can be submitted 8 weeks prior to departure but prior to any student/parent commitments.**
- b. Principal or Athletic Director reviews/approves and forwards to Director of Transportation.
- c. The Director of Transportation reviews/signs and forwards to the Assistant Superintendent for Instruction (ASI) for review and approval.
- d. ASI forwards to Superintendent for review and approval as a recommendation to the BOE.
- e. BOE approves – this approval is with the knowledge that further planning and arrangements need to be made. This includes initial deposits. If deposits are over \$500, Superintendent approval is required.
- f. **No fund raising specific to the overnight trip shall begin until initial approval has been given by the BOE.**
- g. **It is understood that athletic tournaments pose a challenge in respect to time lines. When this occurs, the Athletic Director will speak with the Superintendent prior to submission of paperwork.**

#### 2. Final Approval

- a. Submit completed cover sheet with all checklist items addressed and sample items attached. Complete chaperone lists and itineraries are required. The **original packet should be used** and submitted no later than one month prior to the trip. This submission goes to Principal or Athletic Director, then to the Director of Transportation, then ASI and Superintendent.
- b. Principal or Athletic Director, ASI and Superintendent will provide feedback on questions. Once acceptable, Superintendent will forward to BOE with recommendation to approve. **Any** significant changes to the itinerary, chaperone list and/or safety considerations, must be communicated to the building Principal as soon as possible.
- c. BOE approval – this is the final approval and allows for all other applicable deposits/payments to be made. There may be more information needed prior to final approval.
- d. Approval trips will be cc'd to Transportation and Food Service Directors.

#### 3. Overnight Field Trip Procedures

- a. Student and parent signature required for rules/regulations documents.
- b. Parent meetings shall be held prior to the overnight field trip. The employee in charge of the field trip shall contact parents who do not attend by telephone to ensure an understanding of responsibilities.
- c. Director of Transportation shall be contacted to affirm the appropriateness of transportation secured, including but not limited to reviewing paperwork from the transportation company.
- d. **Student luggage shall be searched prior to departure for an overnight field trip. Procedure for doing so should be outlined and submitted to the building principal.**

### Request for Overnight Field Trip

To authorize overnight field trip approval, each section of this cover sheet must be filled out **in detail along with accompanying documents** (itinerary, permission slip, forms, etc.). Failure to complete this cover sheet and provide thorough documentation will result in the packet being returned without making it onto a board agenda thus delaying and jeopardizing potential approval. *At no point should there be any parent or student meeting(s) nor money collected prior to this form reaching board approval, unless there is preapproval by the Superintendent.* Should you have questions regarding proper completion of the forms, please see your immediate supervisor for assistance.

## **IMPORTANT TRIP NOTICE**

The Canandaigua City School District recognizes the importance of field trips (day trips and overnight experiences) and how they enhance both our instructional and co-curricular programs. We are excited to support field trips during the 2021-2022 school year and we have worked with our staff to make sure that safety protocols are in place for those traveling on the field trips.

As we continue to learn to operate in a world with COVID-19, we offer these programs with student safety in mind, but understand that there are some additional challenges associated with traveling at this time. Trip insurance is available therefore please review the information related to the coverage so you can make an informed decision which makes the most sense for your family. Furthermore, please understand that while a trip may be approved, it is conceivable that it could be cancelled by the school district or the travel company if there are travel restrictions or other factors that would lead to an unsafe situation.

Essentially, we want to be clear and transparent that it is the district's intention to acknowledge that we must learn to live in a world with COVID and provide these meaningful experiences for our school community but along with that comes inherent risks of quarantines, isolations, and cancellations which could result in lost money for families. Please only commit to trips if you believe it is worth the risks mentioned.

# Letter from School Nurses Regarding Medication

To: Parents/Guardians of students attending trip to Windsor on 12/29

From: Donna Ryan, Canandaigua Academy

Re: Medication for Windsor Wrestling Tournament

The guidelines for students taking prescription and non-prescription drugs on the trip are as follows:

- **All medications** require a Health Care Provider's order for each medication. Parents/Guardians must bring the medication in to the School Nurse by 12/20.
- Parents/Guardians need to sign the health information sheet.
- Medication **must be** in the prescription/original bottle, clearly labeled with the dose and the time of administration.
- The students may self-carry and administer inhalers, epi-pens, and diabetic supplies as long as they have a record of this on file in the nurses' office for this school year.
- Prescribed medications will be given by a medical practitioner/chaperone traveling with the group.
- The School Nurse will provide the medical practitioner/chaperone with all appropriate information.
- Students **will not** be allowed to carry non-prescription medication (over-the-counter). The nurse/chaperone will administer these to students as necessary.
- Mouthwash is not permitted on the trip.

Please call us at 396-3700 x3820 if you have any questions.

### Behavior Expectations/Monitoring Guidelines

This trip is a school sponsored activity provided for you by the Board of Education, your family—and through your own effort and cooperation. Its intent is that of an enjoyable, educational, cultural, and social event free from distractions and stresses caused by negative behavioral situations. All school rules are in effect at all times. Violators will be disciplined through standard district channels upon return to Canandaigua. Immediate and necessary action will be handled by administrators while on the trip. In severe cases parents will be notified that a serious violation has occurred, and the student involved will be transported home immediately **by a parent, at the parent's expense.**

**It is assumed by your participation in this trip that you agree to the following:**

- To refrain from the use of alcohol, tobacco, controlled substances, and any form of illegal and/or illicit substances. Violations will carry severe consequences **including police action** if necessary. Similarly, any attempt at shoplifting or theft at any location will involve the police.
- If the use of illegal and/or illicit drugs or alcohol is suspected, the chaperones and a building administrator will IMMEDIATELY confront the student(s). The administrator will call parents and local police.
- **It will be each parent's responsibility to provide immediate transportation home for their child if he/she is found in violation of the school's alcohol, drug, weapons, or theft/vandalism policy.**
- Students are required to abide by any trip safety plan including COVID requirements and local authority and host requirements.
- There will be no smoking or burning of incense/candles in hotel rooms.
- Students are **ONLY** allowed in their assigned hotel room. If a student is in another student's hotel room, the door must be **WIDE OPEN AT ALL TIMES.**
- To respond immediately and with due respect to directives issued by the chaperones, tour guides, bus drivers, hotel and restaurant personnel, and any others in authority.
- To adhere to the itinerary sites as a group, with the understanding that "side trips" on your own are not allowed. No one is to walk or take any public or private transportation to any other location for any reason. Your whereabouts must be known by the trip chaperones at all times.
- To strictly adhere to all announced time schedules, including all meeting times and locations and curfews. Once "lights out" time occurs at the hotel, no one is to leave his or her assigned room until the next morning.
- To conduct yourself in an adult fashion at all times. You are representing your family and your school, as well as yourself. Immature behavior of **any type** will be immediately halted, and students involved will be reprimanded. You will be expected to dress and conduct yourself with dignity and class at all times. Loud, raucous, disruptive, or distracting behavior will not be allowed.
- To show respect for others and the property of others - students, chaperones, hosts at attractions, and at the hotel restaurants and other locations we will be visiting.
- To feel confident to report any complaints or problems to the appropriate chaperone(s).
- At no time will students be allowed to sleep in areas other than those assigned.
- Visits by local family members are to be pre-arranged and PRECEDED with a note from your parent.
- Visits by local friends are specifically not allowed.
- Students will be taped into their hotel rooms each night.

We are all responsible for making this a safe trip that is totally incident-free so that we can continue to build on this kind of activity in the future.

CANANDAIGUA **WRESTLING**  
Trip

**PARENT/STUDENT CONTRACT  
TO BE READ, SIGNED and RETURNED**

**1. Drugs, Alcohol and Tobacco**

The students of **Canandaigua Wrestling** must follow the policy concerning the possession and use of drugs, alcohol and tobacco. At no time during the trip, from the time **we depart Canandaigua on 12/29 and return to Canandaigua on 12/30** are students to be in the possession of and/or using illegal and/or illicit drugs, alcohol or tobacco products (including smokeless tobacco products). Violation of this rule will result in a call home, disciplinary action upon returning to Canandaigua, and the loss of the right to participate in senior year activities for the remainder of the year (i.e. senior ball, possibly graduation ceremony). In the case of drug possession and use, we will notify the local authorities. Be aware that violation of the drug, alcohol, and tobacco contract will have training rule implications. As mentioned several times already, the trip will be immediately cancelled for violation of the school's drug, alcohol, weapons, or thievery/vandalism policy and an immediate parent-accompanied return home will take place.

**2. Being on Time**

Many of the activities planned while in **Windsor** involve appointments and reservations that have been made months in advance. Therefore, it is very important that everyone is punctual. The necessary times and meeting points will be indicated to you each day; it is your responsibility to be on time.

**3. Body piercing/tattooing**

Students are NOT allowed to have any part of their bodies pierced or tattooed while on this trip. **Windsor** is a large city with the potential for contracting a communicable disease if one engages in an activity such as piercing or tattooing, as there is no way to be sure if the equipment used is properly sterilized. We would also have no way of knowing or keeping track of whether or not the student had parental permission; therefore it will NOT be allowed.

**4. Free Time**

The trip we have planned for students in **Windsor** allows for little free time. Students must stay together in groups of at least three people (with at least one person with a cell phone) for their own safety and must remain in the areas designated by the chaperones and tour guides. You may not fully appreciate how large **Windsor** is and how quickly the potential for problems may arise if you are not cautious. We want this to be a fantastic experience, as it has been the past, and therefore you must act responsibly.

**5. Curfew**

Each night you will be given a curfew which will be based on the next day's activities. Upon returning to the hotel there will be time to socialize, etc. Students must be in their rooms before curfew. At designated times, chaperones will do room checks. All persons assigned to the room must be in that room for room check. Once the room is checked, the chaperones will place a small piece of masking tape over one corner of the door. The door must then remain shut and students in their room until the next morning. We do not do this because we mistrust

the students. It is done in the hopes of removing any temptation to wander around at night. We take our responsibility for your safety seriously.

**6. Serious Infractions of Any of the Rules, Safety Plan or local authority or host requirements**

If you violate any of the above rules/regulations, causing a serious situation, or if you continuously and willfully violate any of the above, you will be sent home with your parent at their expense. The chaperones and tour director will make this decision in consultation with school district officials. You will also face school consequences as a result.

**7. Theft and Loss of Personal Items**

At no time is Canandaigua Wrestling responsible for the theft or loss of personal items.

# General Trip Tips

1. Never give out your hotel name or room number to strangers!
2. You will pay for services charged to your room (i.e. long distance phone calls, room service, movies, etc.)
3. The maid will take money left out in your room. He/She will think it is a tip. So unless it is intended as a tip, keep it on you at all times.
4. Valuables should either be left at home or be kept in the *hotel safe*. If lost or stolen, we are not responsible.
5. Do not venture out on your own!
6. You **MUST ALWAYS** travel **WITH A CHAPERONE or BUDDY!**
7. You may bring an I-Pod or personal music device, but you cannot bring anything with open speakers. Remember -- you bring these items **at your own risk**. We will take no responsibility if they are lost or stolen.
8. Keep the bus and plane neat and clean at all times. Continually police your own area!
9. **PACK:**
  - One suitcase for under the bus.
  - One very small soft carry-on bag to keep with you on the bus, along with a pillow and blanket.
  - Bring appropriate clothing for the trip.
  - A cell phone or watch. It is critical that you are always **ON TIME!**
  - **Bring some snacks for the way down on the bus. You may not bring opened drinks, but you may bring wrapped snacks, like granola bars and such, and unopened containers to drink.**
10. Budget money for:
  - Lunch each day of competition
  - Snack throughout the day
  - Souvenirs
11. Be sure to represent yourself, school, parents, community, chaperone, etc. in a positive light.
12. The school rules, as clearly written in your student agenda and throughout this packet, will be in effect for the entire trip.
13. Inappropriate items purchased on this trip will be confiscated and returned to you only when your parents pick you up.

# Chaperone Responsibilities

## THE FOLLOWING IS A LIST OF CHAPERONE RESPONSIBILITIES

### KEEP IN MIND THE FOLLOWING:

1. Have the students keep all areas neat and clean at all times.
2. Certain foods are okay on the bus, but students need to be considerate of others.
3. Students need to remember to respect others in terms of noise levels.
4. Personal music devices (mp3 players) are acceptable; however, *no open speakers are permitted*.

### BE SURE THAT STUDENTS ASSIGNED TO YOU ARE ON THE BUS EVERY TIME WE DEPART.

1. In addition to taking role call at designated areas and times, you should also remain in contact with your group at all times.

### INFORM ADVISOR OF ANY SEVERE PROBLEMS AS SOON AS POSSIBLE.

1. The advisor may suggest ways for you to handle the problem or may opt to handle it him/herself

### BE AVAILABLE FOR CHAPERONE MEETINGS AT ANY OR ALL OF THE FOLLOWING:

1. Immediately after attendance is taken on each bus
2. Upon arrival to each location- before students are allowed to unload
3. Every organized meal
4. After curfew
5. Other times as necessary

### ENFORCE THE SCHOOL RULES

Please read the school rules and become familiar with them. As chaperones we set the tone for the entire trip, not only with our attitude and disciplinary style, but also with our actions and words. As chaperones, we all assume the responsibility of being a role model.

One item that we would like to call to your attention is the school rule regarding the use of tobacco and alcohol. As adults, we have the freedom to make personal choices about the consumption of these products, but as *leaders* of young adults we are models of healthy choices. Whether your personal philosophy advocates the use of these products or not, you should not be seen smoking nor should you consume alcohol at any time!

We are each parent's proxy on this trip. A mishandled "chaperone - student" situation can easily be attributed to an error in judgment.

COVID Safety Plan:

1. Site has a written plan that is attached that meets or (can) exceed district plan, especially in evolving situation.
2. Trip policies to limit transmission if required by district or authorities – limit to 4 in sleeping cohort, etc. selected by family or social group; activities structured to decrease possible transmission, etc.
3. Process to report/ respond to COVID outbreak prior, during or after trip.
4. Process to manage vulnerable/fragile participants.
5. Other specific safety requirements.

**Attachment 9**

**Trip Safety Plan**

Outline below your safety considerations and plans specific to COVID:

- Car pooling in smaller groups of 4.
- You will room with your car pool group at the hotel.
- Any COVID cases will be reported to the District COVID Director.
- Masks worn at all times indoors.
- Will follow all local guidelines pertaining to COVID.

## Public Expression at Board Meetings

The Board of Education encourages public participation on school related matters at Board meetings, as outlined in this policy.

Regular meetings of the Board are conducted in public for the purpose of carrying out the business of the schools, and the public has a right to attend such meetings. Board meetings are conducted in public so that the public can observe its school government in action. However, this is not a public meeting, therefore, the public comment portion of our business meeting is the only time for the Board to hear from those in attendance who are from the school community and/or Canandaigua City School District residence.

1. Persons wishing to address the Board are asked to contact the District Clerk at 585-396-3710 by noon on the day of a meeting and to state a brief description of the topic to be addressed.
2. Speakers must sign in at the front door. Speakers must be recognized by the President and then identify themselves by stating their name and address.
3. A period not to exceed fifteen minutes shall be set aside during the first part of each Board meeting for public participation. Individual comments will be limited to three minutes.
4. Any group or organization wishing to address the Board must identify a single spokesperson.
5. Those items brought to the attention of the Board during this time may be taken under consideration for future response or action, but will not be discussed during the meeting.
6. As a matter of courtesy, we ask that issues related to specific District personnel or students be brought to the attention of the Superintendent privately.
7. Speakers must conduct themselves in a civil and respectful manner.
8. The President is the spokesperson for the Board and is responsible for the orderly conduct of the meeting.
9. In the event of a virtual meeting, the person wishing to speak will be given a link by the District Clerk to join the public session for the duration of their comments.

## PROPOSED- Rewrite of Policy 1095- Second Reading

### **Public Expression During Board Meetings**

The Board encourages public expression at Board meetings. Time permitting, the Board will designate a specific portion of its meeting agenda for this participation. In all circumstances, reasonable decorum and order must be maintained during the public comment period. The Superintendent shall create and, as warranted, periodically update regulations setting forth requirements and procedures relating to the conduct of public comment periods during Board meetings consistent with this policy and applicable law.

## Cellular Phones

The Board of Education supports the appropriate use of cellular telephones as a means to improve efficiency, reduce costs or enhance the safety and security of students, staff, visitors and facilities.

The district will provide a stipend to an employee when said employee is required to utilize a mobile phone because of the nature of their job duties and as determined by the Superintendent or designee.

Board Approved: September 23, 2019
