

EARLY CHILDHOOD CENTER

PK2, PK3, PK4, KINDERGARTEN

Young children are naturally inquisitive. They love to play, move, and engage the world around them. DC's Early Childhood Center provides the space, environment, and learning community where young learners develop a sense of awe and wonder for God's created world. This, in turn, fosters a life-long love of learning. The ability to teach scriptural truth through a developmentally appropriate

and comprehensive curriculum is at the heart of this endeavor. This approach allows teachers to focus on the whole child. Helping young learners understand that they are created, known, and loved by God is the cornerstone of our curriculum. DC's Early Childhood Center provides a comprehensive foundation for future academic success and a life rooted in Christ.

LEARN, PLAY, CREATE, AND GROW

EXCEPTIONAL FACILITIES

DC's Early Childhood Center is located in a dedicated wing at the school's Lower Campus in Devon, PA. This beautiful facility and campus provide a highly desirable and safe location. With a 30 acre campus complete with playgrounds, playing fields, woods, stream, meadow and gardens, there is room for young learners to play, explore, and learn outdoors. Classrooms are bright and well equipped. Additional facilities include a full-size gymnasium, library, chapel, and outdoor classrooms. Building security is a top priority, and a full-time licensed nurse is on site during school hours.

EXPERIENCE COUNTS

Combined, our current early childhood faculty members have over 70 years of experience in teaching early learners. This extensive knowledge inspires them to ensure teaching and programmatic choices are developmentally appropriate. Since children grow and learn on their own unique timetable, teachers use differentiated instruction to meet individual student needs.
