INDEPENDENT AUDITORS' REPORT

The Board of Education Jericho Union Free School District Jericho, New York

We have audited the accompanying general-purpose financial statements of Jericho Union Free School District, (the District) as of and for the year ended June 30, 2004, as listed in the accompanying table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and government auditing standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the general-purpose financial statements referred to above present fairly in all material respects, the financial position of Jericho Union Free School District as of June 30, 2004, and the results of its operations and changes in its fund balance for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

July 31, 2004

JERICHO UNION FREE SCHOOL DISTRICT

MANAGEMENT DISCUSSION AND ANALYSIS

The management of the Jericho Union Free School District offers readers of our financial statements this narrative discussion, overview and analysis of the financial activities of the District for the fiscal year ending June 30, 2004. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- District-wide net assets at June 30, 2004 were \$10,995,446. Net assets reflect the
 difference between all depreciated assets of the District including buildings, cash,
 and furniture and equipment and all liabilities, both short-term and long-term.
 (Exhibit 1 in the Financial Statements section)
- The District's overall revenue for all funds in 2003-04 was \$71,211,877, which surpassed expenditures by \$190,024 thus increasing the District's net assets.
- The District decreased its outstanding long-term serial bond debt by \$1,225,000.
- The District continues to offer all programs and maintains the maximum fund balances allowed by state law.
- The total cost of all programs rose by 9.2% due to increased cost of programs for children with special needs and increased academic intervention services were provided in order to meet both State and Federal Standards. The rising New York State rate of contribution for Employee's Retirement and Teacher's Retirement benefits had a significant impact on the total expenditures in 2003-04 fiscal year. Other health related benefit costs have also risen and impacted the cost of providing the educational program.
- The proposed budget for fiscal year 2004-2005 in the amount of \$77,557,541 was approved by the District's residents.

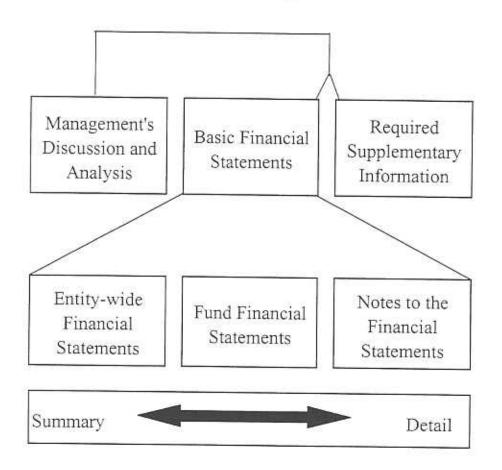

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

 The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial status.

- The remaining statements are fund financial statements that focus on individual
 parts of the District, reporting the District's operations in more detail than the
 district-wide statements. Government Fund statements tell how basic services
 were financed in the short term and what remains for further spending.
- Fiduciary Funds statements provide financial information where the District acts as trustee or agent for the benefit of others

Table A-1 Organization of the District's Financial Report

Following is a chart that further describes the major features of the District-Wide Statements and the Fund Financial Statements:

	District-wide	Fund Finar	ncial Statements
	Statements	Governmental Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education & building maintenance	Instances in which the district administers resources on behalf of someone else, such as scholarship programs & student activities monies
Required financial statements	*Statement of net assets *Statement of activities	*Balance Sheet *Statement of revenues, expenditures, and changes in fund balances	*Statement of fiduciary net assets *Statement of changes in fiduciary net assets
Accounting Basis and measurement focus	Accrual acetg. & Economic resources focus	Modified accrual accounting & current financial focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long- term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the net assets are an indicator of whether the financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

Net assets of the governmental activities differ from the governmental fund balances because governmental fund level statements only report transactions using or providing current financial resources. Also, capital assets are reported as expenditures when financial resources (money) are expanded to purchase or build said assets. Likewise, the financial resources that may have been borrowed are considered revenue when they are received. The principal and interest payments are both considered expenditures when paid. Depreciation is not calculated if it does not provide or reduce current financial resources. Finally, capital assets and long-term debt are both accounted for in account groups and do not affect the fund balances.

District-wide statements are reported utilizing an economic resources measurement focus and full accrual basis of accounting that involves the following steps to format the Statement of Net Assets:

- Capitalize current outlays for capital assets;
- Report long-term debt as a liability;
- Depreciate capital assets
- Calculate revenue and expense using the economic resources measurement focus and the accrual basis of accounting; and
- Allocate net asset balances as follows:
 - Net Assets invested in capital assets, net of related debt;

- Restricted net assets are those with constraints placed on the use by external sources (creditors, grantors, contributors, or laws or regulations of governments) or imposed by law through constitutional provisions or enabling legislation such as Capital Projects and Debt Service.
- Unrestricted net assets are net assets that do not meet any of the above restrictions

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the district as a whole. Funds are accounting devices the district uses to keep track of specific sources of funding and spending on particular programs. The funds have been established by the laws of the State of New York.

The District has two kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them. In summary, the government fund statements focus primarily on the sources, uses, and balances of current financial resources and often has a budgetary orientation. Included are the general fund, special revenue funds, debt service funds, capital project funds and permanent funds. Required statements are the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Equity.
- Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from district-wide financial statements because it cannot use these assets to finance its operations. Fiduciary fund reporting focuses on net assets and changes in net assets. This report should be used to support the District's own programs and is developed using the economic resources measurement focus and the accrual basis of accounting, except for the recognition of certain liabilities of defined benefit pension plans and certain post retirement employment healthcare plans.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets

The District's combined net assets were slightly larger on June 30, 2004, than they were the year before, increasing 1.34 percent to \$57,079,130. (See Table A-3)

Table A-3 Condensed Statement of Net Assets (in thousands of dollars)

	1011	1000 B	rnment tivities	al	Total Percentage
		2004	-	2003	Change
Current and other assets	S	26,656	\$	25,127	6.09%
Capital assets		30,423		31,195	-2.47%
Total assets		57,079	55	56,322	1.34%
Current liabilities		17,434	11	16,005	8.93%
Long-term liabilities		28,690		29,551	-2.91%
Total liabilities	- 5	46,124	100	45,556	1.25%
Net assets	57				
Invested in capital assets,					
net of related debt		8,129		7,186	13.12%
Restricted		883		3,584	1.73%
Unrestricted		1,943		(4)	-28.35%
Total net assets	\$	10,955	S	10,766	2.13%

The District's stable financial position is the product of many factors. Significant contributors to this position were the reduction of long-term liabilities and increased revenue received from real property taxes.

- Capital assets valued here are net of depreciation.
- Liabilities include all school district debt and long-term compensated absences.
- Net Capital Assets are capitalized assets less outstanding debt.
- Restricted assets include debt service. The year 2003 has been recast for comparison.
- Unrestricted net assets reflect the net value after all capitalized assets are depreciated, all current and long-term liabilities are valued, and all restricted funds are deducted. The year 2003 has been recast for comparison and includes encumbrances (\$765,922) and "Designated for subsequent years expenditures" of \$1,950,000.

Change in Net Assets

The District's total fiscal year 2004 revenues totaled \$71,211,877. (See Table A-4). Property taxes and state formula aid accounted for most of the District's revenue. (See Table A-5). The remainder came from fees charged for services, operating grants, investment earnings, and other miscellaneous sources.

The total cost of all programs and services totaled \$71,021,853 for fiscal year 2004. These expenses are predominately related to general instruction and caring for (pupil services) and transporting students. (See Table A-6).

Current assets increased \$1,529,143 from 2003 to 2004 primarily due to the increase in cash balance in the general fund. Capital assets decreased by \$772,120. This was attributable to depreciation exceeding additions. Current liabilities increased by \$1,428,484 from prior year predominately due to greater tax anticipation notes and increased benefits payable to teachers retirement. Non-current liabilities decreased by \$861,485 primarily due to a decrease in serial bond debt.

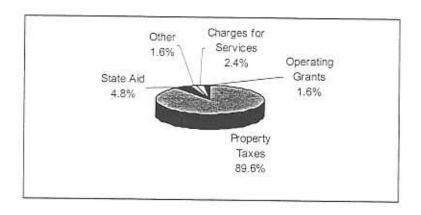

Table A-4
Changes in Net Assets from Operating Results (in thousands of dollars)

				mment tivities	al	Total Percentage Change
		_	2004		2003	
Revenues						
Program Revenues

State formula aid			3,395		3,403	0.0%
Other			1,138		1,095	3.9%
	Total revenues	5755	71,212		66,665	6.8%
Expenses						
General Support			10,321		9,621	7.3%
Instruction			53,659		48,224	11.3%
Pupil Transportation			3,621		3,540	2.3%
Debt Service			1,245		1,488	-16.3%
Depreciation			1,154		1,132	1.9%
Other			1,022		1,014	0.1%
	Total expenses		71,022		65,019	9.2%
Incre	ease in net assets:	\$	190	s_	1,646	-88.5%

The above table reflects the Net Assets as a result of the 2003-04 fiscal year.

Property taxes and state aid account for most of the District's revenues contributing approximately 94.4 cents of every dollar raised.

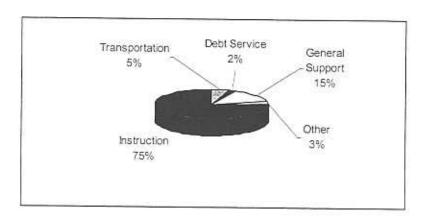

Table A-5 Sources of Revenues for Fiscal Year 2004

Revenues

- Charges for Services include tuition, fees, and related services.
- Operating Grants are state and federal funds received for school lunch reimbursement and other programs.
- Other Revenues include building rental, interest earned, and miscellaneous income.

Table A-6 Expenses for Fiscal Year 2004

Expenses

The District's expenses are predominantly related to instructing, caring for (pupil services) and transporting students (80.6%). The District's general support activities accounted for only 14.5% of total costs.

 Total Revenues surpassed expenses increasing net assets slightly over last fiscal year (\$190,024).

Governmental Activities

The recent good health of the District's finances can be credited to:

- · Leadership of the District's Board of Education
- · Community support of the School District's budget
- Effective management of the School District's resources

Figure A-7 shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

Figure A-7 Net Cost of Governmental Activities (in thousands of dollars)

			Total Cost		Net Cost
General Support		5	10,321	S	10,321
Instruction			53,659		51,706
Pupil Transportation			3,621		3,621
Debt Service			1,245		1,245
Other *			2,176		1,285
	Total	\$	71,022	5	68,178

^{*} Includes community services, school lunch program and depreciation

- District's taxpayers real property taxes financed 89.6% of net costs (\$68,177,657) with approximately a 6.5% contribution from state and federal governments.
- The total cost of all government activities this year was \$71,021,853.
- The users of the District's programs financed \$1,750,242 of the cost by "charges for services."

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Variances between years for the governmental fund financial statements are not the same as variances between years for the District-wide financial statements. The District's governmental funds are presented on the <u>current financial resources measurement focus</u> and the <u>modified accrual basis of accounting</u>. Based on this presentation, governmental funds do not include long-term debt liabilities for the funds' projects and capital assets purchased by the funds. Governmental funds will include the proceeds received from the issuance of debt, the current payments for capital assets, and the current payments for debt.

General Fund Budgetary Highlights

Although the District's final budget for the general fund anticipated that revenues and expenditures would be roughly equal, the actual results for the year show an operating surplus.

- Actual Revenues were slightly higher than anticipated due to a modest increase in state aid from the time of budget adoption.
- District fees for services rendered to other public schools increased.
- Actual total expenditures were below budget.
- The District experienced significant increases in employee benefits for state retirement plans and for health insurance.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By June 2004, the District had invested in a broad range of capital assets, including land, buildings and improvements, and equipment (including technology equipment and transportation equipment.) Total depreciation expense for the year was \$1,154,275 and additions to equipment amounted to \$414,354.

Table A-8 Capital Assets (net of depreciation, in thousands of dollars)

	<u></u>		scal Year		Percentage
	199	2004	_	2003	Change
Land	S	390	S	390	0.00%
Buildings & Improvements		28,487		29,151	-2.28%
Equipment	200	1,546	200	1,654	-6.52%
Total Net Capital Assets	S	30,423	S	31,195	-2.47%

Long-Term Debt

At year-end, the District had \$30,697,207 in general obligation bonds and other long-term debt outstanding. More detailed information is presented in Note 6 to the Financial Statements.

Table A-9 Outstanding Long-Term Debt (in thousands of dollars)

		3	Fiscal Year 2004
Bonds Payable		\$	20,875
Capital Leases			935
Other		20	8,887
	Total	S	30,697

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of four existing circumstances that could affect its financial health in the future:

 For a number of years the potential of further property development in the Jericho Union Free School District was nonexistent. However in June 2003 an agreement was reached between developers and environmentalists on the sale and use of the Underhill property. Approximately 100 homes will be built on 31 acres of land. The Underhill property is located east of Route 107 and within the boundaries of the school district. As part of the compromise the developer has agreed to sell 40% of the homes to individuals age 55 and older to lessen the impact on the school district.

- The school district currently leases the Williams's Elementary School. If district enrollment grows at the elementary level, it may be necessary for the District to reclaim the use of this facility for its own purposes. Potentially, the District could embark on a capital project for renovations and additions to this building. If the District reclaims the elementary building, there will also be an impact on the revenue side of the school district budget since there will be no rental income.
- Additional resources may be necessary to fund programs that will meet the requirements of the NYS Board of Regents Higher Learning Standards and the requirements of the Federal No Child Left Behind Legislation.
- Expiration dates for labor agreements are as follows:
 - Civil Service Employees Association June 30, 2007
 - o Jericho Teachers Association June 30, 2007
 - Jericho Tutor Association June 30, 2006
 - o Administrators Association June 30, 2006
 - o Curriculum Associates Association June 30, 2006

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, and investors and creditors with a general overview of the district's finances and to demonstrate the District's accountability for the money it receives. If you have questions about the report or need additional financial information, contact Dr. Joan L. Colvin, Assistant Superintendent – Business Affairs, 99 Cedar Swamp Road, Jericho, New York, 11753-1202, (516) 203-3600 extension 3214.

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in government activities are not financial resources and therefore are not reported in the funds.

30,423,369

Other assets are not available to pay for current-period expenditures and are funded for compensated absences.

6,498,857

Long-term liabilities, including bonds payable, compensated absences and capital leases - not reported in the funds.

Note 1 - Summary of certain significant accounting policies:

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A) Reporting entity:

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, The Financial Reporting Entity. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the District's reporting entity.

Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the District's business office. The District accounts for assets held as an agent for various student organizations in an agency fund.

B) Joint venture:

The District is a component district in the Board of Cooperative Educational Services of Nassau County (BOCES.) A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs, which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n (a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate. During the year ended June 30, 2004, the District was billed \$2,098,534 for administrative and program costs. Financial statements for BOCES are available from the BOCES Administrative Offices.

C) Basis of presentation:

District-wide statements:

The Statement of Net Assets and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

ii) Fund financial statements:

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Revenue Funds: These funds account for the proceeds of specific revenue sources, such as federal and State grants, that are legally restricted to expenditures for specified purposes, school lunch operations, and other activities whose funds are restricted as to use. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

<u>Capital Projects Funds</u>: These funds are used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

<u>Debt Service Fund</u>: This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.

<u>Fiduciary Fund</u>: This fund is used to account for fiduciary activities. Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used.

D) Measurement focus and basis of accounting:

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly, receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E) Cash and investments:

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Investments are stated at fair value.

F) Property taxes:

Real property taxes are levied annually by the Board of Education no later than August. Taxes are due in equal installments in October and April.

Uncollected real property taxes are subsequently enforced by the County (ies) in which the District is located. The County (ies) pay an amount representing uncollected real property taxes transmitted to the County (ies) for enforcement to the District no later than the following April 1.

G) Accounts Receivable:

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

H) Inventories and prepaid items:

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value, which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount. Prepaid items represent payments made by the District for which benefits extend beyond year-end.

Due to/from other funds:

The amounts reported on the Statement of Net Assets for due to and due from other funds represents amounts due between different fund types (governmental activities, and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type. A detailed description of the individual fund balances at year-end is provided subsequently in these Notes.

J) Capital assets:

Capital assets are reported at actual cost where available. In certain cases, historical costs have been estimated based on appraisals conducted by an independent appraisal company. Donated assets are reported at estimated fair market value at the time received.

The District's capitalization policy is as follows: (There is a threshold in place of \$5,000, which indicates the dollar value at and above which an acquisition is added to the capital assets reported). However, it is the District's policy to capitalize computer equipment regardless of cost.

	Depreciation Method	Estimated Useful Life
Building	SL	50
Building Improvements	SL	50
Furniture	SL	10
Equipment/Computers	SL	10/5
Site Improvements	SL	20
Transportation Equipment	SL	8

The District has also set residual values for the above capital assets.

K) Vested employee benefits:

The District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Sick leave eligibility and accumulation is specified in negotiated labor contracts, and in individual employment contracts. Sick leave use is based on a last-in first-out (LIFO) basis.

Upon retirement, resignation or death, employees may receive a payment based on unused accumulated sick leave, based on contractual provisions.

Consistent with GASB Statement 16, Accounting for Compensated Absences, an accrual for accumulated sick leave is included in the compensated absences liability at year-end. The compensated absences liability is calculated based on the pay rates in effect at year-end.

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System. In addition to providing pension benefits, the District provides health insurance coverage and survivor benefits for retired employees and their survivors. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure, \$900,446, in the General fund. Currently 216 retirees meet those eligibility requirements.

Budgetary procedures and budgetary accounting:

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted:

The voters of the District approved the proposed appropriation budget for the General Fund.

Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances), which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. No supplemental appropriations occurred during the year. However, the Board did approve transfers between line items for the General Fund in the amount of \$3,564,957 during fiscal 2004.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year.

Certain Special Revenue Funds have not been included in the comparison because they do not have legally authorized (appropriated) budgets.

M) Encumbrances:

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriation, is employed as a control in preventing over expenditure of established appropriations. Open encumbrances are reported as reservations of fund balance since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

N) Deferred revenue:

Deferred revenues are reported when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Deferred revenues also arise when the District receives resources before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for deferred revenues is removed and revenues are recorded.

Statute provides the authority for the District to levy taxes to be used to finance expenditures within the first 120 days of the succeeding fiscal year. Consequently, such amounts are recognized as revenue in the subsequent fiscal year, rather than when measurable and available.

Deferred revenues recorded in governmental funds are not recorded in the District-wide statements, and comprise part of the reconciliation.

Note 2 – Cash and Investments:

The District's investment policies are governed by State statutes. All District monies must be deposited in FDIC insured commercial banks or trust companies located within the State. The treasurer is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Jericho Union Free School District Notes to Financial Statements For the Year Ended June 30, 2004

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and school districts.

During the fiscal year 2004, the District has invested in deposits within the abovedescribed parameters. Furthermore for financial statement purposes, the District considers highly liquid investments of three months or less as cash equivalents.

In order to give an indication of the level of risk assumed by the District, bank balances are classified by the following categories:

- Insured or collateralized with securities held by the District or by its agent in the District's name.
- (2) Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.
- (3) Uncollateralized (This includes any balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the District's name.)

The following institution bank balances at year-end are categorized as follows:

- (1) \$ 500,000
- (2) \$ 32,552,254
- (3) \$ -0-

The difference between the bank balances shown above and the amount of cash shown in the accompanying financial statements results from the effect of outstanding checks and other routine reconciling items.

At June 30, 2004, the District maintained restricted cash for debt service (\$882,811).

Note 3 - Capital assets:

Capital asset balances and activity for the year ended June 30, 2004 were as follows:

	9	Beginning Balance	50 S	Additions	48	Retirements/ Reclassifications		Ending Balance
Governmental activities:								
Capital assets that are not depreciated:								
Land	\$	389,968	\$		S	į.	\$	389,96
Total nondepreciable historical cost		389,968						389,96
Capital assets that are depreciated:								
Site Improvements		882,430		77				882,43
Buildings		39,278,992		ri e .		(8)		39,278,99
Furniture and equipment		3,328,295		414,354		(35,981)		3,706,60
Total depreciable historical cost		43,489,717		414,354		(35,981)		43,868,09
Less:

Total accumulated depreciation		12,684,196		1,154,275		(3,782)		13,834,68
Capital Assets - NET	\$	31,195,489	s	(739,921)	8	(32,199)	2	30,423,30

Note 4 – Short-term debt:

The District may issue Tax Anticipation Notes (TANs), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

Transactions in short-term debt for the year are summarized below:

		Beginning				Ending
	00-	Balance		Issued	Redeemed	Balance
TAN maturing 6/25/04						
at 1.15%	\$_	12,400,000	S	13,100,000	\$ 12,400,000	\$ 13,100,000

Note 5 - Long-term debt:

Long-term liability balances and activity for the year are summarized below:

	-	Beginning Balance	e :-	Issued	Redeemed	¥8 18	Ending Balance	est a	Amounts Due Within One Year
Government activities:									
Bonds payable:									
Construction Serial Bonds	s _	22,100,000	\$ _	<u> </u>	1,225,000	\$	20,875,000	\$	1,100,00
Other liabilities:									
Capital Lease		1,372,929		122	437,395		935,534		457,34
Compensated absences		8,090,817	8 8 <u>1</u>	812,187	16,332		8,886,672		450,00
Total other liabilities	1	9,463,746		812,187	453,727	80 N	9,822,206		907,34
Total long-term liabilities	s _	31,563,746	s _	812,187 \$	1,678,727	\$	30,697,206	\$	2,007,34

Details relating to serial bonds outstanding at June 30, 2004 all of which relate to bonds which were issues for capital improvements are as follows:

Date of	Year of	Interest		Outstanding
Issue	Maturity	Rate	\$	June 30, 2004
8/1/99	2019	5.000		11,250,000
3/1/00	2018	5.500		9,625,000
			S	20,875,000

Serial bonds outstanding will mature in installments, including interest as follows:

Fiscal					
Year	200	Principal	Interest		Total
2005	\$	1,100,000	\$ 1,069,812	\$	2,169,812
2006		1,150,000	1,010,875		2,160,875
2007		1,200,000	949,312		2,149,312
2008		1,250,000	885,125		2,135,125
2009		1,300,000	818,312		2,118,312
2010 and thereafter		14,875,000	4,950,100		19,825,100
	S	20,875,000	\$ 9,683,536	\$	30,558,536
	-			_	

The following is a summary of obligations of government activities under capital lease payments:

		Total
Fiscal year ended June 30, 2004		
2005	\$	500,000
2006	-	500,000
Total minimum lease payments		1,000,000
Less: Amount representing interest @4.560% per annum		64,466
Present value of minimum lease payments	\$	935,534

Note 6 - Interfund balances and activity:

		Int	Interfund				Interfund					
		Receivable		Payable	2 S	Revenues		Expenditures				
General Fund	S	308,057	\$		\$	13,923	s	2,568,041				
Special Aid Fund		· ·		300,000		62,916		13,923				
School Lunch Fund		-		(· ·		140,000						
Debt Service Fund		706		.		2,365,125		-				
Capital Funds	3	2	-	706		-	0.00					
Total government activities		308,763		300,706		2,581,964		2,581,964				
Fiduciary Agency Fund	-	<u> </u>		8,057	9 05	<u></u>		.es				
Totals	\$ _	308,763	S _	308,763	S_	2,581,964	\$	2,581,964				

Interfund receivables and payables, other than between governmental activities and fiduciary funds, are eliminated on the Statement of Net Assets.

The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues.

All interfund payables are expected to be repaid within one year.

Note 7- Pension Plans:

The District participates in the New York State Employees' Retirement System (NYSERS) and the New York State Teachers' Retirement System (NYSTRS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

The New York State Teachers' Retirement Board administers NYSTRS. The System provides benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. NYSTRS issues a publicly available financial report that contains financial statements and required supplementary information for the System. The report may be obtained by writing to NYSTRS, 10 Corporate Woods Drive, Albany, New York 12211-2395.

Jericho Union Free School District Notes to Financial Statements For the Year Ended June 30, 2004

NYSERS provides retirement benefits as well as death and disability benefits. New York State Retirement and Social Security Law govern obligations of employers and employees to contribute, and benefits to employees. The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to NYSERS, Governor Alfred E. Smith State Office Building, 15th Floor Billing Unit, Albany, New York 12244.

The Systems are noncontributory, except for employees who joined the Systems after July 27, 1976, who contribute 3% of their salary, except that employees in the Systems more than ten years are no longer required to contribute. For NYSERS, the Comptroller certifies the rates expressed as proportions of members' payroll annually, which are used in computing the contributions required to be made by employers to the pension accumulation fund. Pursuant to Article 11 of the Education Law, the New York State Teachers' Retirement Board establishes rates annually for NYSTRS.

The District is required to contribute at an actuarially determined rate. The District contributions made to the Systems were equal to 100% of the contributions required for each year. The required contributions for the current year and two preceding years were:

	NYSTRS	NYSERS
2001 - 2002	113,505	47,927
2002 - 2003	445,987	72,675
2003 - 2004	813,736	392,194

Note 8 - Contingent liabilities:

The District has received grants, which are subject to audit by agencies of the State and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the district's administration believes disallowances, if any, will be immaterial.
