

Beaufort County School District Capital Renewal Renovations & Modifications

20-016 | JANUARY 10, 2020 AT 2:00 PM CONSTRUCTION MANAGEMENT AT-RISK SERVICES - TECHNICAL PROPOSAL

INTRODUCTORY LETTER

Capital Renewal Renovations & Modifications Projects Preconstruction & Construction Phase Services, 20-016

Friday, January 10, 2020 at 2:00 PM Beaufort County School District Procurement Office, 2900 Mink Point Blvd. Beaufort, SC 29902

Attn: Ms. Kaylee Yinger

Dear Ms. Yinger and Members of the Selection Committee;

Each year, Thompson Turner Construction looks forward to submitting our qualifications for your Capital Renewal Renovations & Modifications Projects. Beaufort County School District is our most valued client; we have enjoyed our long-standing history of collaboration and success on some very challenging and faced-paced projects and consider it an honor that we have been selected to perform your program work for the last ten consecutive summers. As in years past, we present to you a team that is uniquely qualified to successfully deliver this program to you, both on time and on budget.

At Thompson Turner Construction, we believe that history is an excellent predictor of the future. Not only have we had proven success in the past ten years of delivering your Capital Renewal Projects to you, but we have recently been able to hone our expertise in managing complicated Capital Improvement Programs for other districts across the state. With experience in pre-planning and executing similar programs for Lexington School District 3, Marlboro County School District, Lancaster County School District, District Five of Lexington and Richland Counties, and Richland Two School District, we can say with confidence that Beaufort County School District's program will be set up for success by choosing Thompson Turner Construction as your construction manager.

If so fortunate to be entrusted with this work, Thompson Turner Construction will start planning this work in early winter, establishing budgets and schedules and encouraging participation of both local and minority subcontractors to ensure that we are ready to go to work the minute your students break for the summer. We are again utilizing the talents of Laura Wise, Katheryn Young, Todd McElveen, and others who have all enjoyed a positive working relationship with your District.

In closing, I would like to express my continuous thanks for the trust and confidence you have placed in myself and our team in the past. I've played an active part in the construction of Beaufort County since 1986 and consider the ability to continue to work down there an honor and a privilege. Thompson Turner Construction looks forward to being considered for your program and earning the right to continue to be your trusted partner to ensure your District's success.

Sincerely,

Hal Turner

Vice President, Thompson Turner Construction, a division of Thompson Construction Group, Inc.

RFP #20-016 Capital Renewal Pre-Construction & Construction Services (FY 2021)

TABLE OF CONTENTS

- A FIRM INFORMATION
- **B** PROJECT TEAM
- C PREVIOUS EXPERIENCE
- D WORKLOAD
- **E** FINANCIAL STABILITY
- G MISCELLANEOUS
- **H** APPENDIX

FIRM INFORMATION

1. Firm name

Thompson Turner Construction

2. Firm address

100 N. Main Street | Sumter, SC 29150

3. History of company, including ownership and key management.

Thompson Turner Construction, a division of Thompson Construction Group, has built a reputation in the construction market through years of delivering quality services on time with competitive pricing. *To us, every job matters.* We partner with our clients to be a contributing part of their community for the long term. We concentrate on the details of the job at hand while keeping an eye on the big picture.

Thompson Turner Construction was purposely formed in 2001 by Hal Turner, Vice President, and Greg Thompson, President of Thompson Construction Group, to further develop the potential to be a major provider of building construction services, both large and small, and to focus on new construction, additions, and renovations. Since inception, Thompson Turner Construction has utilized traditional Design-Bid-Build as well as Design-Build, Construction Management At-Risk (CM At-Risk), and Integrated Project Delivery. We have extensive experience with building programs and capital improvement programs with numerous school districts throughout South Carolina and, to date, have completed over 5 million square feet of educational facilities for our clients.

Thompson Turner Construction's core focus has always been public sector projects, primarily educational, municipal, and community facilities. We take great pride in knowing 90% of our work comes from repeat clients, and we want to continue to earn the privilege of being asked to return. We have pioneered the use of CM At-Risk for public sector construction in South Carolina and believe that this team-oriented approach greatly benefits our owners. Over the past eight years, Thompson Turner Construction has successfully completed over 140 CM At-Risk projects within the state; our team understands this delivery method as well as the challenges and unique issues of working on this type of capital renewal program,

the need to be flexible, and above all else, how to maintain a safe environment for all involved.

4. Contact information for the Officer of the Firm in charge of this proposal.

Hal Turner, Vice President 803.773.8005 (o) 803.972.1011 (c) hturner@thompsonturner.com

5. Describe any company changes that are anticipated to occur during the life of the project.

Thompson Turner Construction has no anticipated changes that will occur during the life of the project.

6. Location of corporate headquarters and other divisional offices.

100 N. Main Street, Sumter, SC 29150 (HQ) 111 Coleman Blvd., Mt. Pleasant, SC 29464 1116 Henderson Street, Columbia, SC 29201 75 Beattie Place, Suite 1200, Greenville, SC 29601

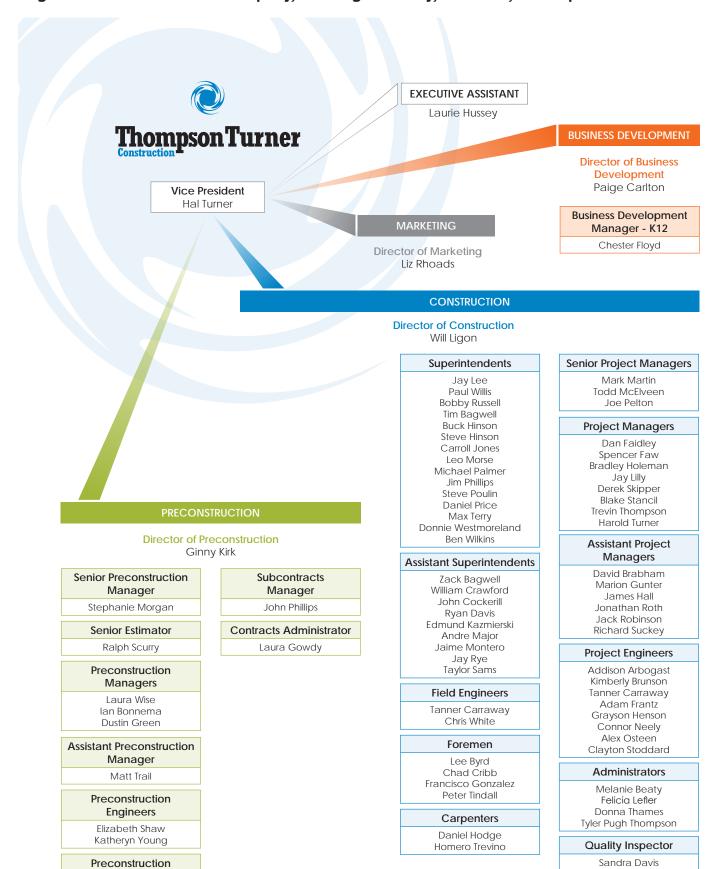

7. Location of office(s) which will be involved in the project during both preconstruction and construction.

Thompson Turner Construction's Charleston office will be managing the preconstruction and construction phases of this program, with preconstruction assistance from our proposed personnel in Columbia. Upon construction commencement, we will establish a field office in Beaufort for immediate access to District personnel and all jobsites.

1. Provide resumes describing your anticipated Project Team, along with their individual and team experience in projects similar in nature to the proposed project, and 2. Include an organizational chart identifying key individuals and their responsibilities.

Thompson Turner Construction's team of highly qualified construction professionals proposed for the Capital Renewal Renovations and Modifications projects have extensive experience and are very familiar with building and renovating occupied project sites where safety is the utmost concern. We can provide a full-time superintendent for each project or for multiple projects based on the District's needs. This decision will be reviewed with the District and be based on the size and complexity of the program.

21 Years Experience | LEED AP

Will has over 21 years of experience in the construction industry. His experience has included corporate management, project management, estimating, scheduling, and quality assurance in every facet of the construction industry. His current duties include site field administration, supervision and technical management for all construction operations including direct supervision of foreman, subcontractors and other construction related personnel. He is responsible for the scheduling, planning, coordination, and execution of work on time, within budget and maintaining a safe work environment. Will directs and/or participates in weekly subcontractor meetings and Owner/ Architect/Contractor meetings on a regular basis. He is responsible for communicating to Owners/Architects the status updates and vital information about their project as it relates to schedule, budget, quality, and phasing. Will holds a Bachelors of Science in Construction Science and Management from Clemson University and an Associate's Degree

RECENT PROJECT

Boiling Springs High School & 9th Grade Academy

Boiling Springs, SC

Thompson Turner Construction was hired by Spartanburg School District 2 to provide CM At-Risk services for the construction of the new Boiling Springs High School, The project includes a new 320,000-square-foot, 85-classroom high school and the renovation of the adjacent existing high school into the 9th grade academy. Highlights of the project include connectivity to the existing BSHS, solar orientation, providing a safe and secure setting, enhancing the indoor/ outdoor connection, incorporating views and natural daylight throughout the building, and developing a welcoming and clear identity for the site that will be pleasing to the community. Originally scheduled to open in January 2020, the high school was opened six months ahead of schedule while returning over \$3.5 million in savings back to the district.

LAURA WALTZ
PRECONSTRUCTION MANAGER

8 Years Experience

Laura has over eight years of experience in estimating and project management, focusing on projects in a variety of industries including education, industrial, government, and commercial. She works effectively and collaboratively with architects and designers, in partnership with the project owner, from the outset of a project to completion. Additionally, she works with estimating personnel and project teams to deliver highly detailed and accurate budgets from Conceptual Design Phase into Construction Documents. Laura has a bachelor of science degree in Construction Engineering from Purdue University.

RECENT PROJECT

Beaufort County School District Capital Renewal Program Beaufort, SC

Thompson Turner Construction provided CM At-Risk services during ten consecutive Capital Improvement Programs (CIP) for the Beaufort County School District (2010 - 2019). These summer projects involved scopes that included major CSI specification divisions. Projects required new architectural finishes, HVAC replacement, fire alarm replacement, secured entry addition, classroom additions, new parking lots, new sod for athletic fields, and replacement of kitchen equipment. Each year the CIP work was completed within the 45 day schedule set by the District.

COMPANY PROFILE

Company founder, Nathaniel Spells, Sr. began a career in construction after graduating from Clemson University in 1972 with a Bachelor of Science degree in Building Construction. After years of working with some of the nation's leading construction companies across the United States, Mr. Spells pursued his dream of entrepreneurship by establishing Construction Dynamics, Inc. (CDI) in 1987 from his garage. CDI's first project was a residential addition valued at thirty thousand dollars. Twenty eight years later, CDI has emerged as one of the premier Minority General Contracting/Construction Management firms in the Southeast. Our clientele has ranged from colleges (Benedict College, SC State, Clemson University), municipalities (Town of Santee, City of Columbia, Horry County) military installations (MCAS Beaufort, Fort Jackson, Camp Lejeune), religious facilities (Brookland Baptist Church, First Northeast Baptist Church), and school districts (Charleston, Beaufort, Berkeley, Orangeburg Five, Richland One, Richland Two and Sumter Two). CDI has continued to succeed through proactive communication, close collaboration, extraordinary attention to detail and an unsurpassed work ethic.

TODD MCELVEEN

SR. PROJECT MANAGER

15 Years Experience | LEED AP BD+C

Todd has over 15 years of experience in the construction industry. RECENT PROJECT

The Continuum Lake City, SC

Thompson Turner Construction was hired to provide CM At-Risk Services for The Continuum, started by mega-philanthropist Darla Moore. Set to enroll its first students in August 2019, Continuum is a building where Francis Marion University and Florence-Darlington Technical College will serve as a one-stop shop for an associate's degree and everything short of it. The project includes the use of custom glulam "Y" shaped columns that support a structural dowel laminate timber (DLT) deck, which will create a clerestory slice through the building to introduce natural light and provide an opportunity for wayfinding through the existing 'big box' footprint.

Taylor has the knowledge and management skills to assist project superintendents in overseeing daily operations as well as subcontractor management. When not in the field he assists project managers with submittals, schedules, close out documentation, and construction coordination. Taylor also acts as an onsite Thompson Turner Construction representative working with Owners, Architects, and Engineers. He holds a bachelors of science in Civil Engineering from Clemson University.

RECENT PROJECT

Imperial Tobacco Lake City, SC

Thompson Turner Construction was enlisted to stabilize the historical Imperial Tobacco Company building in Lake City, built in 1912. This building is listed on the South Carolina Historical Marker Program and the owner had a desire to save the unique building. Thompson Turner had to install new concrete footings, structural steel, and replace some of the wood framing and decking. The steel was brought in through openings in the existing brick wall with some of the openings requiring masonry work to re-stabilize.

3. Identify current team member obligations, project assignments, and the approximate percentage of time each team member will spend on this project during the different stages of the project.

Please refer to the attached resumes for each team members' current obligations and project assignments. The percentage of time each team member will spend on your projects during the different stages are noted in the table below:

| Name | Title | Preconstruction | Construction |
|-------------------|------------------------------|-----------------|--------------|
| Hal Turner | VP / Project Executive | 15% | 15% |
| Ginny McGill Kirk | Director of Preconstruction | 25% | 5% |
| Will Ligon | Director of Construction | 15% | 15% |
| Laura Wise | Preconstruction Manager | 40% | 10% |
| Katheryn Young | Sr. Preconstruction Engineer | 40% | 10% |
| Nate Spells, Sr. | L/SWMBE Outreach | 15% | 0% |
| Nate Spells, Jr. | L/SWMBE Outreach | 15% | 0% |
| Todd McElveen | Senior Project Manager | 20% | 75% |
| James Hall | Assistant Project Manager | 15% | 100% |
| David Brabham | Assistant Project Manager | 15% | 100% |
| Leo Morse | Superintendent | 15% | 100% |
| Paul Willis | Superintendent | 15% | 100% |
| Bobby Russell | Superintendent | 15% | 100% |
| Taylor Sams | Assistant Superintendent | 15% | 100% |
| Jesse Leigh | Safety Manager | 10% | 25% |

4. Describe how the construction team would be organized throughout the life of the project.

Thompson Turner Construction's team of construction professionals have the experience and understanding you need to execute your capital renewal program successfully. Hal Turner, Vice President, will serve as Project Executive for this scope of work and will be intimately involved during the all phases of the program, working with the team on constructability reviews, budgeting, and overall project management. Hal takes an active role from the beginning of the projects to ensure attention to detail and quality at every level is maintained.

Ginny McGill Kirk serves as the Director of Preconstruction for Thompson Turner Construction and has over seven years of experience in the K-12 market. Her resume includes over \$300 million of guaranteed maximum prices (GMPs) negotiated with K-12 owners. She will work through preconstruction to ensure that BCSD's perspective is kept front and center with the assistance of Preconstruction Manager, Laura Wise and Senior Preconstruction Engineer, Katheryn Young. Nate Spells Sr. and Nate Spells, Jr. of Construction Dynamics, Inc. will be performing local and minority outreach for the entire program.

Thompson Turner Construction will provide exceptional supervision and oversight by providing our Director of Construction, Will Ligon, who provides guidance to the entire construction team. Todd McElveen, Senior Project Manager, will be working with our qualified full-time, onsite Project Managers David Brabham and James Hall, Superintendents Leo Morse, Paul Willis, Bobby Russell, and Taylor Sams to make sure your various projects across the District are executed safety, on time, and on budget.

Todd McElveen, Senior Project Manager, has over 15 years of experience in the construction industry and has specific experience in managing past projects within this program for BCSD. His responsibilities include site field administration, supervision, and technical management for all construction operations including direct supervision of foremen, subcontractors, and other construction-related personnel. He

executes scheduling, planning, and coordination of the scope of work on time and within budget while maintaining a safe work environment. Once construction commences, Todd will transition to our Beaufort field office to direct weekly subcontractor meetings and Owner/Architect/ Contractor meetings.

Our full-time, onsite project managers and superintendents will supervise and coordinate all construction activities. This includes coordination with BCSD, problem solving with Architects/ Engineers, managing and coordinating trade contractors, maintaining quality control, adhering to the project schedule, and providing a safe working environment. In addition to those proposed, we have additional resources to add to the capital renewal program if required.

Jesse Leigh, Safety Manager, will work with the onsite personnel to develop a site-specific safety plan prior to personnel mobilizing on the jobsite. From there, he will perform weekly safety inspections to make sure that the site is adhering to our stringent safety requirements.

5. Specifically identify your assigned project manager and possible superintendents for the project. Proposers shall propose a single project manager that will be assigned to all

project sites. It is the intent of the District to have a single point of contact (per general contractor selected) for all project sites for pre-construction through completion of construction. The proposed project manager must be present at the RFP interviews, and the selected firm must commit to maintain the same persons as project manager for the entire duration of the project.

Todd McElveen, Senior Project Manager, will be the District's single point of contact throughout all phases of the program. He will work out of our lowcountry office until he transitions to our Beaufort field office upon construction commencement. Todd will be present at the RFP Interviews and work diligently from preconstruction through closeout to ensure the success of this program. Proposed superintendents for the project include Leo Morse, Paul Willis, Bobby Russell, and Taylor Sams.

6. Describe your team's experience as part of a similar project team.

All of our personnel proposed for this opportunity have completed projects similar in size and scope to your proposed program. Our chart below shows the successful and relevant experience of our proposed team.

| | BCSD CIP | Hilton Head Audi | Hilton Head Jaguar | Philip Simmons High School | Goose Creek High School | LexRich5 CIP |
|-------------------|----------|---------------------|-----------------------|-------------------------------|----------------------------|-----------------|
| Hal Turner | | | | | | |
| Ginny McGill Kirk | | | | | | |
| Will Ligon | | | | | | |
| Laura Wise | | | | | | |
| Katheryn Young | | | | | | |
| Nate Spells, Jr. | | | | | | |
| Todd McElveen | | | | | | |
| David Brabham | | | | | | |
| James Hall | | | | | | |
| Leo Morse | | | | | | |
| Paul Willis | | | | | | |
| Bobby Russell | | | | | | |
| Taylor Sams | | | | | | |

1. Describe your previous experience in providing similar services as described above. Provide a minimum of three references of similar projects for these services.

Thompson Turner Construction has performed over 140 CM At-Risk projects as well as capital improvement program work in five (5) districts across the state. We proactively plan the execution of the work in the compressed summer schedule, evaluate systems and methods to ensure we are maximizing the district's allowable budget, and develop schedules to ensure successful delivery prior to the students' arrival. We take great pride in our focus on the budget and seek to maximize owner savings during preconstruction and construction activities. To date, we have never missed an opening date for a project and have never exceeded a GMP for a CM At-Risk project.

Thompson Turner Construction recognizes that one of the primary advantages of CM At-Risk is the involvement of the general contractor early in the design process to help anticipate and contain cost and scope issues. To this end, we use our extensive knowledge of how to plan capital renewal program work coupled with our CM At-Risk experience to provide a 'contractor's perspective' on each project. It is critical that BCSD has this expertise and experience on your project team. Please see our project references located in pages 24 - 33 of this section.

Thompson Turner Construction's current workload includes projects ranging from the conversion of an existing high school to a 9th grade academy to the historic renovation of a downtown US Post Office into higher education classrooms and everything in between. Over 90% of our resume is K-12 and higher education work delivered successfully under qualification-based delivery methods.

- 2. For the past three years, provide the following information:
 - a. Identify all projects (name, location, completion date and contract amount.
 - b. Identify all renovation projects with similar scope.

On the next page is a list of Thompson Turner Construction's current and previous experience in providing similar services relevant to your CIP within the past three years.

| Project | Location (SC) | Owner | Contract | Description | Year |

Renovation projects similar to Beaufort County School District Capital Improvement Program

i. Additionally, indicate any such project where Liquidated Damages were assessed against your firm for failure to achieve substantial completion within the Contract Time, and describe the circumstances of the same;

Thompson Turner Construction has **NEVER** failed to complete a project or has been assessed any liquidated damages for failure to achieve substantial completion.

ii. Identify any such project in which your firm made a Claim or Change Order Request for acceleration damages, and describe the circumstances of the same;

Thompson Turner Construction has **NEVER** made a claim or change order request for acceleration damages.

iii. Identify any such project in which your firm was terminated (whether for cause or for convenience) by the owner prior to substantial completion, and describe the circumstances of the same;

Thompson Turner Construction has **NEVER** been terminated by an owner prior to substantial completion.

iv. Identify all projects which had a negotiated fee or guaranteed maximum price;

All of Thompson Turner Construction's projects in the preceding lists had a negotiated fee or guaranteed maximum price.

v. Identify all projects (description and cost) which had a Guaranteed Maximum Price prior to completion of the documents;

All of Thompson Turner Construction's projects in the preceding lists had a guaranteed maximum price prior to completion of the documents. The more information we are able to obtain from the documents, the more accurate our budgets will be. Thompson Turner Construction commits to working to the benefit of BCSD.

c. Provide descriptions of five renovation projects most comparable to the proposed project scope in which your firm has been involved over the last five years (at least two must be completed). Include the services provided, the Project Team members, schedules, and references.

In addition to the five relevant projects listed below, Thompson Turner Construction has completed over 140 school-related projects within the state of South Carolina. These have included new construction as well as renovations and additions to elementary, middle, and high schools. Thompson Turner Construction takes great pride in providing school districts with educational facilities that students, staff, and the community can enjoy for years to come. Our experience includes working hand-in-hand with school administration staff and office personnel; by doing so Thompson Turner Construction is able to build educational facilities that fit the needs of the Owner.

BEAUFORT COUNTY SCHOOL DISTRICT CIP |

Bluffton, SC

Thompson Turner Construction provided CM At-Risk services during the past ten consecutive Capital Improvement Programs (CIP) for the Beaufort County School District. We are proud to say that we have been the only firm to be hired consecutively since 2010 to complete these projects for the District.

These summer projects involved scopes that included major CSI specification divisions. Projects required new architectural finishes, HVAC replacement, fire alarm replacement, secured entry addition, classroom additions, new parking lots, new sod for athletic fields, and replacement of kitchen equipment. Each year the CIP work was completed within the 45 day schedule set by the District.

The Battery Creek High School project included extensive renovations that were completed over two summers to over 98,000 SF. This scope included relocating and combining classrooms to create new classroom spaces and the installation of a photo/dark room and video production/editing lab. The cafeteria was updated to include new lighting, flooring, painting, and modifying HVAC. The commons area was renovated as well as a new secure student entry with additional exterior modifications.

RICHLAND TWO SCHOOL DISTRICT CIP | Columbia, SC

Thompson Turner Construction was hired by Richland Two School District to perform summer renovations to Lake Carolina Elementary School (pictured above and lower right) and Bridge Creek Elementary School (pictured upper right).

The scope of work at Lake Carolina Elementary School calls for the renovation of the existing group toilets and nine (9) single toilet bathroom additions into existing classrooms.

The renovations at Bridge Creek Elementary School include a new hyperbolic canopy with new sidewalk and concrete pad, room reconfiguration that adds four (4) new spaces and includes new windows, flooring, painting, ceilings, and thermostats in the new spaces, and the addition of more access control.

KERSHAW COUNTY SCHOOL DISTRICT BUILDING PROGRAM

Camden, SC

Thompson Turner Construction was hired by Kershaw County School District to provide CM At-Risk services for design and construction of various projects within the District's bond referendum program.

Camden Elementary School | \$18.8 M

This is a new 92,000 SF, two-story elementary school located on a 4.5-acre site. The exterior facade was designed to compliment the downtown Camden architecture.

Lugoff-Elgin High School Renovation | \$8.2 M

The scope of this project included an addition to the front lobby and cafeteria, new finishes, and replacement of the gymnasium and auditorium seating, renovation of the drop-off loop and canopies, courtyard remodel, and the addition of two new bleacher stands to the football field.

Camden High School Renovation | \$4.4 M

This project included the upgrades of the athletic facilities and auditorium as well as the addition of a well for existing irrigation (for long term cost savings).

1-4. Camden Elementary School 5. Lugoff-Elgin High School Renovations

6. Camden High School Renovations

1. Identify your annual volume of Construction Contracts for the last five years. Where a local office is involved, please provide similar information for the local office.

Thompson Turner Construction's annual volume of Construction Contracts for the last five years are:

| 2019 | 2018 | 2017 | 2016 | 2015 |
|---------------|---------------|---------------|---------------|---------------|
| \$186,000,000 | \$184,000,000 | \$158,000,000 | \$156,000,000 | \$116,000,000 |

2. What is the current dollar value of work under Contract?

Thompson Turner Construction's current dollar value of work under contract is approximately \$282,000,000. This volume of work includes projects not scheduled to be complete until 2022.

3. What is the typical dollar range of projects under Contract with your firm?

Thompson Turner Construction's projects range from \$250,000 to \$130,000,000.

4. Identify what percentage of your work is hard bid and what percentage is based on a CM/GC at Risk or similar approach?

Thompson Turner Construction's percentage of negotiated work is 90% and percentage of hard bid work is 10%.

5. Identify what percentage of your work is renovation versus new construction.

Thompson Turner Construction's percentage of renovation versus new construction is:

- 40% Renovation
- 60% New Construction

FINANCIAL STABILITY

1. Submit your most recent financial statements (at a minimum, balance sheets and income statements for 2017 and 2018) and verification of current bonding capacity.

Please refer to the Appendix for a copy of our most recent financial statements and letter of verification for our current bonding capacity.

2. Provide two bank references.

| Company | Address | Contact | Phone |
|-----------------|------------------------------------|-------------------|--------------|
| Bank of America | PO Box 448, Columbia, SC 29202 | Meredith Kendrick | 803.255.7455 |
| NBSC | One Broad Street, Sumter, SC 29150 | Melissa White | 803.778.8267 |

- 3. Describe all instances of project disputes, which, in the last five years, reached the level of:
 - a. Formal mediation, arbitration, or litigation;
 - b. Significant settlements with clients, contractors, or sub-contractors; or
 - c. Current significant pending claims or suits.

Thompson Turner Construction has **NO** significant settlements with clients, contractors, or subcontractors and **NO** current significant pending claims or suits. Thompson Turner Construction has **NEVER** been in litigation with a Public Owner or Designer. On July 13th, 2018 Willie and Emma R. Singleton (dba Imports, Limited) filed a summons in the court of common pleas against the City of Sumter and also named Thompson Turner Construction as a defendant in an alleged blockage or alteration of a water collection system adjacent to their business. Thompson Turner had no contractual relationship with this entity and did not know of this alleged event despite the project being completed several years ago.

4. Identify any occasion in the past 5 years where any Surety was required to pay any claim against any Payment Bond furnished by the Proposer for any project.

Thompson Turner Construction has had **NO** claims in the past five years where the Surety was required to pay a claim.

FINANCIAL STABILITY

5. Identify any occasion in the past 5 years where a Surety was required to render or secure performance due to any owner under any Performance Bond furnished by the Proposer for any project.

Thompson Turner Construction has had **NO** claims in the past five years where the Surety was required to render or secure performance due to any owner under any Performance Bond furnished by the Proposer for any project.

6. Identify any occasion in the past 5 years where any Surety requested any owner of a project in which the Proposer had furnished Performance and/or Payment Bonds to make any payment(s) by joint check to the Proposer and Surety.

Thompson Turner Construction has had NO claims in the past five years requiring joint checks.

7. Provide a certificate showing your current Commercial General Liability (CGL) insurance policy and any other insurance policies that would be applicable to the Project.

Thompson Turner Construction's certificate showing our current CGL insurance policy is located in the Appendix of this proposal.

8. Provide your current bonding rate schedule.

| Project Value | Performance & Payment Bond Rate |
|-----------------------------|---------------------------------|
| Less than \$100,000 | 0.90% |
| \$100,000 - \$1,000,000 | 0.90% |
| \$1,000,000 - \$5,000,000 | 0.70% |
| \$5,000,000 - \$10,000,000 | 0.60% |
| \$10,000,000 - \$25,000,000 | 0.50% |

JACKSON CREEK ELEMENTARY SCHOOL

1. The selected Contractor shall be required to hold a publicly advertised pre-bid meeting, covering all projects, prior to accepting bids to be used in preparation of the GMP.

Thompson Turner Construction will hold publicly advertised pre-bid meetings, covering all projects, prior to accepting bids to be used in preparation for the GMP.

2. The selected Contractor shall be required to obtain a minimum of 3 qualified, competitive bids for all work in excess of 5% of the total construction costs. The owner will require that all bids be compiled and presented prior to or at the establishment of the GMP. The owner shall be present when all bids are opened for review.

Thompson Turner Construction will comply with obtaining three competitive bids of all work in excess of 5% of the construction cost, as is our standard practice. Additionally we encourage the Owner and Architects to visit our office for the opening of contractor bids.

3. The Owner reserves the right to pre-qualify and/or approve subcontractors.

Thompson Turner Construction understands that the Owner reserves the right to pre-qualify and/or approve subcontractors.

4. Describe your information management systems and Owner reporting systems. Explain how these systems tie to the initial cost projections and final estimate.

At Thompson Turner Construction, we use the premier project management and estimating software, Procore and Timberline respectively. Procore empowers our staff to bring project information and teams together to help make accurate decisions quicker than ever before. By utilizing this software, our owners are able to gain full visibility into each of their construction projects with all project information in one place and easily accessible from any mobile device. Timberline is an industry leading estimating software that assists Thompson Turner Construction in delivering accurate cost data during the various design phases of a project.

<u>Procore</u> – Through this comprehensive software, we manage projects, resources, and financials in one open, easy-to-use platform. This software streamlines our team's communication and ensures that everyone is working from the most up-to-date information. Using Procore, we are able to eliminate double entry and information silos on projects, integrate all of our applications into one platform, and find new sources of efficiency and modernization by connecting all the different teams together. Procore maximizes management of project documentation by organizing the owner contract, subcontract commitments, RFIs, submittals, material procurement, schedule, change requests, drawings, specifications, and quality/punchlists under one "roof". This software is completely integrated with our Timberline Accounting software, providing us with current cost information. Through this software suite, standard reports can be provided that display current ball-in-court responsibilities for an array of different data points. If so desired, Thompson Turner Construction staff can build custom reporting to track data points that is of the most interest to each of our clients.

<u>Timberline Estimating</u> – Through this sophisticated estimating software, we can provide very detailed estimates during each phase of the design process. As our owner's trusted partner, Thompson Turner Construction's Preconstruction team can provide accurate, real-time cost feedback to our owners while the design team is developing the project. This is important so that we do not have to wait until the end of the design phase to find out the cost. This software also allows us to provide in depth reporting that can indicate precisely where costs have increased or decreased throughout the estimating process. This information enables the owner to make informed decision during the design phase of the project. We like to work hand-in-hand with the design team from design commencement in an effort to maximize the allowable budget and achieve project goals.

Onscreen Takeoff – This software allows us to perform quantity takeoff more accurately and efficiently

MISCELLANEOUS

than any other system. Onscreen Takeoff produces reports with color-coded visuals that are easily understood. This is extremely useful in the preconstruction process to effectively communicate quantities and scope between all project stakeholders.

<u>Primavera</u> – This software is used to create easy to understand schedules that are updated over the life of the project. By using this industry leading software, we are able to anticipate scheduling conflicts before they happen. We also are able to see what materials and contractors are going to need weeks in advance so we can allow them to provide their services to us efficiently and effectively. Primavera integrates with Procore allowing all team members access to the schedule and where the project is at any given time.

<u>Microsoft Outlook</u> – Although this is a tool often overlooked, Outlook is integrated with Project Management so we can quickly communicate with everyone associated with the project and give them the information they need and want as quickly as it is available. Thompson Turner Construction has integrated Outlook with Procore to make our day-to-day routine tasks more efficient.

We have provided samples of the documentation we typically use from Procore Project Management, Timberline Estimating, Onscreen Takeoff, and Primavera in the Appendix of this proposal.

Thompson Turner Construction is proud to have an technology-savvy construction team that also has years of successful construction experience. The superintendents and project managers that we have selected for this effort have already used these programs on projects for BCSD and will continue to utilize this software for the Capital Renewal Renovations and Modifications projects if desired with no additional training.

5. Describe the process you would utilize to qualify and bid subcontractors and vendors for the project.

Thompson Turner Construction's subcontractor management plan outlines the requirements of each subcontractor to ensure the production of quality deliverables and the development of long-term business relationships between our companies. We believe that the strength of the project team begins with hiring the "right" subcontractors and that it is just as important for Thompson Turner Construction to evaluate key subcontractors as much as it is for BCSD to evaluate the construction manager.

Our successful subcontractor management plan begins immediately during preconstruction. Subcontractors are asked to complete a form and provide the following information:

- Financial strength
- Past proven history
- Available trained workforce
- Ability to provide a payment and performance bond if required
- Capable superintendent/projects managers/ foreman
- Drug free workforce
- Past experience with completing work on schedule
- · Safety record
- Ability to work in a relationship-driven environment and solve problems

Once Thompson Turner Construction receives the subcontractors' completed forms, we then interview each subcontractor to determine their ability to bid and complete the work. In addition, during this interview it is imperative that each subcontractor understands the scope of work and schedule requirements. Prior to starting work, each subcontractor is enrolled in our Subcontractor Default Insurance Program (SDI). Enrollment in SDI protects both ourselves and the Owner against failure of performance from subcontractors and avoids any delay that may occur with going through a bonding company. Subcontractors are required to participate in preconstruction and safety orientation meetings. Thompson Turner Construction also requires the following before any subcontractor can being work on a project site:

- Signed subcontract agreement
- Bonding documentation
- Insurance documentation
- Tax documentation

During construction, subcontractors are required to attend weekly subcontractor coordination meetings and weekly safety meetings. These

MISCELLANEOUS

meetings are used to keep everyone aware of upcoming schedule milestones, material deliveries, and current ongoing work. If an issue arises, our first line of action is to immediately contact the subcontractor to try to handle the problem. In the event that an issue cannot be resolved, our SDI Program goes into effect and Thompson Turner Construction will supplement or replace the subcontractor's workforce immediately. Due to the success of our subcontractor management plan, we have only had one subcontractor failure in the past 18 years.

Thompson Turner Construction handles subcontractors' financials on a monthly basis. Subcontractors are only allowed to bill for the work that is currently in place. Prior to final payment subcontractors are required to provide the following:

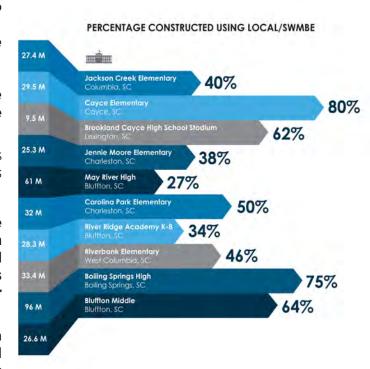

- Warranty information
- One-year installation warranty commitment
- As-builts
- Final change order and Lien waiver
- 6. Include one sample of the following items with your response to the Request for Proposal (if these have been done previously with project management software as mentioned in Item 8 above, please submit printed examples in that format):
 - a. Project Cost Estimate (similar format to the one proposed for this project)
 - b. Daily and Monthly project report to the Owner
 - c. Log(s) for tracking work progress
 - d. Other tracking items you feel would be helpful in showing how you would assure the Project is delivered on time and on budget.

Samples of Thompson Turner Construction's reports listed above are attached in the Appendix of this proposal.

7. Describe how you will address and promote the Owner's M/WBE Policy in the Construction Phase. All selected contractors will be expected to participate in District sponsored meetings promoting minority/local sub-contractor participation.

In order to continue our success in working with both local and minority subcontractors and suppliers, Thompson Turner Construction plans to partner with Construction Dynamics for the Capital Renewal Renovations and Modifications Projects to assist us in locating and fostering relationships with quality local and minority firms. Additionally, we will rely on Construction Dynamics to train, grow, and develop the M/WBE and local subcontractors once they are brought on board with our team. Because of our longstanding history in Beaufort County, we understand the importance in using the local labor market and how best to encourage participation to get BCSD the maximum participation for this program.

Thompson Turner Construction promotes growth for M/WBE companies by not only providing them with opportunities to bid projects, but also nurturing them by giving them repeat business. We will encourage new M/WBE's by having informational meetings regarding opportunities prior to conducting bid day promotions. We will also advertise in local publications prior to the bid in an effort to make both local and M/WBE companies aware of opportunities available to them. As evidenced elsewhere in this RFP, we have had tremendous success in utilizing minority businesses in most of our projects whether there were mandated requirements or not.

MISCELLANEOUS

8. Any other information that you believe may assist the Owner in deciding that your firm is best qualified for the Project.

There are several factors to consider when selecting the contractor to provide your construction services. Thompson Turner Construction is proud to have many attributes that set us apart from other firms.

Local Participation - As our customers will attest, we work hard to ensure the community is excited about the project being constructed in their area:

- We always maintain a clean working environment so that the neighbors can see a quality facility is being constructed.
- We use local contractors and laborers when possible and cost-effective.
- We carefully secure our construction sites to protect students, faculty, and the community from possible injury.
- All employees of Thompson Turner Construction and our subcontractors are screened with a SLED background check.
- With our history of working within coastal environments and wetlands, we understand how to carefully maintain erosion control measures to protect streams, creeks, and storm drainage areas in accordance with DHEC requirements. All of our superintendents are Certified NPDES from DHEC to complete such required inspections.
- We encourage the school district to schedule a meeting between key members of the community and our project leaders to promote fellowship, teamwork, and good will for these projects. We are also always available to attend scheduled community meetings to discuss the project.

Sustainable Design – Although these projects have not been identified for sustainable design in the RFP, we are environmentally conscious and are completely equipped to provide LEED® and or Green Globes® construction support, if needed. Thompson Turner Construction has completed two LEED® projects in Beaufort County School District; one has been certified LEED® Silver and one has been certified LEED® Certified by USGBC. We also employee LEED® Accredited Professionals on our staff.

Regardless, we will do the following in order to be good stewards of the environment:

- Encourage the recycling of construction materials.
- Ensure that all silt fences and erosion controls are maintained properly.
- Protect all open ductwork to reduce air contaminants during construction until start up.
- Monitor lighting and power usage during construction to ensure lights and equipment are not left on unnecessarily.
- Turn off machinery when not in use.
- Ensure that equipment is well maintained to minimize leaks, noise, and air pollution.
- Maintain a policy of removing any spills associated with fuels, liquids, or other contaminants.

Safety – We are proud of our world-class safety achievements. Thompson Turner Construction's dedicated safety personnel make weekly visits to the jobsite to monitor safety on site. All Thompson Turner Construction's employees are empowered to stop any work that is deemed unsafe. We conduct weekly toolbox safety meetings. We also conduct specialized safety planning meetings prior to beginning various stages of work and bring to the attention of all on site the associated hazards specific to that task. For instance, when steel is to be erected, we meet to discuss barricading, tie-off requirements, lift plans, and other pertinent safety items. Thompson's Behavior Based Safety Program is designed to increase its personnel's day-to-day safety awareness. This program produces more than 400 Thompson safety audits each month. In addition, Thompson routinely provides unannounced safety audits at construction sites. We also screen all employees with yearly and random drug tests. All personnel have SLED background checks done before being allowed on any occupied educational facility to help ensure the safety of school children and faculty. Thompson Turner Construction's EMR

for the past six years speak for themselves.

| Year | Experience Modification Rates (EMR) |
|------|-------------------------------------|
| 2019 | 0.56 |
| 2018 | 0.58 |
| 2017 | 0.59 |
| 2016 | 0.71 |
| 2015 | 0.82 |
| 2014 | 0.75 |

Financial Stability - Having a company that you know will be with you throughout the life of the project is critical. Thompson Turner Construction, as well as our sister companies, has the financial health to give you the assurance that we will finish what we start.

Conclusion – Thompson Turner Construction and our employees consider the BCSD our best client since our company's inception and we greatly value that relationship. We do not possess another client relationship like the one we have with BCSD; with our longstanding history, list of successful projects, and inherent ability to work together to achieve project goals, we sincerely enjoy working on your capital renewal projects each year and are proud of the work we have accomplished in the past ten years with your team. We are dedicated to providing that same leadership and commitment to ensuring the Summer 2020-2021 projects go smoothly, are finished on time, and finished within budget. The team we have proposed for your upcoming program has a successful track record working for your district and with your staff. They understand what it takes to make your program a success and hope to continue our successful partnership.

409 N. SALEM AVENUE SUMTER, SC 29150

P.O. BOX 2708 SUMTER, SOUTH CAROLINA 29151 TELEPHONE: (803) 773-1151 FAX: (803) 778-2998 E-MAIL: pitcpa@ftc-i.net

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders of

THOMPSON CONSTRUCTION GROUP, INC .:

I have audited the accompanying consolidated financial statements of Thompson Construction Group, Inc. (a South Carolina S Corporation), which comprise the consolidated balance sheets as of December 31, 2018 and 2017, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these consolidated financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated individual and consolidated financial position of Thompson Construction Group, Inc. as of December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

MEMBER OF THE AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS

APPENDIX

Report on Supplementary Information

My audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary schedules on pages 18 - 24 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2018 AND 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS

The Company is a South Carolina corporation established on December 31, 1986. The Company is a leading provider of industrial construction, maintenance, building construction, and disaster recovery services in the southeast.

PRINCIPLES OF CONSOLIDATION

The 2018 consolidated financial statements include the accounts of Thompson Construction Group, Inc., its single member LLC, Guignard Properties, LLC, and its seventy-five percent owned LLC, Palmetto Construction Group II, LLC. The 2017 consolidated financial statements include the accounts of Thompson Construction Group, Inc. and its single member LLC, Guignard Properties, LLC. All material intercompany transactions have been eliminated in consolidation.

REVENUE AND COST RECOGNITION

Revenue from a majority of construction contracts is recognized on the percentage-of-completion method, measured by the proportion of construction costs incurred to date to estimated total construction costs for each contract. That method is used because management considers costs incurred to be the best available measure of progress on contracts in progress. The Company utilizes the percentage of completion method of recognizing income on contracts for financial reporting and tax purposes.

Contract costs include all direct material and labor costs and those indirect costs related to contract performance. Selling, general, and administrative costs are charged to expenses as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in estimated profitability are recognized in the period in which the revisions are determined. The costs of construction contracts are charged to earnings on the percentage-of-completion method used to recognize revenues.

The asset, "Costs and estimated earnings in excess of billings on uncompleted contracts," represents revenues recognized in excess of amounts billed. The liability, "Billings in excess of costs and estimated earnings on uncompleted contracts," represents billings in excess of revenues recognized.

USE OF ESTIMATES

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from these estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Certificates of deposit with original maturities over three months are classified as certificates of deposit.

BOOK OVERDRAFT

In order to maximize cash utilization, the Company's practice is to draw down on its line of credit only as checks are presented for payment. As a result, the December 31, 2018 and 2017 book overdraft amount represents checks issued but not presented to a bank for payment.

APPENDIX

MARKETABLE SECURITIES

The Company classifies its marketable securities as available for sale. Securities classified as available for sale are carried in the consolidated financial statements at fair value. Realized gains and losses, determined using the first-in, first-out (FIFO) method, are included in earnings; unrealized gains and losses are reported in other comprehensive income.

ACCOUNTS RECEIVABLE

Accounts receivable are stated at the invoiced amount. If the Company is aware of a specific customer's inability to pay, the Company records a reserve for the difference in the amount due and the amount the Company reasonably estimates will be collected. For other customers, the differences between the amount due and the amount management expects to collect are reported in the results of operations of the year in which those differences are determined, with an offsetting entry to a valuation allowance for accounts receivable. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

LONG-LIVED ASSETS

Long-lived assets held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of any asset may not be recoverable. In the event that facts and circumstances indicate that the cost of any long-lived assets may be impaired, an evaluation of recoverability would be performed. As of December 31, 2018 and 2017, the Company has reviewed all long-lived assets and determined that no adjustment is necessary.

DERIVATIVE

The Company applies the provisions of ASC 815, Derivatives and Hedging, for its derivative instruments. The Company is party to one interest rate swap agreement that serves as a hedge against the movement of interest rates associated with borrowing at a variable rate, which matures July 5, 2022. The Company uses the derivative to eliminate the variability of cash flows related to interest rate payments on the Company's variable-rate debt. The fair value of this derivative was an asset of \$15,338 and a liability of \$14,386 as of December 31, 2018 and 2017, respectively. The change in fair value is recorded in other income (expenses) in the accompanying consolidated statements of income and comprehensive income.

FAIR VALUES OF FINANCIAL INSTRUMENTS

The Company has a number of financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, accrued expenses, and notes payable. Management estimates that the fair value of all financial instruments at December 31, 2018 and 2017 does not differ materially from the aggregate carrying value of its financial instruments recorded in the accompanying consolidated balance sheets.

ADVERTISING

The Company expenses advertising costs as they are incurred.

S CORPORATION - INCOME TAX STATUS

The Company, with the consent of its shareholders, has elected under the Internal Revenue Code to be an S Corporation. In lieu of corporate income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Usually no provision or liability for federal income taxes is included in the consolidated financial statements.

The Company evaluates all significant tax positions as required by generally accepted accounting principles in the United States. As of December 31, 2018, the Company does not believe that it has taken any tax positions that would require the recording of any additional tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The Company's income tax returns are subject to examination by the appropriate tax jurisdictions.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers" (Topic 606). This update provides a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. Additionally, this guidance expands related disclosure requirements. ASU 2014-09 is effective for non-public companies for fiscal years beginning after December 15, 2018. This update permits the use of either the retrospective or cumulative effect transition method. The Company will adopt this guidance for the fiscal year beginning January 1, 2019 and is currently assessing the impact to the consolidated financial statements. Additionally, the Company is in the process of evaluating the impact of the expanded disclosure requirements.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities". For investments in equity securities with readily determinable fair values, the ASU will require unrealized gains and losses to be reported in net income rather than in other comprehensive income. ASU 2016-01 is effective for non-public companies for fiscal years beginning after December 15, 2018.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" (Topic 842), which will require leases to be recorded as an asset on the balance sheet for the right to use the leased asset and a liability for the corresponding lease obligation for leases with terms of more than twelve months. ASU 2016-02 is effective for non-public companies for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is evaluating the impact the pronouncement may have on the consolidated financial statements.

RECLASSIFICATIONS

Certain accounts in the prior-year consolidated financial statements have been reclassified for comparative purposes to conform with the presentation in the current-year consolidated financial statements.

NOTE 2 - MARKETABLE SECURITIES

Cost and fair value of marketable securities at December 31, 2018 and 2017 consist of the following:

| | | Amortized Cost | Gross Unrealized Gain | U: | Gross nrealized (Losses) | Fair Value |
|---------------------------------------|----|-------------------|-----------------------------|----|--------------------------------|-------------------|
| December 31, 2018 | | | | | | |
| Available for sale: | | | | | | |
| Equity securities | \$ | 5,877,289 | \$ 1,196,581 | \$ | (379,160) | \$ 6,694,710 |
| Debt securities | | 5,354,835 | 10,899 | _ | (77,348) | 5,288,386 |
| Totals | \$ | 11,232,124 | \$ 1,207,480 | \$ | (456,508) | \$ 11,983,096 |
| December 31, 2017 Available for sale: | | | | | | |
| Equity securities | \$ | 5,985,260 | \$ 1,834,755 | \$ | (130,545) | \$ 7,689,470 |
| Debt securities | _ | 4,853,596 | 39,214 | _ | (21,546) | 4,871,264 |
| Totals | \$ | 10,838,856 | \$ 1,873,969 | \$ | (152,091) | \$ 12,560,734 |

APPENDIX

At December 31, 2018 and 2017, the change in net unrealized holding gains (losses) on securities available for sale in the amounts of (970,906) and 1,052,637, respectively, has been charged to other comprehensive income.

The fair value of debt and equity securities has been measured on a recurring basis using Level 1 inputs, which are based on unadjusted quoted market prices within active markets. There have been no changes in valuation techniques and related inputs.

NOTE 3 - FAIR VALUE MEASUREMENT

ASC 820, "Fair Value Measurements and Disclosures," established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3). The hierarchy consists of three levels:

- Level 1: Fair value is determined using quoted market prices in active markets for identical assets.
- Level 2: Fair value is determined using quoted market prices in active markets for similar assets.
- Level 3: Fair Value is determined using unobservable market prices in a market that is typically inactive.

The following table provides a summary of the fair values, measured on a recurring basis, of certain of the Company's assets under ASC 820 as of December 31, 2018 and 2017:

| | Fair Value Measurements at Reporting Date Using | | | | |
|--------------------------|--|--------|---------------|----|-------------|
| | | | Quoted Prices | | |
| | | | in Active | | |
| | | | Markets for | | Significant |
| | | | Identical | | Observable |
| | Fair | | Assets | | Inputs |
| | Value | e (Lev | | | (Level 2) |
| <u>December 31, 2018</u> | | | | | |
| Available for sale: | | | | | |
| Equity securities | \$ 6,694,710 | \$ | 6,694,710 | \$ | _ |
| Debt securities | \$ 5,288,386 | \$ | 5,288,386 | \$ | - |
| Derivative | \$ 15,338 | \$ | - | \$ | 15,338 |
| December 31, 2017 | | | | | |
| Available for sale: | | | | | |
| Equity securities | \$ 7,689,470 | \$ | 7,689,470 | \$ | _ |
| Debt securities | \$ 4,871,264 | \$ | 4,871,264 | \$ | - |
| Derivative | \$ (14,386) | \$ | _ | \$ | (14,386) |

NOTE 4 - SUBORDINATED NOTES RECEIVABLE

At December 31, 2018 and 2017, the Company held subordinated notes receivable totaling \$-0-\$ and \$3,122,555, respectively. These notes were paid in full during 2018.

NOTE 5 - ACCRUED EXPENSES

Accrued expenses at December 31, 2018 and 2017 consist of the following:

| | <u>2018</u> | <u>2017</u> |
|--|------------------|------------------|
| Accrued workers compensation insurance | \$ 1,735,106 | \$ 921,090 |
| Accrued and withheld taxes | 1,209,911 | 1,287,426 |
| Accrued bonuses, salaries and vacation pay | 8,982,721 | 4,596,903 |
| Accrued job costs | 10,933,003 | 2,511,942 |
| Other accrued expenses | 2,844,249 | 1,756,784 |
| | \$ 25,704,990 | \$ 11,074,145 |

NOTE 6 - NOTES PAYABLE

Notes payable at December 31, 2018 and 2017 consist of the following:

| | 2018 | 2017 |
|--|-----------|-----------|
| \$20,000,000 line of credit payable July 31, 2020 with interest at "LIBOR rate (adjusted periodically)" plus 1.5% payable monthly beginning June 2017; collateralized by equipment and receivables. The balance at May 31, 2019 was \$7,637,392. | \$ - | \$ - |
| Note payable in monthly installments of \$4,439 including interest at "LIBOR rate (adjusted periodically)" plus 1.85% payable monthly beginning July 2016 with a balloon payment due March 2019; collateralized by real estate. This note was subsequently renewed with maturity of March 2029. | 545,983 | 599,250 |
| Note payable in monthly installments of \$18,571 plus interest at "LIBOR rate (adjusted periodically)" plus 1.85% payable monthly beginning July 2016 with a balloon payment due July 2022; collateralized by equipment, receivables, and real estate. | 2,470,000 | 2,692,857 |
| Note payable in monthly installments of \$3,813 including interest at 3.45% payable beginning December 2016 with a balloon payment due November 2021; collateralized by real estate. | 498,503 | 526,296 |
| Note payable to shareholder in monthly installments of \$60,028 including interest at prime adjusted annually on July 1st beginning November 2018 through July 2023; collateralized by 10,000 shares of Thompson Construction Group, Inc. | 3,421,615 | _ |
| the state of the s | 3,121,013 | |

Note payable to shareholder in monthly installments of \$15,007 plus interest at 4% payable monthly beginning August 2017 through July 2021; collateralized by 2,000 shares of Thompson Construction Group, Inc. This note was paid in full in October 2018.

630,298

Note payable in monthly installments of \$30,217 including interest at 4.25% payable beginning January 2019 with a balloon payment due December 2025; collateralized by airplane.

| ollateralized by airplane. | 3,984,422 | |
|----------------------------|--------------|--------------|
| Total | 10,920,523 | 4,448,701 |
| Due within one year | 1,699,018 | 469,240 |
| Due after one year | \$ 9,221,505 | \$ 3,979,461 |

The following is a summary of annual principal payments for the years ending December 31:

| 2019 | \$ 1,699,018 |
|------------|------------------|
| 2020 | 1,178,142 |
| 2021 | 1,596,433 |
| 2022 | 2,744,822 |
| 2023 | 772,975 |
| After 2023 | 2,929,133 |
| | \$ 10,920,523 |

NOTE 7 - NON-CONTROLLING INTEREST

The non-controlling interest represents 25% of the stockholder's equity of Palmetto Construction Group II, LLC not owned by the Company. At December 31, 2018 and 2017, the non-controlling equity interest was \$704,455\$ and \$-0-\$, respectively.

NOTE 8 - RETIREMENT PLAN

Under the Company's 401(k) plan, employees may elect to defer salary, subject to Internal Revenue Service limits. The Company has the option of making an annual discretionary contribution and can also match each employee's contribution. For the years ended December 31, 2018 and 2017, the Company contributed \$999,989 and \$588,729, respectively. There were no employer discretionary contributions for 2018 and 2017.

NOTE 9 - CONCENTRATIONS OF CREDIT RISK

The Company maintains cash balances at several financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. At December 31, 2018 and 2017, the Company's uninsured cash balances totaled \$6,075,124 and \$1,904,609, respectively.

NOTE 10 - RELATED PARTY TRANSACTIONS

LEASE ACTIVITY

The Company leases a portion of its Sumter, South Carolina facilities to Thompson Industrial Services, LLC (TIS) under two leases. The first lease expired March 31, 2016 and the Company and TIS have verbally agreed to exercise the second five-year option on this lease expiring March 31, 2021. The second lease expired July 31, 2012 and the Company and TIS have verbally agreed to exercise the second five-year option expiring July 31, 2022.

The Company leases an industrial warehouse located in Louisiana to TIS for a five-year term beginning June 1, 2014 and expiring May 31, 2019.

The Company received \$43,746 and \$42,537 per month under the terms of the leases in 2018 and 2017, respectively. The income associated with these leases as of December 31, 2018 and 2017 was \$524,956 and \$510,439, respectively; and is included in the other income (expense) portion of the accompanying statements of income and comprehensive income.

OPERATING ACTIVITY

The Company provides services to and receives services from TIS. These services include, but are not limited to, contract labor and equipment repairs. These services are billed monthly by each party. As of December 31, 2018 and 2017, a balance due from TIS was included in accounts receivable in the amount of \$246,849 and \$302,893, respectively. As of December 31, 2018 and 2017, a balance to TIS was included in accounts payable in the amount of \$75,268 and \$33,523, respectively.

The Company believes that these transactions are on terms as favorable as those that could be obtained from/provided to an independent third party.

NOTE 11 - COMMITMENTS, CONTINGENCIES AND OTHER ITEMS

COMMITMENTS

The Company leases office space under noncancelable operating leases through May 2026. The following is a schedule of future minimum lease payments required under the leases:

| 2019 | \$ 273,873 |
|------|-----------------|
| 2020 | 287,581 |
| 2021 | 280,081 |
| 2022 | 229,071 |
| 2023 | 203,567 |
| | \$ 1,274,173 |

SELF INSURANCE

In April 2008, the Company became a member of a Captive Insurance Policy (Captive) which covers claims up to \$500,000, and then the remaining exposure is re-insured through a separate policy. Based on the policy agreements, any claims submitted to Captive are paid through funds established by payments from the Company. At December 31, 2018, the Company provided a letter-of-credit with a commercial bank in a maximum amount of \$1,757,316 to secure a portion of the maximum obligation for claims in excess of the Captive Coverage Limits.

No events have occurred subsequent to December 31, 2018, which would require an adjustment to the self-insurance liabilities recorded in the consolidated financial statements as of December 31, 2018.

LEGAL CONTINGENCIES

The Company is involved in various legal proceedings arising from the normal course of business. In management's opinion, the outcome of the aforementioned matters will not have a material effect on the Company's financial position or results of operations.

NOTE 12 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through date of the report, which is the date the consolidated financial statements were available to be issued. All events that required recognition or disclosure in the 2018 consolidated financial statements have been incorporated.

From January 1, 2019 to May 31, 2019, the Company acquired equipment totaling \$1,651,660.

From January 1, 2019 to May 31, 2019, the Company paid dividends totaling \$3,000,000.

Re: Thompson Construction Group, Inc. d/b/a Thompson Turner Construction
Pre-Construction / Construction Phase (CM at-Risk) Services for
Capital Renewal Renovations and Modifications Projects Solicitation Number: 20-016

To Whom It May Concern:

We are pleased to be able to write to you concerning our valued client Thompson Turner Construction, a division of, Thompson Construction Group, Inc. We have handled Thompson's surety needs for over 15 years and we have always enjoyed an outstanding relationship. We have their bonds placed with Continental Casualty Company, a CNA company. Continental has an A rating by AM Best. CNA has established a total surety program of \$600,000,000 and approved single jobs into the \$200,000,000 range. CNA has always supported any bond request of this outstanding company.

We consider Thompson Turner Construction and the management team true professionals in the field of general contracting. Thompson Turner Construction has a value added delivery philosophy, track record on meeting critical deadlines and strong commitment to their customers and quality projects. Operations are conducted with fiscal responsibility, proficient technical and managerial skills and ethics of the highest caliber.

This is to advise that we are prepared to support bond requests on behalf of Thompson Turner Construction. Any final bonds are subject to an underwriting review, contract terms and conditions. Should you desire any additional information concerning this fine company, you may contact Brad Lorenzetti via mobile phone @ 803-917-7118.

Sincerely,

Rebecca E. Cano

NOTES LOG

| No. | Issue? | Location | Comments |
|-----|--------|---------------------|---|
| 1 | No | Bluffton Elementary | When trying to identify breakers in MDP Room power was tripped to electrical room on 100 wing. Upon resetting breakers it was determined that the transformer high voltage to low voltage went out. Breakers will not reset if running power thru the transformer so low voltage (outlets and security) NOT working in admin spaces and 100 classrooms. District advised to have QES locate and price replacing the transformer. |

| River Ridge Academy (RRA) - GMP | \$ 475,923 |
| RRA Amendment #2 | \$ (155,900) |
| RRA Total for Amendment #3 | \$ 320,023 |

RRA- INCLUSIONS:

- Division 2 Site Work & Demolition
 - ✓ Earthwork
 - ✓ Temporary & permanent seeding
 - ✓ Domestic water connection
 - ✓ Sanitary sewer connection
 - ✓ Sidewalk
 - ✓ Extend fire lane = \$21,000
- Division 8 Openings
 - ✓ Corbon Russwin Cores
- Division 9 Finishes
 - ✓ Final cleaning
- Division 10 Specialties
 - ✓ Canopies over decks & ramps
 - ✓ Signage
 - ✓ Fire extinguishers
- Division 13 Special Construction
 - ✓ Interactive flat panels (2 EA)
- Division 16 Electrical
 - ✓ Site electrical = \$45,000
 - ✓ Fire alarm
 - √ Sound & intercom = \$15,115
- Division 17 Low Voltage
 - ✓ Low voltage = \$20,024
 - ✓ Access control & CCTV = \$17,000 CCTV only (2 EA cameras and 1 EA DVR) = \$3,000

RRA - EXCLUSIONS:

We sincerely appreciate the opportunity to continue to work with the Beaufort County School District. Please let us know if you have any questions or concerns.

Sincerely,

Laura Wise

GOOSE CREEK HIGH SCHOOL - ADDITIONS AND RENOVATIONS

PROJECT SUMMARY:

Abatement for the 200 building is scheduled for completion this week, along with the demolition of the 300 building. Grading for the bus loop is in progress so that curbing can start being placed. The new water main is installed and the new meter will be installed once the demolition of the 200 building is completed.

Business Enterprise Utilization Report

List all vendors/subcontractors to be used on this project. All MBEs or WBEs proposed for utilization on this project must be certified by the Small and Minority Business Assistance Office through the State of South Carolina according to the criteria of the Beaufort County School District's Minority Business Enterprise Plan prior to utilization on this project.

In column 2 below, please specify ethnic/racial/gender group as follows:

- AABE African-American Business Enterprise
- HBE Hispanic Business Enterprise
- ABE Asian-American Business Enterprise
- WBE Woman Business Enterprise

Statement of Intent

We, the undersigned have prepared and submitted all the documents required for this project. We have prepared these documents with a full understanding of the Beaufort County School

District's goal to ensure equal opportunities in the proposed work to be undertaken in performance of this project. Specifically, the BCSD seeks to encourage and promote on an inclusionary basis contracting opportunities without regard to the race, gender, national origin or ethnicity of the ownership or management of any business and that it is an equal opportunity employer and contracting entity. We certify that the representations contained in the Minority/Woman Business Enterprise (M/WBE) Utilization Report, which we have submitted with this solicitation, are true and correct as of this date. We commit to undertake this contract with the Minority/Woman Business utilization Report we have submitted, and to comply with all non-discrimination provisions of the Minority/Woman Business Enterprise Program in the performance of this contract.
